A big topic was the American College of Surgeons will be coming in to do a survey of the Oklahoma trauma system to give recommendations for policies, protocol updates, whether it be for the State Department of Health as well as the regions, how we can move forward as a state since there has not been a review done in the past 10 or more years. 5. Reports

- Spencer Leiter reported they met today, July 22, 2025. They discussed interfacility transports and the document they received from Woodward EMS, and they would like to have it on the agenda for the next meeting to adopt the same letter region wide. Doing this would help the prioritization become more uniform. Each hospital is going to need to meet with each of their agencies to decide specifics
- Chad Campbell reported the CQI is proceeding forward with changes in how things are handled. Norma let the region know there is no longer a BOX account to upload and if someone needs to email her to make sure she can set up an account for the email. She encouraged people to start sending the cases in to the chair who will pass them on to Norma at the State.
- Kerry Stafford was not present to report on RMRS updates.

6. Tamara Fischer was not present to report anything on the Stroke System of Care. Melody C. Bridges gave a presentation on boosting up the Stroke System of Care. Questions followed and Melody gave her information. The state-wide stroke plan should be out next quarter.
