

# Status of Water Systems Adjusting Fluoride in Oklahoma

## Community Water Systems Adjusting Fluoride

- < 30,000 population served
- 30,000 - 125,000 population served
- > 125,000 population served
- Areas with Naturally High Fluoride Levels (>1.2 ppm) with population > 500

**Note:** Many public water systems sell their water to nearby communities. For example, Bixby, Glenpool, Jenks, and Yukon all purchase fluoridated water from other systems.

To learn more about adjusted and natural fluoride levels in your drinking water, go to the webpage [My Waters Fluoride](#).

**Data Sources:** Water Treatment Plants, Oklahoma Department of Environmental Quality, Environmental Labs, Centers for Disease Control and Prevention. Data compiled by Dental Health Service, March 2022.

Projection/Coordinate System: USGS Albers Equal Area Conic
