

**CHAPTER 35. MEDICAL ASSISTANCE FOR ADULTS AND
CHILDREN-ELIGIBILITY
SUBCHAPTER 5. ELIGIBILITY AND COUNTABLE INCOME
PART 5. COUNTABLE INCOME AND RESOURCES**

317:35-5-42. Determination of countable income for individuals categorically related to aged, blind and disabled

(a) **General.** The term income is defined as that gross gain or gross recurrent benefit which is derived from labor, business, property, retirement and other benefits, and many other forms which can be counted on as currently available for use on a regular basis. When an individual's income is reduced due to recoupment of an overpayment or garnishment, the gross amount before the recoupment or garnishment is counted as income.

(1) If it appears the applicant or SoonerCare member is eligible for any type of income (excluding SSI) or resources, he/she must be notified in writing by the Agency of his/her potential eligibility. The notice must contain the information that failure to file for and take all appropriate steps to obtain such benefit within 30 days from the date of the notice will result in a determination of ineligibility.

(2) If a husband and wife are living in their own home, the couple's total income and/or resource is divided equally between the two cases. If they both enter a nursing facility, their income and resources are considered separately.

(3) If only one spouse in a couple is eligible and the couple ceases to live together, consider only the income and resources of the ineligible spouse that are actually contributed to the eligible spouse beginning with the month after the month which they ceased to live together.

(4) In calculating monthly income, cents are included in the computation until the monthly amount of each individual's source of income has been established. When the monthly amount of each income source has been established, cents are rounded to the nearest dollar (14 - 494 cents is rounded down, and 504 - 994 cents is rounded up). For example, an individual's weekly earnings of \$99.90 are multiplied by 4.3 and the cents rounded to the nearest dollar ($\$99.90 \times 4.3 = \429.57 rounds to \$430). See rounding procedures in OAC 340:65-3-4 when using BENDEX to verify OASDI benefits.

(b) **Income disregards.** In determining need, the following are not considered as income:

(1) The coupon allotment under the Food Stamp Act of 1977;

(2) Any payment received under Title II of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970;

(3) Educational grants (excluding work study), scholarships,

etc., that are contingent upon the student regularly attending school. The student's classification (graduate or undergraduate) is not a factor;

(4) Loans (regardless of use) if a bona fide debt or obligation to pay can be established. Criteria to establish a loan as bona fide includes:

(A) An acknowledgment of obligation to repay or evidence that the loan was from an individual or financial institution in the loan business. If the loan agreement is not written, an OKDHS Loan Verification form should be completed by the borrower attesting that the loan is bona fide and signed by the lender verifying the date and amount of loan. When copies of written agreements or OKDHS Loan Verification form are not available, detailed case documentation must include information that the loan is bona fide and how the debt amount and date of receipt was verified .

(B) If the loan was from a person(s) not in the loan business, the borrower's acknowledgment of obligation to repay (with or without interest) and the lender's verification of the loan are required to indicate that the loan is bona fide.

(C) Proceeds of a loan secured by an exempt asset are not an asset;

(5) One-third of child support payments received on behalf of the disabled minor child;

(6) Indian payments (including judgement funds or funds held in trust) distributed per capita by the Secretary of the Interior (BIA) or distributed per capita by the tribe subject to approval by the Secretary of the Interior. Also, any interest or investment income accrued on such funds while held in trust or any purchases made with judgement funds, trust funds, interest or investment income accrued on such funds. Any income from mineral leases, from tribal business investments, etc., as long as the payments are made per capita. For purposes of this Subchapter, per capita is defined as each tribal member receiving an equal amount. However, any interest or income derived from the principal or produced by purchases made with funds after distribution is considered as any other income;

(7) Special allowance for school expenses made available upon petition (in writing) for funds held in trust for the student;

(8) Title III benefits from State and Community Programs on Aging;

(9) Payment for supportive services or reimbursement of out-of-pocket expenses made to individual volunteers serving as foster grandparents, senior health aides, or senior companions, and to persons serving in the Service Corps of Retired Executives (SCORE) and Active Corps of Executives (ACE);

(10) Payments to volunteers under the Domestic Volunteer

Services Act of 1973 (VISTA), unless the gross amount of VISTA payments equals or exceeds the state or federal minimum wage, whichever is greater;

(11) The value of supplemental food assistance received under the Child Nutrition Act or the special food service program for children under the national School Lunch Act;

(12) Any portion of payments made under the Alaska Native Claims Settlement Act to an Alaska Native which are exempt from taxation under the Settlement Act;

(13) Reimbursements from an employer for out-of-pocket expenditures and allowances for travel or training to the extent the funds are used for expenses directly related to such travel or training and uniform allowance if the uniform is uniquely identified with company names or logo;

(14) Assistance or services from the Vocational Rehabilitation program such as transportation expenses to a rehabilitation center, extra clothing, lunches, grooming needed for a training program and any other such complementary payments;

(15) Experimental Housing Allowance Program (EHAP) payments made under Annual Contributions Contracts entered into prior to January 1, 1975, under Section 23 of the U.S. Housing Act of 1937, as amended;

(16) Payments made by a public or private non-profit child care agency for a child placed in foster care or subsidized adoption;

(17) Governmental rental or housing subsidies by governmental agencies, e.g., HUD (received in-kind or in cash) for rent, mortgage payments or utilities;

(18) LIHEAP payments for energy assistance and payments for emergency situations under Emergency Assistance to Needy Families with Children;

(19) Payments made from the Agent Orange Settlement Fund or any other fund established pursuant to the settlement in the In Re Agent Orange product liability litigation, M.D.L. No. 381 (E.D.N.Y.);

(20) Payments made from the Radiation Exposure Compensation Trust Fund as compensation for injuries or deaths resulting from the exposure to radiation from nuclear testing and uranium mining;

(21) Federal major disaster and emergency assistance provided under the Disaster Relief Act of 1974, and comparable disaster assistance provided by States, local governments and disaster assistance organizations;

(22) Income of a sponsor to the sponsored eligible alien;

(23) The BIA frequently puts an individual's trust funds in an Individual Indian Money (IIM) account. To determine the availability of funds held in trust in an IIM account, the worker must contact the BIA in writing and ascertain if the funds, in total or any portion, are available to the individual.

If any portion of the funds is disbursed to the individual member, guardian or conservator, such funds are considered as available income. If the BIA determines the funds are not available, they are not considered in determining eligibility. Funds held in trust by the BIA and not disbursed are considered unavailable.

(A) In some instances, BIA may determine the account is unavailable; however, they release a certain amount of funds each month to the individual. In this instance the monthly disbursement is considered as unearned income.

(B) When the BIA has stated the account is unavailable and the account does not have a monthly disbursement plan, but a review reveals a recent history of disbursements to the individual member, guardian or conservator, these disbursements must be resolved with the BIA. These disbursements indicate all or a portion of the account may be available to the individual member, guardian or conservator.

When the county office is unable to resolve the situation with the BIA, the county submits a referral to the appropriate section in OKDHS Family Support Services Division (FSSD). The referral must include specific details of the situation, including the county's efforts to resolve the situation with the BIA. If FSSD cannot make a determination, a legal decision regarding availability will be obtained by FSSD, and then forwarded to the county office by FSSD. When a referral is sent to FSSD, the funds are considered as unavailable with a legal impediment until the county is notified otherwise.

(C) At each reapplication or redetermination, the worker is to contact BIA to obtain information regarding any changes as to the availability of the funds and any information regarding modifications to the IIM account. Information regarding prior disbursements is also obtained at this time.

All of this information is reviewed for the previous six or twelve-month period, or since the last contact if the contact was within the last certification or redetermination period.

(D) When disbursements have been made, the worker determines whether such disbursements were made to the member or to a third party vendor in payment for goods or services. Payments made directly from the BIA to vendors are not considered as income to the member. Workers should obtain documentation to verify services rendered and payment made by BIA.

(E) Amounts disbursed directly to the members are counted as non-recurring lump sum payments in the month received. Some trusts generate income on a regular basis and the income is sent to the beneficiary. In those instances, the income is treated as unearned income in the month received;

(24) Income up to \$2,000 per year received by individual Indians, which are derived from leases or other uses of individually-owned trust or restricted lands;

(25) Income that is set aside under an approved Plan for Achieving Self-Support for Blind or Disabled People (PASS). The Social Security Administration approves the plan, the amount of income excluded and the period of time approved. A plan can be approved for an initial period of 18 months. The plan may be extended for an additional 18 months if needed, and an additional 12 months (total 48 months) when the objective involves a lengthy educational or training program;

(26) Payments made to individuals because of their status as victims of Nazi persecution (PL 103-286);

(27) Payments received under the Civil Liberties Act of 1988. These payments are to be made to individuals of Japanese ancestry who were detained in internment camps during World War II;

(28) Payments received as a result of participation in a class action lawsuit entitled "Factor VIII or IX Concentrate Blood Products Litigation". These payments are made to hemophilia patients who are infected with HIV. However, if the payments are placed in an interest-bearing account, or some other investment medium that produces income, the income generated by the account may be countable as income to the individual;

(29) Payments made to certain Vietnam veterans' children with spina bifida (PL 104-204);

(30) Payments made to certain Korea service veterans' children with spina bifida (PL 108-183);

(31) Payments made to the children of women Vietnam veterans who suffer from certain birth defects (PL 106-419); ~~and~~

(32) Additional payments of regular unemployment compensation in the amount of \$25 per week ending June 30, 2010, and any amount of emergency unemployment compensation paid through May 31, 2010, as authorized under the American Recovery and Reinvestment Tax Act of 2009; and

(33) Wages paid by the Census Bureau for temporary employment related to Census activities.

(c) **Determination of income.** The member is responsible for reporting information regarding all sources of available income. This information is verified and used by the worker in determining eligibility.

(1) Gross income is listed for purposes of determining eligibility. It may be derived from many sources, and some items may be automatically disregarded by the computer when so provided by state or federal law.

(2) If a member is determined to be categorically needy and is also an SSI recipient, any change in countable income, (see OAC 317:35-5-42(d)(3) to determine countable income) will not affect

receipt of medical assistance and amount of State Supplemental Payment (SSP) as long as the amount does not cause SSI ineligibility. Income which will be considered by SSI in the retrospective cycle is documented in the case with computer update at the time that SSI makes the change (in order not to penalize the member twice). If the SSI change is not timely, the worker updates the computer using the appropriate date as if it had been timely. If the receipt of the income causes SSI ineligibility, the income is considered immediately with proper action taken to reduce or close the medical assistance and SSP case. Any SSI overpayment caused by SSA not making timely changes will result in recovery by SSI in the future. When the worker becomes aware of income changes which will affect SSI eligibility or payment amount, the information is to be shared with the SSA office.

(3) Some of the more common income sources to be considered in determining eligibility are as follows:

(A) **Retirement and disability benefits.** These include but are not limited to OASDI, VA, Railroad Retirement, SSI, and unemployment benefits. Federal and State benefits are considered for the month they are intended when determining eligibility.

(i) Verifying and documenting the receipt of the benefit and the current benefit amount are achieved by:

(I) seeing the member's award letter or warrant;

(II) obtaining a signed statement from the individual who cashed the warrant; or

(III) by using BENDEX and SDX.

(ii) Determination of OASDI benefits to be considered (disregarding COLA's) for former State Supplemental recipients who are reapplying for medical benefits under the Pickle Amendment must be computed according to OKDHS Appendix C-2-A.

(iii) The Veterans Administration allows their recipients the opportunity to request a reimbursement for medical expenses not covered by SoonerCare. If a recipient is eligible for the readjustment payment, it is paid in a lump sum for the entire past year. This reimbursement is disregarded as income and a resource in the month it is received; however, any amount retained in the month following receipt is considered a resource.

(iv) Government financial assistance in the form of VA Aid and Attendance or Champus payments is considered as follows:

(I) **Nursing facility care.** VA Aid and Attendance or Champus payment whether paid directly to the member or to the facility, are considered as third party resources and do not affect the income eligibility or

the vendor payment of the member.

(II) **Own home care.** The actual amount of VA Aid and Attendance payment paid for an attendant in the home is disregarded as income. In all instances, the amount of VA Aid and Attendance is shown on the computer form.

(v) Veterans or their surviving spouse who receive a VA pension may have their pension reduced to \$90 by the VA if the veteran does not have dependents, is SoonerCare eligible, and is residing in a nursing facility that is approved under SoonerCare. Section 8003 of Public Law 101-508 allows these veterans' pensions to be reduced to \$90 per month. None of the \$90 may be used in computing any vendor payment or spenddown. In these instances, the nursing home resident is entitled to the \$90 reduced VA pension as well as the regular nursing facility maintenance standard. Any vendor payment or spenddown will be computed by using other income minus the monthly nursing facility maintenance standard minus any applicable medical deduction(s). Veterans or their surviving spouse who meet these conditions will have their VA benefits reduced the month following the month of admission to a SoonerCare approved nursing facility.

(B) **SSI benefits.** SSI benefits may be continued up to three months for a recipient who enters a public medical or psychiatric institution, a SoonerCare approved hospital, extended care facility, intermediate care facility for the mentally retarded or nursing facility. To be eligible for the continuation of benefits, the SSI recipient must have a physician's certification that the institutionalization is not expected to exceed three months and there must be a need to maintain and provide expenses for the home. These continued payments are intended for the use of the recipient and do not affect the vendor payment.

(C) **Lump sum payments.**

(i) Any income received in a lump sum (with the exception of SSI lump sum) covering a period of more than one month, whether received on a recurring or nonrecurring basis, is considered as income in the month it is received. Any amount from any lump sum source, including SSI (with the exception of dedicated bank accounts for disabled/blind children under age 18), retained on the first day of the next month is considered as a resource. Such lump sum payments may include, but are not limited to, accumulation of wages, retroactive OASDI, VA benefits, Workers' Compensation, bonus lease payments and annual rentals from land and/or minerals.

(ii) Lump sum payments used to establish dedicated bank accounts by representative payees in order to receive and

maintain retroactive SSI benefits for disabled/blind children under age 18 are excluded as income. The interest income generated from dedicated bank accounts is also excluded. The dedicated bank account consisting of the retroactive SSI lump sum payment and accumulated interest is excluded as a resource in both the month received and any subsequent months.

(iii) A life insurance death benefit received by an individual while living is considered as income in the month received and as a resource in the following months to the extent it is available.

(iv) Changing a resource from one form to another, such as converting personal property to cash, is not considered a lump sum payment.

(D) Income from capital resources and rental property.

Income from capital resources can be derived from rental of a house, rental from land (cash or crop rent), leasing of minerals, life estate, homestead rights or interest.

(i) If royalty income is received monthly but in irregular amounts, an average based on the previous six months' royalty income is computed and used to determine income eligibility. Exception: At any time that the county becomes aware of and can establish a trend showing a dramatic increase or decrease in royalty income, the previous two month's royalty income is averaged to compute countable monthly income.

(ii) Rental income may be treated as earned income when the individual participates in the management of a trade or business or invests his/her own labor in producing the income. The individual's federal income tax return will verify whether or not the income is from self-employment. Otherwise, income received from rent property is treated as unearned income.

(iii) When property rental is handled by a leasing agent who collects the rent and deducts a management fee, only the rent actually received by the member is considered as income.

(E) Earned income/self-employment. The term "earned income" includes income in cash earned by an individual through the receipt of wages, salary, commission or profit from activities in which he/she is engaged as a self-employed individual or as an employee. See subparagraph (G) of this paragraph for earnings received in fluctuating amounts. "Earned Income" is also defined to include in-kind benefits received by an employee from an employer in lieu of wages or in conjunction with wages. Such benefits received in-kind are considered as earned income only when the employee/employer relationship has been established. The

cash value of the in-kind benefits must be verified by the employer. Income from self-employment also includes in-kind benefits for a work activity or service for which the self-employed person ordinarily receives payment in his/her business enterprise. An exchange of labor or services; e.g., barter, is considered as an in-kind benefit. Medical insurance secured through the employer, whether purchased or as a benefit, is not considered in-kind but is recorded on the case computer input document for coordination with SoonerCare benefits.

(i) Advance payments of EITC or refunds of EITC received as a result of filing a federal income tax return are considered as earned income in the month they are received.

(ii) Work study received by an individual who is attending school is considered as earned income with appropriate earned income disregards applied.

(iii) Money from the sale of whole blood or blood plasma is considered as self-employment income subject to necessary business expense and appropriate earned income disregards.

(iv) Self-employment income is determined as follows:

(I) Generally, the federal or state income tax form for the most recent year is used for calculating the self-employment income to project income on a monthly basis for the certification period. The gross income amount as well as the allowable deductions are the same as can be claimed under the Internal Revenue code for tax purposes.

(II) Self-employment income which represents a household's annual support is prorated over a 12-month period, even if the income is received in a short period of time. For example, self-employment income received by crop farmers is averaged over a 12-month period if the income represents the farmer's annual support.

(III) If the household's self-employment enterprise has been in existence for less than a year, the income from that self-employment enterprise is averaged over the period of time the business has been in operation to establish the monthly income amount.

(IV) If a tax return is not available because one has not been filed due to recent establishment of the self-employment enterprise, a profit and loss statement must be seen to establish the monthly income amount.

(V) The purchase price and/or payment(s) on the principal of loans for capital assets, equipment, machinery, and other durable goods is not considered as

a cost of producing self-employed income. Also not considered are net losses from previous periods, depreciation of capital assets, equipment, machinery, and other durable goods; and federal, state and local income taxes, FICA, money set aside for retirement purposes, and other work related personal expenses, such as meals and necessary transportation (these expenses are accounted for by the work related expense deduction given in OAC 340:10-3-33(1)).

(v) Countable self-employment income is determined by deducting allowable business expenses to determine the adjusted gross income. The earned income deductions are then applied to establish countable earned income.

(F) **Inconsequential or irregular income.** Inconsequential or irregular receipt of income in the amount of \$10 or less per month or \$30 or less per quarter is disregarded. The disregard is applied per individual for each type of inconsequential or irregular income. To determine whether the income is inconsequential or irregular, the gross amount of earned income and the gross minus business expense of self-employed income are considered.

(G) **Monthly income received in fluctuating amounts.** Income which is received monthly but in irregular amounts is averaged using two month's income, if possible, to determine income eligibility. Less than two month's income may be used when circumstances (e.g., new employment, unpaid sick leave, etc.) would indicate that previous income amounts would not be appropriate to use in determining future income amounts. Income received more often than monthly is converted to monthly amounts as follows:

(i) **Daily.** Income received on a daily basis is converted to a weekly amount then multiplied by 4.3.

(ii) **Weekly.** Income received weekly is multiplied by 4.3.

(iii) **Twice a month.** Income received twice a month is multiplied by 2.

(iv) **Biweekly.** Income received every two weeks is multiplied by 2.15.

(H) **Non-negotiable notes and mortgages.** Installment payments received on a note, mortgage, etc., are considered as monthly income.

(I) **Income from the Job Training and Partnership Act (JTPA).** Unearned income received by an adult, such as a needs based payment, cash assistance, compensation in lieu of wages, allowances, etc., from a program funded by JTPA is considered as any other unearned income. JTPA earned income received as wages is considered as any other earned income.

(J) **Other income.** Any other monies or payments which are

available for current living expenses must be considered.

(d) **Computation of income.**

(1) **Earned income.** The general income exclusion of \$20 per month is allowed on the combined earned income of the eligible individual and eligible or ineligible spouse. See paragraph (6) of this subsection if there are ineligible minor children. After the \$20 exclusion, deduct \$65 and one-half of the remaining combined earned income.

(2) **Unearned income.** The total gross amount of unearned income of the eligible individual and eligible or ineligible spouse is considered. See paragraph (6) of this subsection if there are ineligible minor children.

(3) **Countable income.** The countable income is the sum of the earned income after exclusions and the total gross unearned income.

(4) **Deeming computation for disabled or blind minor child(ren).**

An automated calculation is available for computing the income amount to be deemed from parent(s) and the spouse of the parent to eligible disabled or blind minor child(ren) by use of transaction CID. The ineligible minor child in the computation regarding allocation for ineligible child(ren) is defined as: a dependent child under age 18.

(A) A mentally retarded child living in the home who is ineligible for SSP due to the deeming process may be approved for Medical Assistance under the Home and Community Based Waiver (HCBW) Program as outlined in OAC 317:35-9-5.

(B) For TEFRA, the income of child's parent(s) is not deemed to him/her.

(5) **Premature infants.** Premature infants (i.e., 37 weeks or less) whose birth weight is less than 1200 grams (approximately 2 pounds 10 ounces) will be considered disabled by SSA even if no other medical impairment(s) exist. In this event, the parents income are not deemed to the child until the month following the month in which the child leaves the hospital and begins living with his/her parents.

(6) **Procedures for deducting ineligible minor child allocation.** When an eligible individual has an ineligible spouse and ineligible minor children (not receiving TANF), the computation is as follows:

(A) Each ineligible child's allocation (OKDHS Appendix C-1, Schedule VII. C.) minus each child's gross countable income is deducted from the ineligible spouse's income. Deeming of income is not done from child to parent.

(B) The deduction in subparagraph (A) of this paragraph is prior to deduction of the general income exclusion and work expense.

(C) After computations in subparagraphs (A) and (B) of this

paragraph, the remaining amount is the ineligible spouse's countable income considered available to the eligible spouse.

(7) **Special exclusions for blind individuals.** Any blind individual who is employed may deduct the general income exclusion and the work exclusion from the gross amount of earned income. After the application of these exclusions, one-half of the remaining income is excluded. The actual work expense is then deducted from the remaining half to arrive at the amount of countable income. If this blind individual has a spouse who is also eligible due to blindness and both are working, the amount of ordinary and necessary expenses attributable to the earning of income for each of the blind individuals may be deducted. Expenses are deductible as paid but may not exceed the amount of earned income. To be deductible, an expense need not relate directly to the blindness of the individual, it need only be an ordinary and necessary work expense of the blind individual. Such expenses fall into three broad categories:

- (A) transportation to and from work;
- (B) job performance; and
- (C) job improvement.

**SUBCHAPTER 10. MEDICAL AID TO FAMILIES
WITH DEPENDENT CHILDREN
PART 5. INCOME**

317:35-10-26. Income

(a) **General provisions regarding income.**

(1) The income of categorically needy individuals who are related to AFDC or Pregnancy does not require verification, unless questionable. If the income is questionable the worker must verify the income. The worker views all data exchange screens on all individuals included in the household size. If the data exchange screen reveals conflicting information, the worker must resolve the conflicting information and if necessary, request verification.

(2) All available income, except that required to be disregarded by law or OHCA's policy, is taken into consideration in determining need. Income is considered available both when actually available and when the applicant or member has a legal interest in a liquidated sum and has the legal ability to make such sum available for support and maintenance. When an individual's income is reduced due to recoupment of an overpayment or garnishment, the gross amount before the recoupment or garnishment is counted as income. The member is responsible for reporting all income, the source, amount and how often received.

- (A) Income received on behalf of a member of the benefit

group by another individual such as, but not limited to, a guardian or conservator, is considered available to the benefit group.

(B) Money received and used for the care and maintenance of a third party who is not included in the benefit group is not counted as income if it can be identified and verified as intended for third party use.

(C) If it appears any member of the benefit group or an individual whose income is considered when determining eligibility is eligible for any type of income or benefits, the benefit group must be notified in writing by the Oklahoma Department of Human Services (OKDHS). The notice must contain the information that failure to apply for and take all appropriate steps to obtain such benefits within 30 days from the date of the notice will result in a determination of ineligibility. An application for Supplemental Security Income (SSI) is not required.

(D) If the member and spouse are living together or they are living apart but there has not been a clear break in the family relationship, income received by either spouse and income received jointly is considered as family income. Income cannot be diverted to a household member who is not included in the household size for health benefits. Consideration is not given to a SSI recipient's income in computing eligibility for the AFDC related unit.

(E) Income which can reasonably be anticipated to be received is considered to be available for the month its receipt is anticipated.

(F) Income produced from resources must be considered as unearned income.

(3) Income that must be verified is verified by the best available information such as pay stubs presented by the member or an interview with the employer. Pay stubs may only be used for verification if they have the member's name and/or social security number indicating that the pay stubs are in fact the member's wages. The stubs should also include the date(s) of the pay period and the amount of income before deductions. If this information is not included, employer verification is required. The worker verifies medical insurance which may be available at the same time that income is verified. When a member of the benefit group accepts employment and has not received any wages, verification (if necessary) of the amount of income to be considered and the anticipated date of receipt must be obtained from the employer. Income which is expected to be received during a month is considered available to the benefit group and is counted in determining eligibility for the month of receipt.

(4) Monies received in a lump sum from any source are considered

income in the month received. Changing a resource from one form to another, such as converting personal property to cash, is not considered a lump sum payment. Exception: lump sum payments used to establish dedicated bank accounts by representative payees in order to receive and maintain retroactive SSI benefits for disabled/blind children under age 18 are excluded as income.

The interest income generated from dedicated bank accounts is also excluded.

(A) A nonrecurring lump sum payment considered as income includes payments based on accumulation of income and payments which may be considered windfall in nature and may include but are not limited to TANF grant diversion, VA or Social Security lump sum payments, inheritance, gifts, worker's compensation payments, cash winnings, personal injury awards, etc. Retirement benefits received in a lump-sum are considered as unearned income. A non-recurring lump sum SSI retroactive payment, made to an AFDC or pregnancy related recipient who is not currently eligible for SSI, is not counted as income.

(B) Lump sum payments (minus allowable deductions related to establishing the lump sum payment) which are received by AFDC/Pregnancy related individuals or applicants are considered as income. Allowable deductions are expenses earmarked in the settlement or award to be used for a specific purpose which may include, but are not limited to, attorney's fees and court costs that are identified in the lump sum settlement, medical or funeral expenses for the immediate family, etc. "Earmarked" means that such expense is specifically set forth in the settlement or award.

(C) When a lump sum is received by a stepparent not included in the household size, only the stepparent's contribution is considered in accordance with the stepparent's liability policy.

(D) When a third party reveals that a lump sum payment has been received or is expected to be received by the applicant or member, adverse action notification is given or mailed to the applicant/member and appropriate action taken.

(E) Recurring lump sum income received from any source for a period covering more than one month, that is received in a lump sum recurrently (such as annual rentals from surface or minerals, Windfall Profits tax refund, etc.) is prorated over a period of time it is intended to cover, beginning with the month of receipt of a lump sum payment.

(F) Net income from oil and gas production (gross minus production taxes withheld), received in varying amounts on a regular or irregular basis for the past six months, will be averaged and considered as income for the next six months. In instances where an applicant or a member receives new

income from oil and gas production and verification for the past six months is not available, the worker accepts the available verification and averages over the period of time intended to cover. Net income may be verified by seeing the individual's production check stub, or by contacting the oil and gas company.

(5) Income that is based on the number of hours worked, as opposed to income based on regular monthly wages, must be computed as irregular income. The income received irregularly or in varying amounts will be averaged using the past two months to establish the amount to be anticipated and considered for prospective budgeting.

(6) A caretaker relative can only be included in the benefit group when the biological or adoptive parent is not in the home.

A stepparent can be included when the biological or adoptive parent is either incapacitated or not in the home.

(A) Consideration is not given to the income of the caretaker relative or the income of his or her spouse in determining the eligibility of the children regardless of whether the caretaker relative's needs are or are not included. However, if that person is the stepparent, the policy on stepparent liability is applicable.

(B) If a caretaker relative is married and living with the spouse who is an SSI or SSP recipient, the spouse or spouse's income is not considered in determining the eligibility of the caretaker relative. The income of the caretaker relative and the spouse who is not an SSI or SSP recipient must be considered. Only one caretaker relative is eligible to be included in any one month.

(7) A stepparent can be included when the biological or adoptive parent is either incapacitated or not in the home. The income of the stepparent is counted if the stepparent's needs are being included.

(8) When there is a stepparent or person living in the home with the biological or adoptive parent who is not a spouse by legal marriage to or common-law relationship with the own parent, the worker determines the amount of income that will be made available to meet the needs of the child(ren) and the parent. Only contributions made in cash directly to the benefit group can be counted as income. In-kind contributions are disregarded as income. When the individual and the member state the individual does not make a cash contribution, further exploration is necessary. This statement can only be accepted after clarifying that the individual's contributions are only in-kind.

(b) **Earned income.** The term "earned income" refers to monies earned by an individual through the receipt of wages, salary, commission or profit from activities in which the individual is

engaged as self-employed or as an employee. Payments made for accumulated annual leave/vacation leave, sick leave or as severance pay are considered as earned income whether paid during employment or at termination of employment. Temporary disability insurance payment(s) and temporary worker's compensation payments are considered as earned income if payments are employer funded and the individual remains employed. Income received as a one-time nonrecurring payment is considered as a lump sum payment. Earned income includes in-kind benefits received by an employee from an employer in lieu of wages or in conjunction with wages. An exchange of labor or services, e.g., barter, is considered as an in-kind benefit. Such benefits received in-kind are considered as earned income only when the employee/employer relationship has been established. Income from self-employment also includes in-kind benefits for a work activity or service for which the self-employed person ordinarily receives payment in the business enterprise. Medical insurance secured through the employer, whether purchased or as a benefit, is not considered in-kind income. Gross earned income is used to determine eligibility. Gross earned income is defined as the prior to payroll deductions and/or withholdings.

(1) **Earned income from self-employment.** If the income results from the individuals's activities primarily as a result of the individuals's own labor from the operation of a business enterprise, the "earned income" is the total profit after deducting the business expenses (cost of the production). Money from the sale of whole blood or blood plasma is also considered as self-employment income subject to necessary business expense and appropriate earned income exemptions.

(A) Allowable costs of producing self-employment income include, but are not limited to, the identifiable cost of labor, stock, raw material, seed and fertilizer, interest payments to purchase income-producing property, insurance premiums, and taxes paid on income-producing property.

(i) The federal or state income tax form for the most recent year is used for calculating the income only if it is representative of the individual's current situation. The individual's business records beginning the month income became representative of the individual's current situation is used if the income tax information does not represent the individual's current situation.

(ii) If the self-employment enterprise has been in existence for less than a year, the income is averaged over the period of time the business has been in operation to establish the monthly income amount.

(iii) Self-employment income which represents an annual support is prorated over a 12-month period, even if the income is received in a short period of time. For example, self-employment income received by crop farmers

is averaged over a 12-month period if the income represents the farmer's annual support.

(B) **Items not considered.** The following items are not considered as a cost of producing self-employed income:

(i) The purchase price and/or payments on the principal of loans for capital assets, equipment, machinery, and other durable goods;

(ii) Net losses from previous periods;

(iii) Depreciation of capital assets, equipment, machinery, and other durable goods; and

(iv) Federal, state and local income taxes, FICA, money set aside for retirement purposes, and other work related personal expenses, such as meals and necessary transportation. These expenses are accounted for by the work related expense deduction.

(C) **Room and/or board.** Earned income from a room rented in the home is determined by considering 25% of the gross amount received as a business expense. If the earned income includes payment for room and board, 50% of the gross amount received is considered as a business expense.

(D) **Rental property.** Income from rental property is to be considered income from self employment if none of the activities associated with renting the property is conducted by an outside-person or agency.

(2) **Earned income from wages, salary or commission.** If the income is from wages, salary or commission, the "earned income" is the gross income prior to payroll deductions and/or withholdings. Income from the Older American Community Service Employment Act (Title V), including AARP and Green Thumb organizations as well as employment positions allocated at the discretion of the Governor of Oklahoma, is counted as any other earned income.

(3) **Earned income from work and training programs.** Earned income from work and training programs such as the Job Training Partnership Act (JTPA) received by an adult as wages is considered as any other earned income. Also, JTPA earned income of a dependent child is considered when received in excess of six months in any calendar year.

(4) **Individual earned income exemptions.** Exemptions from each individual's earned income include a monthly standard work related expense and child care expenses the individual is responsible for paying. Expenses cannot be exempt if paid through state or federal funds or the care is not in a licensed facility or home. Exempt income is that income which by law may not be considered in determining need.

(A) **Work related expenses.** The standard deduction for work related expenses such as income tax payments, Social Security

taxes, and transportation to and from work, is \$240 per each full-time or part-time employed member of the benefit group.

(B) **Child care expenses.** Disregard of child care expense is applied after all other income disregards.

(i) Child care expense may be deducted when:

(I) suitable care for a child included in the benefit group is not available from responsible persons living in the home or through other alternate sources; and

(II) the employed member whose income is considered must purchase care.

(ii) Child care expenses must be verified and the actual amount per month, as paid, up to a maximum of \$200 for a child under the age of two or \$175 for a child age two or older may be deducted.

(iii) Oklahoma law requires all child care centers and homes be properly approved or licensed; therefore, child care expenses can only be deducted if the child is in a properly licensed facility or receiving care from an approved in-home provider.

(iv) Child care provided by another person in the household who is not a member of the benefit group may be considered as child care expenses as long as the home meets applicable standards of State, local or Tribal law.

(v) Documentation is made of the child care arrangement indicating the name of the child care facility or the name of the in-home provider, and the documentation used to verify the actual payment of child care per month.

(5) **Formula for determining the individual's net earned income.**

Formulas used to determine net earned income to be considered are:

(A) **Net earned income from employment other than self-employment.** Gross Income minus work related expense minus child care expense equals net income.

(B) **Net earned income from self-employment.** Gross income minus allowable business expenses minus work related expense and child care expense equals net income.

(c) **Unearned income.**

(1) **Capital investments.** Proceeds, i.e., interest or dividends from capital investments, such as savings accounts, bonds (other than U.S. Savings Bonds, Series A through EE), notes, mortgages, etc., received constitute income.

(2) **Life estate and homestead rights.** Income from life estate or homestead rights, constitute income after deducting actual business expenses.

(3) **Minerals.** If the member owns mineral rights, only actual income from minerals, delayed rentals, or production is considered. Evidence is obtained from documents which the

member has in hand. When the member has no documentary evidence of the amount of income, the evidence, if necessary, is secured from the firm or person who is making the payment.

(4) **Contributions.** Monetary contributions are considered as income except in instances where the contribution is not made directly to the member.

(5) **Retirement and disability benefits.** Income received monthly from retirement and disability benefits is considered as unearned income. Information as to receipt and amount of OASDI benefits is obtained, if necessary, from BENDEX, the member's award letter, or verification from SSA. Retirement benefits received as a lump sum payment at termination of employment are considered as income. Supplemental Security Income (SSI) does not fall under these types of benefits.

(6) **Unemployment benefits.** Unemployment benefits are considered as unearned income.

(7) **Military benefits.** Life insurance, pensions, compensation, servicemen dependents' allowances and the like, are all sources of income which the member and/or dependents may be eligible to receive. In each case under consideration, information is obtained as to whether the member's son, daughter, husband or parent, has been in any military service. Clearance is made with the proper veterans' agency, both state and federal, to determine whether the benefits are available.

(8) **Casual and inconsequential gifts.** Monetary gifts which do not realistically represent income to meet living expenses, e.g., Christmas, graduation and birthday gifts, not to exceed \$30 per calendar quarter for each individual, are disregarded as income. The amount of the gifts are disregarded as received during the quarter until the aggregate amount has reached \$30. At that time the portion exceeding \$30 is counted as lump sum income. If the amount of a single gift exceeds \$30, it is not inconsequential and the total amount is therefore counted. If the member claims that the gift is intended for more than one person in the family unit, it is allowed to be divided. Gifts between members of the family unit are not counted.

(9) **Grants.** Grants which are not based on financial need are considered income.

(10) **Funds held in trust by Bureau of Indian Affairs (BIA).** The BIA frequently puts an individual's trust funds in an Individual Indian Money (IIM) account. To determine the availability of funds held in trust in an IIM account, the social worker must contact the BIA in writing and ascertain if the funds, in total or any portion, are available to the individual. If any portion of the funds is disbursed to the individual member, guardian or conservator, such funds are considered as available income. If the BIA determines the funds are not available, they are not

considered. Funds held in trust by the BIA and not disbursed are considered unavailable.

(A) In some instances, BIA may determine the account is unavailable; however, they release a certain amount of funds each month to the individual. In this instance the monthly disbursement is considered as income.

(B) When the BIA has stated the account is unavailable and the account does not have a monthly disbursement plan, but a review reveals a recent history of disbursements to the individual member, guardian or conservator, these disbursements must be resolved with the BIA. These disbursements indicate all or a portion of the account may be available to the individual member, guardian or conservator.

(C) When disbursements have been made, the worker verifies whether such disbursements were made to the member or to a third party vendor in payment for goods or services. Payments made directly from the BIA to vendors are not considered as income to the member. Workers obtain documentation to verify services rendered and payment made by BIA.

(D) Amounts disbursed directly to the members are counted as non-recurring lump sum payments in the month received. Some trusts generate income on a regular basis and the income is sent to the beneficiary. In those instances, the income is counted in the month received.

(d) **Income disregards.** Income that is disregarded in determining eligibility includes:

(1) Food Stamp benefits;

(2) Any payment received under Title II of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970;

(3) Education Grants (including work study), scholarships, etc., that are contingent upon the student regularly attending school. The student's classification (graduate or undergraduate) is not a factor;

(4) Loans (regardless of use) if a bona fide debt or obligation to pay can be established. Criteria to establish a loan as bona fide includes an acknowledgment of obligation to repay or evidence that the loan was from an individual or financial institution in the loan business. If the loan was from a person(s) not in the loan business, the borrower's acknowledgment of obligation to repay (with or without interest) is required to indicate that the loan is bona fide. If the loan agreement is not written, OKDHS Form 08AD103E, Loan Verification, should be completed by the borrower attesting that the loan is bona fide and signed by the lender verifying the date and amount of loan. When copies of written agreements or OKDHS Form Adm-103 are not available, detailed case

documentation must include information that the loan is bona fide and how the debt amount and date of receipt was verified;

(5) Indian payments (including judgement funds or funds held in trust) which are distributed per capita by the Secretary of the Interior (BIA) or distributed by the tribe subject to approval by the Secretary of the Interior. Also, any interest or investment income accrued on such funds while held in trust or any purchases made with judgement funds, trust funds, interest or investment income accrued on such funds. Any income from mineral leases, from tribal business investments, etc., as long as the payments are paid per capita. For purposes of this paragraph, per capita is defined as each tribal member receiving an equal amount. However, any interest or income derived from the principal or produced by purchases made with the funds after distribution is considered as any other income;

(6) Special allowance for school expenses made available upon petition in writing from trust funds of the student;

(7) Benefits from State and Community Programs on Aging under Title III of the Older Americans Act of 1965 amended by PL 100-175 to become the Older Americans Act amendments of 1987;

(8) Unearned income received by a child, such as a needs based payment, cash assistance, compensation in lieu of wages, allowance, etc., from a program funded by the Job Training and Partnership Act (JTPA) including Job Corps income. Also, JTPA earned income received as wages, not to exceed six months in any calendar year;

(9) Payments for supportive services or reimbursement for out-of-pocket expenses made to individual volunteers serving as foster grandparents, senior health aids, or senior companions, and to persons serving in the Service Corps of Retired Executives (SCORE) and Active Corps of Executives (ACE);

(10) Payments to volunteers under the Domestic Volunteer Service Act of 1973 (VISTA), unless the gross amount of VISTA payments equals or exceeds the state or federal minimum wage, whichever is greater;

(11) The value of supplemental food assistance received under the Child Nutrition Act or the special food service program for children under the National School Lunch Act;

(12) Any portion of payments, made under the Alaska Native Claims Settlement Act to an Alaska Native, which are exempt from taxation under the Settlement Act;

(13) If an adult or child from the family group is living in the home and is receiving SSI, his/her individual income is considered by the Social Security Administration in determining eligibility for SSI. Therefore, that income cannot be considered as available to the benefit group;

(14) Experimental Housing Allowance Program (EHAP) payments made under Annual Contributions Contracts entered into prior to

January 1, 1975, under Section 23 of the U.S. Housing Act of 1937, as amended;

(15) Earnings of a child who is a full-time student are disregarded;

(16) The first \$50 of the current monthly child support paid by an absent parent. Only one disregard is allowed regardless of the number of parents paying or amounts paid. An additional disregard is allowed if payments for previous months were paid when due but not received until the current month;

(17) Government rental or housing subsidies by governmental agencies, e.g., HUD (received in-kind or in cash) for rent, mortgage payments or utilities;

(18) Reimbursements from an employer for out-of-pocket expenditures and allowances for travel or training to the extent the funds are used for expenses directly related to such travel or training, and uniform allowances if the uniform is uniquely identified with company name or logo;

(19) Low Income Home and Energy Assistance Program (LIHEAP) and Energy Crisis Assistance Program (ECAP) payments;

(20) Advance payments of Earned Income Tax Credit (EITC) or refunds of EITC as a result of filing a federal income tax return;

(21) Payments made from the Agent Orange Settlement Fund or any other fund established pursuant to the settlement in the In Re Agent Orange product liability litigation, M.D.L. No. 381 (E.D.N.Y.);

(22) Payments made from the Radiation Exposure Compensation Trust Fund as compensation for injuries or deaths resulting from the exposure to radiation from nuclear testing and uranium mining;

(23) Federal major disaster and emergency assistance provided under the Disaster Relief Act of 1974, and comparable disaster assistance provided by states, local governments and disaster assistance organizations;

(24) Interests of individual Indians in trust or restricted lands;

(25) Income up to \$2,000 per year received by individual Indians, which is derived from leases or other uses of individually-owned trust or restricted lands;

(26) Any home produce from garden, livestock and poultry utilized by the member and his/her household for their consumption (as distinguished from such produce sold or exchanged);

(27) Any payments made directly to a third party for the benefit of a member of the benefit group;

(28) Financial aid provided to individuals by agencies or organizations which base their payment on financial need;

(29) Assistance or services received from the Vocational

Rehabilitation Program, such as transportation expenses to a rehabilitation center, extra clothing, lunches, grooming needed for a training program and an other such complimentary payments;

(30) Payments made by a public or private non-profit child care agency for a child placed in foster care or subsidized adoption;

(31) Payments made to certain Vietnam veterans' children with spina bifida (PL 104-214);

(32) Payments made to certain Korea service veterans' children with spina bifida (PL 108-183);

(33) Payments made to the children of women Vietnam veterans who suffer from certain birth defects (PL 106-419); ~~and~~

(34) Additional payments of regular unemployment compensation in the amount of \$25 per week ending June 30, 2010, and any amount of emergency unemployment compensation paid through May 31, 2010, as authorized under the American Recovery and Reinvestment Tax Act of 2009; and

(35) Wages paid by the Census Bureau for temporary employment related to Census activities.

(e) In computing monthly income, cents will be carried at all steps until the monthly amount is determined and then will be rounded to the nearest dollar. These rounding procedures apply to each individual and each type of income. Income which is received monthly but in irregular amounts is averaged using two month's income, if possible, to determine income eligibility. Less than two month's income may be used when circumstances (e.g., new employment, unpaid sick leave, etc.) would indicate that previous income amounts would not be appropriate to use in determining future income amounts. Income received more often than monthly is converted to monthly amounts as follows:

- (1) **Daily.** Income received on a daily basis is converted to a weekly amount then multiplies by 4.3.
- (2) **Weekly.** Income received weekly is multiplied by 4.3.
- (3) **Twice a month.** Income received twice a month is multiplied by 2.
- (4) **Biweekly.** Income received every two weeks is multiplied by 2.15.
