CY 2008 EPSDT Bonus Payment Methodology January 1, 2008-December 31, 2008 Compliance Rate and Bonus Payment Methodology and Example

Compliance Rate Determination CMS-416 Methodology (Refer to Example 1, Presented Below):

| Line | 1: | <u>Total Individuals Eligible for ESPDT</u> - List the total unduplicated number of all individuals under the age of 21 determined to be eligible for EPSDT services, distributed by age and by basis of Medicaid eligibility. Unduplicated means that an eligible person is reported only once although he or she may have had more than one period of eligibility during the year. |
|------|-----|--|
| Line | 2a: | <u>State Periodicity Schedule</u> - List the number of initial or periodic general health screenings required to be provided to individuals within the age group specified according to the state's periodicity schedule. <i>This information is provided in the example below.</i> |
| Line | 2b: | Number of Years in Age Group - List the number of years included in each age group. |
| Line | 2c: | <u>Annualized State Periodicity Schedule</u> - Divide the number in Line 2a by the number in Line 2b for each age group. |
| Line | 3a: | <u>Total Months Eligibility</u> - Enter the total months of eligibility for individuals in each age group on Line 1 during the reporting year. |
| Line | 3b: | <u>Average Period of Eligibility</u> - Divide the total months of eligibility by Line 1. Divide that number by 12 and enter the quotient. This number represents the portion of the year that individuals remain Medicaid eligible during the reporting year, regardless of whether eligibility was maintained continuously. |
| Line | 4: | <u>Expected Number of Screenings per Eligible</u> - Multiply Line 2c by Line 3b per age group. Enter the product. This number reflects the expected number of initial or periodic screenings per child per year based on the number required by the state-specific periodicity schedule and the average period of eligibility. |
| Line | 5: | <u>Expected Number of Screenings</u> - Multiply Line 4 by Line 1 per age group. Enter the product. This reflects the number of initial or periodic screenings expected to be provided to the eligible individuals in Line 1. |
| Line | 6: | <u>Total Screens Received</u> - Enter the total number of initial or periodic screens furnished to eligible individuals. |
| Line | 7: | <u>Screening Ratio</u> - Divide the actual number of initial and periodic screening services received (Line 6) by the expected number of initial and periodic screening services (Line 5). This ratio indicates the extent to which EPSDT eligibles receive the number of initial and periodic screening services required by the State's periodicity schedule, adjusted by the proportion of the year for which they are Medicaid eligible. |
| Line | 8: | <u>OHCA Required Compliance Rate</u> - Enter the contractually required compliance rate per age group. |

Bonus Payment Calculations (Refer to Example 1, Presented Below):

Line 9 <u>% Above Compliance</u> - Example Line 7 minus Line 8. This will determine if the provider met the OHCA compliance rate requirement.

Line 10 <u>Number of EPSDT Screens</u> - This is the number from Example Line 6. Enter this number <u>only</u> if the provider is at or above compliance for the age group. If the provider is below the required compliance rate enter zero (if Line 9 is negative).

Bonus Payment Calculations (Refer to Example 1, Presented Below) Attachment C Continued:

| | | rate for the less than 1 year olds age group. (See Table 1: Bonus Payment Per Screen). | | | | | |
| Line | 12 | Bonus Payment Amount Per Age Group - Multiply Example Line 10 by Example Line 11. This | | | | | |
| | | is the amount that will be paid to the provider for that specified age group. | | | | | |
| Line | 13 | <u>Total Potential Bonus Payment</u> - Sum of age groups on Example Line 12. This is the potential | | | | | |
| | | total amount owed to the provider. | | | | | |
| Line | 14 | Actual Bonus Payment - The final bonus payment cannot exceed 20% of the provider's annual | | | | | |
