Application for a §1915(c) Home and Community-Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a State to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waiver's target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the State, service delivery system structure, State goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

Request for an Amendment to a §1915(c) Home and Community-Based Services Waiver

1. Request Information

- **A.** The **State** of **Oklahoma** requests approval for an amendment to the following Medicaid home and community-based services waiver approved under authority of §1915(c) of the Social Security Act.
- B. Program Title:

In-Home Supports Waiver for Adults

- C. Waiver Number: OK.0343
 - Original Base Waiver Number: OK.0343.90.05
- D. Amendment Number:OK.0343.R04.01
- E. Proposed Effective Date: (mm/dd/yy)

12/01/17	

Approved Effective Date of Waiver being Amended: 07/01/17

2. Purpose(s) of Amendment

Purpose(s) of the Amendment. Describe the purpose(s) of the amendment:

Due to Oklahoma's budget crisis, the In Home Supports Waiver for Adults is being terminated effective 12-01-17.

3. Nature of the Amendment

A. Component(s) of the Approved Waiver Affected by the Amendment. This amendment affects the following component(s) of the approved waiver. Revisions to the affected subsection(s) of these component(s) are being submitted concurrently (check each that applies):

Component of the Approved Waiver	Subsection(s)
✓ Waiver Application	Main.A.

2. Brief Wai	ver Description

Brief Waiver Description. *In one page or less*, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.

The purpose of the In-Home Supports Waiver for Adults (IHSW-A) is to assist members in their goal to lead healthy, independent, and productive lives to the fullest extent possible; promote the full exercise of their rights as citizens of their community, State, and Country; and promote the integrity and well-being of their families. Services are provided with the goal of promoting independence through the strengthening of the member's capacity for self-care and self-sufficiency. The IHSW-A is a service system centered on the needs and preferences of the members and supports the integration of members within their communities. In addition to other eligibility requirements, to be eligible for services funded through the IHSW-A a person must reside in the home of a family member or friend, his or her own home, and have critical support needs that can be met through a combination of non-paid, non-waiver, and State Plan resources available to the member, and with Home and Community-Based Services (HCBS) waiver resources that are within the annual limit.

The Developmental Disabilities Services (DDS) of the Oklahoma Department of Human Services (DHS), through an Interagency Agreement with the Oklahoma Health Care Authority (OHCA), the State's Single Medicaid Agency, operates the IHSW-A for individuals with intellectual disabilities. This waiver provides services and payment for those services that are not otherwise covered through Oklahoma's Medicaid State Plan, hereinafter referred to as SoonerCare. In-Home Supports Waiver for Adults services, when used in conjunction with non-waiver SoonerCare services and other generic services and natural supports, provide for the health and developmental needs of members who otherwise would not be able to reside in a home or community-based setting. The Waiver is operated on a statewide basis. Case Management (CM) services are provided as Targeted Case Management by employees of DHS/DDS. DHS/DDS Case Managers are located in offices throughout the state. These Case Managers assure that members are assessed and their needs are identified and documented and also coordinate the Personal Support Team (Team), as described in Appendix D-1:c, for each member.

The services and supports provided are identified by the member, his/her legal representative or family member(s) and other members of the Team, as described in Appendix D-1:c, during the meeting to develop the Individual Plan. A DHS/DDS Case Manager develops a plan of care in accordance with the DHS Individual Plan policy, Oklahoma Administrative Code (OAC) 340:100-5-53. The Individual Plan contains descriptions of the services provided, documentation of the amount, frequency and duration of services, and the types of service providers. Services are authorized based on service authorization policy, OAC 340:100-3-33 and 33.1. Services are provided by qualified provider entities who have entered into Agreements with OHCA. The DHS/DDS Case Manager assists the member to select providers of their choice. The Case Manager also coordinates and monitors the provision of these services in accordance with the Individual Plan and makes necessary changes to assure the health and welfare of the member. Members are given the option of choosing to self direct some services. Members who choose this option develop an individualized budget, with the assistance of the DHS/DDS Case Manager, for services they self direct. Each member (or their personal representative) has both employment and budget authority over the self directed services.

The Quality Assurance Unit of DHS/DDS monitors quality of services provided and monitors the satisfaction of the persons served. The OHCA audits the plans of care to ensure services are being provided in the manner required by policy.

3. Components of the Waiver Request

The waiver application consists of the following components. Note: Item 3-E must be completed.

- **A.** Waiver Administration and Operation. Appendix A specifies the administrative and operational structure of this waiver.
- **B.** Participant Access and Eligibility. Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the State expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.
- **C. Participant Services. Appendix C** specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.
- **D.** Participant-Centered Service Planning and Delivery. Appendix D specifies the procedures and methods that the State uses to develop, implement and monitor the participant-centered service plan (of care).
- **E.** Participant-Direction of Services. When the State provides for participant direction of services, **Appendix E** specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (*Select one*):
 - **Yes.** This waiver provides participant direction opportunities. *Appendix E is required.*
 - No. This waiver does not provide participant direction opportunities. Appendix E is not required.

- **F.** Participant Rights. Appendix **F** specifies how the State informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.
- **G.** Participant Safeguards. Appendix G describes the safeguards that the State has established to assure the health and welfare of waiver participants in specified areas.
- H. Quality Improvement Strategy. Appendix H contains the Quality Improvement Strategy for this waiver.
- **I. Financial Accountability. Appendix I** describes the methods by which the State makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.
- J. Cost-Neutrality Demonstration. Appendix J contains the State's demonstration that the waiver is cost-neutral.

4	Waix	70W(a)	Dog	uested
4.	wan	zertsi	Kea	nestea

Α.	Comparability. The State requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in Appendix C that are not otherwise available under the approved Medicaid State plan to
	individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in Appendix B .
В.	Income and Resources for the Medically Needy. Indicate whether the State requests a waiver of §1902(a)(10)(C)(i) (III) of the Act in order to use institutional income and resource rules for the medically needy (select one):
	O Not Applicable
	No No
	\bigcirc Yes
C.	Statewideness. Indicate whether the State requests a waiver of the statewideness requirements in §1902(a)(1) of the Act (select one):
	No
	O Yes
	If yes, specify the waiver of statewideness that is requested (check each that applies):
	Geographic Limitation. A waiver of statewideness is requested in order to furnish services under this waiver
	only to individuals who reside in the following geographic areas or political subdivisions of the State. Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:
	Limited Implementation of Participant-Direction. A waiver of statewideness is requested in order to make
	participant-direction of services as specified in Appendix E available only to individuals who reside in the following geographic areas or political subdivisions of the State. Participants who reside in these areas may elect to direct their services as provided by the State or receive comparable services through the service delivery methods that are in effect elsewhere in the State.
	Specify the areas of the State affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:

5. Assurances

In accordance with 42 CFR §441.302, the State provides the following assurances to CMS:

- **A. Health & Welfare:** The State assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:
 - 1. As specified in **Appendix** C, adequate standards for all types of providers that provide services under this waiver;

- 2. Assurance that the standards of any State licensure or certification requirements specified in **Appendix C** are met for services or for individuals furnishing services that are provided under the waiver. The State assures that these requirements are met on the date that the services are furnished; and,
- **3.** Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable State standards for board and care facilities as specified in **Appendix C**.
- **B. Financial Accountability.** The State assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in **Appendix I**.
- C. Evaluation of Need: The State assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in Appendix B.
- **D.** Choice of Alternatives: The State assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in **Appendix B**, the individual (or, legal representative, if applicable) is:
 - 1. Informed of any feasible alternatives under the waiver; and,
 - 2. Given the choice of either institutional or home and community-based waiver services. Appendix B specifies the procedures that the State employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.
- **E.** Average Per Capita Expenditures: The State assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid State plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in **Appendix J**.
- **F.** Actual Total Expenditures: The State assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the State's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.
- **G. Institutionalization Absent Waiver:** The State assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.
- **H. Reporting:** The State assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid State plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.
- **I. Habilitation Services.** The State assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.
- J. Services for Individuals with Chronic Mental Illness. The State assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the State has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the State has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

6. Additional Requirements

Note: Item 6-I must be completed.

- A. Service Plan. In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in **Appendix D**. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including State plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.
- **B.** Inpatients. In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are inpatients of a hospital, nursing facility or ICF/IID.
- **C. Room and Board**. In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the State that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in **Appendix I**.
- **D.** Access to Services. The State does not limit or restrict participant access to waiver services except as provided in Appendix C.
- **E.** Free Choice of Provider. In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the State has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.
- **F. FFP Limitation**. In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.
- **G. Fair Hearing:** The State provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. **Appendix F** specifies the State's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.
- H. Quality Improvement. The State operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the State assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The State further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the State will implement the Quality Improvement Strategy specified in Appendix H.
- I. Public Input. Describe how the State secures public input into the development of the waiver: Information regarding the waiver amendment was provided at the OHCA Tribal Consultation meeting on 8/10/2017. The waiver was posted at http://okhca.org/providers.aspx?id=12395 from 7/14/2017 to 8/14/2017. There were 15 public comments reviewed and addressed. In order to fulfill the non-electronic requirements for public comment, the State posted written notices in all county offices to ensure meaningful opportunities for input for individuals served or eligible to be served in the waiver. The public notice contained a summary of the changes and where instruction where individuals could submit comments and request a full copy of the waiver. This comment period was open from 7/14/2017-8/14/2017.

Summary of comments:

We had a few comments that expressed their concerns with the amount of money families are earning and still qualify

for Medicaid services. A couple of comments expressed their dissatisfaction with the State of Oklahoma and its legislators. They went on to say that with these cuts, how are families who care for their children are supposed to work? One comment stated that after 7 years on the waiting list, they were finally able to receive services for their child only to have their services cut. Another comment shed light on the waiver and the services it provides. They mentioned how the waiver has assisted adults to lead healthy independent lives; this is done through job coaching in which the waiver provides to adults who aim to live healthy independent lives. These cuts would greatly hurt those who benefit from this service.

The comments received from Tribal consultation has been addressed and submitted back to our tribal partners for their review

Due to the financial budget restraints, we are unable to incorporate the comments.

- J. Notice to Tribal Governments. The State assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.
- K. Limited English Proficient Persons. The State assures that it provides meaningful access to waiver services by Limited English Proficient persons in accordance with: (a) Presidential Executive Order 13166 of August 11, 2000 (65 FR 50121) and (b) Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 August 8, 2003). Appendix B describes how the State assures meaningful access to waiver services by Limited English Proficient persons.

Specify the transition plan for the waiver:

The In Home Supports Waiver for Adults is being terminated effective December 1, 2017. Members affected by this action were notified by letter 30 days in advance of termination. Members were advised their name will be added to the state-wide waiver request list for DDS waiver services with his or her original application date. Requests for waiver services are maintained in chronological order, based on the individual's application date. The person requesting services, or the individual acting on his or her behalf, may request an exception to the chronological requirement when an emergency situation exists in which the health or safety of the person needing services, or of others, is endangered and there is no other resolution to the emergency per Oklahoma Administrative Code 340:100-1-1. DHS/DDS Case Managers will assist members by providing other community resource options when appropriate. Information will also be provided related to other State and Federal programs.

Attachment #2: Home and Community-Based Settings Waiver Transition Plan

Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301(c) (6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required. Note that Appendix C-5 HCB Settings describes settings that do not require transition; the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here. Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state's HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter "Completed" in this field, and include in Section C-5 the information on all HCB settings in the waiver.

Purpose

The Centers for Medicare and Medicaid Services (CMS) published its final rule related to Home and Community Based Services (HCBS) for Medicaid funded long-term services and supports provided in residential and non-residential home and community based settings. The final rule took effect March 17, 2014. States are required to submit transition plans to CMS within a year of the effective date indicating how they intend to comply with the new requirement within a reasonable time period. If states amend or renew any of their currently operating waivers or state plan amendments prior to the effective date, that action serves as a trigger for the state to submit a transition plan for all its waivers under 1915(c), as well as any state plan amendments under 1915(i) or 1915(k) within 120 days of the amendment/renewal submission.

This document describes the Statewide Transition Plan (SWTP) of the Oklahoma Health Care Authority (OHCA), the single State Medicaid Agency, as required by the CMS final regulation related to new federal requirements for home and community based (HCBS) settings. This SWTP includes the state's assessment of its regulations, standards, policies, licensing requirements, and other provider requirements to ensure settings comply with the new federal requirements. Additionally, the SWTP plan will describe action the state proposes to assure full and on-going compliance with the HCBS settings requirements.

Overview

Oklahoma administers/operates six 1915 (c) waivers. There are approximately 26,106 individuals served in the State of Oklahoma through one of these 1915 (c) waivers. Oklahoma does not currently offer services through the state plan under 1915 (i) or 1915 (k) authority. Oklahoma operates two waiver programs with a Nursing Facility level of care (NFLOC) designation and four waiver programs with an Intermediate Care Facility/Intellectual Disability (ICF/ID) level of care designation. Across the six waiver programs, there are eight distinct settings utilized among Home and Community Based Waiver members, that does not include the member owned or family owned home. This document summarizes the State's preliminary assessment activities and its proposed strategy for continuous monitoring and remediation of HCBS settings for both the aged and physically disabled (NFLOC) waivers and the developmental disabilities waivers (ICF/ID LOC). Section A: Systemic Review

I. Review Methodology

This section details how the State approached the systemic review for the Statewide Transition Plan. The State utilized a three-pronged approach for the review. The review began with the State lead compiling and reviewing all related regulations, contracts, policies and procedures, and service definitions. It was the responsibility of the State lead, the State Medicaid agency, to compile this information, assess it, and define its consistency to the HCBS Final Rule. The second prong of the process was a review by the State leads' partner agencies. These partner agencies included the Oklahoma Department of Human and Services (DHS) Developmental Disabilities Services Division and the Aging Services Divisions (ASD). These partner agencies had the responsibility of reviewing the assessed regulation, policies and procedures, and service definitions. Partner Agencies were responsible for adding additional regulations and policies that were not previously identified. Partner Agencies made an assessment of each of the regulations and policies consistency/compliance with the HCBS final rule. Partner Agencies also proposed remediation and action plans for all of those regulations and policies that required such. The third prong of the systemic review process involved stakeholder groups. Stakeholders represented both the ICF/ID level of care waivers as well as the NFLOC waivers. The systemic assessment was sent to all stakeholder groups affiliated with the waivers. The stakeholder groups were charged with reviewing the systemic grid and providing feedback on the State leads and partner agencies determination of applicable regulations and policies and their consistency with the HCBS final rule. All feedback, comments, and suggestions were reviewed and incorporated as appropriate in the STWP and systemic assessment

grids.

II. Compliance Analysis

Within the three-prong review process each group (State Lead, Partner Agencies, and Stakeholders) made an analysis of whether the identified relevant policies and regulations were consistent with the elements outlined the HCBS Final Rule. The analysis of the policies and regulations resulted in a determination of fully compliant, partially compliant, silent, or noncompliant with the elements of the HCBS Final Rule. The outcome was determined through an evaluation of the regulations and/or policies consistency and congruence with elements of the HCBS final rule. Regulation and policy language precisely consistent and congruent with the elements was determined to be fully compliant. Policies and/or regulations consistent with only part of the elements of the HCBS Final Rule were determined to be partially compliant. Inconsistent language or language opposing the elements of the HCBS final rule was determined to be non-compliant. Absent language was determined to be silent. DHS DDS adopted an overarching general provision administrative rule in order to ensure clarity, consistency, and compliance across all waiver program settings. The overarching general provision administrative rule precisely follows the elements detailed in the HCBS Final Rule. As a result, it was determined that all ICF/ID LOC settings are compliant with the HCBS Final Rule. The systemic grid also includes supporting regulation and policies that enhance the consistency of the regulations and policies that address the elements in the HCBS Final Rule. Aging Services plans to adopt a similar overarching general provision administrative rule that will assist in its settings becoming more compliant with the HCBS Final Rule. Much of the regulations and policy pertaining to the NFLOC settings specifically Adult Day Health setting, remained silent; therefore the adoption of an overarching administrative rule would more directly signify that settings must comply with the standards of the HCBS Final Rule.

III. Remediation Activities

NF LOC Waivers

Many of the current policy and regulations pertaining to settings in the NF LOC waivers were determined to remain silent or be partially compliant with the elements of the HCBS Final Rule. It has been determined that remediation is necessary in order to allow the settings to become compliant with the HCBS Final Rule. Remediation activities will consist of the development and addition of an overarching policy that will precisely follow language of the HCBS Final Rule that settings will have to abide by. The development of this standard for NF LOC waiver settings will go through the States permanent rule promulgation process. It is projected the proposed additional standards for NF LOC waiver settings will be effective 9/1/2017. A draft copy of the updated policy and language can be found in Appendix¬C.

The DHS DDS developed an overarching general provision standard that was made effective 9/1/2015. This standard pertains to and must be followed by all settings in the ICF/ID waivers. This overarching general provision strictly follows the language in the HCBS Final Rule. There are minimal instances where remediation is needed, specifically where the state policy and the waiver language conflict such as the case with the policy surrounding restraints. DHS has supporting policy that will be updated as a means of enhancing compliance and having additional policy to directly correspond with the HCBS Final Rule. Proposed changes to specific language can be found in Appendix D.

IV. Alignment of Review

The State of Oklahoma, pursuant to House Bill 1566 which passed the Oklahoma Legislature and was signed by Governor Mary Fallin in April 2015, has issued a Request for Proposal (RFP). The RFP is for a care coordination model for the Aged, Blind, and Disabled populations (ABD). Throughout the process of the RFP development OHCA has worked with the State's contracted consultant group to verify all related managed care rules and how the proposed new service delivery model will ensure compliance with the HCBS Final Rule. The intent of the Legislation is to provide better access to care, improve quality and health outcomes, and control spending costs for the ABD populations. The State is working to gather all relevant information from federal statutes including the HCBS Final Rule, the newly proposed managed care rules, State policy, and stakeholder engagement.

Section B: NF LOC Waivers

Introduction

Oklahoma operates two 1915(c) waivers with a Nursing Facility level of care (NFLOC) designation serving approximately 21,000 individuals per month in community settings. The State conducted a review of all of its applicable State statutes, administrative rules, approved waivers, provider requirements, and service specifications pertaining to the HCBS settings. The results of the State's systemic review are located in Appendix A.

The following are the approved NFLOC Waiver Programs.

Medically Fragile – Serves individuals 19 years of age and older who meet hospital and/or skilled nursing level of care. The purpose of the waiver is to provide assistance for families who require long-term supports and services to maintain the medically fragile member in the family home while meeting their unique medical needs. Daily operation of this waiver is performed by the Oklahoma Health Care Authority.

ADvantage – Serves frail elderly individuals age 65 or older and adults age 21 to 64 with physical disabilities or other disabilities, without cognitive impairment that would otherwise require placement in a nursing facility. Daily operation of this waiver is the responsibility of the Department of Human Services Aging Services (DHS-AS). The Oklahoma Health Care Authority retains administrative oversite of the waiver.

I. Assessment Methodology & Continued Monitoring

The DHS – Aging Services, Medicaid Services Unit, (MSU), Quality Assurance/Improvement (QAI) department Provider Audit team has begun formally conducting annual on-site provider agency reviews in all NFLOC settings. Settings include Assisted Living (AL), and Adult Day Health (ADH) Onsite reviews were conducted in SFY17 (July 1, 2016 – June 30, 2017) and will continue annually after the transition plan period. The Provider Audit team has been conducting annual on-site reviews for Home Care (HC) and Case Management (CM) providers since 2000, and will continue these reviews, in accordance to the ADvantage Waiver performance measure requirements. Reviews are completed by DHS-AS MSU-QAI for providers and HCB settings annually, extending beyond the transition period (March 15, 2019). In accordance to the ADvantage Waiver, Raosoft is used to obtain a representative sample of case records of Members receiving services in each provider type reviewed, including ADH and/or Members who reside in an AL facility. Included in each review is a survey of Member perception. Member Perception contacts are made with Members who were randomly selected for provider review in their ADH/AL setting, in the Member's home, or via telephone. ADvantage does not currently have a Provider utilizing more than one setting type. If a provider had multiple types of settings, each setting would be reviewed separately. Providers with multiple locations have separate reviews for each location.

In SFY 2015, the State conducted baseline provider self-assessment surveys. By the end of SFY16, DHS-AS completed follow-up onsite reviews of Assisted Living facilities. In SFY16, DHS-AS also worked with DHS, Developmental Disabilities Services (DDS), to complete Adult Day site visit reports at the Adult Day Centers. During these preliminary follow- up reviews, DHS-AS found 71% of the seven AL providers reviewed were in full compliance while the other two AL settings and all 29 ADH settings were not in compliance but could be with modifications. Examples of reasons a setting did not comply include the lack of community outing opportunities; unclear opportunities to provide change in Member needs and preferences; secure places for personal belongings; removal of gates, locked doors or other barriers to allow access to areas to the same degree of those not receiving HCBS; providing members with information regarding how to update or change services and/or providers. Providers received feedback directly regarding agency specific findings. In addition, a statewide overview of common findings and pertinent training reminders was provided at the Fall 2016 Regional Provider Trainings to assure 100% compliance.

DHS-AS Medicaid Services Unit has developed Adult Day Health (ADH) and Assisted Living (AL) Consumer-Focused Quality Care Review (C-FQCR) tools using exploratory questions as a guide for the HCB settings section of the C-FQCR tool. A C-FQCR tool was used to review Assisted Living provider settings in SFY16, while an Adult Day site visit report was used for ADH provider settings in SFY16. Updates to the Assisted Living C-FQCR tool have been made and an Adult Day Health C-FQCR tool was developed for use in SFY17 and subsequent review years. The C-FQCR tools are based on the ADvantage Program contractual documents, Oklahoma Administrative Code (OAC), Oklahoma statutes, and HCBSFinal Rules. The tools are designed to measure provider compliance with defined standards and adherence to the waiver requirements, including Member choice of services and provider, training, compliance with delivery of services as authorized. As a measure to further validate findings, the tool will also survey the member's perception of service delivery performance and support to integrate into the greater community. Each SFY17 review will include a remediation plan of correction that the agency completes, as well as progress reports if there were any non-compliance issues with any of the requirements. The provider review team is responsible for monitoring and tracking the provider's progress in complying with the performance measures, HCB settings requirements, and any necessary remediation. MSU-QAI staff has received trainings provided by CMS through various webinars. Annual and ongoing review staff training will be provided on the usage of the C-FQCR tool, user instructive material, policy, and CMS rules. Seasoned reviewers participate at least yearly in interrater reliability demonstration training; new reviewers are assessed more frequently at milestones in orientation training through interrater reliability activities with various reviewers.

Compliance Determination

During SFY 16, HCB settings compliance was determined using a site visit report for Adult Day Health Centers and a C-FQCR tool for Assisted Living Centers. In order to be considered fully compliant, the HCB settings score had to be 100% on the respective tool. HCB settings scores below 100% were reviewed to designate whether the setting could comply with modifications. Non-compliance was defined as an agency that could not comply with modifications. All ADvantage agencies scoring below 100% were determined to be able to comply with minor modifications. Individual, Private Home

The Department of Human Services Social Worker and Long Term Care (LTC) Nurse complete both financial and medical criteria, respectively, to evaluate eligibility for the ADvantage Program. A Uniform Comprehensive Assessment (UCAT Part III) is completed, in the home of each applicant by the LTC Nurse initially and annually by the individual's Case Manager. Using the UCAT III as a tool in the home to evaluate health and safety, the LTC Nurse and Case Manager obtain information relevant in the assessment of compliance with Home and Community Based (HCB) settings requirements including setting choice and access to the greater community including a section that asks "if you could not continue to live in your present location, do you have any ideas about where you would live?" The tool is designed to ask probing questions regarding activities of daily living (ADLs)and instrumental activities of daily living (IADLs) to aid in the development of the member driven person-centered service plan. During this initial assessment, the member chooses their desired providers and offers input to the services in their person-centered service plan. The LTC Nurse and Case Manager use the UCAT Assessor Manual to complete the form. Additionally, case management training is a requirement for ADvantage Case Management certification. A full day is devoted to the UCAT which requires the assessor to review the Member's physical and mental

health, functional abilities, social supports, and physical environment documenting safety and accessibility concerns. The assessment is extensive and allows the assessor to document all observations and professional determinations regarding the appropriateness of home and community based services and settings assuring that any setting even the private home overcomes the presumptions of compliance. If the member or applicant is in a setting that does not comply, the member or applicant will be advised of options of remediation, relocation to another setting, or other program options.

Population: All members with service plans active during the reporting period

Sample Size/Methodology: Random cumulative sample selected according to the percentage of members served by a single ADH/AL provider as a proportion of the total number of members served receiving ADH/AL services on the Waiver. The swample size is validated utilizing Raosoft Survey Design.

II. Assessment Process

Aging Services (AS), Quality Assurance and Improvement (QAI) staff review all applicable rules, provider contractual documents, lease agreements, as well as any other pertinent documentation before the on-site provider agency review. During the on-site provider agency review, AS-QAI staff review member charts, personnel records, other agency documentation, conduct observational review of the facility, interview members identified via random sampling procedure and evaluate this information in the context of appropriate and applicable contract standards, state, and federal rules. The Consumer-Focused Quality Care Review (C-FQCR) tool is utilized during the provider agency review. The tool hasbeen revised to specifically address requirements for home and community based settings. After compiling the findings from the provider agency review, the AS-MSU QAI lead reviewer conducts an Exit conference with the provider agency presenting the findings and the preliminary provider report. The provider is given an opportunity to provide refuting documentation at that time. Any refuting documentation is considered and the provider is provided a Final Review Letter with the Final Review Report and instruction for completing any required remedial action.

III. Remediation Strategy

Remediation

Any provider who scored below 100% on these HCB settings compliance reviews will be required to complete a plan of correction developed by the review team, complete two progress reports over a 6-month period and receive a follow-up visit. The plan of correction includes the identification and cause of the problem, the proposed action/intervention, a monitoring plan, the person accountable, the implementation and projected completion dates and the expected outcome. The progress reports include the status of implementation, what data has been collected, the collection date and the person accountable. The plan of correction is submitted within 30 days from the date that the final reports are mailed to the agency and the progress reports are due every 30 days after the plan of correction is approved by the Programs Assistant Administrator of the Quality Assurance/Improvement department or designee. The follow-up review is completed during the month following the final progress report and includes only those conditions that require a plan of correction. All annual AL and ADH reviews for SFY18 must be completed by June 30, 2018, and remediation for HCB settings requirements and follow-up confirmation of full compliance must be confirmed by November 30, 2018 for AL and December 31, 2018 for ADH allowing appropriate time for relocation activities as necessary. Remediation will continue as a regular part of the methodology for continuous monitoring for quality assurance and improvement as outlined above.

Full compliance is requested for all HCB setting requirements, as well as other performance measures to be evaluated during the review. During the transition period DHS Aging Services staff will work with providers to come into full compliance on all HCB settings by December 31, 2018 in accordance with the timeline for relocation below. Trainings have been conducted with providers, including separate trainings with ADH and AL Providers during the fall of 2015 to explain the monitoring method and answer any questions. Regional Provider Trainings were held throughout the state during the month of September 2016. Trainings were held on September 7, 2016 in Tulsa, September 8, 2016 in McAlester, September 14, 2016 in Norman, and September 15, 2016 in Lawton. The Regional Trainings provided continual education on this review process and devoted

much focus to requirements of the final rule. Providers continue to receive training at least annually regarding Quality

Assurance and Improvement changes and reminders.

Plan for Relocation

- 1. Each Member has an individualized person-centered service plan, prepared by the ADvantage Case Manager in conjunction with the Interdisciplinary Team (IDT), completed during each service plan year or when living arrangements are modified. One section of the service plan is life transition planning. In this area, contingency plans list choices by the member if they can no longer stay at the assisted living and the supports available to assist with this transition.
- 2. Each Member has an individualized person-centered services backup plan crafted by the ADvantage Case Manager in conjunction with the IDT team completed during each service plan year or when living arrangements are modified. This services backup plan includes contingency plans for direct care assistance, critical health and supportive services, equipment repair or replacement, medications, DME supplies, transportation, etc. First, second, and third tier designated backups are also listed on the plan. The plan is signed by the member, ADvantage Case Manager and any witnesses, if applicable.
- 3. Should the setting fail to meet compliance, members, ADvantage Case Managers and the IDT will strategize utilizing the contingency plans included in the person-centered service plan as a basis for identifying possible living options available in the community. Immediate coordination with the ADvantage Case Manager and all other IDT members requested by the member are critical in evaluating the wishes of the Member and the options available to them. Some of the options available would be

as follows:

Assisted Living

- •Transferring to another certified ADvantage Assisted Living Center
- •Home with HCB services and informal supports
- •Home with Adult Day Health services
- •Explore all assistance and living arrangements with family, friends
- •Nursing facility placement (if necessary)

Adult Day Health

- •Transferring to another Adult Day Health facility
- •Remaining in the home with PCA services in place, in conjunction with informal supports
- •Move to a certified ADvantage Assisted Living Center
- •Explore all assistance and living arrangements with family, friends.
- •Nursing facility placement (if necessary)

IV. Plan of Action

The proposed plan of action is contingent upon CMS approval of the plan.

SFY Start Date End Date Milestone Plan of Action

SFY 15 August 2014 March 2015 All Baseline Data Collected The State will obtain baseline data using provider performance self-assessments. Baseline provider self-assessments were completed utilizing the exploratory questions from the CMS Rule toolkit.

SFY 15 March 2015 March 2015 Public Meeting The State hosted its first public meeting regarding the requirements of the Final Rule and the Statewide Transition Plan process.

SFY 15 April 2015 April 2015 Public Meeting The State hosted its second public meeting to discuss the draft version of the State's initial Statewide Transition Plan.

SFY 15 May 2015 May 2015 Submission of Initial SWTP The State submitted its first version of the Statewide Transition Plan

SFY 16 August 2015 August 2015 Provider HCB Settings Compliance Training The State (DHS Aging Services and DHS Developmental Disabilities Services) met with Adult Day Health Providers, reviewed the Final Rule, and the On-Site Visit Report that would be used to assess compliance with HCB Settings. Allowed providers opportunities for Questions and Answers.

SFY 16 October 2015 October 2015 Provider HCB Settings Compliance Training The State (DHS Aging Services) met with Assisted Living Providers, reviewed the Final Rule, and the Consumer-Focused Quality Care Review (C-FQCR) tool that would be used to assess compliance with HCB Settings and other contractual requirements. Allowed providers opportunities for Ouestions and Answers.

SFY 16 December 2015 December 2015 Public Meeting The State hosted its third public meeting to inform stakeholders and the public of the feedback garnered from the CMIA letter and begin the development of a plan to amend the initial Statewide Transition Plan.

SFY 16 April 2016 April 2016 Follow-up/Preliminary Site Review (Assisted Living Settings) The State assessed all Assisted Living Providers during on-site monitoring visits and through the annual provider review process. Data was collected and analyzed to further determine compliance with the Final Rule.

SFY17 September 2016 September 2016 Regional Provider Training The State (DHS Aging Services) met with all interested ADvantage providers, reviewed the Final Rule, and the Consumer-Focused Quality Care Review (C-FQCR) tools for Assisted Living and Adult Day Health providers that would be used to assess compliance with HCB Settings. The State also reemphasized Person-Centered Planning and its impact and every phase of service delivery.

October 2016 October 2016 Follow-up/Preliminary Site Review (Adult Day Health Settings) The State assessed all Adult Day Health Providers during on-site monitoring visits and through the annual provider review process. Data was collected and analyzed to further determine compliance with the Final Rule.

SFY 17 November 2016 November 2016 Submission of Revised Statewide Transition Plan (Initial Approval) The state submitted its revisions to the Systemic Assessment portions of the Statewide Transition Plan for initial approval.

SFY 17 January 2017 January 2017 Public Meeting The State hosted a public meeting in January to discuss and garner feedback from Stakeholders pertaining to the latest version of the SWTP.

SFY 17 February 2017 February 2017 Submission of Revised Statewide Transition Plan (Final Approval)

SFY 17 July 2016 June 2017 New Tool Developed The State will be utilizing a new tool in July 2016 for Adult Day Health and an amended tool for Assisted Living for the purpose of ongoing monitoring. These new/amended tools will include a review of provider agency contractual documents. Oklahoma Administrative Code (OAC), Oklahoma statutes, and HCBS Final Rule. The State will work with providers to identify ways to achieve compliance within required timeframes. The State will provide ongoing training and consultation to providers to ensure providers are working toward successful methods for achieving compliance.

[SFY 18] July 2017 June 2018 Completion of Annual Reviews (All Settings Types) The State will continue to monitor providers' compliance through the provider performance review process. Any provider that scores below 100% on the

provider review will be required to complete a plan of correction.

SFY 19 November 2018 November 2018 Remediation of non-compliance complete (Assisted Living) All remediation for non-compliance with HCB settings requirement including Plan of Correction, Progress Reporting and Follow-up visits completed by this date for Assisted Living providers

SFY 19 December 2018 December 2018 Remediation of non-compliance complete (Adult Day Health) All remediation for non-compliance with HCB Settings requirement including Plan of Correction, Progress Reporting and Follow-up visits completed by this date for Adult Day Health providers

SFY 19 December 2018 December 2018 Notifications of Decertification Sent (Assisted Living) Notices will be sent advising of the decertification of the Assisted Living contract with the MSU-AA, in conjunction with the Oklahoma Health Care Authority.

SFY 19 January 2019 January 2019 Notifications of Decertification Sent (Adult Day Health) Notices will be sent advising of the decertification of the Adult Day Health contract with the MSU-AA, in conjunction with the Oklahoma Health Care Authority.

SFY 2019 March 2019 March 2019 Relocation Completed All settings that are not fully compliant with the HCB settings regulation will be identified and individuals receiving HCBS in those setting will be relocated to a compliant setting. Ongoing Education Trainings, provider education, and technical assistance was provided throughout the SWTP process beginning in FY15 and beyond. It will continue throughout the transition period and after the transition period has ended.

V. Baseline Assessment Process and Results

Baseline assessments were completed from August 2014 to March 2015. Providers received a survey via electronic mail and follow-up phone calls. The survey consisted of questions from the CMS Final Rule Exploratory Questions document. Follow-up calls were made to ensure that providers completed the survey in the allotted timeframe. Surveys were sent to the entire NFLOC waiver settings locations. There was an 80% response rate on the survey. The State did reach out to those providers that did not respond to the survey. It was estimated based on the baseline provider self-assessments that at least 75% of all settings comply with the HCBS Final Rule and 25% are non-compliant. A more detailed overview of the baseline provider self-assessment survey results can be found in Appendix E. In an effort to validate the baseline findings, the State conducted a follow-up assessment that included all providers in the AL and ADH settings. The State assessed these individuals during on-site monitoring visits and through the annual provider review process discussed in Section B.I that includes a site visit and Member perception survey. The C-FQCR tool was used to review Assisted Living provider settings in SFY16, while an Adult Day site visit report was used for ADH provider settings in SFY16. The findings from the follow-up review indicated that most providers need minor adjustments to become fully compliant with the HCBS final rule. Further details concerning the results of the assessment can be found in Appendix E.

During annual reviews, if a setting is found to not fully comply and unable to complete remediation activities within required timeframe, the state will implement the relocation plan with the above referenced timeline.

VI. NFLOC Heightened Scrutiny

DHS-AS MSU-AA QAI team used the Final Rule and exploratory questions for residential and non-residential settings to identify settings that are presumed not a home and community based setting. The facilities identified for heightened scrutiny are listed in Appendix F with the reason for heightened scrutiny. The assessments developed using the CMS exploratory questions, in Appendix F demonstrate the State's evidence for each setting meeting the qualities of home and community based settings. Detailed reports of heightened scrutiny finding can be found in Appendix F. All ADvantage Assisted Living and Adult Day Health providers were reviewed using CMS guidelines for facilities to Not be or Presumed Not to be HCB Settings. All ADvantage providers were determined to be a HCB setting. Those identified with the CMS guidelines for facilities that are Presumed Not to be HCB Settings were further reviewed line by line with the exploratory questions by the DHS-AS MSU-AA QAI team and evidence was submitted demonstrating the setting had qualities of an HCB setting and did NOT have institutional qualities.

Section C: ICF/ID Waivers

Introduction

Oklahoma operates four home and community based waivers which require an ICF/ID level of care. Average monthly enrollment in these waivers is approximately 5,382. In accordance with Title 340 Chapter 100 of the Oklahoma Administrative Code (OAC), the ICF/ID level of care is mutually exclusive from the nursing facility levels of care, which are necessary for enrollment in the waivers administered and operated by DHS DDS. The State conducted a review of all of its applicable State statutes, administrative rules, approved waivers, provider requirements, and service specifications. The results of the State's systemic review are located in Appendix B.

The following are the approved ICF/ID Waiver Programs. Daily operation of each of these waivers is the function of the Oklahoma Department of Human Services – Developmental Disabilities Services.

Community – Serves individuals who are 3 years of age and older who have intellectual disabilities and certain persons with related conditions who would otherwise require placement in an ICF/ID.

Homeward Bound – Serves individuals who are 18 years of age and older who have intellectual disabilities and certain persons

with related conditions who (1) would otherwise require placement in an ICF/ID; and (2) have been certified by the U.S. District Court for the Northern District of Oklahoma as being members of the plaintiff class in Homeward Bound et al. v. The Hissom Memorial Center et al., Case No. 85-C-437-e.

In-Home Supports Waiver for Adults – Serves the needs of individuals 18 years of age and older with intellectual disabilities who would otherwise require placement in an ICF/ID.

In-Home Supports Wavier for Children – Serves the needs of children ages 3 through 17 years with intellectual disabilities who would otherwise require placement in an ICF/ID

I. Assessment Methodology & Continued Monitoring

The Oklahoma Department of Human Services (DHS), Developmental Disabilities Services Division (DDS), Quality Assurance department conducts an annual on-site performance survey with all agencies providing services through the ICF/ID Home and Community Based Waivers, Performance surveys are conducted to assess compliance with all relevant rules and policies. Performance surveys are conducted each fiscal year. The performance survey includes an evaluation of information obtained from observations, interviews with both members and providers, and records reviewed in the context of appropriate and applicable contract standards, state, and federal rules. In accordance with current ICF/ID waiver renewal language. Raosoft is used to obtain the appropriate sample size. Once the sample size is ascertained this information is sent to the DHS Office of Planning, Research, and Statistics to select the random sample of waiver members. Utilizing Statistical Package for the Social Science (SPSS) SPSS software, individual waiver members are randomly selected. The Quality Assurance department then identifies all provider agencies and setting types that coincides with the waiver member sample. Notification is given to provider agencies of when the performance survey will be completed. The Quality Assurance department completes all performance surveys via on-site visits. The on-site visits are conducted at the individual settings where the member receives their HCB services. Individual locations are reviewed by the Quality Assurance department, thereby accounting for the providers who have more than one setting. Performance surveys are completed on an annual basis; however the survey has only recently been updated to reflect the settings requirements in the HCBS Final Rule. In SFY 16, the Quality Assurance department collected the baseline data pertaining to the HCBS settings requirements. The Quality Assurance department will continue to assess settings requirements in provider surveys on an annual basis hereafter. The Developmental Disability, Quality Assurance department, also conducts an Area survey and has designed a Case Management Survey in an effort to further validate the Performance Survey conducted annually. The Area survey is conducted utilizing the same representative sample reviewed for the Performance surveys. The Area survey review compliance of the HCBS settings rules as it pertains to person centered planning. Data is analyzed to reflect compliance data received and reviewed during the provider performance survey process. The Quality Assurance department has designed a new Case Management review tool that will be used annually to assess 100% of members served in the four ICF/ID waivers. The data will be used to validate the results of the performance surveys, as they will be focused on member perception and experience with services received. The DDS Quality Assurance staff also plan to utilize the NCI data as a means of statistical validation. The staff will compare the results of this data with data gathered from the performance survey. Any statistically relevant discrepancies will be further investigated. All new Quality Assurance staff is required to complete 60 hours of classroom training and 180 hours of on the job training that includes shadowing a senior quality assurance staff member. After the initial 180 hours of on the job training is completed, quality assurance staff participates in 8 hours of additional training with his or her supervisor. Quality assurance staff is provided quarterly training on policy and procedural updates. An annual performance survey is conducted with agencies providing services through a Home and Community Based Waiver, to assess compliance with expectations defined in the agency's contract. A random sample is selected by DHS Office of Planning, Research and Statistics utilizing SPSS software. Surveys are conducted during each state fiscal year with providers of residential, vocational, or non-medical home supports. A representative sample of service recipients from each of the four waivers is selected and then organized by provider agency who serves each service recipient included in the random sample. Notification is given to providers in the survey sample of when the survey will be completed. Surveys are completed through

Individual, Private Home

on-site visits.

Members who reside in individual, private homes are included in the provider survey sample universe. Based on the data collected in SFY 16 and the data collected thus far in SFY 17, it reveals that individual residences are in compliance with the HCBS Final Rule on settings. There are currently no potentials for heightened scrutiny.

Population: Members with active service plans during the reporting period (All waiver members, in all waivers)
Sample Size/Methodology: Random cumulative sample selected according to the percentage of Members served in each of the ICF/ID waivers. Sample size will be validated utilizing Raosoft Survey Design.

II. Assessment Process

Developmental Disabilities Services (DDS) Quality Assurance staff review all applicable rules and provider contracts before the site visit. During the site visit, DDS Quality Assurance staff observes and conducts interviews with service recipients and staff involved in each type of service provided by the agency. Observations and interviews occur during various times of service delivery. Quality Assurance staff members evaluate information obtained from observations, interviews, and records reviewed in the context of appropriate and applicable contract standards, state, and federal rules. The survey tools utilized by the Quality Assurance team have been revised to specifically address requirements for home and community based settings. Once the site visit is complete, the DDS Quality Assurance team conducts an Exit conference with the provider agency, where

the findings of the review are presented. The proposed action steps and timelines for the SWTP are outlined below in the Plan of Action Section.

III. Remediation Strategy

Plan for Relocation

Provider agencies surveyed by DDS Quality Assurance Staff are given two weeks after the exit conference to send the Quality Assurance Staff a written response that identifies a date by which the agency will comply with cited requirements. The projected resolution date must be within two months of the exit conference. During SFY 17 Provider agencies that receive citations for non-compliance will be re-surveyed to assess resolution of identified contract and rule deficiencies. Each agency is re-reviewed 60 days after the original survey. DDS staff will continue to work with individual providers to achieve compliance until compliance is reached. During SFY 18, if provider agencies receive citations for non-compliance, sanctions will be imposed, and the process of relocating waiver members will commence.

Each Member has an individualized person-centered service plan, prepared by the Case Manager in conjunction with the Interdisciplinary Team (IDT), completed during each service plan year or when living arrangements are modified. Waiver members may not remain in a non-compliant setting. Immediate coordination with the Case Manager, the IDT Team members, and the member will be critical in determining the options available. Choices of other compliant settings will be made available to the member. The member will have the opportunity to visit each of his or her choosing and will make a final selection. Waiver member will be relocated prior to March 17, 2019. Options available to the member include continuing to receive the same supports in another setting that is fully compliant with the HCBS settings or changing the supports he or she receives based on the person-centered plan. Oklahoma DDS staff will follow person-centered planning in the transition process. Individuals will have choice among qualified providers, settings and be provided opportunities to visit several settings and given information to help them understand the various options available. Individuals will be relocated as necessary by March 15, 2019.

IV. Plan of Action

The proposed plan of action is contingent upon CMS approval of the plan.

SFY Start Date End Date Milestone Plan of Action

SFY 14 - 15 April 2014 June 2016 Training & Education Participated in several Final Rule trainings and survey development meetings.

SFY 15 March 2015 March 2015 Public Meeting The State hosted its first public meeting regarding the requirements of the Final Rule and the Statewide Transition Plan process.

SFY 15 April 2015 April 2015 Public Meeting The State hosted its second public meeting to discuss the draft version of the State's initial Statewide Transition Plan.

SFY 15 May 2015 May 2015 Submission of Initial SWTP The State submitted its first version of the Statewide Transition

SFY 16 July 2015 September 2015 Collected the first quarter of Baseline Data The State obtained the first quarter of baseline data utilizing settings requirements in the provider performance surveys

SFY 16 July 2015 June 2016 All Baseline Date Collected The State obtained baseline data utilizing the updated survey to include settings requirements.

SFY 16 December 2015 December 2015 Public Meeting The State hosted its third public meeting to inform stakeholders and the public of the feedback garnered from the CMIA letter and begin the development of a plan to amend the initial Statewide Transition Plan

SFY 17 July 2016 June 2017 Provider Performance Survey Assessments & an remediation necessary Completed The State continues to collect data and monitor compliance on settings requirements.

SFY 17 July 2016 June 2017 Case Management Review Assessments Completed. The State will utilize newly developed case management review assessments to validate the provider surveys.

SFY 17 October 2016 October 2016 Follow-up/Preliminary Site Review (Adult Day Health Settings) (in conjunction with Aging) The State assessed all Adult Day Health Providers during on-site monitoring visits and through the annual provider review process. Data was collected and analyzed to further determine compliance with the Final Rule.

SFY 17 November 2016 November 2016 Submission of Revised Statewide Transition Plan (Initial Approval) The state submitted its revisions to the Systematic Assessment portions of the Statewide Transition Plan for initial approval.

SFY 17 January 2017 January 2017 Public Meeting The State hosted a public meeting in January to discuss and garner feedback from Stakeholders pertaining to the latest version of the SWTP.

SFY 17 February 2017 February 2017 Submission of Revised Statewide Transition Plan (Final Approval)

SFY 18 July 2017 June 2018 Provider Survey Assessments & an remediation necessary Completed The State will continue to collect data and monitor compliance on settings requirements.

SFY 18 July 2017 June 2018 Case Management Review Assessments Completed. The State will utilize newly developed case management review assessments to validate the provider surveys.

SFY 18 July 2017 June 2018 Completion of Adult Day Health Reviews (in conjunction with Aging) The State will continue to monitor providers compliance through the provider performance review process. Any provider that scores below 100% of the provider survey will be required to complete a plan of correction.

SFY 19 September 2018 March 2019 Sanctions imposed for non-compliant settings The State will impose sanctions on

settings that remain non-compliant according to contractual agreements.

SFY 19 September 2018 March 2019 Relocation from non-compliant settings. All settings that are not fully compliant with the HCBS settings regulation will be identified and individuals receiving HCBS in those setting will be relocated to a compliant setting.

SFY 19 November 2018 November 2018 Remediation of non-compliance complete (Adult Day Health) All remediation for non-compliance with HCB Settings requirement including Plan of Correction, Progress Reporting and Follow-up visits completed by this date for Adult Day Health facilities

SFY 19 January 2019 January 2019 Notifications of Decertification Sent (Adult Day Health) Notices will be sent advising of the decertification of the Adult Day Health contract with the DDS - QA, in conjunction with the Oklahoma Health Care Authority.

V. Baseline Assessment Process & Results

First quarter provider surveys conducted during the period of July 2015 to September 2015 are being used for baseline information. This baseline assessment information was compiled utilizing the process outlined in the Assessment Methodology and Assessment Process Section above. The baseline information included the portion of the annual representative sample served by the provider agencies surveyed, which comprised 207 service recipients and 213 different settings Assessment results indicate that 86% of settings assessed comply with the HCBS Final Rule and 14% do not comply. Since the submission of the amended Statewide Transition Plan (January 2016), the entire baseline provider surveys have been completed. The updated results can be found in Appendix G. According to the completed baseline data 94% of all settings are compliant and 6% of all setting could comply with modifications. For example, a member receiving employment supports considered to be isolating requires modification. The member must be provided opportunities for community inclusion and competitive employment. The employment provider is required to implement a plan to offer the member opportunities to seek employment and work in competitive integrated settings. Settings are found to be non-compliant when only one setting is found to not meet the HCBS settings. For example, during the performance survey if 60 settings were reviewed and one setting was found to have not met the setting standard. The performance standard for this measure would be found as "Condition not Met." therefore not compliant with the settings standard. For those settings that were found to be noncompliant, the State will take the steps listed above in the Remediation Section to ensure compliance by March 2019. We estimate based on the baseline assessments that at least 85% of all settings comply with the HCBS Final Rule and 15% are non-compliant. Assessments are conducted to each provider on an annual basis, throughout the year, results are reported quarterly. A more detailed overview of the survey and the survey results can be found in Appendix G.

VI. ICF/ID LOC Heightened Scrutiny

Developmental Disabilities staff completed on site visits for all HCBS settings. Each setting was reviewed to ensure the setting was not in a public or privately operated facility that provides inpatient institutional treatment; and that the setting was not in a building on the grounds of, or adjacent to, a public institution. Each setting was also reviewed to determine if it isolated the member from the broader community. If the setting was determined to not be integrated and did not support the members full access to the greater community, the review team ensured that the modifications were and continue to be supported by a specific, assessed need, and justified in the person-centered plan. Section D: Public Input

Oklahoma hosted meetings to include representatives from advocacy and stakeholder groups as well as the state agencies involved in operating its 1915(c) waivers. The purpose of the meetings was to plan the State's response to the new CMS rule for home and community based settings and to develop its approach to this statewide transition plan.

The Oklahoma Health Care Authority (OHCA) held a public meeting on March 10, 2015 to educate providers and stakeholders about the federal rules and the transition planning process, as well as to discuss preliminary survey results and answer questions. Final results of the surveys and transition plan was presented at the second public meeting on April 28, 2015.

OHCA held another public meeting on December 7, 2015 in an effort to make the public aware of the response letter from CMS concerning the Statewide Transition Plan, and the States process for making revisions and submitting the revised plan back to CMS. Stakeholders were made aware of the meeting through newspaper advertisements and the OHCA public website. The Public Meeting Notice was included in the 5 major Oklahoma Newspapers. The State did not receive any comments at the public meeting held on December 7, 2015. The option to submit a written comment in a non-electronic format was made available by the State on the State website (http://www.okhca.org/individuals.aspx?id=16904). The revised SWTP was posted to the OHCA website on December 15, 2015. There were no comments received.

As a means of garnering more public input for the SWTP, the State and its partner agencies reached out to the established stakeholder groups and community to participate in the development of the revised SWTP. The State sent information to over 100 stakeholders, requesting their participation in the development and review of the revised plan. The state also hosted a training of over 300 providers where the SWTP was an agenda item. The State solicited feedback from the providers in attendance at the training. The majority of the comments received were related to HB 1566, the proposal of implementing managed long term care in the State. Other comments received requested clarification on the determination of compliance for certain State policies. The State added language in the SWTP that clarifies the relationship of the HCBS Final rule with the proposed managed care implementation. The State also revised the systemic assessment grid to clarify the appropriate

compliance determination for the State policy in question. The revised SWTP was posted to the OHCA website on October 5, 2016. The revised SWTP was posted from October 5, 2016 to November 7, 2016. The current SWTP and each iteration of the SWTP can be found at http://okhca.org/xPolicyChange.aspx?id=19561&blogid=68505. The State provided an avenue to submit comments via electronic and non-electronic means. Written comments are accepted and can be sent directly to the Oklahoma Health Care Authority via postal mail. A non-electronic version of the posting can also be requested by phone or mail and sent via postal mail.

Stakeholders were sent a notification of invite to the public posting. OHCA also sends an automatic notification of any new postings requiring public comment to all those who are signed up to receive notification. Each of the State partner agencies has also worked to inform individuals and providers about the public posting during meetings, trainings, and conferences. Members and providers are knowledgeable of the option to receive a non-electronic version of the SWTP as well as provide comments in a non-electronic format. The State received four comments from the 30 day posting for public comments on October 5, 2016. The SWTP was updated to include the comments received and the States responses to those comments. Modifications were made to the SWTP and other changes will be made in the submission of the SWTP for final approval based on the comments received. The comments and responses can be found in Appendix I. To summarize, the comments expressed concerns with the SWTP and the current service system delivery structure and methodology, in particular with the lack of clarity regarding how expectations, pertaining to employment and community integration will impact the individual's right to choose services and settings. Additional comments viewed the current living arrangements of service recipients to already allow for choice, but had questions about the oversight and the process of how the determination is made concerning an individuals' experience of that choice. The comments for the most part support the intent of the HCBS final rule, on the choice and integration of individuals; yet would like the State to account for the idea that community integration for some is difficult to accomplish and unwanted. Comments also expressed the need for additional time and resources to explore community integration of the non-verbal autistic population. As a means of providing more understanding and clarification of the purpose and intent of the Final Rule, the OHCA developed a webinar to be posted on the Statewide Transition Plan website that can be viewed at the leisure of individuals desiring more education and training about the rule. The SWTP will also be updated to reflect further clarifications about the issues raised in the comments received.

The State posted its Revised Statewide Transition Plan for Final Approval for public comment from December 22, 2016 to January 23, 2017. The State published information concerning the posting and public meeting to be held regarding the posting in all five major Oklahoma Newspapers. The option to submit a written comment in a non-electronic format was made available by the State. A public meeting regarding the Revised Statewide Transition Plan was held January 11, 2017. Those individuals that could not attend in person, were given the opportunity to participate via webinar. There was a total attendance of 71 participants. The State received 10 public comments. Comments reflected the providers desire to have more feedback regarding how many outings are required, to comply with the guidance to offer frequent and routine community integration as well whether there will be provider rate increase to help providers comply with the elements in the Final Rule. The State has made all of the comments received available in Appendix I. The State has responded to each comment received.

Additional Needed Information (Optional)	
Provide additional needed information for the waiver (optional):	
	ヘン
Appendix A: Waiver Administration and Operation	
 State Line of Authority for Waiver Operation. Specify the state line of authority for the operation of the waiver (select one): 	
○ The waiver is operated by the State Medicaid agency.	
Specify the Medicaid agency division/unit that has line authority for the operation of the waiver program (select one):	
○ The Medical Assistance Unit.	
Specify the unit name:	

(Do not complete item A-2)

)	Another division/unit within the State Medicaid agency that is separate from the Medical Assistance Unit.	
	Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency.	
		\wedge
		\vee
	(Complete item A-2-a).	

The waiver is operated by a separate agency of the State that is not a division/unit of the Medicaid agency.

Specify the division/unit name:

Oklahoma Department of Human Services, Developmental Disabilities Services

In accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this policy is available through the Medicaid agency to CMS upon request. (*Complete item A-2-b*).

Appendix A: Waiver Administration and Operation

2. Oversight of Performance.

a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency. When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities:

As indicated in section 1 of this appendix, the waiver is not operated by another division/unit within the State Medicaid agency. Thus this section does not need to be completed.

b. Medicaid Agency Oversight of Operating Agency Performance. When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:

The single State Medicaid Agency, OHCA, and the operating agency, DHS, have entered into an Interagency Agreement to assure cooperation and collaboration in performance of their respective duties in the provision of waiver services. The purpose of this Agreement is to satisfy State and Federal requirements regarding the role of OHCA and DHS, to outline financial obligations and arrangements between these agencies, and to define the roles of each agency. OHCA performs continuous monitoring of DHS following a monthly reporting schedule. However, additional monitoring, if required, occurs on an as needed basis.

The Interagency Agreement between OHCA and DHS is reviewed at least annually. Amendments can be executed as warranted at any time.

Responsibilities afforded to OHCA as related to fiscal matters are outlined in Oklahoma Administrative Code (OAC) 317:30. OHCA works with DHS to establish rates for waiver services. The OHCA Board of Directors has final approval of all proposed rates and rate changes. OHCA monitors waiver expenditures and enrollment monthly using data in the MMIS.

The OHCA Level of Care Evaluation Unit (LOCEU) conducts the initial screening/evaluation to determine or confirm a member's level of care, including verifying a diagnosis of intellectual disability, and approves/denies waiver eligibility. DHS/DDS Case Management Supervisors perform re-evaluations unless a significant change occurs which questions the qualifying diagnosis of a member. When a significant change affecting the member's qualifying diagnosis is suspected, Case Managers gather necessary documentation and submit to

OHCA LOCEU to determine level of care.

DHS/DDS conducts an audit which specifically includes a review of re-evaluations and reports findings to OHCA. OHCA representatives meet regularly with staff of DDS. DDS provides regular summary reports reviewing discovery and remediation activities for the indicators in the Quality Improvement Strategy including those for the level of care and end of year summary data for all quality indicators. Discussion of any identified issues or trends and suggestions for systems or other remediation or improvements are shared.

DHS/DDS gathers information to verify non-licensed provider applications meet provider qualifications prior to submission to OHCA for final provider Agreement approval.

OHCA enters into Agreements with providers and verifies provider qualifications upon enrollment into the waiver program. Oklahoma has numerous Boards or agencies that license certain health practitioners. OHCA's provider Agreement requires providers to notify OHCA if their license is, suspended, revoked or any other way modified by the licensing Board/agency. Additionally, on a monthly basis, OHCA Provider Enrollment staff receive a file from the Centers for Medicare & Medicaid Services (CMS) that lists sanctioned providers. This listing is compared against OHCA's master provider file, and sanctioned providers are removed from participation in the waiver program as of the effective date of the sanction. All new providers wishing to participate in the waiver program are also checked against this listing.

In accordance with the Interagency Agreement, OHCA and DHS/DDS coordinate policy issues related to the operation of the waiver program including changes in policy and procedures. All proposed rules are reviewed and approved by the Advisory Committee on Services to Persons with Developmental Disabilities (ACSPDD), of which OHCA is a participating member. The ACSPDD reviews all policies of DHS/DDS and makes recommendations to the Director of Human Services. Statutory authority of the ACSPDD is Section 1412 of Title 10 of Oklahoma Statutes. All proposed rules are also reviewed and approved by the OHCA Medical Advisory Committee; and the OHCA Board prior to submission to the Governor for final approval.

DHS/DDS monitors non-licensed providers for compliance and provides results to OHCA. OHCA is notified when Administrative Inquiries and follow-ups as well as annual performance reviews and follow-ups are completed. DHS/DDS Quality Assurance Unit also monitors the performance of DHS/DDS by conducting performance reviews of DHS/DDS member records to ensure member services are provided in an amount, duration and frequency which supports member Plans. Results of DHS/DDS Case Manager reviews are sent by email to OHCA. DHS/DDS Quality Assurance provider documents are posted to a web-based system upon completion. The web-based system may be accessed by OHCA at any time. OHCA representatives are provided summary reports to review quality indicators on a regular basis. Follow-ups are sent to OHCA as they are completed.

The Area Survey monitoring process is a record review of the DHS/DDS Case Manager record, based on a statistically significant random sample of members receiving supports through the waiver. One quarter of the representative sample is monitored each quarter. This results in a complete representative sample being reviewed each year. The record reviews include a review of service plans to assure: all member needs are addressed and preferences considered; they are developed according to policy and updated/revised as needed ensuring an interim meeting was held within 30 days of identification or notification of the need for change in authorization of waiver services; services are delivered in accordance with the service plan including the type, scope, amount and frequency specified in the service plan; and that members are afforded choice between waiver services and institutional care and between/among waiver services and providers. The Area Survey record reviews provide a process for monitoring the health and welfare of members, assuring Case Managers: conduct face-to-face visits as required; address issues that could put the member's health or welfare at risk; and provide follow-up on issues identified in incident reports. The results of the Area Survey monitoring process are shared with OHCA and included in summary reports.

The Performance Survey is an annual monitoring site visit in which all provider agencies participate, providing data based on an aggregated statistically significant sample of members receiving waiver services and an aggregated statistically significant sample of provider agency staff. The Performance Survey includes all waivers for which the provider agency contracts. Monitoring of service plan development and implementation includes: a review of provider agency records for a random sample of waiver members; and home visits and interviews with waiver members and other pertinent people, for those sampled. The annual monitoring of nonlicensed/

non-certified provider staff includes a review of personnel records for a sampling of staff assigned to

provide supports, to ensure all required employment background checks have been obtained and all required training has taken place. The Performance Survey process provides for a sampling of financial records to ensure compliance with provider Agreements. DHS/DDS policy provides the expectation that all identified barriers to performance consistent with the expectation of regulatory policy and contracts are resolved no later than 60 days

following the completion of the annual Performance Survey. Failure to correct identified barriers could result in administrative sanctions. The results of Performance Surveys are summarized and shared with OHCA in regular reports.

Appendix A: Waiver Administration and Operation

- **3. Use of Contracted Entities.** Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (*select one*):
 - Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).

Specify the types of contracted entities and briefly describe the functions that they perform. *Complete Items A-5 and A-6.*:

DHS/DDS serves as a Financial Management Service (FMS) in a Government Fiscal Employer Agent (FEA) model and also operates as an Organized Health Care Delivery System (OHCDS) using a subagent. The subagent has entered into an Agreement with DHS/DDS and also OHCA to perform billing transactions on behalf of DHS/DDS. DHS/DDS has entered into an Interagency Agreement with OHCA.

No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).

Appendix A: Waiver Administration and Operation

4.

Role of Local/Regional Non-State Entities. Indicate whether local or regional non-state entities perform waiver operational and administrative functions and, if so, specify the type of entity (<i>Select One</i>):
Not applicable
 ○ Applicable - Local/regional non-state agencies perform waiver operational and administrative functions. Check each that applies: □ Local/Regional non-state public agencies perform waiver operational and administrative functions at the
local or regional level. There is an interagency agreement or memorandum of understanding between the State and these agencies that sets forth responsibilities and performance requirements for these agencies that is available through the Medicaid agency.
Specify the nature of these agencies and complete items A-5 and A-6:
Local/Regional non-governmental non-state entities conduct waiver operational and administrative
functions at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The contract(s) under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
Specify the nature of these entities and complete items A-5 and A-6:

Appendix A: Waiver Administration and Operation

5. Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities. Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:

DHS/DDS is responsible for assessment of performance of the Financial Management Service (FMS) subagent as identified in Appendix A.3. The FMS subagent is also subject to monitoring and oversight by the Oklahoma Health Care Authority (OHCA), the State's Medicaid agency.

Appendix A: Waiver Administration and Operation

6. Assessment Methods and Frequency. Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:

The Financial Management Service (FMS) subagent maintains adequate and separate accounting and fiscal records and accounts for all funds provided by any source to pay the cost of the project and permit audit and/or examination of all such records, procedures and accounts at any reasonable time by authorized personnel of the U.S. Department of Health and Human Services or other pertinent Federal agencies and authorized personnel of the Oklahoma Department of Human Services, State Auditor and Inspector and other appropriate State entities. Furthermore, such personnel have the right of access to any books, records, documents, accounting proceedures, practices or any other items of the service provider that are pertinent to the performance or payment of the contract in order to audit, examine and make excerpts of records. Contractor is required to maintain all records for six years after the Department makes final payment and all other pending matters are closed. DHS/DDS will be responsible for assessment of performance of the FMS subagent. The FMS subagent is also subject to monitoring and oversight by the Oklahoma Health Care Authority (OHCA), the State's Medicaid agency. Reports are due monthly and more frequently upon request. The FMS subagent is required to submit a monthly report to the DHS/DDS Contract Monitor for the FMS subagent. The report includes the names of all members served. The report is compared with DHS/DDS records of authorization and upon completion of review is submitted to the DHS Finance Division. The report is shared with OHCA upon request. In addition, a monthly report is available via the web with a login and password to members and DHS/DDS by the FMS subagent which includes statement period, member name, name and address used to mail the statement, a listing of all active accounts, total amount of money FMS subagent has received via authorization, spending via statement period, total amount of spending and the balance of account.

Appendix A: Waiver Administration and Operation

7. **Distribution of Waiver Operational and Administrative Functions.** In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (*check each that applies*):

In accordance with 42 CFR §431.10, when the Medicaid agency does not directly conduct a function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency. *Note: More than one box may be checked per item. Ensure that Medicaid is checked when the Single State Medicaid Agency (1) conducts the function directly; (2) supervises the delegated function; and/or (3) establishes and/or approves policies related to the function.*

Appendix A: Waiver Administration and Operation

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

i. Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Data Source (Select one):

Number and percent of provider Agreement applications for licensed providers approved and reviewed by OHCA (denominator) for which DHS/DDS verified appropriate licensure/certificate in accordance with the State law and waiver provider qualifications prior to verification by OHCA and initiation of provider Agreement (numerator).

b. Methods for Remediation/Fixing Individual Problems

i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

OHCA's Long Term Care Administration (LTCA) dedicated waiver staff are responsible for program monitoring and oversight and will address individual problems as they are discovered with regard to operations and administrative functions that are performed by all contracted entities. LTCA dedicated waiver staff will maintain administrative authority through the use of an electronic database designed for storing information received related to problems identified and resolutions of these matters. The LTCA Contract Monitor will be directly responsible for mediating any individual problems pertaining to administrative authority. The LTCA Contract Monitor will work with the designator Contractor Point of Contact to resolve any problems in a timely manner. The LTCA Contract Monitor will have the use of penalties and sanctions in accordance with the terms of the contract. Problems requiring additional OHCA staff will be addressed in workgroups involving appropriate personnel to resolve issues timely and effectively.

Appendix B: Participant Access and Eligibility

B-1: Specification of the Waiver Target Group(s)

a. Target Group(s). Under the waiver of Section 1902(a)(10)(B) of the Act, the State limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:

					um Age
Target Group	Included	Target SubGroup	Minimum Age	Maximum Age Limit	No Maximum Age Limit
Aged or Disal	l bled, or Both - Ge	neral		Limit	Limit
		Aged			
		Disabled (Physical)			1
		Disabled (Other)			
Aged or Disal	bled, or Both - Spo	ecific Recognized Subgroups			
		Brain Injury			
		HIV/AIDS			
		Medically Fragile			
		Technology Dependent			
✓ Intellectual D	isability or Develo	pmental Disability, or Both			
		Autism			
		Developmental Disability			
	✓	Intellectual Disability	18		✓
Mental Illnes	s				
		Mental Illness			
		Serious Emotional Disturbance			

b.	Additional	Criteria.	The State	further	specifies i	ts target	group(s)	as follows:
----	------------	-----------	-----------	---------	-------------	-----------	----------	-------------

	^
	/

c. Transition of Individuals Affected by Maximum Age Limitation. When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit (select one):

Not applicable. There is no maximum age limit

Specify:	
	>
pendix B: Participant Access and Eligibility	
B-2: Individual Cost Limit (1 of 2)	
a. Individual Cost Limit. The following individual cost limit applies when determining when community-based services or entrance to the waiver to an otherwise eligible individual (see State may have only ONE individual cost limit for the purposes of determining eligibility for the purposes of the	lect one). Please note that a for the waiver:
 No Cost Limit. The State does not apply an individual cost limit. Do not complete Ite Cost Limit in Excess of Institutional Costs. The State refuses entrance to the waiver individual when the State reasonably expects that the cost of the home and community 	to any otherwise eligible
that individual would exceed the cost of a level of care specified for the waiver up to a State. <i>Complete Items B-2-b and B-2-c</i> .	an amount specified by the
The limit specified by the State is (select one)	
○ A level higher than 100% of the institutional average.	
Specify the percentage:	
Other	
Specify:	
	<u> </u>

- Old Institutional Cost Limit. Pursuant to 42 CFR 441.301(a)(3), the State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. Complete Items B-2-b and B-2-c.
- Cost Limit Lower Than Institutional Costs. The State refuses entrance to the waiver to any otherwise qualified individual when the State reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the State that is less than the cost of a level of care specified for the waiver.

Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. Complete Items B-2-b and B-2-c.

The In-Home Supports Waiver for Adults (IHSW-A) serves adults who live with family, friends or in their own home. The IHSW-A relies heavily on the use of natural and generic resources and supports. The support needs of the member must be able to be met through a combination of non-paid, non-waiver, SoonerCare resources available to the member, and with HCBS waiver resources that are within the annual limit. Additionally, for those members who are 18, 19 or 20 years of age, they receive the benefit of services available to them under the provisions of EPSDT. As such, any Waiver services that could be provided to these members under the provisions of EPSDT will be provided to them as State Plan Services and not as IHSW-A services.

The IHSW-A annual cost limit was first determined by an analysis of the costs of similarly situated members when the Waiver was initiated in State Fiscal Year (SFY) 1999. In subsequent operating years (Annual Reporting Periods), the annual cost limit was adjusted in conjunction with rate increases paid to service providers to ensure its continued relevance.

The cost limit specified by the State is (select one):

The following dollar amount:	
Specify dollar amount: 20761	
The dollar amount (select one)	
O Is adjusted each year that the waiver is in effect by applying the following formula:	
Specify the formula:	
	\ \
May be adjusted during the period the waiver is in effect. The State will submit a wai amendment to CMS to adjust the dollar amount.	ver
○ The following percentage that is less than 100% of the institutional average:	
Specify percent:	
Other:	
Specify:	
	^

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (2 of 2)

b. Method of Implementation of the Individual Cost Limit. When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

Prior to entrance to the Waiver, DHS/DDS Intake Staff meet with the potential member, his/her family and/or legal representative(s) and any other person(s) chosen by the member. During the meeting, Intake Staff gather information about the potential member's strengths and needs and natural and generic supports and services available to determine the waiver services required by the potential member. The Individual Plan is completed at the meeting and is based on the principals of person-centered planning. The Plan specifically identifies the needs of the potential member along with the available resources identified to meet those needs. In the event the waiver service needs of the potential member are greater than the annual cost limit of the IHSW-A, the potential waiver member is referred for entrance to the Community Waiver, a waiver without an individual cost limit also administered by DHS/DDS, for individuals with intellectual disabilities. If enrollment is denied, the individual is offered the opportunity for a Fair Hearing. A Notice of Action form is mailed notifying the individual enrollment has been denied. The notice includes information regarding the right to request a Fair Hearing. In addition, the individual receives a pamphlet related to the Fair Hearing process during the Intake and eligibility process.

- **c. Participant Safeguards.** When the State specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the State has established the following safeguards to avoid an adverse impact on the participant *(check each that applies)*:
 - ▼ The participant is referred to another waiver that can accommodate the individual's needs.
 - Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

The Annual Limit may be increased for the following:

1. In the event of provider service rate increases occurring during a plan of care year resulting in individual plans of care exceeding the annual limit. The annual limit may be increased for that plan of care year by the impact of the rate increases. The annual limit may be increased for the subsequent plan of care year by the impact of the rate

increases when necessary while a waiver amendment is pending. The State submits an amendment to increase the individual cost limit when a rate increase occurs.

- 2. When Assistive Technology Services or Environmental Accessibility Services were ordered under a previous year's plan but not delivered or completed until the current plan of care year. The current plan of care may exceed the annual limit by the cost of the previously-authorized Assistive Technology Services or Environmental Accessibility Services.
- 3. To allow for major purchases in excess of \$2,500 of Assistive Technology Services or Environmental Accessibility Services, but not to exceed \$10,000 in any five year period.
- 4. To allow services authorized by the Oklahoma Department of Human Services (OKDHS) DDSD State Office to resolve time-limited emergency situations after all other resources have been exhausted.

When services are needed beyond the scope identified above, the person is referred for entrance to the C	Community
Waiver in accordance with Oklahoma Administrative Code (OAC) 317:40-1-1.	

Other safeguard(s)	
Specify:	
	^
	\vee

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

a. Unduplicated Number of Participants. The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The State will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

Table: B-3-a

Waiver Year	Unduplicated Number of Participants
Year 1	1620
Year 2	1650
Year 3	1680
Year 4	1710
Year 5	1725

- **b.** Limitation on the Number of Participants Served at Any Point in Time. Consistent with the unduplicated number of participants specified in Item B-3-a, the State may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the State limits the number of participants in this way: (select one):
 - The State does not limit the number of participants that it serves at any point in time during a waiver year.
 - The State limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

Table: R-3-h

1 abic. B-3-b	
Waiver Year	Maximum Number of Participants Served At Any Point During the Year
Year 1	

Waiver Year Maximum Number of Participants At Any Point During the Year	
Year 2	
Year 3	
Year 4	
Year 5	

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

- **c. Reserved Waiver Capacity.** The State may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (*select one*):
 - O Not applicable. The state does not reserve capacity.
 - The State reserves capacity for the following purpose(s).

Purpose(s) the State reserves capacity for:

Purposes
Furnish waiver services to individuals experiencing crisis per OAC 317:40-1-1
Transition of members who age out of the In-Home Supports Waiver for Children

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (provide a title or short description to use for lookup):

Furnish waiver services to individuals experiencing crisis per OAC 317:40-1-1

Purpose (describe):

Waiver services are made available for individuals experiencing crisis that pose risk to health and/or safety per OAC 317:40-1-1.

Describe how the amount of reserved capacity was determined:

Reserved capacity was based on the number of individuals in crisis added to the waiver during the previous 12 months.

The capacity that the State reserves in each waiver year is specified in the following table:

Waiver Year	Capacity Reserved
Year 1	10
Year 2	95
Year 3	85
Year 4	85
Year 5	75

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (provide a title or short description to use for lookup):

Transition of members who age out of the In-Home Supports Waiver for Children

Purpose (describe):

To accommodate the transition of members who age out of the In-Home Supports Waiver for Children (IHSW-C) to ensure the continuity of their services.

Describe how the amount of reserved capacity was determined:

Reserved capacity is based on the number of In-Home Supports Waiver for Children (IHSW-C) members expected to age out and thus require the In-Home Supports Waiver for Adults (IHSW-A).

The capacity that the State reserves in each waiver year is specified in the following table:

Waiver Year	Capacity Reserved
Year 1	40
Year 2	35
Year 3	35
Year 4	35
Year 5	35

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (3 of 4)

d.	Scheduled Phase-In or Phase-Out. Within a waiver year, the State may make the number of participants who are
	served subject to a phase-in or phase-out schedule (select one):

•	The waiver	is not subject	to a phase-in	or a phase-out	schedule.
---	------------	----------------	---------------	----------------	-----------

\bigcirc	The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to
	Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are
	served in the waiver.

e. Allocation of Waiver Capacity.

Select one:

Waiver capacity is allocated/	'managed on a statewide basis.
-------------------------------	--------------------------------

(Waiver	capacity is	allocated to	local/regional	non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

f. Selection of Entrants to the Waiver. Specify the policies that apply to the selection of individuals for entrance to the waiver:

In accordance with OAC 317:40-1-1, initiation of services occurs in chronological order from the waiting list based on the date of receipt of a written request for services. The individual must meet the financial and medical eligibility

criteria and have critical support needs that can be met by the IHSW-A. Exceptions to the chronological requirement may be made when an emergency exists.

Appendix B: Participant Access and Eligibility
B-3: Number of Individuals Served - Attachment #1 (4 of 4)
Answers provided in Appendix B-3-d indicate that you do not need to complete this section.
Appendix B: Participant Access and Eligibility
B-4: Eligibility Groups Served in the Waiver
 1. State Classification. The State is a (select one): § 1634 State SSI Criteria State 209(b) State 2. Miller Trust State. Indicate whether the State is a Miller Trust State (select one): No Yes
b. Medicaid Eligibility Groups Served in the Waiver. Individuals who receive services under this waiver are eligible under the following eligibility groups contained in the State plan. The State applies all applicable federal financial participation limits under the plan. <i>Check all that apply</i> :
Eligibility Groups Served in the Waiver (excluding the special home and community-based waiver group under 42 CFR §435.217)
 Low income families with children as provided in §1931 of the Act ✓ SSI recipients Aged, blind or disabled in 209(b) states who are eligible under 42 CFR §435.121 ✓ Optional State supplement recipients ✓ Optional categorically needy aged and/or disabled individuals who have income at:
 100% of the Federal poverty level (FPL) % of FPL, which is lower than 100% of FPL. Specify percentage: Working individuals with disabilities who buy into Medicaid (BBA working disabled group as provided in §1902(a)(10)(A)(ii)(XIII)) of the Act) Working individuals with disabilities who buy into Medicaid (TWWIIA Basic Coverage Group as provided in §1902(a)(10)(A)(ii)(XV) of the Act) Working individuals with disabilities who buy into Medicaid (TWWIIA Medical Improvement Coverage Group as provided in §1902(a)(10)(A)(ii)(XVI) of the Act) Disabled individuals age 18 or younger who would require an institutional level of care (TEFRA 134 eligibility group as provided in §1902(e)(3) of the Act) Medically needy in 209(b) States (42 CFR §435.330) Medically needy in 1634 States and SSI Criteria States (42 CFR §435.320, §435.322 and §435.324) Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the State plan that may receive services under this waiver)
Specify:

Special home and community-based waiver group under 42 CFR §435.217) Note: When the special home and community-based waiver group under 42 CFR §435.217 is included, Appendix B-5 must be completed
No. The State does not furnish waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217. Appendix B-5 is not submitted.
Yes. The State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217.
Select one and complete Appendix B-5.
 All individuals in the special home and community-based waiver group under 42 CFR §435.217 Only the following groups of individuals in the special home and community-based waiver group under 42 CFR §435.217
Check each that applies:
✓ A special income level equal to:
Select one:
 300% of the SSI Federal Benefit Rate (FBR) A percentage of FBR, which is lower than 300% (42 CFR §435.236)
Specify percentage:
• A dollar amount which is lower than 300%.
Specify dollar amount:
Aged, blind and disabled individuals who meet requirements that are more restrictive than the SSI
program (42 CFR §435.121) Medically needy without spenddown in States which also provide Medicaid to recipients of SSI (42)
CFR §435.320, §435.322 and §435.324) Medically needy without spend down in 209(b) States (42 CFR §435.330)
✓ Aged and disabled individuals who have income at:
Select one:
● 100% of FPL
○ % of FPL, which is lower than 100%.
Specify percentage amount:
Other specified groups (include only statutory/regulatory reference to reflect the additional groups
in the State plan that may receive services under this waiver)
Specify:
^

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (1 of 7)

In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group.

a. Use of Spousal Impoverishment Rules. Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:

Note: For the five-year period beginning January 1, 2014, the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR §435.217 group effective at any point during this time period.

Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the State uses spousal post-eligibility rules under §1924 of the Act.

Complete Items B-5-e (if the selection for B-4-a-i is SSI State or §1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time periods before January 1, 2014 or after December 31, 2018.

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018 (select one).

Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group.

In the case of a participant with a community spouse, the State elects to (select one):

- Use spousal post-eligibility rules under §1924 of the Act. (Complete Item B-5-b (SSI State) and Item B-5-d)
- Use regular post-eligibility rules under 42 CFR §435.726 (SSI State) or under §435.735 (209b State) (Complete Item B-5-b (SSI State). Do not complete Item B-5-d)
- Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The State uses regular post-eligibility rules for individuals with a community spouse.

 (Complete Item B-5-b (SSI State). Do not complete Item B-5-d)

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (2 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

b. Regular Post-Eligibility Treatment of Income: SSI State.

The State uses the post-eligibility rules at 42 CFR 435.726 for individuals who do not have a spouse or have a spouse who is not a community spouse as specified in §1924 of the Act. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following allowances and expenses from the waiver participant's income:

i	Allowance	for the	needs of the	waiver	participant	(select	one)

The following standard included under the State plan

Select one:

\bigcirc	SSI standard

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

	Specify:
the	ne allowance for the personal needs of a waiver participant with a community spouse is different from amount used for the individual's maintenance allowance under 42 CFR §435.726 or 42 CFR §435.735, lain why this amount is reasonable to meet the individual's maintenance needs in the community.
Sele	ct one:
•	Allowance is the same
\bigcirc	Allowance is different.
	Explanation of difference:
	¥

- iii. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR §435.726:
 - a. Health insurance premiums, deductibles and co-insurance charges
 - b. Necessary medical or remedial care expenses recognized under State law but not covered under the State's Medicaid plan, subject to reasonable limits that the State may establish on the amounts of these expenses.

ii.

Select one:

- Not Applicable (see instructions) Note: If the State protects the maximum amount for the waiver participant, not applicable must be selected.
- The State does not establish reasonable limits.
- igcirc The State uses the same reasonable limits as are used for regular (non-spousal) post-eligibility.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (5 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

e. Regular Post-Eligibility Treatment of Income: SSI State - 2014 through 2018.

Answers provided in Appendix B-5-a indicate the selections in B-5-b also apply to B-5-e.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (6 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

f. Regular Post-Eligibility Treatment of Income: 209(B) State - 2014 through 2018.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

g. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules - 2014 through 2018.

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate the selections in B-5-d also apply to B-5-g.

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the State provides for an evaluation (and periodic reevaluations) of the need for the level (s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

- a. Reasonable Indication of Need for Services. In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the State's policies concerning the reasonable indication of the need for services:
 - i. Minimum number of services.

	to need waiver s ii. Frequency of so The provis	mber of waiver services (one or more) that an individual must require in order to be determined rvices is: rvices. f.	rocess for Level of Care Evaluation/Reevaluation: Per 42 CFR §441.303(c)(1), describe the process for evaluating raiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the valuation process, describe the differences:
g.	the same process is used for reevaluation as the initial evaluation except the DHS/DDS Level of Care Reviewer is esponsible for conducting routine reevaluations. The OHCA LOCEU conducts initial evaluations and reevaluations are question the qualifying diagnosis. Reevaluation Schedule. Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (select one):
	○ Every three months
	Every six months
	Every twelve months
	Other schedule
	Specify the other schedule:
h.	Qualifications of Individuals Who Perform Reevaluations. Specify the qualifications of individuals who perform
	eevaluations (select one):
	The qualifications of individuals who perform reevaluations are the same as individuals who perform initia evaluations.
	The qualifications are different. Specify the qualifications:
	OHCA Level of Care Evaluation Unit staff must be a Qualified Intellectual Disability Professional (QIDP) to perform initial evaluations of level of care for waiver applicants. To qualify as a QIDP a person must have a Baccalaureate Degree in a social science, behavioral science or human services field and have at least one year of experience working directly with persons with intellectual disability or other developmental disability.
i.	Annual reevaluations may be conducted by DHS/DDS Level of Care Reviewers. Requirements for a DHS/DDS Level of Care Reviewer consist of a Bachelor's Degree in a human services field and one year of experience working directly with individuals with developmental disabilities and four years of additional qualifying professional experience or possession of a valid permanent Oklahoma license, as approved by the Oklahoma Board of Nursing, to practice professional nursing and one year working directly with individuals with developmental disabilities. rocedures to Ensure Timely Reevaluations. Per 42 CFR §441.303(c)(4), specify the procedures that the State imploys to ensure timely reevaluations of level of care (specify):
	the DHS/DDS generates a monthly report listing the names of members whose reevaluation is due in 120 days. These exports are provided to appropriate DHS/DDS Level of Care Reviewers and Case Managers for follow-up action. Case

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain

how the outcome of the determination is reliable, valid, and fully comparable.

The DHS/DDS Case Manager maintains these records and a copy is maintained electronically in the DDS case management database.

Managers also use a tickler file system to assure timely reevaluations are conducted. Additionally, the training for and practice of DHS/DDS Case Managers is to prepare for reevaluation approximately 90 days prior to a member's annual

j. Maintenance of Evaluation/Reevaluation Records. Per 42 CFR §441.303(c)(3), the State assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of

Team meeting, as described in Appendix D-1:c.

care are maintained:

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Level of Care Assurance/Sub-assurances

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:

a. Sub-assurance: An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of applicants (denominator) who had a level of care indicating the need for ICF/IID level of care prior to the receipt of services (numerator).

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

Freedom of Choice. As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

- i. informed of any feasible alternatives under the waiver; and
- ii. given the choice of either institutional or home and community-based services.
- **a. Procedures.** Specify the State's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

When the DHS/DDS determines an individual may require ICF-IID level of care, the individual or legal representative is informed of any feasible alternatives under the waiver and is given the choice to receive those services in an institution or through a HCBS Waiver. Evidence of this choice is documented initially and annually thereafter using the "Documentation of Consumer Choice" form that is provided to and signed by the individual or legal representative. This form gives the individual the choice between institutional care and HCBS and outlines the freedom to choose from any available provider of waiver services. DHS/DDS Intake Staff inform potential members of the services available through the waiver and routinely provide this information through verbal communication and by providing informational pamphlets to potential waiver members and their legal representatives. The DHS/DDS Case Manager provides a detailed explanation of the process for the authorization of waiver services and the Team, as described in Appendix D-1:c, process and is responsible for ensuring completion of the "Documentation of Consumer Choice" form. Additionally, OHCA policy, OAC 317:30-3-14, assures that any individual eligible for SoonerCare may obtain services from any institution, agency, pharmacy, person or organization that is qualified to perform the services.

b. Maintenance of Forms. Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

The DDS Case Manager maintains these forms and a copy is maintained electronically in the DDS case management database.

Appendix B: Participant Access and Eligibility

B-8: Access to Services by Limited English Proficiency Persons

Access to Services by Limited English Proficient Persons. Specify the methods that the State uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

The State has entered into a statewide Agreement for interpreter services to include services for Limited English Proficiency (LEP) persons as well as individuals who are deaf.

DHS/DDS employs bilingual Case Managers and DHS forms and pamphlets are available in Spanish.

Appendix C: Participant Services

C-1: Summary of Services Covered (1 of 2)

a. Waiver Services Summary. List the services that are furnished under the waiver in the following table. If case management is not a service under the waiver, complete items C-1-b and C-1-c:

HCBS Taxonomy:

Category 1:	Sub-Category 1:
03 Supported Employment	03010 job development ✓
Category 2:	Sub-Category 2:
03 Supported Employment	03021 ongoing supported employment, individual ✓
Category 3:	Sub-Category 3:
03 Supported Employment	08022 ongoing supported employment, group ✓
Category 4:	Sub-Category 4:

Service Definition (Scope):

Supported employment is conducted in a variety of settings, particularly work sites, in which persons without disabilities are employed. Supported employment includes activities that are outcome based and needed to sustain paid employment at or above the minimum wage in an integrated setting in the general workforce, in a job that meets personal and career goals. When supported employment services are provided at a work site in which persons without disabilities are employed, services may include job analysis, adaptations, training and systematic instruction required by members, and will not include payment for the supervisory activities rendered as a normal part of the business setting. Supported employment consists of job development, assessment, benefits planning, supportive assistance and job coaching up to 100% of on-site intervention. Stabilization or ongoing support is available for those requiring less than 20% on site intervention. Supported employment in an individual placement promotes the member's capacity to secure and maintain integrated employment at a job of the member's choice paying at or more than minimum wage. Supported employment in an individual placement may be provided by a co-worker or other job site personnel. The job coach meets qualifications for providers of service.

Stabilization and extended services are ongoing supported employment services needed to support and maintain a member with severe disabilities in an integrated competitive employment site. The service includes regular contacts with the member to determine needs, as well as to offer encouragement and advice. These services are provided when the job coach intervention time required at the job site is 20% or less of the member's total work hours. This service is provided to members who need ongoing intermittent support to maintain employment. Typically this is provided at the work site. Stabilization must identify the supports needed in the member's Individual Plan (Plan) and specify in a measurable manner, the services to be provided to meet the need. Group placement supports in supported employment are two to eight members receiving continuous support in an integrated work site. Services promote participation in paid employment paying at or more than minimum wage or working to achieve minimum wage. Services promote integration into the workplace and interaction with people without disabilities.

The outcome of supported employment is sustained paid employment at or above minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities in an integrated setting in the general workforce, in a job that meets personal and career goals. Supported employment services furnished under the waiver are not available under a program funded by the Rehabilitation Act of 1973 or the IDEA (20 U.S.C 1401 et seq.). Documentation will be maintained in the file of each member receiving this service that the service is not otherwise available under a program funded through the Rehabilitation Act of 1973, or IDEA (20 U.S.C 1401 et seq.). FFP will not be claimed for incentive payments, subsidies or unrelated vocational training expenses such as the following:

- -Incentive payments made to an employer to encourage or subsidize the employer's participation in a supported employment program;
- -Payments that are passed through to users of supported employment programs; or
- -Payments for vocational training not directly related to a member's supported employment program. **Specify applicable (if any) limits on the amount, frequency, or duration of this service:**All Prevocational Service and Supported Employment Services combined may not exceed the In Home Supports Waiver capitated amount. The Case Manager assists the member to plan in the Team process to meet their need within the annual limit. If they are unable to do so, due to an unexpected change, the Case manager would assist the member to develop an alternative plan to meet their needs.

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Specialized Medical Supplies and Assistive Technology

HCBS Taxonomy:

Category 1:	Sub-Category 1:	
14 Equipment, Technology, and Modifications	₩032 supplies	~
Category 2:	Sub-Category 2:	
14 Equipment, Technology, and Modifications	14031 equipment and technology	~
Category 3:	Sub-Category 3:	
	w	
Category 4:	Sub-Category 4:	
	>	

Service Definition (Scope):

Specialized Medical Supplies include supplies specified in the plan of care which enable members to increase their abilities to perform activities of daily living. This service also includes the purchase of ancillary supplies not available under SoonerCare. Items reimbursed with HCBS waiver funds are in addition to any supplies furnished under SoonerCare and exclude those items which are not of direct medical or remedial benefit to the member. All items meet applicable standards of manufacture, design and installation.

Supplies include the following:

- nutritional supplements;
- supplies needed for health conditions;
- supplies for respirator/ventilator care;
- supplies for decubitus care;
- supplies for catheterization.

Specialized Medical Supplies are provided through the waiver to adults. Specialized Medical Supplies are available to children through the waiver above and beyond that which is covered by the SoonerCare, EPSDT. Specialized Medical Supplies available to children through the waiver include nutritional supplements in certain cases.

Assistive Technology includes devices, controls and appliances specified in the member's Individual Plan (Plan) which enable members to increase their abilities to perform activities of daily living or to perceive, control or communicate with the environment in which they live. This service also includes the purchase or limited rental of items necessary for life support and equipment necessary to the proper functioning of such items including durable and non-durable medical equipment not available under SoonerCare. Items reimbursed with HCBS waiver funds are in addition to any medical equipment and supplies furnished under SoonerCare and exclude those items that are not of direct medical or remedial benefit to the member. All items must meet applicable standards of manufacture, design and installation. All devices identified in the Oklahoma Elevator Safety Law must comply with OAC 380:70. Services include fees associated with installation, labor, inspection and operation.

Assistive Technology services include:

- assessment for the need of assistive technology/auxiliary aids;
- training the member/provider in the use and maintenance of equipment/auxiliary aids;
- repair of adaptive devices.

Equipment provided includes:

- Assistive devices for members who are deaf or hard of hearing. Examples include visual alarms, telecommunication devices (TDD's), telephone amplifying devices and other devices for protection of health and safety.
- Assistive devices for members who are blind or visually impaired. Examples include tape recorders, talking calculators, lamps, magnifiers, Braille writers, paper and talking computerized devices and other devices for protection of health and safety.
- Augmentative/alternative communication and learning aids such as language boards, electronic communication devices and competence based cause and effect systems.
- Mobility positioning devices such as wheelchairs, travel chairs, walkers, positioning systems, ramps, seating systems, lifts, bathing equipment, specialized beds and specialized chairs.
- Orthotic and prosthetic devices such as braces and prescribed modified shoes.
- Environmental controls such as devices to operate appliances, use telephones or open doors. **Specify applicable (if any) limits on the amount, frequency, or duration of this service:**Specialized Medical Supplies and Assistive Technology are provided through the waiver to adults. Specialized Medical Supplies and Assistive Technology are available to service members age 18-20 years through the waiver above and beyond that which is covered by the Medicaid State Plan or EPSDT. Specialized medical supplies available to service members age 18-20 years include nutritional supplements in certain cases.

For Waiver members in need of assistive technology who have not yet reached their 21st birthday, the provisions of EPSDT apply.

	endix C: Participant Services C-2: General Service Specifications (1 of 3) Criminal History and/or Background Investigations. Specify the State's policies concerning the conduct of crimina
	C-2: General Service Specifications (1 of 3) Criminal History and/or Background Investigations. Specify the State's policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (select one):
	C-2: General Service Specifications (1 of 3) Criminal History and/or Background Investigations. Specify the State's policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (select one): No. Criminal history and/or background investigations are not required.

All applicants for licensure or renewal of licensure as a health professional in Oklahoma must report arrests, criminal charges, and disciplinary acts on any health-related license or certificate. The applicable licensing Board, such as the Oklahoma Board of Nursing or the Oklahoma Medical Board, enforces licensing rules, monitors for accuracy of information submitted for licensure or renewal of licensure, and performs investigations and provides disciplinary actions to licensed health professionals per applicable Oklahoma practice acts.

Agencies contracted to provide professional health services to DDS waiver members are required to perform criminal background checks with the Oklahoma State Bureau of Investigation (OSBI) as part of the employment screening for licensed staff employed by that agency.

- **b. Abuse Registry Screening.** Specify whether the State requires the screening of individuals who provide waiver services through a State-maintained abuse registry (select one):
 - O No. The State does not conduct abuse registry screening.
 - Yes. The State maintains an abuse registry and requires the screening of individuals through this registry.

Specify: (a) the entity (entities) responsible for maintaining the abuse registry; (b) the types of positions for which abuse registry screenings must be conducted; and, (c) the process for ensuring that mandatory screenings have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

(a) The abuse registry is maintained by the DHS. (b) Any potential employee or volunteer who is not a licensed health professional, including supervisory, management or administrative positions, if the applicant is to provide, on a full time or part time basis, supportive assistance, health-related services or training to a person(s) with developmental disabilities or intellectual disability, must receive a community services registry check as required by statute and policy prior to an offer to employ. (Title 56 OS Sec. 1025.1 et seq.: OAC 340:100-3-39). Section 1025.1 et seq. or Title 56 of the Oklahoma Statutes requires Oklahoma Department of Human Services (DHS) to establish and maintain a registry listing the names of community services workers against whom a final investigative finding of maltreatment involving a member, has been made by OKDHS or an administrative law judge. Requirements contained in statute and in administrative regulations apply to all community services providers who contract with, or are licensed or funded by DHS or who contract with Oklahoma Health Care Authority (OHCA) to provide residential or employment services to members through DHS/DDS HCBS waivers. Community services workers include persons who have entered into Agreements with OHCA to provide specialized foster care, habilitation training specialist services, or homemaker services to persons with intellectual disabilities as well as persons employed by or under contract with a community services provider to provide HCBS waiver services. Licensed health professional are regulated by their respective licensing boards and are not subject to inclusion on the community services worker registry. (c) Provider agencies are required to conduct the pre-employment registry check. Quality Assurance Unit annually reviews a sample of the records of each provider to assure that the required documentation is on file for all applicable employees. OKDHS is the investigative authority for allegations of maltreatment involving vulnerable adults. In addition to sending investigation reports to the appropriate District Attorney, reports in which a confirmation of maltreatment (as defined in state statute) is made against a licensed health professional are sent to the licensed professional's respective licensure Board.

Appendix C: Participant Services

C-2: General Service Specifications (2 of 3)

- c. Services in Facilities Subject to §1616(e) of the Social Security Act. Select one:
 - No. Home and community-based services under this waiver are not provided in facilities subject to §1616(e) of the Act.
 - Yes. Home and community-based services are provided in facilities subject to §1616(e) of the Act. The standards that apply to each type of facility where waiver services are provided are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Appendix C: Participant Services

C-2: General Service Specifications (3 of 3)

d. Provision of Personal Care or Similar Services by Legally Responsible Individuals. A legally responsible individual is any person who has a duty under State law to care for another person and typically includes: (a) the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child or (b) a spouse of a

waiver participant. Except at the option of the State and under extraordinary circumstances specified by the State, payment may not be made to a legally responsible individual for the provision of personal care or similar services that the legally responsible individual would ordinarily perform or be responsible to perform on behalf of a waiver participant. *Select one*:

No. The State does not make payment to legally responsible individuals for furnishing personal care or similar services.
 Yes. The State makes payment to legally responsible individuals for furnishing personal care or similar services when they are qualified to provide the services.

Specify: (a) the legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) State policies that specify the circumstances when payment may be authorized for the provision of *extraordinary care* by a legally responsible individual and how the State ensures that the provision of services by a legally responsible individual is in the best interest of the participant; and, (c) the controls that are employed to ensure that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the State policies specified here.*

- e. Other State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians. Specify State policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above the policies addressed in Item C-2-d. *Select one*:
 - The State does not make payment to relatives/legal guardians for furnishing waiver services.
 - The State makes payment to relatives/legal guardians under specific circumstances and only when the relative/guardian is qualified to furnish services.

Specify the specific circumstances under which payment is made, the types of relatives/legal guardians to whom payment may be made, and the services for which payment may be made. Specify the controls that are employed to ensure that payments are made only for services rendered. Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.

Legally-responsible individuals, parents of minor children (biological or adoptive), guardian of a minor child or the spouse of a member are not allowed to provide waiver services to a person for whom they are legally responsible.

Relatives/legal guardians who are legally responsible for the member are prohibited from being paid as direct contract providers of waiver services except when they are the only available provider of covered services due to geographical remoteness or they are uniquely qualified to provide such services due to considerations such as language. Any non-legally responsible relative/legal guardian who serves as paid provider must be qualified to provide the service and meet licensure/certification requirements. The term non-legally responsible relative includes a mother and father of an adult, brother, sister or child including those of in-law and step relationship.

Provider agencies may hire non-legally responsible relatives/legal guardians to provide waiver services when the relative/legal guardian is qualified to provide the service. Provider agencies must provide supervision and oversight of employees and ensure that claims are submitted only for services rendered. Members participating in self direction provide supervision and oversight of employees and ensure that claims are submitted only for services rendered. The Financial Management Service subagent ensures that claims are submitted only for services authorized in the self directed plan of care.

Services relatives/legal guardians may provide include: Audiology, Dental, Respite, Homemaker, Habilitation Training Specialist, Nutrition, Occupational Therapy, Physical Therapy, Speech Therapy, Transportation, Prevocational, Supported Employment and Self Directed Habilitation Training Specialist services.

The OHCA is responsible for Surveillance and Utilization Review (SUR). The OHCA Provider Audits Unit conducts ongoing monitoring of services to ensure Medicaid guidelines are followed. Any indication that Medicaid guidelines are not being met leads to an investigation that may result in recoupment of payments made to the provider. On a regular basis, DHS/DDS compares a file of paid claims provided by OHCA to services

authorized on plans of care to determine if services are being used as authorized. Discrepancy reports are prepared for review and necessary action taken. DHS/DDS Quality Assurance Unit (QA) is involved in a continuous process for review and oversight of waiver participation and services. Quality Assurance Performance Reviews are conducted annually and written summaries are prepared informing the contracted provider agency of any deficiency. DHS/DDS Case Management provides additional oversight and review. Case Managers act as the lead person in monitoring the plan of care through quarterly contacts that result in appropriate follow-up action.

All claims are processed through the Medicaid Management Information System (MMIS) and are subject to post-payment validation. When problems with service validation are identified on a post-payment review, erroneous or invalidated claims are voided from the claims payment system and the previous payment recouped from the provider.

\bigcirc	Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardia qualified to provide services as specified in Appendix $C-1/C-3$.	n is
	Specify the controls that are employed to ensure that payments are made only for services rendered.

f. Open Enrollment of Providers. Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR §431.51:

Through OHCA's website, providers have ready access to information requirements and procedures to qualify, and the timeframes established for qualifying and enrolling in the program. OHCA provides for continuous, open enrollment of waiver service providers. To participate in SoonerCare, providers must have an agreement on file with the OHCA. The OHCA Provider Enrollment Unit is responsible for validating that any provider meets all of the requirements of participation. The rules applicable to these provisions are found at 317:30-2 and 317:10-1-19. Providers interested in becoming a SoonerCare provider may request a SoonerCare enrollment packet by downloading the required forms, contacting Provider Enrollment by phone, or sending a request in writing by mail to OHCA. OKDHS/DDS staff assists potential providers by providing applications, and technical assistance, reviewing information to assure the provider qualifications are met and submitting them to OHCA for processing. Once a provider agreement is approved, the agreement remains in effect until the expiration date indicated on the agreement. In the absence of a "Notice of Termination" by either party, the agreement is renewed every three years as cited in the renewal section of the contract. Whenever a change of ownership occurs, a new provider agreement must be signed. After reviewing the application, certification criteria, and verifying appropriate licensure, certification, etc., OHCA assigns a 10-digit provider number to the new provider. Providers receive written notification of their provider number and the agreement certification effective and expiration date. The provider also receives a PIN letter informing the provider of their PIN to access the OHCA secure website. Hewlett-Packard (HP), the MMIS support vendor, mails out a welcome packet and contacts the provider within ten working days to offer training. Renewal notices are sent to each provider 75 days prior to the expiration date of their contract. A reminder is sent 45 days prior for those that have not been updated. If the renewal is not returned to OHCA, no payments for dates of service after the agreement expiration date are made.

Appendix C: Participant Services

Quality Improvement: Qualified Providers

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Qualified Providers

The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.

i. Sub-Assurances:

a. Sub-Assurance: The State verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of new provider applications (denominator) for which the provider obtained appropriate licensure/certificate in accordance with state law and waiver provider qualifications prior to service provision (numerator).

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (3 of 8)

c. Supporting the Participant in Service Plan Development. Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the service plan development process and (b) the participant's authority to determine who is included in the process.

The Personal Support Team (Team) meets at least annually to develop the Individual Plan (Plan). The purpose of the meeting is to discuss the member's preferences, goals and desires for the next year and guide the direction and course of the Plan/plan of care. The member identifies whom he/she desires to participate in the development of the Plan. A discussion of the member's needs and options available to meet those needs is included. Options include the freedom to self direct some services. The Case Manager explains the opportunities, responsibilities, potential liabilities and risks of self direction and also explains that some services available through self direction are not available as traditional waiver services. The member and/or their representative is informed that if the Team determines a need for a particular service that is only available through the self directed option, the service will only be authorized for members who elect to self direct the service.

Using the person-centered planning approach, the Plan is developed by the Team, representation in which includes the member, his or her Case Manager and the member's legal guardian and/or the member's choice of an advocate if there is one. Others may be included depending on the member's needs and preferences. The Team is composed of individuals selected by the member who know and work with the member or whose participation is necessary to achieve the outcomes desired by the member. The member and his/her representative are informed of freedom of choice of provider and given assistance if needed in locating a qualified service provider. The planning process reflects the member's cultural considerations, is provided in plain language, in an accessible manner, and provides needed language services or aides. The member and their guardian participate in the development of the Plan and provide informed consent for implementation of the Plan in writing.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (4 of 8)

d. Service Plan Development Process. In four pages or less, describe the process that is used to develop the participant-centered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b) the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and

monitor the plan; and, (g) how and when the plan is updated, including when the participant's needs change. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

The Individual Plan (Plan) process assures that members have access to quality services and supports which foster: independence, learning, and growth; choices in everyday life; meaningful relationships with family, friends, and neighbors; presence and participation in their communities; dignity and respect; positive approaches aimed at skill enhancement; and health and safety.

DHS/DDS employs a service planning, implementation, and monitoring process that focuses on the needs, desires, and choices of the member. The Personal Support Team (Team), as described in Appendix D-1:c, is led by the DHS/DDS Case Manager and the member and/or his or her guardian, family member or advocate, develops the service plan. The Case Manager develops a plan of care consistent with the Plan.

At its core, the Team, as described in Appendix D-1:c, includes the member, his or her Case Manager, the legal guardian, and the member's advocate(s), if there is one, who may be a parent, a family member, a friend, or another who knows the member well. The member is assured the opportunity to select an individual to serve as an advocate.

Depending on the needs of the member and the issues to be addressed, the Team, as described in Appendix D-1:c, may include others. The selection of these additional Team, as described in Appendix D-1:c, members reflects the choices of the member. The Case Manager identifies service providers for selection by the member or legal guardian.

To respect the dignity and privacy of the member, the Team, as described in Appendix D-1:c, is no larger than is necessary to plan for and implement the services needed to achieve the member's desired outcomes. The Team, as described in Appendix D-1:c, is large enough to possess the expertise and capacity necessary to address the member's needs, but not so large as to intimidate the member or to stifle participation on the part of the member or his or her representatives.

Prior to the initial and each annual Team meeting, the Case Manager consults with the member and the member's advocate or legal guardian, if there is one, to review the individual situation, including the member's desired vision and progress in attaining the vision. The Case Manager also gathers information regarding services received in addition to those that may be provided by the waiver. This information is provided to the Team by the Case Manager. This information also becomes part of the Individual Plan, which is monitored by the Case Manager. At this time, the member and the member's advocate or legal guardian are informed of services available under the waiver and of other sources of services in the community and under the State Plan. In-Home Supports Waiver brochures are provided to members/guardians/representatives during the intake process and a written list of services is provided by the Case Manager upon request. Among the questions explored are whether the member is satisfied with the results of the Plan and whether outcomes need to be revised based on the progress achieved or on changing circumstances in the member's life. This review provides a clear agenda for the Team, as described in Appendix D-1:c, meeting and assures the member's input and participation. The Case Manager consults with the family to schedule a time and place convenient with the member and the family/representative/guardian. Planning for the meeting begins three months (90 days) in advance of the plan of care expiration.

The Case Manager and other Team, as described in Appendix D-1:c, members assure early intervention and prevention by the Team, as described in Appendix D-1:c, when changes occur. Events such as the loss of a loved one, change in roommates, staff, schedules, health changes, or the loss of a job prompt a re-assessment of needs, services, and supports.

An individual assessment process forms the basis for developing a Plan. Psychological, medical, social, and functional assessments are completed prior to the development of a Plan. The medical, social, and functional assessments are reviewed and updated at least annually. Consistent with a person-centered focus, the Case Manager assures completion of a review and update at least annually of necessary assessments to support the need for services, as well as assessment of the skills, supports, and needs of the member.

Assessments address the member's needs and choices for supports and services related to: personal relationships; home; employment, education, transportation; health and safety; leisure; social skills; and communication. The Team, as described in Appendix D-1:c, identifies potential areas in which the member's safety is at risk and develops plans to address these risks as part of the Plan.

Planning focuses on the needs and outcomes the member wishes to achieve. The Team, as described in Appendix

D-1:c, considers the preferences of the member first and family, friends, and advocates secondarily.

The Plan is a written document that describes the outcomes desired by the member and prescribes the services and supports necessary to achieve those outcomes. Each Plan includes:

- (1) basic demographic information, including emergency information and health and safety concerns;
- (2) assessment information;
- (3) description of services and supports prescribed by the Team, as described in Appendix D-1:c,;
- (4) outcomes to be achieved;
- (5) action steps or methods to achieve the outcomes, including:
 - (A) the means to assess progress;
 - (B) the names of persons or the agency positions responsible for implementing each part of the Plan; and
 - (C) target dates by which each segment of the Plan is to be completed or evaluated for possible revision;
- (6) methods to address health risks and needs;
- (7) community participation strategies and activities;
- (8) identification of all needed staff training, with required time lines for completion, in accordance with OAC 340:100-3-38; and
- (9) medication support plan, as explained in OAC 340:100-5-32.

Team, as described in Appendix D-1:c, members implement responsibilities identified in the Plan or in OKDHS/DDSD or OHCA policy. Implementation of the Plan may only be delegated to persons who are appropriately qualified and trained.

The Case Manager ensures the Team, as described in Appendix D-1:c, makes maximum use of services which are available to all citizens and assures the Team, as described in Appendix D-1:c, identifies all needed services and supports.

The Case Manager assures the services and supports developed by the Team, as described in Appendix D-1:c, support the member's own network of personal resources. The willing efforts of family members or friends to support areas of the member's life are not replaced with paid supports.

Each member served has a single, unified Plan. All services and supports, both waiver and non-waiver, are an integral part of the Plan. The DHS/DDS Case Manager is responsible for coordinating and monitoring services, both waiver and non-waiver. Health care needs are an integral part of the planning process. Programs involving professional and specialized services are jointly developed to assure integration of service outcomes. The Team, as described in Appendix D-1:c, ensures that services and supports: are integrated into the member's daily activities; take advantage of every opportunity for social inclusion; reflect positive approaches aimed at skill enhancement; and make use of the least intrusive and least restrictive options. Providers responsible for carrying out the Plan sign the Plan's signature sheet.

Each Team, as described in Appendix D-1:c, member responsible for services identified in the Plan sends a quarterly summary of progress on assigned outcomes to the member's Case Manager. At the request of the member, or the legal guardian, or if the performance of a Team, as described in Appendix D-1:c, member reveals a course of action which is not in the best interest of the member, which is destructive towards the collaborative process of the Team, as described in Appendix D-1:c, or which violates OKDHS policy or accepted standards of professional practice, the Case Manager notifies that Team, as described in Appendix D-1:c, member by letter that his or her services on the Team, as described in Appendix D-1:c, are no longer required.

The DHS/DDS Case Manager monitors all aspects of the Plan's implementation. The DHS/DDS case management electronic database, Client Contact Manager (CCM), reflects the Case Manager's review of the progress.

The Case Manager routinely asks the member and his or her family, guardian, or advocate about their satisfaction with services and supports, and initiates appropriate action to identify and resolve barriers to consumer satisfaction. The Plan is updated as required by ongoing assessment of progress and needs. It is also updated in anticipation of foreseeable life events.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (5 of 8)

e. Risk Assessment and Mitigation. Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.

The Personal Support Team (Team) identifies potential areas in which the member's safety is at risk including physical, emotional, medical, financial, or legal risks, or risk to community participation; how often, when and where the risk to safety may occur. The Plan also describes the positive approaches, supports services and actions needed or being used to reduce or eliminate the risk. Back-up plans are developed on an individual basis. The back-up plan identifies who is responsible for ensuring back-up services are available and who is responsible for responding to emergencies. The back-up plan must be reviewed and updated as changes occur or as needed. The back-up plan addresses services and supports needed to prevent or reduce risk. Case Managers are responsible for ongoing monitoring and oversight of the member's Individual Plan including back-up plans. Case Managers are required to make revisions and modifications, as appropriate, to the member's Individual Plan to ensure the health and safety of the member.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (6 of 8)

f. Informed Choice of Providers. Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the waiver services in the service plan.

At least annually, members are informed of and acknowledge their right to freedom of choice in providers. DHS/DDS Case Managers ensure members have information about qualified waiver providers. The Case Manager identifies available providers and provides available information regarding the provider's performance. They may assist the member in contacting and interviewing potential providers. They also assist members when they wish to change providers. The assistance provided is based on the needs and choices of the member.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (7 of 8)

g. Process for Making Service Plan Subject to the Approval of the Medicaid Agency. Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR §441.301(b)(1)(i):

During the eligibility process, an Intake worker develops an initial plan of care in conjunction with the member/family/guardian. This plan includes basic service needs identified by the member/family/guardian. Once eligibility is approved, a DHS/DDS Case Manager is assigned. All addendums to the initial plan of care are submitted by the assigned Case Manager who may determine, through the Team, as described in Appendix D-1:c, process, additional service needs and/or required changes to the plan of care. All initial plans of care (level of care evaluations) are submitted to the OHCA Level of Care Evaluation Unit for review and confirmation of a diagnosis of intellectual disability, that the diagnosis was made before the member's 18th birthday and that the proposed delivery of services is consistent with the member's level of care need. Once this process has been completed the initial eligibility determination is approved by OHCA. A diagnosis of borderline intellectual functioning would constitute a denial by OHCA. Any errors or service discrepancies are directed to the Case Manager for correction. All waiver plans of care are subject to review and approval by both DHS/DDS (the operating agency) and the Waiver Administration and Development department of the OHCA (the Medicaid agency). OHCA does not review and approve all plans of care (level of care reevaluations) prior to implementation; however, all are subject to the Medicaid Agency's approval. DHS/DDS does review a sampling of member charts which includes the plan of care. Review of a representative sample with 95% confidence interval is conducted on a quarterly basis. Reviewed plans of care are compared to policy guidelines, the functional assessment, and the narrative written detailing the member's living environment, physical and mental limitations and overall needs. All plans of care are subject to the approval of the Medicaid Agency and are made available by the operating agency upon request. OHCA randomly reviews plans of care through several authorities within the Medicaid Agency, such as Program Integrity and Accountability, Quality Assurance/Improvement and Claims/Coding and Integrity Units. In the event provider billing practices are suspect, all pertinent information is forwarded to the OHCA Program Integrity and Accountability department.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (8 of 8)

ı.	rvice Plan Review and Update. The service plan is subject to at least annual periodic review and update to assess propriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the revolutional service plan:	
	Every three months or more frequently when necessary	
	Every six months or more frequently when necessary	
	Every twelve months or more frequently when necessary	
	Other schedule	
	Specify the other schedule:	
i.	Service Plan Forms. Written copies or electronic facsimiles of service plans are maintained for a nimum period of 3 years as required by 45 CFR §92.42. Service plans are maintained by the following <i>(check each tapplies):</i> Medicaid agency	 ch

Appendix D: Participant-Centered Planning and Service Delivery

D-2: Service Plan Implementation and Monitoring

a. Service Plan Implementation and Monitoring. Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan and participant health and welfare; (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.

The DHS/DDS Case Manager, who is an employee of the State, monitors implementation of the member's service plan to determine the plan's effectiveness in meeting the needs of the member, to ensure the member's free choice of providers and to ensure the health and welfare of the member is protected. Case Managers assess services rendered to each member at least quarterly. A face-to-face contact occurs at least twice annually. The annual review process includes a discussion of the needs of the member and confirmation that all identified needs are addressed by waiver, non-waiver, or natural supports. The annual review process includes a discussion of the member's back-up plan, whether it was necessary to implement the back-up plan and if so whether the back-up plan was effective; any necessary changes are made to the back-up plan and included in the member's Individual Plan. Back-up plans address back-up housing plans and back-up staffing arrangements.

The operating agency performance monitoring process is a record review of the DHS/DDS Case Manager record, based on a statistically significant random sample of members receiving supports through the waiver. One quarter of the representative sample is monitored each quarter. This results in a complete representative sample being reviewed each year. The record reviews include a review of service plans to assure: all member needs are addressed and preferences considered, by waiver, non-waiver, or natural supports; they are developed according to policy and updated/revised as needed ensuring an interim meeting was held within 30 days of identification or notification of the need for change in authorization of waiver services; services are delivered in accordance with the service plan including the type, scope, amount and frequency specified in the service plan; and that members are afforded choice between waiver services and institutional care and between/among waiver services and providers. The record review process includes a discussion of the member's back-up plan, whether it was necessary to implement the back-up plan and if so whether the back-up plan was effective; any necessary charges are made to the back-up plan and included in the member's individual plan. Deficiencies are recorded and reported to OKDHS/DDSD Community Services Unit for correction.

The operating agency performance monitoring process is conducted by the DHS/DDS Quality Assurance Unit. CMS waiver assurances have been identified for monitoring and the record review process provides the evidence of compliance. DHS/DDS Quality Assurance staff reviews are based on CMS waiver assurances. The results of these reviews are recorded on monitoring reports, resulting in the creation of data. Review results are entered into a data base and reported to the respective OKDHS/DDSD Area office for remediation.

If at any time the Case Manager believes that the member is at risk of harm, the Case Manager takes immediate steps necessary to protect the member. Case Managers also receive periodic progress reports from persons who are designated responsible to implement the member's service plan. If the Case Manager determines that services are not effectively addressing the needs or preferences of the member, the Case Manager reconvenes the member's Personal Support Team (Team), as described in Appendix D-1:c, to make necessary changes. If it is determined the provider is not implementing the Plan as required or the provider does not meet contractual responsibilities or policies, the Case Manager consults with the relevant provider to secure a commitment for necessary service changes within an agreed upon timeframe. If necessary changes are not accomplished within the specified time frame, the DHS/DDS Case Management Supervisor intervenes to secure commitments from the provider for necessary change. If the service deficiency is still not resolved as a result of the intervention, a referral for an Administrative Inquiry by the DHS/DDS Quality Assurance Unit is initiated, which may result in provider sanction.

Each Individual Plan includes a back-up plan. The back-up plan identifies who will provide necessary supports if the provider does not as well as housing alternatives should a member's home be unavailable for some reason.

b.	Monitoring	Sat	feguard	ls	Sel	lect	one.
----	------------	-----	---------	----	-----	------	------

Entities and/or individuals that have responsibility to monitor service plan implementation and
participant health and welfare may not provide other direct waiver services to the participant.

(Dentitie	s and/or individ	uals that have	responsibility	y to monitor	service plan imp	olementation	and
	partici	oant health and	welfare may p	rovide other	direct waive	r services to the	participant.	

The State has established the following safeguards to ensure that monitoring is conducted in the best interests of the participant. *Specify:*

^

Appendix D: Participant-Centered Planning and Service Delivery

Quality Improvement: Service Plan

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Service Plan Assurance/Sub-assurances

The state demonstrates it has designed and implemented an effective system for reviewing the adequacy of service plans for waiver participants.

i. Sub-Assurances:

a. Sub-assurance: Service plans address all participants' assessed needs (including health and safety risk factors) and personal goals, either by the provision of waiver services or through other means.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of member's records reviewed (denominator) who had Individual Plans that included a back-up plan (numerator).

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

Reference to "Q" numbers or numbers 1000 - 6000 in the Data Source field represent the DHS/DDS performance tool identifier.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

Individual problems are identified by area surveys or provider performance monitoring. State Office staff monitor each individual citation to ensure corrections have been completed. Any survey questions that do not meet the 86% threshold established by CMS are considered to indicate the need for development of further training review processes. State Office staff meet with providers to remediate individual issues/citations. State Office staff meet with field staff to discuss the development of new methodologies to enhance accurate and timely performance. Follow-up on operating agency performance monitoring is completed by DHS/DDS staff quarterly to ensure 100% correction of identified problems. Program staff maintain documents to verify correction.

Follow-up on provider performance monitoring is completed by DHS/DDS Quality Assurance Unit staff to ensure 100% correction. Follow-up survey documents are completed to verify correction. Provider agencies are required to correct deficiencies within 60 days. Failure to do so results in review by the DHS/DDS Performance Review Committee which may impose additional sanctions such as vendor hold. If, after sanctions and follow-up, a provider remains non-compliant, DHS/DDS recommends Agreement termination

Appendix E: Participant Direction of Services

E-1: Overview (1 of 13)

a. Description of Participant Direction. In no more than two pages, provide an overview of the opportunities for participant direction in the waiver, including: (a) the nature of the opportunities afforded to participants; (b) how participants may take advantage of these opportunities; (c) the entities that support individuals who direct their services and the supports that they provide; and, (d) other relevant information about the waiver's approach to participant direction.

Once a plan of care is developed for a member, an DHS/DDS Case Manager will offer the options of self direction or traditional waiver services for the portion of the plan of care allocated for Habilitation Training Specialist (HTS) services. A member may have all self-directed services, no provider-managed services or a combination of self-directed and provider managed services. The opportunity to choose self-direction is offered during each annual Team, as described in Appendix D-1:c, meeting. The DHS/DDS Case Manager will provide information regarding options and the member's responsibilities and potential liabilities. Training related to SDS is conducted by DHS/DDS, to include a component related to potential liabilities. In addition, the member receives a manual describing SDS services, responsibilities as well as potential liabilities. Members who choose to participate in the Self Directed Services (SDS) option may self direct the portion allocated for HTS. This amount will be used to establish a budget which will then be developed to specify Self Directed Habilitation Training Specialist (SD-HTS) services and/or Self Directed Goods and Services (SD-GS).

Members who opt for SDS will develop an individualized budget for services which they will self direct. The individualized budget for self direction will be no higher than the cost of meeting needs with HTS, Homemaker, Respite Care, Specialized Medical Supplies and Assistive Technology if traditional services were used. DHS/DDS Case Managers will assist the member to explore options and develop a self directed budget. Each member (or their personal representative) will have both the employment and budget authority over the self directed services.

DHS/DDS will serve as the Financial Management Service (FMS) in a Government Fiscal Employer Agent (FEA) model. DHS/DDS will also operate as an Organized Health Care Delivery System (OHCDS) and use a subagent in accordance with Section 3504 of the IRS code and Revenue Procedure 80-4 and Notice 2003-70. Based on the member's Plan and budget, the subagent sets up an individual account, makes payments that follow the authorized budget, handles all payroll functions on behalf of the member who hires service providers and other support personnel, provides the member with a monthly report of expenditures and budget status, answers inquiries, solves related problems, and provides DHS/DDS Case Managers with documentation of expenditures. DHS/DDS has an Interagency Agreement with the State's Medicaid agency.

Appendix E: Participant Direction of Services

E-1: Overview (2 of 13)

b.	Participant Direction Opportunities.	Specify the participant	t direction opportunities	s that are available in the w	vaiver.
	Select one:				

- Participant: Employer Authority. As specified in *Appendix E-2, Item a*, the participant (or the participant's representative) has decision-making authority over workers who provide waiver services. The participant may function as the common law employer or the co-employer of workers. Supports and protections are available for participants who exercise this authority.

 Participant: Rudget Authority. As specified in *Appendix E-2, Item b*, the participant (or the participant's
- Participant: Budget Authority. As specified in *Appendix E-2, Item b*, the participant (or the participant's representative) has decision-making authority over a budget for waiver services. Supports and protections are available for participants who have authority over a budget.
- **Both Authorities.** The waiver provides for both participant direction opportunities as specified in *Appendix E-2*. Supports and protections are available for participants who exercise these authorities.
- c. Availability of Participant Direction by Type of Living Arrangement. Check each that applies:
 - ✓ Participant direction opportunities are available to participants who live in their own private residence or the home of a family member.

	Specify these living arrangements:
Appen	dix E: Participant Direction of Services
	E-1: Overview (3 of 13)
d. El	lection of Participant Direction. Election of participant direction is subject to the following policy (select one):
	Waiver is designed to support only individuals who want to direct their services.
	The waiver is designed to afford every participant (or the participant's representative) the opportunity
	to elect to direct waiver services. Alternate service delivery methods are available for participants who decide not to direct their services.

Appendix E: Participant Direction of Services

E-1: Overview (4 of 13)

e. Information Furnished to Participant. Specify: (a) the information about participant direction opportunities (e.g., the benefits of participant direction, participant responsibilities, and potential liabilities) that is provided to the participant (or the participant's representative) to inform decision-making concerning the election of participant direction; (b) the entity or entities responsible for furnishing this information; and, (c) how and when this information is provided on a timely basis.

Once a plan of care is developed for a member, an DHS/DDS Case Manager will offer the options of self direction or traditional waiver services for the portion of the plan of care allocated for Habilitation Training Specialist (HTS) services. This amount will be used to establish a budget which will then be developed to specify Self Directed Habilitation Training Specialist (SD-HTS) services and/or Self Directed Goods and Services (SD-GS). The DHS/DDS Case Manager will provide information regarding options and the member's responsibilities and potential liabilities. Members who choose to participate in the Self Directed Services (SDS) option may self direct the portion allocated for HTS.

Once a member elects to self direct his/her services and supports, the member or their representative must enroll and complete a 4-6 hour course in self-direction prior to implementation of self directed services. This training addresses:

- staff recruitment;
- hire staff common law employer;
- orient and instruct staff in duties consistent with approved service specifications;
- supervise staff including scheduling of staff and services;
- evaluate staff performance;
- discharge staff (common law employer);
- philosophy and history of self direction;

- OHCA policy governing self direction in Oklahoma;
- individual budgeting including determining staff wages and benefits subject to State limits and the amount paid for services within State limits;
- developing a self directed support plan;
- cultural diversity; and
- rights, risks and responsibilities.

Training also includes an overview of the roles and responsibilities of the OKDHS/DDSD Case Manager, FMS subagent and the member.

The FMS subagent will provide a packet of information and instructions on forms, timesheets, timeframes for completion of forms, payment calculation sheets for the SD-HTS, vendor payment forms, worker compensation information, reporting individual account information and budgeting tips to self-direction participants.

Members may contact the DHS/DDS Case Manager or FMS subagent at any time for problem resolution, technical assistance or guidance.

Appendix E: Participant Direction of Services

E-1: Overview (5 of 13)

- **f. Participant Direction by a Representative.** Specify the State's policy concerning the direction of waiver services by a representative (*select one*):
 - The State does not provide for the direction of waiver services by a representative.
 - The State provides for the direction of waiver services by representatives.

Specify the representatives who may direct waiver services: (check each that applies):

- **✓** Waiver services may be directed by a legal representative of the participant.
- Waiver services may be directed by a non-legal representative freely chosen by an adult participant. Specify the policies that apply regarding the direction of waiver services by participant-appointed representatives, including safeguards to ensure that the representative functions in the best interest of the participant:

A legal representative or non-legal representative of the member may direct self directed waiver services. Members may appoint a family member, another relative or a friend to direct waiver services on their behalf. If a member is married, his/her spouse may direct the spouse's services, but cannot be paid as a SD-HTS. A legal guardian of a member may self direct services on the member's behalf.

An appointed representative must:

- be 18 years of age or older;
- be approved by the member or legal guardian to act in the capacity of a representative;
- demonstrate knowledge and understanding of the member's needs and preferences;
- comply with self directed services responsibilities and policy;
- sign the Self Directed Services Agreement with the FMS subagent and member in which the appointed representative
- agrees to assist the member in participating in the program. The agreement includes conditions related to assistance with fiscal management, training requirements, critical incident reporting, etc.; and
- complete the required SDS training.

Safeguards:

- The member or the member's legal representative, DHS/DDS Case Manager and FMS subagent will monitor use of allotted budget to assure only approved services are provided and compensated.
- The FMS subagent will require receipts for all prior authorized purchases in which the members or their representative submit a vendor request form for reimbursement.
- Members choosing to self-direct are included in the random sample for monitoring conducted by DHS/DDS

Quality Assurance Unit. Additionally, case management monitoring, including progress report reviews, serve to ensure the best interest of the member.

Appendix E: Participant Direction of Services

E-1: Overview (6 of 13)

g. Participant-Directed Services. Specify the participant direction opportunity (or opportunities) available for each waiver service that is specified as participant-directed in Appendix C-1/C-3.

Waiver Service	Employer Authority	Budget Authority
Self Directed Goods and Services (SD-GS)	✓	✓
Habilitation Training Specialist Services	✓	✓

Appendix E: Participant Direction of Services

E-1: Overview (7 of 13)

- **h. Financial Management Services.** Except in certain circumstances, financial management services are mandatory and integral to participant direction. A governmental entity and/or another third-party entity must perform necessary financial transactions on behalf of the waiver participant. *Select one*:
 - Yes. Financial Management Services are furnished through a third party entity. (Complete item E-1-i).
 Specify whether governmental and/or private entities furnish these services. Check each that applies:
 Governmental entities
 Private entities
 No. Financial Management Services are not furnished. Standard Medicaid payment mechanisms are used.

Appendix E: Participant Direction of Services

E-1: Overview (8 of 13)

Do not complete Item E-1-i.

- i. Provision of Financial Management Services. Financial management services (FMS) may be furnished as a waiver service or as an administrative activity. *Select one*:
 - FMS are covered as the waiver service specified in Appendix C-1/C-3

The waiver service entitled:

• FMS are provided as an administrative activity.

i. Types of Entities: Specify the types of entities that furnish FMS and the method of procuring these services:

DHS/DDS serves as a Financial Management Service (FMS) in a Government Fiscal Employer Agent (FEA) model and also operates as an Organized Health Care Delivery System (OHCDS) using a subagent. A Request For Proposal (RFP) was initiated by the State for a subagent in order to procure an entity in compliance with general Oklahoma Department of Central Services contracting and purchasing rules and State purchasing law including but not limited to 74 O.S. 85 et. seq. and 74 O.S. 4243. The entity was required to have a minimum of five years experience working with self directed service budgets and payroll. The entity has entered into an Agreement with DHS/DDS to serve as a subagent and has also signed an Agreement with the State's Medicaid agency, Oklahoma Health Care Authority (OHCA), to perform billing transactions on behalf of DHS/DDS. DHS/DDS has an Interagency Agreement with OHCA.

ii. Payment for FMS. Specify how FMS entities are compensated for the administrative activities that they perform:

Payment was established during the contracting process. The subagent receives an administrative fee. Services are paid as a flat monthly charge per member.

iii. Scope of FMS. Specify the scope of the supports that FMS entities provide (check each that applies):

 ✓ Assist participant in verifying support worker citizenship status ✓ Collect and process timesheets of support workers ✓ Process payroll, withholding, filing and payment of applicable federal, state and local employment-related taxes and insurance ✓ Other
Specify:
Obtains criminal background check and completes required registry checks.
Supports furnished when the participant exercises budget authority:
 ✓ Maintain a separate account for each participant's participant-directed budget ✓ Track and report participant funds, disbursements and the balance of participant funds ✓ Process and pay invoices for goods and services approved in the service plan ✓ Provide participant with periodic reports of expenditures and the status of the participant-directed budget
Other services and supports
Other services and supports Specify:
Specify:

Executes and holds OHCDS Provider Agreements as authorized.

- iv. Oversight of FMS Entities. Specify the methods that are employed to: (a) monitor and assess the performance of FMS entities, including ensuring the integrity of the financial transactions that they perform; (b) the entity (or entities) responsible for this monitoring; and, (c) how frequently performance is assessed.
 - (a) DHS/DDS reviews reports, invoices or other valid indications of performance to assure all contract terms and conditions of contract with the subagent are met. The subagent is required to be bonded and/or have sufficient liability insurance to protect members and the State against loss of funds, fraud or mismanagement. The subagent is required to provide an annual audit as well as monthly reports. (b) DHS/DDS, Oklahoma Department of Central Services and OHCA. OHCA randomly reviews plans of care through several authorities within the Medicaid Agency, such as Program Integrity and Accountability, Quality Assurance/Improvement and Claims/Coding and Integrity Units. The DDS Program Manager for self directed services is responsible for actual monitoring of all programmatic aspects of the contract including Consumer Satisfaction Surveys. (c) Monthly and more frequently upon request.

Appendix E: Participant Direction of Services

E-1: Overview (9 of 13)

- **j. Information and Assistance in Support of Participant Direction.** In addition to financial management services, participant direction is facilitated when information and assistance are available to support participants in managing their services. These supports may be furnished by one or more entities, provided that there is no duplication. Specify the payment authority (or authorities) under which these supports are furnished and, where required, provide the additional information requested *(check each that applies)*:
 - ✓ Case Management Activity. Information and assistance in support of participant direction are furnished as an element of Medicaid case management services.

Specify in detail the information and assistance that are furnished through case management for each participant direction opportunity under the waiver:

The DHS/DDS Case Manager provides the following information and assistance to the member in support of self direction:

- develop the plan of care with the member;
- ensures that services are initiated within required time frames;
- facilitate the development of and review the status of the member's self directed services budget;
- conduct ongoing monitoring of the implementation of the plan of care and member health and welfare;
- arrange alternative emergency back-up services as necessary in the event that the emergency back-up plan provided for
- in the plan of care cannot be employed;
- specify additional staff qualifications in the Individual Plan (IP) based on member needs and preferences so long as
- such qualifications are consistent with approved qualifications;
- specify additional service provider qualifications consistent with approved qualifications;
- in the IP, specifies how services are provided, consistent with approved service specifications; and
- refers providers to the Financial Management Service (FMS) subagent for enrollment.

The DHS/DDS Case Manager also may assist in locating and securing services and other community resources that promote community integration, community membership and independence, as provided in the member's plan. The Case Manager will be provided training regarding self direction including their roles and responsibilities in facilitating the development and review of the self directed budget, arranging back-up services and the roles and activities related to self direction.

Waiver Service Coverage. Information and assistance in support of participant direction are provided through the following waiver service coverage(s) specified in Appendix C-1/C-3 (check each that applies):

Participant-Directed Waiver Service	ormation and Assistance Provided through this Waiver Service Coverage

Independent advocacy is available to	upports; (b) how the supports are procured and compense for each participant direction opportunity under the waive mance of the entities that furnish these supports; and, (e) nance: S r independent advocacy. participants who direct their services.

Appendix E: Participant Direction of Services

E-1: Overview (11 of 13)

I. Voluntary Termination of Participant Direction. Describe how the State accommodates a participant who voluntarily terminates participant direction in order to receive services through an alternate service delivery method, including how the State assures continuity of services and participant health and welfare during the transition from participant direction:

Members who decide to discontinue directing their services may return to traditional waiver services. Their DHS/DDS Case Manager assists them in returning to traditional waiver services including assistance with free choice of any willing and qualified provider. The DHS/DDS Case Manager will assist in developing a revised plan for traditional waiver services and the funding will follow them back to traditional waiver services. Since the option to self direct is covered under the same waiver, there will be no disruption of services. Members will continue to self direct until traditional waiver services are in place.

Appendix E: Participant Direction of Services

E-1: Overview (12 of 13)

m. Involuntary Termination of Participant Direction. Specify the circumstances when the State will involuntarily terminate the use of participant direction and require the participant to receive provider-managed services instead, including how continuity of services and participant health and welfare is assured during the transition.

Members may be terminated involuntarily from self direction and offered traditional waiver services under the following circumstances:

- immediate health and safety risks associated with self direction;
- intentional misuse of funds following intensive technical assistance and support from the DHS/DDS Case Manager, FMS and it's subagent;
- fraud; and
- when member or representative continues to violate SDS waiver policies and procedures even after training and technical assistance by DHS/DDS. Some examples would be: not providing receipts with vendor requests forms to the FMS subagent, failure to submit timesheets to the FMS subagent in a timely manner, failure to provide reports to the DHS/DDS Case Manager, failure to report critical incidents or refusal to follow outcome related activities.

When action is taken to terminate the member from self directed services involuntarily, the DHS/DDS Case Manager assists the member in accessing needed and appropriate services through traditional waiver services, ensuring that no lapse in necessary services occurs for which the member is eligible. The Fair Hearing process and notice apply when any action is taken to involuntarily terminate self directed services.

Appendix E: Participant Direction of Services

E-1: Overview (13 of 13)

n. Goals for Participant Direction. In the following table, provide the State's goals for each year that the waiver is in effect for the unduplicated number of waiver participants who are expected to elect each applicable participant direction opportunity. Annually, the State will report to CMS the number of participants who elect to direct their waiver services.

Table E-1-n			
Employer Authority Only		Budget Authority Only or Budget Authority in Combination with Employer Authority	
Waiver Year	Number of Participants	Number of Participants	
Year 1		80	
Year 2		95	
Year 3		110	
Year 4		125	
Year 5		130	

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant Direction (1 of 6)

- a. Participant Employer Authority Complete when the waiver offers the employer authority opportunity as indicated in Item E-1-b:
 - i. Participant Employer Status. Specify the participant's employer status under the waiver. Select one or both:

Participant/Co-Employer. The participant (or the participant's representative) functions as the co-
employer (managing employer) of workers who provide waiver services. An agency is the common law
employer of participant-selected/recruited staff and performs necessary payroll and human resources
functions. Supports are available to assist the participant in conducting employer-related functions.

	Specify the types of agencies (a.k.a., agencies with choice) that serve as co-employers of participant-selected staff:
	Participant/Common Law Employer. The participant (or the participant's representative) is the common
~	law employer of workers who provide waiver services. An IRS-approved Fiscal/Employer Agent functions as the participant's agent in performing payroll and other employer responsibilities that are required by federal and state law. Supports are available to assist the participant in conducting employer-related functions.
mak	ticipant Decision Making Authority. The participant (or the participant's representative) has decision ting authority over workers who provide waiver services. <i>Select one or more decision making authorities that ticipants exercise</i> :
	Recruit staff
	Refer staff to agency for hiring (co-employer)
	Select staff from worker registry
	Hire staff common law employer
✓	Verify staff qualifications
✓	Obtain criminal history and/or background investigation of staff
	Specify how the costs of such investigations are compensated:
✓	The cost is paid by the member out of the IHSW-A self directed budget. Specify additional staff qualifications based on participant needs and preferences so long as such
✓	qualifications are consistent with the qualifications specified in Appendix C-1/C-3. Determine staff duties consistent with the service specifications in Appendix C-1/C-3.
✓	Determine staff wages and benefits subject to State limits
✓	Schedule staff
✓	Orient and instruct staff in duties
✓	Supervise staff
✓	Evaluate staff performance
✓	Verify time worked by staff and approve time sheets
✓	Discharge staff (common law employer)
	Discharge staff from providing services (co-employer)
	Other
	Specify:
Appendix E:	Participant Direction of Services
E-2	: Opportunities for Participant-Direction (2 of 6)
b. Participan <i>E-1-b:</i>	t - Budget Authority Complete when the waiver offers the budget authority opportunity as indicated in Item
	ticipant Decision Making Authority. When the participant has budget authority, indicate the decision- ting authority that the participant may exercise over the budget. <i>Select one or more</i> :
	Reallocate funds among services included in the budget
	Determine the amount paid for services within the State's established limits
✓	Substitute service providers

<	Schedule the provision of services	
~	Specify additional service provider qualifications consistent with the qualifications specified in	
	Appendix C-1/C-3	
√	Specify how services are provided, consistent with the service specifications contained in Appen	dix
	C-1/C-3	
✓	Identify service providers and refer for provider enrollment	
	Authorize payment for waiver goods and services	
✓	Review and approve provider invoices for services rendered	
	Other	
	Specify:

		\vee

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (3 of 6)

b. Participant - Budget Authority

ii. Participant-Directed Budget Describe in detail the method(s) that are used to establish the amount of the participant-directed budget for waiver goods and services over which the participant has authority, including how the method makes use of reliable cost estimating information and is applied consistently to each participant. Information about these method(s) must be made publicly available.

The amount of the individual budget is based on the amount authorized in the plan of care for the services the member has elected to direct and cannot exceed the cost limit described in section B-2:a of this application. Each member has a unique individual budget based on the needs of the member as determined by the member and Personal Support Team, as described in Appendix D-1:c. Policy related to self-directed services, to include budget methodology, can be found on the DHS/DDS website. The web site address is listed in the Helpful Web Sites section of the self-directed services manual provided to members. The DHS/DDS Case Manager assists the member in updating the budget during the plan of care year as necessary. The member's individualized budget accounts for the actual cost of administrative activities performed by the FMS subagent such as obtaining criminal history and/or background investigations of staff, completion of required registry checks, processing payroll, etc. Individualized budget methodology is described in OHCA policy and available for public viewing via the web at any time.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (4 of 6)

b. Participant - Budget Authority

iii. Informing Participant of Budget Amount. Describe how the State informs each participant of the amount of the participant-directed budget and the procedures by which the participant may request an adjustment in the budget amount.

The DHS/DDS Case Manager will inform member of the budget amount, in accordance with approved rules, during the annual plan of care meeting. During Team, as described in Appendix D-1:c, meetings DHS/DDS Case Managers inform members and member representatives of their right to request a Team, as described in Appendix D-1:c, meeting which may include a request for an adjustment to the budget/service plan at any time. Members are advised by the DHS/DDS Case Manager of their right to request a Fair Hearing and informed of the procedure for doing so during the planning process.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (5 of 6)

b. Participant - Budget Authority

- iv. Participant Exercise of Budget Flexibility. Select one:
 - Modifications to the participant directed budget must be preceded by a change in the service plan.
 - The participant has the authority to modify the services included in the participant directed budget without prior approval.

Specify how changes in the participant-directed budget are documented, including updating the service plan. When prior review of changes is required in certain circumstances, describe the circumstances and specify the entity that reviews the proposed change:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (6 of 6)

b. Participant - Budget Authority

v. Expenditure Safeguards. Describe the safeguards that have been established for the timely prevention of the premature depletion of the participant-directed budget or to address potential service delivery problems that may be associated with budget underutilization and the entity (or entities) responsible for implementing these safeguards:

The FMS subagent and DHS/DDS Case Manager work with the member to ensure the budget is utilized according to the authorized budget and SDS Support Plan. When problems are identified, the FMS subagent and DHS/DDS Case Manager work together with the member to find solutions and make changes as needed. The FMS subagent sets up an individual account, based on the member's approved budget, makes expenditures that follow the authorized budget, provides the member with a monthly report of expenditures and budget status, and provides the DHS/DDS Case Manager with access to the member's individual account information. The DHS/DDS Case Manager utilizes the information provided to monitor expenditures. The FMS subagent also provides DDS State Office staff with a monthly report of expenditures. In addition, members are issued a login identification number and password which may be used to view account information via the FMS subagent web site. These methods are used to prevent premature depletion of the individual budget as well as budget underutilization.

Appendix F: Participant Rights

Appendix F-1: Opportunity to Request a Fair Hearing

The State provides an opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E to individuals: (a) who are not given the choice of home and community-based services as an alternative to the institutional care specified in Item 1-F of the request; (b) are denied the service(s) of their choice or the provider(s) of their choice; or, (c) whose services are denied, suspended, reduced or terminated. The State provides notice of action as required in 42 CFR §431.210.

Procedures for Offering Opportunity to Request a Fair Hearing. Describe how the individual (or his/her legal representative) is informed of the opportunity to request a fair hearing under 42 CFR Part 431, Subpart E. Specify the notice(s) that are used to offer individuals the opportunity to request a Fair Hearing. State laws, regulations, policies and notices referenced in the description are available to CMS upon request through the operating or Medicaid agency.

The Documentation of Consumer Choice form explains the right to a Fair Hearing and provides information regarding the process for requesting a Fair Hearing. DHS/DDS Case Managers also provide an explanation of the form and process as well

assisting in the process. The form also includes a section requiring the choice between HCBS waiver services and institutional care and acknowledges the freedom of choice of qualified providers. This form is reviewed annually and a copy is maintained electronically in the DDS case management database. The member and/or his/her representative are informed of all changes in service provision (denial, reduction, suspension or termination of services) through a written notice. These notices are

generated

automatically by the DHS/DDS authorization system or in the case of denial or termination, by the DHS system. This notice includes information regarding the method of requesting a Fair Hearing. In addition, any adverse action relating to SoonerCare eligibility generates a notice from the DHS Information Management System, which includes information related to request of a

Fair Hearing. The DHS/DDS Case Manager assists the member or their representative in requesting and preparing for a Fair Hearing as requested. The notice specifies that services may continue during the pendency of the appeal if requested. The Hearing process and other information regarding this process is explained in OAC 340:2-5 and based on Section 168 of Title 56

of Oklahoma Statutes and applicable federal regulations.

Appendix F: Participant-Rights

Appendix F-2: Additional Dispute Resolution Process

- **a. Availability of Additional Dispute Resolution Process.** Indicate whether the State operates another dispute resolution process that offers participants the opportunity to appeal decisions that adversely affect their services while preserving their right to a Fair Hearing. *Select one:*
 - No. This Appendix does not apply
 - Yes. The State operates an additional dispute resolution process
- b. Description of Additional Dispute Resolution Process. Describe the additional dispute resolution process, including:
 (a) the State agency that operates the process; (b) the nature of the process (i.e., procedures and timeframes), including the types of disputes addressed through the process; and, (c) how the right to a Medicaid Fair Hearing is preserved when a participant elects to make use of the process: State laws, regulations, and policies referenced in the description are available to CMS upon request through the operating or Medicaid agency.

^
V

Appendix F: Participant-Rights

Appendix F-3: State Grievance/Complaint System

- a. Operation of Grievance/Complaint System. Select one:
 - O No. This Appendix does not apply
 - Yes. The State operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver
- **b. Operational Responsibility.** Specify the State agency that is responsible for the operation of the grievance/complaint system:

The OKDHS Office of Client Advocacy (OCA) is responsible for the operation of the grievance system.

c. Description of System. Describe the grievance/complaint system, including: (a) the types of grievances/complaints that participants may register; (b) the process and timelines for addressing grievances/complaints; and, (c) the mechanisms that are used to resolve grievances/complaints. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The DHS grievance system is a multi-tiered system that affords members the opportunity to have their concerns heard and addressed beginning at the local level and continuing, through an appeals process, to the Director of the DHS.

The DHS Office of Client Advocacy's (OCA) administrative rules set forth the procedures to be followed as well as the timelines for each stage of the process (OAC 340:2-3-45). Notice of the member's right to file a grievance is provided upon initiation of services and annually thereafter. Timelines for response range from five working days for first level resolution to 15 days for the DHS Director's review of an appealed grievance. Each DHS/DDS Area office designates a staff person to serve as the Local Grievance Coordinator (LGC). The LGC assists members at every stage of the process and monitors each grievance filed to ensure timely and adequate response.

Grievances may be filed by any person receiving services from DHS/DDS or by anyone interested in the welfare of a member. The subject matter of the grievance may be about any policy, rule, decision, behavior, action or condition made or permitted by the DHS, its employees or other persons authorized to provide care including contract provider agencies and their employees.

DHS/DDS contract provider agencies are required by policy to establish a grievance process that must be approved by OCA. The process must include, at a minimum, notice of the member's right to file a grievance and to a reasonable response, timelines for response, right to appeal and the designation of an LGC who is responsible for implementation of the agency's grievance process. Timelines for response to grievances range from five working days for first level resolution to ten working days for the agency's Board of Directors (or appeals committee designated by the Board).

OCA ensures the quality of grievance systems by establishing minimum standards and through an ongoing monitoring program. The Advocate General and OCA staff have immediate and unlimited access to members, staff and provider agency files, records and documents relating to grievance procedures and practices.

The OCA grievance system in no way undermines the member's right to request a Fair Hearing. DHS policy provides that DDS waiver members are granted Hearings if the application for services is denied; when resources are sufficient for initiation of Home and Community-Based Services (HCBS) waiver services and action is not taken within 45 days; or the member, family, or guardian is aggrieved because of OKDHS actions to suspend, terminate or reduce services. All other complaints or grievances are made to OCA and are addressed in accordance with OCA policies and procedures (OAC 340:2-5-61). DHS/DDS Case Managers assure that members understand that filing a grievance or making a complaint is not a pre-requisite or substitute for a Fair Hearing. DHS/DDS Case Managers provide the information annually to members, their advocates and guardians regarding both processes. They are also available to assist in requesting a Fair Hearing or filing a grievance.

DHS/DDS Quality Assurance staff evaluate all service-related complaints received. The type of complaint is not limited. DHS/DDS Quality Assurance staff establishe a reasonable timeframe, not to exceed 60 days for correction, and informs individuals responsible for making or overseeing the necessary corrections of actions needed to facilitate change or correction. These actions may include problem solving or other more extensive oversight or change. The DHS/DDS Quality Assurance Administrator may authorize an Administrative Inquiry (AI) in response to a complaint regarding support services made by members or any interested person (OAC 340-100-3-27.1). This does not affect a member's right to a Fair Hearing; rather, it provides an opportunity to determine if the member's rights are being protected.

Appendix G: Participant Safeguards

Appendix G-1: Response to Critical Events or Incidents

a.	Critical Event or Incident Reporting and Management Process. Indicate whether the State operates Critical Event or
	Incident Reporting and Management Process that enables the State to collect information on sentinel events occurring in
	the waiver program. Select one:

•	Yes. The State operates a Critical Event or Incident Reporting and Management Process (complete Items b through e)
0	No. This Appendix does not apply <i>(do not complete Items b through e)</i> If the State does not operate a Critical Event or Incident Reporting and Management Process, describe the process that the State uses to elicit information on the health and welfare of individuals served through the program.

b. State Critical Event or Incident Reporting Requirements. Specify the types of critical events or incidents (including alleged abuse, neglect and exploitation) that the State requires to be reported for review and follow-up action by an appropriate authority, the individuals and/or entities that are required to report such events and incidents and the timelines for reporting. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

CRITICAL INCIDENT REPORTING REQUIREMENTS: DHS policy directs providers who have entered into Agreements and DHS/DDS staff to report injuries and behavioral or health-related incidents involving any person

receiving DHS/DDS services or waiver funded services. Immediate notification of DHS/DDS is required when the following occurs: suspected abuse, neglect or exploitation of a member; threatened or attempted suicide by a member; death of a member; an unplanned hospital admission of a member; a medication event resulting in emergency medical treatment for a member; law enforcement involvement in a situation concerning a member; property loss of more than \$500 involving a member; a member who is missing; an unusual or significant incident involving a member that may attract media attention; and a highly restrictive procedure used on a member. The provider or DHS/DDS staff who witnessed or has knowledge of the incident completes an Incident Report within one business day of the event. The service provider agency program coordination staff submit the incident report electronically to DHS/DDS.

In addition to the general reporting requirements above, allegations of possible abuse, neglect, or exploitation, by state statute, have additional reporting requirements. These requirements follow.

ALLEGATIONS OF ABUSE OR NEGLECT OF MINORS: Oklahoma Statutes require every person having reason to believe a child under the age of eighteen (18) years is a victim of abuse or neglect, to report the matter promptly to the Oklahoma Department of Human Services (DHS). Reports may be made by telephone, in writing, personally or by any other method described by the Department. No privilege or Agreement relieves any person from the requirement of reporting. The role of Child Protective Services (CPS) within the DHS is to evaluate reports of abuse or neglect, to assess risk of harm and the need for protective services, and to provide and coordinate services. For minors who are members of the Community Waiver, CPS investigates those allegations wherein the accused caretaker is a foster parent and instances where the member's parent or legal guardian is the alleged perpetrator. While the reporting requirement remains the same, state statute gives the DHS Office of Client Advocacy (OCA) the responsibility to investigate allegations of caretaker abuse and neglect of minors who are DHS/DDS members and who reside in out-of-home placements above the level of foster care. Investigations resulting in a confirmed finding of abuse or neglect are also forwarded to the DHS Legal for determination as to whether the accused caretaker is subject to placement on the DHS/DDS Community Services Worker Registry (Abuse registry). When an accused caretaker is placed on the Registry, he or she is precluded from employment by DHS/DDS providers who have entered into an Agreement. All investigative reports completed by the OCA are forwarded to DHS/DDS for review and follow-up. The reports frequently identify areas of concern that may affect the health and safety of the member. DHS/DDS case management staff reviews the report and follows-up with the provider agency with respect to the Areas of Concern and any disciplinary action taken against the accused caretaker. Results of the case management review and follow-up are forwarded to DHS/DDS State Office and to OCA. Each confirmed finding and the disciplinary action taken are

monthly to the Director of DHS and to the members of the Oklahoma Commission for Human Services.

ALLEGATIONS OF ABUSE, NEGLECT AND EXPLOITATION OF VULNERABLE ADULTS: Oklahoma Statutes require any person having reasonable cause to believe that a vulnerable adult is suffering from abuse, neglect, or exploitation to make a report to either the DHS, the Office of the District Attorney in the county in which the suspected abuse, neglect, or exploitation occurred or the local Municipal Police Department or Sheriffs Department as soon as the person is aware of the situation. If the initial report is made to the local Municipal Police Department or Sheriffs office, such Police Department or Sheriffs office notifies, as soon as possible, the DHS of its investigation. After investigation of a report, as appropriate, APS forwards its finding to the Office of the District Attorney in the county in which the suspected abuse, neglect or exploitation occurred. Confirmed findings are also forwarded by APS to the DHS OCA for determination as to whether the accused caretaker is subject to placement on the DHS/DDSD Community Services Worker Registry (Abuse registry). OCA provides State Office DHS/DDS with a copy of the investigative report that frequently contains Areas of Concern that may affect the health and safety of the member. DHS/DDS Case Management staff are responsible for reviewing the report and conducting follow-up with the provider agency with respect to the Areas of Concern and any disciplinary action taken against the accused caretaker. Results of the case management review are forwarded to DHS/DDS State Office and to OCA. Each confirmed finding and the disciplinary action taken are also reported monthly to the Director of DHS. Non-confirmed findings are forwarded to the DHS/DDS Quality Assurance Unit for follow-up and corrective action where appropriate. DHS/DDS State Office maintains a database that records relevant information pertaining to each investigation, including but not limited to the findings, the disciplinary action taken, and the response to follow-up conducted by Case Management.

NON-CRITICAL INCIDENT REPORTING REQUIREMENTS: The procedures for reporting incidents considered as non-critical are identical to those described for critical incidents except that immediate notification is not required. Incidents Reports must be provided to DHS/DDS case management within three business days of the incident. Incident Reports are required under the following circumstances: an injury to a member; an unplanned health related

event involving a member; physical aggression by a member; fire setting by a member; deliberate harm to an

animal by a member; property loss of less than \$500 involving a member; a vehicle accident involving a member; the suspension, termination or removal of a member's program including employment, and a medication event involving a member. DHS/DDS Case Management staff are responsible for reviewing each Incident Report and taking further action when necessary. With respect to medication events, the DHS/DDS Case Manager may notify the DHS/DDS Registered Nurse if the Case Manager believes the medication error caused harm or if the Case Manager needs technical

assistance on appropriate follow-up activities.

c. Participant Training and Education. Describe how training and/or information is provided to participants (and/or families or legal representatives, as appropriate) concerning protections from abuse, neglect, and exploitation, including how participants (and/or families or legal representatives, as appropriate) can notify appropriate authorities or entities when the participant may have experienced abuse, neglect or exploitation.

The DHS/DDS Case Manager provides information and education along with written materials to the member and his/her legal guardian or advocate, when appropriate, regarding member rights, responsibilities, the grievance process and procedures, pertinent phone number(s) and how to report maltreatment during the meeting held to develop the Individual Plan. Thereafter, information and materials are available upon request by the member, family and/or legal guardian and routinely provided during annual reevaluation. Case Managers are responsible for ongoing monitoring of the health and welfare of members and providing necessary education and intervention related to the reporting of maltreatment of members. In the event of a change in Case Manager or Case Management Supervisor, new names and phone numbers are provided.

d. Responsibility for Review of and Response to Critical Events or Incidents. Specify the entity (or entities) that receives reports of critical events or incidents specified in item G-1-a, the methods that are employed to evaluate such reports, and the processes and time-frames for responding to critical events or incidents, including conducting investigations.

Reports are submitted to DHS. Within DHS, four divisions are responsible for receipt, evaluation and response to critical incidents. The divisions responsible are Child Protective Services (CPS)(maltreatment of children), Office of Client Advocacy (OCA)(maltreatment of children in out of home living arrangements other than foster care as well as maltreatment of vulnerable adults by caregivers who have entered into Agreements with DHS), Adult Protective Services (APS)(maltreatment of vulnerable adults and self neglect) and Developmental Disabilities Services (DDS) (incidents identified in Appendix G-1-a that do not constitute maltreatment).

DHS maintains a statewide toll free hotline for receipt of reports of maltreatment of children and adults. The hotline operates 24 hours a day, seven days a week and is staffed by Children and Family Services (CFS) personnel who are trained in APS and OCA procedures.

Reports of maltreatment of vulnerable adults are evaluated by the APS supervisor to determine if emergency response is

required. If there is a potential, immediate threat, the report is screened as requiring immediate action and communicated to the assigned APS Specialist. APS policy describes the screening criteria for reports, including criteria for immediate action.

The APS supervisor considers the types of maltreatment (abuse, neglect, self-neglect, exploitation, financial neglect, sexual abuse, sexual exploitation, or verbal abuse). If the referral fits at least one of the types, it is accepted for investigation. If not, the report is screened as information and referral and the referring party, if known, is contacted to discuss alternatives.

Investigations are initiated within three working days, not to exceed 72 hours, from the time of receipt of the referral, excluding weekends and official holidays. If an emergency, investigation is initiated within 4 hours of receipt. The APS Specialist completes the investigative report within 30 calendar days for self neglect referrals and 60 calendar days for referrals involving an alleged perpetrator. The DHS County Director is responsible for monitoring timely completion of APS investigations.

Each investigation includes at least one visit and private interview with the victim and may include as many as necessary

to reach a conclusion and determine what, if any, protective services are needed. Others who have or can reasonably be expected to have pertinent knowledge about the victims circumstances are interviewed, including any alleged perpetrator. The APS Specialist contacts the DDSD Case Manager to coordinate activities to enhance the alleged victims safety.

Upon completion of the investigation, a letter is sent to the legal guardian, the identified caretaker and next of kin of the

victim informing them of the findings. Findings are also sent to the applicable District Attorney, any state agency with concurrent jurisdiction, the applicable district court when the victim has a legal guardian, the administrator of the agency

serving the victim, the OCA if the alleged perpetrator is a community services worker and subject to inclusion on the Community Services Worker Registry; and the DDS.

DHS/CPS is responsible for investigating allegations of maltreatment of children when the alleged perpetrator is a parent, legal guardian, or foster parent. Reports are made to Child Welfare (CW) in the local county office or to the toll free

statewide hotline. Hotline staff immediately inform the county CW staff when the allegation indicates the need for an emergency response or the allegations meet the criteria of a Priority I report. If a report meeting Priority I criteria or requiring emergency response is received after regular business hours, hotline staff immediately notify the identified on call

worker. CW staff are available to respond to emergency child abuse or neglect reports 24 hours a day, seven days a week.

All reports are screened to determine whether allegations meet statutory and policy definitions of child abuse and neglect. The CW Supervisor considers the potential risk factors described by the reporting party as well as the age and vulnerability of the child. Screening criteria assist the CW Supervisor in determining whether the referral requires a formal investigation.

Investigations and assessments are prioritized using guidelines established in policy. The guidelines are used to determine the response time required to ensure safety of the child. DHS prioritizes reports based on the severity and immediacy of the alleged harm to the child. A Priority I report indicates imminent danger of serious physical injury and is responded to immediately, the same day of receipt of the report. A Priority II report indicates no imminent danger of severe injury, but without intervention and safety measures it is likely the child will not be safe. Priority II assessments or investigations are initiated within 2-15 calendar days from the date the report is accepted for assessment or investigation. By statute, an assessment is conducted when a report of abuse or neglect does not constitute a serious and immediate threat to the child's health or safety, while an investigation is conducted on a report that constitutes a serious and immediate threat to the child's health and safety.

The investigation protocol detailed in policy is followed for all investigations. Face to face interviews are conducted with the child, siblings, person responsible for the child including the custodial and non-custodial parent, collateral contacts and, if appropriate, professional consultants. Policy provides guidance to investigators in interviewing and establishes general protocols for the conduct of investigations.

All investigative interviews with the child and person responsible for the child in Priority I and II referrals are completed

within 30 calendar days of receipt of the referral. The CW worker notifies the person responsible for the child of any findings pertaining to the person responsible for the child. The investigation report, including recommendations, is submitted to the local district attorney in the county where the abuse or neglect occurred. All reports to the district attorney are written and submitted as soon as possible after completing the investigation. Time frames range from immediately, or as soon as possible the next working day to 30 calendar days depending on the risk to the child and the need for court intervention.

The Office of Client Advocacy is responsible for investigating allegations of abuse or neglect of children in out of home

living arrangements other than foster care. OCA Intake determines whether the situation presents a serious risk to the child requiring immediate action. If an emergency response is indicated, OCA arranges for an Investigator, a law enforcement officer, or an OCA advocate to personally visit with the child immediately and no later than within 24 hours. Emergency situations are those in which a child is likely to suffer death or serious physical harm without intervention.

OCA policy specifies procedures for the conduct of investigations. The investigator conducts an interview with the child within 5 working days after the case has been assigned. A separate private interview is conducted with each alleged victim, witness, persons directly or indirectly involved in the allegation, persons with knowledge of relevant information, and each caretaker accused of the maltreatment.

If the investigator becomes aware of a significant health or safety concern requiring immediate attention, he/she promptly informs appropriate DDS or CW staff. Other persons or entities are notified as warranted. The investigator remains with the child until safety can be ensured.

All cases are assigned within one working day of receipt of a referral. Within 30 calendar days of disposition, the investigative process is completed and appropriate administrators notified. Within 60 calendar days from the assignment

of an investigation, the OCA written investigative report is completed. OCA supervisors monitor timely completion of investigation reports and oversee completion of reports pending over 30 days.

When the finding does not confirm an allegation or the finding is confirmed but the accused caretaker is not a community services worker, OCA sends a copy of the report to the provider agency administrator, the DDSD Director, and the applicable district attorney. When the finding confirms an allegation against a caretaker who is a community services worker, OCA submits a copy of the report to the applicable District Attorney and processes the report per the due process requirements for inclusion of the caretaker's name on the Community Services Worker Registry. When due process procedures relating to the registry have been completed, OCA sends a copy of the report to the provider agency administrator and the DDSD Director. The provider agency administrator is responsible for notifying the participant or the participants legal representative of the OCA finding. The investigative findings are approved within 30 to 60 calendar days of disposition of a referral to be investigated. Investigations resulting in confirmation against a caretaker who is a Community Services Worker are not considered final until the due process procedures relating to the Community Services Worker Registry have been completed. The timeframes for notification of the participant or participants legal representative in these cases vary.

During executive session of the monthly Commission meeting, the DHS Director and members of DHS Commission review information regarding confirmed findings and the corresponding disciplinary actions taken.

Critical incidents that do not constitute maltreatment are reviewed and evaluated by DDSD. All deaths, regardless of circumstance, are reported immediately to the DDS Administrator or designee. Mortality reviews are conducted when a member receiving community residential services or group home services dies. Summary reports are completed by an assigned reviewer within 30 days of an individual's death. Within ten days of completion of the summary report, the Mortality Review Committee meets, reviews the information gathered and prepares a final report that provides summaries of the reviewer's report and includes the Committee's findings, recommendations for system and procedural changes and concerns regarding contract compliance. The DDS Program Manager tracks recommendations for system or procedural changes until final disposition.

Critical incidents involving the use of restrictive or intrusive procedures are reported immediately to DDS case management. Within three business days of the incident, an electronic report is sent to case management and the DDS Positive Support Field staff. The individual's Team meets within five days of receipt of the incident report to review the report and ensure that the use of physical management or emergency intervention was reasonable and the least restrictive

alternative available.

Critical incidents involving the use of restrictive or intrusive procedures involving medication errors are reported immediately to DDS case management. If the Case Manager believes the medication error caused harm or if the Case Manager needs technical assistance on appropriate follow-up activities, the DDSD Registered Nurse is notified.

All critical incidents are reviewed monthly by the DDS State Office Critical Incident Committee. The Committee is charged with analyzing the reports to identify systems issues, trends, and patterns and makes findings and recommendations to support continuous quality improvement and prevent recurrence. Use of a web-based system for reporting critical incidents is currently being phased in.

e. Responsibility for Oversight of Critical Incidents and Events. Identify the State agency (or agencies) responsible for overseeing the reporting of and response to critical incidents or events that affect waiver participants, how this oversight is conducted, and how frequently.

The Oklahoma Department of Human Services (DHS) is the entity to which reports are submitted. Within DHS, four divisions are responsible for receipt, evaluation and response to critical incidents. The divisions responsible are Child Protective Services (CPS)(maltreatment of children), Office of Client Advocacy (OCA)(maltreatment of children in out of home living arrangements other than foster care as well as maltreatment of vulnerable adults by caregivers who have

entered into Agreements with DHS), Adult Protective Services (APS)(maltreatment of vulnerable adults and self neglect)and Developmental Disabilities Services (DDS)(incidents identified in Appendix G-1-a that do not constitute maltreatment).

APS, CPS, and OCA report their findings related to abuse, neglect, and exploitation of any Community Waiver member

to DDS. Provider agencies are required by policy to report critical incidents, immediately, to the DDS, using the approved format. Further, to promote good communication, coordination of services and to ensure the health and welfare of members, DHS routinely conducts case staffings to address significant member issues such as abuse, neglect or exploitation. Multiple DHS divisions are commonly represented at case staffings and, assigned APS or CPS workers for member's in the custody of the DHS, are members of the Personal Support Team.

Oversight activities are continuous and ongoing. Issues related to abuse, neglect, and exploitation or member health and

safety are first addressed individually for immediate resolution.

Critical incident information from all sources is entered into a database. On a monthly basis, the database information is

compiled into various reports and provided to the DDS Critical Incidents Committee for analysis, to identify trends, and

make recommendations. In the event the Critical Incidents Committee notices a trend or pattern of multiple incidents, the member would be monitored closely and individual intervention initiated if necessary. Individual intervention is used to prevent recurrence of critical incidents or events. When patterns are identified, policy and training changes occur. A web-based system for reporting and managing critical incidents is used.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (1 of 3)

- **a.** Use of Restraints. (Select one): (For waiver actions submitted before March 2014, responses in Appendix G-2-a will display information for both restraints and seclusion. For most waiver actions submitted after March 2014, responses regarding seclusion appear in Appendix G-2-c.)
 - The State does not permit or prohibits the use of restraints

Specify the State agency (or agencies) responsible for detecting the unauthorized use of restraints and how this oversight is conducted and its frequency:

- The use of restraints is permitted during the course of the delivery of waiver services. Complete Items G-2-a-i and G-2-a-ii.
 - i. Safeguards Concerning the Use of Restraints. Specify the safeguards that the State has established concerning the use of each type of restraint (i.e., personal restraints, drugs used as restraints, mechanical restraints). State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Individual Planning policies include a foundation for planning individual, person-centered services and supports which emphasize positive approaches aimed at skill enhancement and make use of the least intrusive and least restrictive options. The planning process includes individual assessment that identifies the member's needs and choices for supports and services related to personal relationships, home, employment, education, transportation, health, safety, leisure, social skills, and communication. There is also a focus on early intervention and prevention by the Team when changes occur and assessing and addressing areas in which the member's safety is at risk including physical, emotional, medical, financial, or

legal risks or risks to community participation. When behavioral risks are identified, the member's Individual Plan (Plan) must include protective intervention planning which describes the preventive supports, services, and actions to be taken to reduce or eliminate risks. This includes, as needed,

identifying

requirements or changes in the member's environment, program and service requirements, instruction and procedures to be used by staff or Team members during a situation that places the safety of the member or others at risk, education components, staff training requirements, and methods and timelines to evaluate the

effectiveness of the Plan.

If the member's Team determines that personal restraint, drugs used as restraints or mechanical restraints are essential for safety because of challenging behaviors that create risk of physical injury or harm to the member or others, risk of involvement in civil or criminal processes, or places at serious risk the member's physical safety, environment, relationships, or community participation, a Protective Intervention Protocol (PIP) must be developed and overseen by the member's Team and an appropriately licensed professional or

family trainer. The PIP must include sufficient justification for the use of the restraint and include instructions to staff on positive, pro-active steps to prevent incidents from occurring, how to calm the member during dangerous or disruptive episodes, how and when to take appropriate action to protect the member, staff, and others when the member's behavior is dangerous, who to call for assistance when necessary and ways to prevent the misuse of the restraint procedures. The PIP must also include fading criteria for the reduction and/or elimination of the restraint.

Use of restraint procedures is regulated by OAC 340:100-5-26, OAC 340:100-5-26.1, and OAC 340:100-5-

51 through 340:100-5-58. Seclusion and facedown physical restraint are prohibited. Mechanical restraints are prohibited except when absolutely necessary to promote healing or prevent injury during or following a medical procedure. Medical mechanical restraints are prescribed by a Physician and time-limited to no more than 12 hours unless the Physician specifies a longer period of use.

Physical Management (personal restraint), per OAC 340:100-5-57, is used only to prevent physical injury. Any PIP that includes a personal restraint component requires the Team to identify whether the member has any health concerns related to the use of physical management; ask the member's physician or The Developmental Disabilities Services Director of Pharmacy Services to assess whether the current medication regimen would pose any risk for the member under the stress of the physical management procedure and include in the planning sessions a trainer of physical management procedures. The trainer makes recommendations about the effectiveness and safety of the physical management procedure in particular environments; assists the Team in identifying alternative approaches when standard procedures do

not appear appropriate for the member or the situation; and identifies existing physical obstacles to the implementation of a procedure for particular staff. The Team includes the trainer's recommendations, identifying any situation in which physical management procedures cannot be used as such use would be unsafe or ineffective.

Personal restraint is used only to prevent physical injury and ensure physical safety. Any use of restraint not

included in a PIP is considered an emergency intervention. Emergency intervention is used for no longer than is necessary to eliminate the clear and present danger of serious physical harm to the member or others. Personal restraint must be terminated as soon as the person is calm or the threat has ended and release must be attempted every two minutes. When responding to an emergency, the amount of force can never exceed that which is reasonable and necessary under the circumstances to protect the person or others. An incident report must be completed and submitted to the DHS/DDS Case Manager for Team review within one business day.

After the first use of an emergency restraint procedure, if the Team determines that the use of a restraint procedure must be continued to ensure the safety of the member or others, the DDS Director of Psychological and Behavioral Supports or designee may provide temporary immediate approval of continued use of restrictive or intrusive procedures. Temporary approval of use of emergency interventions lasts no longer than 60 days. The request must provide sufficient information to demonstrate that positive supports were attempted, and the danger of severe harm still exists. At a minimum, required information includes all incident reports from the last three months with details on the harm caused and other indications

of severity as well as a description of existing positive supports and services. To continue using the

temporarily approved procedure, the Team must submit a plan that incorporates the requested procedures. If

the submitted plan does not receive committee approval, the committee may extend the expedited approval if the committee determines that conditions warrant extension for a maximum of 45 additional days.

The Case Manager reviews the incident reports and ensures the Team meets within five days of the use of any emergency restraint intervention.

Completion of an approved behavior support course is required for direct support staff serving persons with

PIP's that include physical restraint to restrict movement. Staff must also complete an approved physical management course before using any technique of physical management contained in a PIP. Only staff and their supervisors who provide support to the member are trained on the use of a physical management procedure. Staff who have been formally trained to use physical management procedures do not use those techniques with other members, except in emergencies as defined in OAC 340:100-5-57. Staff must complete an annual retraining on the specific physical management procedures in the PIP.

The Team must submit each behavioral protective intervention protocol containing restraints to the Statewide Human Rights and Behavior Review Committee per OAC 340:100-3-14. The committee is established to review each behavioral PIP with restrictive or intrusive procedures. Members are appointed by the Director of DDS. The committee includes at least three professional members with expertise in areas

relating to the duties of the committee including: positive behavior supports and educational methodologies; issues involving human rights; and related medical or psychiatric issues. Other members include at least two individuals who receive DDS services or are a family member, Guardian, or Advocate of a member.

The committee ensures that each PIP complies with requirements found in OAC 340:100-5-57 and that the PIP focuses on: prevention; education; skill development; staff training and conduct; and other positive approaches. Whenever restraint procedures are requested, the committee ensures: that due process is afforded; the restrictive or intrusive procedure is the least restrictive alternative; and that educational procedures are in place to assist the member in restoring the restricted right(s).

The committee is the final approval authority for PIP's that include a restrictive or intrusive procedure (s). The committee sends a copy of the PIP review summary to the DHS/DDS Case Manager. The review summary specifies whether the PIP is:

- approved;
- conditionally approved, with required information or changes to be provided within a time period specified by the committee; or
- not approved, with required information or changes to be provided within a time period specified by the committee. The DHS/DDS Case Manager convenes the Team within ten days of receipt of the committee minutes and summary for review and necessary modifications to the PIP.

PIP's must be modified to accommodate the recommendations of the committee and approved prior to implementing the proposed restrictive or intrusive procedure(s). Approval is for no longer than one year and must be renewed annually as long as the restrictive or intrusive procedure is in place.

ii. State Oversight Responsibility. Specify the State agency (or agencies) responsible for overseeing the use of restraints and ensuring that State safeguards concerning their use are followed and how such oversight is conducted and its frequency:

DHS/DDS oversight activities relating to restraints are ongoing.

Whenever a restraint procedure is used, an incident report is prepared by the service provider agency staff who initiated the procedure in accordance with OAC 340:100-5-57.1. The incident report includes, at a minimum, a description of: the circumstances leading to the use of the intrusive procedure(s) or emergency intervention(s) including all procedures attempted prior to using the intrusive procedure or emergency intervention; the intrusive procedure or emergency intervention procedure(s) used; and the outcome of the

incident including any physical harm or damage caused.

The service provider agency program coordination staff reviews the incident report and completes a written

evaluation which indicates whether: the intrusive procedure(s) was implemented according to the PIP or the

emergency intervention(s); the intervention complied with the requirements of subsection (f) of OAC 340:100-5-57; the use of intrusive procedure(s) or emergency intervention was reasonable and necessary; and includes recommendations and a description of actions taken. The service provider agency program coordination staff submit the incident report electronically to DDS.

The Case Manager ensures the Team meets within five days of receipt of the incident report documenting use of physical management or emergency intervention. The Team reviews the incident to insure that the use was reasonable and was the least restrictive alternative available. The Team takes necessary action to address any identified issues, describes any systems concerns, addresses any further recommendations, and/or planned interventions.

The Positive Support Field Specialists review all critical incident reports involving the use of highly restrictive procedures on a monthly basis. Upon review of monthly incident reports, the Positive Support Field Specialist takes further action, as needed, to ensure that requirements governing the use of restrictive/intrusive procedures are followed.

- The Positive Support Field Specialist may be assigned to provide assistance to the Team.
- If problems are noted, an DHS/DDS Quality Assurance Unit Administrative Inquiry in accordance with OAC 340:100-3-27.1 may be requested.
- If it appears that use of restrictive or intrusive procedures or emergency intervention has occurred in violation of policy requirements, approval for use of physical management or emergency intervention may be suspended pending review by the SBRC in accordance with OAC 340:100-3-14.
- If it appears that abuse or neglect has occurred, the authorities charged by law with the investigation of alleged abuse are notified.

The Critical Incident Committee reviews all critical incidents including but not limited to those involving the use of restraint procedures. The Committee meets on a monthly basis and reviews individual incident reports as well as other reports generated from the critical incident database. The Committee is charged with analyzing the reports to identify systems issues, trends and patterns and makes findings and recommendations to support continuous quality improvement and prevent recurrence. Reports of the Committee's findings and recommendations are included in the summary reports provided regularly to OHCA.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (2 of 3)

b. I	Use of	Restrictive	Interventions.	(Se	lect	one)):
------	--------	-------------	----------------	-----	------	------	----

\circ	The State does not permit or prohibits the use of restrictive interventions	
	Specify the State agency (or agencies) responsible for detecting the unauthorized use of restrictive intervention and how this oversight is conducted and its frequency:	IS

• The use of restrictive interventions is permitted during the course of the delivery of waiver services Complete Items G-2-b-i and G-2-b-ii.

i. Safeguards Concerning the Use of Restrictive Interventions. Specify the safeguards that the State has in effect concerning the use of interventions that restrict participant movement, participant access to other individuals, locations or activities, restrict participant rights or employ aversive methods (not including restraints or seclusion) to modify behavior. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency.

Restrictive procedures are defined in DHS policy as those which result in the limitation of the member's rights including their communication with others, access to leisure activities, money or personal property, goods or services, movement at home or the community or any direct observational procedures specified as

a result of challenging behavior during times or places which would otherwise be considered private. Use of restrictive procedures is regulated by OAC 340:100-5-50 through 340:100-5-58. Aversive conditioning procedures, withholding meals, breaks, sleep or the ability to maintain personal hygiene, involuntary forfeiture of money or personal property, corporal punishment and the use of exclusionary time-out or timeout

rooms are all prohibited. Restrictive intervention must be reported via an incident report and critical incident reporting procedure followed. DHS/DDS Case Managers as well as the Critical Incident Committee review cases to detect unauthorized use of restraint. DHS/DDS Case Managers and Quality Assurance monitoring is also in place to detect any unreported use of restraints.

The member's Team is required by policy to complete a risk assessment which identifies potential areas in which the member's safety is at risk, including physical, emotional, medical, financial, or legal risks, or risk

to community participation. This assessment identifies the frequency and degree of potential harm to the member or others; and why, when, where, and how the risk to safety may occur. The Team identifies places, conditions, early signs or other indicators of potential safety risks. The Team also identifies the member's skills or lack thereof, which impact the safety risks. Such skills include communication skills, coping skills, social skills, leisure skills and vocational skills. The risk assessment takes into account the member's past experience, any medical, psychiatric or pharmacological issues, recent changes in the member's life and identification of previous supports which have been effective or ineffective in preventing

or reducing the risks.

When risk or the potential for risk is present, the elements of the risk assessment must be addressed as part of a Protective Intervention Plan (PIP). Policy requires that a PIP focus on positive, preventative supports and actions to reduce or eliminate safety risks. These positive supports include, but are not limited to: making changes in the member's environment; providing trained, consistent staffing and oversight of staff; ensuring adequate communication and coordination between Team members as well as adequate and appropriate communication with the member; providing the member with appropriate and meaningful daily

activities and eliminating or managing medical, psychiatric or physical conditions which may be impacting risk. These positive supports are required to be developed based on the member's unique needs and used prior to any use of restrictive interventions.

When there is the possibility of imminent risk or dangerous behavior, expedited approval of the use of restrictive procedures for 60 days can be requested using form 06MP042E, while the Team develops a PIP. This form requires the Team to identify all less restrictive, positive approaches already attempted and to identify positive approaches which are to be attempted or explored prior to using a restrictive procedure during the 60 day approval period. These positive approaches, just like those in the previous paragraph, include addressing medical issues, restructuring the environment, skill development, improving communication, retraining staff, relationship building, etc.

Individual planning policies include a foundation for planning individual, person-centered services and supports which foster positive approaches aimed at skill enhancement and make use of the least intrusive and least restrictive options. The planning process includes individual assessment that identifies the member's needs and choices for supports and services related to personal relationships, home, employment,

education, transportation, health, safety, leisure, social skills, and communication. There is also a focus on early intervention and prevention by the Team when changes occur and assessing and addressing areas in which the member's safety is at risk including physical, emotional, medical, financial, or legal risks or risks

to community participation.

The Plan must include protective intervention planning which describes the preventive supports, services, and actions to be taken to reduce or eliminate risks. This includes, as needed, identifying requirements or changes in the member's environment, program and service requirements, instruction and procedures to be taken by staff or Team members during a situation that places the safety of the member or others at risk, education components, staff training requirements, and methods and timelines to evaluate the effectiveness of the plan. The PIP must treat the member with dignity and be reasonable, humane, practical, not controlling and the least restrictive alternative. If the Team determines that restrictive procedures are essential for safety, the protective intervention planning must include sufficient justification for their use. The PIP must also explain documentation requirements for the use of restrictive procedures. An incident report is required each time a restrictive procedure is used. All incident reports are submitted to the

DHS/DDS Case Manager and critical incident reports, which include those involving restrictive procedures,

are also sent to DHS/DDS. Each PIP includes documentation requirements with instructions regarding how data will be captured on all elements of the Plan, including restrictive procedures. The Plan must be approved by the Statewide Human Rights and Behavior Review Committee. Policies relating to the composition, functions and record-keeping of this Committee is found at 340:100-3-14.

DHS/DDS Case Managers, who facilitate Team meetings, complete required training courses and inservice

including training on rights issues, use of restrictive procedures and the process for approval of restrictive procedures. Direct support staff responsible for day-to-day implementation of restrictive procedures, and their supervisors, complete training which includes Foundation Training and individual-specific in-service on the PIP. Residential staff also complete a Residential Ethical and Legal training course. Provider staff applying restraints are the same as those who would apply restrictive procedures. All staff complete the same basic training courses and are required to be trained on the individual-specific components of the PIP.

which would include restraint/restrictive procedures. Provider staff who would apply personal restraints also complete an approved physical management course.

The committee is established to review each PIP with restrictive procedures. The Director of DHS/DDS appoints committee members. The committee includes at least three professional members with expertise in

areas relating to the duties of the Committee including: positive behavior supports and educational methodologies; issues involving human rights; and related medical or psychiatric issues. Other members include at least two individuals who receive DHS/DDS services or are a family member, Guardian, or Advocate of a member.

The committee ensures that each PIP complies with requirements found in OAC 340:100-5-57 and that the PIP focuses on: prevention; education; skill development; staff training and conduct; and other positive approaches. Whenever restraint procedures are requested, the committee ensures: that due process is afforded; the restrictive or intrusive procedure is the least restrictive alternative; and that educational procedures are in place to assist the member in restoring the restricted right(s).

The committee is the final approval authority for PIP's that include a restrictive or intrusive procedure (s). The committee sends a copy of the PIP review summary to the DHS/DDS Case Manager. The review summary specifies whether the PIP is:

- approved;
- conditionally approved, with required information or changes to be provided within a time period specified by the committee;
- conditionally approved with required educational supports or staff training as specified; or
- not approved, with required information or changes to be provided within a time period specified by the committee. The Case Manager convenes the Team within ten days of receipt of the committee minutes and summary for review and necessary modifications to the PIP.

PIP's must be modified to accommodate the recommendations of the committee and approved prior to implementing the proposed restrictive or intrusive procedure(s). Committee approval is for no longer than one year and must be renewed annually as long as the restrictive or intrusive procedure is in place.

Case Managers monitor the provision of services, including restrictive procedures, through observation, record review and provider incident and progress reports.

The Positive Support Field Specialists review all critical incident reports involving the use of highly restrictive procedures on a monthly basis. DHS/DDS policy defines highly restrictive procedures as use of a

p.r.n. medication for behavioral control; and the use of a physical hold. Upon review of the monthly incident reports, Positive Support Field Specialist takes further action, as needed, to ensure that requirements governing the use of restrictive/intrusive procedures are followed.

- Positive Support Field Specialist may be assigned to provide assistance to the Team.
- If problems are noted, an DHS/DDS Quality Assurance Unit Administrative Inquiry in accordance with OAC 340:100-3-27.1 may be requested.
- If it appears that abuse or neglect has occurred, the authorities charged by law with the investigation of alleged abuse are notified.

Data base information, as described in Appendix G-2-b.ii. is analyzed to identify trends and/or patterns related to increased use of restrictive/intrusive procedures by members, agency providing services, location of intervention(s), duration of restrictive/intrusive procedure(s) used including total time of physical restraint usage, and staff initiating the restrictive/intrusive procedure(s). Identified trends and/or patterns of usage will be addressed via specified improvement strategies, which may include additional training, monitoring, or oversight.

ii. State Oversight Responsibility. Specify the State agency (or agencies) responsible for monitoring and overseeing the use of restrictive interventions and how this oversight is conducted and its frequency:

DHS/DDS is responsible for the oversight and monitoring of the use of restrictive interventions and for ensuring that safeguards are followed and in accordance with OAC 340:100-5-57.1.

A Critical Incident Committee reviews critical incidents and other quality management reports including but

not limited to those involving the use of restrictive or intrusive procedures. The Committee meets monthly and reviews reports generated from a database containing data collected from individual incident reports. The Committee is charged with analyzing the reports to identify systems issues, trends, and patterns and makes findings and recommendations to support continuous quality improvement and prevent recurrence. Reports of the Committee's findings and recommendations are summarized in regular reports to OHCA.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (3 of 3)

- **c.** Use of Seclusion. (Select one): (This section will be blank for waivers submitted before Appendix G-2-c was added to WMS in March 2014, and responses for seclusion will display in Appendix G-2-a combined with information on restraints.)
 - The State does not permit or prohibits the use of seclusion

Specify the State agency (or agencies) responsible for detecting the unauthorized use of seclusion and how this oversight is conducted and its frequency:

The operating agency is responsible for detecting the unauthorized use of seclusion. Case Managers are responsible for ongoing monitoring of the health and welfare of the member. This is accomplished through review of quality progress reports and at least quarterly face-to-face contact with the member. Case Managers also review incident reports on an ongoing basis to detect unauthorized use of seclusion. The use of seclusion is permitted during the course of the delivery of waiver services. Complete Items G-2-c-i and G-2-c-ii. i. Safeguards Concerning the Use of Seclusion. Specify the safeguards that the State has established concerning the use of each type of seclusion. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable). ii. State Oversight Responsibility. Specify the State agency (or agencies) responsible for overseeing the use of seclusion and ensuring that State safeguards concerning their use are followed and how such oversight is conducted and its frequency: **Appendix G: Participant Safeguards** Appendix G-3: Medication Management and Administration (1 of 2) This Appendix must be completed when waiver services are furnished to participants who are served in licensed or unlicensed living arrangements where a provider has round-the-clock responsibility for the health and welfare of residents. The Appendix does not need to be completed when waiver participants are served exclusively in their own personal residences or in the home of a family member. a. Applicability. Select one: No. This Appendix is not applicable (do not complete the remaining items) • Yes. This Appendix applies (complete the remaining items) b. Medication Management and Follow-Up i. Responsibility. Specify the entity (or entities) that have ongoing responsibility for monitoring participant medication regimens, the methods for conducting monitoring, and the frequency of monitoring. ii. Methods of State Oversight and Follow-Up. Describe: (a) the method(s) that the State uses to ensure that participant medications are managed appropriately, including: (a) the identification of potentially harmful practices (e.g., the concurrent use of contraindicated medications); (b) the method(s) for following up on potentially harmful practices; and, (c) the State agency (or agencies) that is responsible for follow-up and oversight.

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (2 of 2)

c. Medication Administration by Waiver Providers

Answers provided in G-3-a indicate you do not need to complete this section

i.	Provider Administration of Medications. Select one:
	O Not applicable. (do not complete the remaining items)
	Waiver providers are responsible for the administration of medications to waiver participants who cannot self-administer and/or have responsibility to oversee participant self-administration of medications. (complete the remaining items)
ii.	State Policy. Summarize the State policies that apply to the administration of medications by waiver providers or waiver provider responsibilities when participants self-administer medications, including (if applicable) policies concerning medication administration by non-medical waiver provider personnel. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
iii.	Medication Error Reporting. Select one of the following:
	O Providers that are responsible for medication administration are required to both record and report medication errors to a State agency (or agencies). Complete the following three items:
	(a) Specify State agency (or agencies) to which errors are reported:
	(b) Specify the types of medication errors that providers are required to <i>record</i> :
	(c) Specify the types of medication errors that providers must <i>report</i> to the State:
	Providers responsible for medication administration are required to record medication errors but make information about medication errors available only when requested by the State.
	Specify the types of medication errors that providers are required to record:
iv.	State Oversight Responsibility. Specify the State agency (or agencies) responsible for monitoring the performance of waiver providers in the administration of medications to waiver participants and how monitoring is performed and its frequency.

Appendix G: Participant Safeguards

Quality Improvement: Health and Welfare

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Health and Welfare

The state demonstrates it has designed and implemented an effective system for assuring waiver participant health and welfare. (For waiver actions submitted before June 1, 2014, this assurance read "The State, on an ongoing basis, identifies, addresses, and seeks to prevent the occurrence of abuse, neglect and exploitation.")

i. Sub-Assurances:

a. Sub-assurance: The state demonstrates on an ongoing basis that it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexplained death. (Performance measures in this sub-assurance include all Appendix G performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of member's records reviewed (denominator) where the member (and/or family, legal guardian, provider staff) received information/education/training about how to report abuse, neglect, exploitation and other critical incidents as specified in the approved waiver (numerator) (Individual Plans completed after 07-01-10)

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

Reference to "Q" numbers or numbers in the 1000-5000 series in the Data Source field represent the DHS/DDS performance tool identifier.

Operating agency performance monitoring is based on a proportionate sample.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

Follow-up on provider performance monitoring is completed by DHS/DDS Quality Assurance staff to ensure 100% correction. Provider performance monitoring follow-up documents are completed to verify correction. Provider agencies are required to correct deficiencies within 60 days. Failure to do so results in review by the DHS/DDS Performance Review Committee which may impose additional sanctions such as

vendor hold. If, after sanctions and follow-up, a provider remains non-compliant, DHS/DDS recommends Agreement termination action to OHCA.

ii. Remediation Data Aggregation

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design	
methods for discovery and remediation related to the assurance of Health and Welfare that are currently non-operationa	1.

	No	
\bigcirc	Yes	
	Please provide a detailed strategy for assuring Health and Welfare, the specific timeline for implementing identif	ĭed
	strategies, and the parties responsible for its operation.	

Appendix H: Quality Improvement Strategy (1 of 2)

Under §1915(c) of the Social Security Act and 42 CFR §441.302, the approval of an HCBS waiver requires that CMS determine that the State has made satisfactory assurances concerning the protection of participant health and welfare, financial accountability and other elements of waiver operations. Renewal of an existing waiver is contingent upon review by CMS and a finding by CMS that the assurances have been met. By completing the HCBS waiver application, the State specifies how it has designed the waiver's critical processes, structures and operational features in order to meet these assurances.

Quality Improvement is a critical operational feature that an organization employs to continually determine whether it
operates in accordance with the approved design of its program, meets statutory and regulatory assurances and
requirements, achieves desired outcomes, and identifies opportunities for improvement.

CMS recognizes that a state's waiver Quality Improvement Strategy may vary depending on the nature of the waiver target population, the services offered, and the waiver's relationship to other public programs, and will extend beyond regulatory requirements. However, for the purpose of this application, the State is expected to have, at the minimum, systems in place to measure and improve its own performance in meeting six specific waiver assurances and requirements.

It may be more efficient and effective for a Quality Improvement Strategy to span multiple waivers and other long-term care services. CMS recognizes the value of this approach and will ask the state to identify other waiver programs and long-term care services that are addressed in the Quality Improvement Strategy.

Quality Improvement Strategy: Minimum Components

The Quality Improvement Strategy that will be in effect during the period of the approved waiver is described throughout the waiver in the appendices corresponding to the statutory assurances and sub-assurances. Other documents cited must be available to CMS upon request through the Medicaid agency or the operating agency (if appropriate).

In the QIS discovery and remediation sections throughout the application (located in Appendices A, B, C, D, G, and I), a state spells out:

- The evidence based discovery activities that will be conducted for each of the six major waiver assurances;
- The remediation activities followed to correct individual problems identified in the implementation of each of the assurances;

In Appendix H of the application, a State describes (1) the *system improvement* activities followed in response to aggregated, analyzed discovery and remediation information collected on each of the assurances; (2) the correspondent *roles/responsibilities* of those conducting assessing and prioritizing improving system corrections and improvements; and (3) the processes the state will follow to continuously *assess the effectiveness of the OIS* and revise it as necessary and appropriate.

If the State's Quality Improvement Strategy is not fully developed at the time the waiver application is submitted, the state may provide a work plan to fully develop its Quality Improvement Strategy, including the specific tasks the State plans to undertake during the period the waiver is in effect, the major milestones associated with these tasks, and the entity (or entities) responsible for the completion of these tasks.

When the Quality Improvement Strategy spans more than one waiver and/or other types of long-term care services under the Medicaid State plan, specify the control numbers for the other waiver programs and/or identify the other long-term services that are addressed in the Quality Improvement Strategy. In instances when the QIS spans more than one waiver, the State must be able to stratify information that is related to each approved waiver program. Unless the State has requested and received approval from CMS for the consolidation of multiple waivers for the purpose of reporting, then the State must stratify information that is related to each approved waiver program, i.e., employ a representative sample for each waiver.

Appendix H: Quality Improvement Strategy (2 of 2)

H-1: Systems Improvement

a. System Improvements

i. Describe the process(es) for trending, prioritizing, and implementing system improvements (i.e., design changes) prompted as a result of an analysis of discovery and remediation information.

OHCA strives to operate the waiver systematically incorporating the principles of continuous quality improvement. The Long Term Care Quality Initiatives Council (LTCQIC)collaborates for the trending, prioritizing and implementation of system improvement in OHCA waivers. The Council consists of various divisions within OHCA as well as provider agencies, advocacy groups and other stakeholders. The Council meets quarterly to discuss member and provider issues and to set priorities for system-wide quality improvement. The Council receives information from a variety of reports prepared by the OHCA's Long Term Care Administration (LTCA) as well as provider agencies. As a result of an analysis of the discovery and remediation information presented to the council, system improvements are identified and design changes are made. Waiver reporting for the LTCQIC is stratified by the respective program. The Research Analyst and Senior Program Manager work with the Waiver Administration Director to ensure that data is reported accurately. Both member and provider data are compiled in accordance with the program as noted in the OHCA MMIS.

The LTCQIC annually reviews the Quality Oversight Plan and utilizes numerous quality indicators that are tracked and reported on an annual basis. The State aggregates, verifies, and analyzes the results of the discovery processes to evaluate the indicators for each sub-assurance. The State identifies trends, best practices, and areas for improvement. The LTCQIC develops recommendations for improvement strategies. Results can be communicated in various ways regarding systems improvements that have an impact to the public, interested parties, participants served in the waiver, or families. Notifications are communicated in one or more of the following methods: verbally at stakeholder meetings, letters mailed to participants, fax blast, web-site banners, provider letters and newspapers (depending on the nature of the change). The frequency of the results are communicated quarterly (when results are present, not every quarter are there suggestions for system improvements). In the case where system improvements are needed on an "emergent" basis, individuals are notified (in one of the above methods) once the error and solution has been identified.

Participants in the council represent a wide variety of stakeholders including but not limited to; LTCA staff; Care Management staff, Quality Assurance staff, Legal, Systems, DHS, and representatives of Member advocacy groups, and provider agency representatives.

b. System Design Changes

i. Describe the process for monitoring and analyzing the effectiveness of system design changes. Include a description of the various roles and responsibilities involved in the processes for monitoring & assessing system design changes. If applicable, include the State's targeted standards for systems improvement.

The Oklahoma Quality Improvement Strategy weaves together various quality assurance and quality improvement activities using a three-tiered process. Tier 1 includes quality assurance processes that are implemented at the member/Case Manager/provider level. Tier 2 includes discovery and remediation processes implemented at the DHS/DDS Program Manager/OHCA Level of Care Evaluation Unit/DDS Quality Assurance Unit level. Tier 3 is the DDS State Office Division level and OHCA Medicaid Agency level and focuses on quality improvement at a systems level.

TIER 1: The first tier involves strategies to ensure members, advocates, guardians, teams, Case Managers and providers have the tools to develop, implement and monitor quality services. At this level, quality assurance and improvement happens with members on an ongoing basis and is designed to safeguard members.

TIER 2: The second tier involves DDS Program Managers, the OHCA Level of Care Evaluation Unit and the DDS Quality Assurance Unit as well as committees established to collect and analyze data and make program adjustments to improve service quality. At this level, the strategy is designed to collect and review data from Case Managers, providers, guardians, advocates, members and Teams on a wide variety of quality indicators and develop remediation and program improvement strategies to ensure that performance standards and assurances are met.

TIER 3: The third tier involves DDS State Office Executive staff and OHCA staff. DHS/DDS monitors non-licensed providers for compliance and provides results to OHCA.

The Area Survey monitoring process is a record review of the DHS/DDS Case Manager record, based on a statistically significant random sample of members receiving supports through the waiver. One quarter of the representative sample is monitored each quarter. This results in a complete representative sample being reviewed each year. The record reviews include a review of service plans to assure: all member needs are addressed and preferences considered; they are developed according to policy and updated/revised as needed ensuring an interim meeting was held within 30 days of identification or notification of the need for change in authorization of waiver services; services are delivered in accordance with the service plan including the type, scope, amount and frequency specified in the service plan; and that members are afforded choice between waiver services and institutional care and between/among waiver services and providers. The Area Survey record reviews provide a process for monitoring the health and welfare of members, assuring Case Managers: conduct face-to-face visits as required; address issues that could put the member's health or welfare

at risk; and provide follow-up on issues identified in incident reports. The results of the Area Survey monitoring process are shared with OHCA. The data is reviewed to identify trends and areas for improvement. Recommendations are developed for systemic improvement.

The Performance Survey is an annual monitoring site visit in which all provider agencies participate, providing data based on an aggregated statistically significant sample of members receiving waiver services and an aggregated statistically significant sample of provider agency staff. The Performance Survey includes all waivers for which the provider agency contracts. Monitoring of service plan development and implementation includes: a review of provider agency records for a random sample of waiver members; and home visits and interviews with waiver members and other pertinent people, for those sampled. The annual monitoring of non-licensed/non-certified provider staff includes a review of personnel records for a sampling of staff assigned to provide supports, to ensure all required employment background checks have been obtained and all required training has taken place. The Performance Survey process provides for a sampling of financial records to ensure compliance with provider Agreements. DHS/DDS policy provides the expectation that all identified barriers to performance consistent with the expectation of regulatory policy and contracts are resolved no later than 60 days following the completion of the annual Performance Survey. Failure to correct identified barriers could result in administrative sanctions. The results of Performance Surveys are shared with OHCA. The data is reviewed to identify trends and areas for improvement. Recommendations are developed for systemic improvement.

DHS/DDS and OHCA review trends and data. Performance measures are developed or updated as needed. The State reviews results, tests new performance measures, analyzes and makes modifications as appropriate.

ii. Describe the process to periodically evaluate, as appropriate, the Quality Improvement Strategy.

DHS/DDS and OHCA review data gathered as a result of the Quality Improvement Strategy and look for trends. Areas needing improvement are identified and prioritized. Program staff respond to recommendations by designing and implementing improvements. Continued monitoring of performance measures identifies effectiveness of improvements.

Appendix I: Financial Accountability

I-1: Financial Integrity and Accountability

Financial Integrity. Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The entity that is responsible for the independent audit under the Single Audit Act in Oklahoma is the Office of the State Auditor and Inspector. This agency performs annual audits separately and apart from the operating agency (DHS) and the Medicaid agency (OHCA.)

The DHS Office of Inspector General (DHS/OIG) is the Division within the Oklahoma Department of Human Services charged with the responsibility to investigate allegations of fraud, waste or abuse as well as other allegations of criminal activity against the Department or programs administered by the Department. DHS/OIG also has the responsibility to audit vendors and suppliers of Department goods and services under the Federal Single Audit Act of 1984, as well as Divisions and Units of the DHS for program compliance and performance. Compliance with the Single Audit Act of 1984 is ensured by the review of independent audit reports for the subrecipients of federal funds. A listing is maintained of audits required. Deficiencies requiring revision by the independent auditor and corrective action plans needed for subrecipients are monitored and resolved.

DHS requires all non-licensed and group home providers who receive payments of \$100,000 or more per year to submit a certified independent audit of its operations conducted in accordance with Government Auditing Standards. These audits are required annually and are due 120 days from the providers fiscal year end. The financial statements are to be prepared in accordance with Generally Accepted Accounting Principles and the report includes a Supplementary Schedule of Awards listing all State and Federal funds by contract Agreement. DHS/DDS staff reviews these audits and follow-up on any findings relative to waiver programs. In addition, service providers participate in provider performance monitoring at least once each year by the OKDHS/DDSD Quality Assurance Unit, who review documentation related to service

delivery to confirm billed charges on a random sample.

All plans of care are subject to the approval of OHCA, the Medicaid Agency, and are made available by DHS/DDS, the operating agency, upon request. OHCA randomly reviews plans of care through several authorities within the Medicaid Agency, such as Program Integrity and Accountability, Quality Assurance/Improvement and Claims/Coding and Integrity Units. OHCA performs a financial audit of the waiver service providers as part of a more comprehensive provider audit process. The financial audit reviews claims in comparison with documentation of services delivery and in comparison with service plan authorization. For the provider financial audit, members are selected at random for the programmatic review. These random sample of members are audited through a comprehensive records review to ensure document(s) is in compliance with policy and the approve plan of care. A random sample is selected through Explanation of Member Benefits (EOMB), member complaints, referrals; exception processing may occur to determine if other entities need to be reviewed. The confidence Level is 95% and margin of error for the sample is 5%. OHCA refers to the Medicaid Management Information System (MMIS) as the source of data to be sampled. The components of the programmatic review uses the "Test of Changes" methodology which is a general guidance for policy but documentation (claims checks, UCAT, service plans & agency records) is reviewed to ensure policy and regulations compliance is met and the plan of care is fulfilled as authorized. All claims for services delivered to them over a one quarter period are reviewed. OHCA Program Integrity and Accountability department is responsible for conducting financial audits on an annual basis.

Errors in provider claims may include (1) claims payment without corresponding documentation of service delivery and (2) claims payment in excess of service plan authorization. Claims error occurrence will be measured for each member and in summary of all members reviewed. Measures of claims error occurrence are (1) percent of units paid without service delivery documentation in the period and (2) percent of units paid in excess of authorized units in the period.

Appendix I: Financial Accountability

Quality Improvement: Financial Accountability

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Financial Accountability Assurance:

The State must demonstrate that it has designed and implemented an adequate system for ensuring financial accountability of the waiver program. (For waiver actions submitted before June 1, 2014, this assurance read "State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver.")

i. Sub-Assurances:

a. Sub-assurance: The State provides evidence that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver and only for services rendered.

(Performance measures in this sub-assurance include all Appendix I performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of service claims reviewed (denominator) that were submitted for services rendered to members who were enrolled in the waiver on the date that the service was delivered (numerator).

Data Source (Select one): **Other** If 'Other' is selected, specify:

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

Reference to "Q" number or numbers in the 1000-5000 series in the Data Source field represent the DHS/DDS performance tool identifier.

Operating agency performance monitoring is based on a proportionate representative sample.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.
Follow-up on operating agency performance monitoring is completed by DHS/DDS program staff quarterly to ensure 100% correction of identified problems. Program staff maintain documents to verify correction.

Follow-up on provider performance monitoring is completed by DHS/DDS Quality Assurance Unit staff to ensure 100% correction. Follow-up survey documents are completed to verify correction. Provider agencies are required to correct deficiencies within 60 days. Failure to do so results in review by the DHS/DDS Performance Review Committee which may impose additional sanctions such as vendor hold. Program leadership follows up on issues identified in Quality Assurance provider performance evaluations. Program leadership also addresses member complaints. When trends are noted with specific provider agencies, program leadership directs meetings with the agencies to encourage remediation of all identified issues.

OHCA identifies individual problems during provider audits and in responding to member complaints filed through the Member Inquiry System. Setting quality improvement priorities and development of specific strategies to address quality issues are informed not only by internal discovery and monitoring; but, in addition, by interaction and recommendations from the LTCQIC. Providers identified for remediation must meet performance standards of the Conditions of Provider Participation in order to remain waiver providers. Providers who are under corrective action are given a time period in which improvements must be accomplished. These providers are monitored to ensure they achieve full compliance with standards. Ultimately, OHCA provider agreements can be terminated for failure to meet contractual standards. If, after sanctions and follow-up, a provider remains non-compliant, DHS/DDS recommends Agreement termination action to OHCA.

ii. Remediation Data Aggregation

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (1 of 3)

a. Rate Determination Methods. In two pages or less, describe the methods that are employed to establish provider payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).

Rates for waiver services are set by one of the methodologies below.

MEDICAID RATE (TXIX) - When a waiver service is similar or the same as a Medicaid service for which a fee schedule has been established, the current Medicaid rate is utilized. Services utilizing the Medicaid Rate are:

- » Specialized Medical Supplies and Assistive Technology**
- » Audiology
- » Dental
- » Family Counseling
- » Nutrition
- » Prescription Drugs

FIXED RATE - Title 74 of the Oklahoma Statutes provides a methodology for setting fixed and uniform rates as follows:

- a. Determination of need for a fixed and uniform rate
 - i. New: A new service is developed, or
 - Existing Service: Feedback from providers, clients, or the general public indicates that the existing rate is not sufficient to ensure access to an existing service.
- b. Preparation of a Rates and Standards Brief:
 - Preparation: Staff prepares a position paper that at a minimum includes a
 description of the service, the payment history including rates and utilization,
 the methodology utilized to arrive at the proposed rate, and a description of
 the funding source.
 - ii. Public Hearing: A public hearing notice is prepared and a hearing is scheduled. The public hearing notice includes the meeting date(s), where the meeting will be held, whether the meeting is an open or closed meeting,

a description of the proposed change in methods and standards, an estimate of any expected increase or decrease in

annual aggregate expenditures and an explanation for why the agency is changing its methods and standards. Additional information about each meeting is posted at www.okhca.org/calendar, including the meeting agenda.

iii. Oklahoma Office of Central Services: Copies of the public hearing notice, the Rates and Standards Brief and any other pertinent data is delivered to the Oklahoma Office of Central Services at least 30 days before the date of the public hearing. The Director of the Department of Central Services shall communicate any observation, reservation, criticism or recommendation to the agency, either in person at the time of the hearing or in writing delivered to the State agency before or at the time of the hearing.

- c. Public Hearing Notice: Notice of public hearing will comply with the requirements in 42 CFR 227.205(c) including;
 - i. A description of the proposed change in method and standards;
 - ii. An estimate of any expected increase of decrease in annual aggregate expenditures;
 - iii. An explanation for why the agency is changing its methods and standards.

Notice of public hearing will be provided in the following:

- i. Posted in the office of the Secretary of State
- ii. Posted by the Oklahoma Health Care Authority at its physical location and on the web site calendar.
- iii. Published by the Oklahoma Health Care authority in various Newspaper publications across Oklahoma.
- d. Public Hearing:
 - Committee: The public hearing is conducted by the Rates and Standards Committee
 of the Oklahoma Health Care Authority. The committee is comprised of staff
 from the OHCA and DHS.
 - ii. Public comment: All attendees of the public hearing are offered an opportunity to voice their opposition or approval of the proposed rates. All comments become part of the permanent minutes of the hearing.
- e. Final Approval: The rate is then scheduled for consideration and approval by the Board of Directors of the OHCA prior to implementation.

Services utilizing the Fixed Rate are:

- » Adult Day
- » Habilitation Training Specialist
- » Homemaker
- » Occupational Therapy
- » Physical Therapy
- » Prevocational
- » Psychological
- » Respite Care
- » Speech Therapy
- » Supported Employment
- » Transportation

MANUAL RATE - Services utilizing the Manual Rate and the method and entity responsible for establishing the provider payment rate are:

- » Family Training Reimbursement made based on rate approved by OKDHS/DDSD after evaluation of provider proposal and rate comparison process, not to exceed limits established at OAC 317:30-5-412.
- $\label{eq:continuous} \mbox{$>$ $ Pecialized Medical Supplies and Assistive Technology ** Reimbursement made using current OHCA pricing methodology. }$
- » Environmental Accessibility Adaptations and Architectural Modification Reimbursement made through a contractor bid process in accordance with Oklahoma State Law.
- * Consistent with the approach to reimbursement for prevocational services approved by CMS in 1995, Oklahoma will continue to reimburse for prevocational services based per hour of participation (control number 0234.90.01). For individuals requiring enhanced supports, a differential rate is available.
- ** Specialized Medical Supplies and Assistive Technology rates are determined using the Manual Rate or may also be

determined using the Medicaid Rate if the item is typically covered by Medicaid. If Medicaid State Plan limits associated with the item have been exceeded, but the item is essential to the member's health and/or safety, the item may be authorized through the waiver.

*** Consistent with the approach to reimbursement for supported employment services approved by CMS in 1995, Oklahoma will continue to reimburse for job coaching and stabilization based on hours worked (control number 0234.90.01). Individual placement in job coaching services require the on-site provision of supports by a job coach for more than 20% of the individual's compensable hours. Stabilization services require the on-site provision of supports by a job coach for 20% or less of the individual's compensative hours. A differential rate is available for individuals requiring enhanced supports.

Notice of Authorization statements are automatically issued to waiver members, via an electronic authorization system, upon any change in authorization, to include a rate change.

b. Flow of Billings. Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the State's claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

Claims for waiver services are submitted by providers directly to and are processed by Oklahoma's CMS-certified Medicaid Management Information System (MMIS) and are subject to all validation procedures included in the MMIS. All claims for waiver services must be matched to an active prior authorization. Prior authorizations are created from the waiver member's individual plan of care.

All claims processed through the MMIS are subject to post-payment validation including, but not limited to SURS. When problems with service validation are identified on a post-payment review, erroneous or invalidated claims are voided from the claims payment system and the previous payment are recouped from the provider.

Appendix I: Financial Accountability

No. State or local government agencies do not certify expenditures for waiver services.
 Yes. State or local government agencies directly expend funds for part or all of the cost of waiver services and certify their State government expenditures (CPE) in lieu of billing that amount to Medicaid.
Select at least one:
☐ Certified Public Expenditures (CPE) of State Public Agencies.
Specify: (a) the State government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b).(Indicate source of revenue for CPEs in Item I-4-a.)
^
\sim

§433.51(b). (Indicate source of revenue for CPEs in Item I-4-b.)

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (3 of 3)

d. Billing Validation Process. Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant's approved service plan; and, (c) the services were provided:

Claims for waiver services are processed by Oklahoma's CMS-certified MMIS and are subject to all validation procedures included in the MMIS. This ensures that payments are made only when:

- (a) All claims for waiver members are first validated for member eligibility according to data contained in the MMIS.
- (b) All claims for waiver services must be matched to an active prior authorization. Prior authorizations are created from the waiver member's individual plan of care with provider of service, dates of authorization and units as specified in the service plan. Claims processing edits built into the MMIS deny claims payment if any of the following conditions are encountered:
- Date of service is outside member eligibility dates;
- Service provided is outside the benefit package for the waiver;
- Provider is not a qualified provider;
- Service is not prior authorized;
- Units are in excess of prior authorized;
- Date of service is outside prior authorization.
- (c) All claims processed through the MMIS are subject to post-payment validation including, but not limited to Program Integrity and Accountability. When problems with service validation are identified on a post payment review, erroneous or invalidated claims are voided from the claims payment system and the previous payments are recouped from the provider. Provider audits review service delivery in comparison with claims and service plan authorization. If the provider audit detects a pattern of inappropriate billing, a referral is made to OHCA Program Integrity and Accountability for review and further investigation of the provider's billing practices. DDS Case Managers assure that freedom of choice among providers and services are offered to each member. A freedom of choice form is signed by the member or his/her Guardian.
- e. Billing and Claims Record Maintenance Requirement. Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR §92.42.

Appendix I: Financial Accountability

I-3: Payment (1 of 7)

- a. Method of payments -- MMIS (select one):
 - Payments for all waiver services are made through an approved Medicaid Management Information System (MMIS).
 - O Payments for some, but not all, waiver services are made through an approved MMIS.

Specify: (a) the waiver services that are not paid through an approved MMIS; (b) the process for making such payments and the entity that processes payments; (c) and how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

O Payments for waiver services are not made through an approved MMIS.

Specify: (a) the process by which payments are made and the entity that processes payments; (b) how and through which system(s) the payments are processed; (c) how an audit trail is maintained for all state and federal funds

	expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:
\circ	Payments for waiver services are made by a managed care entity or entities. The managed care entity is paid a monthly capitated payment per eligible enrollee through an approved MMIS.
	Describe how payments are made to the managed care entity or entities:
ppendi	x I: Financial Accountability
	I-3: Payment (2 of 7)
	ect payment. In addition to providing that the Medicaid agency makes payments directly to providers of waiver ices, payments for waiver services are made utilizing one or more of the following arrangements (select at least:
	The Medicaid agency makes payments directly and does not use a fiscal agent (comprehensive or limited) or
✓	a managed care entity or entities. The Medicaid agency pays providers through the same fiscal agent used for the rest of the Medicaid
	program. The Medicaid agency pays providers of some or all waiver services through the use of a limited fiscal agent.
	Specify the limited fiscal agent, the waiver services for which the limited fiscal agent makes payment, the functions that the limited fiscal agent performs in paying waiver claims, and the methods by which the Medicaid agency oversees the operations of the limited fiscal agent:
	Providers are paid by a managed care entity or entities for services that are included in the State's contract with the entity.
	Specify how providers are paid for the services (if any) not included in the State's contract with managed care entities.
ppendi	x I: Financial Accountability
	I-3: Payment (3 of 7)
effic expe	plemental or Enhanced Payments. Section 1902(a)(30) requires that payments for services be consistent with eiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to States for enditures for services under an approved State plan/waiver. Specify whether supplemental or enhanced payments are e. Select one:
	No. The State does not make supplemental or enhanced payments for waiver services.
	○ Yes. The State makes supplemental or enhanced payments for waiver services.
	Describe: (a) the nature of the supplemental or enhanced payments that are made and the waiver services for which these payments are made; (b) the types of providers to which such payments are made; (c) the source of the non-Federal share of the supplemental or enhanced payment; and, (d) whether providers eligible to receive the

supplemental or enhanced payment retain 100% of the total computable expenditure claimed by the State to CMS.

	Upon request, the State will furnish CMS with detailed information about the total amount of supplemental or enhanced payments to each provider type in the waiver.
Appendi	x I: Financial Accountability

\circ	Yes. State or local government providers receive payment for waiver services. Complete Item I-3-e.
	Specify the types of State or local government providers that receive payment for waiver services and the services that the State or local government providers furnish:
	○ ○
Appendi	x I: Financial Accountability
	I-3: Payment (5 of 7) ount of Payment to State or Local Government Providers. cify whether any State or local government provider receives payments (including regular and any supplemental
payr	ments) that in the aggregate exceed its reasonable costs of providing waiver services and, if so, whether and how the e recoups the excess and returns the Federal share of the excess to CMS on the quarterly expenditure report. <i>Select</i>
Ans	wers provided in Appendix I-3-d indicate that you do not need to complete this section.
	 The amount paid to State or local government providers is the same as the amount paid to private providers of the same service.
	The amount paid to State or local government providers differs from the amount paid to private providers of the same service. No public provider receives payments that in the aggregate exceed its reasonable costs of providing waiver services.
	The amount paid to State or local government providers differs from the amount paid to private providers of the same service. When a State or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the State recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.
	Describe the recoupment process:
	\$
Appendi	x I: Financial Accountability

I-3: Payment (6 of 7)

f. Provider Retention of Payments. Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by states for services under the approved waiver. Select one:

 Providers receive and retain 100 percent of the amount claimed to CMS for waiver services. Providers are paid by a managed care entity (or entities) that is paid a monthly capitated payment.
Specify whether the monthly capitated payment to managed care entities is reduced or returned in part to the State
ppendix I: Financial Accountability
I-3: Payment (7 of 7)
g. Additional Payment Arrangements
i. Voluntary Reassignment of Payments to a Governmental Agency. Select one:
No. The State does not provide that providers may voluntarily reassign their right to direct payments to a governmental agency.
 Yes. Providers may voluntarily reassign their right to direct payments to a governmental agency as provided in 42 CFR §447.10(e).
Specify the governmental agency (or agencies) to which reassignment may be made.

- ii. Organized Health Care Delivery System. Select one:
 - O No. The State does not employ Organized Health Care Delivery System (OHCDS) arrangements under the provisions of 42 CFR §447.10.
 - Yes. The waiver provides for the use of Organized Health Care Delivery System arrangements under the provisions of 42 CFR §447.10.

Specify the following: (a) the entities that are designated as an OHCDS and how these entities qualify for designation as an OHCDS; (b) the procedures for direct provider enrollment when a provider does not voluntarily agree to contract with a designated OHCDS; (c) the method(s) for assuring that participants have free choice of qualified providers when an OHCDS arrangement is employed, including the selection of providers not affiliated with the OHCDS; (d) the method(s) for assuring that providers that furnish services under contract with an OHCDS meet applicable provider qualifications under the waiver; (e) how it is assured that OHCDS contracts with providers meet applicable requirements; and, (f) how financial accountability is assured when an OHCDS arrangement is used:

(a) DHS/DDS is considered a qualified OHCDS as the agency directly provides Targeted Case Management services utilizing it's own employees. (b) Providers will be given the opportunity to enter into a SoonerCare Provider Agreement when they don't voluntarily agree to contract with a designated OHCDS. (c) Members who choose to self direct may choose any qualified provider that has contracted with the OHCDS or has entered into an agreement with OHCA, the State's Medicaid agency. (d) The member who chooses the self direction option and the FMS subagent will assure that all criminal background checks are completed on all prospective Habilitation Training Specialists and that all mandatory training requirements have been met. The member and the FMS subagent will be responsible to maintain copies of the documentation in the employee's file as required by DHS/DDS and OHCA. (e) DHS/DDS will function as the OHCDS and enter into a contract agreement with OHCA. (f) The FMS subagent will be required to be bonded and/or have sufficient liability insurance to protect members and the State against loss of funds, fraud or mismanagement. The FMS subagent is required to provide an annual audit as well as monthly reports.

iii. Contracts with MCOs, PIHPs or PAHPs. Select one:

	• The State does not contract with MCOs, PIHPs or PAHPs for the provision of waiver services.
	The State contracts with a Managed Care Organization(s) (MCOs) and/or prepaid inpatient health plan(s) (PIHP) or prepaid ambulatory health plan(s) (PAHP) under the provisions of §1915(a)(1) of the Act for the delivery of waiver and other services. Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the State Medicaid agency.
	Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.
	This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.
	This waiver is a part of a concurrent □1115/□1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The □1115 waiver specifies the types of health plans that are used and how payments to these plans are made.
Appendix	I: Financial Accountability
	I-4: Non-Federal Matching Funds (1 of 3)
the not	Level Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the State source or sources of n-federal share of computable waiver costs. Select at least one: ppropriation of State Tax Revenues to the State Medicaid agency ppropriation of State Tax Revenues to a State Agency other than the Medicaid Agency.
ei M ai	The source of the non-federal share is appropriations to another state agency (or agencies), specify: (a) the State ntity or agency receiving appropriated funds and (b) the mechanism that is used to transfer the funds to the fedicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching transperent, and/or, indicate if the funds are directly expended by State agencies as CPEs, as indicated in Item 2-c:
W O se to fo	tate share funding for services provided under all of Oklahoma's Home and Community-Based Services (HCBS) Vaiver programs is from general fund appropriations from the State Legislature made to two State agencies. The Oklahoma Department of Human Services (DHS) is responsible for providing State share funding for all waiver ervices except prescription drugs in excess of State Plan coverage limits and receives Legislative appropriations of cover the same. The Oklahoma Health Care Authority (OHCA) is responsible for providing State share funding or prescription drugs covered under the various waivers and receives Legislative appropriations to cover the same.
pı sł	on a weekly basis, the OHCA submits a billing to DHS for the State share dollars for all waiver services (except rescription drugs) for which provider claims were processed/paid. Through an inter-agency transfer, these State hare funds are then deposited into the OHCA's general fund. The transfer of these funds represents a repayment of the OHCA since the OHCA has already paid all provider service claims "in full".
a _l C	all funding for State share costs of HCBS waiver services in Oklahoma is through Legislative oppropriations. There is no funding of State share costs for waiver services using State or local funds from ertified Public Expenditures (CPEs), provider taxes or any other resource. Other State Level Source(s) of Funds.
	pecify: (a) the source and nature of funds; (b) the entity or agency that receives the funds; and, (c) the mechanism nat is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer

	(IGT), including any matching arrangement, and/or, indicate if funds are directly expended by State agencies as CPEs, as indicated in Item I-2-c:
ppen	dix I: Financial Accountability
	I-4: Non-Federal Matching Funds (2 of 3)
	ocal Government or Other Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the source sources of the non-federal share of computable waiver costs that are not from state sources. Select One:
	Not Applicable. There are no local government level sources of funds utilized as the non-federal share.
	○ Applicable
	Check each that applies:
	Appropriation of Local Government Revenues.
	Specify: (a) the local government entity or entities that have the authority to levy taxes or other revenues; (b) the source(s) of revenue; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement (indicate an intervening entities in the transfer process), and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:
	Other Local Government Level Source(s) of Funds.
	Specify: (a) the source of funds; (b) the local government entity or agency receiving funds; and, (c) the mechanism that is used to transfer the funds to the State Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

I-5: Exclusion of Medicaid Payment for Room and Board

a. Services Furnished in Residential Settings. Select one:
No services under this waiver are furnished in residential settings other than the private residence of the individual.
 As specified in Appendix C, the State furnishes waiver services in residential settings other than the personal home of the individual.
 b. Method for Excluding the Cost of Room and Board Furnished in Residential Settings. The following describes the methodology that the State uses to exclude Medicaid payment for room and board in residential settings: Do not complete this item.
\checkmark
Appendix I: Financial Accountability
I-6: Payment for Rent and Food Expenses of an Unrelated Live-In Caregiver
Reimbursement for the Rent and Food Expenses of an Unrelated Live-In Personal Caregiver. Select one:
No. The State does not reimburse for the rent and food expenses of an unrelated live-in personal caregiver who resides in the same household as the participant.
Yes. Per 42 CFR §441.310(a)(2)(ii), the State will claim FFP for the additional costs of rent and food that can be reasonably attributed to an unrelated live-in personal caregiver who resides in the same household as the waiver participant. The State describes its coverage of live-in caregiver in Appendix C-3 and the costs attributable to rent and food for the live-in caregiver are reflected separately in the computation of factor D (cost of waiver services) in Appendix J. FFP for rent and food for a live-in caregiver will not be claimed when the participant lives in the caregiver's home or in a residence that is owned or leased by the provider of Medicaid services.
The following is an explanation of: (a) the method used to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver and (b) the method used to reimburse these costs:
Appendix I: Financial Accountability
I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (1 of 5)
a. Co-Payment Requirements. Specify whether the State imposes a co-payment or similar charge upon waiver participants for waiver services. These charges are calculated per service and have the effect of reducing the total computable claim for federal financial participation. <i>Select one:</i>
 No. The State does not impose a co-payment or similar charge upon participants for waiver services. Yes. The State imposes a co-payment or similar charge upon participants for one or more waiver services.
i. Co-Pay Arrangement.
Specify the types of co-pay arrangements that are imposed on waiver participants (check each that applies):
Charges Associated with the Provision of Waiver Services (if any are checked, complete Items I-7-a-ii through I-7-a-iv):
Nominal deductible
☐ Coinsurance

✓ Co-Payment	
✓ Co-Payment☐ Other charge

	V

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (2 of 5)

a. Co-Payment Requirements.

ii. Participants Subject to Co-pay Charges for Waiver Services.

Specify the groups of waiver participants who are subject to charges for the waiver services specified in Item I-7-a-iii and the groups for whom such charges are excluded.

All waiver service recipients are subject to a co-payment on prescription drugs unless the individual service recipient is pregnant or the drug is used for family planning. Co-payments are not applied to other non-pharmaceutical waiver services.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (3 of 5)

a. Co-Payment Requirements.

iii. Amount of Co-Pay Charges for Waiver Services.

The following table lists the waiver services defined in C-1/C-3 for which a charge is made, the amount of the charge, and the basis for determining the charge.

Waiver Service	Charge
Prescribed Drugs	Amount:
	\$0.00 for preferred generics. \$0.65 for cost of \$0.00-\$10.00 \$1.20 for cost of \$10.01-\$25.00 \$2.40 for cost of \$25.01-\$50.00 \$3.50 for cost of \$50.01 or more
	Basis:
	\$0.00 for preferred generics. \$0.65 for prescriptions having a Medicaid allowable payment of \$0.00-\$10.00. \$1.20 for prescriptions having a Medicaid allowable payment of \$10.01-\$25.00. \$2.40 for prescriptions having a Medicaid allowable payment of \$25.01-\$50.00 and \$3.50 for prescriptions having a Medicaid allowable payment of \$50.01 or more. Co-payments are for members 21 and older.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (4 of 5)

a. Co-Payment Requirements.

iv. Cumulative Maximum Charges.

Indicate whether there is a cumulative maximum amount for all co-payment charges to a waiver participant (*select one*):

There is no cumulative maximum for all deductible, coinsura waiver participant.	ance or co-payment charges to a
 There is a cumulative maximum for all deductible, coinsurar waiver participant. 	nce or co-payment charges to a
Specify the cumulative maximum and the time period to which the ma	ximum applies:

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (1 of 9)

a. Number Of Unduplicated Participants Served. Enter the total number of unduplicated participants from Item B-3-a who will be served each year that the waiver is in operation. When the waiver serves individuals under more than one level of care, specify the number of unduplicated participants for each level of care:

Table: J-2-a: Unduplicated Participants

Waiver Year	Total Unduplicated Number of Participants (from Item B-3-a)	Distribution of Unduplicated Participan by Level of Care (if applicable) Level of Care: ICF/IID		
Year 1	1620	1620		
Year 2	1650	1650		
Year 3	1680	1680		
Year 4	1710	1710		
Year 5	1725	1725		

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (2 of 9)

b. Average Length of Stay. Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.

The average length of stay is based on Form 372 for FY14.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (3 of 9)

- **c. Derivation of Estimates for Each Factor.** Provide a narrative description for the derivation of the estimates of the following factors.
 - **i. Factor D Derivation.** The estimates of Factor D for each waiver year are located in Item J-2-d. The basis for these estimates is as follows:

Factor D estimates were made by using current unit rates.

Number of users were based on Form 372 for FY14. DHS/DDS established a pro-rated distribution base and then used an unduplicated count of estimated users. Data from Form 372 was used to acquire this information.

Average units per user were based on the current expenses of each service.

ii. Factor D' Derivation. The estimates of Factor D' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor D' is based on Form 372 for FY14. The State has accounted for and, for those receiving Medicare Part D, removed the cost of prescribed drugs from it's estimate.

iii. Factor G Derivation. The estimates of Factor G for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor G is based on Form 372 for FY14.

iv. Factor G' Derivation. The estimates of Factor G' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor G' is based on Form 372 for FY14.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (4 of 9)

Component management for waiver services. If the service(s) below includes two or more discrete services that are reimbursed separately, or is a bundled service, each component of the service must be listed. Select "manage components" to add these components.
