### RULE IMPACT STATEMENT:

#### STATE OF OKLAHOMA OKLAHOMA HEALTH CARE AUTHORITY

SUBJECT: Rule Impact Statement  
APA WF # 23-16A

A. Brief description of the purpose of the rule:

The proposed revisions update the ADvantage Waiver rules to lower the minimum enrollment age from 21 to 19, subject to CMS approval of an ADvantage Waiver amendment.

B. A description of the classes of persons who most likely will be affected by the proposed rule, including classes that will bear the cost of the proposed rule, and any information on cost impacts received by the agency from any private or public entities:

The proposed rule changes will affect SoonerCare applicants who are age 19 to 21 and who meet the eligibility and enrollment requirements for ADvantage Waiver. This rule change should not place any cost burden on private or public entities. No information on any cost impacts were received from any entity.

C. A description of the classes of persons who will benefit from the proposed rule:

The proposed rule changes will benefit SoonerCare applicants who are age 19 to 21 and who meet the eligibility and enrollment requirements for ADvantage Waiver.

- D. A description of the probable economic impact of the proposed rule upon the affected classes of persons or political subdivisions, including a listing of all fee changes and, whenever possible, a separate justification for each fee change:

There is no probable economic impact and there are no fee changes associated with the rule change for the above classes of persons or any political subdivisions.

- E. The probable costs and benefits to the agency and to any other agency of the implementation and enforcement of the proposed rule, the source of revenue to be used for implementation and enforcement of the proposed rule, and any anticipated affect on state revenues, including a projected net loss or gain in such revenues if it can be projected by the agency:

Since 2002, ADvantage has had only a total of 62 individuals enter the waiver at the age of 21, for a yearly average of about 3 individuals. Assuming all of them who needed services would have met the nursing facility level of care and enrolled in the waiver at age 19, the budget impact is minimal.
