Passcode:

Time	Topic	Discussion Points	Team Member(s) Responsible
12-12:10	Introductions		Workgroup Members
12:10-12:15	Updates	BRFSS	Leslie Ballenger / Jacob Guinan
12:15-12:30	State plan Data & Surveillance Goals	Review Goals Action Steps	Leslie Ballenger / Jacob Guinan
12:40-12:55	Group Share		Workgroup Members
12:55-1:00	Close		Leslie Ballenger

Commented [1]: For each group, I would add the mission and vision statement, and the specific goals associated with the group

Commented [MH2R1]: This has been added. Group overarching goals are page 3 from the workgroup scopes.

Next Meeting: March 7, 2024

Commented [3]: Also need a section for the 'takeaways'--who owns what job/task, when something is due, when follow up will happen. Make sure people know that they have a role and reason for attending the meeting.

Commented [MH4R3]: I have added a table on page 2 for this.

Action Steps:

Organization Responsible	Job/Task	Due Date	Follow up by

Group Goals:

Policy Development: Develop the infrastructure for policies and plans that support people with the disease and their caregivers and community health efforts. Mobilizes partnerships and action to identify and solve health problems.

Data & Surveillance: Monitor health status in Oklahoma to identify and solve community health problems and evaluate the effectiveness, accessibility, and quality of personal and population-based health services.

Public Education: Create infrastructure to inform, educate and empower the public, caregivers, and people with the disease about Alzheimer's disease and other related dementias as well as resources available.

Workforce Development: Create an infrastructure to assure that the public and personal healthcare workforce have essential competencies related to Alzheimer's disease and related dementias.
