Virtual Open House

The Oklahoma Department of Transportation (ODOT) will host a virtual open house to present information about the SH-18 Improvement project from the SH-18/ SH-33 Junction north 2.0 miles to Deep Rock Road in the City of Cushing, OK. The open house will present the proposed improvements and provide the public an opportunity to comment. This open house will be offered in a web-based format beginning Tuesday, June 14, 2022 and comments are requested by Tuesday, June 28, 2022.

Purpose

The purpose of the open house is to present information and gather input about the proposed improvements to SH-18 in the City of Cushing in Payne County. Information about environmental studies conducted to date and the project schedule will be presented.

RE: Virtual Open House for SH-18; State Job Piece Number JP 33365(04), Payne County, Oklahoma

Dear Stakeholders, Property Owners, and Utility Owners:

The Oklahoma Department of Transportation (ODOT), in cooperation with the Federal Highway Administration (FHWA), is proposing improvements to SH-18 in Payne County, Oklahoma. The southern terminus for the project begins at the SH-18/SH-33 junction in the City of Cushing and extends north 2.0 miles to EW690, otherwise known as Deep Rock Road. The existing section of roadway consists of two 12-foot-wide travel lanes with outside shoulders of varying widths and no inside shoulder. The proposed improvements would add a 14-foot-wide third lane to serve as a center dual turn lane and inside and outside shoulders of widths varying between 2 feet and 8 feet. Improvements also include 5-foot sidewalks or space for future sidewalks. The purpose of the project is to improve through traffic flow.

ODOT will host a virtual open house from **June 14, 2022 to June 28, 2022**, to present information about the project and obtain feedback from the public. The included pamphlet contains additional information about the project and the open house. From June 14 to June 28, 2022, the project information may be viewed at www.odot.org/SH18. After the virtual open house, project information may be viewed at www.odot.org/PublicMeetings.

If you are leasing this property, please notify your lessee of this public hearing. Should you have any questions regarding this project, please email environment@odot.org, or call 405-325-3269 and leave a detailed message.

Respectfully,

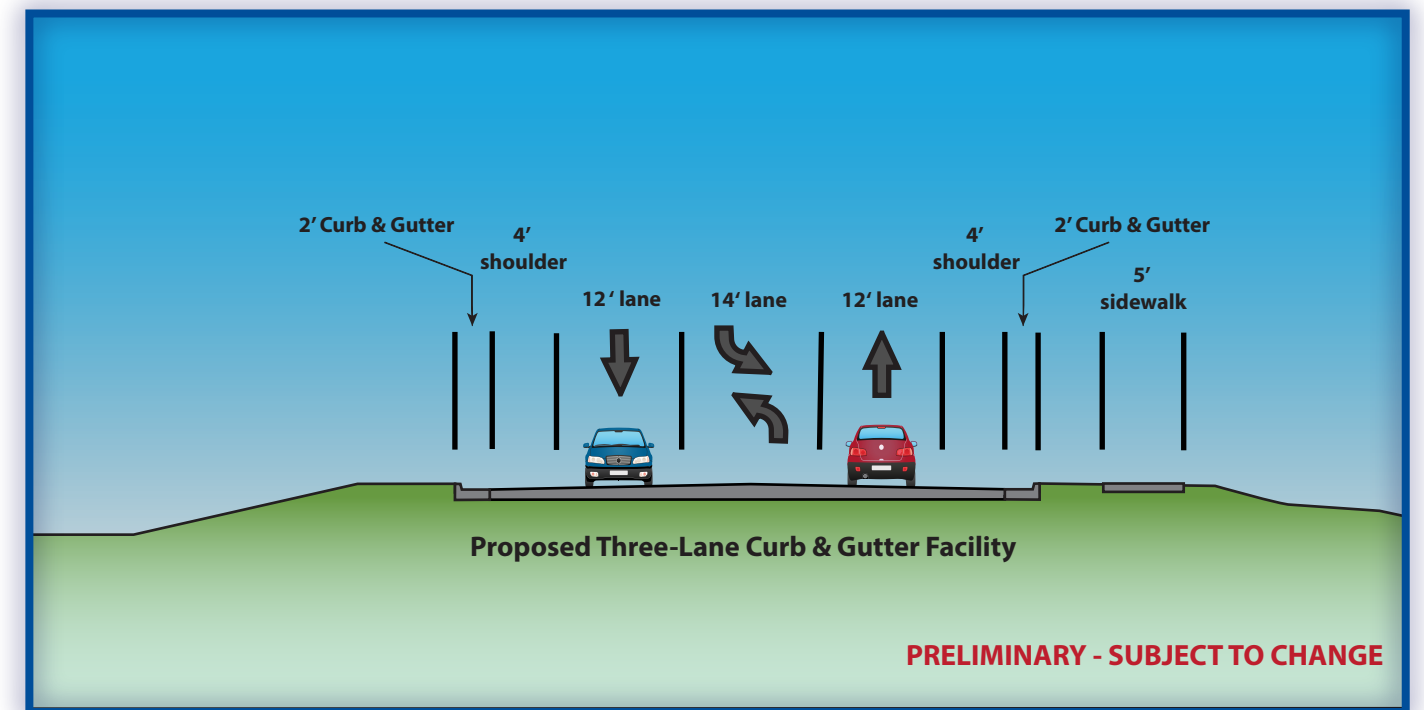

Trenton January, P.E.
ODOT District 4 Engineer

TYPICAL SECTION

Project Overview

The Oklahoma Department of Transportation (ODOT), in cooperation with the Federal Highway Administration (FHWA) is proposing improvements to SH-18 in Payne County, Oklahoma. The southern terminus for the project begins at the SH-18/SH-33 junction in the City of Cushing and extends north 2.0 miles to EW690, otherwise known as Deep Rock Road. The existing section of roadway consists of two 12-foot-wide travel lanes with outside shoulders of varying widths and no inside shoulder. The proposed improvements would add a 14-foot-wide third lane to serve as a center dual turn lane and inside and outside shoulders of widths varying between 2 feet and 8 feet. Improvements also include 5-foot sidewalks or space for future sidewalks. Curb and gutter is proposed through most of the corridor. A new parapet and guardrail will be installed on the existing bridge over Skull Creek. The purpose of the project is to improve through traffic flow. Additional Right-of-Way will be needed.

Traffic Control Plan

Construction is currently slated to begin in FFY 2025. Throughout construction, a temporary shift of traffic will be required to widen the roadway, but one lane in each direction will remain open at all times. Access to businesses and homes will also be maintained throughout construction. Additionally, temporary signage and striping will be utilized during construction as well as flagging, as appropriate.

Project Schedule

* Schedule is contingent on funding and subject to change
