

Meeting notes

Data & Surveillance Workgroup 8/1/24

- Belinda from Telligen was not ready to present Medicare data yet, hopefully at next meeting
- Could not have a full meeting because chair Lelsie was out for family emergency
- Discussed data we would like to highlight in infographics:
 - Underutilization of care planning CPT code
 - Lack of community resources such as adult day
 - List of neurologists
 - Respite opportunities (tableau map?)
