NOVEMBER 2014

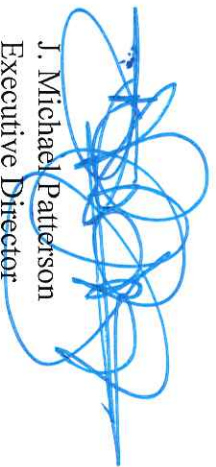

OKLAHOMA DEPARTMENT OF TRANSPORTATION
200 N. E. 21st Street
Oklahoma City, OK 73105-3204

An exemplary transportation system provides a solid backbone which is vital to the state's economic evolution. We must continue our efforts to build and maintain Oklahoma's largest investment – its transportation system.

With the help of our state leadership and our area planning organizations, we are continuously identifying areas requiring new facilities as well as those needing improvements. We are pleased to provide to you the Federal Fiscal Years 2015 - 2018 Statewide Transportation Improvement Program. This publication is a financially constrained four-year program which will assist in expanding and repairing Oklahoma's transportation infrastructure.

The Governor and the Legislature of Oklahoma understand that the state of the transportation system is a direct reflection of the future we are creating for ourselves and generations of Oklahomans that will follow. With input from public and proper planning, we pledge to continue our stewardship to provide a safe, economical and effective transportation network for the people, commerce and communities of Oklahoma.

J. Michael Patterson
Executive Director

"The mission of the Oklahoma Department of Transportation is to provide a safe, economical, and effective transportation network for the people, commerce and communities of Oklahoma."

EXECUTIVE INTRODUCTION

The mission of the Oklahoma Department of Transportation is to provide a safe, economical and effective transportation network for the people, commerce and communities of Oklahoma.

The Oklahoma Department of Transportation Commission develops a long range statewide transportation plan (minimum of 20 years) which is a policy plan, not a project plan. It presents policies specific to each mode of transportation and aids economic development through transportation improvements. The Department also develops an 8 Year Construction Work Plan which encompasses State, Federal and Interstate highway improvement projects. From that Plan, the Statewide Transportation Improvement Program (STIP) is developed for all areas of the state. Both plans and the STIP identify key transportation needs and facilitate the development, management and operation of safe transportation systems.

The Commission would like to thank all citizens, federal and state agencies, elected and appointed officials, Indian Tribal Governments, Metropolitan Planning Organizations and transportation users for their time and effort in providing input for this program.

Oklahoma Transportation Commission

The map shows Oklahoma divided into 77 counties, each color-coded and labeled with its name. Callout boxes with portraits and names point to specific locations on the map: Bobby Alexander (northwest), Greg Love (north-central), Peter J. Regan (northeast), John Fidler (east), J. David Burrage (southeast), Dan B. Overland (south-central), Bradley W. Burgess (southwest), and Todd Huckabay (west). The Executive Director, J. Michael Patterson, is shown in a separate portrait at the bottom left.

WHAT IS THE STIP?

There are many needs on Oklahoma's transportation system. Identifying and prioritizing those needs is a continuous process of evaluating state and regional transportation needs at the broadest level. It includes a progression of planning activities which help establish a context for sound policy decisions and is an avenue for involving the public in transportation planning to support the state and regional vision for the future. The Statewide Transportation Improvement Program (STIP) is a financially constrained program which identifies priority and regionally significant transportation projects based on extensive planning. These are projects in which full funding is reasonably anticipated to be available in order to implement during the next four (4) years. This is not a final schedule of projects but is a "best estimate" at the time of STIP development. Only the projects in the first year of an approved STIP constitute an "agreed to" list for subsequent scheduling and implementation. The STIP serves as a short range planning tool which educates the public on future transportation needs and assures that federal funds are spent on projects consistent with approved long range plans.

The State develops a new STIP biennially in direct relationship to the currently approved 8 Year Construction Work Plan. It is revised through a series of amendments which may be necessary due to a variety of factors, such as funding changes, project scope changes, or even a change in priority requested.

This STIP was developed under the guidelines provided by the federal surface transportation law, known as the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) which combines the continuation and improvement of previous programs with new initiatives to meet the challenges of improving safety as traffic volumes continue to increase.

SECTION 1:

BALANCING PROCESS

The MAP-21 requires that the STIP be fiscally constrained by year. The budgetary projections, established through a systematic evaluation of the Department's anticipated Federal-Aid and State revenues and expenditures, as well as previously unobligated balances in funding categories, earmarks and other mandatory programs, are utilized to assure this. In addition, the Federal-Aid amount includes a 7.5% projection overstatement to avoid any potential loss of future Federal Aid funds due to under programming. Projections were performed for Federal Fiscal Years 2015 - 2018 with the Federal Fiscal Year defined as beginning October 1st and ending on September 30th. If federal funding received varies from original estimates, the number of projects included in any one year will be revised accordingly.

SECTION 2:

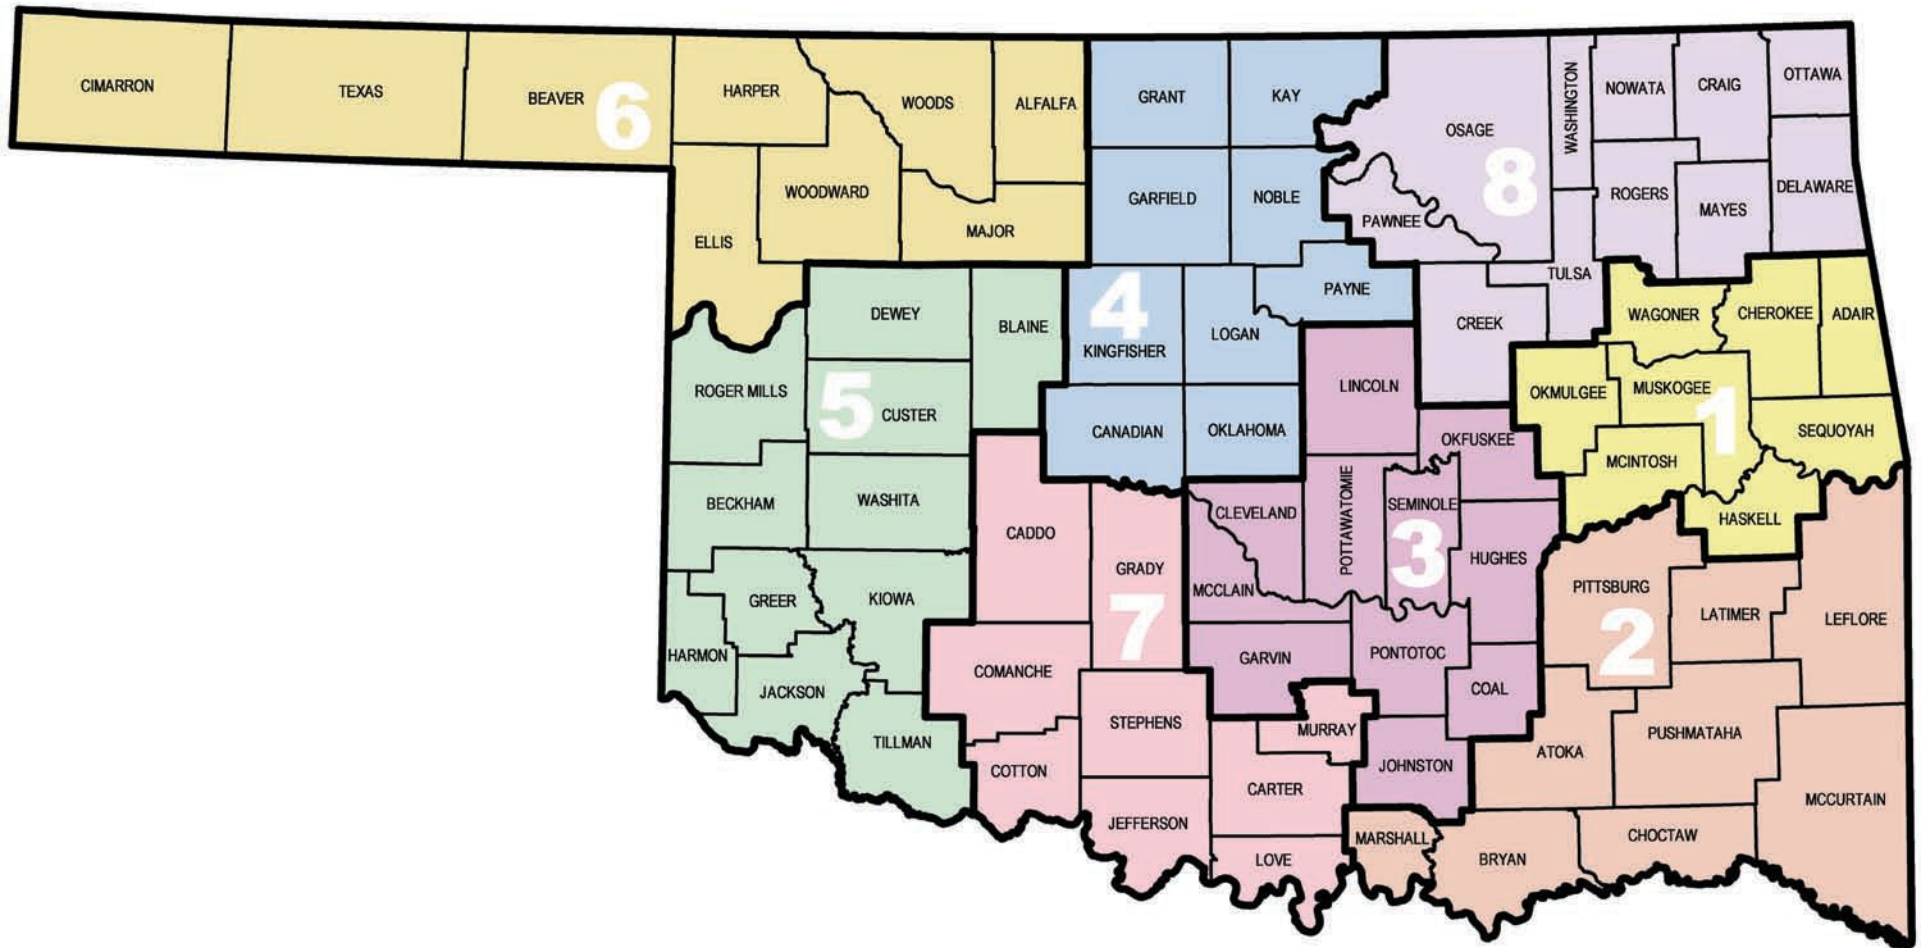

PROJECT SELECTION AND PRIORITIZATION

Project planning and development focuses on specific transportation needs in a given area. It identifies alternative actions to address these needs and generates the information needed to select a preferred project for implementation. Identifying and prioritizing transportation needs is a continuous and coordinated process. The ODOT Planning & Research Division is responsible for identifying area transportation needs and providing planning documents and the results of public involvement to the ODOT Field Division Engineers for their consideration in the selection of State, Federal and Interstate highway improvement projects. The planning products developed include the Long Range Statewide Transportation Plan, a policy oriented document that identifies strategies to help meet the needs of all transportation modes over the next 25 years; feasibility or corridor studies, which assess the needs of particular transportation corridors, and prioritize recommended improvements; the Needs Study and Sufficiency Rating Report, which assesses the condition and capacity of the highway network and estimates the cost to improve the system to current design standards; the Statewide Pavement Management Report, which identifies the funding level needed to improve overall pavement condition, and recommends the most cost effective mix of treatments for the system; and other project level studies.

The State's transportation planning efforts are also coordinated with those of Oklahoma's Metropolitan Planning Organizations, in consultation with the tribal governments and non-metropolitan area local officials with responsibilities for transportation. The development of the Long Range Statewide Transportation Plan, Corridor Studies, Statewide Transportation Improvement Program, as well as early project development all include opportunities for public participation and review.

The maps on the following pages illustrate the Oklahoma division boundaries and potential projects for each county.

TRANSIT PROGRAMS

The Federal Transit Administration (FTA) supports public transportation planning, capital purchases and operations in a number of ways. It administers grant programs to fund the multimodal transportation efforts of MPOs and the State. FTA also provides technical assistance on a broad range of planning and operational topics including regional and statewide planning and programming; corridor planning; environmental project reviews; travel demand forecasting; financial planning; land use planning and public involvement. FTA planning assistance is organized within the following three areas: transportation systems planning, project planning and development, and environmental review of proposed projects. Financial assistance for capital purchases and operational expenses are also available under several of the FTA administered programs.

SECTION 4:

METROPOLITAN PLANNING ORGANIZATIONS

SAFETEA-LU requires the metropolitan transportation planning process to include the development of a transportation improvement program (TIP) in cooperation with the State and public transit operators. TIPs are developed by MPOs, designated by the governor, and dictate priorities for each individual metropolitan area. The TIPs are included in the STIP without modification.

The Department partners with the state's three major MPO areas (Oklahoma City, Tulsa and Lawton) to ensure consistency between the TIPs and the STIP. These ongoing partnerships strengthen the working relationships between the Department and the MPOs in their day-to-day planning activities.

The Department also coordinates with the Frontier MPO and the Arkansas DOT in maintaining the planning process for the Ft. Smith area. The Frontier TIP was not available as of the date of publication. The STIP will be amended as soon as the Frontier TIP is available.

METROPOLITAN PLANNING ORGANIZATIONS

Association of Central Oklahoma Governments (ACOG)

INTRODUCTION

Background

The Transportation Improvement Program (TIP) is a cooperatively developed four-year program outlining multimodal transportation improvements and services to be implemented within the Oklahoma City Area Regional Transportation Study (OCARTS) area.

Federal law requires that all Metropolitan Planning Organizations (MPOs) prepare a TIP for their designated region. Moving Ahead for Progress in the 21st Century Act (MAP-21) is the most recent law establishing federal transportation policy and funding authorizations. Under this legislation, the Association of Central Oklahoma Governments (ACOG), in its role as the MPO, is responsible for preparing the regional Transportation Improvement Program (TIP) in cooperation with the state department of transportation, transit operators and local governments.

Although federal regulations require the TIP be updated at least every four years and cover a minimum four-year period, ACOG produces a new TIP every other year and outlines federal transportation expenditures for the subsequent four-year period. This document is prepared under the guidance of the Intermodal Transportation Technical and Policy Committees, and is submitted to the Governor, the Federal Transit Administration (FTA), and the Federal Highway Administration (FHWA) through the Oklahoma Department of Transportation (ODOT).

Capital and non-capital projects funded by the Federal Transit Administration, the Federal Highway Administration, and the Federal Aviation Administration are required to be listed in the TIP to be eligible for obligation of federal funds. Projects designated for each year of the TIP are expected to be ready for obligation of federal funds within the year listed. Other state, county, and locally funded projects may also be included in the TIP for informational purposes.

TIP Purpose and Scope

The TIP is intended to fulfill the following purposes:

- To serve as a short-range implementation tool to achieve compliance with the goals of the regional long-range transportation plan.
- To provide continuity of current transportation improvement projects with those identified in previous TIPs.
- To identify transportation projects recommended for implementation by transportation mode, type of improvement, funding source(s), and geographic area.
- To estimate the costs of projects proposed for federal funding. The total federal share of project costs is to be consistent with the federal funds reasonably anticipated to be available for such projects in the area.
- To establish a prioritization of projects to effectively utilize federal funds as they become available.
- To identify and implement transportation improvements which will reduce congestion, increase mobility and safety, and enhance the region's air quality.

Prioritization of Projects

This TIP includes a listing of projects for FFY 2015, 2016, 2017 and 2018. Those projects included in FFY 2015 are considered to be of the highest priority and most ready for implementation. This means that local matching funds have been identified, environmental review and site preparation for construction projects have been, or will be, accomplished within the funding period, and the project is anticipated to result in the obligation of federal funds during FFY 2015. Projects for future implementation and of lesser readiness are those identified in the subsequent fiscal years. The projects included in this TIP represent the priorities of the Metropolitan Planning Organization for implementation within the OCARTS area. All projects included in the TIP are consistent with the region's long-range transportation plan, Encompass 2035, adopted on April 28, 2011, and the 2010-2035 Oklahoma Long-Range Transportation Plan dated December 2010.

Program Boundary

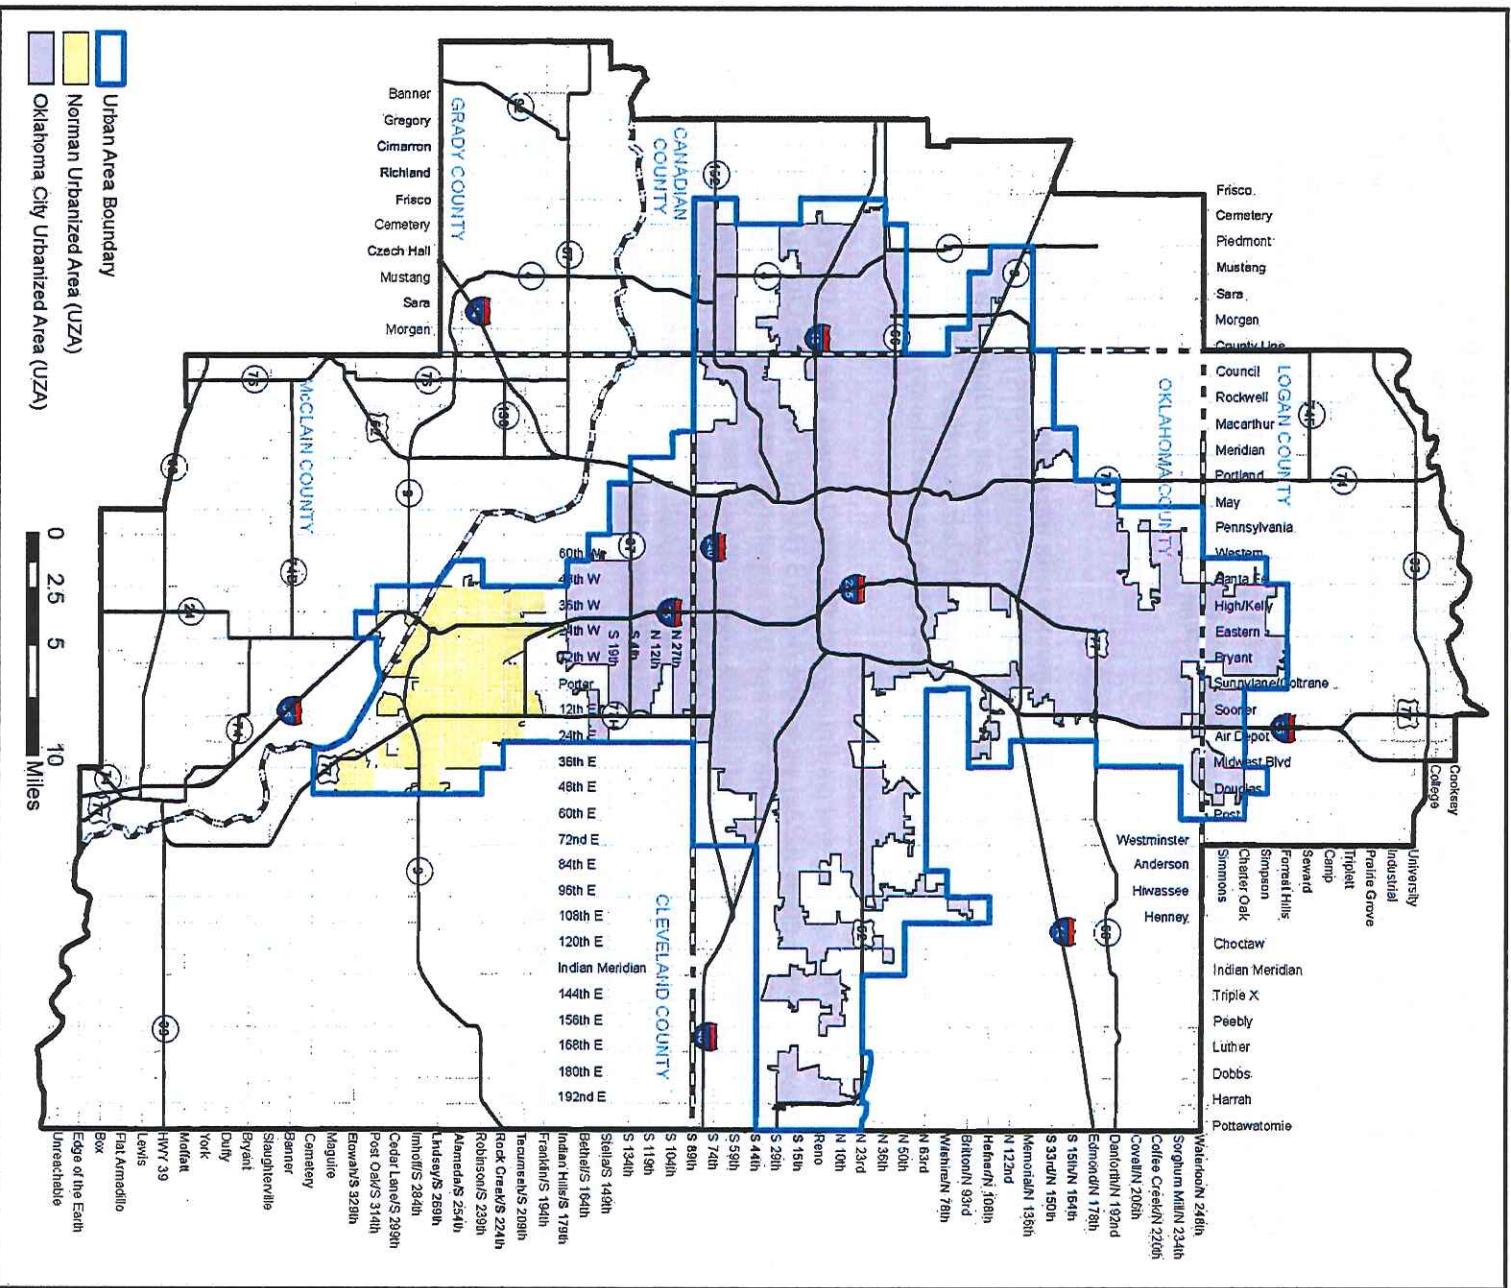

The geographic area covered by the TIP is coterminous with the metropolitan planning boundary, known as the Oklahoma City Area Regional Transportation Study (OCARTS) area. The OCARTS area includes approximately 2,085 square miles, which encompasses all of Oklahoma and Cleveland Counties and portions of Canadian, Grady, Logan, and McClain Counties¹. The OCARTS area is also designated as the Transportation Management Area (TMA) for the Oklahoma City metropolitan region.

Beginning with the 2000 census and continuing with the 2010 census, the U.S. Census Bureau delineated two urbanized areas (UZAs) within the OCARTS TMA—the Oklahoma City UZA and Norman UZA. Sec. 6016 of MAP-21 attributes the Norman UZA population to the Oklahoma City UZA for highway funding purposes. These boundaries are important because they directly impact the amount of funding that is suballocated to the MPO for project selection. Only UZAs with a population of at least 200,000 receive suballocated federal funds under certain FHWA programs, which the Norman UZA would not qualify for on its own. However, the FTA does distribute funding to designated recipients for both large and small urbanized areas.

Figure 1 reflects the latest geography of the Oklahoma City and Norman urbanized areas, as well as the adjusted, or “smoothed”, urban area boundary (UAB) within the OCARTS TMA.

¹ The Intermodal Transportation Policy Committee approved the current OCARTS area boundary on February 28, 2002, which added 395 square miles in McClain and Cleveland Counties.

Program Revisions

Projects included in the TIP may be considered for amendment or revision. Such amendments may not exceed the federal, state and local funds anticipated to be available in order to maintain the MAP-21 financial constraint requirement for the TIP. Modifications to the TIP requested by OCARTS area communities or other implementing agencies must have the approval of the ITPC, which conducts a public hearing prior to final action. Following MPO approval, each amendment is forwarded to ODOT for approval, as the Governor's designee, and inclusion in the Statewide Transportation Improvement Program (STIP).

Air Quality and Conformance with SIP

The impact of transportation on Central Oklahoma's quality air is a component of ACOG's regional planning efforts. Since the establishment of comprehensive federal and state emission regulations by the 1970 Clean Air Act, research has continued to demonstrate the relationship between public health and air quality. While ACOG is not a regulatory body and has no enforcement capabilities, it does work to assure compliance with the Environmental Protection Agency's (EPA's) National Ambient Air Quality Standards (NAAQS) through a variety of programs which serve to educate and affect the public's capacity to work towards improved air quality in Central Oklahoma.

In March 2008, the EPA significantly strengthened its national ambient air quality standards (NAAQS) for ground-level ozone, the primary component of smog, to 0.075 parts per million (ppm). However in 2009, EPA announced that it would reconsider the standard because it was not as protective as recommended by EPA's panel of science advisors, the Clean Air Scientific Advisory Committee (CASAC). After several delays in announcing the new ozone standard, the reconsideration was halted by President Obama on September 2, 2011, due to his concern of the "regulatory burdens that would be placed on businesses to comply with a new ozone NAAQS during the Nation's economic recovery." However, the next regular review of the health and welfare science is underway.

Although the OCARTS area is in compliance with the federal air quality standards, regional leaders continue to explore strategies that will maintain and improve our air quality. ACOG works in concert with a multitude of stakeholders on air quality related activities with a particular focus on ground-level Ozone and Carbon Monoxide. Central Oklahoma must remain vigilant in promoting good air quality habits if we are to remain in compliance in the future.

More information about Central Oklahoma's air quality status and the region's efforts to remain in attainment with the National Ambient Air Quality Standards can be found in the following report, which is available from ACOG and online at www.aecogok.org: *2010 Air Quality Planning and Public Education*.

Title VI and Environmental Justice

Title VI of the 1964 Civil Rights Act (42 U.S.C. 2000d-1) states that "No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." The Environmental Justice (EJ) Orders (1997) further amplify Title VI by providing that "each federal agency shall make achieving environmental justice part of its mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of its programs, policies and activities on minority populations and low-income populations."

Compliance with Title VI and the EJ Orders among recipients of Federal Highway and Federal Transit Administration funds is a priority of the U.S. Department of Transportation that is evaluated during metropolitan and transit authority certification reviews and review of the Statewide TIP.

In compliance with FTA Circular 4702.1B, the Central Oklahoma Transportation and Parking Authority (COTPA) and Cleveland Area Rapid Transit (CART) jointly prepare triennial Title VI reports documenting that transit services and amenities are provided within the region in a nondiscriminatory manner. ACOG, in addition to preparing a full Title VI Plan, completed in November 2014, prepares an annual Title VI accomplishments report. ACOG's Title VI Plan further documents that the MPO planning process, including information dissemination and participation in the decision-making process, is conducted in a nondiscriminatory fashion.

Projects included in this TIP represent a balance between transportation needs and anticipated funding. Projects are generally dispersed throughout the OCARTS area, and different improvements affecting different locations are identified each time a new TIP is prepared. Impacts on various socioeconomic groups from large projects that address transportation corridors or modes are generally determined through special planning studies or environmental processes prior to inclusion in the TIP and STIP. Smaller projects to improve the capacity or safety of the existing street network, the transit system or area airports are not anticipated to have a disproportionate impact on any particular segment of the region's population.

Performance Management

As a new feature, MAP-21 established a performance and outcome-based program. The objective is to invest resources in projects that collectively will make progress toward the achievement of national goals. The legislation requires the U.S. Department of Transportation, in consultation with states, MPOs and other stakeholders, to establish performance measures in these areas:

- Safety
- Infrastructure condition
- Congestion reduction
- System reliability
- Freight movement and economic vitality
- Environmental sustainability
- Reduced project delivery delays

The TIP, along with other plans, is required to include information regarding these performance measures. However, the regulations and guidance regarding the establishment and use of these performance measures have not yet been developed and implemented; therefore, they are not included in the FFY 2015–2018 TIP. Future versions of the TIP will address these requirements.

Public Involvement

ACOG's public participation goals and strategies are outlined in its Public Participation Plan. This document acts as a framework from which to guide the public participation process in transportation planning, including development of the TIP.

In developing this TIP, the MPO provided citizens, affected public agencies, local governments, public and private transportation providers, goods movement providers, and other interested parties with a reasonable opportunity to provide input and to comment on the proposed program. Opportunities for review and comment on the proposed TIP were announced through articles and notices published in metro area newspapers, ACOG's e-newsletter, *Momentum*, and public meetings/hearings held by the Intermodal Transportation Technical Committee (ITTC) and the Intermodal Transportation Policy Committee (ITPC).

Notices of public hearing were published in local newspapers advising the public of the availability of the preliminary and final versions of the FFY 2015-2018 OCARTS area TIP. Notices included information on the time frame for submitting written comments and the date, time and location that the TIP would be considered by the Intermodal Transportation Policy Committee. In addition, notification was provided via the ACOG website, a media release, an e-news release, the *Momentum* newsletter, and ACOG's social media suite.

Appendix A includes documentation of the MPO's public outreach efforts associated with this TIP. The final TIP and subsequent amendments will be available on ACOG's website.

Comments on this TIP from the public, committee members, or any local organization, whether positive or negative, are handled in the following manner:

- All comments are requested to be put in writing and provided to the MPO.
- Comments concerning specific projects or proposals are forwarded to the sponsoring agency or jurisdiction.
- A copy or summaries of substantive comments are provided to the ITTC and ITPC during their regular meetings for their evaluation.
- A written response is provided to the individual or organization concerning recommendations or decisions arising from the ITPC meeting or the sponsoring entity, as appropriate.
- Copies of all comments received on the preliminary TIP are included in the final document.

OVERVIEW OF PROGRAM ELEMENTS

Street and Highway Element

The Street and Highway Element of the TIP includes transportation improvements submitted by cities and counties located within the OCARTS area, as well as projects recommended for funding within the OCARTS area by the Oklahoma Department of Transportation (ODOT). Funding for these projects will utilize a variety of federal funding categories administered by the Federal Highway Administration. Each of the Street and Highway Element projects represent short-range priorities that are located on the Federal Functional Classification System and are consistent with the region's long-range transportation plan, *Encompass 2035*, and the Oklahoma Long-Range Transportation Plan. *Encompass 2035* was adopted by the MPO on April 28, 2011, and is incorporated by reference into the statewide plan, which was adopted by the Oklahoma Transportation Commission in December 2010.

Street and Highway Element projects include construction, maintenance, and transportation system management (TSM) activities that will impact the regional network. Numerous TSM projects are included in the TIP, which are intended to enhance the efficiency of the existing street network. Examples of these activities include traffic signalization, signal coordination, safety improvements, and intersection redesign. Other improvements involve the widening of streets and bridges, thus increasing capacity to meet travel demand, increase safety, and reduce congestion. Also included in this element is the identification of roadway projects that will include sidewalks and/or bicycle paths. Specific information about the Street and Highway Element projects proposed for implementation during FFY 2015-FFY 2018 is provided in Chapter 3 of this document.

Transit Element

Transit services within the OCARTS area include the urban area bus systems operated by the Central Oklahoma Transportation and Parking Authority (COTPA), a trust of the City of Oklahoma City; the University of Oklahoma, Transit Services Division; the City of Edmond, operated by McDonald Transit; the Elderly and Persons with Disabilities Program, administered by the Oklahoma Department of Human Services, Aging Services Division; and the Rural Area Formula Program, administered by the Oklahoma Department of Transportation, Transit Programs Division. These services are funded by the Federal Transit Administration, local funds and the ODOT Public Transit Revolving Fund.

Section 5307 - Urban Area Transit Services

COTPA provides public transportation through a bus system known as EMBARK. The COTPA system includes 19 local routes, one trolleybus route in downtown Oklahoma City, an express route between Norman and Oklahoma City, and four late-night routes. There is no Sunday service. COTPA also operates shuttles at the OU Health Sciences Center campus in Oklahoma City.

The OU Transit Services bus system is known as Cleveland Area Rapid Transit (CART). The Norman system includes eleven local routes serving the OU campus and a large portion of the City of Norman's urban area, an express route to and from Oklahoma City and a late-night flex route.

The City of Edmond provides public transportation through a bus system known as Citylink. The system includes four local routes and an express route to and from Oklahoma City. Citylink receives some FTA Section 5307 funds as a subrecipient to COTPA.

Each of the urban area transit operators also provide paratransit service within ¾ mile of their fixed routes as required by the federal rules, with CART providing paratransit service throughout the City of Norman. In FFY 2013, the total average weekday bus ridership of all three systems combined was 15,095.

Other Special Transportation Services

In addition to the fixed route services described above, COTPA participates in a variety of transit services for the elderly and mobility impaired. These include:

- **METRO-lift** – demand-responsive service for mobility impaired persons, serving the greater Oklahoma City area.
 - **Share-A-Fare** – reduced cost taxi fares for the elderly and persons with disabilities, which operates 24 hours a day, seven days a week, in coordination with local taxi companies.
 - **Discount Bus Program** – half-fare bus service available to persons 60 years of age and older and to persons with disabilities.
 - **STEP (Supplemental Transportation for Elderly Persons) Shopping Shuttle** – donation based van service to designated grocery stores for persons 60 years of age and older. The service is underwritten by the Areawide Aging Agency and COTPA.
 - **Congregate Meal Transportation** – a donation based transportation service for the senior nutrition project of the Areawide Aging Agency, serving persons 60 years of age and older and persons with disabilities. Funding is provided by the Areawide Aging Agency and COTPA.
 - **Interim** – free, one-time demand-responsive taxi service available to the elderly and disabled for essential trips only, when they are unable to secure transportation from any other source. COTPA contracts with the local taxi company to provide the service, which is financed in part by the Areawide Aging Agency and COTPA.
 - **Daily Living Center** – a round-trip, door-to-door transportation service for older adults and persons with disabilities to the Daily Living Center, an adult day care center.
 - **Helpline** – taxi service for emergency or medical related transportation needs of the homeless operated through a contract with a local taxi company and underwritten by the City of Oklahoma City and COTPA.
 - **RSVP (Retired Senior Volunteer Program)** – senior volunteer drivers provide transportation to medical appointments for low and moderate income seniors, using private vehicles, with mileage reimbursement provided by the Areawide Aging Agency.
 - **Senior Companion Program** – able volunteer seniors are matched with frail elderly persons to help provide meals, companionship, assist with housekeeping, and other services. A van transports the volunteers from their residences to the residences of the elderly.
- CART's transit services to the elderly and mobility impaired include:
- **CARTaccess** – origin-to-destination service for individuals who, because of disability, are unable to ride the fixed route buses. CARTaccess vans operate the same hours as fixed route service, and are available within the entire city limits of Norman.
 - **Discount Bus Program** – half-fare bus service available to persons 60 years of age and older, persons with disabilities, Medicare cardholders, and ADA cardholders.
 - **Social Security Route** – a shuttle every Tuesday and Friday offering transportation from Norman to the Social Security Administration in Moore. This shuttle is open to all.
- Citylink's special transportation services include:
- **CAPS (Citylink Access Paratransit Service)** – free curb-to-curb service that allows disabled residents rides from Citylink to appointments within Edmond city limits. CAPS service operates Monday through Saturday.
 - **Free Service** – All Citylink service is free for anyone who wishes to ride.

Section 5310 - Elderly and Persons with Disabilities Program

In addition to the transportation services available to the elderly and persons with disabilities provided through COTPA, CART and Citylink, numerous organizations operate wheelchair accessible vehicles under 49 U.S.C., Section 5310. The Section 5310 program gives private, non-profit organizations the opportunity to purchase vehicles, with federal assistance, to transport elderly and disabled clients to meet their everyday needs, including transportation to work, medical appointments, shopping and recreation. Other eligible applicants for these funds can include public bodies approved by the State to coordinate services for elderly persons and persons with disabilities, and public bodies that certify to the Governor that no non-profit corporations or associations are readily available in their area to provide service to meet the special needs of the elderly and disabled.

The Section 5310 funds pay for 83 percent of the capital cost of a wheelchair accessible vehicle (80 percent for non-accessible vehicles), with the local match, operation and maintenance paid for by the sponsoring organization.

The Department of Human Services, Aging Services Division, administers this program, and advises the MPO annually of eligible applications received within the OCARTS area. The TIP includes a line item for Sec. 5310 projects, and specific projects are reflected later when more complete information is known. The amount of funding spent within the OCARTS area varies from year to year.

Cooperation and coordination among Sec. 5310 operators is encouraged so that the maximum number of patrons can be served.

Section 5311 - Public Transportation Program for Non-Urbanized Areas

The Section 5311 Rural Area Formula Program is administered by the Transit Programs Division of the Oklahoma Department of Transportation, which is charged with providing an equitable distribution of funds throughout the State for the administration of public transportation services in non-urbanized areas. There are currently 19 agencies providing rural public transportation services in 72 counties within Oklahoma.

Section 5311 funds are provided by the Federal Transit Administration (FTA) for the purchase of capital equipment, administration and operation of the rural transit systems. Rural operators may receive up to 80 percent reimbursement for capital and administrative expenses, and a 50 percent reimbursement for their net operating deficit. Capital expenditures associated with compliance with the Americans with Disabilities Act and the Clean Air Act, as amended, may receive a 90 percent federal share. The local share is provided by the operating agencies receiving the FTA assistance.

In the OCARTS area, Section 5311 funds are provided to the Logan County Historical Society, which operates a system known as the First Capital Trolley and to Delta Transit in the southern portion of the region. However, only a portion (approximately 25 percent) of Delta Transit's service is provided within the OCARTS area.

Airport Element

The OCARTS area contains seven public airports. Most are partially funded through the Federal Aviation Administration. These airports serve a variety of air travel needs ranging from international to regional in scale. Three airports are located in the City of Oklahoma City and include Will Rogers World Airport, Wiley Post Airport and Clarence E. Page Airport. The Oklahoma City Airport Trust oversees operation of these airports, with administrative staff provided by the Oklahoma City Department of Airports. An Airport System Plan guides planning and programming of transportation improvements at these facilities.

Max Westheimer Airport is located in the City of Norman and is operated by the University of Oklahoma. The Cities of Guthrie and Edmond signed an agreement in June 2004 to collaborate on the operation and funding of the Guthrie-Edmond Regional Airport, located in Guthrie. Prior to that agreement, the former Guthrie Airport was operated solely by the City of Guthrie. Finally, the Town of Goldsby operates the David J. Perry Airport and the City of Purcell operates the Purcell Municipal Airport located with their jurisdictions.

STREET AND HIGHWAY ELEMENT

The Street and Highway Element of this Transportation Improvement Program includes specific projects that will be implemented by various OCARTS area cities and counties and the Oklahoma Department of Transportation during the FFY 2015-2018 short-range planning period.

The improvements that are reflected for FFY 2015 represent the region's highest priorities for enhancing the OCARTS street and highway network. These projects are generally in the design phase, and thus have the greatest level of commitment from the sponsoring entities and the greatest probability of being implemented with federal and local funding resources. Federal rules require that the costs of projects listed in each metropolitan area's TIP are consistent with the federal, state and local funds expected to be available to the area. This TIP is based upon the latest available project cost estimates and revenue expectations.

OCARTS Area Projects Funded from Previous TIPs

The previous OCARTS Area TIP covered FFY 2013-2016. Table 1 includes Street and Highway Element projects that were reflected in the previous TIP and funded during FFY 2013. These OCARTS area improvements represent a total expenditure of nearly \$142 million. This includes federal, state, and local funds spent on streets eligible for Federal aid and those portions of the State Highway System (interstates, U.S. highways, and state highways) located within the OCARTS area. [Figure 2](#) identifies the locations of the major improvements reflected in Table 1.

Street and Highway Element Funding Sources

Several categories of federal funding are available for implementing the Street and Highway Element of the TIP. Moving Ahead for Progress in the 21st Century (MAP-21) created streamlined, performance-based multimodal programs to address improving safety, maintaining infrastructure, reducing traffic congestion, improving efficiency and freight movement, protecting the environment and reducing project delays.

The new law restructured core highway formula programs. Activities carried out under several former SAFETEA-LU² formula programs—the National Highway System Program, the Interstate Maintenance Program, the Highway Bridge Program and the Appalachian Development Highway System Program—were incorporated into the following formula programs under MAP-21:

- National Highway Performance Program (NHPP)
- Surface Transportation Program (STP)
- Congestion Mitigation and Air Quality Improvement Program (CMAQ)
- Highway Safety Improvement Program (HSIP)
- Railway-Highway Crossings (set-aside from HSIP)

In addition, two new formula programs were created:

- Ferry Boats and Ferry Terminal Facilities (formerly a discretionary program)
- Transportation Alternatives (TA) – encompasses most activities funded under SAFETEA-LU's Transportation Enhancements, Recreational Trails and Safe Routes to School programs.

Many of these funding sources may also be used for bicycle and pedestrian pathways, as alternatives to vehicle travel, and some highway funds are “flexible,” meaning they can be used for

² Safe Accountable Flexible Efficient Transportation Equity Act – A Legacy for Users

eligible transit activities. Funding for street and highway improvements is made available annually to the Oklahoma Department of Transportation from the Federal Highway Administration for use throughout the state.

MAP-21 calls for urbanized areas with a population greater than 200,000 to receive a suballocation of Surface Transportation Program (STP) funds and Transportation Alternatives Program (TAP) funds. The amount of funding received is based upon the population within the census-designated urbanized area. Beginning with the 2000 census and continuing with the 2010 census, the U.S. Census Bureau delineated two urbanized areas (UZAs) within the OCARTS TMA—the Oklahoma City UZA and Norman UZA. Sec. 6016 of MAP-21 attributes the Norman UZA population to the Oklahoma City UZA for highway funding purposes.

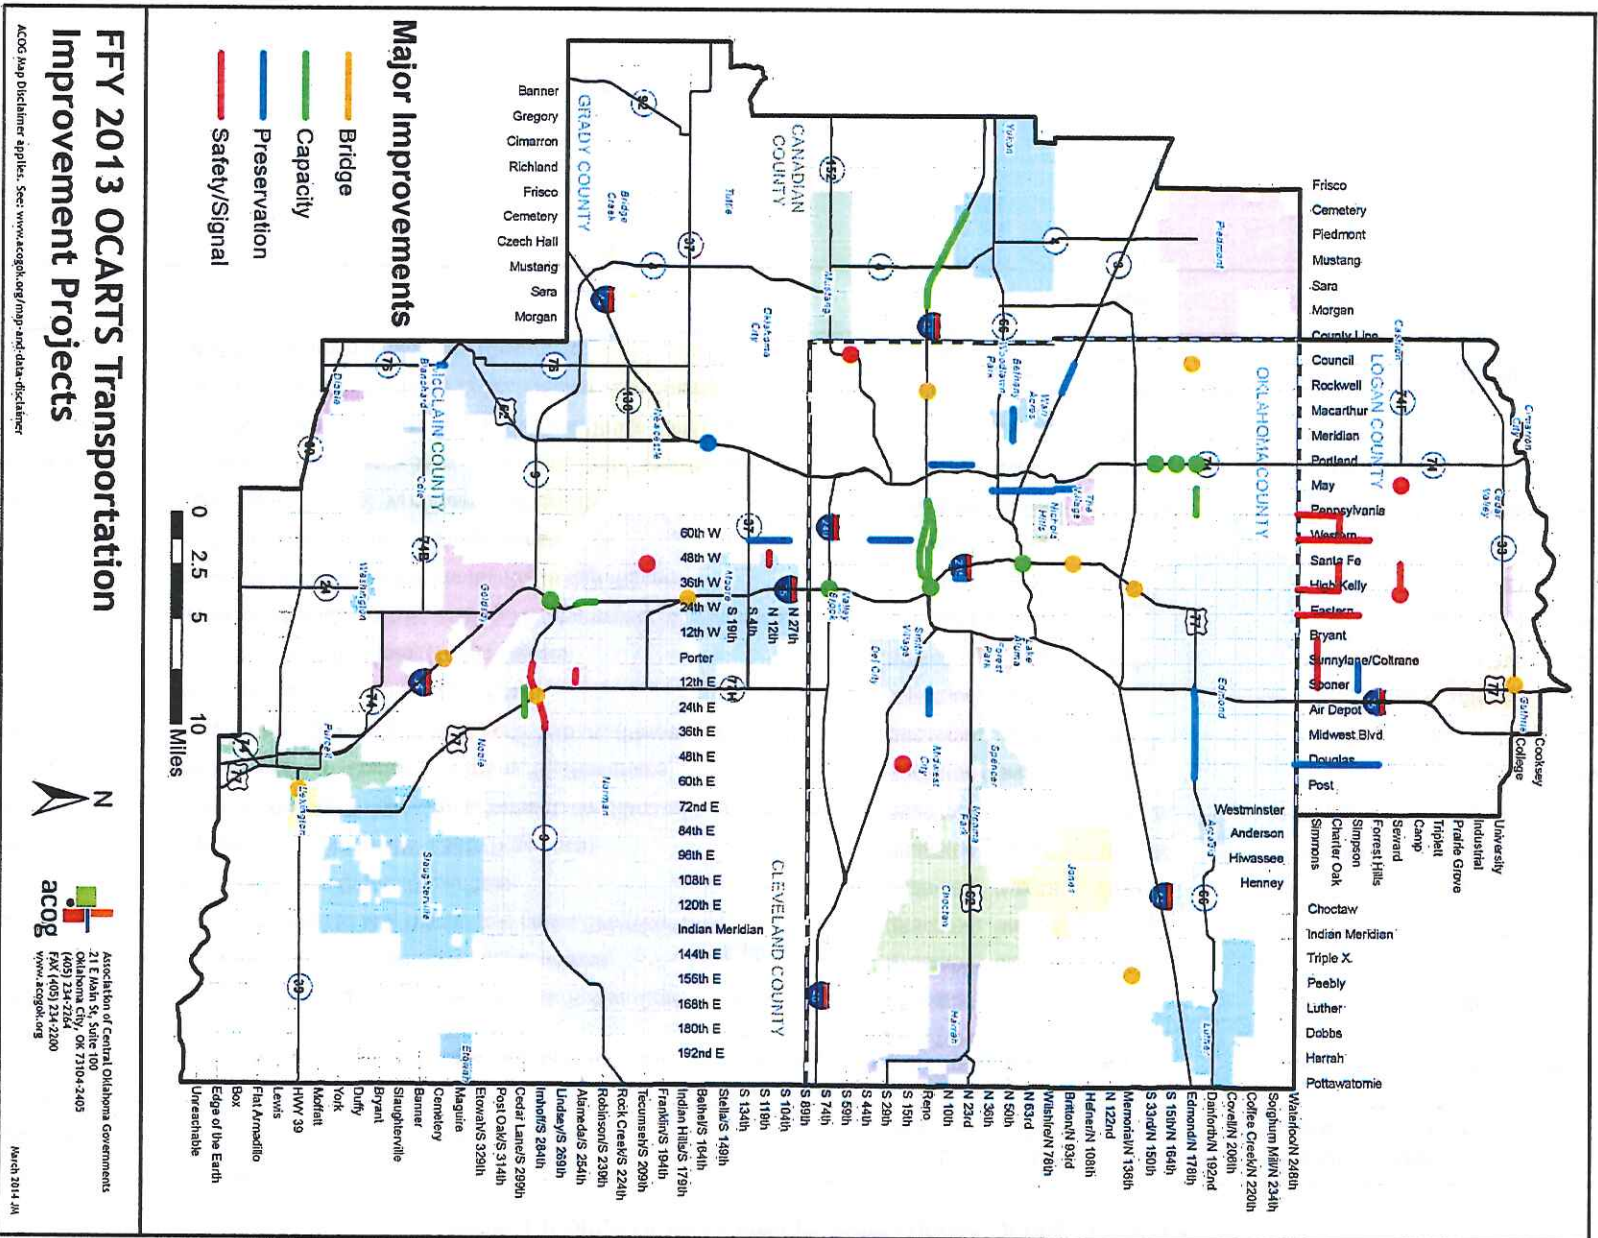

Table 1: OCARTS Area Projects Funded During FFY 2013

Figure 2: Major OCARTS Improvements FFY 2013

Surface Transportation Program Urbanized Area Funds (STP-UZA)

As a Transportation Management Area, ACOG receives an annual distribution of Surface Transportation Program (STP) funds according to the formula outlined in MAP-21. The amount of funding received is based on the combined populations of the Oklahoma City and Norman Urbanized Areas. These are referred to as STP-UZA funds.

Selection of STP-UZA funded projects for the TIP is performed in accordance with the MPO-adopted *Surface Transportation Program Procedures for the Oklahoma City Urbanized Area Funds*. STP-UZA project requests are evaluated and prioritized in accordance with the adopted *Criteria and Process for Evaluation of STP-UZA Projects* as part of the development (or update) of each TIP.

The evaluation process is comprised of four major components: evaluation criteria, project categories, criteria weighting, and project rating.

The seven evaluation criteria include:

1. average daily traffic
2. volume-to-capacity ratio
3. accident severity rate (based on a three year history)
4. air quality impacts
5. surface condition
6. CMP congestion corridor
7. project readiness

These criteria were chosen to represent the mobility, environmental, and social factors important to the development of an efficient transportation system and the ability of a project to be ready for letting during the fiscal year of the TIP for which it is submitted.

The categories of projects included in the evaluation process are:

1. widening (including railroad/highway grade separation)
2. new construction
3. intersection/safety improvements
4. resurfacing, reconstruction, rehabilitation, restoration
5. bridge improvements
6. transit, park-and-ride, high occupancy vehicle lanes
7. independent bicycle and pedestrian facilities/projects
8. carpool/vanpool administration, other
9. safety projects (eligible for 100 percent federal funds)

The evaluation process utilizes a system of weights to establish the relative importance of the different criteria for the project categories, and a rating guide is used to assess how a project measures against each criterion.

In October 2009, the Intermodal Transportation Policy Committee updated the STP-UZA Procedures to allow all MPO-member local governments within the OCARTS area to apply for the region's STP-UZA funds. Prior to this policy change, eligible applicants were restricted to local governments located wholly or partially within the combined Oklahoma City and Norman Urbanized Areas. Copies of both the STP-UZA Procedures and the STP-UZA Evaluation Criteria are available on the ACOG website www.acogok.org.

Surface Transportation Program Urbanized Area Safety (STP-UZA Safety) Funds

Up to 10 percent of the total STP-UZA funds may be spent on the construction costs of eligible safety improvements, and may be funded with up to 100 percent federal funds. The STP-UZA Evaluation Criteria described above incorporates the MPO's policy for selecting and funding safety projects. The 10 percent limit for any given year may be exceeded, provided the cumulative total of all STP-UZA funds apportioned to the urbanized area does not exceed the 10 percent maximum.

The standard funding ratio for STP funds is 80 percent federal. The remaining 20 percent is to be provided by the state or local government sponsor. However, federal rules allow up to 10 percent of the total STP funds to be spent at 100 percent of the project cost, with no local match, for eligible safety projects defined in the law.

Transportation Alternatives Program (TAP) Funds

MAP-21 consolidated the Transportation Enhancements, Recreational Trails, and Safe Routes to School Programs into a new separate program, the Transportation Alternatives Program (TAP). Most of the eligible projects under these former programs were carried forward as eligible activities for TAP funding.

Within each state, half of the TAP funds must be spent within urbanized areas in a proportion relative to the other urbanized areas in the state. Under this formula, the OCARTS area will receive approximately \$1.4 million per year (after a set-aside for the Recreational Trails Program). Each state and large metropolitan area is required to utilize a competitive selection process for projects that will receive TAP funding. ACOG recently developed its TAP project evaluation criteria and issued the first biennial call for projects in spring 2014 for the combined FFY 2013 and FFY 2014 MPO suballocations.

This TIP includes a Transportation Alternatives Program line item to reflect the total federal funds that will be authorized for successful projects. TAP projects may be funded with up to 80 percent federal funds and at least a 20 percent local match.

Fiscal Constraint of the FFY 2015-2018 Urbanized Area Funds

This TIP was prepared based on an estimated amount of funds available to the OCARTS area over the TIP timeframe for the combined Oklahoma City and Norman urbanized areas. To ensure that the region's STP-UZA projects are financially constrained, an estimated apportionment for the Oklahoma City Urbanized Area was determined in consultation with the Programs Division of the Oklahoma Department of Transportation (ODOT). The estimate is based on the STP-UZA apportionment that was received in FFY 2013 and was held constant over the four-year TIP period due to the uncertainty of future balances in the Highway Trust Fund and the short timeframe (two years) of MAP-21.

In addition, a federal requirement began Dec. 11, 2007 (under SAFETEA-LU) that requires cost estimates for TIP projects to include an inflation factor to reflect year-of-expenditure dollars. Therefore, the STP-UZA project estimates included in this TIP reflect a 2% inflation factor for FFY 2015, 4% for FFY 2016, 6% for FFY 2017, and 8% for FFY 2018.

The *STP Procedures for the Oklahoma City Urbanized Area Funds* call for 90 percent of the estimated funds to be used when preparing a TIP. This is intended to avoid a potential shortage of funds at the end of the fiscal year caused by low TIP estimates, unusually high bids, cost overruns or other unforeseen events. The estimate serves as the planning cap for STP-UZA funded projects for each year of the TIP, including future amendments. As final funding figures are provided and/or additional obligation authority is received, the figures will be updated. Appendix C provides additional information about the estimated federal funds for the Oklahoma City Urbanized Area, upon which this TIP is based.

The first year of this TIP includes five projects, including two safety projects, proposed for funding with STP-UZA funds. This represents a total of \$18,624,537 in federal funds. The FFY 2016, 2017 and 2018 programs propose STP-UZA totals of \$17,358,035, \$17,370,000 and \$17,370,000, respectively, which are within the planning estimate for the OCARTS area.

Each of the Local Government Project lists also reflects a line item for Congestion Mitigation/Air Quality (CMAQ) funds that will be spent within the OCARTS area. Each year, the Oklahoma Department of Transportation provides the MPO with \$650,000 in CMAQ funds to assist with programs to enhance the region's air quality. A portion of the funds is provided to the area's transit operators and the remainder is used by ACOG to administer its air quality public education, regional rideshare and public fleet conversion programs.

FFY 2015 - FFY 2018 Street and Highway Element Projects

The following pages describe the street and highway projects proposed for implementation within the OCARTS area during this TIP time frame.

Projects are presented by federal fiscal year, and include lists of local government-sponsored projects followed by state-sponsored projects within the OCARTS area. The state projects were selected in cooperation with the Oklahoma Department of Transportation (ODOT) and are generally located on the State Highway System (interstates, state highways and U.S. highways). Each project is identified by location, project type, federal funding source, and the source of matching funds.

[Figure 3](#), at the end of this chapter, reflects the general locations of the local government sponsored Street and Highway Element Improvements listed in this TIP for FFY 2015-2018.

Figure 3: FFY 2015-2018 OCARTS Transportation Improvement Projects

TRANSIT ELEMENT

This chapter includes information on the capital, operating and planning costs proposed for public transportation within the OCARTS area during this TIP time frame. As discussed in Chapter 2, these services are operated by the Central Oklahoma Transportation and Parking Authority (COTPA) as EMBARK, the University of Oklahoma as CART, the City of Edmond as Citylink, various non-profit organizations, and two rural public transportation agencies. Citylink is not a direct recipient of federal formula funds but has received federal funds as a subrecipient to COTPA.

Detailed project and cost information is provided in this chapter for each TIP year for the above listed public transportation operators. This document includes a line item for vehicles purchased with FTA Sec. 5310 funds to serve elderly and disabled citizens.

Urbanized Area Program

COTPA and CART provide fixed route, express and paratransit services each weekday, with some routes including Saturday service. COTPA provides subscription service to those entities that budget local funds to support the transit operation serving their citizens. Other demand responsive public transportation services available to the elderly and persons with disabilities are described in Chapter 2. In July 2009, the City of Edmond began administering Citylink which provides fixed route bus service to local residents and students at the University of Central Oklahoma (UCO), paratransit service, and express bus service between Edmond and downtown Oklahoma City.

Many of the capital projects included in the attached lists will be funded with 80 percent Section 5307 funds administered by the Federal Transit Administration (FTA) and matched with 20 percent local funds. COTPA, CART and Citylink operate accessible bus systems in compliance with the Americans with Disabilities Act of 1990, including access for persons in wheelchairs. Expenditures associated with the purchase of accessible vehicles or equipment to comply with the ADA are eligible for funding at an increased federal share of 83 percent.

The Section 5307 Urbanized Area Program funds are apportioned by a statutory formula to Census-designated urbanized areas based on population, population density, and various transportation data. In the OCARTS area, both COTPA and CART are direct recipients of FTA funds for the Oklahoma City and Norman UZAs, respectively.

The MAP-21 legislation included several changes to the Federal Transit Administration's funding programs. Below are the primary FTA programs and a summary of the changes from the previous legislation:

- Urbanized Area Formula Program (Sec. 5307) – *Eligible activities under the SAFETEA-LU Job Access and Reverse Commute Program (JARC) were consolidated into Sec. 5307.*
- New Starts (Sec. 5309) – *no longer includes fixed-guideway modernization and bus and bus facilities projects*
- Elderly and Persons with Disabilities Program (Sec. 5310) – *Eligible activities under the SAFETEA-LU New Freedom Program were consolidated into Sec. 5310. Funds are distributed based on large urban, small urban and rural areas of the state.*
- Rural Area Formula Program (Sec. 5311)
- State of Good Repair (Sec. 5337)
- Bus and Bus Facilities Program (Sec. 5339)
- Fast Growth/High Density Formula Program (Sec. 5340)

Elderly and Persons with Disabilities Program

The FTA Section 5310 Elderly and Persons with Disabilities Program provides capital assistance to organizations that serve the specialized transportation needs of the elderly and persons with disabilities. Federal matching funds pay for 85 percent of the cost of accessible vehicles (80 percent for non-accessible vehicles) with the remainder paid for by the requesting organization. Each Section 5310 recipient is also responsible for ongoing maintenance and operation costs once the vehicle has been acquired.

MAP-21 consolidated the former SAFETEA-LU New Freedom Program into the Sec. 5310 program. Eligible New Freedom activities include improvements beyond the requirements of the Americans with Disabilities Act (ADA). Also new, under MAP-21, is the geographic distribution of funds based on population—large urban, small urban, and rural—rather than one single distribution to the state as a whole. The Aging Services Division of the Oklahoma Department of Human Services (DHS) administers the state’s Section 5310 program for the Oklahoma City Urbanized Area, as well as the small urban and rural areas of the state.

An annual grant application to the Federal Transit Administration is submitted in order to utilize the apportioned funds. The amount of Sec. 5310 funding spent within the OCARTS area varies each year and is dependent upon the level of requests from local non-profit organizations as well as the total funds apportioned to the urban area.

The MPO reviews all applications within the OCARTS area. The following line item is intended to serve as a “placeholder” and when specific requests and funding amounts are received, they will be added to the TIP through the amendment process. Prior to MPO review of the OCARTS area Sec. 5310 applications, DHS ensures their eligibility under FTA requirements and their compliance with the Coordinating Public Transit-Human Services Transportation Plan. Coordination with the region’s public transit operators and cooperation among Sec. 5310 recipients is encouraged to ensure that services are not duplicated and that the maximum number of patrons can be served.

Project Description	Federal Share	Local Share	Total
Vehicles purchased with FTA Sec. 5310 funds to serve elderly and disabled citizens	To be determined by future funding requests from non-profit organizations		

Public Transportation Program for Rural Areas

The Transit Programs Division of the Oklahoma Department of Transportation (ODOT) administers the Section 5311, Rural Area Formula Program. The Department is charged with providing an equitable distribution of funds throughout the state for the administration of public transportation services in non-urbanized areas. There are currently 19 agencies providing rural public transportation service within 72 of Oklahoma's 77 counties

Section 5311 funds are provided by the Federal Transit Administration (FTA) for the purchase of capital equipment, administration and operation of the transit systems. The transit operators receive an 80 percent reimbursement for capital and administrative expenses, and a 50 percent reimbursement for their net operating deficit. Capital expenditures associated with compliance with the Americans with Disabilities Act may receive a 90 percent federal share. The local share is provided by organizations within the areas receiving the FTA assistance.

In the OCARTS area, Section 5311 funds are provided to the Logan County Historical Society, which operates a system known as First Capital Trolley. Delta Public Transit operates partially within the OCARTS area. Approximately 25 percent of its total passenger trips occur within the Purcell area at the south end of the OCARTS transportation planning area.

The following tables provide the anticipated federal and local expenditures to operate these rural transportation systems over the coming four years.

Note 1: Category amounts for FY-15 through FY-18 are estimated, based on FY-2014 allocations. All activities will utilize FTA Sec. 5311 funds unless otherwise noted.

Note 2: The local share over matches the federal amount available.

AIRPORT ELEMENT

This chapter includes a listing of proposed capital improvements for Will Rogers World Airport, Wiley Post Airport and Clarence E. Page Airport, located in Oklahoma City. Also included are proposed improvements for Max Westheimer Airport, which is operated by the University of Oklahoma in Norman, and regional airports located in the municipalities of Guthrie, Goldsby and Purcell.

The airport improvements included in this chapter were obtained from the Oklahoma City Department of Airports, the University of Oklahoma, Architectural and Engineering Services (for Max Westheimer Airport). The director for the Guthrie-Edmond Regional Airport, the City of Purcell and Town of Goldsby did not submit any projects for their respective airports for inclusion in this TIP. Each of the following airport improvements is listed by airport, and includes the proposed year of implementation, proposed federal, state, and local funding sources, and estimated costs by funding source.

The Federal Aviation Administration provides federal funding for airport improvements under the Airport Improvement Program (AIP). The federal share of the improvements varies from 10.5 percent to 95 percent, depending on the project eligibility and other funding sources. Other projects included in the attached lists will be accomplished with 100 percent local funds or a combination of state and local funds.

The following list of improvements proposed for the OCARTS area airports represent a total expenditure of just over \$153 million over the TIP period. Of this total, approximately \$78.9 million will be requested from the Federal Aviation Administration and the remaining \$74.1 million will be provided through local funds.

ADOPTING RESOLUTION

ADOPTING RESOLUTION
JOINT RESOLUTION BETWEEN THE
OCARTS METROPOLITAN PLANNING ORGANIZATION AND THE
OKLAHOMA DEPARTMENT OF TRANSPORTATION

A RESOLUTION TO ADOPT THE FFY 2015-2018 TRANSPORTATION IMPROVEMENT PROGRAM FOR THE OCARTS TRANSPORTATION MANAGEMENT AREA:

WHEREAS, the Association of Central Oklahoma Governments (ACOG), as the Metropolitan Planning Organization (MPO) designated by the Governor of the State of Oklahoma for the Oklahoma City Metropolitan Area, is responsible for the operation and maintenance of a comprehensive, cooperative and continuing transportation planning process designed to prepare and adopt transportation plans and programs; and

WHEREAS, the transportation planning process within the OCARTS Transportation Management Area is carried out by the MPO through a Memorandum of Understanding with the Oklahoma Department of Transportation, the Central Oklahoma Transportation and Parking Authority and the University of Oklahoma Transit Services/CART, and

WHEREAS, the Governor of the State of Oklahoma has designated the Oklahoma Department of Transportation as the state agency responsible for review and approval of Transportation Improvement Programs developed in Oklahoma under the requirements of Section 134 of Moving Ahead for Progress in the 21st Century (MAP-21); and

WHEREAS, a Transportation Improvement Program for the OCARTS Transportation Management Area, containing multimodal transportation projects expected to be carried out in the period FFY 2015 through FFY 2018, has been prepared through the planning process; and

WHEREAS, opportunities for citizens, affected public agencies, private providers of public transportation, and other interested parties to participate in and have their views considered in the development of the TIP were provided through public meetings and public notice;

NOW, THEREFORE, BE IT RESOLVED that the Intermodal Transportation Policy Committee of the Association of Central Oklahoma Governments, as the Metropolitan Planning Organization, and the Oklahoma Department of Transportation, hereby adopt the FFY 2015-2018 Transportation Improvement Program for the OCARTS Transportation Management Area.

APPENDIX A: PUBLIC INVOLVEMENT DOCUMENTATION

On Monday, October 28, 2013, the Association of Central Oklahoma Governments' blog was updated with a post regarding the call for projects for the FFY 2015 to 2018 TIP. Since publication, the blog post has received 149 views.

<http://acogblog.org/2013/10/28/transportation-improvement-program-2015-2018>

The full text of the blog post, written by Holly Massie, is as follows:

Call for Projects for the FFY 2015-2018 Transportation Improvement Program

On November 1, ACOG will issue a call for projects to begin preparing a new metropolitan Transportation Improvement Program (TIP) for federal fiscal years 2015-2018. Consistent with federal legislation—Moving Ahead for Progress in the 21st Century (MAP-21)—ACOG prepares a TIP every other year covering a four-year period.

Transportation projects and services that will include federal funding are required to be listed in the metropolitan TIP and the Statewide Transportation Improvement Program (STIP). Additionally, TIP projects must be consistent with the region's long-range transportation plan, Encompass 2035, and must reflect federal, state and local transportation funds expected to be available during the four-year TIP period.

The 2015-2018 TIP will be developed in cooperation with metro area local governments, the Oklahoma Department of Transportation, and local transit and airport operators. The responses received will be used to prepare a preliminary document for public review and comment and presentation to ACOG's Intermodal Transportation Technical and Policy Committees next spring. Inclusion of a project in the TIP is not a guarantee of federal funds, but is contingent upon environmental, right-of way and utility clearances, completion of final plans, and the availability of federal funds and local matching funds.

Responses to the call for projects are required by Monday, December 16, and must include the completed application, scoring, cost estimate, and other documentation as detailed in the materials from ACOG. For questions, please contact Holly Massie with the Transportation Planning & Services Division at HMassie@ACOGOK.org or 234-2264.

The October 28 TIP call for projects blog post was included in November 2013 edition of the Association of Central Oklahoma Governments' transportation e-newsletter, Momentum. The call for projects, seen in bottom row center of the image below, linked e-newsletter recipients directly to the blog post.

The e-newsletter was distributed to a total of 1,204 recipients on Monday, November 18. Of those 1,204 recipients, approximately 309 opened the email – an open rate of 26%. The link to the TIP call for projects blog post garnered 10 clicks or 6.4% of the overall clicks the email received.

NEWS RELEASE

For Immediate Release: April 30, 2014

Media contact: Jerry Church, 234-2264

TRANSPORTATION IMPROVEMENT PROGRAM COMMENTS SOUGHT

ACOG is inviting citizens throughout Central Oklahoma to review and comment on a preliminary version of the next Transportation Improvement Program (TIP).

The TIP identifies all federally funded surface transportation projects (transit, bicycle, highway, airport, etc.) expected to be carried out by city, county, state and local transportation agencies during federal fiscal years 2015-2018 in the Oklahoma City Area Regional Transportation Study (OCARTS) Area. This region includes Oklahoma and Cleveland Counties and parts of Canadian, Grady, Logan and McClain Counties.

Federal law recognizes ACOG as the metropolitan planning organization responsible for long and short-range transportation planning for Central Oklahoma. As such, ACOG maintains a four-year TIP for the region, which will implement the long-range plan.

The Oklahoma Department of Transportation (ODOT), the Central Oklahoma Transportation and Parking Authority (COTPA), operator of EMBARK in Oklahoma City, Cleveland Area Rapid Transit (CART) in Norman, Citylink in Edmond, and other local governments and transportation agencies developed the preliminary TIP and will implement the activities outlined in the program.

Beginning May 1, copies of the preliminary TIP will be available for citizens' review at metropolitan area libraries and on the ACOG Web site at www.acogok.org. Those interested in requesting a copy may contact Holly Massie at ACOG at hmassie@acogok.org or (405) 234-2264. Written comments on the TIP will be accepted through May 27.

NOTICE TO THE PUBLIC OF THE AVAILABILITY OF THE PRELIMINARY FFY 2015-2018 TRANSPORTATION IMPROVEMENT PROGRAM TRANSPORTATION MANAGEMENT AREA

The Association of Central Oklahoma Governments (ACOG), as the Metropolitan Planning Organization for the Oklahoma City Metropolitan Area, hereby declares its Transportation Improvement Program

(TIP) that identifies transportation projects to be implemented with federal transportation funds during the period from October 1, 2015 to September 30, 2018. The FY 2015-2018 TIP will address the line period from October 1, 2014 to September 30, 2018.

The Oklahoma City Transportation Management Area (TMA) includes all of Oklahoma and Cleveland Counties and portions of Canadian, Logan, Grady, and McClain Counties. Federal funds for implementing transportation projects are provided by the Federal Highway Administration, the Federal Transit Administration, and the Federal Administration, and are matched with local funds provided by the sponsoring city, county, or transportation agency.

A preliminary TIP has been developed by the sponsoring city, county, or agency and published in transportation agencies. The preliminary TIP consists of transportation priorities (street and highway, transit and airport) that have been developed within the constraints of anticipated funding and the present transit improvements. This public notice is intended to satisfy the Program of Projects (POP) public notice requirements of the Federal Transit Administration. The POP is the essential element of the TIP.

Anyone wishing to review a copy of the preliminary OCARTS Area TIP may view it on line at www.acogok.org or contact ACOG at bjarnett@acogok.org, 21 E. Main Street, Suite 100, Oklahoma City, OK 73104-2405, or (405) 234-2264. Written comments will be accepted through Tuesday, May 27, 2014. The preliminary TIP, along with all comments received, will be presented to the Intermodal Transportation Policy Committee (ITPC) for consideration on Thursday, May 29, 2014.

The preliminary TIP is available for review here via the ACOG website. Hard copies are available for review at metropolitan area libraries. To request a copy please contact Holly Massie at HMassie@acogok.org or (405)-234-2264. Written comments will be accepted through May 27.

Give Us Feedback on the Four-Year Transportation Improvement Program

The Association of Central Oklahoma Governments invites citizens throughout Central Oklahoma to review and comment on [a preliminary version of the next Transportation Improvement Program \(TIP\)](#).

The TIP identifies all federally funded surface transportation projects (transit, bicycle, highway, airport, etc.) expected to be carried out by city, county, state and local transportation agencies during federal fiscal years 2015-2018 in the Oklahoma City Area Regional Transportation Study (OCARTS) Area. This region includes Oklahoma and Cleveland Counties and parts of Canadian, Grady, Logan and McClain Counties.

Federal law recognizes ACOG as the metropolitan planning organization responsible for long and short-range transportation planning for Central Oklahoma. As such, ACOG maintains a four-year TIP for the region, which will implement the long-range plan.

The Oklahoma Department of Transportation (ODOT), the Central Oklahoma Transportation and Parking Authority (COTPA), operator of EMBARK in Oklahoma City, Cleveland Area Rapid Transit (CART) in Norman, Citylink in Edmond, and other local governments and transportation agencies developed the preliminary TIP and will implement the activities outlined in the program.

The preliminary TIP is available for review here via the ACOG website. Hard copies are available for review at metropolitan area libraries. To request a copy please contact Holly Massie at HMassie@acogok.org or (405)-234-2264. Written comments will be accepted through May 27.

A request for review and comment on the Preliminary TIP was included in the May 2014 edition of the Association of Central Oklahoma Governments' transportation e-newsletter, Momentum. The request, seen in the lower right-hand corner of the image below, linked e-newsletter recipients directly to the blog post.

The e-newsletter was distributed to a total of 1,205 recipients on Wednesday, May 14. Of those 1,205 recipients, approximately 377 opened the email – an open rate of 32%. The link to the TIP blog post garnered 16 clicks or 10.7% of the overall clicks the email received.

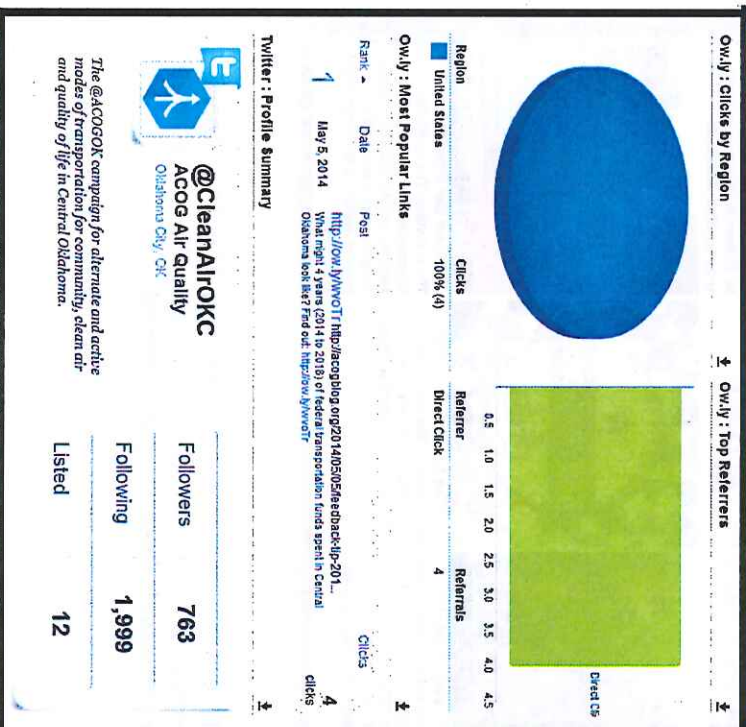

Social media was utilized to encourage review and feedback of the TIP. One of the Association of Central Oklahoma Governments' Twitter accounts, @CleanAirOKC, was used to promote review of the TIP.

<http://twitter.com/CleanAirOKC>

This specific message can be reviewed at the following URL:
<https://twitter.com/CleanAirOKC/status/4693402462851133441>

This message, sent on May 5, went out to an audience of at least 763 social media users. Additionally, two additional Twitter accounts recirculated the message to their users, thus expanding the message's reach to audiences of 61 and 987, respectively, for a total reach of 1,811 users.

Analytics, however, indicate the link itself, pointing to the TIP blog post, only garnered four clicks.

NOTICE OF PUBLIC HEARING
 CONCERNING THE PROPOSED
 ADOPTION OF THE
 FFY 2015 - 2018
 TRANSPORTATION
 IMPROVEMENT PROGRAM
 FOR THE OKLAHOMA CITY
 TRANSPORTATION
 MANAGEMENT AREA

Notice is hereby given that the Intermodal Transportation Policy Committee (ITPC) of the Association of Central Oklahoma Governments (ACOG), the Metropolitan Planning Organization for the Oklahoma City Transit, will hold a public hearing to consider final approval of the FFY 2015-2018 Transportation Improvement Program (TIP) during its regular August meeting. The TPC meeting will be held on Thursday, August 14, 2014, at 2:00 p.m. at the Oklahoma State Capitol, Suite 100, Oklahoma City, Oklahoma.

The FFY 2015-2018 TIP is a four-year program that describes transportation improvements to be funded with federal, state, and local funds within the Oklahoma City Transportation Management Area (TMA) for the period of August 1, 2014 and September 30, 2018. The Oklahoma City TMA includes all of Oklahoma and Cleveland Counties and portions of Canadian, Grady, Logan, and McClain Counties. The TIP is developed by local governments, the Oklahoma Department of Transportation (ODOT), Central Oklahoma Transportation and Parking Authority (COTPA), Cleveland Area Rapid Transit (CART), the Oklahoma City Department of Airports, and other local agencies responsible for implementation of transportation services within Central Oklahoma.

The TIP is prepared in accordance with the guidelines issued by the Federal Highway Administration and the Federal Transit Administration. With regard to proposed public transportation improvements for COTPA and Oklahoma City, the TIP includes public involvement activities, public review and comment deadlines, and public hearing for the FFY 2015 - FFY 2018 are intended to satisfy the Program of Projects (POP) public involvement requirements of the Federal Transit Administration. The POP is the equivalent of the Transit Element of the TIP.

Transportation improvements included in the FFY 2015-2018 TIP are consistent with the OCARTS Long Range Transportation Plan, Encourpass 2035, and the Oklahoma Statewide Plan and are within the financial constraints of anticipated funding for the region over the TIP time frame. The metropolitan area TIP will be submitted to ODOT for inclusion in the Statewide Transportation Improvement Program (TIP). Upon approval of the TIP by ODOT, the Preliminary FFY 2015-2018 TIP is on the ACOG Web site at www.acogok.org. Is available at all metro area public libraries, or a copy may be obtained by contacting Holly Maestri at hmaestri@acogok.org or (405)242-2224. The public hearing will be held on August 14, 2014, and anyone may attend the ITPC public hearing to express their opinions.

MEMORANDUM

DATE: January 9, 2014

TO: Intermodal Transportation Technical Committee

FROM: Holly Massie, Special Programs Officer
Transportation & Planning Services

SUBJECT: Estimated Surface Transportation Program Urbanized Area (STP-UZA) Funds for Preparing the FFY 2015-2018 OCARTS Area Transportation Improvement Program (TIP)

INFORMATION:

To ensure that the OCARTS Area Transportation Improvement Program (TIP) will remain financially constrained, an estimated apportionment of STP-UZA funds for the Oklahoma City Urbanized Area has been developed in consultation with the Programs Division of the Oklahoma Department of Transportation (ODOT). The figures below reflect the STP-UZA apportionment³ that was received in FFY 2013.

As required by MAP-21, a year-of-expenditure inflation factor is also being applied to the project cost estimates submitted by the project sponsors. Inflation factors of 2, 4, 6, and 8 percent are being used for FFY 2015, 2016, 2017, and 2018, respectively.⁴

ACOG's *STP Procedures for the Oklahoma City Urbanized Area Funds* call for 90 percent of the estimated apportionment to be used in preparing the TIP. This is intended to avoid a shortage of funds at the end of the fiscal year due to changes in cost estimates or unanticipated high bids. Also, federal rules allow 10 percent of the estimated STP distribution to be used to finance 100 percent of the

³ The estimated apportionment is based on the combined populations of the Oklahoma City Urbanized Area (UZA) and Norman UZA as authorized by Sec. 6016 of MAP-21.

⁴ The ODOT Project Management Division is using inflation factors of 3, 6, 9, and 12 percent. However, due to ACOG's recent history of STP-UZA carryover funds, staff is recommending the lower inflation rates which will allow more projects to be included in the TIP.

FFY 2015-FFY 2018 TIP for the OCARTS TMA

construction cost of eligible safety projects. Below are the estimated annual STP-UZA (80% federal) and STP-UZA Safety (100% federal) funds to be used to prepare the FFY 2015-2018 TIP.

FFY	Estimated Apportionment*	90% of Estimated Apportionment**	STP-UZA (80%/20%)	STP-UZA Safety (100%)
2015-2018	\$19,300,000	\$17,370,000	\$15,633,000	\$1,737,000

Mr. John Bowman, Director of Capital Programs
Oklahoma Department of Transportation
200 NE 21st Street
Oklahoma City, OK 73105

Dear Mr. Bowman:

We are pleased to inform you that the Metropolitan Planning Organization (ACOG) approved the FFY 2015-2018 OCARTS Area Transportation Improvement Program (TIP) on August 14, 2014, according to the attached information. Also attached is a copy of the full document, which will become effective on October 1.

Approval of the OCARTS Area TIP by the Oklahoma Department of Transportation is requested at this time. We are providing two originals of the *Adopting Resolution* signed by the TIP Chair and the *Metropolitan Planning Process Self Certification* signed by the ACOG Executive Director to the Department. Please obtain the appropriate ODOT signatures on the enclosed resolutions and certification forms and return one of each to ACOG for incorporation into our final document.

We will provide an updated electronic version of the final TIP, following its approval by the Department and incorporation of the signature pages. Please feel free to contact Holly Massie or me if you need any additional information.

Sincerely,

Daniel J. O'Connor, Division Director
Transportation & Planning Services

MEMORANDUM

DATE: August 7, 2014

TO: Intermodal Transportation Policy Committee

FROM: Holly Massie, Special Programs Officer
Transportation & Planning Services

SUBJECT: Public Hearing and Action on Request for Approval of Final FFY 2015-2018 OCARTS Area
Transportation Improvement Program (TIP)

INFORMATION:

In May 2014, the Preliminary FFY 2015-2018 OCARTS Area TIP was made available for public review and comment, which was announced through public notice, a news release and ACOG's social media suite. Copies of the preliminary document were also provided to all metro area libraries and to members of the Intermodal Transportation Technical and Policy Committees at the following link: http://www.acogok.org/Websites/acogok/images/Downloads2014/Final_Draft_FFY_2015-2018_OCARTS_TIP.pdf.

There were no comments received. Thus, the final document will include the same street and highway, public transit, and airport element projects as the preliminary TIP. Following MPD approval of the final FFY 2015-2018 OCARTS Area TIP, it will be provided to the Oklahoma Department of Transportation for approval [as the Governor's designee] and incorporated into the Statewide Transportation Improvement Program (STIP). The new TIP will become effective October 1, 2014, and will be available on the ACOG website at that time.

ACTION REQUESTED:

Motion to approve the Final FFY 2015-2018 OCARTS Area Transportation Improvement Program, and submit the same to the Oklahoma Department of Transportation for approval and incorporation into the Statewide Transportation Improvement Program.

NOTICE OF PUBLIC HEARING
 CONCERNING PROPOSED
 ADOPTION OF THE
 FY 2015 - 2018
 TRANSPORTATION
 IMPROVEMENT PROGRAM
 FOR THE OKLAHOMA CITY
 TRANSPORTATION
 MANAGEMENT AREA

Notice is hereby given that the Intermodal Transportation Policy Committee (ITPC) of the Association of Central Oklahoma Governments (ACOG), the Metropolitan Planning Organization for the Oklahoma City Transportation Management Area (MOTMA), is holding a public hearing to consider final approval of the FY 2015-2018 Transportation Improvement Program (TIP) during its regular August meeting. The ITPC meeting will be held on Thursday, August 14, 2014, at 2:00 p.m. at 21 E. Main Street, Suite 100, Oklahoma City, Oklahoma 73102.

The FY 2015-2018 TIP is a four-year program that describes transportation improvements to be funded with federal, state, and local funds within the Oklahoma City Transportation Management Area (MOTMA) between 2015 and 2018. The Oklahoma City TMA includes all of Oklahoma and Cleveland Counties and portions of Canadian, Grady, Logan, and McClain Counties. The TIP is developed by local governments, the Oklahoma Department of Transportation, Oklahoma Department of Transportation Transportation and Parking Authority (COTPA), Cleveland Area Rapid Transit (CART), the Oklahoma City Department of Airports, and other local agencies responsible for implementation of transportation facilities and services within the MOTMA.

The TIP is prepared in accordance with the guidelines issued by the Federal Highway Administration and the Federal Transit Administration. With regard to proposed public transportation improvements for COTPA and CART funded projects, the TIP includes a public hearing and comment deadline, and public hearing for the FY 2015 - FY 2018 are intended to satisfy the Program of Projects (PO) public involvement requirements of the Federal Transit Administration, the Oklahoma Department of Transportation, the Department of Transportation, the Federal Highway Administration, and the Oklahoma Department of Transportation. Upon completion of the TIP, the TIP will be submitted to the Oklahoma City Council for approval. The TIP is on the ACOG Web site at www.acogok.org, is available at all metro area public libraries, or a copy may be obtained by contacting Holly Masias at hmasias@acogok.org or (405)342-2200. The public hearing is scheduled through 4:00 p.m. August 11, 2014, and anyone may attend the ITPC public hearing to express their opinions.

ADOPTING RESOLUTION

ADOPTING RESOLUTION

JOINT RESOLUTION BETWEEN THE OCARTS METROPOLITAN PLANNING ORGANIZATION AND THE OKLAHOMA DEPARTMENT OF TRANSPORTATION

A RESOLUTION TO ADOPT THE FFY 2015-2018 TRANSPORTATION IMPROVEMENT PROGRAM FOR THE OCARTS TRANSPORTATION MANAGEMENT AREA:

WHEREAS, the Association of Central Oklahoma Governments (ACOG), as the Metropolitan Planning Organization (MPO) designated by the Governor of the State of Oklahoma for the Oklahoma City Metropolitan Area, is responsible for the operation and maintenance of a comprehensive, cooperative and continuing transportation planning process designed to prepare and adopt transportation plans and programs; and

WHEREAS, the transportation planning process within the OCARTS Transportation Management Area is carried out by the MPO through a Memorandum of Understanding with the Oklahoma Department of Transportation, the Central Oklahoma Transportation and Parking Authority and the University of Oklahoma Transit Services/CART, and

WHEREAS, the Governor of the State of Oklahoma has designated the Oklahoma Department of Transportation as the state agency responsible for review and approval of Transportation Improvement Programs developed in Oklahoma under the requirements of Section 134 of Moving Ahead for Progress in the 21st Century (MAP-21); and

WHEREAS, a Transportation Improvement Program for the OCARTS Transportation Management Area, containing multimodal transportation projects expected to be carried out in the period FFY 2015 through FFY 2018, has been prepared through the planning process; and

WHEREAS, opportunities for citizens, affected public agencies, private providers of public transportation, and other interested parties to participate in and have their views considered in the development of the TIP were provided through public meetings and public notice;

NOW, THEREFORE, BE IT RESOLVED that the Intermodal Transportation Policy Committee of the Association of Central Oklahoma Governments, as the Metropolitan Planning Organization, and the Oklahoma Department of Transportation, hereby adopt the FFY 2015-2018 Transportation Improvement Program for the OCARTS Transportation Management Area.

Resolution

Joint resolution between the Indian Nations Council of Governments and the Oklahoma Department of Transportation

A RESOLUTION TO ADOPT THE FFY 2015 – 2018 TRANSPORTATION IMPROVEMENT PROGRAM FOR THE TULSA TRANSPORTATION MANAGEMENT AREA

WHEREAS, the Indian Nations Council of Governments, as the Metropolitan Planning Organization designated by the Governor of the State of Oklahoma for the Tulsa Metropolitan Area, is responsible for the operation and maintenance of a comprehensive, cooperative and continuing transportation planning process designed to prepare and adopt transportation plans and programs; and

WHEREAS, the transportation planning process is carried out by the Indian Nations Council of Governments through a Memorandum of Understanding with the Oklahoma Department of Transportation and the Metropolitan Tulsa Transit Authority, dated April, 1975; and

WHEREAS, the Governor of the State of Oklahoma has designated the Oklahoma Department of Transportation as the state agency responsible for review and approval of Transportation Improvement Programs developed in Oklahoma under the requirements of Section 134, Title 23, United States Code, of Moving Ahead for Progress in the 21st Century (MAP-21); and

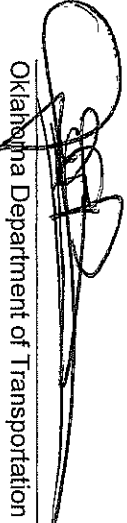

WHEREAS, a Transportation Improvement Program for the Tulsa Transportation Management Area, containing highway, transit, bicycle/pedestrian, airport, and air quality improvement projects expected to be carried out from FFY 2015 to FFY 2018, has been prepared through the planning process; and

WHEREAS, opportunities for citizens, affected public agencies, private providers of public transportation, and other interested parties to participate in and have their views considered in the development of the Transportation Improvement Program were provided through public meetings and public notices;

NOW, THEREFORE BE IT RESOLVED that the Indian Nations Council of Governments, as the Metropolitan Planning Organization, hereby endorses the approval of the *FFY 2015 – 2018 Transportation Improvement program* by the Transportation Policy Committee, and the Oklahoma Department of Transportation hereby adopts the *FFY 2015 – 2018 Transportation Improvement Program* for the Tulsa Transportation Management Area.

Introduction & Background

The Tulsa metropolitan region's changing pattern of land development and travel demand requires a continuous program of managing and improving the area's surface transportation system. The availability of good surface transportation facilities and services has always been one of the major factors affecting industrial location, commercial activity, and residential development in a changing metropolitan environment. In fact, the transportation system plays a central role in the lives of the citizens of the region as they go about their daily business and activities. If the metropolitan area is to enjoy an enhanced quality of life and maintain a competitive position both regionally and nationally, a transportation improvement program is necessary to assure that the transportation system is positioned to make a positive contribution.

The *Federal Fiscal Year (FFY) 2015 – 2018 Transportation Improvement Program (TIP)* presents a program of improvements to the surface transportation system within the Tulsa Transportation Management Area (see map on page 3) to be implemented with federal matching funds. The projects, which have a combination of federal, state, and local funding sources, cover a wide range of transportation modes, including streets and highways, public transportation, bicycle and pedestrian facilities, and airport improvements. Planned improvements include new construction; expansion of existing services and facilities; operation, maintenance and reconstruction of existing facilities; efficiency improvements to increase the effectiveness of existing transportation investments; and projects specifically identified for their ability to maintain the Tulsa area's "clean air" status.

The TIP was prepared by INCOG, the Metropolitan Planning Organization (MPO) for the Tulsa Transportation Management Area (TMA), under the guidance of the Transportation Policy Committee (TPC) and the Transportation Technical Committee (TTC). It represents a cooperative effort between INCOG and its member governments in the Tulsa area, The Metropolitan Tulsa Transit Authority (MTTA), and the Oklahoma Department of Transportation (ODOT).

The TIP serves as a short-range implementation program, identifying projects to be initiated during the upcoming four-year period. Additionally, the TIP is used as a program management tool, to gauge progress toward implementing transportation plans for the region. Specifically, improvements contained within the TIP must be consistent with approved transportation plans, primarily the Regional Transportation Plan (RTP), and the Tulsa Metropolitan Area Major Street and Highway Plan (MSHP), and should reflect progress toward implementation of the plans in light of the overall transportation goals of the metropolitan area.

The TIP is a program of projects for which funding is expected to be available. As a result, the *TIP* reflects the transportation improvements priorities of the region, given the resources available. The Program Detail on page 4 lists, by funding program, the total funds expected and programmed from all sources (federal, state, and local).

Highlights

Significant improvements in this four-year program include the following projects:

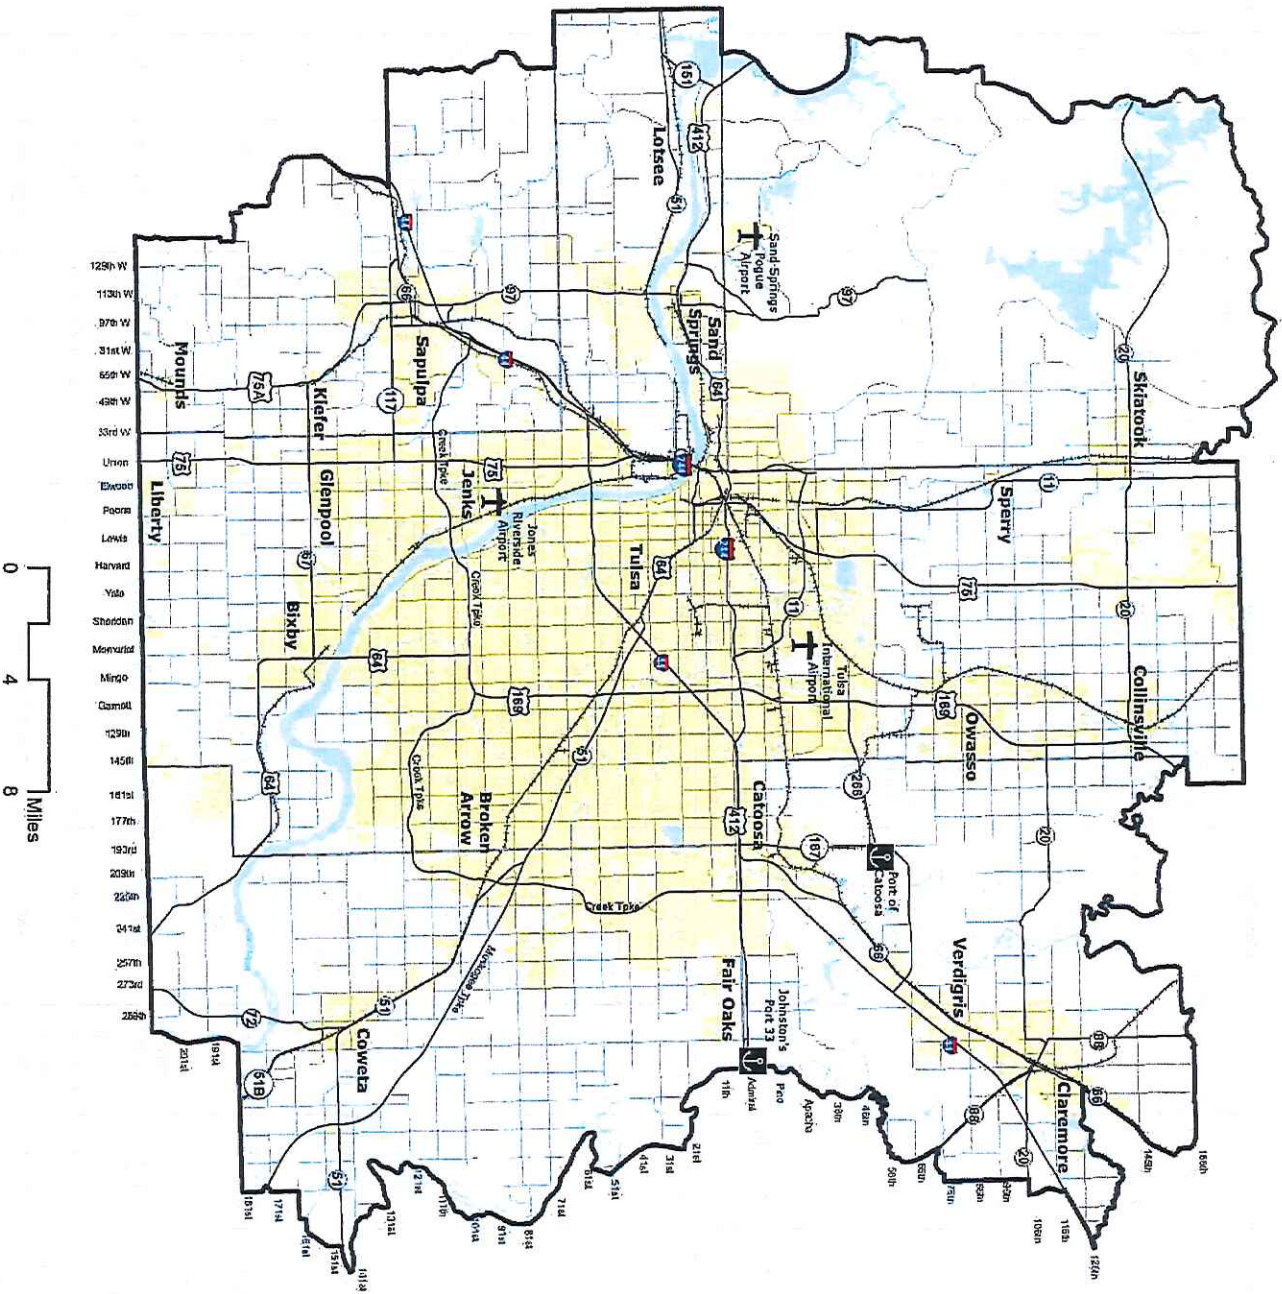

- I-44 EB & WB Bridges at 177th East Ave (Lynn Lane) (2015)
- SH-266 at US-169 Interchange (2015)
- I-44 Interchange at 145th E Ave (2018)
- I44 Interchange at 163rd St. (2015)
- I-44 & US-169; BA Expressway & US-169 Interchanges, selected movements (2015-18)
- Improvements to SH-20 in Rogers County (2018)
- Transit projects include replacement of various vehicles, installation of passenger shelters and AVL.

TIP Document Organization

The TIP is intended to provide technical information that transportation professionals use in a format that is understandable by anyone interested in surface transportation improvements in the region. To accomplish this, some key features should be noted.

- The projects are grouped by year and within each year they are grouped by County in alphabetical order and then by Job Number.
- Summaries of funding by program for each year follow the project listings
- Because the TIP is a dynamic document, being updated or occasionally amended, a page has been included at the front with information on contacting INCOG's Transportation Division
- Finally, the list of projects will be included in the Programs/Projects section on the web page (www.incoog.org/transportation), and will be updated as often as necessary.

Project Selection Criteria

ODOT has established a project selection process with the adoption of their Construction Work Plan. This selection process applies to Interstate Maintenance, National Highway System, Surface Transportation Program (outside of the Tulsa Adjusted Urbanized Area), and Bridge Replacement/Rehabilitation projects in the TMA. In cooperation with INCOG, ODOT selects these projects at the Commission District level based on projected available resources and with consideration of ODOT's Needs Study, population, highway system miles, and historical funding trends. This process is documented in the ODOT Construction Work Plan.

INCOG established a process for the prioritization of transportation projects to be funded with Urbanized Area Surface Transportation Program (STP) funds for inclusion into the TIP for the Tulsa Transportation Management Area. In December 2009, The Urbanized Area STP ranking criteria were revised to provide direct application for funding for all communities in the TMA. With the input of local officials through the Transportation Technical Committee (TTC), Transportation Policy Committee (TPC), and INCOG Board of Directors, projects are evaluated annually for eligibility and to establish priorities. Candidate projects will be programmed into the TIP based on priorities and the availability of funds, and selected for construction in order of meeting all requirements and being ready to proceed.

Urbanized Area STP funds are spent within the Tulsa Transportation Management Area, but are not used on roads functionally classified pursuant to federal guidelines as local or rural minor collectors, except for bridges. The allocation of Urbanized Area STP funds to the Tulsa Urbanized Area is based on the 2010 Census population within the Census defined Tulsa Urbanized Area boundary. The Adjusted Tulsa Urbanized Area currently includes the Cities of, Bixby, Broken Arrow, Catoosa, Coweta, Jenks, Sand Springs, Sapulpa, Sperry, and Tulsa and adjacent portions of Creek, Osage, Rogers, Tulsa, and Wagoner Counties. Urbanized area is expected to change with the FHWA consent to adding Glenpool and Owasso based on Census proposal and it will be adjusted accordingly. Entities within the Adjusted Tulsa Urbanized Area are eligible to utilize the Urbanized Area STP funds. Projects located outside the defined Urbanized Area boundary may be considered, but must be sponsored by an eligible entity.

Project sponsors submit projects for implementation using Tulsa Urbanized Area STP funds by completing a Transportation Project Rating Form for each project. The form is used to establish project eligibility and to score transportation projects proposed for funding. The prioritization results from the form's scoring system allow fair competition and selection based on the project's individual characteristics, status, and local commitment relative to the other projects. Specifically, projects are evaluated on the following characteristics:

- A. Travel Time Improvements
- B. Safety Improvements
- C. System Maintenance and Management
- D. Project Preparation
- E. Livability
- F. Freight Movement and Intermodal Linkages
- G. Special Benefits

Projects were previously selected and funded through FFY 2017. INCOG anticipates that projects will be selected in the summer of 2014 for programming in 2018.

Financial Resources

More than \$265 million in federal funds are anticipated to be available to the Tulsa Transportation Management Area over the next four years for surface transportation improvements. The resources are expected from a variety of sources, including Federal Highway Administration funds, Federal Transit Administration funds, and Federal Aviation Administration funds, to be matched with miscellaneous local funds provided by local governments in the Tulsa Transportation Management Area. The Program Detail on page 4 reflects the funds estimated to be available and the proposed expenditure of funds over the TIP period by funding program, while the Source of Revenue Estimates table (below), identifies the source of the estimated federal funds. Local funds programmed in the TIP are those required to match the federal funds, unless otherwise noted.

Source of Revenue Estimates for the Tulsa TMA

<i>Funding Program</i>	<i>Source of Revenue Estimate</i>
Urbanized Area Surface Transportation Program	Direct allocation to the Tulsa TMA based on the Tulsa Urbanized Area population.
Interstate Maintenance	Coincides with estimates programmed in the Tulsa TMA by ODOT for FFY 2015 – 2018.
Bridge Program	Coincides with estimates programmed in the Tulsa TMA by ODOT for FFY 2015 – 2018.
National Highway System	Coincides with estimates programmed in the Tulsa TMA by ODOT for FFY 2015 – 2018.
Congestion Mitigation and Air Quality	Direct allocation to the Tulsa TMA by ODOT for ozone reduction and congestion reduction projects.
Surface Transportation Program	Coincides with estimates programmed in the Tulsa TMA by ODOT for FFY 2015 – 2018.
Transit Section 5307	Urbanized formula apportionment from the Federal Transit Administration.
Transit Section 5309	Urbanized formula apportionment from the Federal Transit Administration.
Transit Section 5310	Urbanized formula apportionment from the Federal Transit Administration for Enhanced Mobility of Elderly & Disabled
Metropolitan Planning Program	Direct FHWA Planning Assistance and FTA Section 5303 allocation funds to the Tulsa TMA based on ODOT's distribution formula.
Airport Improvement Program	FAA entitlement and discretionary funds. Local funding is from Passenger Facility Charges.

Public Involvement Process

Public involvement activities related to the development and maintenance of the TIP are detailed in INCOG's Public Involvement Process (Appendix A.)

As a part of the process to develop the TIP there were several public involvement opportunities available to interested area citizens. As a part of continuous process to seek input and/or provide information at each milestone event, upon the request of interested parties, public notices are published with a list of submitted projects from the various agencies available via the INCOG website. Each Technical Advisory Committee (TAC) and Transportation Policy Committee (TPC) was open to the public to allow area citizens to express their views. The document was made available through INCOG's transportation web page and in the INCOG offices. From June 30 through July 29, 2014 the public had opportunities to present their views and opinions regarding the TIP. In July 2014 the TPC approved the TIP. A direct email was sent out to the area agencies, stakeholders and public involvement database to inform the public of the final TIP document. A public notice was also published in local area newspapers. Consideration by the INCOG Board of Directors is scheduled for August 12, 2014.

Legal notices were advertised in area newspapers or periodicals including a Spanish language publication. Our web site had over 600 unique visitors and over 1,200 unique page views during the public notice period. Several inquiries were submitted regarding projects in the TIP, or the lack of particular projects, and staff responded to those questions.

The TIP is a dynamic document that is amended from time to time. All amendments to the TIP will have ample opportunity for public review and comment, through media notices, direct mailings to interested parties, and agenda postings on the INCOG internet home page. The TAC and TPC will review all proposed amendments and forward recommendations to the INCOG Board of Directors. All approved amendments will be included in the TIP document and transmitted to ODOT for inclusion in the Statewide Transportation Improvement Program.

Air Quality

The Tulsa Transportation Management Area (TMA) is in conformity with air quality standards. Based on a 2002 emission inventory for ozone in the Metropolitan Statistical Area (MSA), On-Road Mobile sources accounted for 47% of Volatile Organic Compound emissions, 35% of Nitrogen Oxides emissions, and 67% of Carbon Monoxide emissions. The 2032 plan estimated emissions from mobile sources will decrease over time due to cleaner vehicles, cleaner fuel, and higher travel speeds. All projects listed in this TIP are consistent with the Long Range Transportation Plan (LRTP).

The Environmental Protection Agency (EPA) standards governing allowable emissions for metropolitan areas mandate that the maximum ozone emissions be measured on a running 8-hour average. Also, the emissions exceedance level must be below 0.075 parts-per-million (ppm). The level will be determined based on the fourth highest emissions level at any monitoring station in the metropolitan area over a three-year average. The TMA has 5 monitoring stations. The EPA implemented the 8-hour standard with the attainment designations April 15, 2004. The TMA, along with the entire State of Oklahoma was designated attainment for the ozone air quality standard.

Also, INCOG entered into an 8-Hour Ozone Flex agreement with the EPA and the Oklahoma Department of Environmental Quality (DEQ). Under this agreement INCOG will voluntarily implemented measures to reduce ozone levels to meet the 8-hour standard should any monitor violate the standard.

Long Range Transportation Plan Compliance

The goals of the 2035 *Regional Transportation Plan* focuses on providing a range of transportation choices; providing access to jobs, activities, and services throughout the region; enhancing the livability of the community; promoting the area economy; using resources efficiently, and enhancing the safety and security of the system. Projects in the *T/P* reflect those goals by expanding the modes of transportation, increasing access to employment centers, improving the safety of various components of the surface transportation system, and maximizing the investment in the transportation system in the region.

Appendix A – Public Involvement Process

Excerpts from the Public Involvement Process for the Tulsa Transportation Management Area.

Transportation Improvement Program

The Transportation Improvement Program (TIP) describes all federally-funded transportation projects or programs that will be carried out over the next three years. These projects or programs must be derived from the LRTP, and therefore, the TIP is an implementation tool of the LRTP. The TIP is developed every two years and lists projects beginning with the subsequent odd-numbered year. INCOG develops the TIP for the Tulsa TMA in cooperation with the ODOT, the Metropolitan Tulsa Transit Authority (MTTA), and airports in the TMA. Because the TIP is a short-term program, it has relatively immediate impact on the transportation system in the region; therefore, an informed and involved public is essential in setting the priorities in the TIP.

As a part of the process of developing the TIP, INCOG will prepare a detailed list of objectives and procedures to obtain public involvement as it relates to the Transportation Improvement Program. This detailed list will be based upon the following general guidelines:

1. **Specific Outreach** – INCOG will notify in writing individuals, organizations and associations, partner agencies, and local governments at the initiation of the TIP development. This notification will include a description and timeline of the development process, a general outline of the programs and types of projects affected, and detail the opportunities for input and review.
2. **Media Relations Activities** – Press releases, media advisories, and legal notices will be sent to the local media at the initiation, draft, and final approval stages of the TIP development. Articles will be written for inclusion in various organization publications.
3. **Public Meetings** – A total of at least two public meetings including one for each of the TAC and TPC will be held to allow opportunities for public comment prior to the TIP advancing to the next stage of development. These meetings will be posted in accordance with open meetings act requirements.
4. **TIP Online** – The draft TIP and final TIP will be posted on the INCOG website with an e-mail link allowing for comments or questions to be submitted. Once the TIP is adopted, a current copy will be maintained on the website reflecting the most recent amendments and progress and/or delay in implementing the TIP.

As a part of these general guidelines, there will be a 21-day comment period before the TIP will be formally adopted and a 14-day comment period before the Board of Directors endorses amendments. Also, public notices will be published in local newspapers and sent to all interested parties. All TAC, TPC, and Board of Directors meetings are open to the public and held at handicapped accessible locations.

The Transportation Improvement Program Plan of Action

The TIP serves as a short-range implementation program, identifying surface transportation projects to be initiated during the three-year period. Additionally, the TIP is used as a program management tool to gauge progress toward implementing transportation plans for the region. Specifically, improvements contained within the TIP must be consistent with the *2032 Regional Plan Update* and the Tulsa Metropolitan Area Major Street and Highway Plan, and should reflect progress toward implementation of the plans in light of the overall

transportation goals of the metropolitan area. The projects in the TIP, which have a combination of federal, state, and local funding sources, cover a wide range of transportation modes, including streets and highways, public transportation, bicycle and pedestrian facilities, and airport improvements.

Generally, the planned improvements include new construction; expansion of existing services and facilities; operation, maintenance and reconstruction of existing facilities; efficiency improvements to increase the effectiveness of existing transportation investments; and projects specifically identified for their ability to maintain the Tulsa areas "clean air" status. The availability of good surface transportation facilities and services has always been one of the major factors affecting air quality, commercial activity, and residential development in a changing metropolitan environment. In fact, the transportation system plays a central role in the lives of the residents of the region as we go about our daily business and activities. If the metropolitan area is to enjoy an enhanced quality of life and maintain a competitive position both regionally and nationally, a transportation improvement program is necessary to assure that the transportation system makes a positive contribution.

The Transportation Planning Division will be seeking comments from the public throughout the TIP development process. At key milestones in the process INCOG will provide specific opportunities directly to the public for review and comment on the projects in the TIP. We will be posting all information on our website as well so visit our web page (www.incog.org/Transportation/Transportation.htm), for regular updates on the TIP development and opportunities for input.

For questions regarding the TIP you may contact the Transportation Planning Division via email at incog@incog.org, by fax 918-583-1024, phone 918-584-7526, or mail to 2 West Second Street, Suite 800, Tulsa, OK 74103

Appendix B – Project Selection Process

Transportation Policy Committee June 27, 2012

Surface Transportation Program (STP) Project Prioritization and Selection Process For the Tulsa Urbanized Area

INCOG, as the Metropolitan Planning Organization (MPO) for the Tulsa metropolitan area, is required to establish a selection process for the distribution of STP funds. Priority funding will be given to projects that meet federal regulations (Attachment B), and help advance the Regional Transportation Plan (RTIP) in the following areas:

1. Arterial Intersections – Safety and capacity improvements to existing intersections. Sample projects include, but are not limited to:
 - Railroad crossing improvements
 - Signal prioritization, automation, preemption, and/or synchronization
 - Intersection lighting, markings, and/or signage
 - Pedestrian safety measures
2. System Preservation – Maintenance or preservation projects for existing transportation infrastructure. Sample projects include, but are not limited to:
 - Pavement resurfacing, replacement, reconstruction and/or rehabilitation
 - Pavement management system
 - Bridge restoration and/or operational improvements
3. System Management and Integration – Technology systems for the management of, and communication between transportation-related systems. Sample projects include, but are not limited to:
 - Highway courtesy patrols
 - Congestion/Incident Management Systems
 - Advanced Traveler Information Systems (ATIS)
 - Intermodal transportation facilities and systems (including CVISN)
 - Traffic management center capital and O&M costs
 - Data storage and transmission
 - Intelligent Transportation System (ITS) roadside hardware
4. Alternative Transportation – Projects that promote alternatives to Single Occupant Vehicle (SOV) usage. Sample projects include, but are not limited to:
 - Transit capital, research, safety improvements, and/or management systems costs
 - Carpool/vanpool projects
 - Sidewalk modifications and/or walkway projects
 - Bicycle transportation projects
 - Multimodal connections (park & ride lots)
5. Capacity Expansion -- Construction projects that add capacity to an existing street or interstate, or construction of new facilities. Sample projects include, but are not limited to:
 - Adding lanes to existing streets or highways
 - New Interchanges
 - New Roads

- Bridge Replacement
- Bridge Widening and/or Lane Additions

With the input of local officials through the Transportation Technical Committee (TTC), Transportation Policy Committee (TPC), and INCOG Board of Directors, proposed projects will be evaluated for eligibility and priority based on a 100-point grading system. Selected projects will be included in the Transportation Improvement Program (TIP) for the Tulsa Transportation Management Area (TMA).

Eligible Transportation Improvements

In order for a project to be eligible for Tulsa Urbanized Area STP funds, it must meet the following criteria:

- 1) The proposed project must represent at least one of the following:
 - A) An implementation of actions from the *Destination 2035* LRTP, [http://www.incoq.org/Transportation/connections2035/documents/Connections2035RegionalTransportationPlan\(9\).pdf](http://www.incoq.org/Transportation/connections2035/documents/Connections2035RegionalTransportationPlan(9).pdf)
 - B) A transportation system management (including congestion management) project, <http://www.incoq.org/transportation/congestionandtraffic/2009CMPdraft.pdf>
 - C) Transportation control measures from the Air Quality State Implementation Plan,
 - D) A safety or transportation enhancement project, or
 - E) System preservation of a transportation facility (*i.e.*, reconstruction, rehabilitation, resurfacing, restoration and operational improvements).
- 2) Projects must be located within the Tulsa Transportation Management Area (TMA) (Attachment C). http://www.incoq.org/Transportation/maps/tma2006_general_map.pdf
- 3) Funds must be used for roads classified as Urban Collectors and Arterials or Rural Collectors (Major) and Arterials under the Federal Highway Administration Functional Classification System. Bridges are exempt from this rule. In addition, Projects on roadways planned for inclusion as proposed revisions to Federal Highway Functional Classification, contingent upon concurrence and approval by the FHWA, will be eligible. <http://www.incoq.org/Transportation/documents/FedClassMaps.htm>
- 4) The local project sponsor must be a local unit of government or instrumentally thereof (such as the Metropolitan Tulsa Transit Authority or INCOG), within the Tulsa Urbanized Area (Creek County, Osage County, Rogers County, Tulsa County, Wagoner County, City of Bixby, City of Broken Arrow, City of Catoosa, City of Coweta, City of Jenks, City of Sand Springs, City of Sapulpa, or City of Tulsa) or within the Tulsa Transportation Management Area (City of Claremore, City of Collinsville, City of Glenpool, City of Owasso, or the Town of Skiatook.)
- 5) The local project sponsor must provide to INCOG an STP Project Resolution (Attachment A), adopted by the governing body at a public meeting, which describes the project, including the type of improvement, project location, total project cost, and source(s) of matching funds. The sample resolution may be modified to reflect specific agreements between the project sponsor and ODOT or to meet local city charter requirements.

- 6) The local project sponsor must provide to INCOG a preliminary cost estimate adjusted for inflation using a rate of 4% per year over four years, and with a contingency of approximately 15% (+ or - 5%). Cost estimates for construction projects must be submitted by a registered professional engineer, architect, or landscape architect as appropriate, licensed in the State of Oklahoma.

Funding Ratios

The United States Department of Transportation (USDOT) will divide Surface Transportation Program funds each year among the states based on their respective amounts of highway mileage, vehicles miles traveled, and fuel tax contributions. The Oklahoma Department of Transportation (ODOT) uses 37.75% of allocated funds for various projects throughout the state, with the remaining 62.25% being divided between the Oklahoma City and Tulsa Transportation Management Areas. INCOG's share is on average an estimated \$13 million per year. Based on the priorities established, projects representing the expected resources may be programmed in the TIP to be funded with Urbanized Area STP funds.

In order to accelerate completion of the expressway system and/or initiate rail-transit system planning within the Tulsa metropolitan area, up to 15 percent of the Urbanized Area STP funds may be set aside for corridor analysis, functional planning/engineering and environmental studies; up to 50 percent for right-of-way acquisition and utility relocation; and up to 60 percent for construction related to completion/upgrading of the Expressway System (*i.e.*, Gilcrease Expressway/Parkway and Osage/L.L. Tisdale Expressway). Furthermore, Urbanized Area STP funds may be committed to pay bonds and associated financing for projects completing the Expressway System.

If capital projects are submitted that are non-roadway and specifically intended to improve mobility and accessibility for the elderly, low-income households, and persons with disabilities, then up to 5% of the annual apportionment may be set aside provided the projects meet the eligibility requirements and conform to the goals and actions of the Coordinated Human Services – Public Transit Plan. Exclusive ITS projects or Incident Management projects may also be given due consideration within the scope of the same 5% annual apportionment.

The balance of the Urbanized Area STP funds will be made available for construction/implementation of transportation projects, utilizing a process to prioritize and select projects to be awarded funding. For those projects selected for funding, expenses associated with the development of engineering plans, right-of-way acquisition and utility relocation are eligible but must meet all state and federal policies. Local sponsors will also be responsible for providing required matching funds.

Urbanized Area STP projects will be funded at a ratio of 80 percent federal funds and 20 percent local funds for eligible project costs. Certain safety projects may be funded at 100 percent of the cost by federal funds upon approval by ODOT. Such safety projects are described in Title 23, U.S.C., Section 120(c), and include traffic control signalization, pavement marking, commuter carpooling and vanpooling, or installation of traffic signs, traffic lights, guardrails, impact attenuators, concrete barrier end treatments, breakaway utility poles, or priority control systems for emergency vehicles at signalized intersections.

All state and federal requirements in conjunction with the use of federal funds (*i.e.*, uniform relocation, Davis-Bacon, NEPA, etc.) must also be met. In general, it is expected that no single project or entity will be allocated more than 60% of the total STP Urbanized Area funds available per year. And furthermore, no other single project or entity will be allocated more than 50% of the remaining balance of STP Urbanized Area funds available per year. Final project scheduling by fiscal year for selected projects will be based on project phasing, project size and anticipated resources available.

Instructions for Project Submittals

Any entity wishing to sponsor functional planning/engineering, Major Investment Studies, and environmental studies, right-of-way acquisition, and utility relocation related to completion/upgrading of the Expressway System must submit a request to INCOG. Each request will be evaluated on a case-by-case basis to determine if funds will be set aside for this purpose.

A project sponsor wishing to submit a project for implementation using Tulsa Urbanized Area STP funds must complete a *Transportation Project Rating Form* (Attachment D) for each proposed project. The *Transportation Project Rating Form* will be used to establish project eligibility and to score transportation projects proposed for funding. The prioritization resulting from the form's scoring system will allow fair competition and selection based on a project's individual characteristics, status, and local commitment relative to other proposed projects.

Specifically, proposed projects will be evaluated on the following characteristics:

A. Travel Time Improvements	Maximum 16 points
B. Safety Improvements	Maximum 20 points
C. System Maintenance and Management	Maximum 16 points
D. Project Preparation	Maximum 16 points
E. Livability	Maximum 12 points
F. Freight Movement and Intermodal Linkages	Maximum 12 points
G. Special Benefits	Maximum 8 points
<u>Total</u>	<u>100 points</u>

The prioritization scoring will serve as the initial screening used to select projects for funding with Urbanized Area STP funds. Certain types of projects that cannot be evaluated through the project rating process due to their characteristics (e.g., planning and engineering studies, carpool programs, wetlands mitigation, research programs, etc.) may be submitted for consideration. These "exception" projects along with the initial prioritized list will be presented to the TAC, TPC, and the INCOG Board of Directors, which together will establish the final priorities.

Completion of the preliminary activities (functional planning/engineering, and environmental studies) will make the projects better able to compete for construction funds available through other programs for projects statewide. Affected/interested entities will select a lead agency that will act as project sponsors and will be responsible for coordinating the provision of local matching funds. Funding for right-of-way acquisition and utility relocation will only be eligible upon state and federal approval of required functional planning/engineering and environmental studies.

INCOG, as the MPO, will notify ODOT of the programming of projects and will provide to ODOT copies of the project sponsors' STP Project Resolution and preliminary cost estimate. The project sponsor must file with ODOT evidence that the local matching share for the proposed project is in hand and immediately available to the project, and three copies of documentation as to the provision of engineering services to the project sponsor for preparation of plans, as applicable, for construction projects. The project sponsor must also execute a project agreement with ODOT within 180 days of project approval by the Board of Directors. INCOG reserves the right to reprogram funds for projects whose sponsors fail to execute agreements within that period.

Project funding will be obligated (approved by ODOT and FHWA) in consultation with INCOG on a "first ready, first funded" basis, regardless of project sponsor. Projects that fail to be ready to be obligated by the Federal Fiscal Year in which they were selected for funding will be jointly assessed by the project sponsor, INCOG, ODOT and USDOT, to determine if the project should be terminated and the funds reprogrammed. Reprogrammed funds will be made immediately available for projects that are ready to proceed. Project selection by the MPO will be considered to occur when the project is included on the TIP approved by the Transportation Policy Committee and endorsed by the INCOG Board of Directors. Upon receipt of MPO concurrence, ODOT will place the project on a scheduled letting list, and request the local funding share from the project sponsor. The matching funds must be received by ODOT before the project can be advertised for bids. Prior to bid opening, ODOT will request Federal authorization of the project.

Project Monitoring

It is the responsibility of ODOT to keep INCOG informed of the status of all Urbanized Area STP projects within the Tulsa area, and to report project cost adjustments so that cost estimates can be replaced with actual construction costs when the projects are let for bid and completed. ODOT shall provide to INCOG verification of the final project cost upon its completion. ODOT shall also provide to INCOG a quarterly status report summarizing the Tulsa Urbanized Area STP program, including the status of all selected projects and the amount of unobligated funding available for programming additional projects.

INCOG will routinely prepare a summary of all Tulsa Urbanized Area STP projects, including location, cost, and status, which have been obligated since the inception of the program. Transportation Technical Committee Advice: Pending the decision of the subcommittee to review selection criteria related to funding of projects that go over the allocated budget, for projects to be selected for FFY2018, the Sponsor is advised that such a selection and funding will be subject to the final recommendation by the subcommittee and approval by the Transportation Policy committee.

FFY 2015 Program

City	Project Location	Project Description	Federal Funds	Local Funds
Tulsa	Glicrease West Expressway	Engineering design, right-of-way acquisition, utility relocation, and construction from Edison Street to LL Tisdale Parkway	\$6,000,000	\$1,500,000
Bixby	111th & Mingo Intersection	Signalization, turn lane	\$600,000	\$200,000
Sapulpa	Taft & Hickory	Traffic Signal Upgrade	\$107,000	\$10,000
Sapulpa	Dewey & Mission	Traffic Signal Replacement	\$192,000	\$15,000
Catoosa	Pine Street	SH-167 to SH-66, Widen and overlay to 3-lanes	\$1,808,040	\$341,469
Owasso	E 76th Street N.	US-169 to N 129th E Ave, Widening to 5-lanes	\$3,472,000	\$868,000
Sand Springs	S 113th W Ave	Widen, add turn lanes, sidewalks	\$1,718,685	\$706,895
Broken Arrow	23rd Street	Kenosha to Houston	\$220,788	\$73,597

FFY 2016 Program

City	Project Location	Project Description	Federal Funds	Local Funds
Tulsa	Glicrease West Expressway	Engineering design, right-of-way acquisition, utility relocation, and construction from Edison Street to LL Tisdale Parkway	\$6,000,000	\$1,500,000
Bixby	Memorial Drive	Corridor Traffic and Signalization Study	\$68,850	\$21,250
Owasso	N. 106th St & Garnett	Widen E 106th St N & Garnett Intersection	\$1,780,800	\$445,200
Sand Springs	S 113th W Ave	Phase 2 Widening Project, Intersection Improvement at E 34th Street	\$795,502	\$934,078

Appendix C – TIP Development Process

PROCEDURES FOR DEVELOPING THE OKLAHOMA METROPOLITAN PLANNING ORGANIZATIONS (MPO) TRANSPORTATION IMPROVEMENT PROGRAM (TIP) and THE OKLAHOMA STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM (STIP)

Title 23 USC 135(g)(1) requires each State to develop a statewide transportation improvement program for all areas of the State to cover a period of 4 years and be updated every 4 years or more frequently if the Governor elects to update more frequently. In addition, Title 23 USC 135(j)(1) requires Metropolitan Planning Organizations (MPO) designated for each metropolitan area to develop a TIP in the area for which the MPO is designated, in cooperation with the State and affected public transportation operators. In accordance with these requirements, the Oklahoma Department of Transportation (ODOT) in cooperation with the Association of Central Oklahoma Governments (ACOGG), the Indian Nations Council of Governments (INCOG), the Lawton Metropolitan Planning Organization (LMPO), the Bi-state Metropolitan Planning Organization (BSMPO), Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA), have developed the following procedures and deadlines for coordinating and approving the Transportation Improvement Programs (TIP).

TIP DEVELOPMENT PROCEDURES AND DEADLINES

PROCEDURE

DEADLINE

The MPOs will begin the annual preparation of a 4 year TIP. All October projects within the boundaries of a metropolitan study area requiring Federal participation, excluding projects undertaken on the National Highway System and pursuant to the Bridge and Interstate Maintenance programs, will be selected by the MPOs designated for such area in consultation with the State and in conformance with the approved Long Range Transportation Plan for such area. Projects undertaken on the National Highway System or pursuant to the Bridge and Interstate Maintenance program will be selected by the State in cooperation with the MPOs. In areas of the state not covered by an MPO, all projects in the STIP will be selected by the State in cooperation with the affected local officials

ODOT will request the FHWA to provide a list of Indian Reservation October Roads (IRR) to be included in the TIPs

ODOT will provide the TMAs (ACOGG, INCOG) with a written estimate November of anticipated apportionments and obligation authority to be used for preparing their TIPs

FTA through ODOT Transit Division will provide a list of all Transit Programs and Funds to be included in each fiscal year of the TIPs. January

ODOT will provide the MPOs a list of all Federal Funded Projects related to Highway, Public Transit, Public Lands, Railroad, County Roads, City Streets, City Bridges, Highway, Enhancement projects and FTA Section 5303 funds available to be included in the TIPs for ACOG, INCOG and LMPO January

Each MPO will provide ODOT a copy of its preliminary TIP for review and comment concurrent with its release for public review and comment, in accordance with Title 23 USC 134(j)(1)(B). A minimum of twenty-one days from the date of first publication will be provided for public review and comment. April

ODOT will provide written responses to the MPOs indicating if any specific problem(s) exist and the action necessary to correct the Preliminary TIPs. April

A copy of the Final TIPs will be provided to ODOT for review and approval. May

ODOT will provide the MPOs written notification approving the Final TIPs. June

Final MPO TIPs will be amended to the current STIP without modification. September

STIP DEVELOPMENT PROCEDURES

PROCEDURE

DEADLINE

The State shall develop a new 4 year Statewide Transportation Improvement Program every 3 years. Development of the STIP shall be directly related to the currently approved 8 Year Construction Work Plan. Thereafter, the STIP will be revised as necessary through a series of amendments, administrative modifications and the annual inclusion of the MPO TIPs without modification.

Development of the STIP will begin with a request to the FHWA for the current Indian Reservation Roads (IRR) TIP. January

FTA through ODOT Transit Division will provide a list of all Transit Programs and Funds to be included in each fiscal year of the STIP. February

The Preliminary STIP will be distributed to Federal, State and Local Government agencies, Indian Tribal Governments, the MPOs, public transportation operators and the public for review and comments for a minimum period of twenty-one days. July-August

All substantive written comments received on the Preliminary STIP will be addressed and included in the Final STIP for presentation to the Oklahoma Transportation Commission for approval. The Final STIP, including the MPO TIPs, will then be forwarded to FHWA and FTA for formal approval prior to implementation. September

If the Transportation Commission approves a County Road, County Bridge, City Street, City Bridge or other local government entity sponsored project, the sponsoring local government entity will be responsible for advertising the project as an addition to the STIP. The public notice will allow a minimum of 14 days from the first date of publication for public review and comment.

The FHWA Oklahoma Division will take formal action on all proposed highway amendments to the STIP. Similarly the FTA Region VI will take formal action on all proposed transit amendments to the STIP. This formal action will be provided in a form letter with signature and date block. ODOT will prepare said standard form letter for requesting approval of highway amendments to the STIP. When ODOT submits a request for approval of a proposed highway project amendment via email, it will also transmit the same request on the standard form letter to the FHWA. The email request will be sent directly to the FHWA Oklahoma Division general email (www.hdaok@fhwa.dot.gov), with copies to the Planning and Technical Services team leader and the

Division Planner. FHWA will review the request and if there are no issues of concern, send a response via email as soon as possible. Transit amendments will be forwarded by FHWA to FTA for review and approval. Subsequently, the FHWA will sign the standard form letter and transmit back to ODOT within 3 working days of receipt of the email

STIP AND TIP AMENDMENT PROCEDURES

Projects in any of the first four years of the STIP and TIP may be advanced in place of another project in the first four years of the STIP and TIP subject to the project selection requirements of 23 CFR 450.220 and 450.330. In addition, the STIP and TIP may be revised at any time under procedures agreed to by the State, MPO(s), and public transportation operator(s) consistent with the STIP and TIP development procedures established by 23 CFR 450.216, 450.324. Changes that affect fiscal constraint must take place by amending of the STIP.

- (1) When the MPO approves an amendment to the TIP, a copy of the amendment will be forwarded to ODOT for approval, as the Governor's Designee, and subsequently added to the STIP. ODOT will forward notification of the amendment to FHWA and FTA for review and comment. The MPO will be responsible for advertising the amendment and providing an opportunity for public review and comment in accordance with Title 23 USC 134(j)(1)(B). The public notice must allow a minimum 14 days from first date of publication for public review and comment. MPO will provide ODOT with the publication date, any written substantive comments and appropriate responses.

In case of conflicts with MPO amendment request, ODOT will provide a written response within 15 calendar days of receipt of request, indicating the problem and the action necessary to correct the problem. Once the conflict has been resolved, ODOT will provide the MPO written approval of the amendment and amend the STIP.

- (2) If ODOT approves an amendment to the STIP within the ACOG, INCOG or LMPo metropolitan study area, ODOT will forward notification of the amendment to FHWA and FTA for formal action. ODOT will then make a written request to the MPO to amend the TIP. ODOT will provide the MPO any written substantive comments and appropriate responses.

In case of conflict with ODOT amendment request, the MPO will provide a written response within 15 calendar days of receipt of request, indicating the problem and the action necessary to correct the problem. Once the conflict has been resolved, the MPO will amend their TIP and provide ODOT with written approval of the amendment.

- (3) When the Oklahoma Transportation Commission approves a federally funded project on the State Highway System and adds it to a currently approved STIP, ODOT will forward notification of amendment to FHWA and FTA for formal action. ODOT is responsible for advertising the project for public review in accordance with Title 23 USC 135(g)(3).

DEFINITIONS

UPDATE – An update is defined as making current a long-range statewide transportation plan, metropolitan transportation plan, TIP or STIP through a comprehensive review. States and MPOs may choose to “update” their transportation plans and programs well in advance of the prescribed update cycles.

AMENDMENTS – Major revisions which require public review and comment, demonstration of fiscal constraint (except for long-range statewide transportation plans), and a conformity determination (for metropolitan transportation plans and TIPs in nonattainment and maintenance areas).

ADMINISTRATIVE MODIFICATIONS – Minor revisions not requiring public review and comment, demonstration of fiscal constraint or conformity.

- A)** Examples of administrative modifications include but are not limited to:
1. Revision to a project description without changes to the project scope or conflict with the environmental document;
 2. Changes to the source of funds;
 3. Changes to project lead agency;
 4. Splits or combines of individually listed projects; as long as cost, schedule and scope remain unchanged or conforms to Section B below.
 5. Adding or deleting projects from grouped project (Line Item) listings as long as the funding amounts stay within the guidelines in number two above;
- B)** ODOT will notify FHWA when funding amount listed for project phases exceeds 20 percent of initial project cost AND is greater than \$2 million and the reason for the cost escalation. FHWA will review and determine if an amendment OR administrative modification is necessary.
- C)** All other revisions/changes not identified as administrative modifications would be classified as amendments to the TIP and STIP, subject to public review and comment, demonstration of fiscal constraint and conformity determination in nonattainment and/or maintenance areas.

STATEWIDE LINE ITEM – Refers to projects with similar scope not defined by specific location or cost.

APPROVAL OF PROCEDURES FOR THE STIP AND TIP

In order to develop the Transportation Improvement Program for the four Metropolitan Planning Organizations and the Statewide Transportation Improvement Program for the State of Oklahoma, these procedures have been prepared by the Oklahoma Department of Transportation in cooperation with the Association of Central Oklahoma Governments, Indian Nations Council of Governments, Lawton Metropolitan Planning Organization, the Bi-state Metropolitan Planning Organization, Federal Highway Administration and Federal Transit Administration. Each Metropolitan Planning Organization will be responsible for completing their Transportation Improvement Program in accordance with these procedures. The Oklahoma Department of Transportation will then be responsible for developing the Statewide Transportation Improvement Program and coordinating these efforts with the Federal Highway and Federal Transit Administration. Any changes to specific items presented in this procedural guide will require formal approval of the undersigned agencies and MPOs.

We, the undersigned, approve these procedures for developing the STIP and TIP. These revised procedures will become effective 4-22-2010.

DATE SIGNED	AGENCY APPROVAL
<u>7-22-10</u>	 Gary Rydley, Director Oklahoma Department of Transportation
<u>4-8-10</u>	 Gary Coffin, Division Administrator Federal Highway Administration
<u>4-13-10</u>	 Robert C. Patrick, Regional Administrator Federal Transit Administration
<u>7-22-09</u>	 John O. Johnson, Executive Director Association of Central Oklahoma Governments
<u>7-29-09</u>	 Rich Branna, Executive Director Indian Nations Council of Governments
<u>8-13-09</u>	 Pat Henry, Chairman Lawton Metropolitan Planning Organization
<u>7-15-09</u>	 Ken O'Donnell, Director Bi-State Metropolitan Planning Organization

Introduction

Moving Ahead for Progress in the 21st Century (MAP-21) was enacted in October 2012 and builds upon the previous transportation acts. MAP-21 specifies the transportation system, on which certain funds can be spent, expands the activities that the funds are eligible for and promotes the role of the Metropolitan Planning Organization (MPO) in the planning and programming of projects. MAP-21 requires each designated MPO to develop a Transportation Improvement Program (TIP), and the State to develop a Statewide Transportation Improvement Program (STIP) as a condition to securing federal funds for the transportation projects.

The TIP is a cooperatively developed four-year program outlining transit, highway, and traffic safety improvements within the LMATS area. Capital projects funded by the Federal Transit Administration (FTA) and the Federal Highway Administration (FHWA) are required to be listed in the TIP. There are five specific requirements the TIP must meet before these agencies approve the funding.

- The LMPO's TIP is a four-year program that plans for the development of roads, highways, transit, pedestrian, and bicycle projects for the urbanized area. The TIP will have a priority list of projects and strategies for four years and descriptions (type of work, termini, and length, etc.) of each project in the TIP.
- The TIP must contain a financial plan showing funding sources for the projects contained in the TIP.
- Projects included in the program must be consistent with the LRTP. The Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) require that federally funded transportation projects in an urbanized area be included in a TIP, which the MPO has to approve.
- There must be reasonable opportunity for public comment prior to the approval of this TIP, and
- The TIP must cover the entire LMATS area, including tribal land, if applicable.

One of the key requirements is that the TIP be a financially constrained document with the amounts of funds being programmed equal to the total funds available. This is included to ensure that the transportation projects committed for funding in the various years of the TIP have funds available to allow them to start construction. In addition, the TIP places emphasis on the need for the various local and state entities to work together to ensure that a particular project has all the necessary preliminary work completed by the program year.

The TIP provides the opportunity to select projects to carry out the transportation planning goals expressed in the adopted Long Range Transportation Plan (LRTP). The LRTP details a list of all the projects proposed for completion in the LMATS area by 2035. In cooperation and coordination with the Oklahoma Department of Transportation (ODOT) and the Lawton Area Transit System (LATS) the Lawton Metropolitan Planning Organization (LMPO) biennially updates the TIP. Development of the TIP requires that the LMPO rank the projects identified in the TIP.

The LMPO must approve all transportation projects, programs, and operations receiving funds in the LMATS area. The exceptions are federal airport funds for the Lawton-Fort Sill Regional Airport, which are not subject to the LMPO's TIP process, but are listed in the TIP for information and coordination purposes.

New Projects

The LMPO does not receive a dedicated revenue source for transportation projects. New roadway projects are added to the TIP when ODOT notifies the LMPO that federal funds are committed. New transit projects for the public transit system are added at the time of grant submission. Applications for FTA Section 5310 funding must be received by the LMPO no later than the first of February to be included in the annual update of the TIP.

Metropolitan Planning Organization

A Metropolitan Planning Organization (MPO) is a transportation policy-making organization made up of representatives from local government and transportation authorities. The Federal Surface Transportation Assistance Act of 1973 required the formation of a MPO for an urbanized area with a population greater than 50,000. MPOs were created to ensure that the existing and future expenditures for transportation projects and programs are based on a comprehensive, cooperative, and continuing (3-C) planning process. Federal funding for transportation projects and programs are channeled through this planning process.

The Governor designated the Transportation Policy Board as the Lawton Metropolitan Planning Organization (LMPO) in 2013. The LMPO membership, as shown on Page 29, represents elected local officials, officials of public agencies that administer or operate major modes of transportation in the metropolitan area, and appropriate State officials. The City of Lawton's Planning Division administers and carries out the planning and program management functions.

There are five core functions of the MPO:

- Establish and manage a fair and impartial setting for effective decision-making in the metropolitan area.
- Evaluate transportation alternatives, scaled to the size and complexity of the area, to the nature of its transportation issues, and to the realistically available options.
- Develop and update a long-range transportation plan (LRTP) for the metropolitan transportation study area covering a planning horizon of at least twenty years that fosters mobility and access for people and goods, efficient system performance and preservation, and quality of life.
- Develop a program based on the LRTP designed to serve the area's goals, using spending, regulating, operating, management, and financial tools.
- Involve the public and all the significantly affected subgroups in the four essential functions listed above.

MPOs have the responsibility for preparing and approving the area TIP. Included in the TIP are specific elements which are federal requirements under MAP-21.

Definition of Study Area

The LMATS area is in southwestern Oklahoma within Comanche County. Most of the land area in the LMATS is under the jurisdiction of the City of Lawton. See Map 1. Biennially, the LMPO in coordination with the ODOT, Lawton Area Transit System and other interested parties prepare the TIP. ODOT provides the list of highway projects and statewide projects to be included in the TIP, while the Lawton Area Transit System General Manager and the City Transit Trust provide a listing of transit projects. When the draft TIP is completed, it is sent to ODOT for review and comment. The final draft is distributed to various agencies thirty days prior to the LMPO public hearing. The document is also available for review on the LMPO's

website – www.lawtonMPO.org. In addition, a newspaper notice is placed in *The Lawton Constitution* fifteen days prior to the LMPO public hearing.

Transportation Planning Process

A major responsibility of the LMPO is the development of a Long Range Transportation Plan for the LMATS area. This plan deals with highway networks, transit service, airport, and pedestrian and bicycling demands. These plans are based on projected population increases and employment trends. They are designed to satisfy the needs of citizens of the LMATS area.

Two main products are developed through the planning process. The first is a Transportation Plan and the second is the TIP. Both the LRTP and the TIP must be approved by the LMPO. The LRTP is updated at least every five years, while the TIP is updated biennially.

The LMPO assists the local governments and transit agency providers of the region in implementing projects of the TIP by programming federal funding for the projects. The ODOT administers Surface Transportation Program (STP) funds for the LMATS area. STP funds may be used for transportation facility improvements ranging from rehabilitation of existing facilities to new construction. The Transit Trust administers Federal Transit Administration (FTA) funds for the LMATS area.

Transportation Equity

Transportation equity includes environmental justice and Title VI requirements. Environmental justice assures that services and benefits allow for meaningful participation and are fairly distributed to avoid discrimination. Title VI of the Civil Rights Act of 1964 prohibits discrimination in any program receiving federal assistance. It also provides for active and meaningful involvement of the public in the development of transportation plans and programs.

Long Range Transportation Plan Compliance

During FY 2013 and FY 2014, progress was made toward implementing the LRTP through the following projects:

- NW 38th Street between Gore Boulevard and Cache Road: construction of five-lane street was completed.
- I-44/US 62 Interchange: acquisition of additional right-of-way, relocation of utilities, and begin improvements.
- Improvements were made to the I-44 tri-level bridges.
- Lawton Metropolitan Bicycle and Pedestrian Plan: construction plans were completed for 9 routes.
- A Safe Routes to School grant application was approved for Pat Henry Elementary School.
- Transportation Enhancement Projects:
 - Reconstruction and streetscape improvements on NW 2nd Street between Gore Boulevard and C Avenue

Lawton Area Transit System

Lawton Area Transit System (LATS) is the fixed route transit and complementary paratransit services available to the Lawton-Ft. Sill community. LATS buses provide service to Ft. Sill, including the Post Main Exchange, Commissary, and Reynolds Army Community Hospital. All routes run through the Downtown Transfer Center, located on the north side of the 400 Block of

SW/B Avenue. LATS serves most of the major shopping areas and movie theaters in town. Every Lawton Public School middle school and high school is on a LATS route. LATS operates Monday – Friday, 6 am – 7 pm, and Saturday, 9 am – 9 pm. A network of five fixed routes with 10 buses operating on a pulse/clockwise/counter-clockwise manner serves the community. LATS makes flag stops for passengers along the fixed routes. Bus passes, transfers, or correct fares are collected in the fare box. Reduced fares are available for: Medicare cardholders, disabled, elderly, and students ages 17 and under. On air alert days adult full fares are reduced to \$0.50. The City Transit Trust will be considering a fare increase to be effective during FY 2015. If the fare is increased, the reduced fares on air alert days may need to be adjusted to \$.75.

Many of the capital projects are funded with 80% FTA Section 5307 and/or 5339 funds and matched with 20% City of Lawton funds. LATS has also applied for and received Section 5316 (Jobs Access and Reverse Commute) and Section 5317 (New Freedom) funds for buses and paratransit vehicles. Accessible vehicles are funded by FTA at 83% and the local match is 17%. The Section 5307 urbanized area program funds are apportioned by a statutory formula based on population and population density. Tables 6 through 9 provide information on the funding by federal fiscal year for the LATS.

FTA Section 5310 Elderly and Persons with Disabilities Program provides capital assistance through ODOT/DHS that serve the specialized transportation needs of the elderly and persons with disabilities. The Aging Services Division of the Department of Human Services (DHS) administers Oklahoma's Section 5310 program. The amount of Section 5310 funding spent within the LMATS area varies each year and is dependent upon the level of requests from local non-profit organizations as well as the total funds available to the state. Entities that provide demand responsive public transportation in the study area are: Great Plains Improvement Foundation, Comanche Tribe, Comanche County Nutrition Project, Goodwill Industries and Greiner School for the Handicapped. In 2002, the Aging Services Division of DHS was notified in writing that applications for Section 5310 funding must be submitted by the first day of February to be included in the local TIP.

The LMPO staff will review the application to ensure the applicant has developed the application in coordination among federally assisted public and private transportation operators within the area. A newspaper notice will be placed in *The Lawton Constitution* fifteen days prior to the LMPO meeting in which the application will be considered. The LMPO will hold a public hearing to consider the application and solicit comments. Approval of the application by the LMPO will be considered a part of this TIP, as required for federal funding eligibility, pursuant to the line item in the tables.

Indian Reservation Road (IRR) Program

The Indian Reservation Roads (IRR) program was established on May 26, 1928 by Public Law 520. The Act authorized appropriations for construction and maintenance of Indian reservation roads not eligible for Federal-aid highway funding. The IRR program is authorized under the Federal Lands Highway Program, 23 USC 204. The purpose of the IRR program is to provide safe and adequate transportation and public road access to and within Indian reservations, Indian lands and communities for Native Americans, visitors, recreational, resource users and others while contributing to economic development, self-determination, and Native American employment.

The tribal governments develop and submit a priority list of projects to the BIA Area Office accompanied by the tribal government's letter of approval (resolution). The BIA Area Office develops the project lists and develops the BIA TIP and submits to FHWA for approval. After FHWA approval, the BIA forwards the approved TIPs to the appropriate agencies. The BIA Area Office notifies the tribal governments for which projects are programmed. Title 23 United States Code (USC) requires Indian tribal governments, in cooperation with the Bureau of Indian Affairs (BIA) and as may be appropriate with State, local governments or MPOs, to develop a TIP.

The Comanche Nation has prepared construction plans for a road running parallel and on the east side of I-44 from Lee Boulevard to the Visitor Center. This road is currently under construction.

Funding Sources

The TIP is developed in compliance with joint Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) regulations. Projects that use federal funds that are shown within the TIP follow these regulations:

- Congestion Mitigation Air Quality Funds (CMAQ) - These funds are for projects to educate the community about the harmful health effects of transportation related ozone and for projects that help reduce ozone-contributing elements.
- Bridge Maintenance Program - This program provides funding for small scale bridge improvements such as painting, minor repair, seal coat/waterproofing, etc.
- Enhancement Activity - All projects must be related to the Intermodal Transportation System. The required relationship must be one of function, proximity or impact and meet at least one of the enhancement categories.
- Federal Transit Administration Section 5303 - This funding is for MPO to perform transit related planning.
- Federal Transit Administration Section 5307 - This fund can be used for capital funds for eligible preventive maintenance costs. The funding is distributed annually by apportionment based on population, population density and bus revenue miles of service. The City Transit Trust applies directly to FTA for these funds.
- Federal Transit Administration Section 5310 -This program provides funding to private nonprofit agencies for capital improvements for the provision of transportation services to elderly and disabled persons.
- Federal Transit Administration Section 5316 - This program provides capital, planning, and operating expenses for projects that transport low income individuals to and from jobs and activities related to employment and for reverse commute projects. The City Transit Trust applies to ODOT to receive these funds.
- Federal Transit Administration Section 5317 – This program provides capital and operating expenses for new public transportation services and new public transportation alternatives beyond those required by the Americans with Disabilities Act of 1990 (ADA), that are designed to assist individuals with disabilities.
- Federal Transit Administration Section 5339 - This program provides discretionary funding for capital improvement projects such as the purchase of buses or the construction of operating and maintenance facilities. The City Transit Trust applies to ODOT to receive these funds.
- Interstate Maintenance Program - These funds can be used only by ODOT for resurfacing, restoration, and rehabilitation of the Interstate Highway System.

- National Highway System (NHS) - This funding category can only be used by ODOT and includes all interstate and other major U.S. routes and state highways. In the LMATS area the roadways that are on the NHS are: I-44, US 62, US 281B, and all principal arterials as shown on the Functional Classification Map.
- Railroad Crossings - These funds may be spent on railroad crossings statewide for modernization and safety improvements.
- Recreational Trails - These funds can only be used by ODOT.
- Right-of-Way Clearance - These funds can only be used by ODOT for the demolition, removal and disposal of obstructions on public right-of-way that require removal prior to utility relocation or project startups.
- Safety Projects - This funding category can only be used by ODOT for small scale traffic/safety improvement to include: traffic signals, intersection modification, lighting, interconnecting systems, guardrail, delineation, etc.
- Surface Transportation Program (STP) - STP funds may be spent on roads that are functionally classified as a collector or higher for urban streets and as a major collector or higher for rural areas.

Local Funded Projects

The residents of the City of Lawton have approved local funding for the following road projects:

1. SE 45th Street (Lee Boulevard – NE Arlington Avenue) SE 45th Street between Lee Boulevard and Gore Boulevard in east Lawton is currently a narrow 2-lane asphalt pavement section with numerous access roads and driveways leading into the residences. Increased traffic has necessitated its widening to a 5-lane section. The proposed project includes construction of approximately one mile of 5-lane roadway including grading, drainage, paving, right-of-way acquisition and utility relocation. The 2005 CIP will provide 100% funding for utility relocation, right-of-way acquisition and engineering fees and 20% of the estimated funding for construction. ODOT has agreed to participate in the funding of this project; however, funds have not been identified. The local share will be provided by the 2012 CIP.

Estimated Project Cost:	
Construction	\$ 5,500,000
Utility Relocation	\$ 2,000,000
ROW	\$ 2,200,000
Engineering Fee	\$ 250,000
TOTAL	\$10,950,000

2. SW 52nd Street (Gore Boulevard to railroad tracks) SW 52nd Street between Gore Boulevard and Lee Boulevard is a narrow 2-lane asphalt street that serves a high school, an elementary school, and a baseball complex as well as a residential subdivision and an apartment complex. The proposed project includes construction of approximately one-half mile of either 3-lane or 5-lane roadway from Gore Boulevard south to the railroad tracks including grading, drainage, paving, right-of-way acquisition, and utility relocation. The 2012 CIP will provide 100% funding.

Estimated Project Cost:	
Construction	\$3,000,000
Utility Relocation	\$ 750,000

ROW	\$ 600,000
Engineering Fee	<u>\$3,000,000</u>
TOTAL	\$4,700,000

3 Rogers Lane (I-44 – Flower Mound Road) Rogers Lane between I-44 and Flower Mound Road in East Lawton is currently a narrow 2-lane asphalt pavement section with limited access roads and driveways leading into the residences. Increased traffic has necessitated its widening to a 5-lane section and provides a loop around East Lawton. The proposed project includes construction of approximately two miles of 5-lane roadway including grading, drainage, paving, right-of-way acquisition and utility relocation. The 2008 CIP will provide 100% funding for engineering fees. The remaining funding for the project is to be programmed later.

Estimated Project Cost:	
Construction	\$16,650,000
Utility Relocation	\$ 800,000
ROW	\$ 1,600,000
Engineering Fee	<u>\$ 900,000</u>
TOTAL	\$19,950,000

Air Quality

The Environmental Protection Agency (EPA) has designated Comanche County as an air quality attainment area based on the data collected from 2006 to 2008. It is anticipated EPA will review data and make designations in 2015. The designation of attainment was achieved through our local efforts to educate the public about air pollution. LMPO staff will continue to develop and implement an air quality public awareness and education campaign by working closely with the Lawton Metropolitan Area Air Quality Committee (LMAAQC). Funding for the air quality public awareness and education campaign is the Congestion Mitigation and Air Quality (CMAQ) grant and local contribution.

There are two air quality-monitoring stations within the City of Lawton. Installation of the stations was the responsibility of the Oklahoma Department of Environmental Quality (ODEQ). The particulate matter station is located at the Comanche County Fairgrounds. The station at the Comanche County Fairgrounds continuously samples the air for Particulate Matter 10. The monitoring station placed on property owned by Lawton Public Schools in 2007 measures Particulate Matter 2.5 and ozone.

Congestion Mitigation and Air Quality funds are also used for projects to improve air quality. The funds are used to pay for construction of bike routes as approved in the Lawton Metropolitan Bicycle and Pedestrian Plan.

Public Participation Process

Changes in federal transportation law require MPOs to expand opportunities for the public to participate in all phases of the transportation planning process. Citizen input is an important step in the development of plans and programs that meet the area's transportation needs while minimizing any negative environmental or social impact.

Consistent with the intent of MAP-21, it is the policy of the LMPPO to support proactive public involvement at all stages of project planning and development. The performance standards are: early and continuous involvement; public availability of technical information; and open public meetings where matters related to Federal-Aid Highway and transit programs are being considered. In order to afford the public an opportunity to review major plans in detail and to solicit public opinion, a newspaper notice is placed in the local newspaper fifteen calendar days prior to a LMPPO meeting soliciting comments on the TIP or amendments. The LMPPO provides access to all information pertinent to transportation projects and programs. The public may review the documents in the Planning Division, 212 SW 9th Street, from 8:00 a.m. - 5:00 p.m., Monday-Friday (except for holidays) and on the LMPPO's website at www.lawtonMPO.org.

Amendments

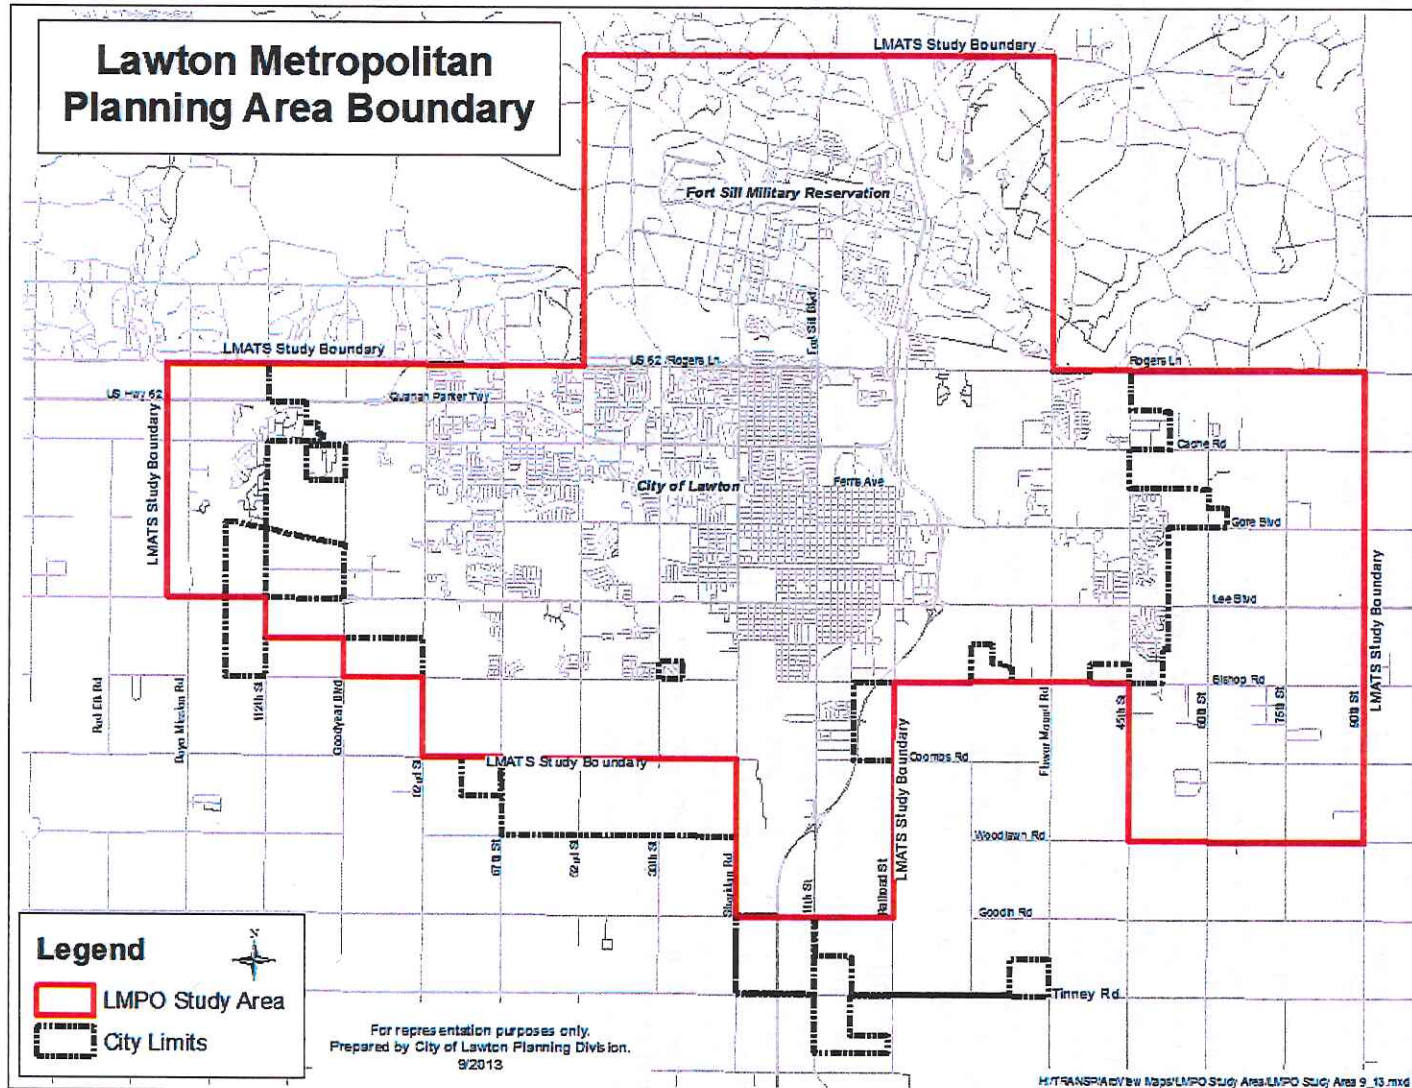

The TIP represents a best estimate of the projects that are planned for advancement during the next four years. However, there must be some flexibility to change the TIP during the two-year interval between the publications of successive TIPs. Conditions will change, such as changes in priorities and funding availability, which will dictate modifications such as adding a new project, expanding the scope and/or funding level, changing the source of federal funding, or changing the phasing of a project.

A public hearing is required for TIP amendments and will be held in accordance with the LMPPO's adopted public participation process. An amendment to the TIP must be approved by the LMPPO Transportation Policy Board.

Grouping of Projects

A summary of expenditures by funding categories can be found in Table 1. Subsequent year programs are listed in Tables 2 through 9. Tables 2 through 5 identify expenditures and projects for surface transportation projects. Tables 6 through 9 identify transit funding categories. Some projects in the program are considered to be inappropriate in scale for individual identification in the TIP. These include signalization, traffic engineering, safety, noise abatement, modernization projects that do not change the use or scale of existing facilities, and certain small-scale highway and transit projects. These types of projects are grouped together under a line item category, with the type of project, funding source, and programming agency.

RESOLUTION NO. 14 - 2

A RESOLUTION ADOPTING THE TRANSPORTATION IMPROVEMENT PROGRAM FOR THE LAWTON METROPOLITAN AREA TRANSPORTATION STUDY AREA FOR FEDERAL FISCAL YEARS (FFY) 2015, 2016, 2017, AND 2018.

WHEREAS, Section 134 of Title 23, United States Code (U.S.C.) requires a Transportation Improvement Program (TIP) for Metropolitan Planning Organizations; and

WHEREAS, the Transportation Policy Board was designated as the Lawton Metropolitan Planning Organization (LMPO) for the Lawton Metropolitan Area Transportation Study area; and

WHEREAS, the TIP is a four-year prioritized program of federally funded transportation projects within the Lawton Metropolitan Area Transportation Study area; and

WHEREAS, all transportation projects, programs and operations receiving federal funds must be approved by the LMPO; and

WHEREAS, the LMPO in accordance with their adopted Public Participation Process provided notice in *The Lawton Constitution* on May 11, 2014, that the LMPO would hold a public hearing on May 27, 2014 to receive public comments prior to the adoption of the TIP.

NOW, THEREFORE, BE IT RESOLVED BY THE LMPO POLICY BOARD THAT:

1. The Federal Fiscal Years 2015, 2016, 2017, and 2018 Transportation Improvement Program be adopted.

APPROVED, this ~~27th~~ day of May, 2014.

FRED L. FITCH, Chairman

ATTEST

RICHARD ROGALSKI, LMPO Director

Approved as to form and legality this 3 day of June, 2014.

City Attorney

SECTION 5:

INDIAN RESERVATION ROADS PROGRAM

Special emphasis has been placed on the development of transportation planning procedures consistent with the metropolitan and statewide planning process for roads funded under the Federal Lands Highway Program (FLHP). The Indian Reservation Roads (IRR) Program is one of the transportation activities which is funded by the FLHP. The IRR Program funds are allocated to the Bureau of Indian Affairs (BIA) for the construction and improvement of roads, bridges and transit facilities leading to, and within, Indian reservations or other Indian lands. The funds are distributed based on relative need following the approval of the IRR TIP.

The IRR TIP is a prioritized list (by year) of projects selected by Indian Tribal Governments from tribal TIPs. The BIA receives a tribal TIP from each Indian Tribal Government and places the IRR projects into the IRR TIP. If an IRR project lies within a metropolitan area, it must be included in the MPO TIP. The BIA submits the IRR TIP to FHWA for inclusion in the STIP without modification.

In Oklahoma, the Indian Tribal Governments, BIA, FHWA, State and MPOs keep an open channel of communication and are partners in the transportation planning and decision-making process.

As of the date of publication, no IRR program has been provided to the State for inclusion in the FFY 2015 – 2018 STIP.

SECTION 6: COUNTY IMPROVEMENTS FOR ROADS AND BRIDGES (CIRB) PROGRAM

House Bill 1176, 2006 legislation, created the County Improvements for Roads and Bridges (CIRB) program which provides a long term state funding increase for the sole purpose of construction or reconstruction of county roads or bridges on the county highway system that are of the highest priority.

The Department and Counties have prepared a Five Year Construction Work Plan comprised of improvements to the county system that advance the safety and mobility benefits realized by the traveling public and commerce. The Work Plan may be accessed at www.okladot.state.ok.us under Transportation Programs.

SECTION 7: FEDERAL LANDS

The Federal Highway Administration, through cooperative agreements with Federal land managing agencies, such as the National Park Service and the Bureau of Indian Affairs, administers a coordinated Federal Lands Highway Program consisting of forest highways, public lands highways, park roads and parkways, and Indian reservation roads. This program provides funding for more than 80,000 miles of federally owned and public authority owned roads which serve Federal lands. The Agency's Federal Lands Highway Office provides program coordination, administration, design and construction engineering assistance and directs the conduct of transportation planning and engineering studies.

All Federal Lands Highway Program project applications are included in the STIP without modification. As of the date of publication, no Federal Lands Highway Program project application has been provided to the State for inclusion in the FFY 2015 – 2018 STIP.

SECTION 8:

THE PUBLIC INVOLVEMENT PROCESS

The State of Oklahoma, FHWA, Tribal Governments and MPOs partner in the transportation planning process and are proactive in fostering and assuring a full and open access public involvement process when developing the STIP and TIPs. Timely, accurate and complete information about transportation issues, processes and documents is made available to the public through various methods. The public is provided access by use of the ODOT web site, publishing Notices of Availability and press releases. Citizens are provided the opportunity and are encouraged to review and comment during the initial development phase and on major revisions.

The State also partners with the following organizations in public consultation efforts by the inclusion of informational articles to solicit comments, notices of public meetings and other information as appropriate through their organization's publications.

Oklahoma Municipal League
Association of General Contractors
Association of County Commissioners of Oklahoma
Oklahoma Department of Commerce

Sub-State Planning Districts
Rural Transit providers and Oklahoma Transit Association
Oklahoma Department of Human Services Aging Services Division
Other organizations as appropriate and available

Outside of the metropolitan planning areas, transportation projects are selected by the State in consultation with the affected local officials. A documented public involvement process to ensure consultation with local officials has been developed which is separate and discrete from the transportation policy and project development in metropolitan areas of greater than 50,000 population.

The following section includes public comments, Certification and the adopted STIP and TIP Development/Amendment Process. This process, agreed to by the State, FHWA, FTA and MPOs, is designed to ensure consistency and cooperation in developing Oklahoma's transportation system.

**CERTIFICATION
STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM
FFY 2015 -2018**

The Oklahoma Department of Transportation hereby certifies that the transportation planning process is being carried out in accordance with all applicable requirements of:

- 23 U.S.C. 134 and 135, 49 U.S.C. 5303 and 5304, and this part;
- Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- Section 1101(b) of the MAP-21 (Pub. L. 112-141) and 49 CRF part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
- 23 CFR part 230, regarding implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.*) and 49 CFR parts 27.37, and 38;
- In States containing nonattainment and maintenance areas, sections 174 and 176© and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506© and (d)) and 40 CFR part 93;
- The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- Section 324 of title 23 U.S.C., regarding the prohibition of discrimination based on gender; and
- Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

In addition, the Oklahoma Department of Transportation ensures:

- Public involvement was provided for in the development of the FFY 2015-2018 STIP as required by 23 CFR part 450;
- The Transportation Improvement Programs for the Metropolitan Planning areas are included without modification and have been approved by the Governor or his designee;
- The STIP only contains projects which are consistent with the Oklahoma Statewide Intermodal Transportation Plan.

J. Michael Patterson
Executive Director

**PROCEDURES FOR DEVELOPING
THE OKLAHOMA METROPOLITAN PLANNING ORGANIZATIONS
(MPO) TRANSPORTATION IMPROVEMENT PROGRAM (TIP) and
THE OKLAHOMA STATEWIDE TRANSPORTATION IMPROVEMENT
PROGRAM (STIP)**

Title 23 USC 135(g)(1) requires each State to develop a statewide transportation improvement program for all areas of the State to cover a period of 4 years and be updated every 4 years or more frequently if the Governor elects to update more frequently. In addition, Title 23 USC 135(j)(1) requires Metropolitan Planning Organizations (MPO) designated for each metropolitan area to develop a TIP in the area for which the MPO is designated, in cooperation with the State and affected public transportation operators. In accordance with these requirements, the Oklahoma Department of Transportation (ODOT) in cooperation with the Association of Central Oklahoma Governments (ACOG), the Indian Nations Council of Governments (INCOG), the Lawton Metropolitan Planning Organization (LMPO), the Frontier Metropolitan Planning Organization, Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA), have developed the following procedures and deadlines for coordinating and approving the Transportation Improvement Programs (TIP).

TIP DEVELOPMENT PROCEDURES AND DEADLINES

PROCEDURE	DEADLINE
The MPOs will begin the preparation of a 4 year Transportation Improvement Program biennially or more frequently. All projects within the boundaries of a metropolitan study area requiring Federal participation, excluding projects undertaken on the National Highway System and pursuant to the Bridge and Interstate Maintenance programs, will be selected by the MPOs designated for such area in consultation with the State and in conformance with the approved Long Range Transportation Plan for such area. Projects undertaken on the National Highway System or pursuant to the Bridge and Interstate Maintenance program will be selected by the State in cooperation with the MPOs. In areas of the state not covered by an MPO, all projects in the STIP will be selected by the State in cooperation with the affected local officials	October
ODOT will request the FHWA to provide a list of Indian Reservation Roads (IRR) to be included in the TIPs	October
ODOT will provide the TMAs (ACOG, INCOG) with a written estimate of anticipated apportionments and obligation authority	November

to be used for preparing their TIPs	
FTA through ODOT Transit Division will provide a list of all Transit Programs and Funds to be included in each fiscal year of the TIPs.	January
ODOT will provide the MPOs a list of all Federal Funded Forest Highway, Public Transit, Public Lands, Railroad, County Roads, City Streets, City Bridges, Highway, Enhancement projects and FTA Section 5303 funds available to be included in the TIPs for ACOG, INCOG and LMPO.	January
Each MPO will provide ODOT a copy of its preliminary TIP for review and comment concurrent with its release for public review and comment, in accordance Title 23 USC 134(j)(1)(B). A minimum of twenty-one days from the date of first publication will be provided for public review and comment.	April
ODOT will provide written responses to the MPOs indicating if any specific problem(s) exist and the action necessary to correct the Preliminary TIPs.	April
A copy of the Final TIPs will be provided to ODOT for review and approval.	May
ODOT will provide the MPOs written notification approving the Final TIPs	June
Final MPO TIPs will be amended to the current STIP without modification.	September

STIP DEVELOPMENT PROCEDURES

PROCEDURE	DEADLINE
The State shall develop a 4 year Statewide Transportation Improvement Program biennially. Development of the STIP shall be directly related to the currently approved 8 Year Constructor Work Plan. Thereafter, the STIP will be revised as necessary through a series of amendments, administrative modifications and the annual inclusion of the MPO TIPS without modification.	
Development of the STIP will begin with a request to the FHWA for the current Indian Reservation Roads (IRR) TIP.	January
FTA through ODOT Transit Division will provide a list of all Transit Programs and Funds to be included in each fiscal year of the STIP.	January-February
The Preliminary STIP will be distributed to Federal, State and Local Government agencies, Indian Tribal Governments, the MPOs, public transportation operators and the public for review and comments for a minimum period of twenty-one days.	July-August
All substantive written comments received on the Preliminary STIP will be addressed and included in the Final STIP for presentation to the Oklahoma Transportation Commission for approval. The Final STIP, including the MPO TIPS, will then be forwarded to FHWA and FTA for formal approval prior to implementation.	September

STIP AND TIP AMENDMENT PROCEDURES

Projects in any of the first four years of the STIP and TIP may be advanced in place of another project in the first four years of the STIP and TIP subject to the project selection requirements of 23 CFR 450.220 and 450.330. In addition, the STIP and TIP may be revised at any time under procedures agreed to by the State, MPO(s), and public transportation operator(s) consistent with the STIP and TIP development procedures established by 23 CFR 450.216, 450.324. Changes that affect fiscal constraint must take place by amending of the STIP.

(1)	<p>When the MPO approves an amendment to the TIP, a copy of the amendment will be forwarded to ODOT for approval, as the Governor's Designee, and subsequently added to the STIP. ODOT will forward notification of the amendment to FHWA and FTA for review and comment. The MPO will be responsible for advertising the amendment and providing an opportunity for public review and comment in accordance with Title 23 USC 134(j)(1)(B). The public notice must allow a minimum 14 days from first date of publication for public review and comment. MPO will provide ODOT with the publication date, any written substantive comments and appropriate responses.</p>
(2)	<p>In case of conflicts with MPO amendment request, ODOT will provide a written response within 15 calendar days of receipt of request indicating the problem and the action necessary to correct the problem. Once the conflict has been resolved, ODOT will provide the MPO written approval of the amendment and amend the STIP.</p> <p>If ODOT approves an amendment to the STIP within the AGOG, INCOG or LMPO metropolitan study area, ODOT will forward notification of the amendment to FHWA and FTA for formal action. ODOT will then make a written request to the MPO to amend the TIP. ODOT will provide the MPO any written substantive comments and appropriate responses.</p>
(3)	<p>In case of conflict with ODOT amendment request, the MPO will provide a written response within 15 calendar days of receipt of request, indicating the problem and the action necessary to correct the problem. Once the conflict has been resolved, the MPO will amend their TIP and provide ODOT with written approval of the amendment.</p> <p>When the Oklahoma Transportation Commission approves a Federally funded project on the State Highway System and adds it to a currently approved STIP, ODOT will forward notification of amendment to FHWA and FTA for formal action. ODOT is responsible for advertising the project for public review in accordance with Title 23 USC 135(g)(3).</p>

	<p>If the Transportation Commission approves a County Road County Bridge, City Street, City Bridge or other local government entity sponsored project, the sponsoring local governmental entity will be responsible for advertising the project as an addition to the STIP. The public notice will allow a minimum of 14 days from first date of publication for public review and comment.</p>
NOTE	<p>The FHWA Oklahoma Division will take formal action on all proposed highway amendments to the STIP. Similarly, the FTA Region VI will take formal action on all proposed transit amendments to the STIP. This formal action will be provided in a form letter with signature and date block. ODOT will prepare said standard form letter for requesting approval of highway amendments to the STIP. When ODOT submits a request for approval of a proposed highway project amendment via email, it will also transmit the same request on the standard form letter to the FHWA. The email request will be sent directly to the FHWA Oklahoma Division general email (www.hdaok@fhwa.dot.gov), with copies to the Planning and Technical Services team leader and the Division Planner. FHWA will review the request and if there are no issues of concern, send a response via email as soon as possible. TRANSIT amendments will be forwarded by FHWA to FTA for review and approval. Subsequently, the FHWA will sign the standard form letter and transmit back to ODOT within 3 working days of receipt of the email.</p>

Definitions

UPDATE – An update is defined as making current a long-range statewide transportation plan, metropolitan transportation plan, TIP or STIP through a comprehensive review. States and MPOs may choose to "update" their transportation plans and programs well in advance of the prescribed update cycles.

AMENDMENTS - Major revisions which require public review and comment, demonstration of fiscal constraint (except for long-range statewide transportation plans), and a conformity determination (for metropolitan transportation plans and TIPs in nonattainment and maintenance areas).

ADMINISTRATIVE MODIFICATIONS – Minor revisions not requiring public review and comment, demonstration of fiscal constraint or conformity.

- A)** Examples of administrative modifications include but not limited to:
1. Revision to a project description without changes to the project scope or conflict with the environmental document;
 2. Changes to the source of funds;
 3. Changes to project lead agency;
 4. Splits or combines of individually listed projects; as long as cost, schedule and scope remain unchanged or conforms to Section B below.
 5. Adding or deleting projects from grouped project (Line Item) listings as long as the funding amounts stay within the guidelines of Section B.
- B)** ODOT will notify FHWA when funding amount listed for project phases exceeds 20 percent of initial project cost AND is greater than \$2 million and the reason for the cost escalation. FHWA will review and determine if an amendment OR administrative modification is necessary.
- C)** All other revisions/changes not identified as administrative modifications would be classified as amendments to the TIP and STIP, subject to public review and comment, demonstration of fiscal constraint and conformity determination in nonattainment and/or maintenance areas.

STATEWIDE LINE ITEM- Refers to projects with similar scope not defined by specific location or cost.

APPROVAL OF PROCEDURES FOR THE STIP AND TIP

In order to develop the Transportation Improvement Program for the four Metropolitan Planning Organizations and the Statewide Transportation Improvement Program for the State of Oklahoma, these procedures have been prepared by the Oklahoma Department of Transportation in cooperation with the Association of Central Oklahoma Governments, Indian Nations Council of Governments, Lawton Metropolitan Planning Organization, the Frontier Metropolitan Planning Organization, Federal Highway Administration and Federal Transit Administration. Each Metropolitan Planning Organization will be responsible for completing their Transportation Improvement Program in accordance with these procedures. The Oklahoma Department of Transportation will then be responsible for developing the Statewide Transportation Improvement Program and coordinating these efforts with the Federal Highway and Federal Transit Administration. Any changes to specific items presented in this procedural guide will require formal approval of the undersigned agencies and MPOs.

We, the undersigned, approve these procedures for developing the STIP and TIP. These revised procedures will become effective April 22, 2010.
