oklahoma health care authority

OUR MISSION STATEMENT

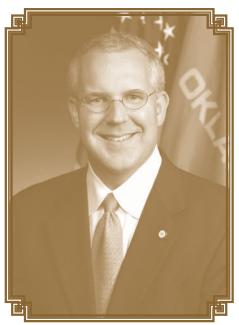

To purchase state and federally funded health care in the most efficient and comprehensive manner possible and to study and recommend strategies for optimizing the accessibility and quality of health care.

Our Vision

Our vision at the Oklahoma Health Care Authority (OHCA) is for Oklahomans to enjoy optimal health status through having access to quality health care regardless of their ability to pay.

OUR VALUES AND BEHAVIORS

- OHCA staff will operate as members of the same team, with a common mission and each with a unique contribution to make toward our success.
- OHCA will be open to new ways of working together.
- OHCA will use qualitative and quantitative data to guide and evaluate our actions and improve our performance in a purposeful way over time.

Message from the Chief Executive Officer

Pioneering Health Care Coverage in Oklahoma

Oklahoma's Centennial is a wonderful time to look back and to celebrate our grand history and the progress Oklahoma has made in these 100 years. But it also reminds us to focus on the opportunities and challenges that lie before us. When we at the Oklahoma Health Care Authority look to the future, our goal is to see all Oklahomans able to access affordable, quality health care and to help our residents achieve optimal health status.

Oklahoma will celebrate its 100th anniversary of statehood Nov. 16, 2007. Here at the OHCA we're also celebrating a more recent landmark event as Gov. Henry and the Legislature enacted the All Kids Act and extended coverage of the Insure Oklahoma (Oklahoma Employer/employee Partnership for Insurance Coverage - O-EPIC)

to thousands of uninsured working Oklahomans. These two health coverage plans are key steps toward reaching our goal.

The All Kids Act will help purchase health insurance for children in families with incomes up to 300 percent of the federal poverty level. For all practical purposes, it means that NO CHILD in Oklahoma should be without access to health care. Insure Oklahoma provides premium assistance to small businesses to help purchase health insurance on the private market for qualified employees and their spouses. It will soon be available to Oklahoma businesses with up to 250 employees and their workers with household incomes up to 250 percent of the poverty level. Pending federal approval, we believe we will be able to implement both of these programs in early 2008.

These are just two of the new health care plans available to Oklahomans. In this report, you will find more examples of our state's pioneer spirit. You will discover important new benefits and services, including dental care for expectant mothers, pay-for-performance for nursing facility services, certified nurse aide training program, more opportunities for home-based independent living, prescription drug assistance, and the list goes on.

As steadily and tenaciously as the occupants of covered wagons made their way across the Plains years ago, the residents of the 46th state are working to improve the health of its people. So we invite you this year to celebrate Oklahoma's unique history and anticipate her extraordinary future.

Vil Jogaty

| | | | | | | |

| | There were 763,565 unduplicated members enrolled in either SoonerCare (Oklahoma Medicaid) or Insure Oklahoma during SFY2007 (July 2006 through June 2007). |
|----|--|
| | A total of 745,474 Oklahoma SoonerCare members received services during SFY2007. |
| | Overall SoonerCare enrollees increased by 2.9 percent and the number served increased 2.5 percent from SFY2006 (July 2005 through June 2006). |
| | Children age 18 and under are the majority of Oklahoma SoonerCare enrollees at 61 percent. |
| | SoonerCare covers more than 50 percent of the births in Oklahoma. (Calendar year 2006, there were 30,877 SoonerCare births compared with 53,878 total statewide, according to the Oklahoma State Department of Health.) |
| | During SFY2007, Oklahoma provided coverage to 34,549 SoonerPlan enrollees and 7,818 women needing further diagnosis or treatment for breast and/or cervical cancer under Oklahoma Cares. |
| Ex | PENDITURES |
| | The bulk of SoonerCare expenditures were made on behalf of the elderly and disabled. Fifty-eight percent of expenditures are made for services provided to the aged, blind and disabled, who made up an average of 18 percent of SoonerCare members for SFY2007. |
| | SoonerCare funded 70 percent of Oklahoma's total long-term care actual bed days. |
| | OHCA expended \$28.4 million on behalf of the Breast and Cervical Cancer enrollees and more than \$5.3 million on SoonerPlan enrollees. |
| | Quality of Care revenues totaled \$53,253,512. |
| | Dollars recovered by OHCA through post payment reviews totaled \$9,233,075. |
| | Drug rebate collections totaled \$86,667,403. |
| 0 | By limiting the amount paid for generic drugs, OHCA saved more than \$75.7 million through the State Maximum Allowable Cost (SMAC) program. |
| AD | MINISTRATION |
| | The OHCA processed 45 emergency rules, 40 permanent rules, and 22 State Plan amendments. |
| | There were 153 group provider training/seminars attended by more than 8,300 providers. OHCA and EDS held 4,021 individual on-site provider training sessions during SFY2007. |
| | OHCA received and investigated 1,707 SoonerCare member complaints. This represents less than 1 percent of the 763,565 SoonerCare enrollees. |
| | There were 38 provider and 45 member formal appeals filed. This is less than one quarter of 1 percent of both populations. |
| | OHCA administrative costs comprised 1.84 percent of the total SoonerCare expenditures. OHCA operating costs represent 48 percent of OHCA administrative costs, and the other 52 percent are contract costs. |

SFY2007 YEAR IN REVIEW

Insure Oklahoma Individual Plan Implemented; Employer-Sponsored Insurance Plan Expands

The Insure Oklahoma (Oklahoma Employer/employee Partnership for Insurance Coverage - O-EPIC) program is making affordable health coverage available to adults throughout the state who are either uninsured or at risk of losing their coverage due to high premium costs. The state share of Insure Oklahoma costs come from the state's tobacco tax revenues.

The Insure Oklahoma Individual Plan (IP), implemented in March 2007, extends coverage to qualified individuals and groups including uninsured self-employed individuals, workers whose employers do not provide health plans or who are not qualified to participate in their employer's health plan, sole proprietors not qualified for small group health plans and the unemployed who are currently seeking work. This program allows qualified Oklahomans to buy a health plan directly through the state.

The Insure Oklahoma Employer-Sponsored Insurance (ESI) plan is an initiative to use public and private partnerships to insure Oklahomans. ESI is designed to assist Oklahoma small business owners in purchasing health insurance on the private market for their income eligible employees (at or below 185 percent of federal poverty level). In June 2006, Governor Henry signed a bill into law that raised the number of employees a qualifying small business can have from 25 to 50. As of June 2007, there were 1,030 businesses participating in the plan.

Legislation was passed in 2007 that will expand both Insure Oklahoma programs to businesses with 250 or fewer employees and increase the household income threshold to 250 percent of the federal poverty level.

DENTAL SERVICES ADDED FOR PREGNANT WOMEN

Women who are pregnant or have recently delivered and are enrolled in a SoonerCare program qualify for the perinatal dental benefit effective May 1, 2007. Basic dental care such as examinations, cleanings and fillings are some examples of dental benefits offered. Pregnant women can continue this benefit for up to 60 days following the end of the pregnancy. This represents the first time adult members have had access to dental benefits other than emergency extractions.

This dental care benefit for women who are pregnant or have recently delivered has been well received. In the first two months of service, 468 pregnant or post-partum women age 21 or older received dental services. More than 1,750 services, including initial examinations and other procedures, have been rendered. Dentists statewide are providing these services.

SFY2007 YEAR IN REVIEW (CONTINUED)

LEGISLATURE PASSES PLAN TO PROVIDE ACCESS TO HEALTH CARE FOR MORE CHILDREN

In an effort to extend access to health care coverage to uninsured Oklahoma children, the Oklahoma Legislature passed the "All Kids Act." The All Kids Act allows SoonerCare to increase qualification for children from 185 percent of the federal poverty level up to 300 percent – the maximum allowed by the federal government. It is anticipated this will enable OHCA to provide coverage for as many as 42,000 additional uninsured Oklahoma children. The program will also be funded by revenue from the state's tobacco tax.

OHCA RECEIVES MONEY FOLLOWS THE PERSON REBALANCING DEMONSTRATION GRANT

In July 2006, the Money Follows the Person Committee was formed as a collaboration of the Oklahoma Health Care Authority, Oklahoma Department of Human Services, Oklahoma State Department of Health, and Progressive Independence to apply for a Real Choice Systems Change Demonstration grant which was submitted to the Centers for Medicare & Medicaid Services (CMS) in November 2006.

In January 2007, the Oklahoma Long-Term Living Choice Project was awarded \$50,166,429 over a five-year period ending September 2011. The primary goals of the grant are designed to increase the use of home- and community-based, rather than institutional, services; increase choice and control for the Self-Directed Service Delivery System; and have long-term supports coordinated with affordable and accessible housing.

This OHCA project won a Governor's Commendation for Excellence Award at the 2007 Quality Oklahoma Team Day.

AGENCIES PREPARE FOR CITIZENSHIP AND IDENTITY VERIFICATION CHANGES

In March 2007, to comply with federal requirements, the OHCA board approved permanent rules pertaining to citizenship and identity. OHCA has worked to make verifying citizenship and identity as easy as possible for current members and new applicants. It is OHCA's goal to ensure that individuals are not denied coverage when they are working with us to provide proper documentation.

OHCA worked with OSDH to perform system matches within their Vital Records Department on citizenship for both members and new applicants. OHCA worked with OKDHS to sort out Medicare and Social Security Income (SSI) members exempt from this requirement. OHCA has also worked with OKDHS to train their county enrollment workers regarding citizenship requirements. Training materials have been developed and placed on the OHCA public Web site and also mailed to various public and private organizations that assist OHCA in enrollment and education. OHCA has provided training sessions to its own as well as contracted staff. OHCA and OKDHS have teamed up to form a Centralized Verification Unit (CVU) that will assist members and applicants having trouble providing citizenship documentation. The citizenship and identity rules will be implemented on July 1, 2007.

SFY2007 YEAR IN REVIEW (CONTINUED)

FOCUS ON EXCELLENCE

The Focus on Excellence program created out of House Bill 2842 is an incentive-based rate plan for nursing facilities. The design of this program is to measure improvements in the quality of life, care and services. These objectives will be driven by a set of 11 performance data components that will be used to reward demonstrated value, support evidence-based quality improvement by nursing homes, and furnish consumers with frequently updated information to use as they compare and choose nursing homes. Oklahoma is the first state to take on this type of quality initiative.

To date, 269 facilities have joined the program representing 85 percent of the state's nursing homes. Enrollment in this program is not mandatory, but it is strongly incentivized. The OHCA has paid participating SoonerCare providers a 1 percent participation bonus for the first year, beginning July 1, 2007, and intends to fund additional provider bonuses of up to 4 percent of their normal daily rate beginning October 1, 2007. As always, the added payments are dependent on sufficient annual legislative appropriations.

OHCA AND OSU-OKC CERTIFIED NURSE AIDE (CNA) TRAINING CONTINUES

The Certified Nurse Aide (CNA) program has offered free nurse aide training to qualified applicants since 2005. Two of the continued goals of this program are to improve the quality of life for residents in long-term care facilities and to decrease staff turn-over rate. Prospective students must sign an agreement with OHCA that states they will work in a SoonerCare facility for 12 out of 24 months after they receive their certification.

The CNA training program has expanded beyond Logan and Oklahoma counties and is now offered to all Oklahoma residents. Originally, the OSU-OKC campus was the only place where classes were offered; however, since March 2007 classes have been added to nursing facilities in Collinsville, Weatherford, Sallisaw and Ardmore. In the near future, this partnership has plans to open classes in the Enid, Altus, McAlester and Vinita areas. The 1,000th CNA benefiting from this program will graduate in the August 2007.

PROJECT AIMS TO EXPAND OKLAHOMANS' OPTIONS FOR LONG-TERM CARE INSURANCE

The Long-Term Care Partnership (LTC-P) is a project enacted into law by House Bill 1547. Its mission is to create a LTC-P program that allows the state to promote the purchase of long-term care insurance policies. This project will allow Oklahomans who purchase a long-term care partnership insurance policy to protect assets equal to the value of their policies. By purchasing the insurance, the insured will be able to provide for their own long-term care needs and still retain assets for their loved ones and family left behind. People will be protected from having to become impoverished to qualify for SoonerCare, and at the same time, the state will be able to avoid bearing the entire burden of long-term care costs.

The LTC-P is a collaborative effort between OHCA, the Oklahoma Insurance Department, industry providers and the Oklahoma Department of Human Services.

SFY2007 YEAR IN REVIEW (CONTINUED)

SOONERCARE MEMBER OUTREACH

One main goal of the OHCA is to educate and empower SoonerCare members about the benefits and resources available to them. Each month, OHCA staff attempt to contact various SoonerCare members.

SoonerCare Choice members are surveyed to find out how much they know about the program and if they know how to access their primary care provider and what resources are available to them. Members are encouraged to read their Member Handbook so they will know their rights and responsibilities.

OHCA is devoted to intensive care management with members of the Oklahoma Cares Breast and Cervical Cancer Treatment program. An average of 478 new cases are certified each month. Approximately 26,800 successful telephone contacts were made to Oklahoma Cares members for SFY2007. In October 2006, National Breast Cancer Awareness month, more than 540 new Oklahoma Cares applications were certified. This represented the highest number of new applications received in a single month.

Disabled children enrolled under TEFRA are contacted by Member Services to assist in the selection of a primary care provider. Care Management staff then contacts the parent or guardian of the enrolled disabled child to familiarize them with SoonerCare benefits and help coordinate services.

SoonerPlan members receive assistance from OHCA staff with questions they may have regarding their medical care. Primary care services are not covered under SoonerPlan; however, OHCA maintains a resource referral list to assist SoonerPlan members. Members are given a contact number for a clinic or facility from the list based on availability, services offered, hours of operations and a confirmed phone number. The OHCA mails SoonerPlan outreach letters to all SoonerCare women who have recently delivered a baby, as well as men and women turning 19 who traditionally lose SoonerCare coverage based on age.

OHCA staff educate SoonerCare members identified as potential over-utiliziers of emergency room (ER) services. The goals of this outreach initiative are to coordinate routine care with a primary care provider (PCP) for improved continuity of care for SoonerCare members and reduce spending for inappropriate use of the ER for primary care services. Staff call members with four or more visits to the ER in one given quarter. Members are informed about the proper use of the ER and encouraged to call their primary care provider during office hours to determine if they have a true emergency. If it is after hours, members are advised to call the Patient Advice Line that is available from 5 p.m. to 8 a.m. and 24 hours a day on state holidays and weekends. OHCA sends letters to members staff cannot reach by telephone.

OHCA sends ER utilization profiles and letters twice a year to SoonerCare Choice primary care providers. These letters and profiles show how many office visits and ER visits were made by the members assigned to the PCP.

A decrease of more than 11,500 ER visits by contacted members has resulted since the project's inception.

SFY2007 YEAR IN REVIEW (CONTINUED)

SOONERCARE MEMBER OUTREACH (CONTINUED)

OHCA launched the Newborn Outreach Initiative in an effort to educate and inform parents about the importance of child health screens and how to navigate the health care system. The initiative was implemented in January 2006 as a small pilot project to a random sample of selected households with newborns. By October 2006, the effort had expanded to target all households identified with newborns born the previous month with a telephone number on file. A total of 17,649 households were identified for an outbound educational outreach call attempt from July 2006 to June 2007. OHCA plans to extend its outreach by sending letters to all identified households to ensure that at least one form of educational contact is attempted for every household with a newborn.

A secondary outcome of this initiative is the overall education on SoonerCare benefits for the entire family. Parents of newborns have given positive feedback on the outreach efforts. Based on this project, a new initiative is planned to provide education to expectant mothers and high-risk newborns receiving SoonerCare benefits.

OHCA staff also visit children receiving skilled nursing care. Assessments are done to determine if private duty nursing care is warranted. Initial evaluations can take up to an hour and a half each. More than 470 in-home evaluations for 156 children receiving private duty nursing were completed.

NEW WELL-CHILD SCREENING SCHEDULE RELEASED

The Early and Periodic Screening, Diagnosis and Treatment (EPSDT) Program realized some important changes as the result of the work of the EPSDT Advisory Work Group. The membership was composed of individuals from 33 organizations including OHCA, other state agencies, provider organizations, and medical and dental colleges. The work group assessed the timing of well-child screenings, content of services, and documentation and reporting issues.

As a result of their efforts, a new periodicity schedule was implemented. This periodicity schedule sets forth the minimum requirements for the frequency and content of childhood screening visits. Additional screenings are allowed and encouraged as needed to provide optimal care. The new schedule contains both required and optional screenings.

In addition to creating and distributing materials to support the implementation of the new EPSDT periodicity schedule, emphasis was placed on increasing awareness of the importance of developmental assessments for children. New educational and training materials, provider manual, fliers, easy-to-read booklets for parents and guardians (English and Spanish versions), and forms that providers can use for EPSDT visits were created and distributed to providers. The EPSDT provider manual was also revised and includes the new age-specific child health forms. Both the provider manual and periodicity schedule are available on the OHCA Web site.

SFY2007 YEAR IN REVIEW (CONTINUED)

PILOT STRATEGIES TO IMPROVE CHILD HEALTH SCREENING IN SOONERCARE

The OHCA is working with the Oklahoma University Health Sciences Center (OUHSC) to determine if practice facilitators (PFs) can be helpful to practices that take care of SoonerCare children. The PFs have master's-level training and experience in primary health care settings and have been trained to help practices make changes in their processes of care.

Five practices are participating in the pilot. Each practice agreed to generate patient lists to perform chart reviews for quality and quantity of child health screening (EPSDT) visits and to meet with the practice facilitator once weekly to discuss any necessary changes in care processes. To date, the PF has provided feedback on findings and helped these practices make changes in their processes of care. Results of this project are being evaluated for potential usefulness across Oklahoma to improve child health screenings in SoonerCare.

PHARMACY PARTNERSHIPS HELP OKLAHOMANS WITH PRESCRIPTION COSTS

Oklahomans struggling with the high cost of prescription medications may be able to find help through two programs funded by the Oklahoma Department of Commerce in partnership with the Oklahoma Health Care Authority, RX for Oklahoma and the new OklahomaRx Discount Card.

The RX for Oklahoma program is a free service that helps low-income residents access prescription assistance programs provided by pharmaceutical manufacturing companies. Since the inception of the program in December 2005, more than 15,000 people across the state have been helped. (More information about the program is available at www.RX4OKLA.com)

The OklahomaRx Discount Card is available to all state residents. The program charges a minimal annual membership fee which could be paid by the state for some qualifying individuals. With the OklahomaRx Discount Card, discounts range from 10 percent to 55 percent, depending on the drugs and where they are purchased. Generic drugs will save consumers the most money. More than 570 pharmacies in Oklahoma are participating in the program, including most major retailers. (More information is available at www.okrxdiscount.com)

CONTRACT SAVES NEARLY \$5 MILLION

With the introduction of national provider identification (NPI) numbers, Medicare determined that it would not accept claims from providers without an NPI number. Since OHCA does not have an NPI number, OHCA could not bill Medicare directly for services that were paid by SoonerCare but should have actually been paid by Medicare.

In response and well ahead of the deadline, OHCA hired a third-party contractor called Health Management Systems (HMS) to assist with the transition of this process. Twice a year, HMS matches OHCA data with the Medicare database and recoups funds from providers after they have been correctly paid by Medicare. Since the contract with HMS began, OHCA has collected nearly \$5 million for these Medicare billings.

SFY2007 YEAR IN REVIEW (CONTINUED)

SOONERCARE PROVIDER SERVICES EXPANDS ROLE TO BETTER SERVE OUR PROVIDER NETWORKS

With the passage of the Medicaid Reform Act of 2006, the Provider Service Unit at OHCA reorganized to better serve the SoonerCare provider networks. New staff was added, existing personnel's roles expanded and new systems were developed to assist providers.

Currently, 22 dedicated and professional provider representatives are available to assist providers with program, policy and claims issues/questions. Provider representatives are also responsible for the recruitment and retention of providers. Staff provide on-site support and training in the provider's office upon request. New full-time positions were created to work directly with provider staffs and local health care delivery systems to reduce unnecessary emergency room utilization. This is done by developing educational strategies and materials and providing on-site educational assistance to providers concerning ER utilization. OHCA also has registered nurses who provide clinical expertise during on-site visits and medical record reviews. They assist providers in the evaluation and interpretation of billed charges and clinical documentation to ensure that OHCA requirements are met and the services provided are appropriate as mandated by the Centers for Medicare & Medicaid Services (CMS).

New and updated telephone systems have increased the availability of OHCA staff. A direct, toll-free phone number is available for providers who have detailed and complex questions. This phone number is staffed from 7:30 a.m. to 5:30 p.m. Monday through Friday. Calls are answered directly, with no need to leave a message and wait for a response. Calls are documented and recorded for tracking purposes. More than 33,350 calls were received by Provider Services in SFY2007.

Also new in SFY2007 is the availability for providers to send secure, HIPAA-compliant e-mail messages through the SoonerCare Secure Web site. It is a safe alternative to contacting OHCA via telephone to inquire about policy, coverage, contract compliance or general questions. Since becoming operational in late spring of 2007, more than 600 secure e-mails have been received and answered by the Provider Services staff.

SFY2007 YEAR IN REVIEW (CONTINUED)

HEALTH INFORMATION EXCHANGE ANALYSIS BEGINS

Part of the Medicaid Reform Act of 2006 mandated writing a needs analysis report regarding health information exchange (HIE). HIE is the mobilization of health information electronically across different systems and organizations. Initially, OHCA will focus on connecting state agencies to share health care information for common patients, sharing data with providers using agreed upon rules and sharing data with the patients themselves.

Future agency plans include continuing research and proposing options on a system of patient identification that will allow speedy and convenient acquisition of information across all levels of health care and develop a single authorization for release of information. The agency's plan of action also includes engaging providers and their systems, adoption of advance health information technology, involving consumers, and developing sustainable funding.

BEHAVIORAL HEALTH COLLABORATIVES BENEFIT PROVIDERS AND MEMBERS

In SFY2007, the Oklahoma Behavioral Health Collaboratives, made up of all the state agencies who provide or contract for state and federally funded behavioral health services to our state's children and adults, made great progress on a few of their many projects toward improving the state's behavioral health care system.

One project is the Behavioral Health Collaborative Documentation Work Group, which was developed after a year's worth of stakeholder focus groups were held across the state. The top complaint was that providers spend 65-80 percent of their time on documentation and wanted more time with their patients. This work group was made up of a dedicated group of public and private behavioral health providers, consumers, and state agency staff who worked through all of the different types of required documentation that behavioral health providers have to complete. The work group was successful in getting a consensus on reducing paperwork requirements that have resulted in a 40-60 percent decrease in documentation time for providers.

Another project, the Policy Work Group, charged with developing consistency between state agency policies including definitions of terms; and requirements for documentation, professional credentials and training; and the development of new evidence-based practice services. Providers and consumer advocates have supported these efforts as they result in more time spent with patients and an easier system to navigate. This work group next will tackle topics such as the development of a state-run system for agency accreditation and a unified behavioral health provider contract.

SFY2007 YEAR IN REVIEW (CONTINUED)

OHCA RECEIVES THIRD PERFORMANCE REPORTING AWARD

OHCA's Service Efforts and Accomplishments (SEA) SFY2006 report received the Certificate of Excellence from the Association of Government Accountants. This is the third consecutive year OHCA has received the award. The SEA report details the goals and objectives of the agency and outlines the progress toward achieving them using key performance measures, trends and benchmarks. The SEA report is available at OHCA's Web site at www.okhca.org/Research/Reports.

2007 QUALITY OKLAHOMA TEAM DAY AWARD-WINNING PROJECTS

OHCA highlighted 12 projects at the 2007 Quality Oklahoma Team Day held at the state capitol. Award-winning projects, goals and outcomes are included below. One additional winner of the Governor's Commendation for Excellence award, the Money Follows the Person Grant, is detailed on page 10.

Reform Before The Storm: Redesigning Oklahoma's Health Care Delivery System

Goal: To reduce costs while improving services to SoonerCare members by adopting a new health care delivery system incorporating many features of managed care modified to meet Oklahoma's specific health care needs.

| | More exceptional needs coordinators were hired for members with high-risk needs. |
|-----|--|
| | Prescription drug limits were increased. |
| | Hospital day limits were eliminated for acute care. |
| | Hospital payment rates increased and the payment methodology was reformed. |
| | Eligibility processes were improved so members would not lose eligibility on a periodic basis. |
| | Total annual savings to the taxpayers totaled \$85,493,692. |
| Thi | s project received the 2007 Greatest Cost Savings award, the Extra Mile award and a |

This project received the 2007 Greatest Cost Savings award, the Extra Mile award and a Governor's Commendation of Excellence.

SFY2007 YEAR IN REVIEW (CONTINUED)

2007 QUALITY OKLAHOMA TEAM DAY AWARD-WINNING PROJECTS (CONTINUED)

The projects below received a Governor's Commendation of Excellence.

Collaboration Reduces Out-of-State Behavioral Health Treatment For Children

Goal: To develop new and expanded clinical programs within Oklahoma that would meet the needs of SoonerCare children and consequently reduce the number of out-of-state placements.

| OHCA collaborated with the Oklahoma Department of Human Services and the provider community including provider organizations and behavioral health related corporations |
|--|
| The group defined and clarified expectations for priority programs and developed criteria to ensure the highest level of clinical quality. |
| ○ A methodology for enhanced rates to appropriately reimburse providers for these highend services was developed. |
| As a results there was a 17 percent decrease in out-of-state placement. |
| Days placed out of state decreased by 21 percent. |
| There was a 28 percent decrease in cost of out of state placements. |
| Behavioral Health High-End Utilizers Project |
| Goal: To improve member services and use resources efficiently by coordinating the care of 50 SoonerCare members under the age of 21 who are identified as high users of impatient behavioral health care services. |
| The project resulted in a 40 percent decrease in hospital inpatient days for a savings of \$1,111,964. |
| Members receiving follow-up care within two weeks of discharge increased from 50 percent to 62 percent. |
| All members of the intervention group released from inpatient care received follow up care within 45 days. |
| Other agencies serving children with behavioral health service needs are considering implementing similar practices. |
| Medical History for Children in Custody or Adoption Status |
| Goal: To utilize the SoonerCare and Oklahoma Department of Human Services data systems to successfully communicate health care information to caseworkers and medical clinic homes for children in foster care and adoption. |
| Sharing data allows case workers and physicians to have access to vital information about children's previous health care. |
| Caseworkers are aware of health encounters occurring during foster placement. |
| Existing databases from both agencies were used to construct a medical history and maintain an ongoing medical record for foster children. |

Oklahoma's Uninsured

Oklahoma's Response to the Uninsured

SoonerCare and the Economy

The Great Seal of the State of Oklahoma is a tribute to the state's Native American heritage and its hope for the future. The central design consists of one large star, representing the state of Oklahoma, surrounded by 45 small stars, representing each of the other states of the

Union. The large star that symbolizes Oklahoma features five radiating arms, one for each of the five Civilized Indian Nations. The top ray is for the Chickasaw Nation and holds a warrior with a bow and a shield. The upper right ray represents the Choctaw Nation, with a bow, three arrows and a tomahawk. The lower right ray honors the Seminole Nation, with a hunter in a canoe. The lower left ray is for the Creek Nation, and holds a sheaf of wheat and a plow. And the upper left ray is the seal of the Cherokee Nation, with a seven-pointed star and a wreath of oak leaves. The center of the main star shows a Native American shaking hands with a white man, symbolizing the merging of cultures. Olive branches encircle this image, representing the hope for peace. The state motto, "Labor Omina Vincit," or "Labor Conquers All," displays on the seal, and the entire seal is ringed with "Great Seal of the State of Oklahoma 1907."

WHAT IS MEDICAID?

MEDICAID:

- was created as Title XIX (19) of the Social Security Act in 1965;
- is a federal and state partnership program that makes coverage available for basic health and long-term care services based upon income and/or resources;
- is overseen at the federal level by the Centers for Medicare & Medicaid Services (CMS) within the Department of Health and Human Services (HHS);
- has requirements concerning funding, qualification guidelines as well as quality and extent of medical services that are set and monitored by CMS;
- is called SoonerCare in Oklahoma.

WHO QUALIFIES FOR MEDICAID?

Medicaid serves as the nation's primary source of health insurance coverage for vulnerable populations. To get federal financial participation, states agree to cover certain groups of individuals (referred to as "mandatory groups") and offer a minimum set of services (referred to as "mandatory benefits"). States also can receive federal matching payments to cover additional ("optional") groups of individuals and provide additional ("optional") services.

FIGURE 1 2007 FEDERAL POVERTY GUIDELINES (FPL)

The designation of some groups as mandatory and others as optional is an artifact of Medicaid's origins as a health care provider for traditional welfare populations. Through laws enacted over the past 40 years, eligibility has been extended to include not only people who are receiving cash-assistance programs but also individuals who are not. Although welfare reform has severed the link between Medicaid and cash assistance, income criteria relative to the federal poverty level (FPL) is still being used to qualify members for Medicaid. As Medicaid across the nation continues to expand and disconnect from its welfare roots, determining how to categorize enrollees becomes increasingly difficult.

WHO QUALIFIES FOR MEDICAID? (CONTINUED)

OKLAHOMA DEPARTMENT OF HUMAN SERVICES' ROLE IN ELIGIBILITY

In accordance with Oklahoma State Statutes Title 63 Sec. 5009, the OHCA contracts with the Oklahoma Department of Human Services (OKDHS) for the determination of SoonerCare eligibility. This means that applications for Oklahoma SoonerCare enrollment (except Insure Oklahoma) are processed and approved or denied by OKDHS. Applications and renewals are reviewed by each county OKDHS office for financial and/or medical qualifications. After an individual meets the qualifications and completes the enrollment process, their records are sent to OHCA to coordinate medical benefits and make payments for services. Each state sets an income limit within federal guidelines for Medicaid eligibility groups and determines what income counts toward that limit. Part of financial qualification for SoonerCare is based upon the family size and relation of monthly income to the federal poverty level (FPL) guidelines.

Figure 2 2007 Federal Poverty Guidelines (FPL) and Coverage

^{(1) 2007} Federal Poverty Guidelines. U.S. Department of Health and Human Services. Based on a family of four.

(4) Incomes shown are for single individuals.

IMPORTANT - the above information is a very basic overview of the federal poverty level and coverage groups. Each group has varying qualifying criteria, specific details can be found at www.okhca.org under Individuals.

⁽²⁾ Oklahoma Cares qualifications are up to 250% FPL for Native Americans only.

^{(3) 37} federal poverty level (FPL) based on single parent family.

^{*} SCHIP is the State Children's Health Insurance Program.

WHAT IS SOONER CARE?

SoonerCare is Oklahoma's Medicaid program. The Oklahoma Health Care Authority has the task of providing government-assisted health insurance coverage to qualifying Oklahomans. There are varying health benefit packages under SoonerCare, and each has a different name.

SoonerCare Choice is a Primary Care Case Management (PCCM) program in which each member has a medical home that provides basic health care services. Members enrolled in SoonerCare Choice can change their primary care providers up to four times per year. The SoonerCare Choice program is partially capitated, in that primary care providers are paid a monthly capitated rate for a fixed set of services with noncapitated services remaining compensable on a fee-for-service basis.

SoonerCare Traditional is a comprehensive medical benefit plan that purchases benefits for members not qualified for SoonerCare Choice. The member accesses services from contracted providers, and the OHCA pays the provider on a fee-for-service basis. SoonerCare Traditional provides coverage for members who are: institutionalized, dual eligibles enrolled in both Medicare and Medicaid, in state or tribal custody, have coverage under a health maintenance organization (HMO) or are enrolled under one of the Home and Community-Based Service waiver programs.

SoonerCare Supplemental is a plan that pays the coinsurance and deductible and provides medical benefits that supplement those services covered by Medicare.

The *Opportunities for Living Life* program offers additional benefits to certain members who are enrolled in SoonerCare Traditional or SoonerCare Supplemental plans. These benefits could include long-term care facility services, in-home personal care services and/or home and community-based services. The home and community-based benefit provides medical and other supportive services as an alternative to a member entering a long-term care facility.

SoonerPlan is a benefit plan covering limited services related to family planning. SoonerPlan provides family planning services and contraceptive products to women and men age 19 and older who do not traditionally qualify for full SoonerCare benefits.

Insure Oklahoma (Oklahoma Employer/Employee Partnership for Insurance Coverage - O-EPIC)

Employer-Sponsored Insurance (ESI) is a benefit plan providing premium assistance to qualified workers and spouses employed by an Oklahoma small business that has 50 or fewer workers. With ESI, the cost of health insurance premiums is shared by the employer, the employee and the OHCA.

Individual Plan (IP) is a health insurance option for qualified Oklahomans. This benefit plan offers some basic health services to qualified adults who are not eligible for ESI and work for an Oklahoma employer with 50 or fewer employees, or are unemployed or who are working disabled individuals.

For more information about Insure Oklahoma, go to page 33 of this report or at www.insureoklahoma.org.

WHO ARE THE MEMBERS OF SOONER CARE?

MAIN QUALIFYING GROUPS

To be eligible for federal funds, states are required to provide Medicaid coverage for certain individuals who receive federally assisted income-maintenance payments (cash assistance), as well as for related groups not receiving cash payments. Overall, 42 percent of SoonerCare enrollees do not receive any type of cash assistance.

Parents and children. Most SoonerCare enrollees are qualified under the Temporary Assistance for Needy Families (TANF) guidelines regardless of whether they were still eligible to receive the TANF cash assistance. Only 10 percent of the children enrolled in SoonerCare under TANF guidelines were in state-custody or received cash assistance. Additionally,

more than 52,000 low-income adults in families with children were enrolled under TANF guidelines. The majority of these members receive the SoonerCare Choice benefit package.

Aged. Nearly 61,000 adults age 65 and older, excluding persons who are blind or disabled, were covered by SoonerCare in SFY2007. Twenty-eight percent were enrolled because they

Figure 3 SFY2007 SoonerCare Children Under 21

| Total Unduplicated Children under 21 | 497,737 |
|--------------------------------------|---------|
| Children Qualified under TANF | 430,881 |
| Children Qualified under Blind and | 17,496 |
| Disabled | |
| Children Qualified under TEFRA | 176 |
| Children Qualified under SCHIP | 112,511 |

Children above may be counted in multiple qualifying groups.

were receiving cash assistance through the Supplemental Security Income (SSI) program. Others had too much income or assets to qualify for SSI but were able to "spend down" to SoonerCare eligibility by incurring high medical or long-term care expenses. Most of these members are included in the Aged, Blind and Disabled (ABD) category, and receive SoonerCare Traditional benefits.

Blind and Disabled. In SFY2007, more than 88,200 Oklahomans who are blind or have chronic conditions and disabilities were enrolled in SoonerCare. Seventy percent qualified because they received cash assistance through the SSI program. The remainder generally qualified by incurring high medical expenses to meet their "spend down" obligation. These members qualify under the Aged, Blind and Disabled (ABD) category and more than half receive the SoonerCare Traditional benefit package.

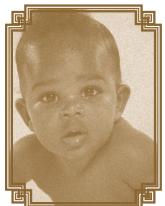

*Dual Eligibles**. Some individuals are qualified for Medicaid and Medicare. Medicare has two basic coverage components: Part A, which pays for hospitalization costs, and Part B, which pays for physician services, laboratory and X-ray services, durable medical equipment, outpatient and other services. Dual eligibles are individuals who are entitled to Medicare Part A and/or Part B and qualify for some form of SoonerCare benefit. Oklahoma SoonerCare covered nearly 90,000* dually eligible enrollees at some point during SFY2007. These members receive SoonerCare Supplemental or SoonerCare Traditional benefits and are reported under the Aged, Blind and Disabled (ABD) or Other categories.

^{*}Dually eligible enrollees may be accounted for in other qualifying groups.

Who are the Members of Sooner Care? (continued)

ADDITIONAL QUALIFYING GROUPS

State Children's Health Insurance Program (SCHIP). Implemented in 1997, SCHIP or Title XXI, is designed to help states cover additional uninsured low-income children. SCHIP

offers enrollment for children age 18 and under, with income below 185 percent of federal poverty level who are not eligible under criteria in effect prior to November 1997 or another federal insurance program. As a federal incentive, Oklahoma receives a higher rate of federal matching dollars for members qualified under SCHIP. The SCHIP program federal reauthorization is due by September 30, 2007. During SFY2007 an average of 65,489 children age 18 and under were enrolled under SCHIP. A majority of the children who qualify under SCHIP receive the SoonerCare Choice benefit package.

These members are categorized under Parents/Children in this report.

SoonerCare expansion. Also in 1997, legislation raised the optional SoonerCare eligibility level to 185 percent of the federal poverty level for children 18 and under as well as pregnant women regardless of their age. The

Since the implementation of the SoonerCare eligibility expansion programs in 1997, the number of children enrolled in Oklahoma SoonerCare has increased 195 percent.

SoonerCare expansion also includes these qualifying individuals even if they have other types of insurance coverage (third party liabilities). In SFY2007, 8,238 children and/or pregnant women qualified through this expansion. These enrollees receive SoonerCare Choice benefits and are categorized under Parents/Children.

TEFRA. The Tax Equity and Fiscal Responsibility Act (TEFRA) gives Oklahoma the option to make SoonerCare benefits available to children under age 19 with physical or mental disabilities who would not ordinarily be eligible for Supplemental Security Income (SSI) benefits because of their parents' income or resources. Oklahoma instituted this option

There were 176 children who qualified through the TEFRA program in SFY2007.

in October of 2005. TEFRA allows children who qualify for institutional services to be cared for in their homes. The majority are receiving SoonerCare Choice benefits. For this report these enrollees are categorized under Aged, Blind and Disabled (ABD).

Oklahoma Cares. Implemented in January 2005, OHCA's breast and cervical cancer treatment program, Oklahoma Cares, provides SoonerCare health care benefits to women under age 65 found to be in need of further diagnostics or treatment for either breast or cervical abnormal findings, precancerous conditions or cancer. Oklahoma Cares members are covered under either the SoonerCare Choice or SoonerCare Traditional benefit package until they no longer require treatment or qualify financially. Unless it is listed separately,

Oklahoma Cares will be grouped under the Parents/Children category in this report.

There have been 11,593 women qualified through Oklahoma Cares since its inception in January 2005.

Who are the Members of Sooner Care? (continued)

ADDITIONAL QUALIFYING GROUPS (CONTINUED)

SoonerPlan. SoonerPlan is Oklahoma's family planning program for women and men who do not qualify for other SoonerCare services. Implemented under a waiver in April 2005, SoonerPlan offers enrollment to Oklahoma residents who are over age 19 with income

below 185 percent of federal poverty level and who do not have family coverage from any other source. SoonerPlan member benefits are limited to family planning services from any SoonerCare provider who offers family planning.

During SFY2007, 34,549 members were enrolled under SoonerPlan.

Home and Community-Based Services (HCBS) Waivers.

Medicaid Home and Community-Based Services (HCBS) waivers afford states the flexibility to develop and implement creative alternatives to placing SoonerCare qualified individuals in a nursing facility or intermediate care facility for the mentally retarded (ICF/MR).

The Oklahoma Department of Human Services is responsible for and administers the five following Home and Community-Based Services (HCBS) waivers:

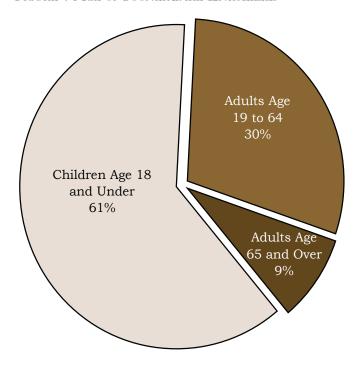

- ADvantage Waiver: Serves the "frail elderly" (age 65 years and older) and adults over age 21 with physical disabilities that qualify for placement in a nursing facility. Approximately 23,900 members receive services through this waiver program.
- Community Waiver: Serves approximately 2,500 members with mental retardation (MR) and "related conditions" qualified for placement in an intermediate care facility for the mentally retarded (ICF/MR). This waiver covers children and adults, with the minimum age being 3 years old.
- Homeward Bound Waiver: Designed to serve the needs of individuals with mental retardation or "related conditions" who are also members of the Plaintiff Class in Homeward Bound et al. v. The Hissom Memorial Center, et al. who would otherwise qualify for placement in an ICF/MR. This waiver covers nearly 800 individuals.
- ☐ *In-Home Supports Waiver for Adults:* Designed to assist the state in removing adults (ages 18 and older) with mental retardation from a waiting list for waiver services. This waiver serves more than 1,550 adults who would otherwise qualify for placement in an ICF/MR.
- In-Home Supports Waiver for Children: Designed to assist the state in removing children ages 3 through 17 years with mental retardation from a waiting list for waiver services. During SFY2007 this waiver served 724 children who qualified for placement in an ICF/MR.

What is a Waiver?

States' Medicaid waivers are granted by the federal Centers for Medicare & Medicaid Services (CMS). CMS allows states to request waivers to specifically "waive" certain federal requirements of the program. Waivers generally must be "budget neutral" (that is, federal spending under a waiver cannot exceed what federal spending would have been without a waiver).

Who are the Members of Sooner Care? (continued)

FIGURE 4 AGE OF SOONER CARE ENROLLEES

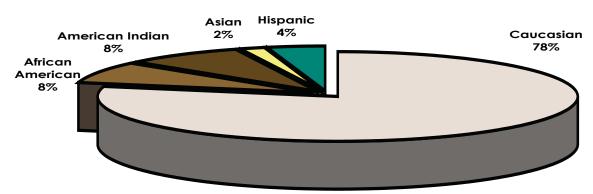

Approximately 1 in 5 Oklahomans Enrolled in SoonerCare

There were 763,565 unduplicated members enrolled in the SoonerCare program during SFY2007. On average, 600,917 members were enrolled each month of the state fiscal year.

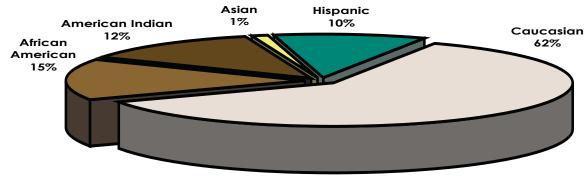

FIGURE 5 STATE AND SOONERCARE POPULATION BY RACE

Total Estimated Population 2006 - 3,547,884

Oklahoma SoonerCare Population SFY2007

Total Enrolled SFY2007 -763,565

How is SoonerCare Financed?

The federal and state governments share Medicaid costs. In the federal budget, Medicaid is an "open-ended entitlement" program. This means that the federal government is required by law to pay its share of state Medicaid costs regardless of the total amount. For program administration costs, the federal government contributes 50 percent for each state, with enhanced funding provided for some administrative activities such as fiscal agent operations. For medical services provided under the program, the federal matching rate varies between states. Each year the federal matching rate, known as the "federal medical assistance percentage" (FMAP), is adjusted. States having lower per capita incomes receive a higher federal match. Oklahoma must use our own state or local tax dollars (called state "matching dollars") to meet our share of SoonerCare costs. In order to expand SoonerCare enrollees and/or benefits, Oklahoma must provide more tax dollars to get more money from the federal government.

FIGURE 6 HISTORIC FEDERAL MEDICAL ASSISTANCE PERCENTAGE (FMAP)

^{*}Oklahoma received a temporary increase in the Medicaid matching funds received from the federal government for five calendar quarters from April 1, 2003, through June 30, 2004. The increase for all eligible expenditures was 2.95 percentage points over the normal federal share amount. The funds were part of the Jobs and Growth Tax Relief Reconciliation Act of 2003.

OKLAHOMA'S UNINSURED

According to the Census Bureau's Current Population Survey (CPS), more than 660,000 Oklahomans were uninsured in 2006. Nearly 114,000 of the uninsured Oklahomans were children under age 18.

Uninsured children are by and large caught in an unforgiving gap. Surprisingly, many are not children of Oklahoma's poorest families. In most cases, their parents earn too much for the children to qualify for traditional SoonerCare, but too little to make the purchase of private insurance possible.

Children without health care coverage have substantially less access to health care services, including preventive care that ensures childhood immunizations are up to date and that vision and hearing screening and routine dental care have been provided. Care for uninsured children is far more likely to be delayed due to cost. Unmet health care needs reduce children's ability to learn and to grow into healthy and productive adults.

For adults, being uninsured even on a temporary basis can have serious implications for state economies. Uninsured workers are less likely to receive adequate and timely health care and, as a result, suffer more serious illnesses that often threaten their work productivity and job retention.

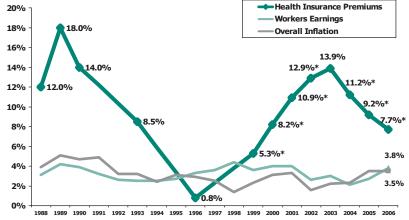

OKLAHOMA'S RESPONSE TO THE UNINSURED

In spite of access problems and other barriers uninsured Oklahomans face in getting health care, they still do get some health care. Studies indicate that, on average, these individuals do not pay for more than half of their health care costs. Obviously, others are stepping in to pick up the tab.

The burden is distributed very unevenly throughout the health care delivery system. Some

providers serve very few uninsured people, while others face great cost pressures because they serve very large uninsured populations. Additionally, if people who have access problems could get proper care at a clinic or doctor's office, they would be less likely to go to the emergency room. This would free up emergency rooms to do what they are set up to do and reduce costs.

FIGURE 14 ANNUAL PERCENT INCREASE OF HEALTH INSURANCE PREMIUMS COMPARED TO INCREASES IN EARNINGS AND INFLATION

*Estimate is statistically different from the previous year shown at p<0.05.

Note: Data on premium increases reflect the cost of health insurance premiums for a family of four.

OKLAHOMA'S RESPONSE TO THE UNINSURED (CONTINUED)

Insure Oklahoma - Oklahoma Employer/Employee Partnership for Insurance Coverage

The OHCA received approval to help increase Oklahomans' access to health care coverage under the Health Insurance Flexibility and Accountability (HIFA) Demonstration Initiative. Since implementation, the OHCA has enrolled more than 3,000 employees, spouses and individuals under Insure Oklahoma.

Insure Oklahoma Employer-Sponsored Insurance (ESI) is open to small businesses with 50 or fewer workers, including those that currently offer health insurance coverage. Premium assistance is available for workers and spouses with household incomes at or below 185 percent (with applicable income disregards) of the federal poverty level (FPL) who are not qualified for standard SoonerCare. Participating employers, as well as employees, are required to pay a portion of the premiums. Employees are also responsible for any applicable deductibles and co-payments.

Insure Oklahoma Individual Plan (IP)

is available to qualified uninsured Oklahomans who are self-employed, unemployed or working disabled. Individuals are responsible for minimal premiums and any applicable deductibles and co-payments.

Expansions legislated by the Oklahoma legislature during SFY2007 are awaiting federal approval. These expansions will offer health coverage options to more Oklahomans. One legislated expansion will offer coverage to uninsured children whose family income is up to 300 percent of the FPL.

The Insure Oklahoma program has also been legislated to increase the employer size to 250 employees. Additionally, the income qualifications for the employee or individual will be raised to 250 percent of FPL.

| Basic requirements for individual |
|--|
| participation in the Insure Oklahoma |
| programs are: |
| Oklahoma resident; |
| U.S. citizen or legal alien; |
| Age 19 to 64; |
| Income below 185 percent of federal poverty level; |
| Ineligible for SoonerCare or Medicare. |
| Employer-Sponsored Insurance (ESI) - requires the above, plus: |
| Employees: |
| Contribute up to 15 percent of premium costs; and |
| Enroll in a qualified health plan offered by their employer. |
| Employers: |
| Be located in Oklahoma; |
| Have 50 or fewer employees; |
| Contribute at least 25 percent of enrolled employees' premium costs; and |
| Offer a qualified health plan. |
| Individual Plan (IP) Requirements, included |
| the basic for individuals above, plus: |
| Not be eligible for ESI and work for an Oklahoma business with 50 or fewer employees; or |
| Temporarily unemployed and eligible to receive unemployment benefits; or |
| Working disabled who works for any size employer and has a ticket to work. |
| For more specific qualifying requirements, go to the Web |

site, www.insureoklahoma.org.

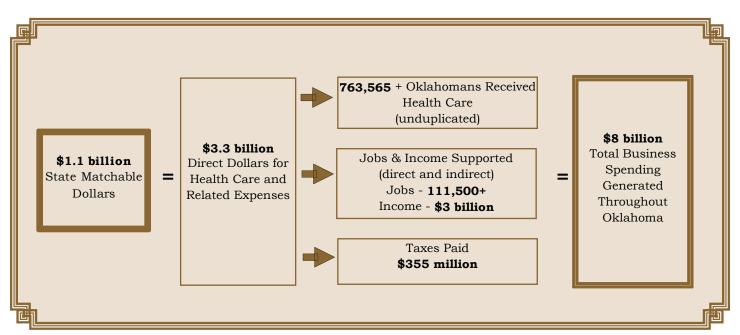

SOONER CARE AND THE ECONOMY

Health care services are a substantial economic presence in Oklahoma. Most people do not think of SoonerCare health care services beyond the critical role they play in meeting the needs of vulnerable and underserved Oklahomans. The health care sector affects the economy in much the same way a manufacturing plant does by bringing in money, providing jobs and wages to residents and providing an opportunity to keep health care dollars circulating within the state economy. Health care businesses, in turn, have an additional impact through the purchases of utility services and cleaning supplies, as well as the payment of property taxes. Just like the changes in a manufacturing plant or farm operation, changes in the health care sector influence the rest of the Oklahoma economy.

*Available for direct medical services and administrative costs.

OKLAHOMA SOONER CARE

What Benefits Does SoonerCare Cover?

Oklahoma SoonerCare Benefits

SoonerCare and Native Americans

SoonerCare and Our Providers

The Oklahoma flag prominently displays an Osage warrior's shield made from buffalo hide and decorated with seven eagle feathers hanging from the lower edge. The shield is centered on a field of blue borrowed from the

blue flag that Choctaw soldiers carried during the Civil War. This flag honors more than 60 groups of Native Americans and their ancestors.

The shield is decorated with six white crosses (stars) representing high ideals. Superimposed over the shield are symbols of peace and unity from the cultures of the Native American and European-American settlers in the territory: the calumet or ceremonial peace pipe and the olive branch.

WHAT BENEFITS DOES SOONER CARE COVER?

Title XIX of the Social Security Act requires that in order for states to receive federal matching funds, certain basic services must be offered to the categorically needy population. States may also receive federal funding if they elect to provide other optional services. Within broad federal guidelines, states determine the amount and duration of services offered under their Medicaid programs. The amount, duration and scope of each service must be sufficient to reasonably achieve its purpose. States may place appropriate limits on a Medicaid service based on such criteria as medical necessity or utilization control. For example, SoonerCare has placed a reasonable limit on the number of covered physician visits or may require prior authorization to be obtained before a service is delivered. Each state spells out what is available under its Medicaid

program in a document called the "state plan." The state plan describes the qualifying groups of individuals who can receive Medicaid services and the services available. A state can amend its plan to change its program as needs are identified. State plan amendments are subject to federal review and approval. With certain exceptions, a state's Medicaid plan must allow members freedom of choice among health care providers participating in Medicaid. In general, states are required to provide comparable services to all categorically needy qualifying people. A general overview of benefits provided under optimum qualifying circumstances is included in Appendix C of this report.

COST SHARING

States are permitted to require certain members to share some of the costs of Medicaid by imposing deductibles, co-payments, or similar cost sharing charges. A co-payment is a charge which must be paid by the member to the service provider when the service is covered by SoonerCare. The OHCA requires a co-payment of some SoonerCare members for certain medical services. A provider participating in SoonerCare may not deny allowable care or services to members based on their inability to pay the co-payment.

Some members are exempt from co-pays. Members not required to pay co-pays are children under age 21, members \$1 Co-Pay in long-term care facilities, pregnant women and members enrolled under the Home and Community-Based Services Physicians (not PCP/CM) Waivers (except for their prescription drugs). Additionally, Certified Registered Nurse some services do not require co-pays, such as family **Anesthetists** planning and emergency services. Home Health Agencies \$3 Co-Pay PRESCRIPTION CO-PAY Rural Health Clinics *Inpatient Hospital** \$1 for each prescription Federally Qualified Health under \$30 Outpatient Hospital **Centers** \$2 for each prescription Ambulatory Surgical Services \$30 and over **Optometrists**

^{*}Co-payments for inpatient care paid under the Diagnosis Related Groups (DRG) methodology are calculated on the actual length of stay and are capped at \$90.

Children under age 21

OKLAHOMA SOONER CARE BENEFITS

BEHAVIORAL HEALTH SERVICES

SoonerCare is the behavioral health treatment lifeline for many Oklahomans dealing with stressful life situations/changes, serious mental illness, an emotional disturbance and/ or alcohol and other drug disorders. Many people with these conditions either lose or are unable to obtain or afford private coverage. Mental health, alcohol and other drug disorder

treatment benefits for those enrolled in SoonerCare

include:

| Adult and children's acute psychiatric inpatient care; facility-based crisis stabilization and intervention; | accounted for 63 percent of the members receiving behavioral health services |
|---|--|
| emergency care; | and 75 percent of the expenditures. |
| alcohol or other drug medical detoxification; | expenditures. |
| psychiatric residential treatment (children only); | |

| \bigcirc | outpatient services | (including | pharmacological | services) | such | as: |
|------------|---------------------|------------|-----------------|-----------|------|-----|
| | | | | | | |

- mental health and/or substance abuse assessments,
- mental health and/or substance abuse treatment planning,
- individual psychotherapy,
- family psychotherapy,
- group psychotherapy,
- rehabilitative and life skills redevelopment,
- case management,
- medication training and support,
- pharmacological management,
- program for assertive community treatment, and
- behavioral health aide.

CHILD HEALTH SERVICES (EARLY AND PERIODIC SCREENING. DIAGNOSIS AND TREATMENT)

Children are the largest number of enrollees in the SoonerCare program, with 497,737 in SFY2007. That means 48 percent of Oklahoma's children under age 21 (1,043,931, according to 2006 U.S. Census estimates) have been enrolled in SoonerCare at some point during the year. All children need basic preventive and early intervention health care in order to make sure we optimize their capacity to grow, learn and develop.

CHILD HEALTH SERVICES (EPSDT) INCLUDE: physicals; eye and hearing exams; dental exams: immunizations; nutritional review; lab tests: anticipatory guidance; referral for follow-up treatment if necessary; and coverage for referred services.

CHILD HEALTH SERVICES (EARLY AND PERIODIC SCREENING, DIAGNOSIS AND TREATMENT - EPSDT) (CONTINUED)

Early and Periodic Screening, Diagnosis and Treatment (EPSDT, called Child Health Services in Oklahoma) is a federally-mandated set of comprehensive health services for children up to age 21. Child Health Services are designed to ensure all SoonerCare children receive regular health screenings in order to check for early signs of disorders or disease and obtain necessary follow-up treatments or services. Child Health Services provide immunizations and educate parents on safety, nutrition and child development.

DENTAL SERVICES

Oral health is a key component of an overall healthy and happy lifestyle. The earlier children are introduced to dentistry, the better their chances of keeping their teeth for the rest of their lives. The greatest challenge is prevention—teaching parents and care-givers to focus on dental interactions, intervention and treatment is crucial.

Dental services are federally mandated for children under age 21 through Child Health Services (Early and Periodic Screening, Diagnosis and Treatment - EPSDT); this program covers dentistry for children based on medical necessity. Dental care includes

178,274 children received dental services and accounted for 95 percent of the dental expenditures in SFY2007.

Oklahoma SoonerCare contracted with 602 dental providers in SFY2007.

emergency care, preventive services and therapeutic services for dental diseases which, if left untreated, may become acute dental problems or may cause irreversible damage to the teeth or supporting structures.

Dental services have recently been extended to pregnant women. Basic dental care such as examinations, cleanings and fillings are offered for up to 60 days after the end of their pregnancy. Nonpregnant adults age 21 and over are covered for emergency extractions only.

HOSPITAL SERVICES

Hospitals are part of the health care environment of the communities they serve. Without them, many people would go without essential medical services and programs. Hospitals provide inpatient acute care, newborn delivery services, life-saving emergency services and

outpatient services such as minor surgeries and dialysis. Local hospitals serve as the cornerstone for a network of care providers that include such economic staples as primary care physicians, specialists and many allied health services.

Hospital expenditures accounted for 23 percent of the total SoonerCare expenditures.

Medicare "Buy-In" Program - SoonerCare Supplemental

Medicare is made up of two parts, hospital insurance (Part A) and supplementary medical insurance (Part B). For hospital insurance expenses, SoonerCare Supplemental pays the co-insurance and deductible fees for hospital services and skilled nursing services for Medicare and Medicaid (dual eligibles) qualified persons. The deductible and co-insurance fees are also paid for supplementary medical insurance expenses that are primarily physician services.

There are several "buy-in" programs available to assist low-income members with potentially high out-of-pocket health care costs:

Qualified Medicare Beneficiaries (QMB)

- For Medicare beneficiaries with incomes below 100 percent of the federal poverty level who have limited financial resources.
- Pays for Medicare beneficiaries' share of Medicare Part A.

SFY2007 "Buy-In" expenditures totaled \$107,753,230.

An average of 2,859 Part A premiums and 80,694 Part B premiums were paid each month during SFY2007.

Specified Low-income Medicare Beneficiary (SLMB)

- For Medicare beneficiaries whose incomes are at least 100 percent but less than 120 percent of the federal poverty level who have limited financial resources.
- Pays for beneficiaries' share of Medicare Part B premiums.

Qualifying Individuals (QI)

- For Medicare beneficiaries whose incomes are at least 120 percent but less than 135 percent of the federal poverty level who have limited financial resources.
- Pays the Medicare Part B premiums for Medicare beneficiaries who are not otherwise qualified for SoonerCare.

Medicare Part D is a federal program to assist Medicare beneficiaries with the costs of prescription drugs. It was enacted as part of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA) and went into effect January 1, 2006.

OPPORTUNITIES FOR LIVING LIFE (OLL)—HOME AND COMMUNITY-BASED SERVICES WAIVERS

The Home and Community-Based Service waivers give Oklahoma the flexibility to offer SoonerCare-qualified individuals alternatives to being placed in long-term care facilities under OLL. Services through these waiver programs are available for qualified members who can be served safely in a community-based setting, when the cost of providing waiver services is less than the cost of providing services in the comparable institutional setting and when there are waiver slots available. Individual waiver documents specify member eligibility criteria, any post-eligibility criteria, as applicable, as well as the waiver-specific services available.

| | ها |
|---|-------|
| Depending on each person's needs and | " |
| the specific waiver he or she is qualified | |
| under, benefits could include: | |
| O agga managamant | |
| case management; | |
| skilled nursing; | |
| prescription drugs; | |
| advanced/supportive restorative care; | |
| adult day care/day health services; | |
| specialized equipment and supplies; | |
| home-delivered meals; | |
| comprehensive home health care; | |
| personal care; | |
| respite care; | |
| habilitation services; | |
| adaptive equipment; | |
| architectural (environmental) modifications; | |
| pre-vocational and vocational services; | |
| supported employment; | |
| odental; | |
| transportation; and | |
| various therapies. | |
| <u>-</u> | |
| #1 | 17:55 |

Statewide, Oklahoma
nursing facilities have a
68.1 percent occupancy rate.

Occupancy rate is unadjusted for semiprivate rooms rented privately or for hospital and therapeutic leave days.

OPPORTUNITIES FOR LIVING LIFE (OLL)—NURSING HOME SERVICES

With nursing home or institutional care coverage largely unavailable through Medicare or traditional private health insurance plans, Medicaid is the nation's de facto financing system. In Oklahoma, SoonerCare OLL funds approximately 70 percent of all long-term care (both nursing facilities and intermediate care facilities for the mentally retarded). SoonerCare provides coverage for low-income persons and many middle-income individuals who have become nearly impoverished by "spending down" their assets to cover the high costs of their long-term care.

Level of Care Evaluations—Long-Term Care Members In order to ensure that those individuals applying for nursing home care are appropriately placed, the federal Pre-Admission Screening and Resident Review (PASRR) Program provides a Level I screening

for possible developmental disability or mental retardation (MR) and/or mental illness (MI) to all people, private pay and SoonerCare, entering a long-term care facility. Furthermore, federal regulations also include a higher level evaluation (Level II) be performed for those applicants who appear to be either mentally ill or developmentally disabled. The Level II assessment ensures that the member requires a long-term care facility and receives proper treatment for his or her MI and/or MR diagnosis.

SoonerCare funded 5,152,932 nursing facility bed days for SFY2007; this represents 70 percent of the total actual nursing facility occupied bed days in the state.

| Facility Type | Unduplicated members | Bed Days | Reimbursement | Yearly Average Per Person* | Average Per Day |
|-------------------|-------------------------|-----------|---------------|----------------------------------|--------------------|
| Nursing Homes* | 21,414 | 5,152,932 | \$490,658,264 | \$22,913 | \$95 |
| ICFs/MR (Private) | 1,429 | 488,349 | \$54,507,204 | \$38,144 | \$112 |
| ICFs/MR (Public) | 399 | 138,390 | \$71,262,166 | \$178,602 | \$515 |
| ICFs/MR (ALL) | 1,828 | 626,739 | \$125,769,370 | \$68,802 | \$201 |

ICFs/MR = Intermediate Care Facilities for the Mentally Retarded. *Average Per Person figures do not include the patient liability that the member pays to the facility (average \$20/day), ICFs/MR public facilities per day rate includes ancillary services not included in ICFs/MR private facility rate.

42

OKLAHOMA SOONER CARE BENEFITS (CONTINUED)

PHARMACY SERVICES

The pharmacy benefit is accessed by nearly 58 percent of SoonerCare's members, making it one of the most commonly used benefits in SoonerCare. The value of prescription medications in modern health care is well documented. Because of their value, prescription medications are covered by every state's Medicaid program in spite of the fact that it is an optional benefit under federal law. It is almost impossible to imagine a health care benefit system in which medication therapies did not play a significant role.

SoonerCare Choice members qualify for prescription drug products that have been approved by the Food and Drug Administration (FDA) and are included in the Federal Drug Rebate program. In general, children up to the age of 21 years may receive prescriptions without monthly limitations and are not subject to a co-pay. Adults are limited to six prescriptions per month. Up to three of those can be for brand name products, and the remainder must be generic products. Adults are subject to a co-pay of \$1 or \$2 per prescription based on the cost of the drug. Restrictions such as medical necessity, step therapy, prior authorization and quantity limits may be applied to covered drugs.

SOONER CARE TRADITIONAL members have the same pharmacy coverage as Sooner Care Choice for non-Medicare eligible members.

SoonerCare Supplemental dual (Medicare and Medicaid) eligible members receive their primary prescription coverage through Medicare Part D. A few of the drugs not covered by Part D can be covered by this benefit for members also enrolled under SoonerCare Traditional.

Opportunities for Living Life members residing in nursing facilities (NF) or Intermediate Care Facilities for the Mentally Retarded (ICFs/MR) receive prescriptions as shown for SoonerCare Choice, but do not have a limitation on the number of prescriptions covered each month. A few drugs not covered by Part D for dual eligibles are covered by this benefit plan.

Home AND Community-Based Services enrollees receive a pharmacy benefit which is equal to that of SoonerCare Choice, plus members who are not Medicare eligible receive up to an additional seven generic prescriptions per month. For members who are enrolled in Medicare, their primary prescription coverage is through the Medicare Part D plan with limited additional coverage.

SOONERPLAN provides prescription coverage for family planning products only.

The federal Medicare prescription plan (Part D) now pays for a majority of Medicare beneficiary's prescriptions. The federal government requires states to pay back an estimated prescription cost savings amount. This amount is referred to as a "clawback."

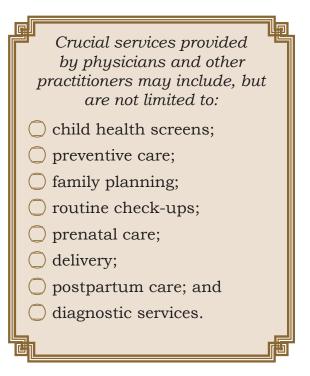

The average cost per prescription funded by SoonerCare was \$67.50 and the average monthly prescription cost per patient was \$165.00 for SFY2007.

SoonerCare has one of the highest generic utilization rates of any pharmacy benefit plan in the nation with an average of more than 68 percent of all prescriptions being dispensed as a generic drug.

PHYSICIANS AND OTHER PRACTITIONERS

Physicians and other practitioners are a crucial component in the delivery of health care to Oklahoma's SoonerCare members. The SoonerCare program would not be possible without the dedication of providers who are committed to care for all individuals who are insured with SoonerCare. Oklahoma primary care physicians (PCPs) act as SoonerCare's "front line."

Physician services may be limited for adults based upon the benefit package they are receiving. Physicians provide patients education and coordinate their health care needs. Physician and other primary practitioners' benefits have also been expanded to include providing evidence-based smoking cessation counseling in an outpatient office setting.

SCHOOL-BASED SERVICES

Health care is a vital foundation for families wanting to ensure their children are ready to learn at school. Studies show children without health insurance are absent more frequently than their classmates. They suffer more from asthma, ear infections and vision problems and are more medically at risk. Treatment of these conditions can improve classroom attendance and participation.

OHCA contracts with more than 200 school districts across the state. Schools may receive reimbursement for SoonerCare enrolled children who have chronic conditions such as asthma and diabetes and for those who are qualified to receive health-related services under the Individuals with Disabilities Education Act (IDEA). The Individual Education Program (IEP) is a treatment plan for a successful education for students with disabilities. The schools outline the treatment plan, and OHCA funds any medically necessary SoonerCare compensable health-related services recommended in the plan for SoonerCare enrolled children.

The OHCA is also involved in the Early Intervention (EI/SoonerStart) program. The EI/SoonerStart program is focused on early medical intervention and treatment for children age birth to 3 years who are developmentally delayed. Services for the EI program such as targeted case management and speech and physical therapy are provided by the State Department of Education and the Oklahoma State Department of Health. The OHCA offers provider training and reimbursement for this program as well.

SOONERPLAN—FAMILY PLANNING SERVICES

SoonerPlan is a limited benefit plan covering services related to family planning. In an effort to reduce unwanted pregnancies, SoonerPlan provides family planning services and contraceptive products to women and men age 19 and over who do not traditionally qualify for full benefits under SoonerCare.

SoonerPlan benefits may be obtained from any SoonerCare provider who offers family planning. They include:

| birth control information and supplies; |
|---|
| laboratory tests related to family planning services, including pap smears and screening for sexually transmitted infections; |
| office visits and physical exams related to family planning; |
| pregnancy tests for women; |
| tubal ligations for women age 21 and older; |
| vasectomies for men age 21 and older. |

Family planning services are also available to other qualifying members under SoonerCare Choice and SoonerCare Traditional.

SOONERRIDE (NON-EMERGENCY TRANSPORTATION) SERVICES

Non-emergency transportation has been part of the Medicaid program since 1969 when federal regulations mandated that states ensure the service for all Medicaid members. The purpose was clear; without transportation, many of the very people SoonerCare was designed to help would not be able to receive medically necessary services.

States are given a considerable amount of flexibility in this area of Medicaid regulations, including setting reimbursement rates and transportation modes. To provide budget predictability and increased accountability of the

non-emergency transportation program, OHCA uses a transportation brokerage system to provide the most cost effective and appropriate form of transportation to members. Similar to a managed care health care delivery system, the contracted transportation broker is reimbursed on a per-member-per-month (PM/PM) basis.

An average of 9,488 members per month used the SoonerRide services for a total of more than 614,978 transports.

If a SoonerCare member does not have transportation to a medically necessary, non-emergency service, SoonerRide can provide transportation.

SOONER CARE AND NATIVE AMERICANS

Oklahoma is home to 39 tribal governments and, according to the 2006 Census estimates, nearly 400,000 Native Americans live here. During SFY2007, more than 92,350 Native Americans were enrolled in SoonerCare.

In addition to the providers who participate in SoonerCare, Native Americans may receive culturally sensitive health care services from three types of health care systems: Indian Health Services (IHS), Tribal health facilities, or urban clinics (I/T/U). There are more than 50 I/T/U facilities in Oklahoma, most of which are contracted SoonerCare providers. SoonerCare services provided in any of the contracted Native American health care facilities receive a 100 percent federal medical assistance percentage (FMAP).

SOONER CARE CHOICE AND NATIVE AMERICANS

Native American SoonerCare Choice members can select a SoonerCare provider or self-refer to any I/T/U facility. Most providers in I/T/U facilities are SoonerCare Choice providers and may serve as primary care providers (PCPs). As PCPs, I/T/U providers can provide culturally sensitive case management to Native American SoonerCare Choice members, make referrals and coordinate additional services such as specialty care and hospitalization when patients access care at facilities not operated by tribes or the IHS.

NATIVE AMERICANS AND OKLAHOMA CARES SERVICES

In order to become enrolled for SoonerCare benefits under Oklahoma Cares, the breast and cervical cancer treatment program, women must be screened under the Breast and Cervical Cancer Early Detection Program (BCCEDP) and found to be in need of treatment for either breast or cervical cancer. Native Americans have higher qualifying income guidelines of up to 250 percent of the Federal Poverty Level (FPL) for Oklahoma Cares. SoonerCare is working in partnership with the Oklahoma State Department of Health, the Cherokee Nation and the Kaw Nation to provide Breast and Cervical Cancer Early Detection Program screening locations.

PROGRAM OF ALL-INCLUSIVE CARE FOR THE ELDERLY (PACE)

The OHCA and the Cherokee Nation of Oklahoma continue efforts to establish a PACE program. PACE will provide the entire continuum of care and services to qualified seniors, certified by the state to need nursing home care, who can be safely served in a community

setting. The Cherokee Nation sent a PACE application to the Centers for Medicare & Medicaid Services for approval in June 2007.

SoonerCare covers more than 72,000 Native American children under the age of 21.

During SFY2007, OHCA had more than 3,200 pregnant Native American women enrolled.

SOONER CARE AND OUR PROVIDERS

One of OHCA's primary goals is to purchase the best value health care for members by paying appropriate rates and exploring all available valid options for program financing to ensure access to medical services by our members. We believe achieving this goal will help members obtain improved access to health care, will contribute to a reduction in the amount of uncompensated care incurred by providers and will help to avoid cost shifting by providers.

What Is Cost Shifting? Cost shifting occurs when health care providers raise their prices and thereby shift the burden of cost to private payers in an effort to make up for losses from patients who do not or cannot pay for their health care services in full. Cost shifting places undue pressure on the health care industry, causing the costs for both services and health insurance to rise at rates greater than normal inflation.

PHYSICIANS

In Oklahoma, a prearranged monthly fee (capitation payment) based on the number of members in the provider's panel is paid to the SoonerCare Choice primary care provider/case manager (PCP/CM). The capitation payment is for primary and preventive care. Other services not included in the capitation payment are paid under the fee-for-service program, SoonerCare Traditional. Payments are made directly to the providers once an allowable service has been provided and billed.

Providers participating in SoonerCare must accept the Medicaid reimbursement level as payment in full.

Oklahoma SoonerCare has contracts with more than 8,500 physicians.

During SFY2007, OHCA continued to pay physician rates equal to 100 percent of Medicare rates—which are considered national benchmark rates. All relative value unit (RVU) based procedure codes as well as the actuarial value of primary care and case management capitation rates have been valued at 100 percent of Medicare rates since August 1, 2005.

Nursing Homes

Nursing homes in Oklahoma play an essential role in our health care system, caring for approximately 30,500 elderly and disabled persons who are temporarily or permanently unable to care for themselves but who do not require the level of care furnished in an acute care hospital. They provide a variety of services to residents, including nursing and personal care; physical, occupational, respiratory, and speech therapy; and medical social services. On average 70 percent of nursing home residents in Oklahoma have their care paid for through the SoonerCare program, while eight percent are covered by Medicare, and 22 percent are covered by other payers or pay for the care themselves.

Nursing homes treat people with a wide range of clinical conditions. The mix and amount of resources nursing homes use determine the cost of the care they provide. These resources include the cost of direct care staff, such as nurses, nurse aides, and nurse aide training. In 2004, Senate Bill 1622 created the Oklahoma Nursing Facility Funding Advisory Committee. The purpose of the advisory committee was to develop a new methodology for calculating state Medicaid reimbursements to nursing homes by implementing facility specific rates based on expenditures related to direct care staffing.

SOONER CARE AND OUR PROVIDERS (CONTINUED)

Nursing Homes (continued)

The committee recommended 70 percent of additional available funds for nursing homes be allocated annually for direct care staff. Based on the most recent data available, nursing homes spend approximately 37.5 percent of Medicaid reimbursement on direct care staffing. The committee also recommended further development of the methodology in future years, to strengthen incentives to provide improved quality care. One incentive to provide high quality nursing home care is the Focus on Excellence program.

Focus on Excellence will use regularly-collected nursing home performance data to accomplish three purposes:

- enable additional Medicaid payments to nursing homes that meet or exceed any of 10 separate performance targets;
- provide information to support a public star rating system for use by consumers in evaluating facilities; and
- give providers the technology and tools to set and meet their own quality improvement goals and compare their performance to facilities across the state and the nation.

A Web site will be available for providers and consumers to enter and view performance data and outcomes. Participating providers may receive a participation bonus if funds are available beginning July 1, 2007.

HOSPITALS

The SoonerCare hospital reimbursement system is based on Medicare's reimbursement model of Diagnostic Related Groups (DRG). A DRG payment methodology, which pays on a per discharge basis, encourages hospitals to operate more efficiently and matches payments to use of resources.

acute children's facilities, OHCA pays a per day rate.

on a per discharge basis, encourages hospitals to operate more efficiently and matches payments to use of resources.

For cases that are particularly costly, an additional outlier payment is made to help protect the hospital from large financial losses for unusually expensive cases. For inpatient stays in freestanding rehabilitation and behavioral health facilities, as well as long-term care sub-

hospital payment rates to

remain at 100 percent of the

Medicaid costs of providing

FIGURE 16 SFY2007 HOSPITAL PAYMENTS

| Types of Hospital Payments | SFY2006 | SFY2007 |
|--|---------------|---------------|
| Inpatient Services (Acute, Rehab & Children's) | \$470,030,099 | \$559,561,584 |
| Inpatient Psychiatric Services | \$18,448,227 | \$19,437,150 |
| Outpatient Services | \$151,447,055 | \$188,691,195 |
| Upper Payment Limit - Supplemental Payments | \$10,666,000 | \$29,690,425 |
| Indirect Medical Education (IME) | \$25,077,370 | \$25,955,100 |
| Graduate Medical Education (GME) | \$26,056,562 | \$16,243,372 |
| Disproportionate Share Hospitals (DSH)* | \$31,190,420 | \$31,175,423 |
| Total | \$732,915,733 | \$870,754,249 |

^{*}During SFY2007 Oklahoma adopted a new formula and methodology for allocating DSH funds. As a result, DSH payments that would have normally occurred in SFY2007 were delayed until July 2007 (SFY2008).

SOONER CARE AND OUR PROVIDERS (CONTINUED)

HOSPITALS (CONTINUED)

Disproportionate Share Hospital (DSH) Payments

The DSH program was created in 1981 to address two main concerns identified by Congress at the time. The first concern was to address the needs of hospitals that served a high number of Medicaid and low-income, often uninsured, patients. The second concern was that there was the potential for a growing gap in 1981 between what Medicaid paid hospitals and what the cost of care was at the hospitals.

Congress left it up to each state to define and identify which hospitals were disproportionate share hospitals and also gave states broad latitude in how those hospitals were to be paid through the DSH program. According to federal law, Oklahoma is deemed to be a Low Disproportionate Share Hospital (DSH) program state. As such, the state is receiving 16 percent annual increases in DSH funds each year through 2008.

During SFY2007 Oklahoma adopted a new formula and methodology for allocating DSH funds. The formula and methodology establishes three funding pools directed toward licensed hospitals located within the boundaries of the state provided that the hospitals meet certain federal requirements outlined by law.

The first pool is established by the federal government for Institutions for Mental Disease (IMD). The second pool is for High Disproportionate Share Public Hospital/Public - Private Major Teaching Hospital and is based on historic allocations. The third pool is for Private and Community or Public Hospitals which is further subdivided by hospital size for the purpose of allocating the DSH funds reserved for this pool.

Through the new formula OHCA will allocate \$43,153,482 in federal fiscal year 2007 DSH funds to 68 licensed hospitals.

Indirect Medical Education (IME)

Acute care hospitals that qualify as major teaching hospitals receive an indirect medical education (IME) payment adjustment that covers the increased operating or patient care costs associated with approved intern or resident programs. Currently, the only qualifying hospitals are the OU Medical Center in Oklahoma City and the Hillcrest Health System hospitals in Tulsa.

In order to qualify as a teaching hospital and be deemed eligible for IME supplemental incentive payment adjustments, the hospital must:

| be licensed in the state of Oklahoma; | |
|---------------------------------------|--|
|---------------------------------------|--|

have 150 or more full-time equivalent residents enrolled in approved teaching programs using the 1996 annual cost report; and

belong to the Council of Teaching Hospitals or show proof of affiliation with an approved medical education program.

SFY2007 IME Payments:

OU/OKC-Oklahoma Medical Center - \$12,977,550 OU/Tulsa-Hillcrest Health Systems - \$6,488,775 OSU/Tulsa-Hillcrest Health Systems - \$6,488,775

SOONER CARE AND OUR PROVIDERS (CONTINUED)

HOSPITALS (CONTINUED)

Direct Medical Education (DME)

In-state hospitals that qualify as teaching hospitals receive a supplemental payment adjustment for direct medical education (DME) expenses based on resident-months.

In order to qualify as a teaching hospital and be deemed eligible for DME supplemental incentive payment adjustments, the hospital must:

- be licensed in Oklahoma;
- have a medical residency program;
- apply for certification by the OHCA prior to receiving payments for any quarter;
- have a contract with OHCA to provide SoonerCare services; and
- belong to the Council of Teaching Hospitals or show proof of affiliation with an approved medical education program.

These payments are made by allocating a pool of funds by the share of residents per month to total

| DME Qualified Hospitals | SFY2007 |
|-----------------------------------|--------------|
| Baptist Medical Center | \$977,078 |
| Bone and Joint Hospital | \$257 |
| Comanche Co Memorial Hospital | \$28,970 |
| Deaconess Hospital | \$35,492 |
| Hillcrest Medical Center | \$1,805,699 |
| Jane Phillips Hospital | \$6,901 |
| Laureate Psych Hospital | \$6,660 |
| Medical Center of Southeastern OK | \$40,225 |
| Saint Francis | \$889,676 |
| Southwest Medical Center | \$143,224 |
| St. Anthony | \$1,435,978 |
| St. John | \$623,861 |
| Tulsa Regional Medical Center | \$1,310,935 |
| University Health Partners | \$8,938,416 |
| TOTAL | \$16,243,372 |

residents per month in all qualifying hospitals. The state matching funds are transferred to OHCA from the University Hospital Authority.

Graduate Medical Education (GME)

Graduate medical education refers to the residency training that doctors receive after completing medical school. Most residency programs are set up in teaching hospitals across the United States. GME derives funding from a variety of sources. Funding sources include patient care dollars and university funding, but the bulk of the money for GME comes from public, tax-supported sources, such as Medicare, Medicaid, the Department of Defense and Veterans' Affairs.

Payments are made to the major colleges of medicine based on the number of SoonerCare Choice members where Primary Care Physicians (PCP) are qualified participants. The state matching funds are transferred to OHCA from the University Hospital Authority.

SOONER CARE AND OUR PROVIDERS (CONTINUED)

PHARMACIES

Providers for SoonerCare wrote almost 2 million prescriptions in the first six months of the fiscal year. Members get an average of almost four prescriptions per month. According to the Institute of Medicine, nationally each year more than 1.5 million patients are injured and more than 7,000 patients die from preventable medication errors linked to handwriting errors and other problems associated with writing prescriptions on paper.

In an effort to avoid these potentially harmful and costly mistakes, the Oklahoma Health Care Authority has partnered with Cerner Corp. to launch an electronic prescribing program for SoonerCare's more than 700,000 members across the state.

Cerner's e-prescribing solution provides two-way electronic communication between physicians and pharmacies. Health care providers can use the system to write new prescriptions, authorize refills, make changes, cancel prescriptions, and see if patients have had prescriptions filled. E-prescribing also has the potential for sharing information such as medication history with other health care organizations. The program will roll out to 500 SoonerCare providers toward the latter part of 2007.

In another effort to reduce medication errors and provide quicker transactions, OHCA contracts with EPOCRATES®, Inc. to provide pharmacy benefit information to prescribers and pharmacists using their desktop computer or personal digital assistant (PDA). The service allows users to verify drug coverage status, preferred alternatives, drug interactions, prior authorization requirements, quantity limits and other drug-specific messages programmed by OHCA.

OTHER SOONERCARE PROVIDERS

In general, OHCA continues to strive to increase provider participation by streamlining processes and keeping our contracted providers as informed as possible. Payment rates are constantly being evaluated within the constraints of available state and federal funds. Ongoing provider outreach and training is being performed on a daily basis. OHCA also provides a secure Web site as a "one-stop shop" for providers to submit claims, check member enrollment and qualification for services, and receive specific information related to their provider type. Pertinent information such as manuals, forms, policy cites and program information can be found by each provider in their applicable areas.

Oklahoma specifies a target EPSDT screen compliance rate each year. The calendar year 2005 target was 65 percent. Providers who exceeded the target within their own patient panel were eligible for a bonus of up to 20 percent of their annual capitation revenue. Out of 836 providers evaluated, 247 received a bonus for a total payout of \$789,346. For more EPSDT information got to page 37 of this report.

OHCA AND SOONERCARE

From 1988 to 1992, the number of Oklahomans receiving Medicaid assistance increased by 47 percent, from 245,000 to 360,000. This escalating growth came with an associated cost increase from \$580 million to slightly more than \$1 billion.

As a result of recommendations from broad-based citizens' committees, the Oklahoma Health Care Authority was established by the Legislature in 1993 through House Bill 1573. The Health Care Authority Act can be found in Oklahoma Statutes Title 63, Sec. 5004.

As we complete our 12th year managing the now \$3.3 billion SoonerCare program, it is a long way from 1993 when the task force projected SoonerCare would, if left unchecked, approach \$4 billion by the year 2000. One-third of the \$3.3 billion pays for nursing home quality initiatives, medical education and medical-related programs administered by other state agencies.

The Oklahoma Health Care Authority has also led the effort to supplement state dollars with available and appropriate federal dollars. OHCA's revenue maximization initiatives have supported programs at the Oklahoma Department of Human Services, Department of Mental Health and Substance Abuse Services, Oklahoma State Department of Health, Office of Juvenile Affairs and the Department of Education, as well as Oklahoma University and Oklahoma State University medical schools and teaching hospitals.

OHCA does not want to miss an opportunity to maximize federal revenues; however, we must be vigilant. OHCA has an obligation, as a sound fiscal manager, to ensure that all plans to maximize federal revenues are compliant with applicable laws and regulations and will not put the state in jeopardy of a future disallowance.

OHCA staff perform an array of critical functions necessary for program administration, such as developing SoonerCare payment policies; managing programs to fight waste, fraud and abuse; maintaining the operating systems that support SoonerCare payments; developing cost-effective health care purchasing approaches; monitoring contractor and provider performance; promoting and preserving member rights and protections; and disseminating information to the Oklahoma Legislature, congressional delegation, members and the general public.

A board of directors meets monthly to direct and oversee the operations of OHCA. Board members are appointed by the governor, president pro tempore of the Senate and the speaker of the House. OHCA also has a Drug Utilization Review (DUR) board, a Medical Advisory Committee (MAC) and a joint legislative oversight committee. These groups of health professionals, providers, advocates and elected officials all serve to ensure that decisions are made to best serve the members' needs while maintaining the fiscal integrity of the agency.

OPERATING PRINCIPLES

The Oklahoma Health Care Authority has a set of goals and objectives that map what we strive to achieve as an agency. Our operating principles state how we will work together to get there. These principles affirm that OHCA is committed to a culture that will support its mission.

| Our Member Focus |
|---|
| We will act based on the knowledge that members are our primary customers and that OHCA's "reason for being" is to understand and respond to members' needs for health care, program-related information and prompt, courteous service. |
| We will use our market presence to actively seek high-value health care for members and encourage other purchasers of care to do the same. |
| We will work toward the highest standards of service to members, their families and the public, providing clear information and prompt and accurate processing of claims, appeals and correspondence. |
| We will act, with appropriate partners, to help assure that members receive equitable and nondiscriminatory services. |
| How We Work with Others in the Health Care System |
| We will strive to be an even-handed and reliable business partner with providers, states contractors and other stakeholders in our programs. |
| We will work collaboratively with our colleagues throughout the Oklahoma and federal governments and territories, tribes, accrediting bodies, member and provider advocacy groups and elsewhere to achieve mutual goals. |
| We will demonstrate leadership in the public interest, consistent with our position as one of the largest public purchasers of health care in Oklahoma, including the effective use of our administrative and clinical data resources to improve health outcomes and services to the public. |
| We will build on our record of successful implementation of legislated program changes to become more flexible and responsive to other changes in the health care environment. |
| How We Operate Within OHCA |
| OHCA staff will operate as members of the same team, with a common mission and each with a unique contribution to make to our success. |
| We will be open to new ways of working together, including creating project teams within and across agency divisions and units. |
| We will be consistent in our use of qualitative and quantitative data to guide and |

Administering the Sooner Care Program

Administering a Medicaid program is as challenging a task as there is to be found in public service. What distinguishes the program in degree of difficulty from Medicare and private insurers, however, is its varied and vulnerable member groups; its means-tested qualifying rules; the scope of its benefits package (spanning more than 30 different categories of acute and long-term care services); its interactions with other payers; its financial, regulatory and political transactions with a wide range of provider groups; and its joint federal and state financing.

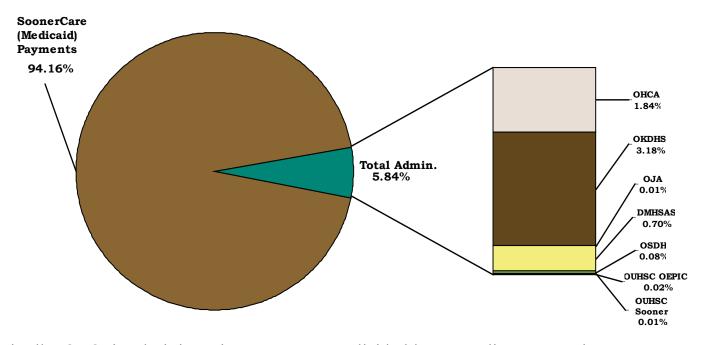

According to the Kaiser Family Foundation, state Medicaid plans must meet 63 separate federal statutory requirements. About a third (19) of these relate directly to administration.

| 🏴 From an administrative perspective, SoonerCare can be viewed as a complex health 👑 |
|---|
| insurance program: It purchases a broad range of acute and long-term care services on |
| behalf of enrolled low-income individuals. Like private insurers, OHCA has to accomplish |
| nine critical tasks. It must: |
| |
| inform individuals who are potentially eligible and enroll those who are qualified; |
| Addaming what hangits it will cover in what gettings: |
| determine what benefits it will cover in what settings; |
| Odetermine how much it will pay for the benefits it covers and from whom it will buy |
| those services; |
| establish standards for the providers from whom it will purchase covered benefits |
| and enroll (or contract with) those who meet the standards; |
| |
| process and pay claims from fee-for-service providers and make capitation payments |
| to primary care providers; |
| monitor the quality of the services it purchases to ensure that members are protected |
| from, and that tax payers are not subsidizing, substandard care; |
| |
| ensure that state and federal health care funds are not spent improperly or diverted |
| by fraudulent activities; |
| have a process in place for resolving grievances by applicants, members and |
| providers; and |
| a collect and report information recognize for affective administration and program |
| collect and report information necessary for effective administration and program accountability. |
| accountability. |
| |

ADMINISTERING THE SOONER CARE PROGRAM (CONTINUED)

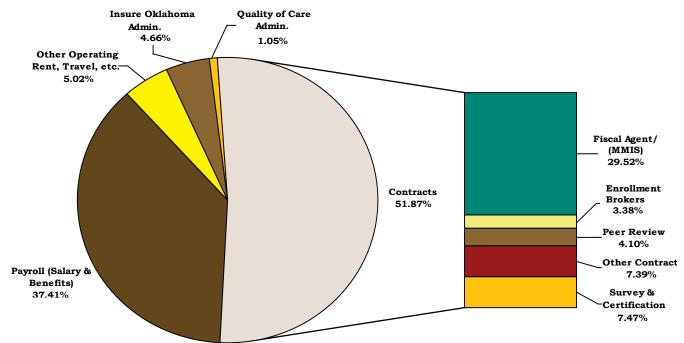

The administration of the SoonerCare program is divided among six different state agencies: the Oklahoma Health Care Authority (OHCA), the Oklahoma Department of Human Services (OKDHS), the Oklahoma State Department of Health (OSDH), the Office of Juvenile Affairs (OJA), the Department of Mental Health and Substance Abuse Services (DMHSAS) and the Oklahoma University Health Sciences Center (OUHSC).

Finally, OHCA's administrative expenses are divided between direct operating expenses and vendor contracts. Of the \$60 million spent by OHCA in SFY2007 on administration, 43 percent went to direct operation expenses, while 57 percent went toward vendor contracts.

FIGURE 18 OHCA ADMINISTRATIVE EXPENSES—SFY2007

STRATEGIC PLANNING

It is difficult to over estimate the importance and impact of SoonerCare, because the program is so large, it serves so many people in so many different population groups, and it plays a role to finance virtually every state program that relates to health. By any measure, SoonerCare makes a positive difference, even a critical difference, in the lives of hundreds of thousands of low-income Oklahomans.

The OHCA, our health partners, advocacy groups, legislators and other stakeholders meet annually to discuss the agency's upcoming enhancements, goals and challenges. These meetings help guide and set the strategic plan for that specific year.

BROADLY STATED GOALS

The heart of our Strategic Plan is the statement of our primary strategic goals. These goals represent not only our understanding of the agency's statutory responsibilities, but our broader sense of purpose and direction informed by a common set of agency values. They are:

- Improve health care access for the underserved and vulnerable populations of Oklahoma. (SoonerCare Members)
- Protect and improve member health and satisfaction, as well as ensure quality, with programs, services and care. (Member Satisfaction/Quality of Care)
- Promote members' personal responsibility for their health services utilization, behaviors and outcomes. (Member Responsibility)
- Ensure that programs and services respond to the needs of members by providing necessary medical benefits to our members. (Benefits)
- Purchase the best value health care for members by paying appropriate rates and exploring all available valid options for program financing. (Purchasing Issues/Provider Relations)
- Foster excellence in the design and administration of the SoonerCare program.

The OHCA produces an award-winning Service Efforts and Accomplishments report every year. This report details the specific efforts of our agency and others to accomplish the above primary and yearly specific goals outlined in the agency's Strategic Plan. Both the Strategic Plan and the Service Efforts and Accomplishments reports can be found on OHCA's public Web site at www.okhca.org\Research\Reports.

Program and Payment Integrity Activities

The demand and costs for social and health care services continues to grow, while available federal and state funding continues to diminish. In addition, public demand for economy and accountability in government spending is increasing. Improper payments in government health programs, such as SoonerCare, drain vital program dollars, hurting members and taxpayers. Such payments include those made for treatments or services that are not covered by program rules, that were not medically necessary, that were billed but never actually provided or that have missing or insufficient documentation to show whether the claim was appropriate. Improper SoonerCare payments can result from inadvertent errors, as well as intended fraud and abuse.

Unlike inadvertent errors, which are often due to clerical errors or a misunderstanding of program rules, fraud involves an intentional act to deceive for gain, while abuse typically involves actions that are inconsistent with acceptable business and medical practices. OHCA's claim processing system (MMIS) has hundreds of edits that stop many billing errors from being paid. However, no computer system can ever be programmed to prevent all potential billing errors.

The OHCA protects taxpayer dollars and the availability of SoonerCare services to individuals and families in need by coordinating an agency-wide effort to identify, recover and prevent inappropriate provider billings and payments.

Within Oklahoma, two major agencies share responsibility for protecting the integrity of the state SoonerCare program. The OHCA is responsible for ensuring proper payment and recovering misspent funds, while the Attorney General's Medicaid Fraud Control Unit (MFCU) is responsible for investigating and ensuring prosecution of Medicaid fraud.

In addition to the OHCA and MFCU, other state and federal agencies assist in dealing with SoonerCare improper payments. Because of their responsibility to ensure sound fiscal management in their states, state auditors may become involved in Medicaid payment safeguard activities through efforts such as testing payment system controls or investigating possible causes of mispayment. At the federal level, both the Centers for Medicare & Medicaid Services (CMS) and the Office of Inspector General of the Department of Health and Human Services (DHHS-OIG) oversee state program and payment integrity

| Actions resulting from the program and payment integrity efforts may include: |
|--|
| Clarification and streamlining of SoonerCare policies, rules and billing procedures; |
| increased payment integrity, recovery of inappropriately billed payments and avoidance of future losses; |
| clucation of providers regarding proper billing practices; |
| termination of providers from participation in the SoonerCare program; |
| referrals to the Attorney General's Medicaid Fraud Control Unit (MFCU). |
| |

58

PROGRAM AND PAYMENT INTEGRITY ACTIVITIES (CONTINUED)

POST-PAYMENT REVIEWS AND RECOVERIES

Various units within the OHCA are responsible for separate areas of potential recoveries, cost avoidance and fee collection. The Surveillance Utilization and Review Services (SURS) Unit staff safeguards against unnecessary utilization of care and services. The Pharmacy Unit reviews paid pharmacy claims to determine that claims are valid and in compliance with applicable federal and state rules and regulations. The Audit Management Unit staff perform audits and reviews of external providers in regard to inappropriate billing practices and noncompliance with OHCA policy. Reviews can be initiated based on complaints from other SoonerCare providers, members, concerned citizens or other state agencies, as well as risk-based assessments.

PEER REVIEW ORGANIZATION (PRO)

Some SoonerCare services are subject to utilization review by a Peer Review Organization (PRO) under contract with OHCA. The PRO conducts a medical hospital retrospective random sample review on services provided to SoonerCare Traditional members. The purpose of the inpatient hospital utilization review program is to safeguard against unnecessary and inappropriate medical care rendered to SoonerCare members. Medical services and/or records are reviewed for medical necessity, quality of care, appropriateness of place of service and length of stay. Federal regulations require this function to be performed by a PRO.

FIGURE 19 POST-PAYMENT REVIEW RECOVERIES—SFY2007

Additionally, the PRO performs onsite inspection of care reviews for licensed psychiatric inpatient and day treatment facilities that provide services to SoonerCare members under 21 years of age. These reviews include evaluation and monitoring of facility accreditation status, as well as evaluation of medical record documentation and program utilization. APS Healthcare Inc. was the PRO under contract with OHCA during SFY2007. Additional information on APS Healthcare may be found at www.apshealthcare.com.

PROGRAM AND PAYMENT INTEGRITY ACTIVITIES (CONTINUED)

POST-PAYMENT REVIEWS AND RECOVERIES (CONTINUED)

THIRD PARTY LIABILITY (TPL) RECOVERIES

The OHCA uses a combination of data matches, diagnosis code edits and referrals from providers, caseworkers and members to identify available third party resources such as health and liability insurance. The TPL program also ensures that SoonerCare recovers any costs incurred when available resources are identified through liens and estate recovery programs.

Estate Recoveries \$2,613,940

COST AVOIDANCE

Cost avoidance is the method of either finding alternate responsible payers, such as other insurance coverage, or by optimizing pharmaceutical treatment options.

THIRD-PARTY LIABILITY (TPL) COST AVOIDANCE The Third-Party Liability (TPL) program also reduces costs to the SoonerCare program by identifying third parties liable for payment of a member's medical expenses. States are federally required to have a system to identify medical services that are the legal obligation of third parties, such as private health or accident insurers. Such third-party liability resources should be exhausted prior to the paying of claims with program funds (cost avoidance).

PRODUCT-BASED PRIOR AUTHORIZATION COST

AVOIDANCE The goal of the Product-Based Prior Authorization (PBPA) program is to optimize each member's drug regimen with medication that best

Medicare \$707,237,909 Private Insurance \$269,020,905

treats the patient's condition given his or her unique health status and circumstances.

The PBPA cost avoidance dollars represent savings the program achieved in five therapeutic classes: non-steroidal anti-inflammatory drugs (NSAIDs), anti-ulcer drugs (proton pump inhibitors), anti-hypertension drugs (ACE inhibitors, calcium channel blockers, and angiotensin receptor blockers), ADHD treatments and SSRI antidepressants. Each class of medication is divided into two or more tiers. Tier 1 products are available with no restrictions, and Tier 2 products require prior authorization. A member with clinical exceptions or who has not tolerated or achieved clinical success with a Tier 1 product can obtain a Tier 2 medication via the prior authorization process. Manufacturers of Tier 2

products have the option to participate in the Supplemental Drug Rebate Program, which moves their product into Tier 1 and removes the prior authorization requirement.

PROGRAM AND PAYMENT INTEGRITY ACTIVITIES (CONTINUED)

State Maximum Allowable Cost Program

The State Maximum Allowable Cost (SMAC) program limits pharmacy reimbursement for generic products. SoonerCare has one of the highest generic utilization rates of any benefit plan in the nation, with an average of more than 68 percent of all prescriptions being

dispensed as a generic drug. When the SMAC program was started in 2000, there were 400 products included. The most recent list includes more than 1,100 drug products.

By limiting the amount paid for generic drugs, OHCA was able to save more than \$75.5 million in SFY2007.

REBATES AND FEES

Supplemental Drug Rebate Program The SoonerCare State Supplemental Drug Rebate program makes drugs available for members while ensuring cost-effectiveness for the taxpayer. The federal program allows pharmaceutical manufacturers to partner with the state to provide rebates for drugs that would otherwise require prior authorization. If the manufacturer agrees to provide a rebate for its products, then the products become available without prior authorization. This rebate is in addition to the federal Drug Rebate Program, which guarantees that the SoonerCare program receives a "best price" for each product. With the Supplemental Drug Rebate program, members receive medications quickly, providers do not face red tape, staff resource needs are reduced and manufacturers are able to maintain or increase the market share of their products.

Drug Rebate Program (established by the enactment of the Omnibus Budget Reconciliation Act of 1990) was designed to offset prescription expenditures and guarantee that states pay no more than the lowest price charged by a manufacturer for prescription drugs. In exchange for the rebate, states must make all products of a contracted manufacturer available to SoonerCare members within the framework of the federal requirements. Pharmacy reimbursement is continuously

monitored to assure a fair price is paid in exchange for goods and services provided by pharmacists. Drug manufacturers are invoiced on a quarterly basis. Interest is assessed by the OHCA on late payments.

Rebates - Federal \$81,398,186
Rebates - State Supplemental \$5,135,371
Interest \$133,846

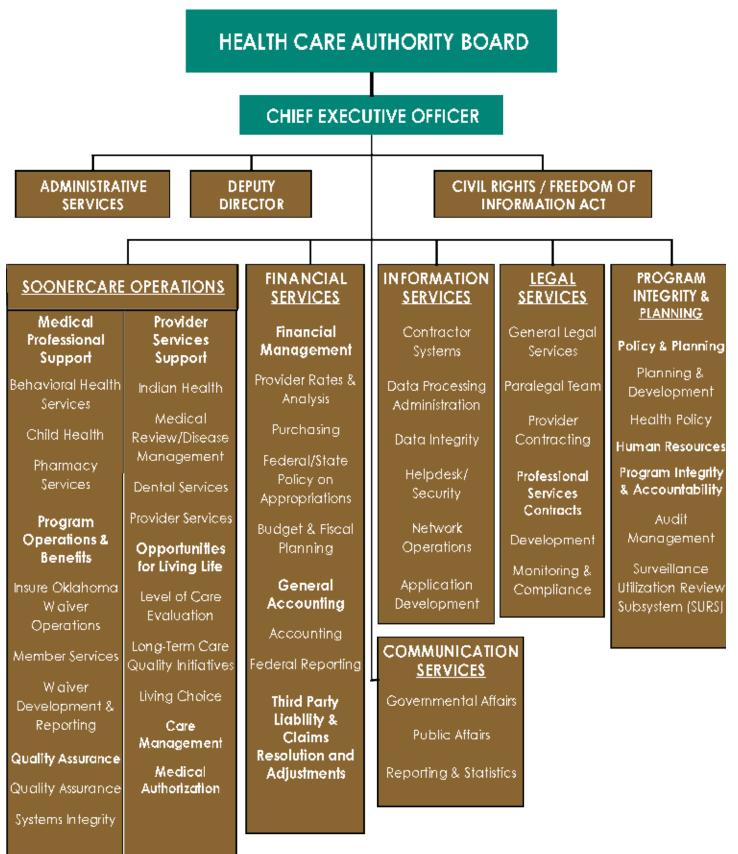

Long-Term Care Quality of Care Program Fees In an effort to increase the quality of care received by long-term care members, the Quality of Care (QOC) Program was put into place. A fee per patient day is collected from long-term care facilities and placed in a revolving fund. The fund is used to pay for a higher facility reimbursement rate, increased staffing requirements, program administrative costs and other increased member benefits. Additionally, funds are being used by other state agencies, such as the Oklahoma State

Department of Health, to maintain staff dedicated to investigations and on-site surveys of long-term care facilities and the Oklahoma Department of Human Services for 10 regional ombudsmen.

Total Quality of Care Program revenues were \$54,277,601.

Facilities receive monthly invoices for fee payment based on their self-reported patient census and revenues. Quality of Care fees and/or reports not submitted in a timely manner are subject to a penalty.

FIGURE 20 OHCA'S ORGANIZATIONAL CHART

OHCA contact information can be found on the inside back cover or at <u>www.okhca.org/contact us</u>.

APPENDIX A GLOSSARY OF TERMS

ABD - The Aged, Blind and Disabled SoonerCare population.

Member - A person enrolled in Oklahoma SoonerCare.

CMS - Centers for Medicare & Medicaid Services, formally known as Health Care Financing Administration (HCFA), federal agency that establishes and monitors Medicaid funding requirements.

EDS - Electronic Data Systems is OHCA's fiscal agent. EDS processes claims and payments within Oklahoma's Medicaid Management Information System (MMIS).

Enrollee - For this report, an individual who is qualified and enrolled in SoonerCare, who may or may not have received services during the reporting period.

Fee-For- Service (FFS) - The method of payment for the SoonerCare population that is not covered under SoonerCare Choice. Claims are generally paid on a per service occurrence basis.

FFY - Federal Fiscal Year. The federal fiscal year starts on October 1 and ends September 30 each year.

FMAP - Federal Medical Assistance Percentage - The federal dollar match percentage.

ICF/MR - Intermediate Care Facility for the Mentally Retarded.

EPSDT - Early and Periodic Screening, Diagnosis and Treatment also known as "well child" screens.

MMIS - Medical Management Information System—the claims processing system.

SCHIP - State Children's Health Insurance Program for children age 19 and under who have no creditable insurance and meet come requirements. (Title XXI)

SFY - State Fiscal Year — starts on July 1 and ends June 30 each year.

SoonerCare Choice - Oklahoma's partially capitated managed care program.

TANF/AFDC - Temporary Assistance for Needy Families, formerly known as Aid to Families with Dependent Children. Categorized in this report as Parents and Children.

Title XIX - Federal Medicaid statute enacted in 1965 under the Social Security Act financed by both federal and state dollars.

FIGURE I TECHNICAL NOTES

Throughout this report a combination of data sources were used to provide the most accurate information possible. Financial statement data represents actual cash expenditures as reported to the Office of State Finance while MMIS data warehouse expenditure data/detail breakdowns are the net of overpayments and adjustments. This will cause some variations in dollar figures presented. Provider billing habits can also cause claim variations. All report claim data is extracted with the date paid by OHCA being within the report period. Provided that a member is enrolled at the time of service, a provider has one year from the date of service to submit a claim. Some providers hold claims and submit them all at once. For example, if a member receives a service in May and the provider submits and is paid for the claim in July, that member will be counted as a member and the dollar totals will be included in the July reporting period, even if the member may not be enrolled within that same reporting time frame. If that member is not enrolled at some point within the reporting period, he or she will not be counted in the "Enrollees."

Source: OHCA Financial Service Division, September 2007. *Medicaid Program Fund & HEEIA includes \$3,953,589 Premium Assistance payments from HEEIA Fund. Financial statement data represents actual cash expenditures as reported to the Office of State Finance while MMIS data warehouse expenditure data is net of overpayments and adjustments. The Medicaid Program Fund, the HEEIA Fund and the BCC (Oklahoma Cares) Revolving Fund are all funded by tobacco tax collections.

Source: OHCA Financial Service Division, September 2007. Claim dollars were extracted from the MMIS claims history file for claims paid within the fiscal year. Financial statement data represents actual cash expenditures as reported to the Office of State Finance while MMIS data warehouse expenditure data is net of overpayments and adjustments. Member Served figures are the unduplicated counts of members that received a service. If a member received services from multiple service type providers, they would be counted once for each type of service; the total count is the unduplicated count overall.

Source: OHCA Financial Service Division, September 2007. *Other includes \$160,775,352 in Hospital Supplemental (IME/GME/DSH and UPL) payments; \$49,990 in Insure Oklahoma ESI Out-of-Pocket and \$3,614,205 ESI Premium payments; and \$135,400 in Insure Oklahoma IP payments. Claim dollars were extracted from the MMIS claims history file for claims paid within the fiscal year. Financial statement data represents actual cash expenditures as reported to the Office of State Finance while MMIS data warehouse expenditure data is net of overpayments and adjustments.

Member Served figures are the unduplicated counts of members per aid category that received a service. A member may be counted in more than one aid category.

Source: OHCA Financial Service Division, September 2007. Child figures are for individuals under the age of 21.

^{*}Other Aid Categories include SoonerPlan, TEFRA, O-EPIC and Oklahoma Cares members. Other Aid Categories expenditures include \$126,698,566 in Hospital Supplemental (GME/DSH and UPL) payments. Claim dollars were extracted from the MMIS claims history file for claims paid within the fiscal year. Financial statement data represents actual cash expenditures as reported to the Office of State Finance while MMIS data warehouse expenditure data is net of overpayments and adjustments.

Member Served figures are the unduplicated counts of members per aid category that received a service. A member may be counted in more than one aid category.

| TOTAL | 28,199 |

The term "contracted" is defined as a provider that was enrolled with Oklahoma SoonerCare within SFY2007, it does not necessarily indicate participation or that a provider has provided services. Some of the above provider counts are grouped by the subcategory of provider specialty; therefore, a provider may be counted multiple times if they have multiple provider types and/or specialties.
