## **AUTHORITY FOR EXPENDITURE OF FUNDS External Quality Review Organization (EQRO)**

#### **BACKGROUND**

OHCA is seeking a Contractor to perform External Quality Review services as required by 42 CFR §438 Subpart E, which will support and supplement the quality improvement efforts currently performed by the QA/QI SoonerCare Compliance Unit.

External quality review means the analysis and evaluation by an External Quality Review Organization (EQRO) of aggregated information on quality, timeliness, and access to health care services furnished to SoonerCare (Medicaid) recipients.

#### **SCOPE OF WORK**

The activities to be conducted by the EQRO are as follows:

- Retrospective review on paid hospital inpatient and outpatient observation claims to determine medical necessity and appropriateness;
- Quality interventions and education a peer review function to identify medical providers who have provided substandard care in SoonerCare programs, educate these providers, and closely monitor their care delivery; and,
- Member satisfaction surveys to assist OHCA in improving the delivery of managed care;
- Conduct quality assessment and performance improvement reports at the time of contract award resulting from HB 1566.

#### **CONTRACT PERIOD**

### **AUTHORITY FOR EXPENDITURE OF FUNDS Information Technology Security Services Contract**

#### **BACKGROUND**

OHCA is seeking a Contractor to perform Information Technology Security Services to support and supplement the IT security services efforts currently performed by the Infrastructure, Software and Support Units.

IT security is gaining a higher profile in light of recent corporate and government failures, and States are being required to meet increased regulations from multiple oversight organizations; not all requirements are compatible or comparable. To meet the challenges of providing strong yet flexible security, OHCA is seeking a contractor to further develop IT governance within OHCA and incorporating the requirements of external oversight and contractors.

#### **SCOPE OF WORK**

The IT Security Services contractor shall assist OHCA with the following:

- Determine the most secure method to implement Medicaid Information Technology Architecture (MITA) and MMIS Remediation requirements as defined in 42 CFR Part 433 Subpart C. This requirement decreases siloes of custom IT system builds across the Medicaid Enterprise and increases the use of modular systems that can be used by multiple entities, thus reducing the costs of information technology;
- Complete required documentation, including:
  - The Center for Medicare & Medicaid Services (CMS) Minimum Acceptable Risk Standards for Exchanges (MARS-E) Security Assessment version 2.0;
  - o The HIPAA Risk Analysis Requirements in 45 C.F.R 164.302-318; and,
  - The Office of Management and Enterprise Services (OMES) Security Assessment requirements;
- Develop a plan for Security Governance based on the existing available resources. OHCA's goal is to work toward the understanding that security must be implemented throughout the organization as a coherent system of integrated security components including products, personnel, training, processes, policies, etc.;

#### **CONTRACT PERIOD**

Date of award through June 30, 2016 with annual options to renew through June 30, 2021.

#### CONTRACT AMOUNT AND PROCUREMENT METHOD

- Will be awarded through release from a non-mandatory statewide contract available through OMES
- Federal matching percentage is 90%
- Estimated contract amounts:
