

Creek County Community Partnership

Develop a collaborative system that allows families to access resources and services to promote wellness through education, advocacy, barrier reduction, and promotion of a Drug Free Community.

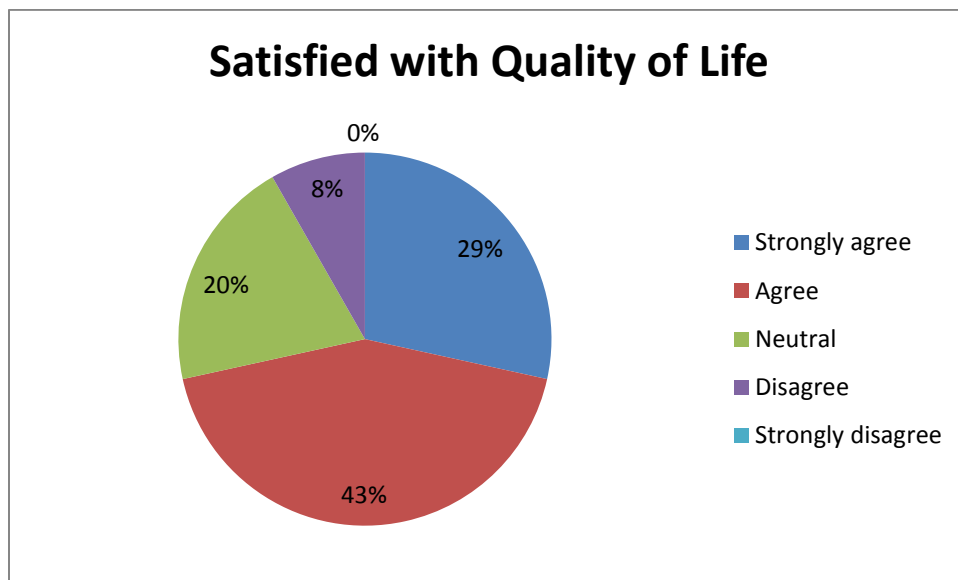

2013 Community Themes and Strengths Assessment

Results

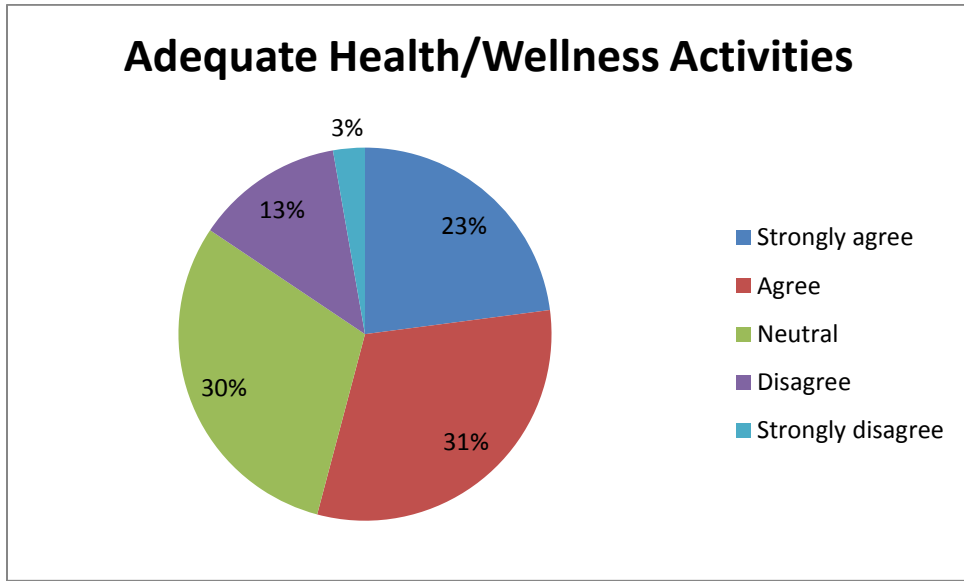

1. How would you rate your community as a “Healthy Community?”

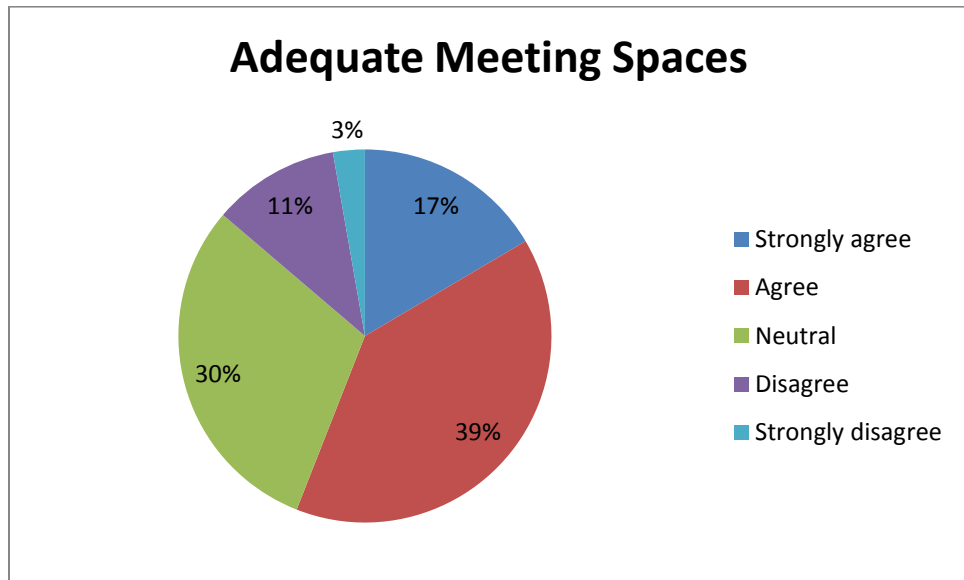

2. I am satisfied with the quality of life in our community (considering my sense of safety and well-being).

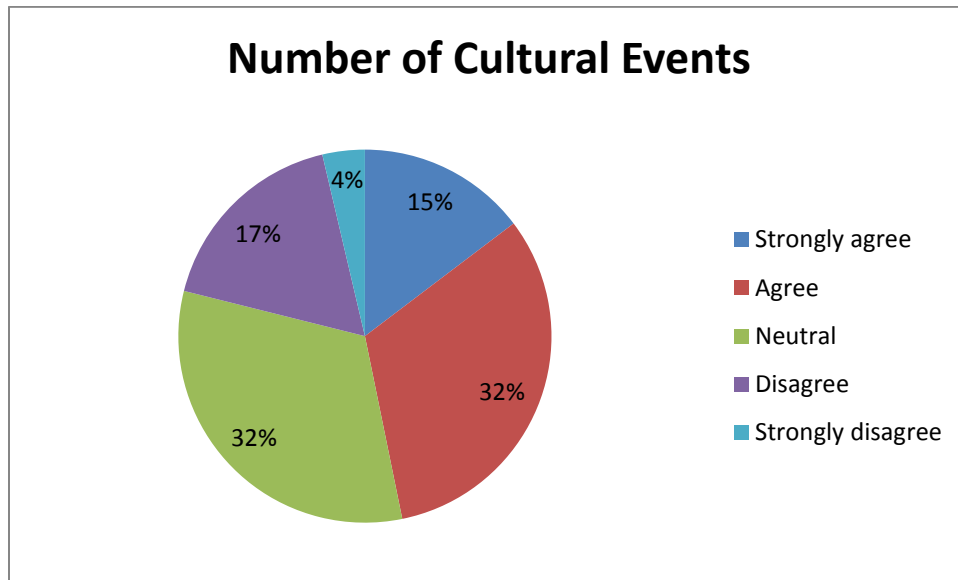

a. The community has adequate health and wellness activities.

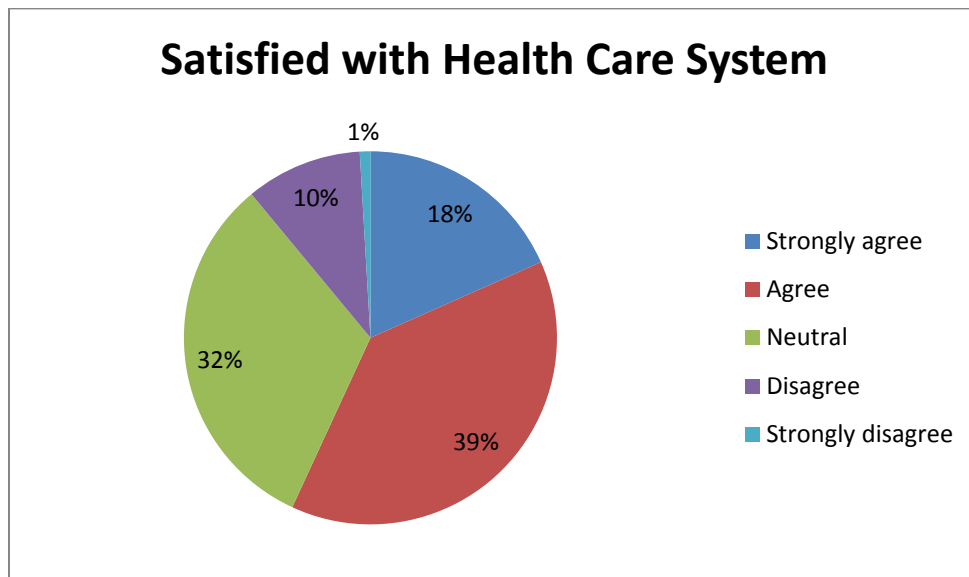

b. The community has adequate meeting spaces for groups, clubs, and large events.

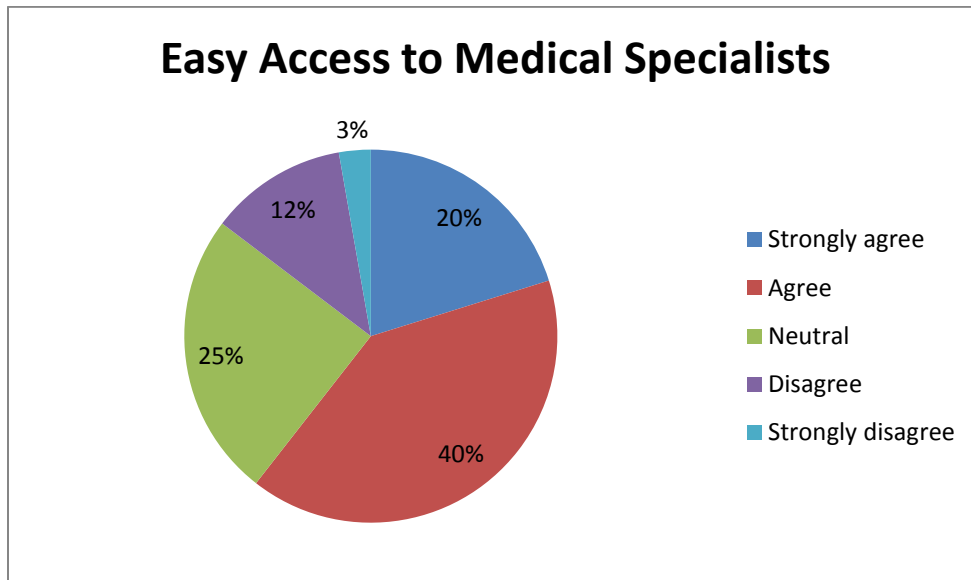

c. I am satisfied with the number and type of cultural events in my community (music, plays, art shows, etc).

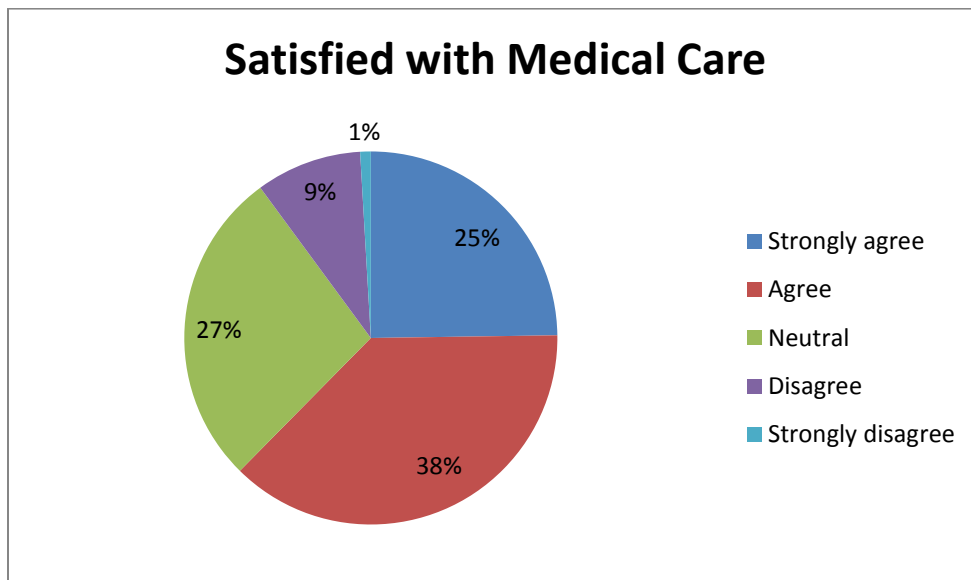

3. I am satisfied with the health care system in our community.

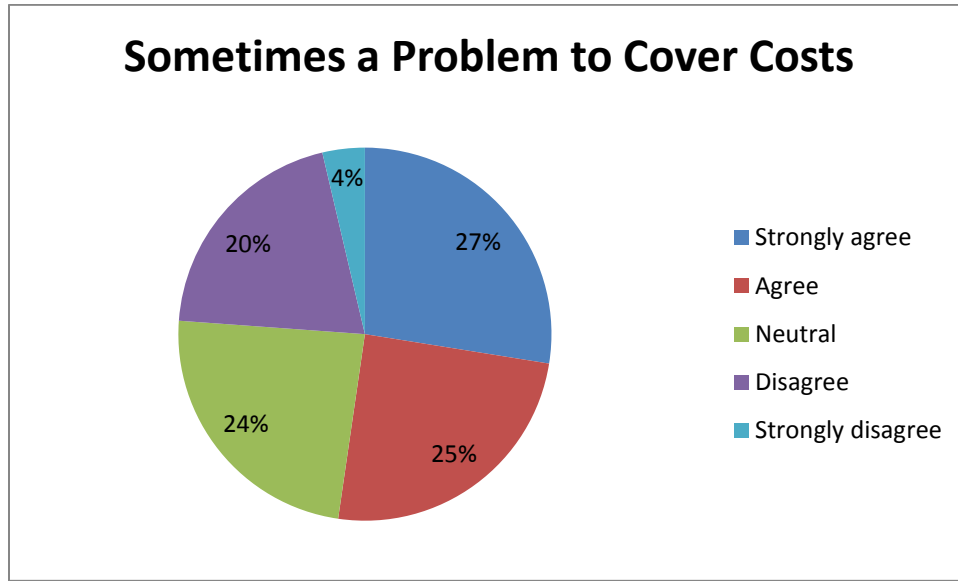

a. I have easy access to the medical specialists that I need.

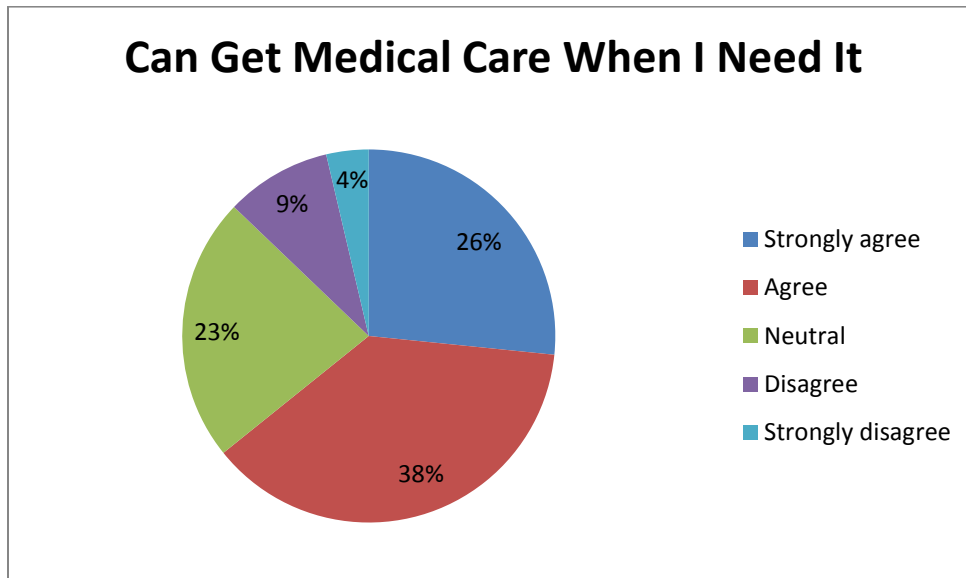

b. I am very satisfied with the medical care I receive.

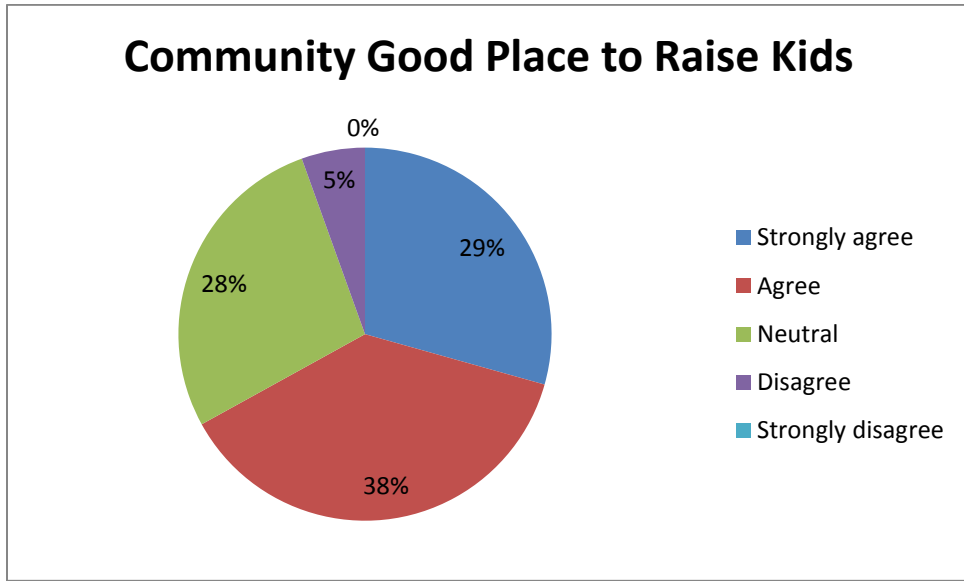

c. Sometimes it is a problem for me to cover my share of the cost for a medical care visit.

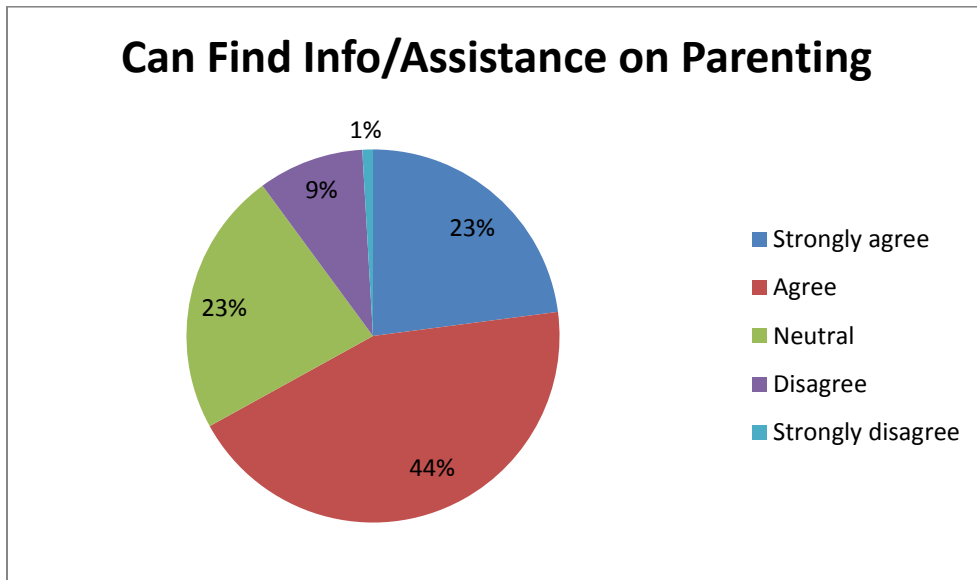

d. I am able to get medical care whenever I need it.

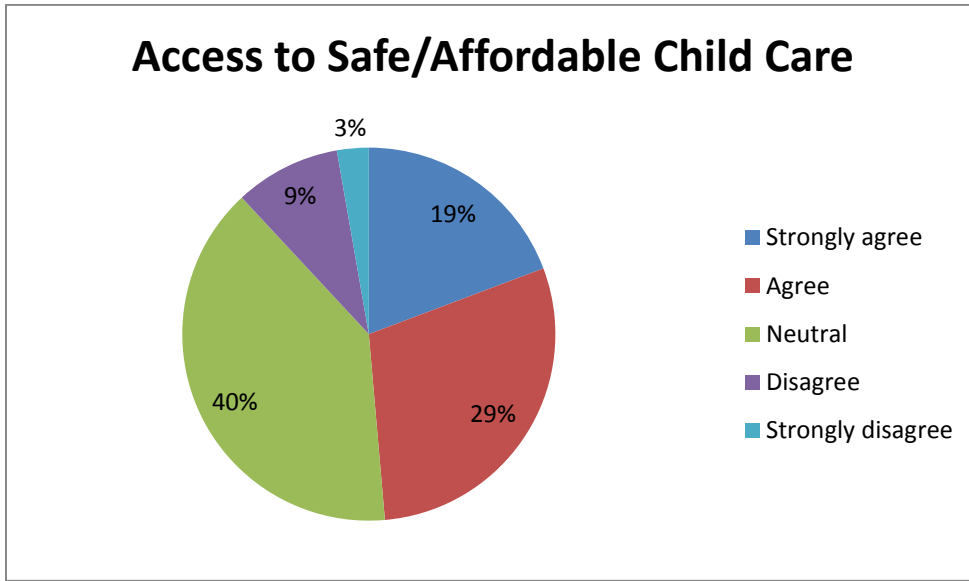

4. This community is a good place to raise children.

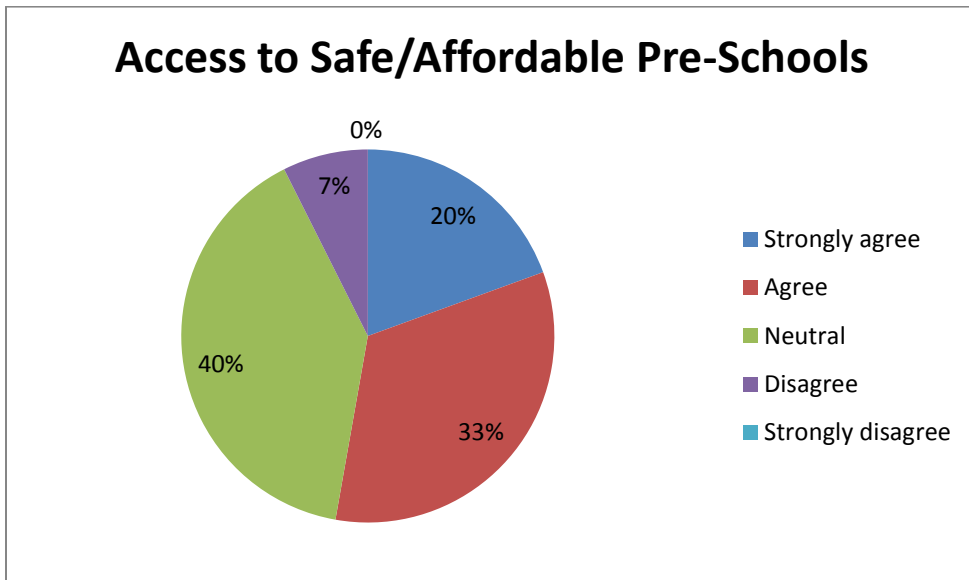

a. I can find adequate information or assistance on how to parent.

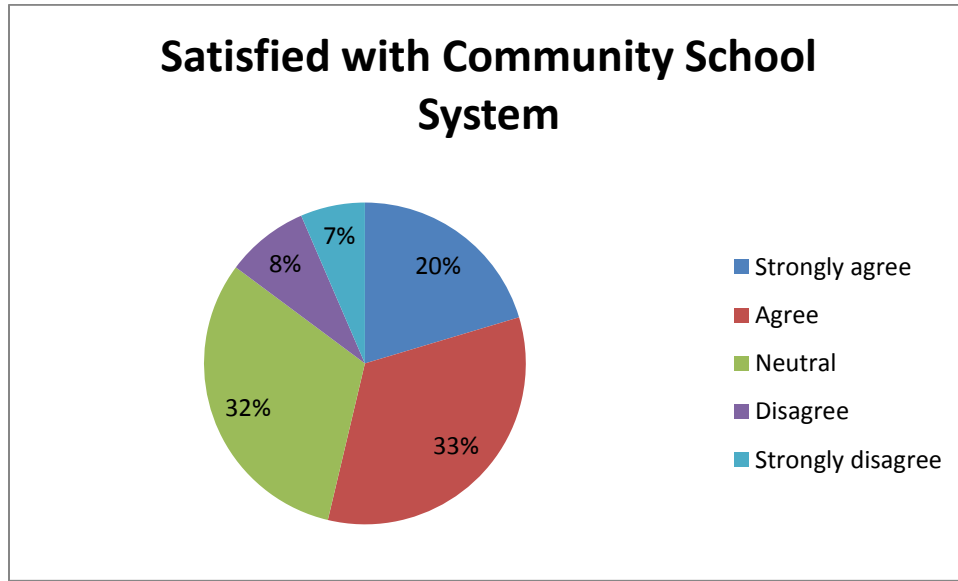

b. I have access to safe and affordable day care (child care).

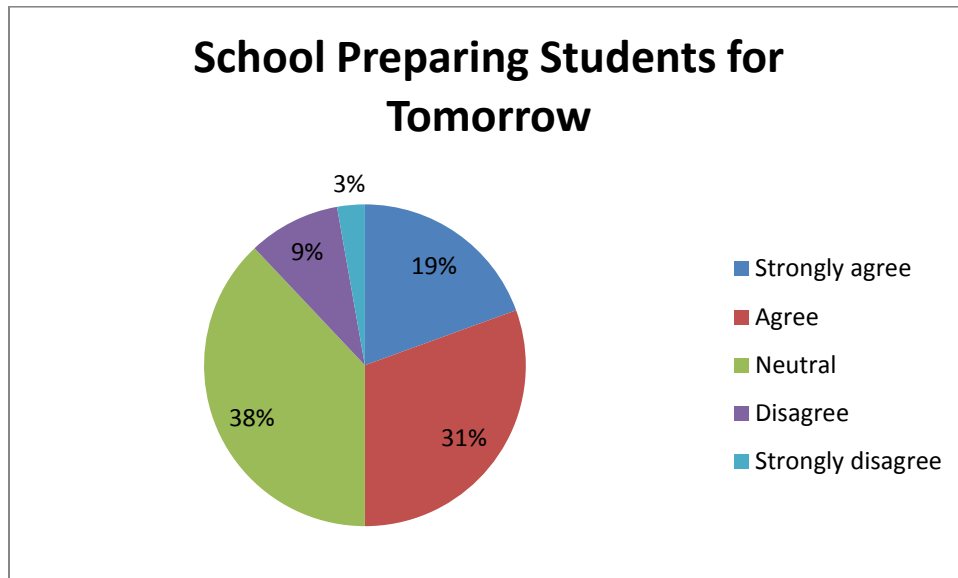

c. I have access to safe and affordable pre-schools.

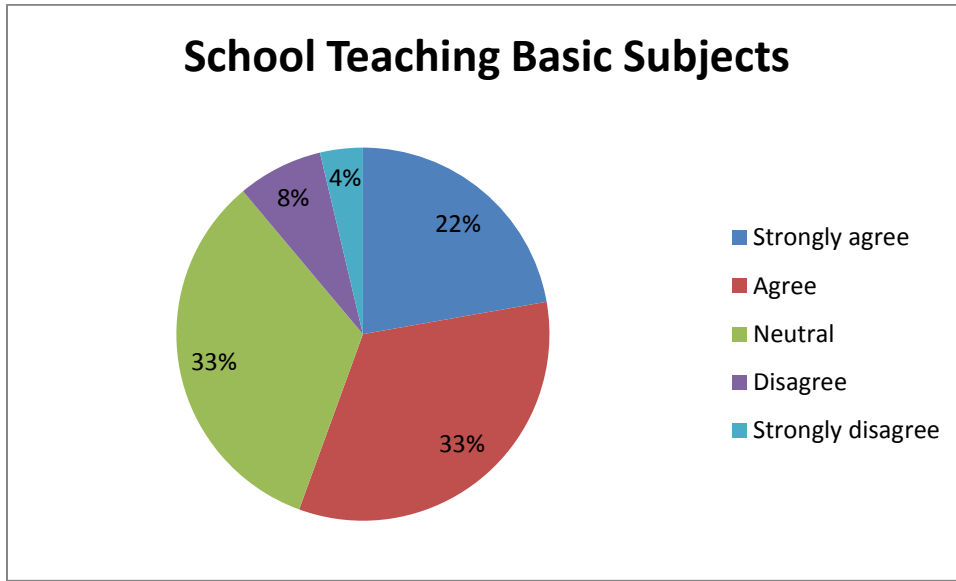

d. I am satisfied with the school system in my community.

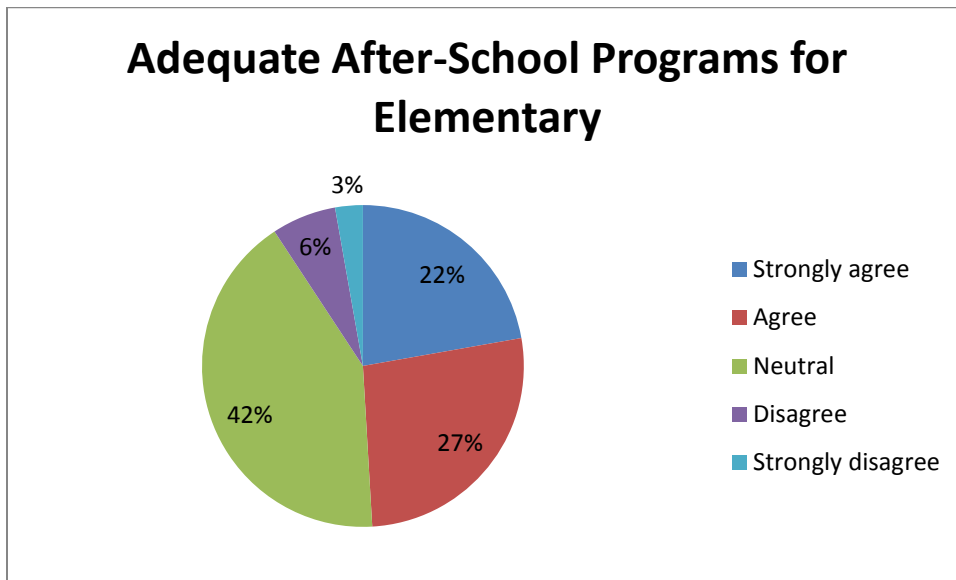

e. I am satisfied that my local school district is preparing students for tomorrow's job market.

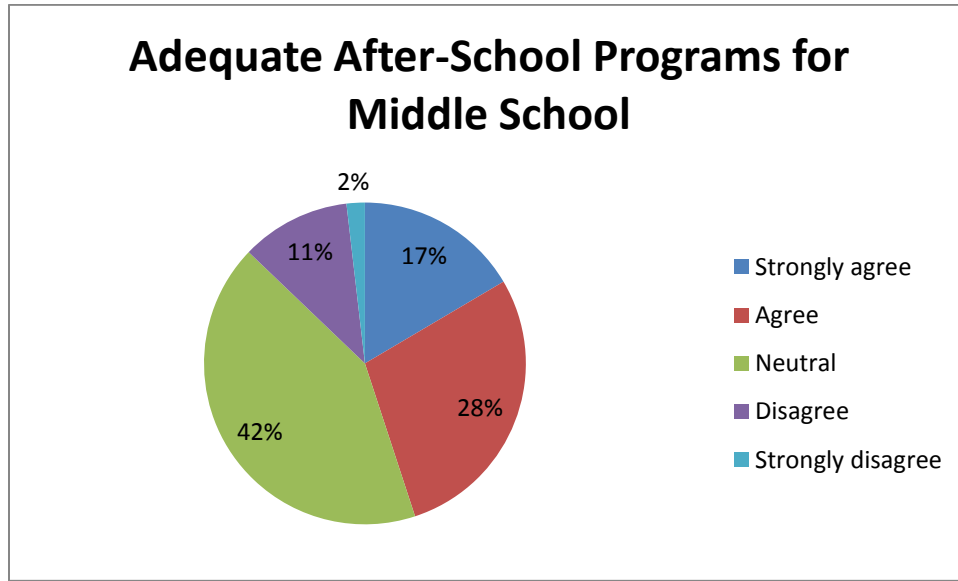

f. I am satisfied that my local school district is teaching the basic academic subjects.

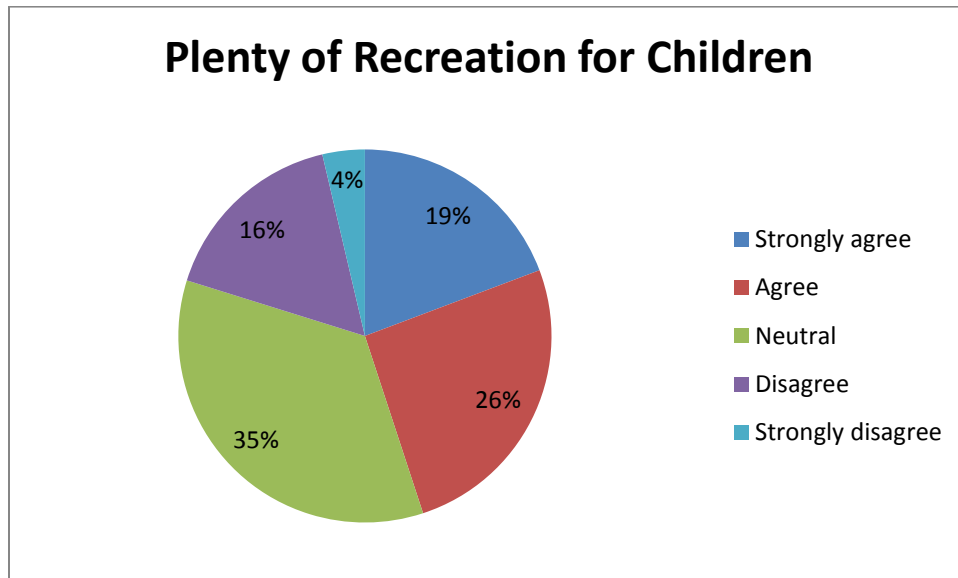

g. There are adequate after school programs for elementary age children to attend.

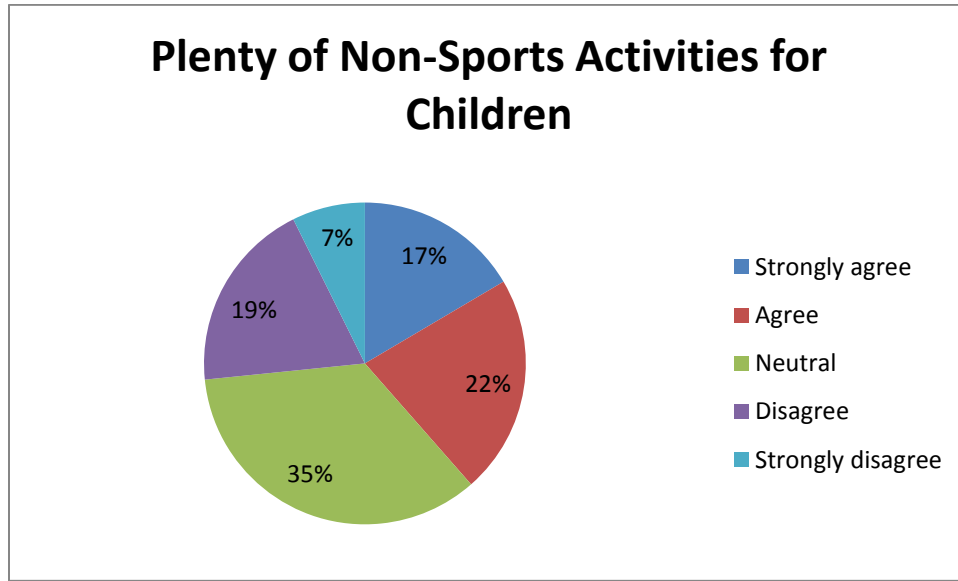

h. There are adequate after school opportunities for middle school and high school age students.

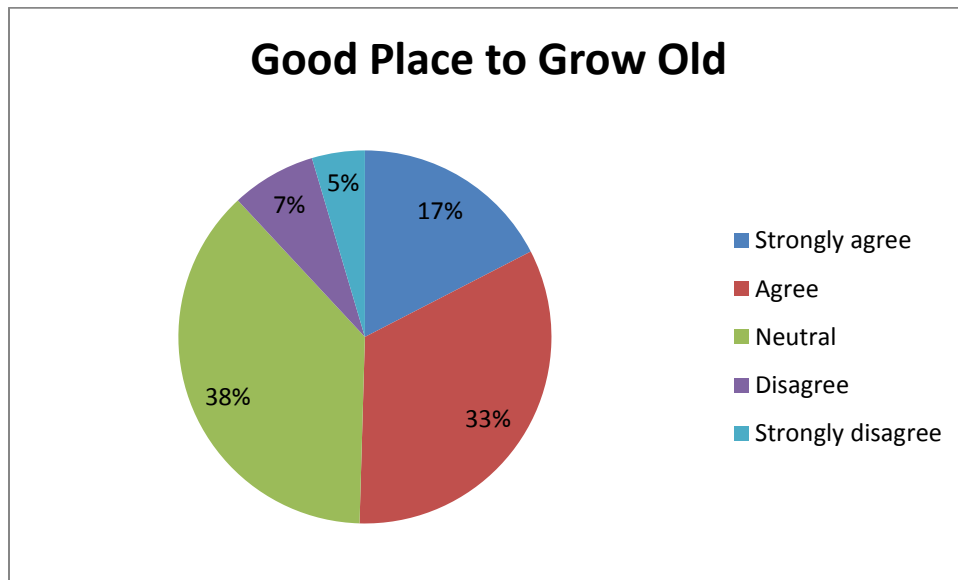

i. There are plenty of recreation opportunities for children in my community.

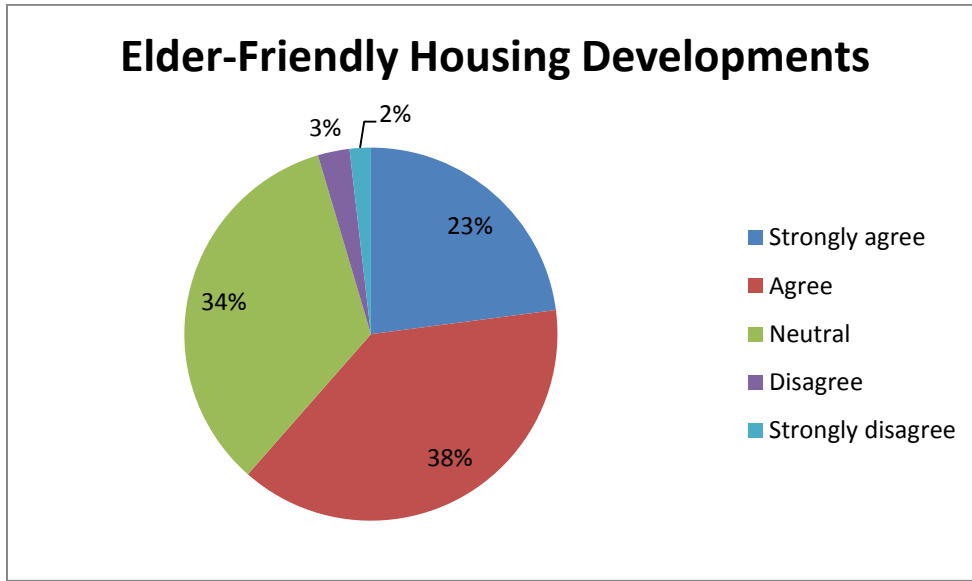

j. There are plenty of non sports-related activities for children in my communities.

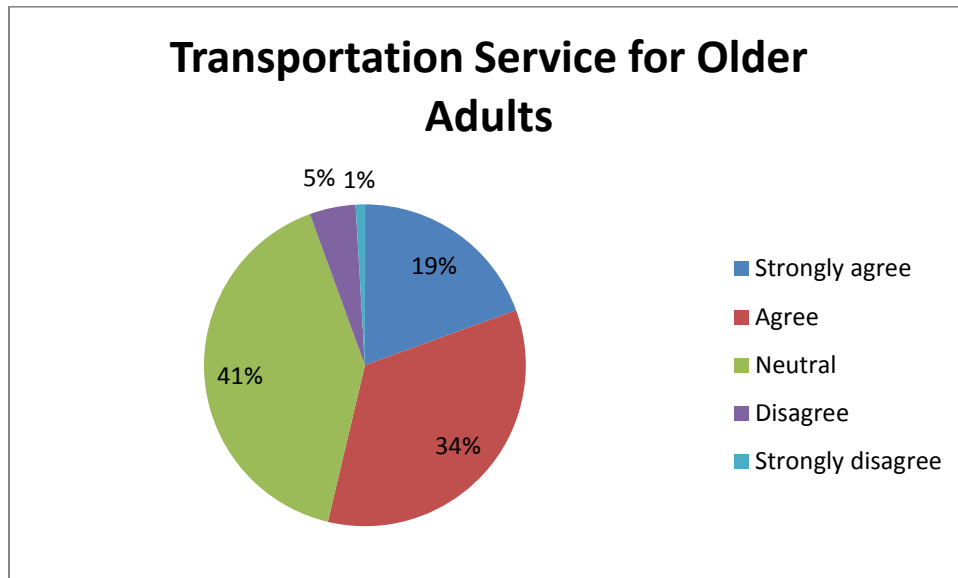

5. This community is a good place to grow old (considering elder-friendly housing, transportation to medical services, shopping, elder day care, social support for the elderly living alone, meals on wheels, etc).

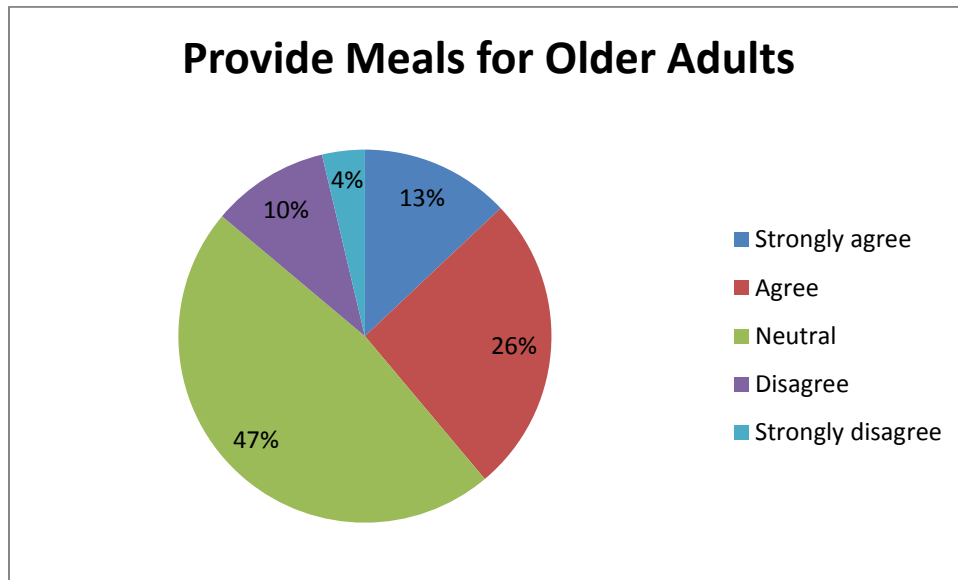

a. There are housing developments that are elder-friendly.

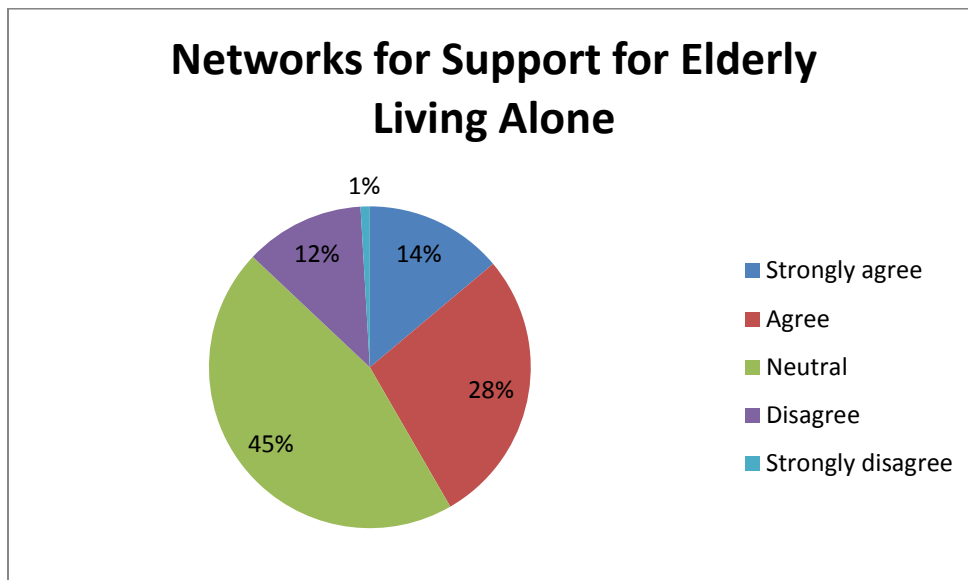

b. There is a transportation service that takes older adults to medical facilities or to shopping centers.

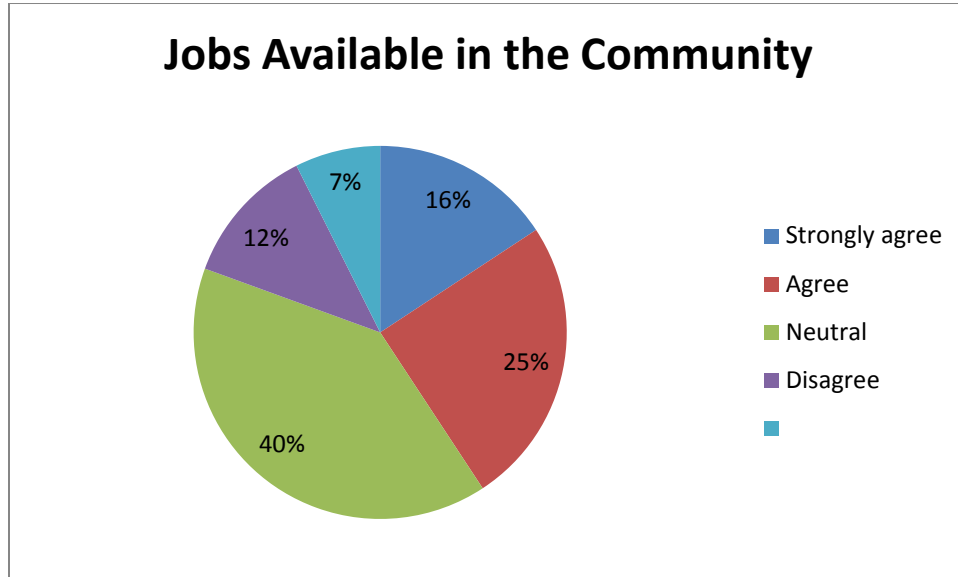

c. There are enough programs that provide meals for older adults in my community.

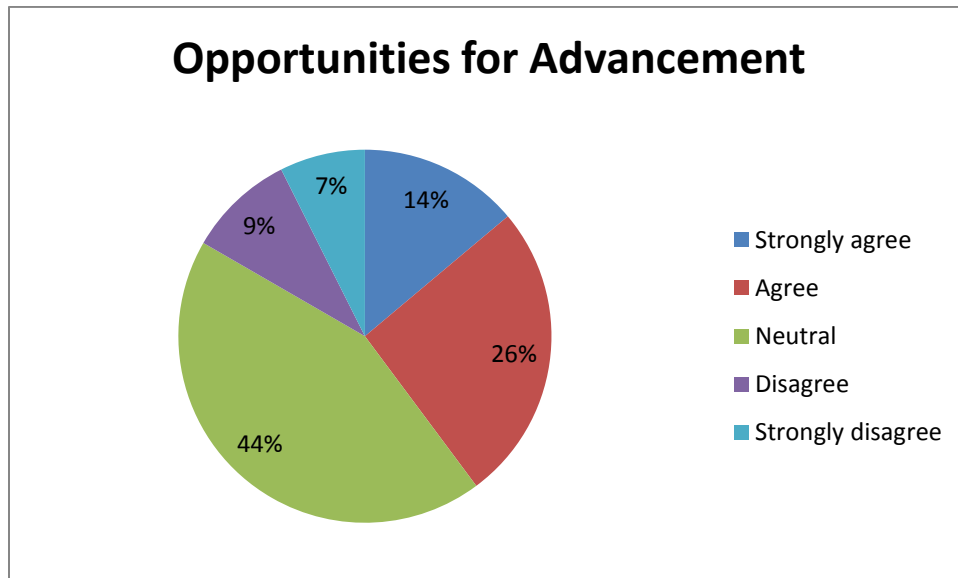

d. There are networks for support for the elderly living alone.

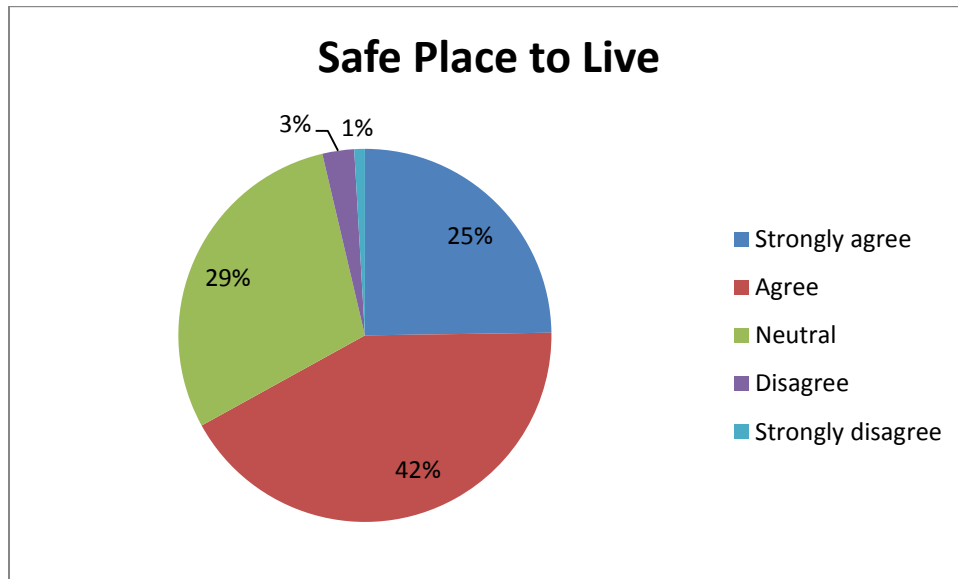

6. There are jobs available in the community (considering locally owned and operated businesses, jobs with career growth, affordable housing, reasonable commute, etc.).

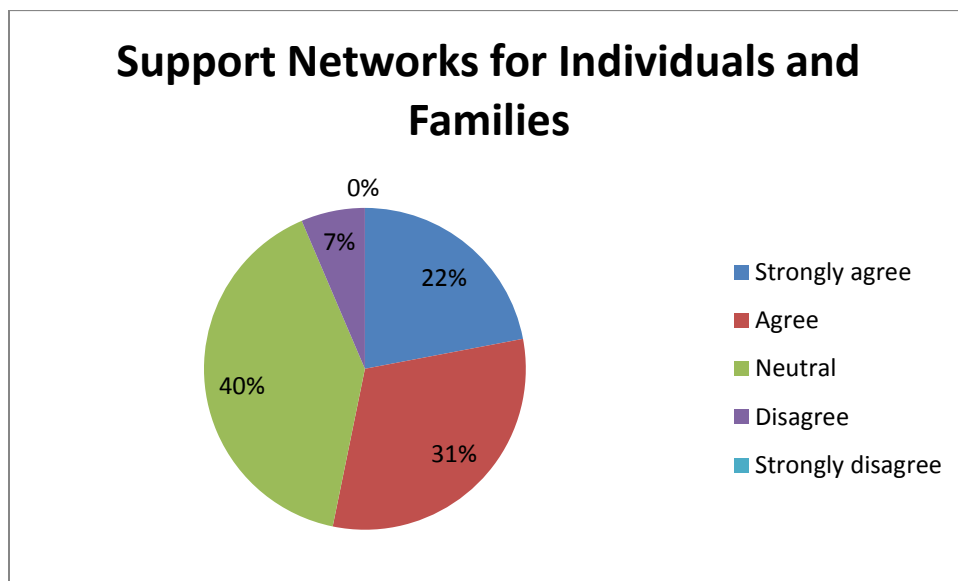

- a. There are opportunities for advancement in the jobs that are available in the community (considering promotions, job training, and higher education opportunities).

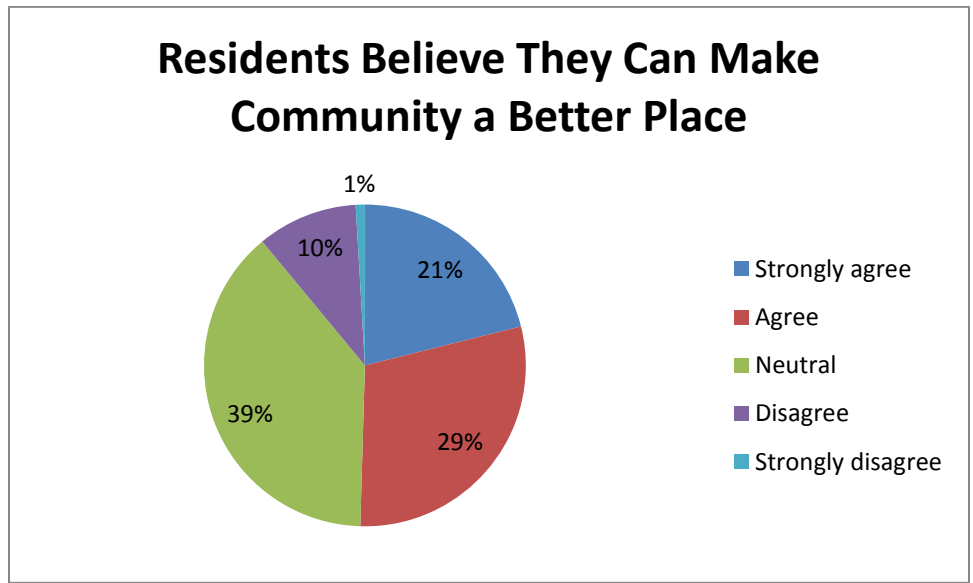

7. The community is a safe place to live (considering residents' perception of safety in the home, workplace, schools, playgrounds, parks, shopping areas). Neighbors know and trust one another and look out for one another.

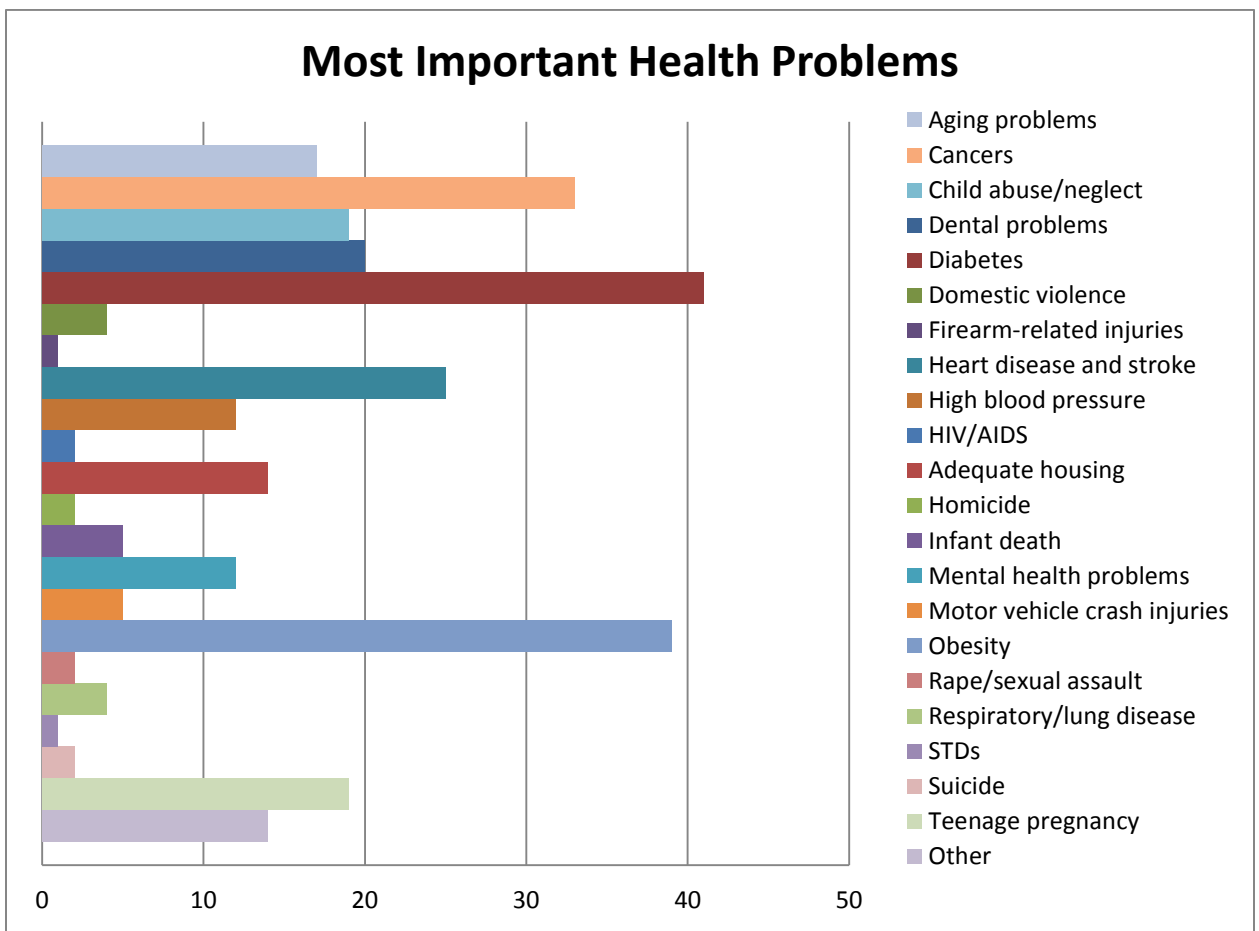

8. There are support networks for individuals and families (neighbors, support groups, faith community outreach, agencies, and organizations) during times of stress and need.

9. All residents believe that they, individually and collectively, can make the community a better place to live.

10. In the following list, what do you think are the **three most important "health problems"** in our community? (problems that have the greatest impact on overall community health) Check only three.

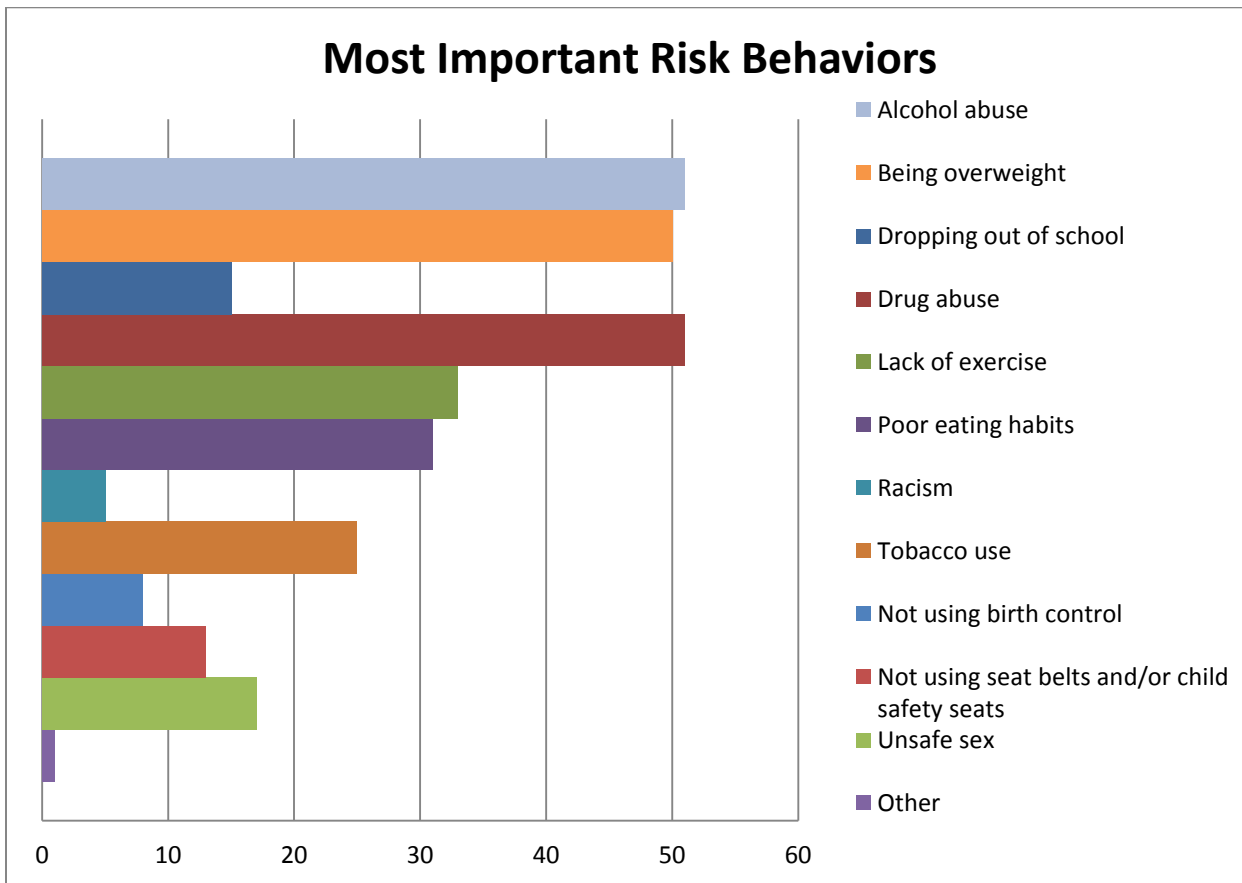

11. Of the problems that you marked, which one would you most likely work on?

Aging problems - 1
 Cancers - 3
 Child abuse/neglect - 5
 Dental problems - 3
 Diabetes - 7
 Drug abuse - 2

High blood pressure - 2
 Homicide - 1
 Housing - 5
 Mental health – 5
 Obesity - 7
 Teen pregnancy - 10

12. In the following list, what do you think are the **three most important “risky behaviors”** in our community? (those behaviors that have the greatest impact on overall community health). Check only three.

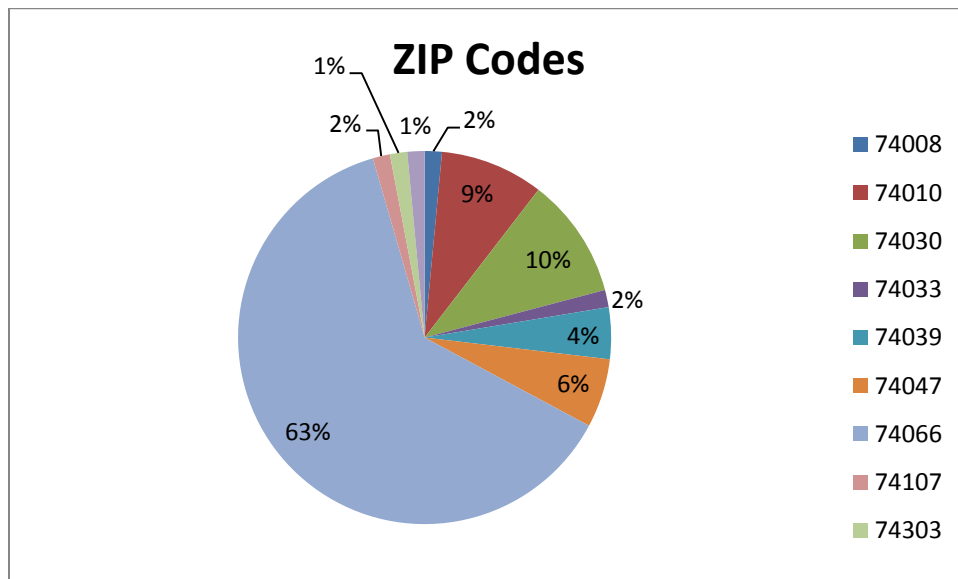

13. Is there anything else you would like to add that you feel the survey did not cover?

- The health department is only open two days a week at Drumright, sometimes it would be nice to pick up WIC or get my child’s head checked on a Wednesday or Tuesday so I don't have to do without and keep my child home from school.
- I think that the health department should be open more days during the week at Drumright and sometimes we need to be able to pick up our WIC checks on days other than Monday and Friday and I can't go anywhere else.

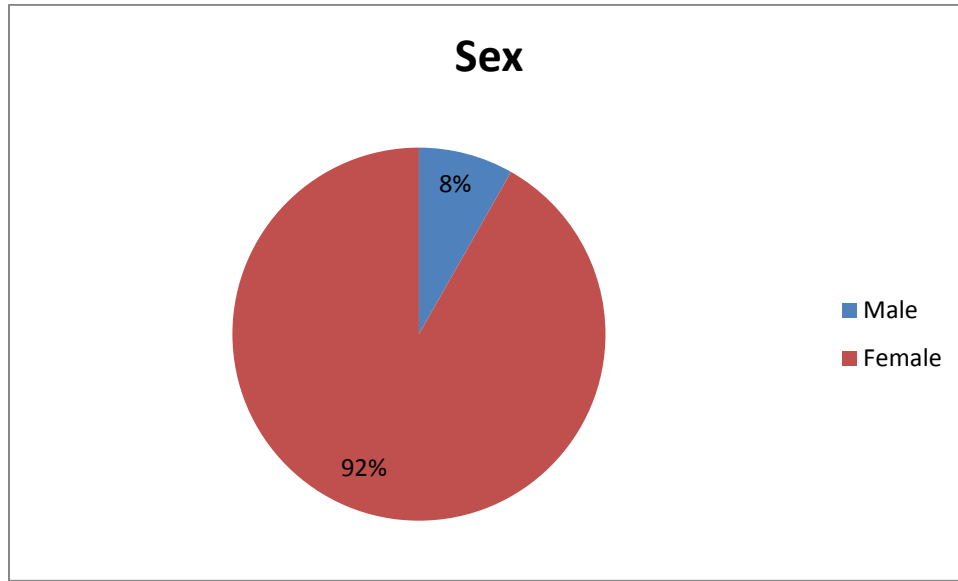

- What changes are you going to make from this information gathered. Need transportation, adult services, dental, medical, Rx help.
- The schools are too large now. Bringing two schools together was a big mistake. They don't teach them the basics any longer-like tying shoes, counting change.
- I believe our community would be better off if our health department was open more hours to serve the public and have more than a skeleton staff. Lots of uninsured people live in this community and this is all the health care some can receive besides other services. We have a much better, nicer building than most cities around us and it needs to be available for our use.
- The survey covered jobs, but good paying jobs for college graduates with families need to be sought after.
- They need better housing programs in Creek County. Only housing there is in Tulsa. I don't think Tulsa is good place to raise kids. Housing for single mother. I think we need some program for schooling for single moms but free.

The following information is voluntary. It will be used for demographic purposes only. Keep in mind that you WILL NOT and CANNOT be identified in any way with your answers.

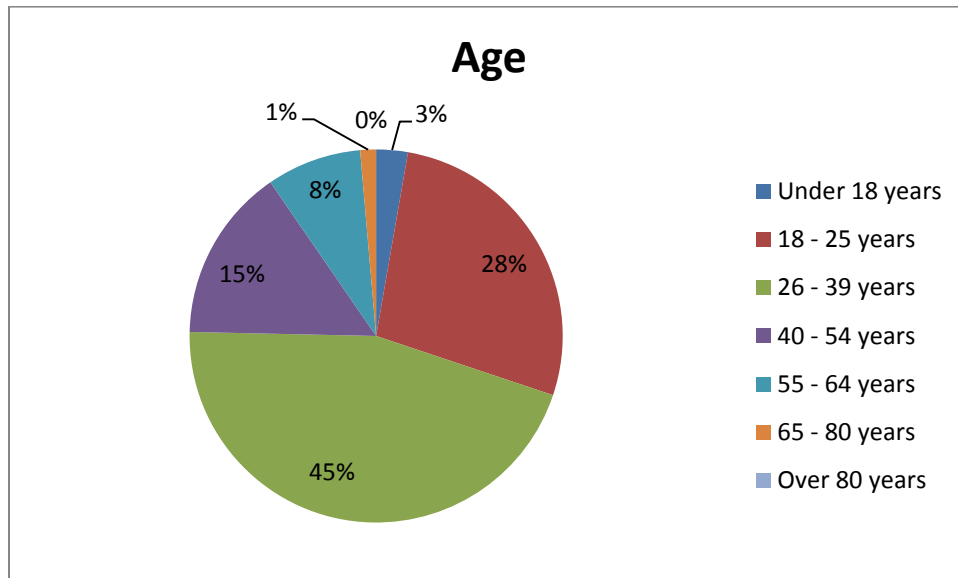

14. ZIP Code (no dashes – e.g. 555554444)

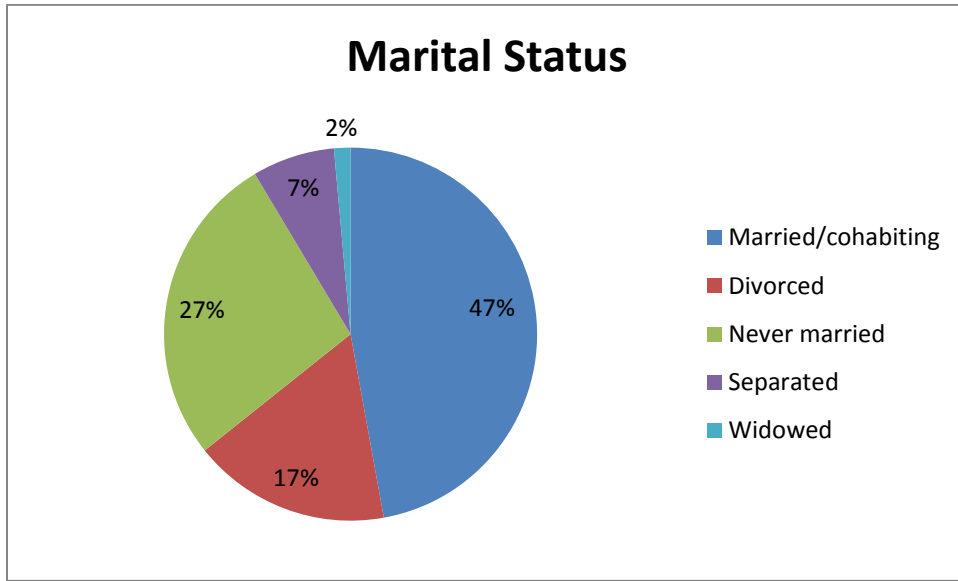

15. Your Gender

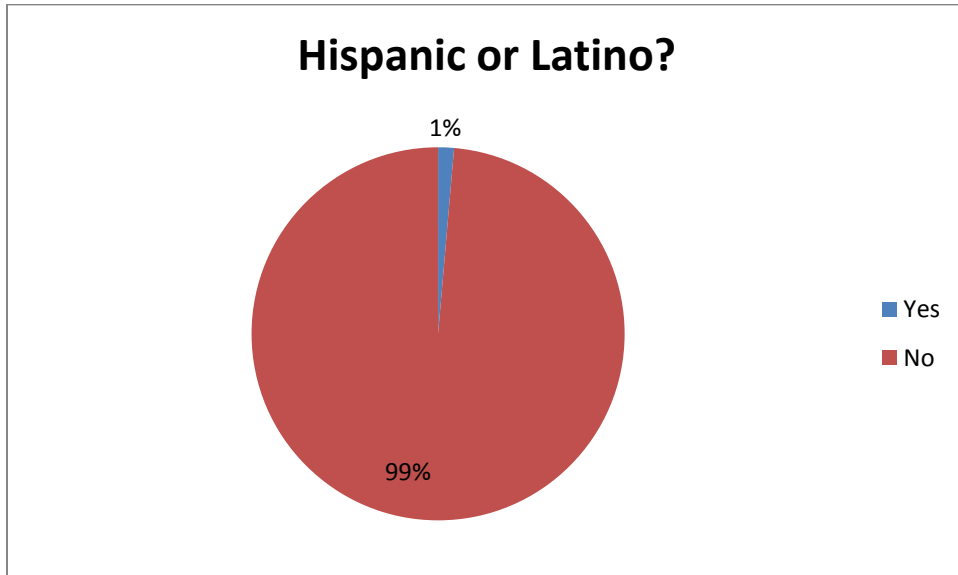

16. Your age:

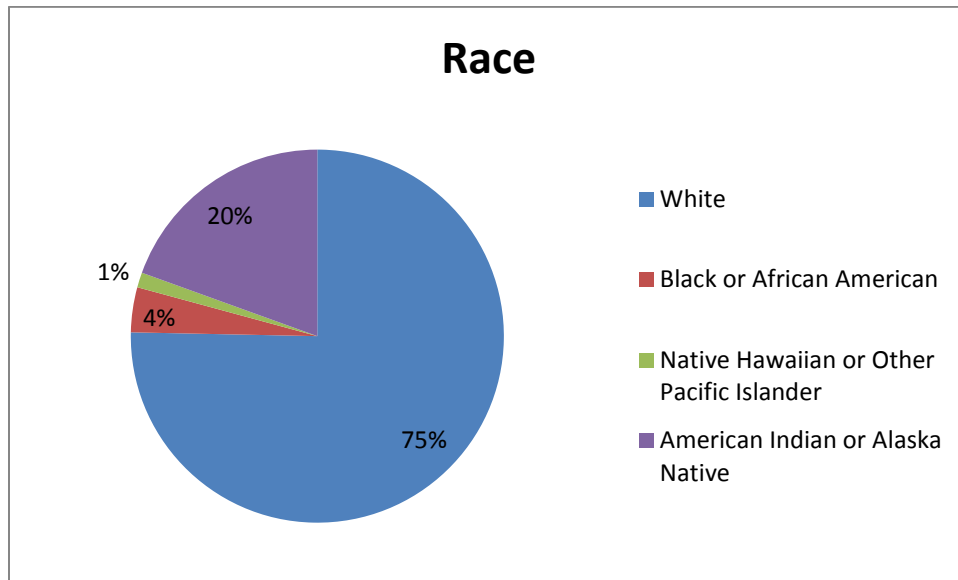

17. Marital status:

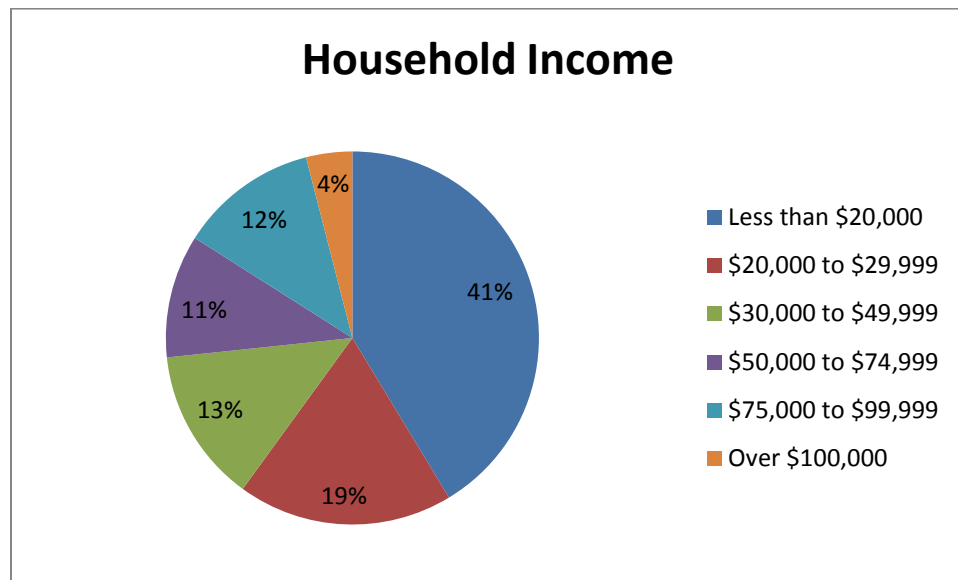

18. Are you Hispanic or Latino?

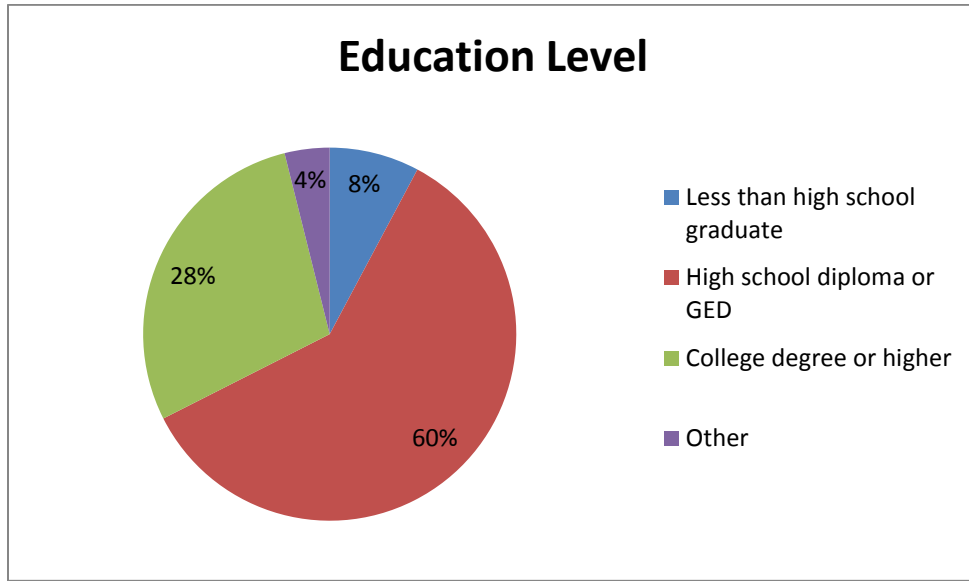

19. Which of these groups would you say best represents your race? You may choose more than one if you wish.

20. Household income:

21. Your highest education level:

22. How do you pay for your health care? (Check all that apply)
