RE: DPP SHOPP Update

Dear Hospital Administrators,

An updated SHOPP Directed Payment Program Payment log has been posted to the web. There were some issues affecting some providers where the taxonomy code of the hospital was not the correct taxonomy code. This caused data not to be included within the directed payment calculation. We are still trying to determine how to resolve this problem going forward.

The payment pool for SHOPP DPP increased by \$16,295,130.00. There will be an additional payment made for the July – September 2026 quarter for all those who had an increase in payment amounts. The plans will receive the additional funds on 9/9/26 and will have up to 5 business days to disburse.

Not all providers will see an increase in payment, and some will see slight decreases. The decreases will be taken out of the October – December 2026 DPP Payment.
