

OFFICE OF THE ASSISTANT SECRETARY OF DEFENSE  
3500 DEFENSE PENTAGON  
WASHINGTON, DC 20301-3500

SUSTAINMENT

March 1, 2022

Mr. Will Furgeson  
SunChase Power  
4300 Speedway Suite 4617  
Austin, TX 78765

Reference: Federal Aviation Administration Aeronautical Study Number: 2021-WTW-8804-OE  
and 73 associated structures

Dear Mr. Furgeson,

Thank you for your participation in the Mitigation Response Team to assess and overcome military impacts from your proposed Twelvemile wind farm project near Milburn, Oklahoma. In a letter dated February 1, 2022, the Department of Defense (DoD) described the potential impacts to military operations for the project.

As a result of discussions between SunChase Power and the U.S. Air Force, we have determined that construction of the Twelvemile wind project, submitted to the Federal Aviation Administration on November 30, 2021, will not present an adverse impact to military operations.

Our response to the Federal Aviation Administration included a notification that further expansion beyond the current project area may present an adverse impact. We encourage you to engage DoD prior to any proposed expansion.

If you have any further concerns, please contact Mr. Michael Lignowski at the Military Aviation and Installation Assurance Siting Clearinghouse by calling (571) 372-6853 or emailing michael.j.lignowski.ctr@mail.mil.

Sincerely,

A handwritten signature in blue ink, reading "Steven J. Sample".

Steven J. Sample
