- Vision Revisit- changed to “to enhance brain health in Oklahoma.”
- Logo Vote – Morgan informed members that a Doodle Poll will be sent out for the voting of the OHBI Logo. She will also have it sent out in the black and white option as well. Majority will rule on which logo is chosen. The logo will be put on public education materials, etc.
- Dashboard – Morgan showed the members the OHBI Dashboard. Everything that the members send to Morgan is posted on the Dashboard such as upcoming events, something that members would like to share with the coalition, questions or concerns, informative news articles etc. This is a live website that constantly changes as it is updated.
- Directory Link – This can be filled out on the dashboard or [here](#).

Morgan asked all to fill in the OHBI Directory Information for contacting each other easier.

Morgan included the Dashboard link in the Chat Messages. Access the dashboard [here](#). This website is for internal use only. A public site is under development.

- Resource Mapping Activity – Morgan and Amanda Cribbs compiled the results of the feedback from the Focus Questions in the July Meeting. They created 4 categories from those results and they are:
 - 1) Awareness and Education
 - 2) Healthcare
 - 3) Social Determinates of Health
 - 4) Policy and Provided Support

Using Jam Board the Coalition members went through each category and determined what organization provides services, what services they are providing and how to bridge the gaps within the services they provide.

Morgan will take the information from this activity and compile it over the next few weeks and send an email it to the members of the Coalition. Please notify Sara or Morgan if there are any additions to add.
