

## CPO Announcement

**State of Oklahoma**  
**Office of Management and Enterprise Services**

**DATE:** June 19, 2025.

**TO:** All CPOs.

**FROM:** Office of Management and Enterprise Services.

**SUBJECT:** State Use program – WorkQuest update.

**CONTACT:** [Ryan Gold](#).

Procurement professionals,

This announcement is intended to formally notify CPOs that OMES Central Purchasing will end the current agreement with WorkQuest, our State Use third-party provider, effective July 20.

After careful consideration, we have determined that it is in the best interest of agencies and the State Use program to discontinue the WorkQuest partnership. More information as to what the program will look like after the agreement ends will be distributed in the following weeks.

Any purchases made as part of the State Use program through July 20 will still be completed using WorkQuest. Starting July 21, agencies may contract directly with State Use suppliers, as was done in the past. Contact information for these suppliers can be found in the State Use Supplier Contact List, the final attachment on the [State Use contract webpage](#).
