

## **Dementia Friendly Oklahoma Workgroup Meeting Notes 11/20/24**

The group came together to discuss updates on progress so far and strategy for growing the program in the new year. Dr. Odenheimer and Linda Thompson requested a recording of the standard presentation be shared with them so they can get a better understanding of DFO. We also discussed adapting DFA's sector guides for Oklahoma. We finished our discussion with a side conversation about other strategies for public education.
