Health Workforce Subcommittee Purpose

"Inform, coordinate, and facilitate statewide efforts to ensure that a well-trained, adequately distributed, and flexible health workforce is available to meet the needs of an efficient and effective health care system in Oklahoma"

- Conduct data analysis and prepare reports on health workforce supply and demand;
- Research and analyze state health professional education and training capacity;
- Recommend recruitment and retention strategies for areas of high need; and
- Assess health workforce policy, evaluate impact on Oklahoma's health system and health outcomes, and develop health workforce policy recommendations.
