New Verizon smartphone service plans will replace legacy public safety and public sector service plans and include enhanced features, such as:

- Unlimited mobile hotspot.
- Unlimited push-to-talk plus.
- International calling at reduced per-minute rates.

Customers can begin transitioning to the new plans by using the My Business app or contacting their Verizon account team.

The new pricing will apply to customers' accounts once a line transitions to one of the new service plans. Any wireless lines of service that have not transitioned by June 30 will be automatically transitioned on July 1 and billed at the new rate.

Please note that the transition to the new service plan(s) may necessitate power cycling of the customer device(s).

Summary of price changes:

- Custom 4G unlimited smartphone plan for public sector changing from \$65.00/month to \$50.70/month.
- Custom 4G/5G unlimited smartphone plan for public sector changing from \$40.00/month to \$36.99/month.
