Retirement Formula

Annual Retirement Benefit

OKLAHOMA
Teachers' Retirement System

Retirement Benefit Formula.

Once retired, vested TRS members receive a lifetime monthly benefit from TRS. Generally, a member's maximum retirement benefit is determined by the member's years of service and final average salary (FAS):

$$2\% \times (\text{service years}) \times \text{FAS} = \text{Maximum Retirement Benefit}$$

How is FAS Calculated?

First Date Participating in TRS	Prior to July 1, 1992	July 1, 1992 - October 31, 2011	After October 31, 2011
Retirement Eligibility Rule	Rule of 80	Rule of 90	Rule of 90 + Minimum Age of 60
Final Average Salary Calculated by:	Highest three (3) contributory salaries	Highest consecutive five (5) contributory salaries	

Example of Retirement Benefit Formula

Benefit Calculation

**Service Performed
After July 1, 1995**

Service Years	30
Salary Base	Final Average Salary = \$60,000
Benefit	$\$60K \times 2\% = \$1,200$ $\$1,200 \times 30 = \$36K/12 =$ \$3,000 per month

\$3,000 per month / \$36,000 annual benefit

OKLAHOMA
Teachers' Retirement System

Pre-July 1995 Service Credit and Salary Caps

Members with service credit prior to July 1, 1995, may have a slightly different retirement benefit calculation due to “capped years of service.”

- Prior to July 1, 1995, contributions were paid on maximum salary of either \$25,000 or \$40,000
- This results in a Two-Tiered Benefit Calculation for affected members
 - Salary caps were removed for service performed on or after July 1, 1995

OKLAHOMA
Teachers' Retirement System

Can I convert capped years of service to uncapped years?

Eligible members may convert capped years of service to uncapped years of service through the “Education Employees Service Incentive Plan” or **EESIP** (aka the Wear-Away Plan)

- 4-year university employees do not qualify for EESIP
- Utilizing EESIP can increase a member’s benefit
- If eligible and Pre-1995 salaries are capped at \$25,000 there may be a cost involved to participate
