Ms. Gay stated that included in the Board members' packet this month is a report prepared by the ODMHSAS attorney that handles administrative actions in relation to organizational certifications. She stated that their goal is to keep the Board members informed of the status of legal proceedings. Ms. Gay stated that items on the report that are pending are potential litigation and, therefore, it would be appropriate if the Board wished to discuss any matter further, that the Board could do so with the attorney handling the matter in executive session. She stated that the report was for informational purposes only and does not require any action from the Board. She had nothing further to add to the report.

Dr. McCaffree joined the meeting at 9:20 a.m.

DISCUSSION AND POSSIBLE ACTION REGARDING ODMHSAS ADMINISTRATIVE RULES

Traylor Rains-Sims, Director of Policy and Planning stated that the Department of Mental Health and Substance Abuse Services, as part of the requirements set forth in the Administrative Procedure Act, has gone through a period of rulemaking/revisions for review and approval by the Board members.

Mr. Rains-Sims stated that the public was given the opportunity to provide written comments, and a public hearing was held to allow further questions and comments to the proposed changes to this chapter. These comments were provided to the Board for their consideration.

The Board's approval of these rules is part of the formal process to implement new rules and rule revisions. Should the Board choose to endorse the rules that are being presented for consideration, they would then be submitted to the Legislature. The Legislature would then go through their process for rule changes/revisions.

DISCUSSION REGARDING REPORT FROM COMMISSIONER

Commissioner White reviewed her report with the Board as follows:

Oklahoma Substance Abuse Services Alliance (OSASA) Legislative Lunch – (Speaker) – Commissioner White began her remarks stating that this year OSASA hosted a legislative lunch at the Oklahoma History Center and invited the legislators to attend. She stated that they had a wonderful speaker panel and a great turnout, with roughly 20 legislators attending, along with several agency directors.

Oklahoma Watch Community Forum – “Oklahoma Watch-Out: Budget Crisis – A Threat to Oklahomans’ Health?” – (Speaker) – Commissioner White explained that Oklahoma Watch put together a community forum about the impact the budget cuts are going to have on the health system as a whole. She stated that this was a panel presentation with herself and Nico Gomez, CEO of the Oklahoma Health Care Authority. It was a taped presentation at Kamp’s Café and there were approximately 100 individuals in attendance. She stated that it was a great piece that shows the impact of the budget cuts on not only physical healthcare but mental illness and addiction as well.

Safer Stronger Tulsa: Alcohol Awareness Summit – (Speaker) – Commissioner White stated that Mayor Dewey Bartlett reached out to the Department requesting we speak at their summit in Tulsa on alcohol abuse awareness.

Greater Oklahoma City Chamber Board of Advisors Meeting – (Speaker) – This meeting was in regards to the Chamber’s work on helping to figure out who the right individuals and the right number of individuals are that belong in the Oklahoma County jails. She stated that the 17-member panel will be discussing who should be diverted from the criminal justice system with the Chamber’s Board of Advisors to ensure the business community is as aware as possible.

33rd Annual Day at the Legislature – “Environmental Concerns and Criminal Justice & Corrections” – Sponsored by the Oklahoma Conference of Churches – (Speaker) – Commissioner White remarked that she has been one of the keynote speakers at this event for the last two years, and this year they focused on how to get individuals into the correct facilities.

Gary Cox, Director, and Stephen Cagle, M.D., Board Chair, Oklahoma City – County Health Department – Commissioner White explained that the Oklahoma State Department of Health oversees all of the county health departments with the exception of the Oklahoma City/County and Tulsa County Health Departments; these two departments are standalone entities. She stated that the Oklahoma City/County Health Department met with the ODMHSAS leadership team because they would like to step up their efforts and support the ODMHSAS as it relates to mental health and substance abuse issues.

Oklahoma City Metro Employer Council – (Speaker) – Commissioner White stated that she spoke at the Oklahoma City Metro Employer Council meeting. She noted that there were nearly 300 business leaders, along with their HR leaders discussing what effects untreated mental health and substance abuse has on the adult workforce and why it’s important for their company, if they provide insurance, that they have good mental health and substance abuse coverage for their employees and also that they have good EAP programs.

Senator Clark Jolley, Senator Kim David, and Nico Gomez, CEO, Health Care Authority – Commissioner White stated that she has had numerous meetings at

the capitol surrounding the budget issues. Commissioner White explained briefly about the billion dollar shortage the state is facing and stated that the Legislature can either create revenue to shrink the shortage or they can cut spending, which means cutting state agencies or a combination of both, which is the discussion that's happening at the capitol. Commissioner White stated that she believes that they will do a combination but has no idea on how that will look at this point.

Commissioner White stated that she spoke with Mr. Gomez about an idea he has to help both the Health Care Authority and ODMHSAS with the budget cuts we are facing for the next fiscal year. She stated that his plan is called the "Medicaid Stabilization and Rebalancing Act." She said that Mr. Gomez has been working on a way to shift those in the higher income bracket of Medicaid into the private market using subsidies and to bring those without insurance into the Insure Oklahoma program. She stated that the obstacle now is that it needs financing; however, Mr. Gomez has come up with three options to pay for it. Those include raising the cigarette tax; a SHOPP fee, which is the fee that the hospitals already pay into Medicaid to match federal dollars to pull in more money as a whole; and a carrier fee, which is similar to the shop fee but would be placed on insurance carriers. The income from this would be used to help stabilize the Medicaid rates that are crashing. Commissioner White explained that by increasing the sales tax on cigarettes it is a deterrent for kids because they have less disposable income. She stated that for funds from the cigarette tax to be available July 1 that proposal will need a super majority vote at the capitol instead of a simple 51 percent margin. Commissioner White explained that the coalition working on this is made up of everyone from health care and hospitals to the State Chamber because they know how important it is to get the system stable. She stated that she believes that this is the only way to reduce the cuts facing the Department this year and next year.

Mr. Fisher asked about the individuals that are impacted by the cigarette tax and what they will do to obtain cigarettes. Commissioner White stated that research has shown that it deters kids from buying in the first place and less often.

Dr. McCaffree stated that it decreases the youth access and it decreases infant death and increases infant maturity. She stated that this budget shortfall will have devastating effects on all walks of life if a solution cannot be found. She encouraged the Board members and the community to help get the support needed to make this a reality.

Commissioner White stated that Samantha Galloway has been hired as the Department's Director of Governmental Operations and Legislative Liaison. Ms. Galloway, along with the Health Care Authority and the Oklahoma State Department of Health were currently meeting to determine who should be at the table for continued discussion on the Medicaid Stabilization and Rebalancing Act. Commissioner White stated that if we receive further cuts, it will impact things such as cutting crisis centers which affects law enforcement, as they transport

some of our consumers to facilities. She stated that Mr. Gomez's plan stabilizes the Department's budget so programs like the Crisis Center won't have to be cut.

Ms. Henderson asked what some of the arguments are against this plan. Commissioner White stated that one of the arguments is that it is a regressive tax and hurts those with low income more than it hurts other people. She stated that other arguments come from those in border counties saying people will go across the border to buy cigarettes.

Dr. Sullivan stated that the most addictive substance known to man is nicotine, more than opium and heroin.

ODMHSAS February Cultural Consciousness Luncheon – "Black History Month" – Bruce Fisher, ODMHSAS Board Member. Commissioner White stated that she was honored to have Mr. Fisher as the guest speaker for our February luncheon. He is very knowledgeable and provided a great presentation on African American history in Oklahoma.

ODMHSAS/Tribal Consultation Meeting – Commissioner White stated that the Department held a consultation meeting specifically on behavioral health and stated that the Chickasaw Nation hosted the meeting. She stated that it was a really good first meeting and that they plan to continue meeting and building that relationship.

DISCUSSION REGARDING REPORT FROM DURAND CROSBY

Durand Crosby, Chief of Staff and Operations, began his remarks by stating that the Department received a lot of positive feedback regarding its Prevention and Recovery Conference, and encouraged the Board members to attend next year. The next Department conferences will be the Suicide Prevention Conference on April 7, 2016, and the Children's Conference will take place May 11-13, 2016. He invited the Board members to attend. Mr. Crosby reminded the Board members about the success stories in their packets.

Dr. Crosby turned the floor over to Commissioner White to review the House and Senate bills.

Commissioner White updated the Board on the following House and Senate bills: HB1697 – Labor Commissioner Mark Costello Act. The bill defines the terms "assistant outpatient" and "assisted outpatient treatment." The bill requires petitions filed to determine if an individual should be ordered to assisted outpatient treatment only be filed by a licensed mental health professional employed by the Department of Mental Health and Substance Abuse Services or employed by a community mental health center certified by the department. The bill establishes criteria by which the court may order an individual to assisted outpatient treatment. The bill incorporates references to "assisted outpatient" treatment into the statute.

SB0383 – This is the bill commonly known as “alcohol modernization”. It allows for the sale of wine and strong beer in grocery and convenience stores as well as the sale of cold alcohol products in liquor stores.

SB1214 – Modifies language relating to the Not Guilty of Reason of Insanity plea and creating guilty with mental defect and not guilty by reason of mental illness pleas. The bill requires a plea of guilty with mental defect to result in a sentence that could be imposed by law upon a person who is convicted of the same offense. The measure requires a person found guilty with mental defect to be examined by the Department of Mental Health and Substance Abuse Services and provide a recommendation within 45 days. The bill replaces all references to insanity and insane with mental illness and mentally ill.

Samantha Galloway entered the Board meeting and Commissioner White introduced her to the Board members. Ms. Galloway gave a brief synopsis of her work history before joining our Department.

Mr. Carson asked about a bill that was tabled from last year regarding removing certain commissioners and making their positions appointed. Commissioner White stated that there were two bills that were going to do away with Boards, one was a bill that applied only to the Healthcare Authority and that bill has stalled in the House. The second bill applied to all of the Health and Human Services agencies including ODMHSAS and that bill has stalled as well. Commissioner White stated that SB0253 which would alter ODMHSAS's Board has also stalled.

DISCUSSION REGARDING THE REPORT FROM CORPORATE ACCOUNTABILITY SUBCOMMITTEE

The Corporate Accountability Committee met Tuesday, March 22, 2016.

Mr. Mickey presented the Advocate General's report to the committee.

Mr. Mickey had nothing further to add to his report.

DISCUSSION AND REPORT FROM THE PERFORMANCE IMPROVEMENT COMMITTEE

Ms. Henderson stated that Dr. Durand Crosby and Director Ellen Buettner gave a presentation on Employee Engagement and Social Marketing as follows:

As in any organization, employee turnover can be costly to organizations. In an effort to analyze the agency's current organizational climate as it relates to employee retention, they conducted a study to examine factors that contribute not only to reduced turnover, but to employee engagement, performance and productivity.

The study measured multiple factors, including organizational commitment, perceived organizational image, public service motivation and job satisfaction to identify factors that impact employee retention and performance.

In the study, ODMHSAS scored well for several important variables such as engagement, public service motivation and job satisfaction; however, they identified organizational commitment as an area for improvement.

As a result, they are in the process of implementing several performance improvement measures, such as (1) Internal and external branding and reputation management initiatives; (2) training supervisors on the principles of High Involvement Management; and (3) conducting pre-employment assessments in order to select applicants who share the same values and goals as the agency.

One of the projects recommended from the employee engagement study is to engage in an image and reputation management strategy. Research shows that strong organizational reputations can lead to numerous positive organizational outcomes, such as recruitment and retention of employees, customer satisfaction, and improved performance outcomes. In addition, the Department's messaging influences how the public views mental illness and addiction issues in general.

As part of this initiative, a workgroup was developed to examine the Department's current social marketing efforts. This group developed a strategic framework for this project and engaged ODMHSAS facilities and other stakeholders in discussions regarding our core mission as an agency, and how we communicate our messages to a variety of audiences.

This workgroup is ongoing and includes projects such as revamping the agency and facility webpages, social media platforms, and developing specific messaging to communicate both our successes and challenges as an organization in a strategic method in order to reach all audiences.

DISCUSSION AND POSSIBLE ACTION REGARDING CRITICAL INCIDENT REPORT

Mr. Crosby stated that the Department provides a report of any incidents at its facilities and the report breaks down the critical incidents that have occurred since the last Board meeting.

Dr. Vanderslice moved to approve the Critical Incident Report. Dr. McCaffree seconded the motion.

DISCUSSION REGARDING THE REPORT FROM THE FINANCE COMMITTEE

The Finance Committee was called to order by Mr. Carson.

The Committee approved the minutes from the January 19, 2016, meeting.

Mr. Edwards presented the FY-16 finance report for the month ending February 2016. He presented the budget to actual comparison report as follows:

For FY-16 revenue collections are trending above projections by 0.4% or \$1.7 million, higher than anticipated ETPS and Medicaid Administrative Claiming revenue have resulted in slightly more revenue than anticipated. Expenditures are trending under budget by 3% or \$12.7 million due to under spending in newly awarded grants. The year-to-date net variance for the agency is a positive 3% or \$14.4 million.

The Finance Committee recommended approval of the FY-16 February Financial Reports.

Mr. Edwards presented revision #3 & #4 to the FY-16 budget work program consisting of the required first round of cuts to ODMHSAS's current year appropriation. The revisions totaled \$9.8 million.

The Finance Committee recommended approval of revisions #3 & #4 to the FY-16 budget work program.

Commissioner White presented the second round budget cut to the fiscal year 2016 budget work program to the finance committee as follows:

- Delay of Final Reimbursement Claims for Contracted Providers (\$4.1 million)
- Cut to Private Community-Based Providers (\$7 million)
- Rate Cuts for Private Providers (\$1.43 million)
- Capped Delivery of Psychotherapy Services (\$1,303,262)
- Cuts to Treatment Plan Updates (\$5,000)

Mr. Carson turned the floor over to Commissioner White.

Commissioner White walked the Board members through the new rounds of budget cuts. She stated that on top of the \$9.8 million budget cut the Department already received they will need to come up with an additional four percent which totaled more than \$13 million. She stated that as of this point the Department will have to cut \$22.8 million out of the current fiscal year's budget.

Commissioner White stated that the only programs the department has not been forced to cut (yet) are existing drug and mental health courts, crisis centers, PACT teams, suicide prevention programs and prescription drug abuse prevention programs. If ODMHSAS is forced to make further cuts, those programs are at-risk.

First Revenue Failure

Cut to ODMHSAS Administration/Operations (\$4.4 million)

Direct cuts to ODMHSAS administration and operations including personnel and ODMHSAS services.

Cuts to Mental Health Court Expansion (\$1.5 million)

Internal cost reductions that were targeted for expansion of mental health courts.

Cut to Safety Net Services (\$1.3 million)

Funds for safety net services and reimbursement for contracted private agency providers associated with uncompensated care. Approximately 650 Oklahomans impacted.

Postponed SOC Expansion (\$1 million)

Postponement of expansion plans for Oklahoma's Systems of Care program.

Cuts to Prevention Services (\$400,000)

Cuts to the statewide prevention network and related services.

Second Revenue Failure

Delay of Final Reimbursement Claims for Contracted Providers (\$4.1 million)

The Oklahoma Health Care Authority (OHCA) will delay final FY2016 claim payments to reduce billing that in turn will save the department \$4.1 in the current fiscal year billing cycle.

Cut to Private Community-Based Providers (\$7 million)

Private, contracted treatment providers will lose \$7 million in funding from current year treatment contracts. This is expected to impact up to 3,500 Oklahomans in need of treatment services.

Rate Cuts for Private Providers (\$1.83 million)

Cuts will be made to provider rates for inpatient, psychiatric residential treatment, licensed behavioral health practitioner (LBHP) and psychologist services. These services are all delivered by contracted private providers throughout the state and will include:

- A 3% cut to the acute inpatient reimbursement rate (\$22,333)

- A 15% cut to the psychiatric residential treatment services rate (\$875,000)
- A 10% cut to the reimbursement rate for an LBHP Under Supervision (\$537,419)
- A 30% cut to individual licensed behavioral health services (15% overhead and 15% rate) (\$346,802)
- A 10% rate cut to psychologists in independent practice (\$48,835)

As result of these cuts, providers will also lose federal reimbursement for services. This will mean an approximate \$4.7 million total reduction to FY2016 provider billing.

Capped Delivery of Psychotherapy Services (\$1,303,262)

Medicaid psychotherapy services being delivered by licensed behavioral health professionals will be capped. This will mean reduced services for approximately 73,000 Oklahomans and a loss of over \$3,646,840 million in FY2016 provider billing.

Cuts to Treatment Plan Updates (\$5,000)

Reimbursement for treatment plan updates will now be limited to once every six months, per client for all providers. This cut is expected to impact total provider billing by \$12,817 in FY2016.

Mr. Carson asked what the Medicaid Stabilization and Rebalancing Act would do for the cuts listed. Commissioner White stated that if the Legislature approves the plan it will depend on what level they pass. For example, if they do \$1.50 per pack increase on cigarettes, it should bring in enough money to offset the cuts that have been made up to this point.

Commissioner White turned the floor back over to Mr. Carson.

Mr. Carson stated that there was no new business discussed and the finance meeting was adjourned.
