#### **ANTHONY AGAIN NAMED TO NATIONAL PETROLEUM COUNCIL**

Oklahoma Corporation Commissioner Bob Anthony been named to serve his sixth straight term on the National Petroleum Council (NPC) by U.S. Secretary of Energy Dan Brouillete.

Created in 1946 by President Truman, the Council provides essential advice, information and recommendations to the Secretary of Energy on matters related to U.S. oil and natural gas policy.

Anthony was first appointed to the NPC in 2010. He is one of 8 Oklahoma residents named to the NPC this year, giving Oklahoma the most of any state.

In the last full reporting year (2019) the Energy Information Administration reported Oklahoma was the third largest natural gas producer in the U.S. and the fourth largest oil producer, accounting for about 9 percent of the nation's natural gas production and 5 percent of U.S. crude production.

## BACKGROUND INFORMATION ON THE NATIONAL PETROLEUM COUNCIL

In May 1946, the President stated in a letter to the Secretary of the Interior that he had been impressed by the contribution made through government/industry cooperation to the success of the World War II petroleum program. He felt that it would be beneficial if this close relationship were to be continued and suggested that the Secretary of the Interior establish an industry organization to advise the Secretary on oil and natural gas matters. Pursuant to this request, Interior Secretary J. A. Krug established the National Petroleum Council (NPC) on June 18, 1946. In October 1977, the Department of Energy was established and the Council's functions were transferred to the new Department.

The purpose of the NPC is solely to advise, inform, and make recommendations to the Secretary of Energy on any matter requested or approved by the Secretary, relating to oil and natural gas or the oil and gas industries. Matters that the Secretary would like to have considered by the Council are submitted in the form of a letter outlining the nature and scope of the study. The Council reserves the right to decide whether it will consider any matter referred to it.

Examples of studies undertaken by the NPC at the request of the Secretary include:

- *U.S. Arctic Oil & Gas* (1981)
- *Environmental Conservation – The Oil & Gas Industries* (1982)
- *Third World Petroleum Development: A Statement of Principles* (1982)

- *Dynamic Delivery: America's Evolving Oil and Natural Gas Transportation Infrastructure* (2019)
- *Meeting the Dual Challenge: A Roadmap to At-Scale Deployment of Carbon Capture, Use, and Storage* (2019).

The NPC does not concern itself with trade practices, does not lobby, nor does it engage in any of the usual trade association activities. The Council is subject to the provisions of the Federal Advisory Committee Act of 1972.

Members of the National Petroleum Council are appointed by the Secretary of Energy and represent all segments of the oil and gas industries and related interests. The NPC is headed by a Chair and a Vice Chair, who are elected by the Council. The Council is supported entirely by voluntary contributions from its members.
