Reference: ASN: 2019-WTW-5338 and 2019-WTW-5339-OE

Dear Mr. Richards,

The Military Aviation and Installation Assurance Siting Clearinghouse (The Clearinghouse) has reviewed two meteorological towers being added to the Frontier II wind power project in Blackwell, OK. The Clearinghouse found "No" adverse impacts to DoD missions in the area and has entered a determination of "No Objection" to these structures via the FAA Obstruction Evaluation / Airport Airspace Analysis system (OE/AAA).

We are providing this letter to certify mission compatibility pursuant to Oklahoma House Bill 2118. If you have any questions, please contact me at [steven.j.sample4.civ@mail.mil](mailto:steven.j.sample4.civ@mail.mil) or at 703-571-0076.

Sincerely,

A handwritten signature in blue ink, appearing to read "RE Tickle", is positioned above the typed name.

Ronald E. Tickle  
Executive Director  
Military Aviation and Installation  
Assurance Siting Clearinghouse
