Application for a §1915(c) Home and Community-Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a State to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waiver's target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the State, service delivery system structure, State goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

Request for an Amendment to a §1915(c) Home and Community-Based Services Waiver

1. Request Information

- **A.** The **State** of **Oklahoma** requests approval for an amendment to the following Medicaid home and community-based services waiver approved under authority of §1915(c) of the Social Security Act.
- **B.** Program Title:

Homeward Bound Waiver

C. Waiver Number:OK.0399

Original Base Waiver Number: OK.0399.90

D. Amendment Number:OK.0399.R03.01

E. D. Amendment Number OK. 0377. R03.01

Froposeu Effective Date:	(mm/aa/yy)
10/01/18	

Approved Effective Date of Waiver being Amended: 07/01/16

2. Purpose(s) of Amendment

Purpose(s) of the Amendment. Describe the purpose(s) of the amendment: Unduplicated number of participants has been updated for years 3-5.

Appendix J numbers for years 3-5 have been updated.

3. Nature of the Amendment

A. Component(s) of the Approved Waiver Affected by the Amendment. This amendment affects the following component(s) of the approved waiver. Revisions to the affected subsection(s) of these component(s) are being submitted concurrently (check each that applies):

2. Brief	Waiver 1	Description	

Brief Waiver Description. *In one page or less*, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods. The Homeward Bound Waiver is intended to better meet the home and community based services needs of members representing the Plaintiff Class in Homeward Bound et al v. The Hissom Memorial Center et al, United States District Court, Northern District of Oklahoma, Case No. 85-C-437-e. The purpose of the Homeward Bound Waiver is to assist class members to lead healthy, independent, and productive lives to the fullest extent possible; promote the full exercise of their rights as citizens of their community, state, and country; and promote the integrity and well-being of their families. Services are provided with the goal of promoting independence through the strengthening of the member's capacity for self-care and self-sufficiency. The Homeward Bound Waiver is a service system centered on the needs and preferences of the class members and supports the integration of participants within their communities. The Homeward Bound Waiver serves to provide residential and comprehensive supports for class members.

The Developmental Disabilities Services (DDS) of the Oklahoma Department of Human Services (DHS), through an Interagency Agreement with the state's Medicaid agency, the Oklahoma Health Care Authority (OHCA), operates the Homeward Bound Waiver for members of the plaintiff class with mental retardation or related conditions. This waiver provides services and payment for those services that are not otherwise covered through Oklahoma's Medicaid program (hereinafter referred to as SoonerCare). Homeward Bound waiver services, when used in conjunction with non-waiver SoonerCare services, and other generic services and natural supports, provide for the health and developmental needs of persons who otherwise would not be able to live in a home and community-based setting. The waiver is operated on a statewide basis. Employees of DHS provide case management services. Case Managers are located in offices throughout the state. Case Managers assure that individual needs are assessed and identified and coordinate the Personal Support Team (Team) for each individual class member.

The services and supports provided are identified by the class member's Team during the meeting to develop the member's Individual Plan (Plan). A DHS/DDS Case Manager develops a plan of care in accordance with Oklahoma Administrative Code (OAC) 340:100-5-53. The Plan contains detailed descriptions of services provided, documentation of amount, frequency and duration of services as well as the types of service providers. Services are authorized based on service authorization policy, OAC 340:100-3-33 and 3-33.1. Services are provided by qualified agencies or individuals who have entered into an Agreement with OHCA. The Case Manager assists the class member to select qualified providers of his or her choice. The Case Manager also coordinates and monitors the provision of these services in accordance with the member's Plan and makes necessary changes to assure the health and welfare of the class member. In addition, the Quality Assurance Unit of DHS/DDS monitors quality of services provided and contracts with outside organizations to monitor satisfaction of members served. OHCA audits the Plans of Care to ensure services are being provided in the manner required by policy.

3. Components of the Waiver Request

The waiver application consists of the following components. Note: Item 3-E must be completed.

- A. Waiver Administration and Operation. Appendix A specifies the administrative and operational structure of this waiver.
- **B.** Participant Access and Eligibility. Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the State expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.
- **C. Participant Services. Appendix C** specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.
- **D.** Participant-Centered Service Planning and Delivery. Appendix **D** specifies the procedures and methods that the State uses to develop, implement and monitor the participant-centered service plan (of care).
- **E. Participant-Direction of Services.** When the State provides for participant direction of services, **Appendix E** specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (*Select one*):
 - Yes. This waiver provides participant direction opportunities. *Appendix E is required.*
 - No. This waiver does not provide participant direction opportunities. Appendix E is not required.
- **F.** Participant Rights. Appendix **F** specifies how the State informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.

- **G.** Participant Safeguards. Appendix G describes the safeguards that the State has established to assure the health and welfare of waiver participants in specified areas.
- H. Quality Improvement Strategy. Appendix H contains the Quality Improvement Strategy for this waiver.
- **I. Financial Accountability. Appendix I** describes the methods by which the State makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.
- J. Cost-Neutrality Demonstration. Appendix J contains the State's demonstration that the waiver is cost-neutral.

4. Waiver(s) Requested

Comparability. The State requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in Appendix C that are not otherwise available under the approved Medicaid State plan to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in Appendix B .
Income and Resources for the Medically Needy. Indicate whether the State requests a waiver of §1902(a)(10)(C)(i)(III) of the Act in order to use institutional income and resource rules for the medically needy (select one):
O Not Applicable
● No
\bigcirc Yes
Statewideness. Indicate whether the State requests a waiver of the statewideness requirements in §1902(a)(1) of the Act (select one):
○ Yes
If yes, specify the waiver of statewideness that is requested (check each that applies): Geographic Limitation. A waiver of statewideness is requested in order to furnish services under this waiver only to individuals who reside in the following geographic areas or political subdivisions of the State. Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:
Limited Implementation of Participant-Direction. A waiver of statewideness is requested in order to make
participant-direction of services as specified in Appendix E available only to individuals who reside in the following geographic areas or political subdivisions of the State. Participants who reside in these areas may elect to direct their services as provided by the State or receive comparable services through the service delivery methods that are in effect elsewhere in the State. Specify the areas of the State affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:

5. Assurances

In accordance with 42 CFR §441.302, the State provides the following assurances to CMS:

- **A. Health & Welfare:** The State assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:
 - 1. As specified in **Appendix** C, adequate standards for all types of providers that provide services under this waiver;
 - 2. Assurance that the standards of any State licensure or certification requirements specified in **Appendix C** are met for services or for individuals furnishing services that are provided under the waiver. The State assures that these requirements are met on the date that the services are furnished; and,
 - **3.** Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable State standards for board and care facilities as specified in **Appendix C**.

- **B.** Financial Accountability. The State assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in **Appendix I**.
- **C. Evaluation of Need:** The State assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in **Appendix B**.
- **D.** Choice of Alternatives: The State assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in **Appendix B**, the individual (or, legal representative, if applicable) is:
 - 1. Informed of any feasible alternatives under the waiver; and,
 - 2. Given the choice of either institutional or home and community-based waiver services. Appendix B specifies the procedures that the State employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.
- **E.** Average Per Capita Expenditures: The State assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid State plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in **Appendix J**.
- **F.** Actual Total Expenditures: The State assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the State's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.
- **G. Institutionalization Absent Waiver:** The State assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.
- **H. Reporting:** The State assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid State plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.
- **I. Habilitation Services.** The State assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.
- J. Services for Individuals with Chronic Mental Illness. The State assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the State has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the State has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

6. Additional Requirements

Note: Item 6-I must be completed.

A. Service Plan. In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in **Appendix D**. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including State plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.

- **B.** Inpatients. In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are inpatients of a hospital, nursing facility or ICF/IID.
- **C. Room and Board**. In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the State that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in **Appendix I**.
- D. Access to Services. The State does not limit or restrict participant access to waiver services except as provided in Appendix C.
- **E.** Free Choice of Provider. In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the State has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.
- **F. FFP Limitation**. In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.
- **G. Fair Hearing:** The State provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. **Appendix F** specifies the State's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.
- H. Quality Improvement. The State operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the State assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The State further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the State will implement the Quality Improvement Strategy specified in Appendix H.
- I. Public Input. Describe how the State secures public input into the development of the waiver: A statutorily based Board, the Advisory Committee on Services to Persons with Developmental Disabilities (ACSPDD), reviews and approves all policy and provides feedback and recommendations regarding all policy changes. This Board includes members and their advocates. The Governor's' Conference on Developmental Disabilities, held annually, routinely holds public forums related to services.

On March 5, 2013 information regarding the proposed waiver amendments was provided at the OHCA bi-monthly Tribal Consultation. No comments or questions were received from Tribal members or any others associated with the Tribes.

On February 6, 2014 the proposed waiver amendments were posted at the OHCA website for public comment. No comments regarding the amendments were received.

On August 5, 2014, OHCA submitted a request for amendment regarding changing from a 209(b) to SSI Criteria state and transiton plan. After review from CMS, OHCA was instructed to unsubmit the waivers for completion of the waiver specific transition plan.

On September 8, 2014, OHCA successfully unsubmited the waiver amendment.

On January 15, 2015 OHCA posted the transition plan for public comment until February 15, 2015. OHCA received one comment to the website and no mailed in comments. The comment is as follows: "The adult companion program is the best program there is. My son was in it for 12 years then had to move to daily living supports this was a disaster". The comment did not reference the amendment or transition plan. The comment was in reference to the Department of Labor policy changes and did not require a follow up comment.

On January 18, 2015, OHCA had notices published in the five largest newspapers (Daily Oklahoman, Tulsa World, Lawton Constitution, Norman Transcript and Tulsa Business & Legal News (Broken Arrow). The notices informed the community of the public meeting, date, time and location. The notice also provided information on where the community could access the transition plans and where to submit comments.

On February 3, 2015, OHCA held a public meeting to garner feedback from the community, stakeholders, members, providers and agency partners on the waiver transition plans. There was one comment from an advocacy member seeking clarification on the type of surveys used for residential settings. In order to provide you with the question and answer we have paraphrased the comment as follows: Will the state use the core indicators as a baseline as well as the OK AIM survey? Our partnering agency was able to satisfactorily answer the question as follows: Yes, the core indicators and OK AIM survey is used as a baseline. There was no further comment; therefore, no amendment was needed to the transition plan.

http://www.okhca.org/individuals.aspx?id=16904 http://www.okhca.org/providers.aspx?id=12003

On January 5, 2016 the OHCA Tribal Consultation meeting included a presentation of the proposed waiver renewal application.

The Homeward Bound renewal application was placed on the OHCA website for public comment from January 26, 2016 through February 25, 2016.

- J. Notice to Tribal Governments. The State assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.
- K. Limited English Proficient Persons. The State assures that it provides meaningful access to waiver services by Limited English Proficient persons in accordance with: (a) Presidential Executive Order 13166 of August 11, 2000 (65 FR 50121) and (b) Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 August 8, 2003). Appendix B describes how the State assures meaningful access to waiver services by Limited English Proficient persons.

8. Authorizing Signature

This document, together with the attached revisions to the affected components of the waiver, constitutes the State's request to amend its approved waiver under §1915(c) of the Social Security Act. The State affirms that it will abide by all provisions of the waiver, including the provisions of this amendment when approved by CMS. The State further attests that it will continuously operate the waiver in accordance with the assurances specified in Section V and the additional requirements specified in Section VI of the approved waiver. The State certifies that additional proposed revisions to the waiver request will be submitted by the Medicaid agency in the form of additional waiver amendments.

Specify the transition	n plan for the waiver:	

Attachment #2: Home and Community-Based Settings Waiver Transition Plan

Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301(c) (6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required.

Note that Appendix C-5 <u>HCB Settings</u> describes settings that do not require transition; the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here.

Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state's HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter "Completed" in this field, and include in Section C-5 the information on all HCB settings in the waiver.

Oklahoma Transition Plan for HCBS Setting Compliance for the Homeward Bound Waiver (399)

Purpose

The Centers for Medicare and Medicaid Services (CMS) published its final rule related to Home and Community Based Services (HCBS) for Medicaid funded long-term services and supports provided in residential and non-residential home and community based settings. The final rule took effect March 17, 2014. States are required to submit transition plans to CMS within a year of the effective date indicating how they intend to comply with the new requirement within a reasonable time period. If states amend or renew any of their currently operating waivers or state plan amendments prior to the effective date, that action serves as a trigger for the state to submit a transition plan for all its waivers under 1915(c), as well as any state plan amendments under 1915(i) or 1915(k) within 120 days of the amendment/renewal submission. The following is Oklahoma's amended statewide transition plan pursuant to this requirement.

Background

This document describes the Statewide Transition Plan (SWTP) of the Oklahoma Health Care Authority (OHCA), the single State Medicaid Agency, as required by the CMS final regulation related to new federal requirements for home and community-based (HCBS) settings. This SWTP includes the state's assessment of its regulations, standards, policies, licensing requirements, and other provider requirements to ensure settings comply with the new federal requirements. Additionally, the transition plan will describe action the state proposes to assure full and on-going compliance with the HCBS settings requirements.

Overview

Oklahoma administers/operates six 1915 (c) waivers. There are approximately 26,106 individuals served in the State of Oklahoma through one of these 1915 (c) waivers. Oklahoma does not currently offer services through the state plan under 1915 (i) or 1915 (k) authority. Oklahoma operates two waiver programs with a nursing facility level of care designation and four waiver programs with an ICF/ID level of care designation. Across the six waiver programs, there are eight distinct settings utilized among Home and Community Based Waiver members, that does not include the member's owned or family owned home. This document summarizes the State's preliminary assessment activities and its proposed strategy for continuous monitoring and remediation of HCBS settings for both the aged and physically disabled (NF-LOC) waivers and the developmental disabilities waivers (ICF/ID LOC). 3

Section A: NF LOC Waivers

Introduction

Oklahoma operates two 1915(c) waivers with a nursing facility (NF) level of care designation serving approximately 21,000 individuals per month in community settings. The State conducted a review of all of its applicable State statutes, administrative rules, approved waivers, provider requirements, and service specifications pertaining to the HCBS settings. The results of the State's systemic review are located in Appendix 1.

The following are the approved NF LOC Waiver Programs.

Medically Fragile – Serves individuals 19 years of age and older who meet hospital and/or skilled nursing level of care. The purpose of the waiver is to provide assistance for families who require long-term supports and services to maintain the medically fragile member in the family home while meeting their unique medical needs. Daily operation of this waiver is performed by the Oklahoma Health Care Authority.

ADvantage – Serves frail elderly individuals age 65 or older and adults age 21 and older with physical disabilities that would otherwise require placement in a nursing facility. Daily operation of this waiver is the responsibility of the Department of Human Services Aging Services (DHS-AS). The Oklahoma Health Care Authority retains administrative oversight of the waiver.

I. Assessment Methodology & Continued Monitoring

The Oklahoma Department of Human Services (DHS), Aging Services (AS), Medicaid Services Unit (MSU), Quality Assurance/Improvement (QAI) department, Provider Audit team conducts an annual on-site provider agency audit. Audits are completed using a representative sample of case records of Members receiving services in the Adult Day Health (ADH) and/or who reside in an Assisted Living facility (AL). Included in each audit is a survey of Member perception. Member Perception contacts are made with Members who were randomly selected for provider audit review in their ADH/AL setting, in the Member's home, or via telephone. Currently DHS-AS has been working with DHS, Developmental Disabilities Services (DDS), to complete Adult Day Site Visit Reports at the Adult Day Centers. DHS-AS Medicaid Services Unit is in the process of developing an Adult Day Health (ADH) and Assisted Living (AL) Consumer-Focused Quality Care Review (C-FQCR) tool during SFY16, to be used beginning SFY17. The C-FQCR tools are based on the provider agencies contractual documents, Oklahoma Administrative Code (OAC), Oklahoma statutes, and HCB Setting Final Rules. The tool is designed to measure provider compliance with defined standards and adherence to the waiver requirements, including Member choice of services and provider, training, compliance with delivery of services as authorized. The tool will also survey Member's perception of service delivery performance and support to integrate into the greater community. The Provider Audit team is responsible for monitoring and tracking provider's progress in complying with the performance measures and any necessary remediation. Each review includes a plan of correction that the agency completes, as well as a follow-up visit if there were any non-compliance issues with any of the requirements. 4

Population: All Members with service plans active during the reporting period

Sample Size/Methodology: Random cumulative sample selected according to the percentage of Members served by a single ADH/AL provider as a proportion of the total number of Members served receiving ADH/AL services on the Waiver. Sample size will be validated utilizing Raosoft Survey Design.

II. Assessment Process

The proposed action steps and timelines for the statewide transition plan are outlined in the grids found in Appendices 3 & 4. The proposed timelines are contingent upon CMS approval of the plan.

III. Remediation Strategy

a. Remediation

Any provider who scored below 100% on these HCBS settings compliance reviews will be required to complete a plan of correction developed by the review team, complete two progress reports over a 6-month period and a follow-up visit. The Plan of Correction includes the identification and cause of the problem, the proposed action/intervention, a monitoring plan, the person accountable, the implementation and projected completion dates and the expected outcome. The Progress Reports include the status of implementation, what data has been collected, the collection date and the person accountable. The Plan of Correction is submitted within 30 days from the date that the final reports are mailed to the agency and the Progress Reports are due every 30 days after the Plan of Correction is approved by the Programs Assistant Administrator of the Quality Assurance/Improvement department or designee. The Follow-up Audit is completed during the month following the final Progress Report and includes only those Conditions that required a Plan of Correction.

b. Improvement

Full compliance is requested for all HCB Setting requirements, as well as other performance measures to be reviewed during the audit. During this initial year of auditing, both the Quality Assurance and Improvement Advisor and the Quality Assurance and Improvement Programs Supervisor, will work with providers to come into full compliance on all HCB settings. Trainings have been conducted with providers to explain the monitoring method and answer any questions.

c. Plan for Relocation

1. Each Member has an individualized person-centered Service Plan, prepared by the ADvantage Case Manager in conjunction with the Interdisciplinary Team (IDT), completed during each Service Plan year or when living arrangements are modified. One section of the Service Plan is Life Transition Planning. In this area, contingency plans list choices by the Member if they can no longer stay at the assisted living and the parties available to assist with this transition. Also included is a goal addressing what

will happen to the Member's belongings, should the Member have to move into an NF.

- 2. Each Member has an individualized person-centered Services Backup Plan crafted by the ADvantage Case Manager in conjunction with the IDT team completed during each Service Plan year or when living arrangements are modified. This Services Backup Plan includes contingency plans for direct care assistance, critical health and supportive services, equipment repair or replacement, medications, DME supplies, transportation, etc. First, second, and third tier designated backups are also listed on the plan. The plan is signed by the Member, ADvantage Case Manager and any witnesses, if applicable.
- 3. Should the setting fail to reach compliance, Members, ADvantage Case Managers and the IDT will strategize for all possible living options available in the community. Immediate coordination with the ADvantage Case Manager and all other IDT members requested by the Member are critical in determining the wishes of the Member and the options available to them in a somewhat limited timeframe.

Some of the options available would be as follows:

Assisted Living

- •Transferring to another certified ADvantage Assisted Living Center
- •Home with HCBS services and informal supports
- •Home with Adult Day Health services
- •Explore all assistance and living arrangements with family, friends
- •Nursing facility placement (if necessary)

Adult Day Health

- •Transferring to another Adult Day Health facility
- •Remaining in the home with PCA services in place, in conjunction with informal supports
- •Move to a certified ADvantage Assisted Living Center
- •Explore all assistance and living arrangements with family, friends.
- •Nursing facility placement (if necessary)

IV. Baseline Assessment Process and Results

Baseline assessments were completed from August 2014 to March 2015. Providers received a survey via electronic mail and follow-up phone calls. The survey consisted of questions from the CMS Final Rule Exploratory Questions document. Follow-up calls were made to ensure that providers completed the survey in the allotted time frame. Surveys were sent to the entire NF LOC waiver setting locations. There was an 80% response rate on the survey. The State did reach out to those providers that did not respond to the survey. The State intends to assess these individuals in the next round of surveys through the annual provider audit process discussed in Section I, which includes a site visit. Assessment results indicate that 75% of settings assessed comply with the HCBS Final Rule and 25% do not comply. For those settings that were found to be non-compliant, the State will take the steps listed above in the Remediation Section to ensure compliance by March 2019. We estimate based on the baseline assessments that at least 75% of all settings comply with the HCBS Final Rule and 25% are non-compliant. A more detailed overview of the survey and the survey results can be found in Appendix 3. Section B: ICF/ID Waivers

Introduction

Oklahoma operates four home and community-based waivers which require an ICF/ID level of care. Average monthly enrollment in these waivers is approximately 5,382. In accordance with Title 340 Chapter 100 of the Oklahoma Administrative Code (OAC), the ICF/ID level of care is mutually exclusive from the nursing facility levels of care, which are necessary for enrollment in the waivers administered and operated by DHS DDS. The State conducted a review of all of its applicable State statutes, administrative rules, approved waivers, provider requirements, and service specifications. The results of the State's systemic review are located in Appendix 2.

The following are the approved ICF/ID Waiver Programs. Daily operation of each of these waivers is the function of the Oklahoma Department of Human Services – Developmental Disabilities Services.

Community – Serves individuals who are 3 years of age and older who have intellectual disabilities and certain persons with related conditions who would otherwise require placement in an ICF/ID.

Homeward Bound – Serves individuals who are 18 years of age and older who have intellectual disabilities and certain persons with related conditions who (1) would otherwise require placement in an ICF/ID; and (2) have been certified by the U.S. District Court for the Northern District of Oklahoma as being members of the plaintiff class in Homeward Bound et al. v. The Hissom Memorial Center et al., Case No. 85-C-437-e.

In-Home Supports Waiver for Adults – Serves the needs of individuals 18 years of age and older with intellectual disabilities who would otherwise require placement in an ICF/ID.

In-Home Supports Wavier for Children – Serves the needs of children ages 3 through 17 years with intellectual disabilities who

would otherwise require placement in an ICF/ID

I. Assessment Methodology & Continued Monitoring

An annual performance survey is conducted with agencies providing services through a Home and Community Based Waiver, to assess compliance with expectations defined in the agency's contract. A random sample is selected by DHS Office of Planning, Research and Statistics utilizing SPSS software. Surveys are conducted during each state fiscal year with providers of residential, vocational, or non-medical home supports. A representative sample of service 7 recipients from each of the four waivers is selected and then organized by provider agency who serves each service recipient included in the random sample. Notification is given to providers in the survey sample of when the survey will be completed. Surveys are completed through on-site visits.

II. Assessment Process

Developmental Disabilities Services (DDS) Quality Assurance staff review all applicable rules and provider contracts before the site visit. During the site visit, DDS Quality Assurance staff observes and conduct interviews with service recipients and staff involved in each type of service provided by the agency. Observations and interviews occur during various times of service delivery. Quality Assurance staff members evaluate information obtained from observations, interviews, and records reviewed in the context of appropriate and applicable contract standards, state, and federal rules. The survey tools utilized by the Quality Assurance team have been revised to specifically address requirements for home and community based settings. Once the site visit is complete, the DDS Quality Assurance team conducts an Exit conference with the provider agency, where the findings of the review are presented. The proposed action steps and timelines for the statewide transition plan are outlined in the grids found in Appendices 3 & 4. The proposed timelines are contingent upon CMS approval of the plan.

III. Remediation Strategy

Provider agencies surveyed by DD Quality Assurance Staff are given two weeks after the exit conference to send the Quality Assurance Staff a written response that identifies a date by which the agency will comply with cited requirements. The projected resolution date must be within two months of the exit conference. Any requests beyond two months of the date of the exit conference must be accompanied by a justification statement. Approval of extended resolution dates occurs only upon the presentation of evidence that extensive change in agency management systems or extensive expenditures is essential to the resolution of the issue. If a provider agency wishes to contest the findings of the performance review, the agency must submit a written appeal notice within two weeks of the exit conference. The written appeal notice does not relieve the agency from the responsibility to achieve resolution of contract deficiencies within two months from the date of the exit conference unless the appeal is approved. Provider agencies that receive citations will be re-surveyed to assess resolution of identified contract and rule deficiencies. DDS staff will continue to work with individual providers to identify and to achieve compliance within required time frames. Following the re-survey the provider is informed of the results. The provider may submit evidence contesting a citation. Any new citations found during the re-survey will be added to the report of the original survey. If the agency fails to correct cited issues sanctions may occur, including potential relocation of members. This process will continue through June 2018. Beginning July 2018 all settings must be compliant with the HCBS settings regulations. All settings that are not fully compliant with the HCBS settings regulation will be identified and individuals receiving HCBS in 8 those settings will be relocated to a compliant setting. Oklahoma DDS staff will follow person centered planning in the transition process. Individuals will have choice among qualified providers, settings and be provided opportunities to visit several settings and given information to help them understand the various options available. Individuals will be relocated as necessary by March 15, 2019.

IV. Baseline Assessment Process & Results

First quarter provider surveys conducted during the period of July 2015 to September 2015 are being used for baseline information. This baseline assessment information was compiled utilizing the process outlined in the Assessment Methodology and Assessment Process Sections above. The baseline information included the portion of the annual representative sample served by the provider agencies surveyed, which comprised 207 service recipients and 213 different settings Assessment results indicate that 86% of settings assessed comply with the HCBS Final Rule and 14% do not comply. For those settings that were found to be non-compliant, the State will take the steps listed above in the Remediation Section to ensure compliance by March 2019. We estimate based on the baseline assessments that at least 85% of all settings comply with the HCBS Final Rule and 15% are non-compliant. Assessments are conducted to each provider on an annual basis, throughout the year, results are reported quarterly. A more detailed overview of the survey and the survey results can be found in Appendix 4.

Section C: Public Input

Oklahoma hosted meetings to include representatives from advocacy and stakeholder groups as well as the state agencies

involved in operating its 1915(c) waivers. The purpose of the meetings was to plan the State's response to the new CMS rule on home and community based settings and to develop its approach to this statewide transition plan.

The Oklahoma Health Care Authority (OHCA) held a public meeting on March 10, 2015 to educate providers and stakeholders about the federal rules and the transition planning process, as well as to discuss preliminary survey results and answer questions. Final results of the surveys and transition plan was presented at the second public meeting on April 28, 2015.

OHCA held another public meeting on December 7, 2015 in an effort to make the public aware of the response letter from CMS concerning the Statewide Transition Plan, and the States process for making revisions and submitting the revised plan back to CMS. Stakeholders were made aware of the meeting through newspaper advertisements and the OHCA public website. The Public Meeting Notice was included in the 5 major Oklahoma Newspapers. The revised SWTP was posted to the OHCA website on December 15, 2015. There were no comments received.

The state assures that the settings transition plan included with this waiver amendment or renewal will be subject to any provisions or requirements included in the State's approved Statewide Transition Plan. The State will implement any required changes upon approval of the Statewide Transition Plan and will make conforming changes to its waiver when it submits the next amendment or renewal.

Additional Needed Information (Optional)
Provide additional needed information for the waiver (optional):
Provide additional needed information for the waiver (optional): Appendix A: Waiver Administration and Operation 1. State Line of Authority for Waiver Operation. Specify the state line of authority for the operation of the waiver (select one): The waiver is operated by the State Medicaid agency. Specify the Medicaid agency division/unit that has line authority for the operation of the waiver program (select one): The Medical Assistance Unit. Specify the unit name: (Do not complete item A-2) Another division/unit within the State Medicaid agency that is separate from the Medical Assistance Unit. Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency.
○ The waiver is operated by the State Medicaid agency.
O The Medical Assistance Unit.
Specify the unit name:
(Do not complete item A-2)
· · · · · · · · · · · · · · · · · · ·
(Complete item 4.2 m)
(Complete item A-2-a).

In accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this policy is available through the Medicaid agency to CMS upon request. (Complete item A-2-b).

The waiver is operated by a separate agency of the State that is not a division/unit of the Medicaid agency.

Oklahoma Department of Human Services, Developmental Disabilities Services Division (DDSD)

Specify the division/unit name:

Appendix A: Waiver Administration and Operation

2. Oversight of Performance.

a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency. When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities:

As indicated in section 1 of this appendix, the waiver is not operated by another division/unit within the State Medicaid agency. Thus this section does not need to be completed.

b. Medicaid Agency Oversight of Operating Agency Performance. When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:

The single State Medicaid Agency, OHCA, and the operating agency, DHS, have entered into an Interagency Agreement to assure cooperation and collaboration in performance of their respective duties in the provision of waiver services. The purpose of this Agreement is to satisfy State and Federal requirements regarding the role of OHCA and DHS, to outline financial obligations and arrangements between these agencies, and to define the roles of each agency. OHCA performs continuous monitoring of DHS following a monthly reporting schedule. However, additional monitoring, if required, occurs on an as needed basis.

The Interagency Agreement between OHCA and DHS is reviewed at least annually. Amendments can be executed as warranted at any time.

Responsibilities afforded to OHCA as related to fiscal matters are outlined in Oklahoma Administrative Code (OAC) 317:30. OHCA works with DHS to establish rates for waiver services. The OHCA Board of Directors has final approval of all proposed rates and rate changes OHCA monitors waiver expenditures and enrollment monthly using data in the MMIS. In addition, a SoonerCare Fast Facts on Home and Community-Based Services Waivers is published quarterly along with OHCA's Long Term Care

Administration monthly Fast Facts. These documents are presented by the State Medicaid Director in monthly meetings of the OHCA Board.

The OHCA Level of Care Evaluation Unit (LOCEU) conducts the initial screening/evaluation to determine or confirm a member's level of care, including verifying a diagnosis of mental retardation, and approves/denies waiver eligibility. DHS/DDS Case Management Supervisors perform re-evaluations unless a significant change occurs which questions the qualifying diagnosis of a member. When a significant change affecting the members qualifying diagnosis is suspected, Case Managers gather necessary documentation and submit to OHCA LOCEU to determine level of care.

DHS/DDS conducts an audit which specifically includes a review of re-evaluations and reports findings to OHCA. OHCA representatives meet regularly with staff of DDS. DDS provides regular summary reports reviewing discovery and remediation activities for the indicators in the Quality Improvement Strategy including those for the level of care and end of year summary data for all quality indicators. Discussion of any identified issues or trends and suggestions for systems or other remediation or improvements are shared.

DHS/DDS gathers information to verify non-licensed provider applications meet provider qualifications prior to submission to OHCA for final provider Agreement approval.

OHCA enters into Agreements with providers and verifies provider qualifications upon enrollment into the waiver program. Oklahoma has numerous Boards or agencies that license certain health practitioners. OHCA's provider Agreement requires providers to notify OHCA if their license is, ... suspended, revoked or any other way modified by the licensing Board/agency. Additionally, on a monthly basis, OHCA Provider Enrollment staff receive a file from the Centers for Medicare & Medicaid Services (CMS) that lists sanctioned

providers. This listing is compared against OHCA's master provider file, and sanctioned providers are removed from participation in the waiver program as of the effective date of the sanction. All new providers wishing to participate in the waiver program are also checked against this listing.

In accordance with the Interagency Agreement, OHCA and DHS/DDS coordinate policy issues related to the operation of the waiver program including changes in policy and procedures. All proposed rules are reviewed and approved by the Advisory Committee on Services to Persons with Developmental Disabilities (ACSPDD), of which OHCA is a participating member; the OHCA Medical Advisory Committee; and the OHCA Board prior to submission to the Governor for final approval.

DHS/DDS monitors non-licensed providers for compliance and provides results to OHCA. OHCA is notified when Administrative Inquiries and follow-ups as well as annual performance reviews and follow-ups are completed. DHS/DDS Quality Assurance Unit also monitors the performance of DHS/DDS by conducting annual performance reviews of DHS/DDS member records to ensure member services are provided in an amount, duration and frequency which supports member Plans. DHS/DDS Quality Assurance documents are posted to a web-based system upon completion. The web-based system may be accessed by OHCA at any time. OHCA representatives are provided summary reports to review quality indicators on a regular basis. Follow-ups are sent to OHCA as they are completed.

The Area Survey monitoring process is a record review of the DHS/DDS Case Manager record, based on a statistically significant random sample of members receiving supports through the waiver. One quarter of the representative sample is monitored each quarter. This results in a complete representative sample being reviewed each year. The record reviews include a review of service plans to assure: all member needs are addressed and preferences considered; they are developed according to policy and updated/revised as needed ensuring an interim meeting was held within 30 days of identification or notification of the need for change in authorization of waiver services; services are delivered in accordance with the service plan including the type, scope, amount and frequency specified in the service plan; and that members are afforded choice between waiver services and institutional care and between/among waiver services and providers. The Area Survey record reviews provide a process for monitoring the health and welfare of members, assuring Case Managers: conduct face-to-face visits as required; address issues that could put the member's health or welfare at risk; and provide follow-up on issues identified in incident reports. The results of the Area Survey monitoring process are shared with OHCA and included in summary reports.

The Performance Survey is an annual monitoring site visit in which all provider agencies participate, providing data based on an aggregated statistically significant sample of members receiving waiver services and an aggregated statistically significant sample of provider agency staff. The Performance Survey includes all waivers for which the provider agency contracts. Monitoring of service plan development and implementation includes: a review of provider agency records for a random sample of waiver members; and home visits and interviews with waiver members and other pertinent people, for those sampled. The annual monitoring of nonlicensed/non-certified provider staff includes a review of personnel records for a sampling of staff assigned to provide supports, to ensure all required employment background checks have been obtained and all required training has taken place. The Performance Survey process provides for a sampling of financial records to ensure compliance with provider Agreements. DHS/DDS policy provides the expectation that all identified barriers to performance consistent with the expectation of regulatory policy and contracts are resolved no later than 60 days following the completion of the annual Performance Survey. Failure to correct identified barriers could result in administrative sanctions. The results of Performance Surveys are summarized and shared with OHCA in regular reports.

Appendix A: Waiver Administration and Operation

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

i. Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of monthly prior authorizations(denominator) submitted to and reviewed by OHCA that are within approved levels (numerator).

Appendix B: Participant Access and Eligibility

B-1: Specification of the Waiver Target Group(s)

a. Target Group(s). Under the waiver of Section 1902(a)(10)(B) of the Act, the State limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:

				Maximum Age	
Target Group	Included	Target SubGroup	Minimum Age	Maximum Age	No Maximum Age
A sad on Disal	alad an Dath Can	and a		Limit	Limit
Aged or Disabled, or Both - General					
		Aged			
		Disabled (Physical)			
		Disabled (Other)			
Aged or Disab	oled, or Both - Spe	cific Recognized Subgroups			
		Brain Injury			
		HIV/AIDS			
		Medically Fragile			
		Technology Dependent			
✓ Intellectual Disability or Developmental Disability, or Both					
		Autism			
		Developmental Disability			
	✓	Intellectual Disability	21		✓
Mental Illness	Mental Illness				
		Mental Illness			
		Serious Emotional Disturbance			

b. Additional Criteria. The State further specifies its target group(s) as follows:

Homeward Bound is further limited to individuals over the age of 21 who have been certified by the United States District Court for the Northern District of Oklahoma as a member of the Plaintiff Class in Homeward Bound et al., Case No. 85-C-437-e.

c. Transition of Individuals Affected by Maximum Age Limitation. When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit (select one):
Not applicable. There is no maximum age limit
The following transition planning procedures are employed for participants who will reach the waiver's maximum age limit.
Specify:
pendix B: Participant Access and Eligibility
B-2: Individual Cost Limit (1 of 2)
 a. Individual Cost Limit. The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (select one). Please note that a State may have only ONE individual cost limit for the purposes of determining eligibility for the waiver: No Cost Limit. The State does not apply an individual cost limit. Do not complete Item B-2-b or item B-2-c.
Cost Limit in Excess of Institutional Costs. The State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the State. Complete Items B-2-b and B-2-c.
The limit specified by the State is (select one)
○ A level higher than 100% of the institutional average.
Specify the percentage:
Other
Specify:
Institutional Cost Limit. Pursuant to 42 CFR 441.301(a)(3), the State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. Complete Items B-2-b and B-2-c.
Ost Limit Lower Than Institutional Costs. The State refuses entrance to the waiver to any otherwise qualified individual when the State reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the State that is less than the cost of a level of care specified for the waiver.
Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waive participants. Complete Items B-2-b and B-2-c.
The cost limit specified by the State is (select one):
The following dollar amount:
Specify dollar amount:

	The dollar amount (select one)	
	igcirc Is adjusted each year that the waiver is in effect by applying the following formula:	
	Specify the formula:	
		^ \
	May be adjusted during the period the waiver is in effect. The State will submit a waiver amendment to CMS to adjust the dollar amount.	
	○ The following percentage that is less than 100% of the institutional average:	
	Specify percent:	
	Other:	
	Specify:

Answers p	provided in Appendix B-2-a indicate that you do not need to complete this section.	
spe	ethod of Implementation of the Individual Cost Limit. When an individual cost limit is specified in Item B-2-a cify the procedures that are followed to determine in advance of waiver entrance that the individual's health and lfare can be assured within the cost limit:	,
		^
par tha	rticipant Safeguards. When the State specifies an individual cost limit in Item B-2-a and there is a change in the ticipant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amout exceeds the cost limit in order to assure the participant's health and welfare, the State has established the following reguards to avoid an adverse impact on the participant (check each that applies): The participant is referred to another waiver that can accommodate the individual's needs.	unt
	Additional services in excess of the individual cost limit may be authorized.	
	Specify the procedures for authorizing additional services, including the amount that may be authorized:	
	Other safeguard(s)	
	Specify:	
		V

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

a. Unduplicated Number of Participants. The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The State will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative

appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

Table: B-3-a

Waiver Year	Unduplicated Number of Participants
Year 1	667
Year 2	667
Year 3	650
Year 4	640
Year 5	640

- **b.** Limitation on the Number of Participants Served at Any Point in Time. Consistent with the unduplicated number of participants specified in Item B-3-a, the State may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the State limits the number of participants in this way: (select one):
 - The State does not limit the number of participants that it serves at any point in time during a waiver year.
 - The State limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

Table: B-3-h

Waiver Year	Maximum Number of Participants Served At Any Point During the Year
Year 1	
Year 2	
Year 3	
Year 4	
Year 5	

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

- **c. Reserved Waiver Capacity.** The State may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (*select one*):
 - Not applicable. The state does not reserve capacity.
 - The State reserves capacity for the following purpose(s).

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (3 of 4)

- **d. Scheduled Phase-In or Phase-Out.** Within a waiver year, the State may make the number of participants who are served subject to a phase-in or phase-out schedule (*select one*):
 - The waiver is not subject to a phase-in or a phase-out schedule.

The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.
e. Allocation of Waiver Capacity.
Select one:
Waiver capacity is allocated/managed on a statewide basis.
○ Waiver capacity is allocated to local/regional non-state entities.
Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:
\Diamond
f. Selection of Entrants to the Waiver. Specify the policies that apply to the selection of individuals for entrance to the waiver:
Individuals who are certified as members of the Plaintiff Class in Homeward Bound et al. v. The Hissom Memorial Center may enter the waiver at any time as long as all other factors of eligibility are met.
Appendix B: Participant Access and Eligibility
B-3: Number of Individuals Served - Attachment #1 (4 of 4)
Answers provided in Appendix B-3-d indicate that you do not need to complete this section.
Appendix B: Participant Access and Eligibility
B-4: Eligibility Groups Served in the Waiver
 a. 1. State Classification. The State is a (select one): §1634 State SSI Criteria State 209(b) State
 2. Miller Trust State. Indicate whether the State is a Miller Trust State (select one): No Yes
b. Medicaid Eligibility Groups Served in the Waiver. Individuals who receive services under this waiver are eligible under the following eligibility groups contained in the State plan. The State applies all applicable federal financial participation limits under the plan. <i>Check all that apply</i> :
Eligibility Groups Served in the Waiver (excluding the special home and community-based waiver group under 42 CFR §435.217)
Low income families with children as provided in §1931 of the Act
✓ SSI recipients
Aged, blind or disabled in 209(b) states who are eligible under 42 CFR §435.121
✓ Optional State supplement recipients
Optional categorically needy aged and/or disabled individuals who have income at:
Select one:

	100% of FPL% of FPL, which is lower than 100%.		
	Specify percentage amount: Other specified groups (include only statutory/regulatory reference in the State plan that may receive services under this waiver) Specify:	ce to reflect the additional groups	
	Specify.		
Appendi	ix B: Participant Access and Eligibility		

B-5: Post-Eligibility Treatment of Income (1 of 7)

In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Posteligibility applies only to the 42 CFR §435.217 group.

a. Use of Spousal Impoverishment Rules. Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:

Note: For the five-year period beginning January 1, 2014, the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR §435.217 group effective at any point during this time period.

▽ Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the State uses spousal post-eligibility rules under §1924 of the Act. Complete Items B-5-e (if the selection for B-4-a-i is SSI State or §1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time periods before January 1, 2014 or after December 31, 2018.

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018 (select one).

Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group.

In the case of a participant with a community spouse, the State elects to (select one):

- Use spousal post-eligibility rules under §1924 of the Act. (Complete Item B-5-b (SSI State) and Item B-5-d)
- Use regular post-eligibility rules under 42 CFR §435.726 (SSI State) or under §435.735 (209b State) (Complete Item B-5-b (SSI State). Do not complete Item B-5-d)
- \cup Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The State uses regular posteligibility rules for individuals with a community spouse.

(Complete Item B-5-b (SSI State). Do not complete Item B-5-d)

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (2 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

b. Regular Post-Eligibility Treatment of Income: SSI State.

The State uses the post-eligibility rules at 42 CFR 435.726 for individuals who do not have a spouse or have a spouse who is not a community spouse as specified in §1924 of the Act. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following allowances and expenses from the waiver participant's income:

i.

ii.

Allowance for the needs of the waiver participant (select one):	
The following standard included under the State plan	
Select one:	
 SSI standard Optional State supplement standard Medically needy income standard The special income level for institutionalized persons 	
(select one):	
 300% of the SSI Federal Benefit Rate (FBR) A percentage of the FBR, which is less than 300%

	Not Applicable (see instructions)
	AFDC need standard
	Medically needy income standard
	O The following dollar amount:
	Specify dollar amount: The amount specified cannot exceed the higher of the need standard for a
	family of the same size used to determine eligibility under the State's approved AFDC plan or the medically
	needy income standard established under 42 CFR §435.811 for a family of the same size. If this amount changes, this item will be revised.
	The amount is determined using the following formula:
	Chao: fu
	Specify:
	^
	×
	Other
	Specify:
iv.	Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 §CFR 435.726:
	a. Health insurance premiums, deductibles and co-insurance charges
	b. Necessary medical or remedial care expenses recognized under State law but not covered under the State's
	Medicaid plan, subject to reasonable limits that the State may establish on the amounts of these expenses.
	Select one:
	O Not Applicable (see instructions) Note: If the State protects the maximum amount for the waiver participant not applicable must be selected.
	The State does not establish reasonable limits.
	○ The State establishes the following reasonable limits
	Specify:
	V

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (3 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

c. Regular Post-Eligibility Treatment of Income: 209(B) State.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (4 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

i. Allowance for the personal needs of the waiver participant

ect one):	
SSI standard

ii. If the allowance for the personal needs of a waiver participant with a community spouse is different from the amount used for the individual's maintenance allowance under 42 CFR §435.726 or 42 CFR §435.735, explain why this amount is reasonable to meet the individual's maintenance needs in the community.

Select one:

• Allowance is the same

Allowance is different.	
Explanation of difference:	
	^
	V

- iii. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR §435.726:
 - a. Health insurance premiums, deductibles and co-insurance charges
 - b. Necessary medical or remedial care expenses recognized under State law but not covered under the State's Medicaid plan, subject to reasonable limits that the State may establish on the amounts of these expenses.

Select one:

- Not Applicable (see instructions) Note: If the State protects the maximum amount for the waiver participant, not applicable must be selected.
- The State does not establish reasonable limits.
- The State uses the same reasonable limits as are used for regular (non-spousal) post-eligibility.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (5 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

e. Regular Post-Eligibility Treatment of Income: SSI State - 2014 through 2018.

Answers provided in Appendix B-5-a indicate the selections in B-5-b also apply to B-5-e.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (6 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

f. Regular Post-Eligibility Treatment of Income: 209(B) State - 2014 through 2018.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

g. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules - 2014 through 2018.

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate the selections in B-5-d also apply to B-5-g.

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the State provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

a. Reasonable Indication of Need for Services. In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the

provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the State's policies concerning the reasonable indication of the need for services: i. Minimum number of services. The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is: 1 ii. Frequency of services. The State requires (select one): • The provision of waiver services at least monthly Monthly monitoring of the individual when services are furnished on a less than monthly basis If the State also requires a minimum frequency for the provision of waiver services other than monthly (e.g., *quarterly), specify the frequency:* b. Responsibility for Performing Evaluations and Reevaluations. Level of care evaluations and reevaluations are performed (select one):

\cup	Directly	by	the	Medicaid	agency	

- By the operating agency specified in Appendix A
- By an entity under contract with the Medicaid agency.

Specify the entity:

Other

Specify:

The OHCA Level of Care Evaluation Unit performs all initial evaluations and reevaluations where there appears to be a significant change which questions the qualifying diagnosis. All other annual reevaluations are conducted by DHS DDS Case Management Supervisors.

c. Qualifications of Individuals Performing Initial Evaluation: Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

A person must be a Qualified Mental Retardation Professional (QMRP) to perform initial evaluations of level of care for waiver applicants. To qualify as a QMRP a person must have a Baccalaureate Degree in a social science, behavioral science or human services field and have at least one year of experience working directly with persons with mental retardation or other developmental disabilities.

d. Level of Care Criteria. Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the State's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

Information used to conduct an initial evaluation is submitted to OHCA by the DHS/DDS Intake Case Manager. This information includes a psychological evaluation current within 12 months of requested approval date that includes a full scale functional and/or adaptive assessment and a statement of age of onset of the disability and intelligence testing that yields a full scale intelligence quotient; a social service summary current within 12 months of requested waiver approval date that includes a developmental history; a medical evaluation current within 90 days of requested waiver approval date; a completed ICF/IID Level of Care Assessment form; and proof of disability according to Social Security Administration (SSA) guidelines. If a disability determination has not been made by SSA, OHCA may make a disability determination using the same guidelines as SSA. Annual reevaluations are conducted by DHS/DDS Case Management

	Supervisors unless a significant change has occurred which questions a member's qualifying diagnosis. In those cases, the same, but current, information used for the initial evaluation is submitted to OHCA for reevaluation. Relevant policy may be found at OAC 317:40-1-1.
e.	Level of Care Instrument(s). Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (select one):
	• The same instrument is used in determining the level of care for the waiver and for institutional care under the State Plan.
	• A different instrument is used to determine the level of care for the waiver than for institutional care under the State plan.
	Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.
f.	Process for Level of Care Evaluation/Reevaluation: Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:
g.	The same process is used for the reevaluation as the initial evaluation except the DHS/DDS Case Management Supervisor is responsible for conducting routine reevaluations. The OHCA LOCEU conducts initial evaluations and reevaluations that question the qualifying diagnosis. Reevaluation Schedule. Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (select one):
	○ Every three months
	○ Every six months
	Every twelve months
	Other schedule Specify the other schedule:
h.	Qualifications of Individuals Who Perform Reevaluations. Specify the qualifications of individuals who perform reevaluations <i>(select one)</i> :
	The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.
	• The qualifications are different.

Specify the qualifications:

OHCA Level of Care Evaluation Unit staff must be a Qualified Mental Retardation Professional (QMRP) to perform initial evaluations of level of care for waiver applicants. To qualify as a QMRP, a person must have a Baccalaureate Degree in a social science, behavioral science or human services field and have at least one year of experience working directly with persons with mental retardation or other developmental disability.

Annual reevaluations may be conducted by DHS/DDS Case Management Supervisors. Requirements for an DHS/DDS Case Management Supervisor consist of a Bachelor's Degree in a human services field and one year of experience working directly with individuals with developmental disabilities and four years of additional qualifying professional experience or possession of a valid permanent Oklahoma license as approved by the Oklahoma Board of Nursing to practice professional nursing and one year working directly with individuals with developmental disabilities.

i. Procedures to Ensure Timely Reevaluations. Per 42 CFR §441.303(c)(4), specify the procedures that the State employs to ensure timely reevaluations of level of care (specify):

DHS/DDS generates a monthly report listing the names of members whose reevaluation is due in 120 days. These reports are provided to appropriate Case Management Supervisors and Case Managers for follow-up action. Case Managers also use a tickler file system to assure timely reevaluations are conducted. Additionally, the training for and practice of DHS/DDS Case Managers is to prepare for reevaluations approximately 90 days prior to a member's annual Team meeting.

j. Maintenance of Evaluation/Reevaluation Records. Per 42 CFR §441.303(c)(3), the State assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

The DHS/DDS Case Manager maintains these records and a copy is maintained electronically in the DDS case management database.

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Level of Care Assurance/Sub-assurances

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:

a. Sub-assurance: An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of applicants(denominator) who had a level of care indicating the need for ICF/IID level of care prior to the receipt of services (numerator).

Data Source (Select one):
Record reviews, off-site
If 'Other' is selected, specify:

b. Sub-assurance: The levels of care of enrolled participants are reevaluated at least annually or as specified in the approved waiver.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

c. Sub-assurance: The processes and instruments described in the approved waiver are applied appropriately and according to the approved description to determine participant level of care.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of initial level of care evaluations (denominator) that are accurately completed by a QMRP(numerator).

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

Freedom of Choice. As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

- i. informed of any feasible alternatives under the waiver; and
- ii. given the choice of either institutional or home and community-based services.
- **a. Procedures.** Specify the State's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

When DHS/DDS determines an individual may require ICF/IID level of care, the individual or his or legal representative is informed of any feasible alternatives under the waiver and is given the choice to receive those services in an institution or through a Home and Community-Based Services (HCBS) waiver. Evidence of this choice is documented initially and annually thereafter using the Documentation of Consumer Choice form that is provided to and signed by the individual or legal representative. This form gives the individual the choice between institutional care and HCBS waiver services and outlines the freedom to choose from any available provider of HCBS waiver services. DHS/DDS Intake staff inform potential members of the services available through the waiver and routinely provides this information verbally and by providing informational pamphlets to potential waiver members and their legal representatives. The DDS Case Manager explains, with detail, the process for authorization of waiver services, the Team process and is also responsible for ensuring completion of the Documentation of Consumer Choice form. Additionally, OHCA policy, OAC 317:30-3-14, assures that any individual eligible for SoonerCare may obtain services from any institution, agency, pharmacy, person, or organization that is qualified to perform the services.

b. Maintenance of Forms. Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

The DDS Case Manager maintains these forms and a copy is maintained electronically in the DDS case management database.

Appendix B: Participant Access and Eligibility

B-8: Access to Services by Limited English Proficiency Persons

Access to Services by Limited English Proficient Persons. Specify the methods that the State uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

The State has entered into a statewide Agreement for interpreter services to include services for Limited English Proficiency (LEP) persons as well as individuals who are deaf.

DHS/DDS employs bilingual Case Managers and DHS forms and pamphlets are available in Spanish.

Appendix C: Participant Services

C-1: Summary of Services Covered (1 of 2)

a. Waiver Services Summary. List the services that are furnished under the waiver in the following table. If case management is not a service under the waiver, complete items C-1-b and C-1-c:

Service Type	Service	
Statutory Service	Adult Day Health	
Statutory Service	Habilitation Training Specialist Services	
Statutory Service	Homemaker	
Statutory Service	Prevocational Services	
Statutory Service	Respite

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable). **Service Type:** Statutory Service Service: **Prevocational Services** Alternate Service Title (if any): **HCBS Taxonomy:** Category 1: **Sub-Category 1:** 04 Day Services 94010 prevocational services Category 2: **Sub-Category 2:** W **Category 3: Sub-Category 3:** Category 4: **Sub-Category 4:** W **Service Definition** (Scope): These services not available under a program funded under section 110 of the Rehabilitation Act of 1973 or section 602(16) and (17) of the Individuals with Disabilities Education Act (20 U.S., 1401(16 and 17)). Prevocational services provide learning and work experiences where the individual can develop general, non-job-task specific strengths and skills that contribute to employability in paid employment in integrated community settings. Services include teaching such concepts as the ability to communicate effectively with supervisors, attendance, task completion, problem solving, stamina building and workplace safety. Community based opportunities provide work experiences including volunteer work, adult learning and training in a variety of locations in the community. Activities included in this service are not primarily directed at teaching specific job skills, but at underlying, habilitative goals, such as attention span and motor skills. All prevocational services will be reflected in the member's Individual Plan (Plan) as reflected in the person centered planning process. Documentation will be maintained in the file of each member receiving this service that: The service is not otherwise available under a program funded under the Rehabilitation Act of 1973 or P.L. 94-142. Each provider agency assesses each member in maximizing employment options. Supplemental or enhanced supports provide assistance addressing behavioral needs related to a dangerous behavior or personal care. Assessments are updated and reviewed annually in the member's Team process. It is the responsibility of each provider to ensure services are provided in the most integrated setting appropriate to meet the member's needs. Specify applicable (if any) limits on the amount, frequency, or duration of this service: All Prevocational Services and Supported Employment services combined may not exceed \$27,000 per 12 months. The Case Manager assists the member to plan in the Team process to meet their needs within the \$27,000 annual limit. If unable to do so, the Case Manager would assist the member to develop an alternative plan to meet their needs. **Service Delivery Method** (check each that applies):

Supported Employment	
Alternate Service Title (if any):	

HCBS Taxonomy:

Category 1:	Sub-Category 1:
03 Supported Employment	93 010 job development ✓
Category 2:	Sub-Category 2:
03 Supported Employment	93 021 ongoing supported employment, individual ✓
Category 3:	Sub-Category 3:
03 Supported Employment	№ 3022 ongoing supported employment, group
Category 4:	Sub-Category 4:

Service Definition (Scope):

Supported employment is conducted in a variety of settings, particularly work sites, in which persons without disabilities are employed. Supported employment includes activities that are outcome based and needed to sustain paid employment at or above the minimum wage in an integrated setting in the general workforce, in a job that meets personal and career goals. When supported employment services are provided at a work site in which persons without disabilities are employed, services may include job analysis, adaptations, training and systematic instruction required by members, and will not include payment for the supervisory activities rendered as a normal part of the business setting. Supported employment consists of job development, assessment, benefits planning, supportive assistance and job coaching up to 100% of on-site intervention. Stabilization or ongoing support is available for those requiring less than 20% on-site intervention.

Supported employment in an individual placement promotes the member's capacity to secure and maintain integrated employment at a job of the member's choice paying at or more than minimum wage. Supported employment in an individual placement may be provided by a co-worker or other job site personnel. The job coach meets qualifications for providers of service.

Stabilization and extended services are ongoing supported employment services needed to support and maintain a member with severe disabilities in an integrated competitive employment site. The service includes regular contacts with the member to determine needs, as well as to offer encouragement and advice. These services are provided when the job coach intervention time required at the job site is 20% or less of the member's total work hours. This service is provided to members who need ongoing intermittent support to maintain employment. Typically this is provided at the work site. Stabilization must identify the supports needed in the member's Individual Plan (Plan) and specify in a measurable manner, the services to be provided to meet the need.

Group placement supports in supported employment are two to eight members receiving continuous support in an integrated work site. Services promote participation in paid employment paying at or more than minimum wage or working to achieve minimum wage. Services promote integration into the workplace and interaction with people without disabilities.

The outcome of supported employment is sustained paid employment at or above minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities in an integrated setting in the general workforce, in a job that meets personal and career goals. Supported employment services furnished under the waiver are not available under a program funded by the Rehabilitation Act of 1973 or the IDEA (20 U.S.C 1401 et seq.). Documentation will be maintained in the file of each member receiving this service that the service is not otherwise available under a program funded through the Rehabilitation Act of 1973, or IDEA (20 U.S.C 1401 et seq.). FFP will not be claimed for incentive payments, subsidies or unrelated vocational training expenses such as the following:

- -Incentive payments made to an employer to encourage or subsidize the employer's participation in a supported employment program;
- -Payments that are passed through to users of supported employment programs; or
- -Payments for vocational training not directly related to a member's supported employment program.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

All Prevocational Service and Supported Employment Services combined may not exceed \$27,000 per 12 months. The Case Manager assists the member to plan in the Team process to meet their need within the \$27,000 annual limit. If they are unable to do so, due to an unexpected change, the Case manager would assist the member to develop an alternative plan to meet their needs.

Sub-Category 4:	
	Sub-Category 2: 1020 health assessment Sub-Category 3: 109020 caregiver counseling and/or training Sub-Category 4:

Service Definition (Scope):

Nursing services provided in the member's home or other community setting are services requiring the specialized skills of a licensed nurse. Nursing services typically include detailed assessment and documentation of the member's health needs, development and implementation of the nursing plan of care, training, and coordination of care with other medical professionals and service providers. Services are provided when nursing services furnished under SoonerCare plan limits are exhausted. The scope and nature of these services do not otherwise differ from nursing services furnished under SoonerCare.

Nursing services are provided on an intermittent or part-time basis and provided on a per visit basis. These intermittent nursing services are targeted toward a prescribed treatment or procedure that must be performed at a specific time or other predictable rate of occurrence and may only be performed by a licensed nurse.

Nursing Services that are targeted toward training and evaluation are authorized for training members and their caregivers on the member's unique health and medical needs.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Nursing services are provided when nursing services furnished under SoonerCare plan limits are exhausted. Additional visits are covered through the waiver for adults. These services are provided to children through SoonerCare, EPSDT.

Nursing services are limited to no more than three visits per day. When services are required for more than two consecutive hours, Nursing services are discontinued and Extended Duty Nursing services are authorized. Nursing services are not authorized in combination with Extended Duty Nursing services.

Nursing services that are targeted toward training and evaluation are billed in 15-minute increments and limited to 16 units (4 hours) per month, not to exceed 96 units per member's plan of care year, absent an exception per policy.

If the member needs additional services, the DHS/DDS Case Manager assists them to identify resources to meet their needs.

Agency Companion Services

HCBS Taxonomy:

Category 1:	Sub-Category 1:	
02 Round-the-Clock Services	92 021 shared living, residential habilitation	
Category 2:	Sub-Category 2:	
	₩	
Category 3:	Sub-Category 3:	
	\\\	
Category 4:	Sub-Category 4:	
	\\	

Service Definition (Scope):

A living arrangement developed to meet the specific needs of the member which provides a shared living arrangement for supervision, supportive assistance, and training in daily living skills and integrates the member into the shared experiences of a family. This companion is an independent contractor of an agency, but is selected by the waiver member, and is usually a person with whom the member has a personal relationship.

Companions may assist or supervise the member with such tasks as meal preparation, laundry and shopping, but do not perform these activities as discrete services. The providers may also perform light housekeeping tasks, which are incidental to the care and supervision of the member. This service is provided in accordance with a therapeutic goal in the plan of care, and is not purely diversional in nature.

The person who serves as the companion is responsible for ongoing supports and is available whenever required by the member to successfully cope with the challenges that may occur in the life of the member.

Agency Companion services are not available to members in combination with Daily Living Support Services, Group Home or Specialized Foster Care Services.

Agency Companion services provide for therapeutic leave payment to enable the provider to retain personal care services during the time a member is out of his or her home for a period of time in excess of 24 hours without direct care staff because of hospitalization or other absence. Therapeutic leave must be authorized and documented in the plan of care.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

A member may receive therapeutic leave for no more than 14 consecutive days per event, not to exceed 60 days per plan of care year.

Service Type:

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute. Service Title: Daily Living Supports		
HCBS Taxonomy:		
Category 1:	Sub-Category 1:	
02 Round-the-Clock Services	92 031 in-home residential habilitation	
Category 2:	Sub-Category 2:	
Category 3:	Sub-Category 3:	
Category 4:	Sub-Category 4:	

Service Definition (Scope):

Daily Living Supports are provided to members in order to enable them to reside successfully in certain community-based settings; accomplishing tasks they would normally do for themselves if they did not have a disability. These services are furnished to adults, who reside in a home that is leased or owned by the member receiving services.

Daily Living Supports provide up to eight (8) hours per day of direct support services. Assistance may go beyond tasks associated with activities of daily living to include assistance with cognitive tasks or the provision of services to prevent a member from harming him or herself.

Daily Living Supports includes house management expenses such as: 1) coordination of procurement of services and supplies, 2) developing and assuring emergency plans are in place and coordination of the overall safety in the home, and 3) assisting members with personal money management.

Daily Living Supports also include training developed to meet the specific needs of members as well as program supervision and oversight. The latter includes 24-hour availability of response staff to meet schedules or unpredictable needs in a way that promotes maximum dignity and independence, and to provide supervision, safety and security.

Additional individual payments will be made for other residential support services such as Habilitation Training Specialist and Homemaker services furnished to a member who is receiving Daily Living Supports who needs more than 8 hours per day of direct support services.

Daily Living Supports provide for therapeutic leave payment to enable the provider to retain personal care services during the time a member is out of his or her home for a period of time in excess of 24 hours without direct care staff because of hospitalization or other absence. Therapeutic Leave must be authorized and documented in the plan of care.

Daily Living Supports services are not available to members in combination with Agency Companion, Group Home or Specialized Foster Care services.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

er

Payment for therapeutic leave may be made for up to 14 consecutive days per event, not to exceed 60 days per member's plan of care year.

Category 1:	Sub-Category 1:
14 Equipment, Technology, and Modifications	
Category 2:	Sub-Category 2:
Category 3:	Sub-Category 3:
Category 4:	Sub-Category 4:

Service Definition (Scope):

Those architectural and environmental modifications and adaptations to the home, required by the member's plan of care, which are necessary to ensure the health, welfare and safety of the member or which enable the member to function with greater independence in the home. Such modifications or adaptations include the installation of ramps, grab-bars, widening of doorways, modification of a bathroom or kitchen facilities, specialized safety adaptations such as scald protection devices, stove guards and modifications required for the installation of specialized equipment which are necessary to ensure the health, welfare and safety of the member or that enable the member to function with greater independence in the home. Vehicle adaptations are included in Environmental Accessibility Adaptations and Architectural Modification to ensure safe transfer and greater community involvement of the member.

Excluded are those adaptations or improvements to the home which are of general utility, and are not of direct medical or remedial benefit to the member, construction, reconstruction, or remodeling of any existing construction in the home such as floors, sub-floors, foundation work, roof or major plumbing. All services shall be provided in accordance with applicable Federal, State or local building codes.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

No more than two different residences modified in a seven year period. Exceptions may be approved by the DHS/DDS Division Administrator in extenuating circumstances.

Vehicles must be owned by the member or his or her family. Vehicle modifications are limited to one modification in a ten year period. Requests for more than one vehicle modification per ten years must be approved by the DHS/DDS Division Administrator or designee.

09 Caregiver Support	№9020 caregiver counseling and/or training ∨
Category 3:	Sub-Category 3:
	W
Category 4:	Sub-Category 4:
	W

Service Definition (Scope):

Family Counseling, offered specifically to members and their natural, adoptive or foster family members, helps to develop and maintain healthy, stable relationships among all family members in order to support meeting the needs of the member. Emphasis is placed on the acquisition of coping skills by building upon family strengths. Knowledge and skills gained through family counseling services increase the likelihood that the member remains in or returns to his or her own home. Services are intended to maximize the member's/family's emotional/social adjustment and well-being. All family counseling needs are documented in the member's Individual Plan (Plan).

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Individual counseling cannot exceed 400, 15 minute units per plan of care year. Group counseling cannot exceed 225, 30 minute units per plan of care year. Case Managers assist the member to identify other alternatives to meet identified needs above the limit.

Category 3:	Sub-Category 3:	
10 Other Mental Health and Behavioral Services	₩0060 counseling	~
Category 4:	Sub-Category 4:	
	W	

Service Definition (Scope):

Family Training services include instruction in skills and knowledge pertaining to the support and assistance of members. Services are intended to allow families to become more proficient in meeting the needs of members; provided in any community setting; provided in either group or individual formats; for members served through an DHS/DDS HCBS waiver and their families. For the purpose of this service, family is defined as any person who lives with or provides care to a member served on the waiver; included in the member's Individual Plan (Plan) and arranged through the member's Case Manager; and intended to yield outcomes as defined in the member's Plan. Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The cost of Family Training services may not exceed \$5500.00 per the member's plan of care year for individual Family Training services and \$5500.00 per the member's plan of care year for Family Training group services. Members may be authorized for Family Training services on an individual basis, as part of a group or they may receive a combination of group and individual training services. The total cost of both individual Family Training and group Family Training may not exceed \$11,000.00 per the member's plan of care year. The Case Manager assists the member to identify other alternatives to meet identified needs above the limit.

Service Definition (Scope):

Specialized Foster Care (also known as Specialized Family Home/Care) is an individualized living arrangement offering up to 24 hour per day supervision, supportive assistance and training in daily living skills. Services are intended to allow a member to reside with a surrogate family. Services are provided to one to three members in the home in which the Specialized Foster Care provider resides. Four levels of specialized foster care, based upon the member's age and level of need as determined by the Team are: (1) maximum supervision, 18 years and under, for those members with extensive needs; (2) close supervision, 18 years and under, for those members with moderate needs; (3) maximum supervision, 19 years and older, for members with extensive needs; and (4) close supervision, 19 years and older, for members are required to pay room and board from their own funds.

Payments for residential care services are not made for room and board, items of comfort or convenience, or the costs of facility maintenance, upkeep and improvement.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Members who are in the custody of DHS and in an out-of-home placement funded by DHS Children and Family Services Division are not eligible for Specialized Foster Care.

Members may not simultaneously receive Specialized Foster Care and Group Home, Daily Living Supports and/or Agency Companion Services.

Service Title:

Specialized Medical Supplies and Assistive Technology

HCBS Taxonomy:

Category 1: Sub-Category 1:

14 Equipment, Technology, and Modifications V4032 supplies

Category 2: Sub-Category 2:

14 Equipment, Technology, and Modifications 44031 equipment and technology

Category 3: Sub-Category 3:

w

Category 4: Sub-Category 4:

Service Definition (Scope):

Specialized Medical Supplies include supplies specified in the plan of care which enable members to increase their abilities to perform activities of daily living. This service also includes the purchase of ancillary supplies not available under SoonerCare. Items reimbursed with HCBS waiver funds are in addition to any supplies furnished under SoonerCare and exclude those items which are not of direct medical or remedial benefit to the member. All items meet applicable standards of manufacture, design and installation.

Supplies include the following:

- adult briefs;
- nutritional supplements;
- supplies needed for health conditions;
- supplies for respirator/ventilator care;
- supplies for decubitus care;
- supplies for catheterization.

Specialized Medical Supplies are provided through the waiver to adults. Specialized Medical Supplies are available to children through the waiver above and beyond that which is covered by SoonerCare, EPSDT. Specialized Medical Supplies available to children through the waiver include nutritional supplements in certain cases.

Assistive Technology includes devices, controls and appliances specified in the member's Individual Plan (Plan) which enable members to increase their abilities to perform activities of daily living or to perceive, control or communicate with the environment in which they live. This service also includes the purchase or limited rental of items necessary for life support and equipment necessary to the proper functioning of such items including durable and non-durable medical equipment not available under SoonerCare. Items reimbursed with HCBS waiver funds are in addition to any medical equipment and supplies furnished under SoonerCare and exclude those items that are not of direct medical or remedial benefit to the member. All items must meet applicable standards of manufacture, design and installation. All devices identified in the Oklahoma Elevator Safety Law must comply with OAC 380:70. Services include fees associated with installation, labor, inspection and operation.

Assistive Technology services include:

- assessment for the need of assistive technology/auxiliary aids;
- training the member/provider in the use and maintenance of equipment/auxiliary aids;
- repair of adaptive devices.

Equipment provided includes:

- Assistive devices for members who are deaf or hard of hearing. Examples include visual alarms, telecommunication devices (TDD's), telephone amplifying devices and other devices for protection of health and safety.
- Assistive devices for members who are blind or visually impaired. Examples include tape recorders, talking calculators, lamps, magnifiers, Braille writers, paper and talking computerized devices and other devices for protection of health and safety.
- Augmentative/alternative communication and learning aids such as language boards, electronic communication devices and competence based cause and effect systems.
- Mobility positioning devices such as wheelchairs, travel chairs, walkers, positioning systems, ramps, seating systems, lifts, bathing equipment, specialized beds and specialized chairs.
- Orthotic and prosthetic devices such as braces and prescribed modified shoes.
- Environmental controls such as devices to operate appliances, use telephones or open doors. Specify applicable (if any) limits on the amount, frequency, or duration of this service:

abuse registry screenings must be conducted; and, (c) the process for ensuring that mandatory screenings have been

conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

(a)The abuse registry is maintained by DHS/DDS; (b) Any potential employee or volunteer who is not a licensed health professional including supervisory, management or administrative positions, if the applicant is to provide full-time or part-time supportive assistance, health-related services, or training to a person(s) with developmental disabilities or mental retardation. A Community Services Registry check is required by statute and policy prior to an offer to employ. (Title 56 OS Sec. 1025.1 et seq.: OAC 340:100-3-39) (c) Service provider agencies are required to conduct the pre-employment registry check. DHS/DDS Quality Assurance Unit annually reviews a sample of the records of each provider to assure that the required documentation is on file for all applicable employees.

Appendix C: Participant Services

C-2: General Service Specifications (2 of 3)

- c. Services in Facilities Subject to §1616(e) of the Social Security Act. Select one:
 - No. Home and community-based services under this waiver are not provided in facilities subject to §1616(e) of the Act.
 - Yes. Home and community-based services are provided in facilities subject to §1616(e) of the Act. The standards that apply to each type of facility where waiver services are provided are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
 - **i. Types of Facilities Subject to §1616(e).** Complete the following table for each type of facility subject to §1616(e) of the Act:

Facility Type	
Group Homes	
Medicaid ICF/IID	

ii. Larger Facilities: In the case of residential facilities subject to §1616(e) that serve four or more individuals unrelated to the proprietor, describe how a home and community character is maintained in these settings.

All residences are located in the community. Regulations for Group Homes require features compatible with the other residences in the surrounding neighborhood. Kitchens, bedrooms, bathrooms, and other rooms are like those in typical homes. Residents have Individual Plans that include recreation and leisure activities and employment consistent with their needs and interests. Each resident must be assured reasonable privacy and adequacy of space, storage, furnishings, bathrooms and other needs. Residents are encouraged to reflect their personal preferences in decorating and furnishing their individual living spaces. Residents participate in activities of daily living to the extent of their capabilities including cooking, laundry, shopping, and cleaning their rooms.

While we recognize that larger ICF-ID settings are not an environment like a home, respite is the only service allowed and is temporary in nature.

Scope of Facility Sandards. For this facility type, please specify whether the State's standards address the following topics (*check each that applies*):

Scope of State Facility Standards

Standard	Topic Addressed
Admission policies	✓
Physical environment	✓
Sanitation	✓
Safety	✓
Staff: resident ratios	
Staff training and qualifications	✓

Standard	Topic Addressed
Staff supervision	✓
Resident rights	✓
Medication administration	✓
Use of restrictive interventions	✓
Incident reporting	✓
Provision of or arrangement for necessary health services	✓

When facility standards do not address one or more of the topics listed, explain why the standard is not included or is not relevant to the facility type or population. Explain how the health and welfare of participants is assured in the standard area(s) not addressed:

Specific ratios are not identified. Staffing must be adequate to meet each member's needs. The level of supervision needed is identified in the member's Individual Plan (Plan). Group home regulations require at least one staff on duty when any resident is at home unless the person has been assessed and their Plan specifies otherwise. Each group home has one person who is administratively responsible for the entire program. This person is in addition to direct care staff. Staff support and supervision is provided as needed for each resident of the home.

DHS/DDS Case Managers and Quality Assurance (QA) staff monitor the provision of appropriate staffing in accordance with the member's Plan. Contract provider agency surveys conducted by QA verify that adequate staffing is provided.

Facility Capacity Limit:

No capacity limit

Scope of Facility Sandards. For this facility type, please specify whether the State's standards address the following topics (*check each that applies*):

Scope of State Facility Standards

Standard	Topic Addressed
Admission policies	✓
Physical environment	✓
Sanitation	✓
Safety	✓
Staff: resident ratios	✓
Staff training and qualifications	✓
Staff supervision	✓
Resident rights	✓
Medication administration	✓
Use of restrictive interventions	✓
Incident reporting	✓
Provision of or arrangement for necessary health services	✓

When facility standards do not address one or more of the topics listed, explain why the standard is not included or is not relevant to the facility type or population. Explain how the health and welfare of participants is assured in the standard area(s) not addressed:

Appendix C: Participant Services

C-2: General Service Specifications (3 of 3)

d. Provision of Personal Care or Similar Services by Legally Responsible Individuals. A legally responsible individual is any person who has a duty under State law to care for another person and typically includes: (a) the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child or (b) a spouse of a waiver participant. Except at the option of the State and under extraordinary circumstances specified by the State,

payment may not be made to a legally responsible individual for the provision of personal care or similar services that the legally responsible individual would ordinarily perform or be responsible to perform on behalf of a waiver participant. *Select one*:

No. The State does not make payment to legally responsible individuals for furnishing personal care or

		similar services.
	0	Yes. The State makes payment to legally responsible individuals for furnishing personal care or similar services when they are qualified to provide the services.
		Specify: (a) the legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) State policies that specify the circumstances when payment may be authorized for the provision of <i>extraordinary care</i> by a legally responsible individual and how the State ensures that the provision of services by a legally responsible individual is in the best interest of the participant; and, (c) the controls that are employed to ensure that payments are made only for services rendered. <i>Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the State policies specified here</i> .
		Self-directed
		Agency-operated
e.	Stat	er State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians. Specify e policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above policies addressed in Item C-2-d. <i>Select one</i> :
	\circ	The State does not make payment to relatives/legal guardians for furnishing waiver services.

Specify the specific circumstances under which payment is made, the types of relatives/legal guardians to whom payment may be made, and the services for which payment may be made. Specify the controls that are employed to ensure that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.*

The State makes payment to relatives/legal guardians under specific circumstances and only when the

Legally responsible individuals, parents of minor children (biological or adoptive) or guardian of a minor child and the spouse of a waiver member, are not allowed to provide waiver services to a member for whom they are legally responsible.

Relatives/legal guardians who are not legally responsible for the member are prohibited from being paid as direct contract providers of waiver services except when they are the only available provider of covered services due to geographical remoteness or they are uniquely qualified to provide such services due to considerations such as language. Any non-legally responsible relative/legal guardian who serves as a paid provider must be qualified to provide the service and meet licensure/certification requirements. Also, the member's Team evaluates the member's needs and identifies any potential conflicts and the DHS/DDS Case Manager monitors the provision of services. Non-legally responsible relatives/legal guardians are subject to the same service limits as any other provider of the same service. The term non-legally responsible relative includes a mother and father of an adult, brother, sister or child including those of in-law and step relationship.

Provider agencies may hire non-legally responsible relatives/legal guardians to provide waiver services when the relative/legal guardian is qualified to provide the service. Provider agencies must provide supervision and oversight of employees and ensure that claims are submitted only for services rendered.

Services relatives/legal guardians may provide include: Audiology, Dental, Respite, Agency Companion, Homemaker, Habilitation Training Specialist, Nutrition, Occupational Therapy, Physical Therapy, Physician, Speech Therapy, Transportation, Specialized Foster Care, Prevocational and Supported Employment. Non-legally responsible relatives/legal guardians are subject to the same service limits as any other provider of the same service.

The OHCA is responsible for Surveillance and Utilization Review (SUR). The OHCA Provider Audits Unit

relative/guardian is qualified to furnish services.

conducts ongoing monitoring of services to ensure Medicaid guidelines are followed. Any indication that Medicaid guidelines are not being met leads to an investigation that may result in recoupment of payments made to the provider. On a regular basis, DHS/DDS compares a file of paid claims provided by OHCA to services authorized on plans of care to determine if services are being used as authorized. Discrepancy reports are prepared for review and necessary action taken. DHS/DDS Quality Assurance Unit (QA) is involved in a continuous process for review and oversight of waiver participation and services. Quality Assurance Performance Reviews are conducted annually and written summaries are prepared informing the contracted provider agency of any deficiency. DHS/DDS Case Management provides additional oversight and review. Case Managers act as the lead person in monitoring the plan of care through quarterly contacts that result in appropriate follow-up action.

All claims are processed through the Medicaid Management Information System (MMIS) and are subject to post-payment validation. When problems with service validation are identified on a post payment review, erroneous or invalidated claims are voided from the claims payment system and the previous payments are recouped from the provider.

\bigcirc	Relatives/legal guardians may be paid for providing waiver services whenever the qualified to provide services as specified in Appendix C-1/C-3.	e relative/legal guardian is

f. Open Enrollment of Providers. Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR §431.51:

Through OHCA's website, providers have ready access to information requirements and procedures to qualify, and the timeframes established for qualifying and enrolling in the program. OHCA provides for continuous, open enrollment of waiver service providers. To participate in SoonerCare, providers must have an agreement on file with the OHCA. The OHCA Provider Enrollment Unit is responsible for validating that any provider meets all of the requirements of participation. The rules applicable to these provisions are found at 317:30-2 and 317:10-1-19. Providers interested in becoming a SoonerCare provider may request a SoonerCare enrollment packet by downloading the required forms, contacting Provider Enrollment by phone, or sending a request in writing by mail to OHCA. DHS/DDS staff assists potential providers by providing applications, and technical assistance, reviewing information to assure the provider qualifications are met and submitting them to OHCA for processing. Once a provider agreement is approved, the agreement remains in effect until the expiration date indicated on the agreement. In the absence of a "Notice of Termination" by either party, the agreement is renewed every three years as cited in the renewal section of the contract. Whenever a change of ownership occurs, a new provider agreement must be signed. After reviewing the application, certification criteria, and verifying appropriate licensure, certification, etc., OHCA assigns a 10-digit provider number to the new provider. Providers receive written notification of their provider number and the agreement certification effective and expiration date. The provider also receives a PIN letter informing the provider of their PIN to access the OHCA secure website. Hewlett-Packard (HP), the MMIS support vendor, mails out a welcome packet and contacts the provider within ten working days to offer training. Renewal notices are sent to each provider 75 days prior to the expiration date of their contract. A reminder is sent 45 days prior for those that have not been updated. If the renewal is not returned to OHCA, no payments for dates of service after the agreement expiration date are made.

Appendix C: Participant Services

Quality Improvement: Qualified Providers

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Qualified Providers

The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.

i. Sub-Assurances:

a. Sub-Assurance: The State verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of providers(denominator) continuing to meet applicable licensure/certification following initial enrollment (numerator).

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (3 of 8)

c. Supporting the Participant in Service Plan Development. Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the service plan development process and (b) the participant's authority to determine who is included in the process.

Prior to the member's Individual Plan (Plan) meeting, the Case Manager consults the member and his/her legal guardian and/or the member's advocate if there is one. The purpose is to discuss the member's preferences, goals, and desires for the next year and guides the direction and course of the Plan. The member identifies whom he/she desires to participate in the development of the Plan. A discussion of the member's needs and options available to meet those needs is included. The pre-meeting allows the member another opportunity to express himself/herself regarding the services and supports he/she has received during the previous year and the personal desires for the upcoming year. Person-centered planning is used in all phases of the service development process.

Using the Person-Centered Planning approach, a Plan is developed by the Personal Support Team (Team), which includes the member, his or her Case Manager, the legal guardian and/or the member's choice of an advocate if there is one. Others may be included depending on the member's needs and preferences. The Team is composed of people selected by the member who know and work with the member or whose participation is necessary to achieve the outcomes desired by the member receiving services. The member and his/her representative are informed of freedom of choice of provider and given assistance if needed in locating a qualified service provider. The planning process reflects the member's cultural considerations, is provided in plain language in an accessible manner and provides needed language services or aides. The member and their Guardian participate in development of the Plan and provide informed consent for implementation of the Plan in writing.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (4 of 8)

d. Service Plan Development Process. In four pages or less, describe the process that is used to develop the participant-centered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b) the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and monitor the plan; and, (g) how and when the plan is updated, including when the participant's needs change. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

The Individual Plan (Plan) process assures that members have access to quality services and supports which foster: independence, learning, and growth; choices in everyday life; meaningful relationships with family, friends, and neighbors; presence and participation in their communities; dignity and respect; positive approaches aimed at skill enhancement; and health and safety.

DHS/DDS employs a service planning, implementation, and monitoring process that focuses on the needs, desires, and choices of the member. The Personal Support Team (Team), led by the DHS/DDS Case Manager and the member and/or his or her guardian, family member or advocate, develops the service plan. The Case Manager develops a plan of care consistent with the Plan.

At its core, the Team includes the member, his or her Case Manager, the legal guardian, and the member's advocate(s), if there is one, who may be a parent, a family member, a friend, or another who knows the member well. The member is assured the opportunity to select an individual to serve as an advocate.

Depending on the needs of the member and the issues to be addressed, the Team may include others. The selection of these additional Team members reflects the choices of the member. The Case Manager identifies service providers for selection by the member or legal guardian.

To respect the dignity and privacy of the member, the Team is no larger than is necessary to plan for and implement the services needed to achieve the member's desired outcomes. The Team is large enough to possess the expertise and capacity necessary to address the member's needs, but not so large as to intimidate the member or to stifle participation on the part of the member or his or her representatives.

Prior to the initial and each annual Team meeting, the Case Manager consults with the member and the member's advocate or legal guardian, if there is one, to review the individual situation, including the member's desired vision and progress in attaining the vision. The Case Manager also gathers information regarding services received in addition to those that may be provided by the waiver. This information is provided to the Team by the Case Manager. This information also becomes part of the Individual Plan, which is monitored by the Case Manager. At this time, the member and the member's advocate or legal guardian are informed of services available under the waiver and of other sources of services in the community and under the State Plan. Among the questions explored are whether the member is satisfied with the results of the Plan and whether outcomes need to be revised based on the progress achieved or on changing circumstances in the member's life. This review provides a clear agenda for the Team meeting and assures the member's input and participation.

The Case Manager and other Team members assure early intervention and prevention by the Team when changes occur. Events such as the loss of a loved one, change in roommates, staff, schedules, health changes, or the loss of a job prompt a re-assessment of needs, services, and supports.

An individual assessment process forms the basis for developing a Plan. Psychological, medical, social, and functional assessments are completed prior to the development of an initial Plan. The medical, social, and functional assessments are reviewed and updated at least annually. Consistent with a person-centered focus, the Case Manager assures completion of a review and update at least annually of necessary assessments to support the need for services, as well as assessment of the skills, supports, and needs of the member.

Assessments address the member's needs and choices for supports and services related to: personal relationships; home; employment, education, transportation; health and safety; leisure; social skills; and communication. The Team identifies potential areas in which the member's safety is at risk and develops plans to address these risks as part of the Plan.

Planning focuses on the needs and outcomes the member wishes to achieve. The Team considers the preferences of the member first and family, friends, and advocates secondarily.

The Plan is a written document that describes the outcomes desired by the member and prescribes the services and supports necessary to achieve those outcomes. Each Plan includes:

- (1) basic demographic information, including emergency information and health and safety concerns;
- (2) assessment information;
- (3) description of services and supports prescribed by the Team;
- (4) outcomes to be achieved;
- (5) action steps or methods to achieve the outcomes, including:
 - (A) the means to assess progress;
 - (B) the names of persons or the agency positions responsible for implementing each part

of the Plan; and

- (C) target dates by which each segment of the Plan is to be completed or evaluated for possible revision;
- (6) methods to address health risks and needs;
- (7) community participation strategies and activities;
- (8) identification of all needed staff training, with required time lines for completion, in accordance with OAC 340:100-3-38; and
- (9) medication support plan, as explained in OAC 340:100-5-32.

Team members implement responsibilities identified in the Plan or in DHS/DDS or OHCA policy. Implementation of the Plan may only be delegated to persons who are appropriately qualified and trained.

The Case Manager ensures the Team makes maximum use of services which are available to all citizens and assures the Team identifies all needed services and supports.

The Case Manager assures the services and supports developed by the Team support the member's own network of personal resources. The willing efforts of family members or friends to support areas of the member's life are not replaced with paid supports.

Each member served has a single, unified Plan. All services and supports, both waiver and non-waiver, are an integral part of the Plan. The DHS/DDS Case Manager is responsible for coordinating and monitoring services, both waiver and non-waiver. Health care needs are an integral part of the planning process. Programs involving professional and specialized services are jointly developed to assure integration of service outcomes. The Team ensures that services and supports: are integrated into the member's daily activities; take advantage of every opportunity for social inclusion; reflect positive approaches aimed at skill enhancement; and make use of the least intrusive and least restrictive options. Providers responsible for carrying out the Plan sign the Plan's signature sheet.

Each Team member responsible for services identified in the Plan sends a quarterly summary of progress on assigned outcomes to the member's Case Manager. At the request of the member, or the legal guardian, or if the performance of a Team member reveals a course of action which is not in the best interest of the member, which is destructive towards the collaborative process of the Team, or which violates DHS policy or accepted standards of professional practice, the Case Manager notifies that Team member by letter that his or her services on the Team are no longer required.

The DHS/DDS Case Manager monitors all aspects of the Plan's implementation. The DHS/DDS case management electronic database, Client Contact Manager (CCM), reflects the Case Manager's review of the progress.

The Case Manager routinely asks the member and his or her family, guardian, or advocate about their satisfaction with services and supports, and initiates appropriate action to identify and resolve barriers to consumer satisfaction. The Plan is updated as required by ongoing assessment of progress and needs. It is also updated in anticipation of foreseeable life events.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (5 of 8)

e. Risk Assessment and Mitigation. Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.

The Personal Support Team (Team) identifies potential areas in which the member's safety is at risk including physical, emotional, medical, financial, or legal risks, or risk to community participation; how often, when and where the risk to safety may occur. The Plan also describes the positive approaches, supports services and actions needed or being used to reduce or eliminate the risk. Back-up plans are developed on an individual basis. The back-up plan identifies who is responsible for ensuring back-up services are available and who is responsible for responding to emergencies. The back-up plan must be reviewed and updated as changes occur or as needed. The back-up plan addresses services and supports needed to prevent or reduce risk. Case Managers are responsible for ongoing monitoring and oversight of the member's Individual Plan including back-up plans. Case Managers are required to make revisions and modifications, as appropriate, to the member's Individual Plan to ensure the health and safety of the member.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (6 of 8)

f. Informed Choice of Providers. Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the waiver services in the service plan.

At least annually, members are informed of and acknowledge their right to freedom of choice in providers. DHS/DDS Case Managers ensure members have information about qualified waiver providers. The Case Manager identifies available providers and provides available information regarding the provider's performance. They may assist the member in contacting and interviewing potential providers. They also assist members when they wish to change providers. The assistance provided is based on the needs and choices of the member.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (7 of 8)

g. Process for Making Service Plan Subject to the Approval of the Medicaid Agency. Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR §441.301(b)(1)(i):

For individuals determined eligible for the waiver, a plan of care is developed, directed by the member/family/guardian and assisted by the DHS/DDS Case Manager. All initial plans of care are submitted to the OHCA Level of Care Evaluation Unit for review and confirmation of a diagnosis of mental retardation, that the MR diagnosis was made before the member's 18th birthday and that the proposed delivery of services is consistent with the member's level of care need. Once this process has been completed the initial eligibility determination is approved by OHCA. A diagnosis of borderline intellectual functioning would constitute a denial by OHCA. Any errors or service discrepancies are directed to the Case Manager for correction. All waiver plans of care are subject to review and approval by both DHS/DDS (the operating agency) and the Waiver Administration and Development department of the OHCA (the Medicaid agency). OHCA does not review and approve all plans of care prior to implementation; however, all are subject to the Medicaid Agency's approval. DHS/DDS does review a sampling of member charts which includes the plan of care. Reviewed plans of care are compared to policy guidelines, the functional assessment, and the narrative written detailing the member's living environment, physical and mental limitations and overall needs. All plans of care are subject to the approval of the Medicaid Agency and are made available by the operating agency upon request. OHCA randomly reviews plans of care through several authorities within the Medicaid Agency, such as Program Integrity and Accountability, Quality Assurance/Improvement and Claims/Coding and Integrity Units. In the event provider billing practices are suspect, all pertinent information is forwarded to the OHCA Program Integrity and Accountability department.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (8 of 8)

h. Service Plan Review and Update. The service plan is subject to at least annual periodic review and update to asser appropriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the re and update of the service plan:		
	Every three months or more frequently when necessary	
	Every six months or more frequently when necessary	
	Every twelve months or more frequently when necessary	
	Other schedule Specify the other schedule:	
i.	Maintenance of Service Plan Forms. Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §92.42. Service plans are maintained by the following (check each that applies): Medicaid agency Operating agency	
	✓ Case manager	

Other	
Other Specify:	
	^
	~

Appendix D: Participant-Centered Planning and Service Delivery

D-2: Service Plan Implementation and Monitoring

a. Service Plan Implementation and Monitoring. Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan and participant health and welfare; (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.

The DHS/DDS Case Manager monitors implementation of the member's service plan to determine the plan's effectiveness in meeting the needs of the member and to assure the health and welfare of the member is protected. Case Managers assess services rendered to each member at least quarterly. For all members receiving residential supports, an annual health review is performed by a DHS/DDS Registered Nurse. This health review is also used by the Case Manager to determine if health objectives listed in the service plan are being achieved, or if modifications to the Plan are indicated. Case Managers have face-to-face visits at least monthly with those receiving residential services. For those in their own home, a face-to-face contact occurs at least quarterly.

If at any time the Case Manager believes that the member is at risk of harm, the Case Manager takes immediate steps necessary to protect the member. Case Managers also receive periodic progress reports from persons who are designated responsible to implement the member's service plan. If the Case Manager determines that services are not effectively addressing the needs or preferences of the member, the Case Manager reconvenes the member's Personal Support Team (Team) to make necessary changes. If it is determined the provider is not implementing the Plan as required or the provider does not meet contractual responsibilities or policies, the Case Manager consults with the relevant provider to secure a commitment for necessary service changes within an agreed upon timeframe. If necessary changes are not accomplished within the specified time frame, the DHS/DDS Case Management Supervisor intervenes to secure commitments from the provider for necessary change. If the service deficiency is still not resolved as a result of the intervention, a referral for an Administrative Inquiry by the DHS/DDS Quality Assurance Unit is initiated, which may result in provider sanction.

Each Individual Plan includes a back-up plan. The back-up plan identifies who will provide necessary supports if the provider does not as well as housing alternatives should a member's home be unavailable for some reason.

- b. Monitoring Safeguards. Select one:
 - Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may not provide other direct waiver services to the participant.
 - Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may provide other direct waiver services to the participant.

The State has established the following safeguards to ensure that monitoring is conducted in the best interests of the participant. *Specify:*

^
<u> </u>

Appendix D: Participant-Centered Planning and Service Delivery

Quality Improvement: Service Plan

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Service Plan Assurance/Sub-assurances

The state demonstrates it has designed and implemented an effective system for reviewing the adequacy of service plans for waiver participants.

i. Sub-Assurances:

a. Sub-assurance: Service plans address all participants' assessed needs (including health and safety risk factors) and personal goals, either by the provision of waiver services or through other means.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of member records reviewed (denominator) who had Individual Plans that contain methods to address safety and health risks and needs. (numerator).

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible. The "Operating Agency Performance Monitoring" Data Source is based on a proportionate representative sample.

Reference to "Q" numbers or numbers 1000-5000 in the Data Source field represent the DHS/DDS performance tool identifier.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

Follow-up on operating agency performance monitoring is completed by DHS/DDS program staff quarterly to ensure 100% correction of identified problems. Program staff maintain documents to verify correction.

Individual problems are identified by area surveys or provider performance monitoring. State Office staff monitor each individual citation to ensure corrections have been completed. Any survey questions that do not meet the 86% threshold established by CMS are considered to indicate the need for development of further training review processes. State Office staff meet with providers to remediate individual issues/citations. State Office staff meet with field staff to discuss the development of new methodologies to enhance accurate and timely performance. Follow-up on operating agency performance monitoring is completed by DHS/DDS program staff quarterly to ensure 100% correction of identified problems. Program staff maintain documents to verify correction. Follow-up on provider performance monitoring is completed by DHS/DDS Quality Assurance Unit staff to ensure 100% correction. Follow-up survey documents are completed to verify correction. Provider agencies are required to correct deficiencies within 60 days. Failure to do so results in review by the DHS/DDS Performance Review Committee which may impose additional sanctions such as vendor hold. If, after sanctions and follow-up, a provider remains non-compliant, DHS/DDS recommends Agreement termination action to OHCA.

Appendix F: Participant Rights

Appendix F-1: Opportunity to Request a Fair Hearing

The State provides an opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E to individuals: (a) who are not given the choice of home and community-based services as an alternative to the institutional care specified in Item 1-F of the request; (b) are denied the service(s) of their choice or the provider(s) of their choice; or, (c) whose services are denied, suspended, reduced or terminated. The State provides notice of action as required in 42 CFR §431.210.

Procedures for Offering Opportunity to Request a Fair Hearing. Describe how the individual (or his/her legal representative) is informed of the opportunity to request a fair hearing under 42 CFR Part 431, Subpart E. Specify the notice(s) that are used to offer individuals the opportunity to request a Fair Hearing. State laws, regulations, policies and notices referenced in the description are available to CMS upon request through the operating or Medicaid agency.

The Documentation of Consumer Choice form explains the right to a Fair Hearing and provides information regarding the process for requesting a Fair Hearing. DHS/DDS Case Managers also provide an explanation of the form and process as well as assisting in the process. The form also includes a section requiring the choice between HCBS waiver services and institutional care and acknowledges the freedom of choice of qualified providers. This form is reviewed annually and a copy is maintained electronically in the DDS case management database. The member and/or his/her representative are informed of all changes in service provision (denial, reduction, suspension or termination of services) through a written notice. These notices are generated automatically by the DHS/DDS authorization system or in the case of denial or termination, by the DHS system. This notice includes information regarding the method of requesting a Fair Hearing. In addition, any adverse action relating to SoonerCare eligibility generates a notice from the DHS Information Management System, which includes information related to request of a Fair Hearing. The DHS/DDS Case Manager assists the member or their representative in requesting and preparing for a Fair Hearing as requested. The notice specifies that services may continue during the pendency of the appeal if requested. The Hearing process and other information regarding this process is explained in OAC 340:2-5 and based on Section 168 of Title 56 of Oklahoma Statutes and applicable federal regulations.

Appendix F: Participant-Rights

Appendix F-2: Additional Dispute Resolution Process

a. Availability of Additional Dispute Resolution Process. Indicate whether the State operates another dispute resolution process that offers participants the opportunity to appeal decisions that adversely affect their services while preserving their right to a Fair Hearing. Select one:
No. This Appendix does not apply
Yes. The State operates an additional dispute resolution process
b. Description of Additional Dispute Resolution Process. Describe the additional dispute resolution process, including: (a) the State agency that operates the process; (b) the nature of the process (i.e., procedures and timeframes), including the types of disputes addressed through the process; and, (c) how the right to a Medicaid Fair Hearing is preserved when a participant elects to make use of the process: State laws, regulations, and policies referenced in the description are available to CMS upon request through the operating or Medicaid agency.

Appendix F: Participant-Rights

Appendix F-3: State Grievance/Complaint System

- a. Operation of Grievance/Complaint System. Select one:
 - O No. This Appendix does not apply
 - Yes. The State operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver
- **b. Operational Responsibility.** Specify the State agency that is responsible for the operation of the grievance/complaint system:

The Oklahoma Department of Human Services Office of Client Advocacy (DHS/OCA) is responsible for the operation of the grievance system.

c. Description of System. Describe the grievance/complaint system, including: (a) the types of grievances/complaints that participants may register; (b) the process and timelines for addressing grievances/complaints; and, (c) the mechanisms that are used to resolve grievances/complaints. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The DHS grievance system is a multi-tiered system that affords members the opportunity to have their concerns heard and addressed beginning at the local level and continuing, through an appeals process, to the Director of DHS.

DHS/OCA has established policies that set forth the procedures to be followed as well as the timelines for each stage of the process (OAC 340:2-3-45). Notice of the member's right to file a grievance is provided upon initiation of services and annually thereafter. Timelines for response range from five working days for first level resolution to 15 days for the

DHS Director's review of an appealed grievance. Each DHS/DDS Area office designates a staff person to serve as the Local Grievance Coordinator (LGC). The LGC assists members at every stage of the process and monitors each grievance filed to ensure timely and adequate response.

Grievances may be filed by any member receiving services from DHS/DDS or by anyone interested in the welfare of a member. The subject matter of the grievance may be about any policy, rule, decision, behavior, action, or condition made or permitted by DHS, its employees, or other persons authorized to provide care, including contract provider agencies and their employees.

DHS/DDS contract provider agencies are required by policy to establish a grievance process that must be approved by DHS/OCA. The process must include, at a minimum, notice of the member's right to file a grievance and to a reasonable response, timelines for response, notice of right to appeal, and the designation of a LGC who is responsible for implementation of the provider agency's grievance process. Timelines for response to grievances range from five working days for first level resolution to ten working days for the provider agency's Board of Directors (or Appeals Committee designated by the Board).

DHS/OCA ensures the quality of grievance systems by establishing minimum standards and through an ongoing monitoring program. The Advocate General and DHS/OCA staff have immediate and unlimited access to members, staff, and provider agency files, records, and documents relating to grievance procedures and practices.

The DHS/OCA grievance system in no way undermines the member's right to request a Fair Hearing. DHS policy provides that DHS/DDS members are granted Hearings if the application for services is denied; when resources are sufficient for initiation of HCBS waiver services and action is not taken within 45 days; or the client, family, or Guardian is aggrieved because of DHS actions to suspend, terminate, or reduce services. All other complaints or grievances are made to DHS/OCA and are addressed in accordance with DHS/OCA policies and procedures (OAC 340:2-5-61). DHS/DDS Case Managers assure that members understand that filing a grievance or making a complaint is not a prerequisite or substitute for a Fair Hearing. Case Managers provide information annually to members, their Advocates and Guardians regarding both processes. They are also available to assist in requesting a Fair Hearing or filing a grievance.

Appendix G: Participant Safeguards

Appendix G-1: Response to Critical Events or Incidents

a.	Critical Event or Incident Reporting and Management Process. Indicate whether the State operates Critical Event or
	Incident Reporting and Management Process that enables the State to collect information on sentinel events occurring in
	the waiver program. Select one:

	through e)	D
0	No. This Appendix does not apply (do not complete Items b through e) If the State does not operate a Critical Event or Incident Reporting and Management Process, describe the proc that the State uses to elicit information on the health and welfare of individuals served through the program.	ess
		^

b. State Critical Event or Incident Reporting Requirements. Specify the types of critical events or incidents (including alleged abuse, neglect and exploitation) that the State requires to be reported for review and follow-up action by an appropriate authority, the individuals and/or entities that are required to report such events and incidents and the timelines for reporting. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

CRITICAL INCIDENT REPORTING REQUIREMENTS: DHS policy directs providers who have entered into Agreements and DHS/DDS staff to report injuries and behavioral or health-related incidents involving any person receiving DHS/DDS services or waiver funded services. Immediate notification of DHS/DDS is required when the following occurs: suspected abuse, neglect or exploitation of a member; threatened or attempted suicide by a member; death of a member; an unplanned hospital admission of a member; a medication event resulting in emergency medical treatment for a member; law enforcement involvement in a situation concerning a member; property loss of more than \$500 involving a member; a member who is missing; an unusual or significant incident involving a member that may attract media attention; and a highly restrictive procedure used on a member. The provider or DHS/DDS staff who

witnessed or has knowledge of the incident completes an Incident Report. The service provider agency program coordination staff submit the incident report electronically to DHS/DDS.

In addition to the general reporting requirements above, allegations of possible abuse, neglect, or exploitation, by state statute, have additional reporting requirements. These requirements follow.

ALLEGATIONS OF ABUSE OR NEGLECT OF MINORS: Oklahoma Statutes require every person having reason to believe a child under the age of eighteen (18) years is a victim of abuse or neglect, to report the matter promptly to the Oklahoma Department of Human Services (DHS). Reports may be made by telephone, in writing, personally or by any other method described by the Department. No privilege or Agreement relieves any person from the requirement of reporting. The role of Child Protective Services (CPS) within the DHS is to evaluate reports of abuse or neglect, to assess risk of harm and the need for protective services, and to provide and coordinate services. For minors who are members of the Community Waiver, CPS investigates those allegations wherein the accused caretaker is a foster parent and instances where the member's parent or legal guardian is the alleged perpetrator. While the reporting requirement remains the same, state statute gives the DHS Office of Client Advocacy (OCA) the responsibility to investigate allegations of caretaker abuse and neglect of minors who are DHS/DDS members and who reside in out-of-home placements above the level of foster care. Investigations resulting in a confirmed finding of abuse or neglect are also forwarded to the DHS Legal for determination as to whether the accused caretaker is subject to placement on the DHS/DDS Community Services Worker Registry (Abuse registry). When an accused caretaker is placed on the Registry, he or she is precluded from employment by DHS/DDS providers who have entered into an Agreement. investigative reports completed by the OCA are forwarded to DHS/DDS for review and follow-up. The reports frequently identify areas of concern that may affect the health and safety of the member. DHS/DDS case management staff reviews the report and follows-up with the provider agency with respect to the Areas of Concern and any disciplinary action taken against the accused caretaker. Results of the case management review and follow-up are forwarded to DHS/DDS State Office and to OCA. Each confirmed finding and the disciplinary action taken are reported monthly to the Director of DHS and to the members of the Oklahoma Commission for Human Services.

ALLEGATIONS OF ABUSE, NEGLECT AND EXPLOITATION OF VULNERABLE ADULTS: Oklahoma Statutes require any person having reasonable cause to believe that a vulnerable adult is suffering from abuse, neglect, or exploitation to make a report to either the DHS, the Office of the District Attorney in the county in which the suspected abuse, neglect, or exploitation occurred or the local Municipal Police Department or Sheriffs Department as soon as the person is aware of the situation. If the initial report is made to the local Municipal Police Department or Sheriffs office, such Police Department or Sheriffs office notifies, as soon as possible, the DHS of its investigation. After investigation of a report, as appropriate, APS forwards its finding to the Office of the District Attorney in the county in which the suspected abuse, neglect or exploitation occurred. Confirmed findings are also forwarded by APS to the DHS OCA for determination as to whether the accused caretaker is subject to placement on the DHS/DDSD Community Services Worker Registry (Abuse registry). OCA provides State Office DHS/DDS with a copy of the investigative report that frequently contains Areas of Concern that may affect the health and safety of the member. DHS/DDS Case Management staff are responsible for reviewing the report and conducting follow-up with the provider agency with respect to the Areas of Concern and any disciplinary action taken against the accused caretaker. Results of the case management review are forwarded to DHS/DDS State Office and to OCA. Each confirmed finding and the disciplinary action taken are also reported monthly to the Director of DHS and to the members of the Oklahoma Commission for Human Services. Non-confirmed findings are forwarded to the DHS/DDS Quality Assurance Unit for follow-up and corrective action where appropriate. DHS/DDS State Office maintains a database that records relevant information pertaining to each investigation, including but not limited to the findings, the disciplinary action taken, and the response to follow-up conducted by Case Management.

NON-CRITICAL INCIDENT REPORTING REQUIREMENTS: The procedures for reporting incidents considered as non-critical are identical to those described for critical incidents except that immediate notification is not required. Incidents Reports must be provided to DHS/DDS case management within three business days of the incident. Incident Reports are required under the following circumstances: an injury to a member; an unplanned health-related event involving a member; physical aggression by a member; fire setting by a member; deliberate harm to an animal by a member; property loss of less than \$500 involving a member; a vehicle accident involving a member; the suspension, termination or removal of a member's program including employment, and a medication event involving a member. DHS/DDS Case Management staff are responsible for reviewing each Incident Report and taking further action when necessary. With respect to medication events, the DHS/DDS Case Manager may notify the DHS/DDS Registered Nurse if the Case Manager believes the medication error caused harm or if the Case Manager needs technical assistance on appropriate follow-up activities.

c. Participant Training and Education. Describe how training and/or information is provided to participants (and/or families or legal representatives, as appropriate) concerning protections from abuse, neglect, and exploitation, including how participants (and/or families or legal representatives, as appropriate) can notify appropriate authorities or entities when the participant may have experienced abuse, neglect or exploitation.

On an annual basis, or more frequently if necessary, the DHS/DDS Case Manager provides information and education along with written materials to the member and his/her legal guardian, or advocate regarding member rights, responsibilities, the grievance process and procedures, pertinent phone numbers and how to report abuse, neglect or exploitation. Case Managers are responsible for ongoing monitoring of the health and welfare of members and providing necessary education and intervention related to the reporting of abuse, neglect and exploitation of members.

d. Responsibility for Review of and Response to Critical Events or Incidents. Specify the entity (or entities) that receives reports of critical events or incidents specified in item G-1-a, the methods that are employed to evaluate such reports, and the processes and time-frames for responding to critical events or incidents, including conducting investigations.

Reports are submitted to DHS. Within DHS, four divisions are responsible for receipt, evaluation and response to critical incidents. The divisions responsible are Child Protective Services (CPS)(maltreatment of children), Office of Client Advocacy (OCA)(maltreatment of children in out of home living arrangements other than foster care as well as maltreatment of vulnerable adults by caregivers who have entered into Agreements with DHS), Adult Protective Services (APS)(maltreatment of vulnerable adults and self neglect)and Developmental Disabilities Services (DDS) (incidents identified in Appendix G-1-a that do not constitute maltreatment).

DHS maintains a statewide toll free hotline for receipt of reports of maltreatment of children and adults. The hotline operates 24 hours a day, seven days a week and is staffed by Children and Family Services (CFS) personnel who are trained in APS and OCA procedures.

Reports of maltreatment of vulnerable adults are evaluated by the APS supervisor to determine if emergency response is required. If there is a potential, immediate threat, the report is screened as requiring immediate action and communicated to the assigned APS Specialist. APS policy describes the screening criteria for reports, including criteria for immediate action.

The APS supervisor considers the types of maltreatment (abuse, neglect, self-neglect, exploitation, financial neglect, sexual abuse, sexual exploitation, or verbal abuse). If the referral fits at least one of the types, it is accepted for investigation. If not, the report is screened as information and referral and the referring party, if known, is contacted to discuss alternatives.

Investigations are initiated within three working days, not to exceed 72 hours, from the time of receipt of the referral, excluding weekends and official holidays. If an emergency, investigation is initiated within 4 hours of receipt. The APS Specialist completes the investigative report within 30 calendar days for self neglect referrals and 60 calendar days for referrals involving an alleged perpetrator. The DHS County Director is responsible for monitoring timely completion of APS investigations.

Each investigation includes at least one visit and private interview with the victim and may include as many as necessary to reach a conclusion and determine what, if any, protective services are needed. Others who have or can reasonably be expected to have pertinent knowledge about the victims circumstances are interviewed, including any alleged perpetrator. The APS Specialist contacts the DDS Case Manager to coordinate activities to enhance the alleged victims safety.

Upon completion of the investigation, a letter is sent to the legal guardian, the identified caretaker and next of kin of the victim informing them of the findings. Findings are also sent to the applicable District Attorney, any state agency with concurrent jurisdiction, the applicable district court when the victim has a legal guardian, the administrator of the agency serving the victim, the OCA if the alleged perpetrator is a community services worker and subject to inclusion on the Community Services Worker Registry; and the DDS.

DHS/CPS is responsible for investigating allegations of maltreatment of children when the alleged perpetrator is a parent, legal guardian, or foster parent. Reports are made to Child Welfare (CW) in the local county office or to the toll-free statewide hotline. Hotline staff immediately inform the county CW staff when the allegation indicates the need for an emergency response or the allegations meet the criteria of a Priority I report. If a report meeting Priority I criteria or requiring emergency response is received after regular business hours, hotline staff immediately notify the identified on-call worker. CW staff are available to respond to emergency child abuse or neglect reports 24 hours a day, seven days a

week.

All reports are screened to determine whether allegations meet statutory and policy definitions of child abuse and neglect. The CW Supervisor considers the potential risk factors described by the reporting party as well as the age and vulnerability of the child. Screening criteria assist the CW Supervisor in determining whether the referral requires a formal investigation.

Investigations and assessments are prioritized using guidelines established in policy. The guidelines are used to determine the response time required to ensure safety of the child. DHS prioritizes reports based on the severity and immediacy of the alleged harm to the child. A Priority I report indicates imminent danger of serious physical injury and is responded to immediately, the same day of receipt of the report. A Priority II report indicates no imminent danger of severe injury, but without intervention and safety measures it is likely the child will not be safe. Priority II assessments or investigations are initiated within 2-15 calendar days from the date the report is accepted for assessment or investigation. By statute, an assessment is conducted when a report of abuse or neglect does not constitute a serious and immediate threat to the childs health or safety, while an investigation is conducted on a report that constitutes a serious and immediate threat to the childs health and safety.

The investigation protocol detailed in policy is followed for all investigations. Face to face interviews are conducted with the child, siblings, person responsible for the child including the custodial and non-custodial parent, collateral contacts and, if appropriate, professional consultants. Policy provides guidance to investigators in interviewing and establishes general protocols for the conduct of investigations.

All investigative interviews with the child and person responsible for the child in Priority I and II referrals are completed within 30 calendar days of receipt of the referral. The CW worker notifies the person responsible for the child of any findings pertaining to the person responsible for the child. The investigation report, including recommendations, is submitted to the local district attorney in the county where the abuse or neglect occurred. All reports to the district attorney are written and submitted as soon as possible after completing the investigation. Time frames range from immediately, or as soon as possible the next working day to 30 calendar days depending on the risk to the child and the need for court intervention.

The Office of Client Advocacy is responsible for investigating allegations of abuse or neglect of children in out of home living arrangements other than foster care. OCA Intake determines whether the situation presents a serious risk to the child requiring immediate action. If an emergency response is indicated, OCA arranges for an Investigator, a law enforcement officer, or an OCA advocate to personally visit with the child immediately and no later than within 24 hours. Emergency situations are those in which a child is likely to suffer death or serious physical harm without intervention

OCA policy specifies procedures for the conduct of investigations. The investigator conducts an interview with the child within 5 working days after the case has been assigned. A separate private interview is conducted with each alleged victim, witness, persons directly or indirectly involved in the allegation, persons with knowledge of relevant information, and each caretaker accused of the maltreatment.

If the investigator becomes aware of a significant health or safety concern requiring immediate attention, he/she promptly informs appropriate DDS or CW staff. Other persons or entities are notified as warranted. The investigator remains with the child until safety can be ensured.

All cases are assigned within one working day of receipt of a referral. Within 30 calendar days of disposition, the investigative process is completed and appropriate administrators notified. Within 60 calendar days from the ssignment of an investigation, the OCA written investigative report is completed. OCA supervisors monitor timely completion of investigation reports and oversee completion of reports pending over 30 days.

When the finding does not confirm an allegation or the finding is confirmed but the accused caretaker is not a community services worker, OCA sends a copy of the report to the provider agency administrator, the DDSD Director, and the applicable district attorney. When the finding confirms an allegation against a caretaker who is a community services worker, OCA submits a copy of the report to the applicable District Attorney and processes the report per the due process requirements for inclusion of the caretaker's name on the Community Services Worker Registry. When due process procedures relating to the registry have been completed, OCA sends a copy of the report to the provider agency administrator and the DDS Director. The provider agency administrator is responsible for notifying the participant or the participants legal representative of the OCA finding. The investigative findings are approved within 30 to 60 calendar days of disposition of a referral to be investigated. Investigations resulting in confirmation against a caretaker who is a Community Services Worker are not considered final until the due process procedures relating to the

Community Services Worker Registry have been completed. The timeframes for notification of the participant or participants legal representative in these cases vary.

During executive session of the monthly Commission meeting, the DHS Director and members of DHS Commission review information regarding confirmed findings and the corresponding disciplinary actions taken.

Critical incidents that do not constitute maltreatment are reviewed and evaluated by DDS. All deaths, regardless of circumstance, are reported immediately to the DDS Administrator or designee. Mortality reviews are conducted when a service recipient receiving community residential services or group home services dies. Summary reports are completed by an assigned reviewer within 30 days of an individual's death. Within ten days of completion of the summary report, the Mortality Review Committee meets, reviews the information gathered and prepares a final report that provides summaries of the reviewer's report and includes the Committee's findings, recommendations for system and procedural changes and concerns regarding contract compliance. The DDS Program Manager tracks recommendations for system or procedural changes until final disposition.

Critical incidents involving the use of restrictive or intrusive procedures are reported immediately to DDS case management. Within three business days of the incident, an electronic report is sent to case management and the DDS Positive Support Field staff. The individual's Team meets within five days of receipt of the incident report to review the report and ensure that the use of physical management or emergency intervention was reasonable and the least restrictive alternative available.

Critical incidents involving the use of restrictive or intrusive procedures involving medication errors are reported immediately to DDS case management. If the Case Manager believes the medication error caused harm or if the Case Manager needs technical assistance on appropriate follow-up activities, the DDS Registered Nurse is notified.

All critical incidents are reviewed monthly by the DDS State Office Critical Incident Committee. The Committee is charged with analyzing the reports to identify systems issues, trends, and patterns and makes findings and recommendations to support continuous quality improvement and prevent recurrence. A web-based system is used for reporting critical incidents.

e. Responsibility for Oversight of Critical Incidents and Events. Identify the State agency (or agencies) responsible for overseeing the reporting of and response to critical incidents or events that affect waiver participants, how this oversight is conducted, and how frequently.

The Oklahoma Department of Human Services (DHS) is the entity to which reports are submitted. Within DHS, four divisions are responsible for receipt, evaluation and response to critical incidents. The divisions responsible are Child Protective Services (CPS)(maltreatment of children), Office of Client Advocacy (OCA)(maltreatment of children in out of home living arrangements other than foster care as well as maltreatment of vulnerable adults by caregivers who have entered into Agreements with DHS), Adult Protective Services (APS)(maltreatment of vulnerable adults and self neglect) and Developmental Disabilities Services (DDS)(incidents identified in Appendix G-1-a that do not constitute maltreatment).

APS, CPS, and OCA report their findings related to abuse, neglect, and exploitation of any Community Waiver member to DDS. Provider agencies are required by policy to report critical incidents, immediately, to the DDS, using the approved format. Further, to promote good communication, coordination of services and to ensure the health and welfare of members, DHS routinely conducts case staffings to address significant member issues such as abuse, neglect or exploitation. Multiple DHS divisions are commonly represented at case staffings and, assigned APS or CPS workers for member's in the custody of the DHS, are members of the Personal Support Team.

Oversight activities are continuous and ongoing. Issues related to abuse, neglect, and exploitation or member health and safety are first addressed individually for immediate resolution.

Critical incident information from all sources is entered into a database. On a monthly basis, the database information is compiled into various reports and provided to the DDS Critical Incidents Committee for analysis, to identify trends, and make recommendations. In the event the Critical Incidents Committee notices a trend or pattern of multiple incidents, the member would be monitored closely and individual intervention initiated if necessary. Individual intervention is used to prevent recurrence of critical incidents or events. When patterns are identified, policy and training changes occur. A web-based system for reporting and managing critical incidents is used.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (1 of 3)

a. Use of Restraints. (Select one): (For waiver actions submitted before March 2014, responses in Appendix G-2-a will display information for both restraints and seclusion. For most waiver actions submitted after March 2014, responses regarding seclusion appear in Appendix G-2-c.)

The State does not permit or prohibits the use of restraints	
Specify the State agency (or agencies) responsible for detecting the unauthorized use of restraints and how this oversight is conducted and its frequency:	
	^
	\

- The use of restraints is permitted during the course of the delivery of waiver services. Complete Items G-2-a-i and G-2-a-ii.
 - i. Safeguards Concerning the Use of Restraints. Specify the safeguards that the State has established concerning the use of each type of restraint (i.e., personal restraints, drugs used as restraints, mechanical restraints). State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Individual Planning policies include a foundation for planning individual, person-centered services and supports which emphasize positive approaches aimed at skill enhancement and make use of the least intrusive and least restrictive options. The planning process includes individual assessment that identifies the member's needs and choices for supports and services related to personal relationships, home, employment, education, transportation, health, safety, leisure, social skills, and communication. There is also a focus on early intervention and prevention by the Team when changes occur and assessing and addressing areas in which the member's safety is at risk including physical, emotional, medical, financial, or legal risks or risks to community participation. When behavioral risks are identified, the member's Individual Plan (Plan) must include protective intervention planning which describes the preventive supports, services, and actions to be taken to reduce or eliminate risks. This includes, as needed, identifying requirements or changes in the member's environment, program and service requirements, instruction and procedures to be used by staff or Team members during a situation that places the safety of the member or others at risk, education components, staff training requirements, and methods and timelines to evaluate the effectiveness of the Plan.

If the member's Team determines that personal restraint, drugs used as restraints or mechanical restraints are essential for safety because of challenging behaviors that create risk of physical injury or harm to the member or others, risk of involvement in civil or criminal processes, or places at serious risk the member's physical safety, environment, relationships, or community participation, a Protective Intervention Protocol (PIP) must be developed and overseen by the member's Team and an appropriately licensed professional or family trainer. The PIP must include sufficient justification for the use of the restraint and include instructions to staff on positive, pro-active steps to prevent incidents from occurring, how to calm the member during dangerous or disruptive episodes, how and when to take appropriate action to protect the member, staff, and others when the member's behavior is dangerous, who to call for assistance when necessary and ways to prevent the misuse of the restraint procedures. The PIP must also include fading criteria for the reduction and/or elimination of the restraint.

Use of restraint procedures is regulated by OAC 340:100-5-26, OAC 340:100-5-26.1, and OAC 340:100-5-51 through 340:100-5-58. Seclusion and facedown physical restraint are prohibited. Mechanical restraints are prohibited except when absolutely necessary to promote healing or prevent injury during or following a medical procedure. Medical mechanical restraints are prescribed by a Physician and time-limited to no more than 12 hours unless the Physician specifies a longer period of use.

Physical Management (personal restraint), per OAC 340:100-5-57, is used only to prevent physical injury. Any PIP that includes a personal restraint component requires the Team to identify whether the member has any health concerns related to the use of physical management; ask the member's physician or The Developmental Disabilities Services Director of Pharmacy Services to assess whether the current medication regimen would pose any risk for the member under the stress of the physical management

procedure and include in the planning sessions a trainer of physical management procedures. The trainer makes recommendations about the effectiveness and safety of the physical management procedure in particular environments; assists the Team in identifying alternative approaches when standard procedures do not appear appropriate for the member or the situation; and identifies existing physical obstacles to the implementation of a procedure for particular staff. The Team includes the trainer's recommendations, identifying any situation in which physical management procedures cannot be used as such use would be unsafe or ineffective.

Personal restraint is used only to prevent physical injury and ensure physical safety. Any use of restraint not included in a PIP is considered an emergency intervention. Emergency intervention is used for no longer than is necessary to eliminate the clear and present danger of serious physical harm to the member or others. Personal restraint must be terminated as soon as the person is calm or the threat has ended and release must be attempted every two minutes. When responding to an emergency, the amount of force can never exceed that which is reasonable and necessary under the circumstances to protect the person or others. An incident report must be completed and submitted to the DHS/DDS Case Manager for Team review within one business day.

After the first use of an emergency restraint procedure, if the Team determines that the use of a restraint procedure must be continued to ensure the safety of the member or others, the DDS Director of Psychological and Behavioral Supports or designee may provide temporary immediate approval of continued use of restrictive or intrusive procedures. Temporary approval of use of emergency interventions lasts no longer than 60 days. The request must provide sufficient information to demonstrate that positive supports were attempted, and the danger of severe harm still exists. At a minimum, required information includes all incident reports from the last three months with details on the harm caused and other indications of severity as well as a description of existing positive supports and services. To continue using the temporarily approved procedure, the Team must submit a plan that incorporates the requested procedures. If the submitted plan does not receive committee approval, the committee may extend the expedited approval if the committee determines that conditions warrant extension for a maximum of 45 additional days.

The Case Manager reviews the incident reports and ensures the Team meets within five days of the use of any emergency restraint intervention.

Completion of an approved behavior support course is required for direct support staff serving persons with PIP's that include physical restraint to restrict movement. Staff must also complete an approved physical management course before using any technique of physical management contained in a PIP. Only staff and their supervisors who provide support to the member are trained on the use of a physical management procedure. Staff who have been formally trained to use physical management procedures do not use those techniques with other members, except in emergencies as defined in OAC 340:100-5-57. Staff must complete an annual retraining on the specific physical management procedures in the PIP.

The Team must submit each behavioral protective intervention protocol containing restraints to the Statewide Human Rights and Behavior Review Committee per OAC 340:100-3-14. The committee is established to review each behavioral PIP with restrictive or intrusive procedures. Members are appointed by the Director of DDS. The committee includes at least three professional members with expertise in areas relating to the duties of the committee including: positive behavior supports and educational methodologies; issues involving human rights; and related medical or psychiatric issues. Other members include at least two individuals who receive DDS services or are a family member, Guardian, or Advocate of a member.

The committee ensures that each PIP complies with requirements found in OAC 340:100-5-57 and that the PIP focuses on: prevention; education; skill development; staff training and conduct; and other positive approaches. Whenever restraint procedures are requested, the committee ensures: that due process is afforded; the restrictive or intrusive procedure is the least restrictive alternative; and that educational procedures are in place to assist the member in restoring the restricted right(s).

The committee is the final approval authority for PIP's that include a restrictive or intrusive procedure (s). The committee sends a copy of the PIP review summary to the DHS/DDS Case Manager. The review summary specifies whether the PIP is:

- approved;
- conditionally approved, with required information or changes to be provided

within a time period specified by the committee; or

- not approved, with required information or changes to be provided within a time period specified by the committee. The DHS/DDS Case Manager convenes the Team within ten days of receipt of the committee minutes and summary for review and necessary modifications to the PIP.

PIP's must be modified to accommodate the recommendations of the committee and approved prior to implementing the proposed restrictive or intrusive procedure(s). Approval is for no longer than one year and must be renewed annually as long as the restrictive or intrusive procedure is in place.

ii. State Oversight Responsibility. Specify the State agency (or agencies) responsible for overseeing the use of restraints and ensuring that State safeguards concerning their use are followed and how such oversight is conducted and its frequency:

DHS/DDS oversight activities relating to restraints are ongoing.

Whenever a restraint procedure is used, an incident report is prepared by the service provider agency staff who initiated the procedure in accordance with OAC 340:100-5-57.1. The incident report includes, at a minimum, a description of: the circumstances leading to the use of the intrusive procedure(s) or emergency intervention(s) including all procedures attempted prior to using the intrusive procedure or emergency intervention; the intrusive procedure or emergency intervention procedure(s) used; and the outcome of the incident including any physical harm or damage caused.

The service provider agency program coordination staff reviews the incident report and completes a written evaluation which indicates whether: the intrusive procedure(s) was implemented according to the PIP or the emergency intervention(s); the intervention complied with the requirements of subsection (f) of OAC 340:100-5-57; the use of intrusive procedure(s) or emergency intervention was reasonable and necessary; and includes recommendations and a description of actions taken. The service provider agency program coordination staff submit the incident report electronically to DDS.

The Case Manager ensures the Team meets within five days of receipt of the incident report documenting use of physical management or emergency intervention. The Team reviews the incident to insure that the use was reasonable and was the least restrictive alternative available. The Team takes necessary action to address any identified issues, describes any systems concerns, addresses any further recommendations, and/or planned interventions.

The Positive Support Field Specialists review all critical incident reports involving the use of highly restrictive procedures on a monthly basis. Upon review of monthly incident reports, the Positive Support Field Specialist takes further action, as needed, to ensure that requirements governing the use of restrictive/intrusive procedures are followed.

- The Positive Support Field Specialist may be assigned to provide assistance to the Team.
- If problems are noted, an DHS/DDS Quality Assurance Unit Administrative Inquiry in accordance with OAC 340:100-3-27.1 may be requested.
- If it appears that use of restrictive or intrusive procedures or emergency intervention has occurred in violation of policy requirements, approval for use of physical management or emergency intervention may be suspended pending review by the SBRC in accordance with OAC 340:100-3-14.
- If it appears that abuse or neglect has occurred, the authorities charged by law with the investigation of alleged abuse are notified.

The Critical Incident Committee reviews all critical incidents including but not limited to those involving the use of restraint procedures. The Committee meets on a monthly basis and reviews individual incident reports as well as other reports generated from the critical incident database. The Committee is charged with analyzing the reports to identify systems issues, trends and patterns and makes findings and recommendations to support continuous quality improvement and prevent recurrence. Reports of the Committee's findings and recommendations are included in the summary reports provided regularly to OHCA.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (2 of 3)

- **b.** Use of Restrictive Interventions. (Select one):
 - The State does not permit or prohibits the use of restrictive interventions

Specify the State agency (or agencies) responsible for detecting the unauthorized use of restrictive interventions and how this oversight is conducted and its frequency:

- The use of restrictive interventions is permitted during the course of the delivery of waiver services Complete Items G-2-b-i and G-2-b-ii.
 - i. Safeguards Concerning the Use of Restrictive Interventions. Specify the safeguards that the State has in effect concerning the use of interventions that restrict participant movement, participant access to other individuals, locations or activities, restrict participant rights or employ aversive methods (not including restraints or seclusion) to modify behavior. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency.

Restrictive procedures are defined in DHS policy as those which result in the limitation of the member's rights including their communication with others, access to leisure activities, money or personal property, goods or services, movement at home or the community or any direct observational procedures specified as a result of challenging behavior during times or places which would otherwise be considered private. Use of restrictive procedures is regulated by OAC 340:100-5-50 through 340:100-5-58. Aversive conditioning procedures, withholding meals, breaks, sleep or the ability to maintain personal hygiene, involuntary forfeiture of money or personal property, corporal punishment and the use of exclusionary time-out or time-out rooms are all prohibited. Restrictive intervention must be reported via an incident report and critical incident reporting procedure followed. DHS/DDS Case Managers as well as the Critical Incident Committee review cases to detect unauthorized use of restraint. DHS/DDS Case Managers and Quality Assurance monitoring is also in place to detect any unreported use of restraints.

The member's Team is required by policy to complete a risk assessment which identifies potential areas in which the member's safety is at risk, including physical, emotional, medical, financial, or legal risks, or risk to community participation. This assessment identifies the frequency and degree of potential harm to the member or others; and why, when, where, and how the risk to safety may occur. The Team identifies places, condtions, early signs or other indicators of potential safety risks. The Team also identifies the member's skills or lack thereof, which impact the safety risks. Such skills include communiction skills, coping skills, social skills, leisure skills and vocational skills. The risk assessment takes into account the member's past experience, any medical, psychiatric or pharmacological issues, recent changes in the member's life and identification of previous supports which have been effective or ineffective in preventing or reducing the risks.

When risk or the potential for risk is present, the elements of the risk assessment must be addressed as part of a Protective Intervention Plan (PIP). Policy requires that a PIP focus on positive, preventative supports and actions to reduce or eliminiate safety risks. These positive supports include, but are not limited to: making changes in the member's environment; providing trained, consistent staffing and oversight of staff; ensuring adequate communication and coordination between Team members as well as adequate and appropriate communication with the member; providing the member with appropriate and meaningful daily activities and eliminating or managing medical, psychiatric or physical conditions which may be impacting risk. These positive supports are required to be developed based on the member's unique needs and used prior to any use of restrictive interventions.

When there is the possibility of imminent risk or dangerous behavior, expedited approval of the use of restrictive procedures for 45 days can be requested using form 06MP042E, while the Team develops a PIP. This form requires the Team to identify all less restrictive, positive approaches already attempted and to identify positive approaches which are to be attempted or explored prior to using a restrictive procedure during the 45 day approval period. These positive approaches, just like those in the previous paragraph,

include addressing medical issues, restructuring the environment, skill development, improving communication, retraining staff, relationship building, etc.

Individual planning policies include a foundation for planning individual, person-centered services and supports which foster positive approaches aimed at skill enhancement and make use of the least intrusive and least restrictive options. The planning process includes individual assessment that identifies the member's needs and choices for supports and services related to personal relationships, home, employment, education, transportation, health, safety, leisure, social skills, and communication. There is also a focus on early intervention and prevention by the Team when changes occur and assessing and addressing areas in which the member's safety is at risk including physical, emotional, medical, financial, or legal risks or risks to community participation.

The Plan must include protective intervention planning which describes the preventive supports, services, and actions to be taken to reduce or eliminate risks. This includes, as needed, identifying requirements or changes in the member's environment, program and service requirements, instruction and procedures to be taken by staff or Team members during a situation that places the safety of the member or others at risk, education components, staff training requirements, and methods and timelines to evaluate the effectiveness of the plan. The PIP must treat the member with dignity and be reasonable, humane, practical, not controlling and the least restrictive alternative. If the Team determines that restrictive procedures are essential for safety, the protective intervention planning must include sufficient justification for their use. The PIP mut also explain documentation requirements for the use of restrictive procedures. An incident report is required each time a restrictive procedure is used. All incident reports are submitted to the DHS/DDS Case Manager and critical incident reports, which include those involving restrictive procedures, are also sent to DHS/DDS. Each PIP includes documentation requirements with instructions regarding how data will be captured on all elements of the Plan, including restrictive procedures. The Plan must be approved by the Statewide Human Rights and Behavior Review Committee. Policies relating to the composition, functions and record-keeping of this Committee is found at 340:100-3-14.

DHS/DDS Case Managers, who facilitate Team meetings, complete required training courses and in-service including training on rights issues, use of restrictive procedures and the process for approval of restrictive procedures. Direct support staff responsible for day-to-day implementation of restrictive procedures, and their supervisors, complete training which includes Foundation Training and individual-specific in-service on the PIP. Residential staff also complete a Residential Ethical and Legal training course. Provider staff applying restraints are the same as those who would apply restrictive procedures. All staff complete the same basic training courses and are required to be trained on the individual-specific components of the PIP, which would include restraint/restrictive procedures. Provider staff who would apply personal restraints also complete an approved physical management course.

The committee is established to review each PIP with restrictive procedures. The Director of DHS/DDS appoints committee members. The committee includes at least three professional members with expertise in areas relating to the duties of the Committee including: positive behavior supports and educational methodologies; issues involving human rights; and related medical or psychiatric issues. Other members include at least two individuals who receive DHS/DDS services or are a family member, Guardian, or Advocate of a member.

The committee ensures that each PIP complies with requirements found in OAC 340:100-5-57 and that the PIP focuses on: prevention; education; skill development; staff training and conduct; and other positive approaches. Whenever restraint procedures are requested, the committee ensures: that due process is afforded; the restrictive or intrusive procedure is the least restrictive alternative; and that educational procedures are in place to assist the member in restoring the restricted right(s).

The committee is the final approval authority for PIP's that include a restrictive or intrusive procedure (s). The committee sends a copy of the PIP review summary to the DHS/DDS Case Manager. The review summary specifies whether the PIP is:

- approved;
- conditionally approved, with required information or changes to be provided within a time period specified by the committee;
- conditionally approved with required educational supports or staff training as specified; or

- not approved, with required information or changes to be provided within a time period specified by the committee. The Case Manager convenes the Team within ten days of receipt of the committee minutes and summary for review and necessary modifications to the PIP.

PIP's must be modified to accommodate the recommendations of the committee and approved prior to implementing the proposed restrictive or intrusive procedure(s). Committee approval is for no longer than one year and must be renewed annually as long as the restrictive or intrusive procedure is in place.

Case Managers monitor the provision of services, including restrictive procedures, through observation, record review and provider incident and progress reports.

The Positive Support Field Specialists review all critical incident reports involving the use of highly restrictive procedures on a monthly basis. DHS/DDS policy defines highly restrictive procedures as use of a p.r.n. medication for behavioral control; and the use of a physical hold. Upon review of the monthly incident reports, Positive Support Field Specialist takes further action, as needed, to ensure that requirements governing the use of restrictive/intrusive procedures are followed.

- Positive Support Field Specialist may be assigned to provide assistance to the Team.
- If problems are noted, an DHS/DDS Quality Assurance Unit Administrative Inquiry in accordance with OAC 340:100-3-27.1 may be requested.
- If it appears that abuse or neglect has occurred, the authorities charged by law with the investigation of alleged abuse are notified.

Data base information, as described in Appendix G-2-b.ii. is analyzed to identify trends and/or patterns related to increased use of restrictive/intrusive procedures by members, agency providing services, location of intervention(s), duration of restrictive/intrusive procedure(s) used including total time of physical restraint usage, and staff initiating the restrictive/intrusive procedure(s). Identified trends and/or patterns of usage will be addressed via specified improvement strategies, which may include additional training, monitoring, or oversight.

ii. State Oversight Responsibility. Specify the State agency (or agencies) responsible for monitoring and overseeing the use of restrictive interventions and how this oversight is conducted and its frequency:

DHS/DDS is responsible for the oversight and monitoring of the use of restrictive interventions and for ensuring that safeguards are followed and in accordance with OAC 340:100-5-57.1.

A Critical Incident Committee reviews critical incidents and other quality management reports including but not limited to those involving the use of restrictive or intrusive procedures. The Committee meets monthly and reviews reports generated from a database containing data collected from individual incident reports. The Committee is charged with analyzing the reports to identify systems issues, trends, and patterns and makes findings and recommendations to support continuous quality improvement and prevent recurrence. Reports of the Committee's findings and recommendations are summarized in regular reports to OHCA.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (3 of 3)

- c. Use of Seclusion. (Select one): (This section will be blank for waivers submitted before Appendix G-2-c was added to WMS in March 2014, and responses for seclusion will display in Appendix G-2-a combined with information on restraints.)
 - The State does not permit or prohibits the use of seclusion

Specify the State agency (or agencies) responsible for detecting the unauthorized use of seclusion and how this oversight is conducted and its frequency:

The operating agency is responsible for detecting the unauthorized use of seclusion. Case Managers are responsible for ongoing monitoring of the health and welfare of the member. This is accomplished through review of quality progress reports and at least quarterly face-to-face contact with the member. Case Managers also review incident reports on an ongoing basis to detect unauthorized use of seclusion.

Safeguards Concerning the Use of Seclusion. Specify the safeguards that the State has established concerning the use of each type of seclusion. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
C

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (1 of 2)

This Appendix must be completed when waiver services are furnished to participants who are served in licensed or unlicensed living arrangements where a provider has round-the-clock responsibility for the health and welfare of residents. The Appendix does not need to be completed when waiver participants are served exclusively in their own personal residences or in the home of a family member.

- a. Applicability. Select one:
 - No. This Appendix is not applicable (do not complete the remaining items)
 - Yes. This Appendix applies (complete the remaining items)
- b. Medication Management and Follow-Up
 - **i. Responsibility.** Specify the entity (or entities) that have ongoing responsibility for monitoring participant medication regimens, the methods for conducting monitoring, and the frequency of monitoring.

Prescribers have primary responsibility for monitoring members' medication regimens, as defined by State statute and applicable licensing requirements. Prescription medications, as defined in OAC 340:100-1-2, are administered or used only as ordered by a medical practitioner who is licensed by law to prescribe a drug intended to be filled, compounded, or dispensed by a Pharmacist. Approval for a member to use or be administered a non-prescription medication, as defined in OAC 340:100-1-2, is received in writing from the member's Primary Care Physician at least annually. Use of psychotropic and behavior modifying medications must follow requirements listed in policies OAC 340:100-5-26.1 and 340:100-5-32.

Both DHS/DDS and contracted service provider staff perform secondary monitoring of medication administration. Reviews are conducted on a monthly basis for members in a residential setting and on a quarterly basis for members in a non-residential setting. Contracted service provider staff that have been specifically trained to administer medications perform daily monitoring including the members' response to the administered medication. As defined in OAC 340:100-5-26, the members' Health Care Coordinator (HCC) performs a full medication regimen review each month utilizing Form 06HM006E (DDS-6), which is then forwarded to the DHS/DDS Case Manager. If any unusual physical signs or symptoms are reported, further review is performed by DHS/DDS staff.

For members receiving community residential supports and group home services per OAC 340:100-5-22.1 and OAC 340:100-6, a clinical pharmacy review by a clinical pharmacist is performed upon request by the member or Team and when indicated by a change in health status. Clinical pharmacy reviews will also be performed using a proportionate representative sample annually. Also, clinical pharmacy reviews by a clinical pharmacist

are performed:

- on a proportionate representative sample identified for each Area, as developed annually by the DHS/DDS Quality Assurance unit;
- as indicated by review of submitted critical incidents per OAC 340:100-3-34;
- as indicated by review of Protective Intervention Plans submitted to the Statewide Human Rights and Behavior Review Committee per OAC 340:100-5-57;
- upon request of a Team member or clinician participating with the Team.

For non-residential members, a clinical pharmacy review by a clinical pharmacist will be performed upon request of a team member or clinician participating with the team.

OAC 340:100-5-26.1 delineates special requirements for the use of psychotropic medications. In addition to defining the appropriate use of such medications, this policy specifies initial implementation and review criteria for these medications. This includes requirements for monitoring side effects, the development of positive support strategies as part of the Plan, consideration of less intrusive alternatives, data collection methods and ongoing communication with the prescribing Physician. The members' Team, which is made up of DHS/DDS and contracted service provider staff, as well as other interested parties such as Guardians and other Advocates, is responsible for monitoring the use of these medications, and evaluating their effectiveness in conjunction with the prescribing medical professional.

ii. Methods of State Oversight and Follow-Up. Describe: (a) the method(s) that the State uses to ensure that participant medications are managed appropriately, including: (a) the identification of potentially harmful practices (e.g., the concurrent use of contraindicated medications); (b) the method(s) for following up on potentially harmful practices; and, (c) the State agency (or agencies) that is responsible for follow-up and oversight.

Prescribers, Teams, contracted service provider staff and DHS/DDS Case Managers and DHS/DDS nurses provide ongoing monitoring of members' medication regimens.

Nursing staff further monitor members' medication regimens through the performance of Health Care Reviews. DHS/DDS further requires that all members receive an annual physical, performed by a Physician, to ensure that a medical professional with prescriptive authority reviews individual medication regimens at least annually.

A written Form 06MP046E (DDS-46), Incident Report, and follow-up must be completed when a medication event occurs, as specified in OAC 340:100-3-34. The Team reviews all medication incident reports and revises the members' medication support plan if needed.

DHS/DDS is the operating agency responsible for follow-up and oversight of member medication management. The Case Manager monitors the members' medication regimen as well as any problems associated with medication management, at least quarterly, through site visits and home records review, ongoing review of submitted documentation of medication administration and oversight by service provider employees, and review of incident reports. Additionally, the DHS/DDS Nurse monitors medication administration through the performance of annual Health Care Reviews for all members receiving residential services.

Members receiving community residential supports and group home services per OAC 340:100-5-22.1 and OAC 340:100-6, a clinical pharmacy review by a clinical pharmacist will be performed:

- on a proportionate representative sample identified for each Area, as developed annually by the DHS/DDS Quality Assurance unit;
- as indicated by review of submitted critical incidents per OAC 340:100-3-34;
- as indicated by review of Protective Intervention Plans submitted to the Statewide Human Rights and Behavior Review Committee per OAC 340:100-5-57;
- upon request of a Team member or clinician participating with the Team.

For non-residential members, a clinical pharmacy review by a clinical pharmacist will be performed upon request of a Team member or clinician participating with the Team.

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (2 of 2)

- c. Medication Administration by Waiver Providers
 - i. Provider Administration of Medications. Select one:
 - Not applicable. (do not complete the remaining items)
 - Waiver providers are responsible for the administration of medications to waiver participants who cannot self-administer and/or have responsibility to oversee participant self-administration of medications. (complete the remaining items)
 - ii. State Policy. Summarize the State policies that apply to the administration of medications by waiver providers or waiver provider responsibilities when participants self-administer medications, including (if applicable) policies concerning medication administration by non-medical waiver provider personnel. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Only those contracted service provider staff members who have completed an approved training program in medication administration, as specified in OAC 340:100-3-38, are permitted to administer medications. Oklahoma Statue 56-1020 specifies the safe storage and administration of medications by non-licensed community service staff. Health Care Coordinators must also be trained as specified in policy OAC 340:100-5-26. DHS/DDS Quality Assurance staff monitor compliance with this training on an annual basis.

All individuals administering or assisting in the administration of medications to members are subject to the requirements specified in OAC 340:100-5-32. This policy outlines the responsibilities of service providers who are contracted, licensed, or funded through an HCBS waiver or DHS/DDS State funds and their employees, who administer medication or assist with a medication support plan for a person receiving community services, including employment or vocational service providers. Each member and their support Team develop an individual medication support plan to identify participation by the member in his or her own medication administration and to specify the supports needed by the member for administering, storing, and monitoring medication. The members' medication support plan assures that the members'involvement, together with the designed supports implemented by staff, result in a safe program of medication administration. The Team revises the medication support plan to provide safety and meet the members' medication support needs if a medication change or monitoring by the DHS/DDS Case Manager, contracted service provider Program Coordinator, DHS/DDS Nurse or DHS/DDS Quality Assurance Unit staff or other person reveals a concern with the members' medication supports.

- iii. Medication Error Reporting. Select one of the following:
 - Providers that are responsible for medication administration are required to both record and report medication errors to a State agency (or agencies). Complete the following three items:
 - (a) Specify State agency (or agencies) to which errors are reported:

An Incident Report, and follow-up must be completed when a medication event (error) occurs, as specified in OAC 340:100-3-34. Contract service providers are required to forward an electronic report to the DHS/DDS Case Manager within three business days of the incident.

Provider staff administering medications to members are required to perform daily documentation of medications administered using a Medication Administration Record (MAR), as well as document the response to any PRN medications administered. Additionally, a monthly Health Status and Medication Review (Form 06HM006E, DDS-6) is required to be completed by the provider and sent to the participants case manager for review. All incidents involving medications are documented by the provider and submitted electronically to the case manager for review and follow-up as needed. Medication events that

require emergency medical treatment are required by policy to be verbally reported to the case manager or on-call system immediately, which is defined as within one business day. The incident report is required to be sent to the participants case manager within three business days of the incident. Primary provider responsibilities in monitoring and reporting medication administration are defined in Oklahoma policy OAC 340:100-5-32, Medication Administration.

(b) Specify the types of medication errors that providers are required to record:

As specified in OAC 340:100-3-34, a medication event includes:

- dosage at the wrong time;
- missed dose;
- wrong dose;
- wrong medicine;
- wrong route;
- incorrect label or instructions;
- the person refused the medication;
- the medication is documented incorrectly; or
- another significant occurrence involving medication.

Additionally, any medication event that requires emergency medical treatment for a member is defined as a critical incident, and the contract service provider is required to document these events and notify the DHS/DDS Case Manager within one working day of the incident.

(c) Specify the types of medication errors that providers must *report* to the State:

All medication events are reported to the State, along with follow-up action initiated by the service provider.

O Providers responsible for medication administration are required to record medication errors but make information about medication errors available only when requested by the State.

Specify the types of medication errors that providers are required to record:

iv. State Oversight Responsibility. Specify the State agency (or agencies) responsible for monitoring the performance of waiver providers in the administration of medications to waiver participants and how monitoring is performed and its frequency.

DHS/DDS is responsible for monitoring the performance of waiver service providers in the administration of medications to waiver members. Medication administration is reviewed as part of the annual Quality Assurance monitoring of providers. The data is reviewed to identify trends and areas for improvement. Recommendations are developed for systemic improvement.

Members receive an annual physical, performed by a Physician, to ensure that a medical professional with prescribing authority reviews individual medication regimens at least annually. Contract service provider staff trained to administer medications perform daily monitoring including members' response to administered medication. As defined in OAC 340:100-5-26, the members' HCC performs a full medication regimen review each month utilizing Form 06HM006E (DDS-6), which is then forwarded to the DHS/DDS Case Manager. If any unusual physical signs or symptoms are reported, further review is performed by DHS/DDS staff.

The Case Manager monitors the members' medication regimen, as well as any problems associated with medication management, through quarterly site visits and home records review, ongoing review of submitted documentation of medication administration and oversight performed by contract service provider staff, and review of incident reports. Additionally, the DHS/DDS Nurse monitors medication administration through the performance of Health Care Reviews for all members receiving residential supports. Health Care Reviews are performed at least annually or when indicated by a change in health status.

Members receiving community residential supports and group home services per OAC 340:100-5-22.1 and OAC 340:100-6, a clinical pharmacy review by a clinical pharmacist will be performed:

- on a proportionate representative sample identified for each Area, as developed annually by the DHS/DDS Quality Assurance unit;
- as indicated by review of submitted critical incidents per OAC 340:100-3-34;
- as indicated by review of Protective Intervention Plans submitted to the Statewide Human Rights and Behavior Review Committee per OAC 340:100-5-57;
- upon request of a Team member or clinician participating with the Team.

For non-residential members, a clinical pharmacy review by a clinical pharmacist will be performed upon request of a Team member or clinician participating with the Team.

Appendix G: Participant Safeguards

Quality Improvement: Health and Welfare

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Health and Welfare

The state demonstrates it has designed and implemented an effective system for assuring waiver participant health and welfare. (For waiver actions submitted before June 1, 2014, this assurance read "The State, on an ongoing basis, identifies, addresses, and seeks to prevent the occurrence of abuse, neglect and exploitation.")

- i. Sub-Assurances:
 - a. Sub-assurance: The state demonstrates on an ongoing basis that it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexplained death. (Performance measures in this sub-assurance include all Appendix G performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of member's records reviewed (denominator) where the member (and/or family or legal guardian) received information/education about how to report abuse, neglect, exploitation and other critical incidents as specified in the approved waiver (numerator) (Individual Plans completed after 07-01-10)

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible. Measures with a "critical events and incident reports" Data Source are pending full implementation of a webbased critical incident reporting system.

Reference to "Q" numbers or numbers in the 1000-5000 series in the Data Source field represent the DHS/DDS performance tool identifier.

Operating agency performance monitoring is based on a proportionate representative sample.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

Follow-up on operating agency performance monitoring is completed by DHS/DDS program staff quarterly to ensure 100% correction of identified problems. Program staff maintain documents to verify correction.

Follow-up on provider performance monitoring is completed by DHS/DDS Quality Assurance Unit staff to ensure 100% correction. Follow-up survey documents are completed to verify correction. Provider agencies are

required to correct deficiencies within 60 days. Failure to do so results in review by the DHS/DDS Performance Review Committee which may impose additional sanctions such as vendor hold. If, after sanctions and follow-up, a provider remains non-compliant, DHS/DDS recommends Agreement termination action to OHCA.

strategies, and the parties responsible for its operation.

Under §1915(c) of the Social Security Act and 42 CFR §441.302, the approval of an HCBS waiver requires that CMS determine that the State has made satisfactory assurances concerning the protection of participant health and welfare, financial accountability and other elements of waiver operations. Renewal of an existing waiver is contingent upon review by CMS and a finding by CMS that the assurances have been met. By completing the HCBS waiver application, the State specifies how it has designed the waiver's critical processes, structures and operational features in order to meet these assurances.

Quality Improvement is a critical operational feature that an organization employs to continually determine whether it
operates in accordance with the approved design of its program, meets statutory and regulatory assurances and
requirements, achieves desired outcomes, and identifies opportunities for improvement.

CMS recognizes that a state's waiver Quality Improvement Strategy may vary depending on the nature of the waiver target population, the services offered, and the waiver's relationship to other public programs, and will extend beyond regulatory requirements. However, for the purpose of this application, the State is expected to have, at the minimum, systems in place to measure and improve its own performance in meeting six specific waiver assurances and requirements.

It may be more efficient and effective for a Quality Improvement Strategy to span multiple waivers and other long-term care services. CMS recognizes the value of this approach and will ask the state to identify other waiver programs and long-term care services that are addressed in the Quality Improvement Strategy.

Quality Improvement Strategy: Minimum Components

The Quality Improvement Strategy that will be in effect during the period of the approved waiver is described throughout the waiver in the appendices corresponding to the statutory assurances and sub-assurances. Other documents cited must be available to CMS upon request through the Medicaid agency or the operating agency (if appropriate).

In the QIS discovery and remediation sections throughout the application (located in Appendices A, B, C, D, G, and I), a state spells out:

- The evidence based discovery activities that will be conducted for each of the six major waiver assurances;
- The remediation activities followed to correct individual problems identified in the implementation of each of the assurances;

In Appendix H of the application, a State describes (1) the *system improvement* activities followed in response to aggregated, analyzed discovery and remediation information collected on each of the assurances; (2) the correspondent *roles/responsibilities* of those conducting assessing and prioritizing improving system corrections and improvements; and (3) the processes the state will follow to continuously *assess the effectiveness of the OIS* and revise it as necessary and appropriate.

If the State's Quality Improvement Strategy is not fully developed at the time the waiver application is submitted, the state may provide a work plan to fully develop its Quality Improvement Strategy, including the specific tasks the State plans to undertake during the period the waiver is in effect, the major milestones associated with these tasks, and the entity (or entities) responsible for the completion of these tasks.

When the Quality Improvement Strategy spans more than one waiver and/or other types of long-term care services under the Medicaid State plan, specify the control numbers for the other waiver programs and/or identify the other long-term services that are addressed in the Quality Improvement Strategy. In instances when the QIS spans more than one waiver, the State must be able to stratify information that is related to each approved waiver program. Unless the State has requested and received approval from CMS for the consolidation of multiple waivers for the purpose of reporting, then the State must stratify information that is related to each approved waiver program, i.e., employ a representative sample for each waiver.

Appendix H: Quality Improvement Strategy (2 of 2)

H-1: Systems Improvement

a. System Improvements

i. Describe the process(es) for trending, prioritizing, and implementing system improvements (i.e., design changes) prompted as a result of an analysis of discovery and remediation information.

OHCA strives to operate the waiver systematically incorporating the principles of continuous quality improvement. The Long Term Care Quality Initiatives Council (LTCQIC)collaborates for the trending, prioritizing and implementation of system improvementin OHCA waivers. The Council consists of various divisions within OHCA as well as provider agencies, advocacy groups and other stakeholders. The Council meets quarterly to discuss member and provider issues and to set priorities for system-wide quality improvement. The Council receives information from a variety of reports prepared by OHCA's Long Term Care Administration as well as provider agencies. As a result of an analysis of the discovery and remediation information presented to the council, system improvements are identified and design changes are made. Waiver reporting for the LTCQIC is stratified by the respective program. The Research Analyst and Senior Program Manager work with the Waiver Administration Director to ensure that data is reported accurately. Both member and provider data are compiled in accordance with the program as noted in the OHCA MMIS.

The LTCQIC annually reviews the Quality Oversight Plan and utilizes numerous quality indicators that are tracked and reported on an annual basis. The State aggregates, verifies, and analyzes the results of the discovery processes to evaluate the indicators for each sub-assurance. The State identifies trends, best practices, and areas for improvement. The LTCQIC develops recommendations for improvement strategies.

Participants in the council represent a wide variety of stakeholders including but not limited to; Long Term Care Administration staff; Care Management staff, Quality Assurance staff, Legal, Systems, DHS, and representatives of Member advocacy groups, and provider agency representatives.

b. System Design Changes

i. Describe the process for monitoring and analyzing the effectiveness of system design changes. Include a description of the various roles and responsibilities involved in the processes for monitoring & assessing system design changes. If applicable, include the State's targeted standards for systems improvement.

The Oklahoma Quality Improvement Strategy weaves together various quality assurance and quality improvement activities using a three-tiered process. Tier 1 includes quality assurance processes that are implemented at the member/Case Manager/provider level. Tier 2 includes discovery and remediation processes implemented at the DHS/DDS Program Manager/OHCA Level of Care Evaluation Unit/DDS Quality Assurance Unit level. Tier 3 is the DDS State Office Division level and OHCA Medicaid Agency level and focuses on quality improvement at a systems level.

TIER 1: The first tier involves strategies to ensure members, advocates, guardians, teams, Case Managers and providers have the tools to develop, implement and monitor quality services. At this level, quality assurance and improvement happens with members on an ongoing basis and is designed to safeguard members.

TIER 2: The second tier involves DDSD Program Managers, the OHCA Level of Care Evaluation Unit and the DDS Quality Assurance Unit as well as committees established to collect and analyze data and make program adjustments to improve service quality. At this level, the strategy is designed to collect and review data from Case Managers, providers, guardians, advocates, members and Teams on a wide variety of quality indicators and develop remediation and program improvement strategies to ensure that performance standards and assurances are met.

TIER 3: The third tier involves DDS State Office Executive staff and OHCA staff. DHS/DDS monitors non-licensed providers for compliance and provides results to OHCA.

The Area Survey monitoring process is a record review of the DHS/DDS Case Manager record, based on a statistically significant random sample of members receiving supports through the waiver. One quarter of the representative sample is monitored each quarter. This results in a complete representative sample being reviewed each year. The record reviews include a review of service plans to assure: all member needs are addressed and preferences considered; they are developed according to policy and updated/revised as needed ensuring an interim meeting was held within 30 days of identification or notification of the need for change in authorization of waiver services; services are delivered in accordance with the service plan including the type, scope, amount and frequency specified in the service plan; and that members are afforded choice between waiver services and institutional care and between/among waiver services and providers. The Area Survey record reviews provide a process for monitoring the health and welfare of members, assuring Case Managers: conduct face-to-face visits as required; address issues that could put the member's health or welfare at risk; and provide follow-up on issues identified in incident reports. The results of the Area Survey monitoring process are shared with OHCA. The data is reviewed to identify trends and areas for improvement. Recommendations are developed for systemic improvement.

The Performance Survey is an annual monitoring site visit in which all provider agencies participate, providing data based on an aggregated statistically significant sample of members receiving waiver services and an aggregated statistically significant sample of provider agency staff. The Performance Survey includes all

waivers for which the provider agency contracts. Monitoring of service plan development and implementation includes: a review of provider agency records for a random sample of waiver members; and home visits and interviews with waiver members and other pertinent people, for those sampled. The annual monitoring of non-licensed/non-certified provider staff includes a review of personnel records for a sampling of staff assigned to provide supports, to ensure all required employment background checks have been obtained and all required training has taken place. The Performance Survey process provides for a sampling of financial records to ensure compliance with provider Agreements. DHS/DDS policy provides the expectation that all identified barriers to performance consistent with the expectation of regulatory policy and contracts are resolved no later than 60 days following the completion of the annual Performance Survey. Failure to correct identified barriers could result in administrative sanctions. The results of Performance Surveys are shared with OHCA. The data is reviewed to identify trends and areas for improvement. Recommendations are developed for systemic improvement.

DDS and OHCA review trends and data. Performance measures are developed or updated as needed. The State reviews results, tests new performance measures, analyzes and makes modifications as appropriate.

ii. Describe the process to periodically evaluate, as appropriate, the Quality Improvement Strategy.

DHS/DDS and OHCA review data gathered as a result of the Quality Improvement Strategy and looks for trends. Areas needing improvement are identified and prioritized. Program staff respond to recommendations by designing and implementing improvements. Continued monitoring of performance measures identifies effectiveness of improvements.

Appendix I: Financial Accountability

I-1: Financial Integrity and Accountability

Financial Integrity. Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The DHS Office of Inspector General (DHS/OIG) is the Division within the Oklahoma Department of Human Services charged with the responsibility to investigate allegations of fraud, waste or abuse as well as other allegations of criminal activity against the Department or programs administered by the Department. DHS/OIG also has the responsibility to audit vendors and suppliers of Department goods and services under the Federal Single Audit Act of 1984, as well as Divisions and Units of the DHS for program compliance and performance. Compliance with the Single Audit Act of 1984 is ensured by the review of independent audit reports for the subrecipients of federal funds. A listing is maintained of audits required. Deficiencies requiring revision by the independent auditor and corrective action plans needed for subrecipients are monitored and resolved.

DHS requires all non-licensed and group home providers who receive payments of \$100,000 or more per year to submit a certified independent audit of its operations conducted in accordance with Government Auditing Standards. These audits are required annually and are due 120 days from the provider's fiscal year end. The financial statements are to be prepared in accordance with Generally Accepted Accounting Principles and the report includes a Supplementary Schedule of Awards listing all State and Federal funds by contract Agreement. DHS/DDS staff review these audits and follow-up on any findings relative to waiver programs. In addition, service providers are surveyed at least once each year by the DHS/DDS Quality Assurance Unit, who review documentation related to service delivery to confirm billed charges on a random sample.

All plans of care are subject to the approval of OHCA, the Medicaid Agency, and are made available by DHS/DDS, the operating agency, upon request. OHCA randomly reviews plans of care through several authorities within the Medicaid Agency, such as Program Integrity and Accountability, Quality Assurance/Improvement and Claims/Coding and Integrity Units. OHCA performs a financial audit of the waiver service providers as part of a more comprehensive provider audit process. The financial audit reviews claims in comparison with documentation of service delivery and in comparison with service plan authorization. For the provider financial audit, members are selected at random for the programmatic review. All claims for services delivered to them over a one quarter period are reviewed. OHCA Program Integrity and Accountability department is responsible for conducting financial audits on an annual basis.

Errors in provider claims may include (1) claims payment without corresponding documentation of service delivery and (2)

claims payment in excess of service plan authorization. Claims error occurrence will be measured for each member and in summary of all members reviewed. Measures of claims error occurrence are (1) percent of units paid without service delivery documentation in the period and (2) percent of units paid in excess of authorized units in the period.

All providers must have an active contract agreement in order for reimbursement to be made. Providers with an active contract agreement are issued provider identification numbers. The Medicaid Management Information System (MMIS), the state's claims payment system, has edit checks that will deny payments to inactive provider identification numbers.

A report of financial audit is made available to the provider and includes findings and recommendations/requirements for plan of correction/improvement of provider business process, if any. Frequency of provider claims errors from the initial review may lead to additional sampling. If the audit detects a pattern of inappropriate billing, a referral is made to Program Integrity and Accountability for review and further investigation of the provider's billing practices.

Appendix I: Financial Accountability

Quality Improvement: Financial Accountability

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Financial Accountability Assurance:

The State must demonstrate that it has designed and implemented an adequate system for ensuring financial accountability of the waiver program. (For waiver actions submitted before June 1, 2014, this assurance read "State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver.")

- i. Sub-Assurances:
 - a. Sub-assurance: The State provides evidence that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver and only for services rendered.

 (Performance measures in this sub-assurance include all Appendix I performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of service claims reviewed (denominator) that were submitted for members who were enrolled in the waiver on the date that the service was delivered (numerator).

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible. Reference to "Q" number or numbers in the 1000-5000 series in the Data Source field represent the DHS/DDS performance tool identifier.

Operating agency performance monitoring is based on a proportionate representative sample.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

Follow-up on operating agency performance monitoring is completed by DHS/DDS program staff quarterly to ensure 100% correction of identified problems. Program staff maintain documents to verify correction. Follow-up on provider performance monitoring is completed by DHS/DDS Quality Assurance Unit staff to ensure 100% correction. Follow-up survey documents are completed to verify correction. When trends are noted, program leadership meets with provider agencies to encourage remediation of all identified issues. Further steps, such as

additional staff training, may be identified/offered to provider agencies in order to correct negative trends. Provider agencies are required to correct deficiencies within 60 days. Failure to do so results in review by the DHS/DDS Performance Review Committee which may impose additional sanctions such as vendor hold. Program leadership follows up on issues identified in Quality Assurance provider performance evaluations. Program leadership also addresses member complaints. When trends are noted with specific provider agencies, program leadership directs meetings with the agencies to encourage remediation of all identified issues.

OHCA identifies individual problems during provider audits and in responding to member complaints filed through the Member Inquiry System. Setting quality improvement priorities and development of specific strategies to address quality issues are informed not only by internal discovery and monitoring; but, in addition, by interaction and recommendations from the LTCQIC. Providers identified for remediation must meet performance standards of the Conditions of Provider Participation in order to remain waiver providers. Providers who are under corrective action are given a time period in which improvements must be accomplished. These providers are monitored to ensure they achieve full compliance with standards. Ultimately, OHCA provider agreements can be terminated for failure to meet contractual standards. If, after sanctions and follow-up, a provider remains non-compliant, DHS/DDS recommends Agreement termination action to OHCA.

OHCA and DHS are responsible for program monitoring and oversight and will address individual problems as they are discovered with regard to operations and administrative functions. OHCA will maintain administrative authority through the use of an electronic database designed for storing information related to negative patterns identified during MMIS edit checks. The OHCA Director of Waiver Administration and Development is responsible for mediating problems pertaining to administrative authority. The OHCA Director of Waiver Administration and Development works with DDS to resolve any problems in a timely manner. Problems requiring system change will be addressed to resolve issues more timely and effectively or to initiate systemic changes to address re-occurring issues/performance failures.

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (1 of 3)

a. Rate Determination Methods. In two pages or less, describe the methods that are employed to establish provider payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).

Rates for waiver services are set by one of the methodologies below.

MEDICAID RATE (TXIX) - When a waiver service is similar or the same as a Medicaid service for which a fee schedule has been established, the current Medicaid rate is utilized. Services utilizing the Medicaid Rate are:

- » Specialized Medical Supplies and Assistive Technology**
- » Audiology
- » Dental
- » Family Counseling
- » Home Health Care
- » Nutrition
- » Skilled Nursing
- » Extended Duty Skilled Nursing
- » Prescription Drugs

FIXED RATE - Title 74 of the Oklahoma Statutes provides a methodology for setting fixed and uniform rates as follows:

- a. Determination of need for a fixed and uniform rate
 - i. New: A new service is developed, or
 - Existing Service: Feedback from providers, clients, or the general public indicates that the existing rate is not sufficient to ensure access to an existing service.
- b. Preparation of a Rates and Standards Brief:
 - Preparation: Staff prepares a position paper that at a minimum includes a
 description of the service, the payment history including rates and utilization,
 the methodology utilized to arrive at the proposed rate, and a description of
 the funding source.
- ii. Public Hearing: A public hearing notice is prepared and a hearing is scheduled. The public hearing notice includes the meeting date(s), where the meeting will be held, and whether the meeting is an open or closed meeting. Additional information about each meeting is posted at www.okhca.org/calendar, including the meeting

agenda.

- iii. Oklahoma Office of Central Services: Copies of the public hearing notice, the Rates and Standards Brief and any other pertinent data is delivered to the Oklahoma Office of Central Services at least 30 days before the date of the public hearing. The Director of the Department of Central Services shall communicate any observation, reservation, criticism or recommendation to the agency, either in person at the time of the hearing or in writing delivered to the State agency before or at the time of the hearing.
- c. Public Hearing Notice: Notice of public hearing will be provided in the following:
 - i. Posted in the office of the Secretary of State

- ii. Posted by the Oklahoma Health Care Authority at its physical location and on the web site calendar.
- iii. Published by the Oklahoma Health Care authority in various Newspaper publications across Oklahoma.
- d. Public Hearing:
 - Committee: The public hearing is conducted by the Rates and Standards Committee
 of the Oklahoma Health Care Authority. The committee is comprised of staff
 from the OHCA and DHS.
 - ii. Public comment: All attendees of the public hearing are offered an opportunity to voice their opposition or approval of the proposed rates. All comments become part of the permanent minutes of the hearing.
- e. Final Approval: The rate is then scheduled for consideration and approval by the Board of Directors of the OHCA prior to implementation.

Services untilizing the Fixed Rate are:

- » Adult Day
- » Agency Companion
- » Daily Living Supports
- » Group Home
- » Habilitation Training Specialist
- » Homemaker
- » Intensive Personal Supports
- » Occupational Therapy
- » Physician Services (provided by a Psychiatrist)
- » Physical Therapy
- » Prevocational*
- » Psychological
- » Respite Care
- » Specialized Foster Care
- » Speech Therapy
- » Supported Employment***
- » Transportation

MANUAL RATE - Services utilizing the Manual Rate and the method and entity responsible for establishing the provider payment rate are:

- » Family Training Reimbursement made based on rate approved by DHS/DDS after evaluation of provider proposal and rate comparison process, not to exceed limits established at OAC 317:30-5-412.
- » Specialized Medical Supplies and Assistive Technology** Reimbursement made using current OHCA pricing methodology.
- » Environmental Accessibility Adaptations and Architectural Modification Reimbursement made through a contractor bid process in accordance with Oklahoma State Law.
- * Consistent with the approach to reimbursement for prevocational services approved by CMS in 1995, Oklahoma will continue to reimburse for prevocational services based per hour of participation (control number 0234.90.01). For individuals requiring enhanced supports, a differential rate is available.
- ** Specialized Medical Supplies and Assistive Technology rates are determined using the Manual Rate or may also be determined using the Medicaid Rate if the item is typically covered by Medicaid. If Medicaid State Plan limits associated with the item have been exceeded, but the item is essential to the member's health and/or safety, the item may be authorized through the waiver.
- *** Consistent with the approach to reimbursement for supported employment services approved by CMS in 1995,

Oklahoma will continue to reimburse for job coaching and stabilization based on hours worked (control number 0234.90.01). Individual placement in job coaching services require the on-site provision of supports by a job coach for more than 20% of the individual's compensable hours. Stabilization services require the on-site provision of supports by a job coach for 20% or less of the individual's compensative hours. A differential rate is available for individuals requiring enhanced supports.

b. Flow of Billings. Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the State's claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

Claims for waiver services are submitted by providers directly to and are processed by Oklahoma's CMS-certified Medicaid Management Information System (MMIS) and are subject to all validation procedures included in the MMIS. All claims for waiver services must be matched to an active prior authorization. Prior authorizations are created from the waiver member's individual plan of care.

All claims processed through the MMIS are subject to post-payment validation including, but not limited to SURS. When problems with service validation are identified on a post-payment review, erroneous or invalidated claims are voided from the claims payment system and the previous payment are recouped from the provider.

Appendix I: Financial Accountability

	I-2: Rates, Billing and Claims (2 of 3)
c. Cert	ifying Public Expenditures (select one):
	No. State or local government agencies do not certify expenditures for waiver services.
	Yes. State or local government agencies directly expend funds for part or all of the cost of waiver services and certify their State government expenditures (CPE) in lieu of billing that amount to Medicaid.
	Select at least one:
	☐ Certified Public Expenditures (CPE) of State Public Agencies.
	Specify: (a) the State government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b).(Indicate source of revenue for CPEs in Item I-4-a.)
	Certified Public Expenditures (CPE) of Local Government Agencies.
	Specify: (a) the local government agencies that incur certified public expenditures for waiver services; (b) how it is assured that the CPE is based on total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (Indicate source of revenue for CPEs in Item I-4-b.)
	^

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (3 of 3)

d. Billing Validation Process. Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant's approved service plan; and, (c) the services were provided:

Claims for waiver services are processed by Oklahoma's CMS-certified MMIS and are subject to all validation procedures included in the MMIS. This ensures that payments are made only when:

- (a) All claims for waiver members are first validated for member eligibility according to data contained in the MMIS.
- (b) All claims for waiver services must be matched to an active prior authorization. Prior authorizations are created from the waiver member's individual plan of care with provider of service, dates of authorization and units as specified in the service plan. Claims processing edits built into the MMIS deny claims payment if any of the following conditions are encountered:
- Date of service is outside member eligibility dates;
- Service provided is outside the benefit package for the waiver;
- Provider is not a qualified provider;
- Service is not prior authorized;
- Units are in excess of prior authorized;
- Date of service is outside prior authorization.
- (c) All claims processed through the MMIS are subject to post-payment validation including, but not limited to Program Integrity and Accountability. When problems with service validation are identified on a post payment review, erroneous or invalidated claims are voided from the claims payment system and the previous payments are recouped from the provider. Provider audits review service delivery in comparison with claims and service plan authorization. If the provider audit detects a pattern of inappropriate billing, a referral is made to OHCA Program Integrity and Accountability for review and further investigation of the provider's billing practices. DDS Case Managers assure that freedom of choice among providers and services are offered to each member. A freedom of choice form is signed by the member or his/her Guardian.
- e. Billing and Claims Record Maintenance Requirement. Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR §92.42.

Appendix I: Financial Accountability

I-3: Payment (1 of 7)

a.	Method of payments MMIS (select one):						
		Payments for all waiver services are made through an approved Medicaid Management Information System (MMIS).					
		Payments for some, but not all, waiver services are made through an approved MMIS.					
		Specify: (a) the waiver services that are not paid through an approved MMIS; (b) the process for making such payments and the entity that processes payments; (c) and how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:					
		Payments for waiver services are not made through an approved MMIS.					
		Specify: (a) the process by which payments are made and the entity that processes payments; (b) how and through which system(s) the payments are processed; (c) how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:					

O Payments for waiver services are made by a managed care entity or entities. The managed care entity is paid

Describe how payments are made to the managed care entity or entities:

a monthly capitated payment per eligible enrollee through an approved MMIS.

Appendix I: Financial Accountability
I-3: Payment (2 of 7)
b. Direct payment. In addition to providing that the Medicaid agency makes payments directly to providers of waiver services, payments for waiver services are made utilizing one or more of the following arrangements (<i>select at least one</i>
 □ The Medicaid agency makes payments directly and does not use a fiscal agent (comprehensive or limited) or managed care entity or entities. ☑ The Medicaid agency pays providers through the same fiscal agent used for the rest of the Medicaid program
☐ The Medicaid agency pays providers of some or all waiver services through the use of a limited fiscal agent.
Specify the limited fiscal agent, the waiver services for which the limited fiscal agent makes payment, the function that the limited fiscal agent performs in paying waiver claims, and the methods by which the Medicaid agency oversees the operations of the limited fiscal agent:
Providers are paid by a managed care entity or entities for services that are included in the State's contract
with the entity.
Specify how providers are paid for the services (if any) not included in the State's contract with managed care entities.
Appendix I: Financial Accountability
I-3: Payment (3 of 7)
c. Supplemental or Enhanced Payments. Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to States for expenditures for services under an approved State plan/waiver. Specify whether supplemental or enhanced payments armade. <i>Select one:</i>
No. The State does not make supplemental or enhanced payments for waiver services.
○ Yes. The State makes supplemental or enhanced payments for waiver services.
Describe: (a) the nature of the supplemental or enhanced payments that are made and the waiver services for which these payments are made; (b) the types of providers to which such payments are made; (c) the source of the non-Federal share of the supplemental or enhanced payment; and, (d) whether providers eligible to receive the supplemental or enhanced payment retain 100% of the total computable expenditure claimed by the State to CMS. Upon request, the State will furnish CMS with detailed information about the total amount of supplemental or enhanced payments to each provider type in the waiver.
Appendix I: Financial Accountability
I-3: Payment (4 of 7)

d. Payments to State or Local Government Providers. Specify whether State or local government providers receive payment for the provision of waiver services.

I-3-e.
Yes. State or local government providers receive payment for waiver services. Complete Item I-3-e.
Specify the types of State or local government providers that receive payment for waiver services and the services that the State or local government providers furnish:
DHS enters into Agreements with some University staff for various therapy services, i.e.; physical therapy, occupational therapy, etc.
Appendix I: Financial Accountability
I-3: Payment (5 of 7)
e. Amount of Payment to State or Local Government Providers.
Specify whether any State or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed its reasonable costs of providing waiver services and, if so, whether and how the State recoups the excess and returns the Federal share of the excess to CMS on the quarterly expenditure report. <i>Select one:</i>
The amount paid to State or local government providers is the same as the amount paid to private providers of the same service.
The amount paid to State or local government providers differs from the amount paid to private providers of the same service. No public provider receives payments that in the aggregate exceed its reasonable costs of providing waiver services.
The amount paid to State or local government providers differs from the amount paid to private providers of the same service. When a State or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the State recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.
Describe the recoupment process:
Appendix I: Financial Accountability
I-3: Payment (6 of 7)
f. Provider Retention of Payments. Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by states for services under the approved waiver. <i>Select one:</i>
 Providers receive and retain 100 percent of the amount claimed to CMS for waiver services. Providers are paid by a managed care entity (or entities) that is paid a monthly capitated payment.
Specify whether the monthly capitated payment to managed care entities is reduced or returned in part to the State.
Appendix I: Financial Accountability
I-3: Payment (7 of 7)
g. Additional Payment Arrangements

O No. State or local government providers do not receive payment for waiver services. Do not complete Item

i. Voluntary Reassignment of Payments to a Governmental Agency. Select one:

payments to a governmental agency.
Yes. Providers may voluntarily reassign their right to direct payments to a governmental agency as provided in 42 CFR §447.10(e).
Specify the governmental agency (or agencies) to which reassignment may be made.
Oklahoma does not restrict reassignment to any specific agency.
ii. Organized Health Care Delivery System. Select one:
No. The State does not employ Organized Health Care Delivery System (OHCDS) arrangements under the provisions of 42 CFR §447.10.
 Yes. The waiver provides for the use of Organized Health Care Delivery System arrangements under the provisions of 42 CFR §447.10.
Specify the following: (a) the entities that are designated as an OHCDS and how these entities qualify for designation as an OHCDS; (b) the procedures for direct provider enrollment when a provider does not voluntarily agree to contract with a designated OHCDS; (c) the method(s) for assuring that participants have free choice of qualified providers when an OHCDS arrangement is employed, including the selection of providers not affiliated with the OHCDS; (d) the method(s) for assuring that providers that furnish services under contract with an OHCDS meet applicable provider qualifications under the waiver; (e) how it is assured that OHCDS contracts with providers meet applicable requirements; and, (f) how financial accountability is assured when an OHCDS arrangement is used:
^
iii. Contracts with MCOs, PIHPs or PAHPs. Select one:
The State does not contract with MCOs, PIHPs or PAHPs for the provision of waiver services.
○ The State contracts with a Managed Care Organization(s) (MCOs) and/or prepaid inpatient health plan(s) (PIHP) or prepaid ambulatory health plan(s) (PAHP) under the provisions of §1915(a)(1) of the Act for the delivery of waiver and other services. Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the State Medicaid agency.
Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.
This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.
This waiver is a part of a concurrent □1115/□1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The □1115 waiver specifies the types of health plans that are used and how payments to these plans are made.
Appendix I: Financial Accountability
I-4: Non-Federal Matching Funds (1 of 3)

O No. The State does not provide that providers may voluntarily reassign their right to direct

a. State Level Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the State source or sources of the non-federal share of computable waiver costs. *Select at least one*:

	Appropriation of State Tax Revenues to the State Medicaid agency
~	Appropriation of State Tax Revenues to a State Agency other than the Medicaid Agency.
	If the source of the non-federal share is appropriations to another state agency (or agencies), specify: (a) the State entity or agency receiving appropriated funds and (b) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if the funds are directly expended by State agencies as CPEs, as indicated in Item I-2-c:
	State share funding for services provided under all of Oklahoma's HCBS Waiver Programs is from General Fund Appropriations from the State Legislature made to two State Agencies. The DHS is responsible for providing State share funding for all Waiver services except "prescription drugs in excess of State Plan coverage limits" and receives Legislative Appropriations to cover the same. The OHCA is responsible for providing State share funding for "prescription drugs" covered under the various Waivers and receives Legislative Appropriations to cover the same.
	On a weekly basis, the OHCA submits a billing to the DHS for the State share dollars for all Waiver services (except "prescription drugs") for which service provider claims were processed/paid. Through an inter-Agency transfer, these State share funds are then deposited into the OHCA's general fund. The transfer of these funds represents a repayment to the OHCA, since the OHCA had already paid all provider service claims "in full".
	All funding for State share costs of HCBS waiver services in Oklahoma is through Legislative Appropriations. There is no funding of State share costs for waiver services using State or local funds from certified public expenditures (CPEs), provider taxes, or any other mechanism. Other State Level Source(s) of Funds.
	Specify: (a) the source and nature of funds; (b) the entity or agency that receives the funds; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by State agencies as CPEs, as indicated in Item I-2-c:

b. Average Length of Stay. Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.

The average length of stay for years 1-2 are based on Form 372 for FY13.

The average length of stay for years 3-5 are based on Form 372 for FY16.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (3 of 9)

- **c. Derivation of Estimates for Each Factor.** Provide a narrative description for the derivation of the estimates of the following factors.
 - i. Factor D Derivation. The estimates of Factor D for each waiver year are located in Item J-2-d. The basis for these estimates is as follows:

Factor D estimates were made by using current unit rates.

DHS/DDS established a pro-rated distribution base and then used an unduplicated count of estimated users. Data from Form 372 was used to acquire this information.

Average units per user were based on the current expenses of each service.

ii. Factor D' Derivation. The estimates of Factor D' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor D' for years 1-2 is based on Form 372 for FY13.

Factor D' for years 3-5 is based on Form 372 for FY16.

iii. Factor G Derivation. The estimates of Factor G for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor G for years 1-2 is based on Form 372 for FY13.

Factor G for years 3-5 is based on Form 372 for FY16.

iv. Factor G' Derivation. The estimates of Factor G' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor G' for years 1-2 is based on Form 372 for FY13.

Factor G' for years 3-5 is based on Form 372 for FY16.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (4 of 9)
